Independent Auditors' Report

To the Board of Directors of Standard Chartered Bank (Taiwan) Limited,

Opinion

We have audited the accompanying balance sheets of Standard Chartered Bank (Taiwan) Limited (“the Company”) as of June 30, 2024, December 31, 2023 and June 30, 2023, and the related statements of comprehensive income, changes in equity and cash flows for the six months ended June 30, 2024 and 2023, and notes to the financial statements, including the summary of significant accounting policies.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of June 30, 2024, December 31, 2023 and June 30, 2023, and their financial performance and cash flows for the six months ended June 30, 2024 and 2023, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Public Banks, Regulations Governing the Preparation of Financial Reports by Securities Firms and the International Accounting Standard (IAS) 34, *Interim Financial Reporting*, as endorsed by Financial Supervisory Commission of the Republic of China (“FSC”).

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants, Jin-Guan-Yin-(Fa)-Zi No. 10802731571, and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the “Norm”), and we have fulfilled our other ethical responsibilities in accordance with the Norm. Based on our audits, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recognition of loss provision for loans

As of June 30, 2024, total outstanding loan balance of the Company was \$294,036,206 thousand, accounting for 40% of total assets, which was significant to the Company's financial statements. The Company was required to assess and recognize the expected credit losses (ECL) provision in accordance with IFRS 9 and *the Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans*. The assumptions, including the indicators of significant increase in credit risk since initial recognition and credit impairment which has been incurred, the selection and incorporation of forward-looking information for the remaining life of an exposure, the quantitative measurement of probability of default (PD) and the loss given default (LGD), management applied to the ECL provision assessment involved exercise of significant professional judgment and was therefore a key audit matter for our audit.

We performed the following audit procedures, including but not limited to: evaluating and testing the controls related to ECL provision calculation, including examining whether ECL model has been approved by the management and testing the appropriateness of the inputs into the model, engaging the specialists to evaluate the appropriateness of ECL model, sampling all loans to test the appropriateness and reasonableness of the parameters used for ECL model, which include PD and LGD. In addition, we reviewed and examined whether the loss provision for loans is reserved in line with the minimum requirement of the regulations and ensured the appropriateness of loan classification in compliance with the regulations.

Please refer to note 4, 5, and 6 to the Company's financial statements for the disclosure on accounting policies and assessment of loss provision for loans.

Valuation of financial instruments

Fair value of certain financial instruments was determined by the Company's internal valuation techniques which often involve the exercise of judgment and the use of assumptions and estimates. Change on the assumptions used by the Company would cause significant impact on fair value of the financial instruments. Therefore, we determined the valuation of financial instruments is a key audit matter.

We performed the following audit procedures, including but not limited to: evaluating and testing the controls related to valuation of financial instruments, including those controls over determining and approving the use of valuation models and their assumptions, any changes on the valuation techniques and assumptions, and management review. In addition, we engaged the valuation specialists to assist in reviewing the valuation techniques by sampling, understating and assessing the reasonableness of key assumptions, and performing independent valuation and determining whether the difference falls within the acceptable range.

Please refer to note 4, 5, and 6 to the Company's financial statements for the relevant disclosure on valuation of financial instruments.

Disclosures on related party transactions

The Company is one of the subsidiaries under Standard Chartered PLC (the "Group") and has signed multiple service agreements with significant amounts with other affiliates in the Group. The services include interbank fund transferring, derivatives trading, service income and service fees. Due to the risk of undisclosed or unidentified related party transactions, we determined disclosures on related party transactions is a key audit matter.

We performed the following audit procedures, including but not limited to: understanding and assessing the Company's processes of identifying related parties and related transactions, agreeing the total accounting records and balance of related party transactions to the records and balances that management provided, performing the reconciliation if any differences were identified.

Please refer to note 7 to the Company's financial statements for detailed disclosures on related parties and associated transactions.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Public Banks, Regulations Governing the Preparation of Financial Reports by Securities Firms, and International Accounting Standard (IAS) 34, *Interim Financial Reporting*, as endorsed by Financial Supervisory Commission of the Republic of China (“FSC”) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ability to continue as a going concern of the Company, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Company.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the accompanying notes, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those who charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Due from the central bank and call loans to banks qualifying for cash and cash equivalents under the definition of IAS 7	105,852,392	85,394,224
Securities purchased under resell agreements qualifying for cash and cash equivalents under the definition of IAS 7	24,090,442	11,140,085
Cash and cash equivalents at end of period	\$143,316,835	\$113,419,189

The accompanying notes are an integral part of the financial statements.

English Translation of Financial Statements Originally Issued in Chinese
STANDARD CHARTERED BANK (TAIWAN) LIMITED
Notes to the Financial Statements
For the six months ended June 30, 2024 and 2023
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

1. Organization and operations

Standard Chartered Bank (Taiwan) Limited (the “Company”) was established on September 15, 1948, in the Taoyuan, Hsinchu, and Miaoli areas. The original name of the Company was Hsinchu District’s Mutual Loan Inc., which specialized in the mutual loan business, deposits, loans, and payment collection. In compliance with the Banking Act of the Republic of China (“ROC”), the Company restructured to become The Small and Medium Business Bank of Hsinchu District on January 1, 1978, and in addition to the original lines of business, the Company started to conduct checking deposit and regular banking businesses.

Pursuant to an approval granted by the Securities and Futures Commission (“SFC”), which subsequently changed its name to the Securities and Futures Bureau (“SFB”) on July 1, 2004, the Company’s shares were authorized to be publicly issued beginning March 1982 and publicly traded beginning March 22, 1983. Additionally, pursuant to approval granted by the Ministry of Finance (“MOF”), the Company established a Trust Department in January 1989, pursuant to approval granted by the SFC, the Company established the securities trading business in October 1989 and established the securities broker business in July 1992. In March 1993, pursuant to approval granted by the MOF, the Company established the International Business Department to operate the foreign exchange business, which was formally operated in August at the same year. In September 1994, pursuant to approval granted by the Taiwan provincial government MOF, the Company started cross-regional operations. On January 16, 1995, the Company established an Offshore Banking Unit (“OBU”), which began operations immediately.

The Company was approved by the MOF to operate as a commercial bank in September 1998 and changed its name to Hsinchu International Bank Co., Ltd. on April 20, 1999.

During 2006, Standard Chartered Bank provided a tender offer to acquire the outstanding shares of Hsinchu International Bank Co., Ltd. Accordingly, Standard Chartered Bank acquired over 95% of the outstanding shares. After completion of the acquisition of shares, Hsinchu International Bank Co., Ltd. immediately submitted the delisting application, which was approved by the related authorities on January 18, 2007. On June 30, 2007, the operations of Standard Chartered Bank, Taipei Branch were transferred to Hsinchu International Bank Co., Ltd.; subsequently, Hsinchu International Bank Co., Ltd. was renamed Standard Chartered Bank (Taiwan) Limited on July 2, 2007. As of June 30, 2024, the Company comprises a business department, a trust department, and an offshore banking unit, 54 branches in total.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

The Company acquired the outstanding assets, liabilities and operations of American Express Bank, Taipei Branch (“AEB”) and Asia Trust Investment Co., Ltd. (“ATIC”) on August 1 and December 27, 2008, respectively.

On October 9, 2014, the Company terminated trading of securities in the stock exchange market, trading of securities at the business establishment, margin purchase and short sale of securities, trading of futures and dissolved the securities branch.

On May 6, 2015, the Company was approved to start engaging in underwriting of bonds and marketable securities (limited to fixed income securities).

Approved by the board of directors in June 2016 and by the Insurance Bureau in July 2016, Standard Chartered Life Insurance Agency Co., Ltd. (“SCLIA”) and Taiwan Standard Chartered Insurance Agency Co., Ltd. (“TSCIA”), which were 100 percent owned subsidiaries, were merged into the Company through absorption on October 1, 2016. The Company’s stockholders’ equity was not affected by the mergers. After the mergers, the assets, liabilities, rights and obligations of these two subsidiaries, as of the date of mergers, were generally assumed by the Company. Since the Company no longer has other subsidiaries, therefore, the Company only issues individual financial statements as of the fourth quarter of 2016.

The Company was approved by the Financial Supervisory Commissions R.O.C. (“FSC”) to dissolve the International Business Department on October 21, 2016.

2. Date and procedures of authorization for issuance of the financial statements

The financial statements were authorized for issuance by the Board of Directors on August 29, 2024.

3. Newly issued or revised standards and interpretations

(1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Company applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are endorsed by Financial Supervisory Commission (“FSC”) and became effective for annual periods beginning on or after January 1, 2024. The first-time adoption of these new standards and amendments had no material impact on the Company.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

- (2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by FSC, and not yet adopted by the Company as at the end of the reporting period are listed below.

Item	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Lack of Exchangeability – Amendments to IAS 21	January 1, 2025

The abovementioned amendments are applicable for annual periods beginning on or after January 1, 2025 and have no material impact on the Company.

- (3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Company as at the end of the reporting period are listed below.

Item	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” - Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 “Insurance Contracts”	January 1, 2023
c	IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027
d	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	January 1, 2027
e	Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	January 1, 2026
f	Annual Improvements to IFRS Accounting Standards – Volume 11	January 1, 2026

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Company’s financial statements were authorized for issue, the local effective dates are to be determined by FSC. The Company assessed that the abovementioned standards and interpretations are inapplicable or have no material impact on the Company.

4. Summary of significant accounting policies

(1) Statement of compliance

The financial statements have been prepared in conformity with the Regulations Governing the Preparation of Financial Reports by Public Banks, Regulations Governing the Preparation of Financial Reports by Securities Firms, and International Accounting Standard (IAS) 34, *Interim Financial Reporting*, as endorsed and became effective by FSC.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(2) Basis of preparation

The financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The financial report includes DBU (Domestic Banking Unit) and OBU. Internal transactions and internal income and expenditure transactions from each branch are eliminated when compiling financial statements.

The Trust Department of the Company independently sets up accounts and prepares financial statements for the trust funds entrusted to be managed and used for internal management purposes. The Trust Department keeps a memorandum record for the trust assets entrusted for custody.

(3) Foreign currency transactions

Except for accounts in the OBU of the Company that are denominated in US Dollars, accounts in all entities are denominated in New Taiwan Dollars. For those transactions denominated in foreign currencies, assets and liabilities are recorded in their original foreign currencies, while all income and expense accounts are denominated in original foreign currencies and translated into New Taiwan Dollars at the daily closing exchange rates. At the report date, the financial statements amount in all foreign currencies are translated into New Taiwan Dollars at ruling exchange rates assigned on that date. The Company's financial statements are presented in New Taiwan Dollars, the functional currency of the Company. All financial information presented in New Taiwan Dollars is expressed in thousands of New Taiwan Dollars, unless otherwise specified. Foreign exchange differences arising from the conversion of currency are recognized in current period profit or loss.

(4) Cash and cash equivalents

Cash and cash equivalents include cash on hand, checks for clearing, and due from banks, but cash that is either restricted to be used only for specified purposes or by regulation or contracts is excluded. According to the statements of cash flow prepared under the definition of IAS 7, cash and cash equivalents include highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Such investments are normally those with less than three months' maturity from the date of acquisition, due from the Central Bank and call loans to banks, and securities and bonds purchased under resell agreements.

STANDARD CHARTERED BANK (TAIWAN) LIMITED
Notes to the Financial Statements (Continued)
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(5) Financial instruments

(a) Financial assets

Financial assets held by the Company are recorded on the trading date.

Financial assets are recognized when the Company becomes the party of a financial instrument contract. Financial assets are classified into the following categories: measured at amortized cost, fair value through other comprehensive income (FVOCI), and fair value through profit or loss (FVTPL).

The Company shall reclassify all affected financial assets only when it changes its business model for managing its financial assets.

i. Financial assets measured at amortized cost

A. Debt instrument investments measured at amortized cost

When a financial asset meets both of the following conditions and is not designated as at FVTPL, it is measured at amortized cost;

- a. it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- b. its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses, and impairment loss are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

B. Securities and bonds under repurchase/resell agreements

Securities and bonds sold/purchased with a commitment to repurchase/resell at predetermined price are treated as financing transactions. The difference between the cost and the repurchase/resell price is treated as interest expenses/revenue and recognized over the term of the agreement. On the selling/purchasing date, these agreements are recognized as securities and bonds sold under repurchase agreements or securities and bonds purchased under resell agreements.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

C. Loans and receivables

Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Credit maturing less than one year is called short-term credit; credit maturing more than one year but less than seven years is called medium-term credit; and credit maturing more than seven years is called long-term credit. Loans with collateral, pledged assets, qualified guarantees and other legally guaranteed objects to secure credit are secured loans.

Loans are recorded initially at principal and reported at their outstanding balances after netting with any provisions for doubtful accounts. In accordance with the Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans approved by FSC, an allowance for doubtful accounts is determined by evaluating the collectability of loans and days past due of receivables (including non-performing loans and interest receivable). Any non-performing loans or non-accrual loans shall be written off after subtracting the estimated recoverable portion.

However, when requested by the competent authority or any financial examination agency (organization), loans must be immediately written off, and a report must be made to the subsequent board meeting. Collections after written off shall be reversed from the allowance for bad debt expense.

Principal or interest overdue over 3 months is categorized as overdue accounts. If principal or interest of any outstanding loan is overdue for over 6 months, both the principal and accrued interest are reclassified as non-performing loan. Accrued interest on a non-performing loan will only be calculated and booked into memo accounts.

Loans and receivables should be evaluated at every reporting date whether or not the credit risks have increased significantly after initial recognition. One estimate is by comparing the default risk at reporting date and initial recognition date, and considering the reasonableness and verifiable information of the increase in credit risk since initial recognition as the estimate basis for default risk and expected loss rate to calculate the expected credit loss. Another estimate follows Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans issued by FSC and other related regulations. Final provision will be based on the higher of the two estimates.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Reserves for guarantees and financing commitments are appropriately provided, based on the possibilities of bad debts arising from off balance sheet loan commitments and financial guarantee contracts.

ii. Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- A. it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- B. its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instrument investments at fair value through other comprehensive income should be valued at fair value on the reporting date, and the changes in value shall be listed in other comprehensive income as adjustment items. It should also use the effective rate to amortize the discount premium and calculate the interest receivable on an accrual basis, as well as recognize the credit impairment loss. If the impairment loss related to the events after impairment recognition is reduced in the subsequent period, it is reversed and recognized as profit or loss in the current period. The reversal is limited by the fact that other comprehensive income recognized as impairment adjustment items cannot be negative. Prior to derecognition, the changes in the remaining book values of financial assets, other than foreign currency related financial asset exchange losses, interest income calculated according to effective interest rate, and impairment losses recognized in income, should be recognized in other comprehensive income and accumulated under equity in “Unrealized profit or loss on financial assets at fair value through other comprehensive income.” Upon derecognition, the accumulated profit or loss under equity should be reclassified as profit or loss in the current period.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment’s fair value in other comprehensive income. A financial asset measured at FVOCI is initially recognized at fair value, plus any directly attributable transaction costs. These assets are subsequently measured at fair value. Dividends deriving from equity investments are recognized as income in profit or loss, and other net gains and losses of financial assets measured at FVOCI are recognized in OCI. On derecognition, gains and losses accumulated in OCI of equity investments are reclassified to retained earnings.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

iii. Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value, which take into account any dividend and interest income, are recognized in profit or loss.

iv. Impairment of financial assets

The Company measures loss allowances for expected credit losses on financial assets measured at amortized cost (including cash and cash equivalents, due from the Central Bank and call loan to banks, securities and bonds purchased under resell agreements, receivables, discounts and loans, financial assets measured at amortized cost and other assets), debt investments measured at FVOCI, and contract assets.

The Company takes into consideration the reasonable information supported by evidence that can be obtained without excessive cost or input, which includes qualitative and quantitative information, an analysis based on the Company's past experience, credit evaluation, and prospective information, when determining whether there is a significant increase in the credit risk of financial assets since initial recognition. If a financial asset or portfolio of financial assets does not experience a significant increase in credit risk since initial recognition, the loss allowances are measured at 12-month ECL; and such assets are classified as Stage 1 assets. However, if a financial asset, or portfolio of financial assets, experiences a significant increase in credit risk since initial recognition, an ECL allowance should be recognized for default events that may occur over the lifetime of the asset; and such assets are classified as Stage 2 assets.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

ECLs are a probability-weighted estimate of credit losses during the expected lifetime of financial assets. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets at amortized cost and debt instrument investments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt instrument investments at FVOCI, the loss allowance is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Please refer to note 6(37) for information on financial risks for the Company's judgment on whether the credit risk has significantly increased after initial recognition and prospective adjustments.

v. Derecognition of financial assets

Financial assets are derecognized when the contractual rights to the cash flows from the assets expire, or when the Company transfers substantially all the risks and rewards of ownership of the financial assets.

If majority of the risks and rewards are not kept nor transferred, while the Company still possess the ownership of the financial assets, then the Company shall continuously recognize it as assets according to the extent of its own involvement.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

vi. Reclassification of financial assets

Only when the business model of financial assets management is changed does the Company reclassifies the affected financial assets according to regulations.

(b) Financial liabilities

The financial liabilities held by the Company include financial liabilities measured at fair value through profit or loss and hedge derivatives.

i. Financial liabilities at fair value through profit or loss

A financial liability is held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. A derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument, is classified as instrument held for trading as well. Financial liabilities held for trading include obligations to deliver financial assets borrowed by a short seller.

ii. Financial liabilities measured at amortized cost

All financial liabilities not classified as FVTPL described as above, derivative financial liabilities for hedging, loan commitment, financial guarantee contract on below-market rate of interest are measured at amortized cost.

iii. Financial debentures

The issuance of a debt instrument is recorded at its fair value using a valuation technique. If the issuing price of such debt instrument is different from its face value, the difference is amortized as interest income or expense by the interest method over the period from the acquisition date to the maturity date.

The difference between the payment and carrying amount of a debt instrument at the early extinguishment date should be recognized as extraordinary losses or gains in the current period if it is material.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

iv. Derecognition of a financial liability

The Company shall remove a financial liability from its balance sheets when, and only when, it is extinguished.

v. Mutual offset of financial assets and liabilities

Financial assets and financial liabilities shall be offset only when the Company currently has legally enforceable rights to set off the recognized amounts and intends either to settle on a net basis, or to realize the assets and settle the liabilities at the same time.

(c) Derivatives and hedging accounting

The Company uses derivative instruments to hedge its foreign currency risks, interest rate risks and transaction prices risks. A derivative is classified in the balance sheet as financial assets or liabilities at fair value through profit or loss except for derivatives that are designated as and effective hedging instruments which are classified as financial assets or liabilities for hedging.

Derivative instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. The changes in fair value of derivatives are taken directly to profit or loss, except for the effective portion of hedges, which is recognized in either profit or loss or equity according to types of hedges used.

For the purpose of hedging, there are two types:

- i. Fair value hedge is a hedge of the exposure to changes in fair value of a recognized asset or liability or an unrecognized firm commitment, or an identified portion of such an asset, liability or firm commitment, that is attributable to a particular risk and could affect profit or loss.
- ii. Cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognized asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecast transaction and could affect profit or loss.

In conformity with all the conditions for applying hedge accounting, the related accounting treatments are as follows:

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

i. Fair value hedge

Changes in the fair value of derivatives that are designated and qualified as fair value hedging instruments against the exposure to changes in fair value of a recognized asset or liability are recognized through profit or loss in the current period.

Any adjustments to the carrying amount of a hedged financial instrument for which the effective interest method is used shall be amortized to profit or loss. Amortization may begin as soon as an adjustment exists and shall begin no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged. The adjustment is based on a recalculated effective interest rate at the date amortization begins. The adjustment shall be amortized fully by maturity of the financial instrument. When hedged items derecognized, unamortized fair value is recognized in profit or loss.

When an unrecognized firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognized as an asset or liability with a corresponding gain or loss recognized in profit or loss.

ii. Cash flow hedge

The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge shall be recognized in other comprehensive income; and the ineffective portion of the gain or loss on the hedging instrument shall be recognized in profit or loss.

When profits or losses occurred from transaction of hedged items, gains and losses that were recognized in other comprehensive income will be reclassified to profits or losses. If the hedged item is a non-financial asset or non-financial liability, the amount recognized in other comprehensive income shall adjust to the carrying amount of the hedged item.

When a forecast transaction or firm commitment are not expected to occur, the previous cumulative other comprehensive income will be recognized in profit or losses. When the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument that has been recognized in other comprehensive income from the period when the hedge was effective shall remain separately in equity until the forecast transaction occurs.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(6) Non-financial asset impairment

In terms of IAS 36, the Company, at each report date, the recoverable amount of an asset is estimated and compared with the carrying amount whenever there is an indication that the non-financial asset may be impaired. An impairment loss is recognized when the recoverable amount is less than the carrying amount. For assets other than goodwill, reversal of impairment loss is recognized when the recoverable amount of the asset has increased from its prior-period estimation. The carrying amount after the reversal shall not exceed the recoverable amount or the depreciated or amortized balance of the assets assuming no impairment loss was recognized in prior periods.

(7) Property and equipment

Property and equipment is stated at cost or measured at cost plus any revaluation increments (land revaluation based on the announcement of the adjustment in current land value), net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located. Each part of an item of property and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	5-50 years
Office equipment	3-6 years
Leasehold improvements	Not exceed the shorter of 10 years or lease term
Other equipment	3-10 years

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate.

(8) Intangible assets

(a) Computer software

Computer software system expenses, which are recorded on the basis of the actual cost of acquisition, are amortized using a straight-line method. Its amortization method, useful life and residual value are referred to the regulation of properties and equipment. The Company use cost model to proceed subsequently measurement.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(b) Goodwill

Goodwill under the purchasing method is the portion in excess of the identifiable net assets measured using fair value. Goodwill is carried at cost less accumulated impairment.

Goodwill relating to cash-generating units is tested for impairment periodically each year. An impairment loss is recognized when the recoverable amount is less than the carrying amount. Impairment losses cannot be reversed once an impairment loss has been recognized.

(c) Research and development

Research costs are expensed as incurred. Development expenditures, on an individual project, are recognized as an intangible asset when the Company can demonstrate:

- i. The technical feasibility of completing the intangible asset so that it will be available for use or sale
- ii. Its intention to complete and its ability to use or sell the asset
- iii. How the asset will generate future economic benefits
- iv. The availability of resources to complete the asset
- v. The ability to measure reliably the expenditure during development. The amount of the expenditure exceeds US\$100 thousand.

Otherwise, they will be recognized in profit or loss as incurred.

Following initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. During the period of development, the asset is tested for impairment annually. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit.

(9) Leases

The Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Company assesses whether, throughout the period of use, has both of the following:

- (a) the right to obtain substantially all of the economic benefits from use of the identified asset; and
- (b) the right to direct the use of the identified asset.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

For a contract that is, or contains, a lease, the Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Company for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Company estimates the stand-alone price, maximising the use of observable information.

Company as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, or leases without the right to direct the use of the identified asset, the Company recognizes right-of-use asset and lease liability for all leases which the Company is the lessee of those lease contracts.

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if the rate can be readily determined.

After the commencement date, the Company measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Company measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- (a) the amount of the initial measurement of the lease liability;
- (b) any lease payments made at or before the commencement date;
- (c) any initial direct costs incurred by the lessee.

For subsequent measurement of the right-of-use asset, the Company measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Company measures the right-of-use applying a cost model.

The Company depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Company applies IAS 36, *Impairment of Assets*, to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Except for those leases that the Company accounted for as short-term leases or leases of low-value assets, the Company presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements of comprehensive income.

For short-term leases or leases of low-value assets, the Company elects to recognize the lease payments associated with those leases as an expense on a straight-line basis over the lease term.

Company as a lessor

At inception of a contract, the Company classifies each of its leases as an operating lease.

For a contract that contains lease components and non-lease components, the Company allocates the consideration in the contract applying IFRS 15.

The Company recognizes lease payments from operating leases as rental income on a straight-line basis.

(10) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probably that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

(11) Revenue and expense recognition

Other than those classified as financial assets at fair value through profit or loss, all the interests and expenses resulting from the interest accrual financial instruments are required to be calculated using the effective interest rate method according to the related policies, and recognized in the statements of comprehensive income under “Interest income” and “Income expense”.

Service fee income and expenses can only be recognized after the completion of loans and other services; if the service fee is earned from performing major projects, it should only be recognized after completion of the major projects. For example, service fee resulting from syndication loans, the service fee income and expenses are related to subsequent loans, it should amortize according to the materiality within the service period or included in the calculation of the effective rates of loans and receivables.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(12) Employee benefits

- (a) Short-term employee benefits (including employee bonus, remuneration of directors and supervisors): The Company charges the short-term and non-discounted benefits to be paid in the near future to current expenses in the periods during which services are rendered by employees.
- (b) Post-employment benefits: The Company pension plans comprise defined contribution plans and defined benefit plans.
 - i. A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognized as an employee benefits expense in profit or loss in the periods during which services are rendered by employees. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available. Contributions to a defined contribution plan that is due more than 12 months after the end of the period in which the employees render the service are discounted to their present value.
 - ii. A defined benefit plan is a post-employment benefit plan under which benefit is paid to an employee on the basis of their ages, service periods and compensated salaries at the date of retirement. The Company recognizes actuarial gains and losses which are incurred by the change of actual experience and actuarial assumption in other comprehensive income, and recognize pension asset or liability in balance sheets in which asset or liability is the amount of actuarial present value of defined benefit obligation deducting fair value of plan assets. The calculation of defined benefit obligation is performed annually by an actuary using the projected unit credit method. The actuarial present value of defined benefit obligation is calculated by discounting future cash flow at the yield rate on AA credit rated bonds that have maturity dates approximating the terms of the obligation and that are denominated in the same currency in which the benefits are expected to be paid. Pension cost for the period is calculated on a year-to-date basis by using actuarially determined pension cost rate at the end of the previous fiscal year. In terms of the amendment of Article 12 of Regulations Governing the Preparation of Financial Reports by Public Banks according to Jin-Guan-Yin-(Fa)-Zi No. 10310006010 as announced by FSC on October 21, 2014, the Company elected to recognize the remeasurements of defined benefit plans in retained earnings, and will not reclassify amounts into profit or loss in the subsequent period.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(13) Share-based compensation

IFRS 2, *Share-based payment*, requires that all share-based payments are accounted for using a fair value method and the fair value of the employee services received in exchange for the grant of the options is recognized as an expense. For deferred share awards that are part of the annual performance bonus, the expense is recognized over the period from the start of the performance period to the vesting date.

For equity-settled awards, the total amount to be expensed over the vesting period is determined by reference to the fair value of the options at the date of grant, which excludes the impact of any non-market vesting conditions (for example, profitability and growth targets). The fair value of equity instruments granted is based on market prices, if available, at the date of grant. In the absence of market prices, the fair value of the instruments is estimated using an appropriate valuation technique, such as a binomial option pricing model. Non-market vesting conditions are included in assumptions about the number of options that are expected to vest. At each reporting date, the Company revises its estimates of the number of options that are expected to vest. It recognizes the impact of the revision of original estimates, if any, in the statements of comprehensive income, and a corresponding adjustment to equity over the remaining vesting period. Forfeitures prior to vesting attributable to factors other than the failure to satisfy a non-market vesting condition are treated as a cancellation and the remaining unamortized charge is debited to the statements of comprehensive income at the time of cancellation. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

Cash-settled awards are revalued at each reporting date and all unpaid amounts are recognized as liabilities, with any changes in fair value charged or credited to staff costs in the statements of comprehensive income until the awards are exercised. Where forfeitures occur prior to vesting that are attributable to factors other than a failure to satisfy market-based performance conditions, the cumulative charge incurred up to the date of forfeiture is credited to the statements of comprehensive income.

(14) Income tax

Income tax expense include both current taxes and deferred taxes. Except for expenses recognized directly in equity or other comprehensive income, all current and deferred taxes shall be recognized in profits or losses. Current taxes include tax payables and tax deduction receivables on taxable gains (losses) for the year calculated using statutory tax rate on the reporting date or the actual legislative tax rate, as well as tax adjustments related to prior years. Deferred taxes arise due to temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the assets are realized or the liabilities are settled, based on statutory tax rate on the reporting date or the actual legislative tax rate.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

A deferred tax asset should be recognized for the carryforward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profit will be available against which the unused tax losses, unused tax credits, and deductible temporary differences can be utilized. Such unused tax losses, unused tax credits, and deductible temporary differences shall also be reassessed on each reporting date and adjusted based on the probability that future taxable profit will be available for use.

In accordance with the Income Tax Act, a surtax of 5 percent on undistributed earnings is recognized as current income tax expense in the year of the resolution of earnings distribution proposal by its board of directors on behalf of the shareholders' meeting.

The basic income tax calculation of the Company is based on the Income Basic Tax Act. The calculation of the Company's basic income is the sum of the taxable income as defined in accordance with the Income Tax Act and the provisions or tax benefits that are included in the Income Tax Act and other laws. The amount of basic tax of the Company is the amount of basic income as calculated in accordance with the preceding rules, and then multiplied by the tax rate prescribed by the Executive Yuan. The greater of income basic tax expense or income tax expense is the current tax expense actually liable by the Company.

(15) Earnings per share of common stock

Earnings per share ("EPS") are computed by dividing the amount of net income (or loss) attributable to common stock outstanding for the period by the weighted-average number of issued common shares outstanding during the period. If the number of common shares or potential common shares outstanding increases as a result of capitalization of retained earnings, additional paid-in capital, or decreases as a result of a reverse capitalization due to losses, the calculation of basic EPS and diluted EPS for all periods presented is adjusted retrospectively. If these changes occur after the report date but before the issuance date of the financial statements, such EPS calculations are also adjusted retrospectively. When calculating diluted EPS, the net income (or loss) attributable to common shareholders and the weighted-average number of shares outstanding shall be adjusted for the effects of all dilutive potential common shares.

(16) Change in accounting policy

From January 1, 2023, in response to the changing of trading system for debt securities of the Standard Chartered Group, to more properly reflect the economic substance while calculating the cost, gain and loss of investment, in accordance with the Regulations Governing the Preparation of Financial Reports by Public Banks, the company had been approved the below change of accounting policy by Financial Supervisory Commission of the Republic of China through Jin-Guan-Yin-(Wai)-Zi No. 1110233582 on March 13, 2023. The inventory costing method to the investment on debt securities was changed from Weighted Average Cost to First In First Out method beginning on January 1, 2023. However, due to the limitation and constraint of current transaction system design for debt securities, it is impractical to determine the effects of above mentioned change for the period ended December 31, 2022 and the cumulative effect of the change. Retrospective application is also impractical.

5. Significant accounting judgments, estimates and assumptions

When preparing financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Public Banks, Regulations Governing the Preparation of Financial Reports by Securities Firms and the IFRSs endorsed by FSC, the Company is required to make judgments, estimates, and assumptions on valuation of below assets that may causes differences between actual results and estimates. Subsequently, it affects the adoption of accounting policies, reported amounts of assets, liabilities, revenues, and expenses.

The Company keeps testing applicable judgements, estimates and assumptions. Adjustment will be done due to any impacts of changes in the uncertainty mentioned above; and changes will be recognized in the period when they applied.

Below shows the management judgments, estimates, and assumptions that contain risk, and may cause adjustments in the current and future accounting period due to uncertainty:

(1) Impairment evaluation of loans and receivables

The Company's financial asset impairment losses are measured using the 12-month and lifetime expected credit loss value based on whether the credit risks after initial recognition has significant increase or not. To measure the 12-month and lifetime expected credit losses, the Company evaluates the default rate of the financial assets, issuer, or the counterparty, multiplies it with the loss rate given default and the default exposure, and discounts the impact of time value of money. The Company's assumption is based on historical experiences, current market conditions and prospective information. The impairment valuation inputs are then determined subsequently. Please refer to note 6(37) for detailed information of primary assumption and inputs.

(2) Valuation of financial instruments

Fair value of financial instruments in determined using valuation techniques when there is no active market or quoted price. Under this circumstance, fair value is assessed through relevant observable information or model. If there are no observable market parameters, the fair value of financial instruments can be evaluated based on appropriate assumptions. When valuation technique is used to determine fair value, all models shall be calibrated to ensure that all outputs reflect the actual data and the market price. The valuation techniques are adopted, as much as possible, from observable data. However, for credit risk (risk between itself and counterparty), the management shall estimate volatility and correlation. The changes of the valuation techniques will influence fair value of financial instruments. Please refer to note 6(37) for further disclosure of valuation of financial instruments.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(3) Goodwill impairment

Please refer to note 4 for the assessment of goodwill impairment which requires the Company to make subjective judgments to identify cash-generating units and estimate the recoverable amount of relevant cash-generating units. Please refer to note 6(12) for further disclosure of goodwill.

6. Contents of significant accounts

(1) Cash and cash equivalents

	June 30, 2024	December 31, 2023	June 30, 2023
Cash on hand	\$2,349,843	\$2,573,564	\$2,617,960
Checks for clearing	85,759	1,069,680	1,297

Interbank loan receivables, trade finance	13,599,437	301,729	258,224
Subtotal	166,710,282	158,132,335	134,362,901
Less: allowance for bad debts	950	770	-
Total	<u>\$166,709,332</u>	<u>\$158,131,565</u>	<u>\$134,362,901</u>

Pursuant to the Banking Law, the “required reserves” are deposited with the Central Bank. These reserves are for deposits and for interbank settlements.

“Required reserve” is calculated at prescribed rates on a monthly basis on the average balances of various deposit accounts and no interest is accrued on the checking account and the foreign currency account. Balances can be withdrawn on demand. Demand account accrues interests, other than the monthly adjustments to the account, no withdrawal is allowed.

The required reserve-settlement account is placed with the Central Bank for interbank settlement.

(3) Financial assets at fair value through profit or loss

The financial assets at fair value through profit or loss of the Company were as follows:

	June 30, 2024	December 31, 2023	June 30, 2023
Financial assets mandatorily measured at fair value through profit or loss:			
Government bonds	\$6,188,239	\$4,689,853	\$5,030,790

Commodity forward	854	-	2,539
Total	<u>\$46,351,194</u>	<u>\$39,316,822</u>	<u>\$42,078,288</u>

(4) Financial assets at fair value through other comprehensive income

	June 30, 2024	December 31, 2023	June 30, 2023
Debt instruments:			
Negotiable certificates of deposit	\$58,979,647	\$65,952,546	\$54,902,621
Treasury Bills	2,980,556	2,471,246	24,777,209
Government bonds	37,336,699	56,312,757	61,130,041
Subtotal	<u>99,296,902</u>	<u>124,736,549</u>	<u>140,809,871</u>
Equity instruments:			
Non-listed stock	<u>1,025,044</u>	<u>1,087,024</u>	<u>1,113,011</u>
Total	<u>\$100,321,946</u>	<u>\$125,823,573</u>	<u>\$141,922,882</u>
The revaluation adjustment of hedged items included in the total calculation above	<u>\$(4,923)</u>	<u>\$(23,133)</u>	<u>\$(68,545)</u>

Please refer to note 6(37) for credit risk and market risk information.

As of June 30, 2024, December 31, 2023 and June 30, 2023, the Company's financial assets at fair value through other comprehensive income mentioned above have adopted interest rate swaps as instruments for fair value hedging in order to reduce the impacts of fluctuations in interest rates on the fair values.

For the six months ended June 30, 2024 and 2023, dividend income of the above equity instrument investments were \$2,179 thousand and \$1,824 thousand, respectively, recorded under realized gains on financial assets at fair value through other comprehensive income.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

The above equity instrument investment, TSC Bio Venture Capital Corp., was completed liquidation in May 2024. The liquidation realized gain on investment of \$2,547 thousand was transferred from other equity to retained earnings.

As of June 30, 2024, December 31, 2023 and June 30, 2023, the Company's allowance for impairments of the above financial assets at fair value through other comprehensive income were \$4,679 thousand, \$3,963 thousand and \$3,684 thousand, respectively.

Changes in the allowance for impairments of the above debt instrument investments were as follows:

	For the six months ended June 30, 2024				
	12-month expected credit losses	Lifetime expected credit losses	Lifetime expected credit losses (non-purchased or originated credit impaired financial assets)	Lifetime expected credit losses (purchased or originated credit impaired financial assets)	Impairment losses according to IFRS 9 (total)
Beginning balance	\$3,963	\$-	\$-	\$-	\$3,963
Changes due to financial instrument recognition:

(6) Financial assets for hedging

Financial assets for hedging were as follows:

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

	June 30, 2024	December 31, 2023	June 30, 2023
Fair value hedge:			
Interest rate swap	\$13,365	\$46,382	\$82,175
Cash flow hedge:			
Interest rate swap	-	6,231	-
Cross currency swap	2,111,130	189,308	-
Total	<u>\$2,124,495</u>	<u>\$241,921</u>	<u>\$82,175</u>

Financial liabilities for hedging were as follows:

	June 30, 2024	December 31, 2023	June 30, 2023
Fair value hedge:			
Interest rate swap	\$-	\$2,654	\$-
Cash flow hedge:			
Interest rate swap	319,531	60,450	96,311
Cross currency swap	3,619	507,163	-
Total	<u>\$323,150</u>	<u>\$570,267</u>	<u>\$96,311</u>

(a) Fair value hedge

A fair value hedge is the hedging of the hedged items exposure to change in fair value of recognized assets or liabilities that are attributable to particular hedged risks that could affect profit or loss. As of June 30, 2024, December 31, 2023 and June 30, 2023, mark-to-market adjustments of hedged items and the corresponding hedging instruments accounted as fair value hedge were as follows:

Hedged items		Hedging instruments	
Underlying instruments	June 30, 2024	Contract type	June 30, 2024
Financial assets at fair value through other comprehensive income:			
Government bonds-revaluation adjustment	<u>\$ (4,923)</u>	Interest rate swap	<u>\$13,365</u>

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Hedged items		Hedging instruments	
Underlying instruments	December 31, 2023	Contract type	December 31, 2023
Financial assets at fair value through other comprehensive income:			
Government bonds-revaluation adjustment	<u>\$(23,133)</u>	Interest rate swap	<u>\$43,728</u>

Hedged items		Hedging instruments	
Underlying instruments	June 30, 2023	Contract type	June 30, 2023
Financial assets at fair value through other comprehensive income:			
Government bonds-revaluation adjustment	<u>\$(68,545)</u>	Interest rate swap	<u>\$82,175</u>

For the six months ended June 30, 2024 and 2023, the hedging financial instruments listed above incurred net losses amounted to \$20,438 thousand and net gains amounted to \$405,412 thousand, respectively. For the six months ended June 30, 2024 and 2023, net losses from the hedged risk of the hedged items amounted to \$4,491 thousand and \$26,869 thousand, respectively.

(b) Cash flow hedge

The Company currently holds floating rate loans and foreign currency time deposits with fixed rate, which are exposed to cash flow risk arising from the fluctuation of interest rate and foreign exchange rate. Interest rate swap and cross currency swap are designated as hedging instruments to reduce the cash flow risk resulting from the changes in interest rate and foreign exchange rate.

Hedged items	Financial instruments designated as hedging instruments	Fair value		
		June 30, 2024	December 31, 2023	June 30, 2023
Discounts and loans-floating interest rate	Interest rate swap	\$(319,531)	\$(54,219)	\$(96,311)
Deposits and remittances-fixed interest rate	Cross currency swap	2,107,511	(317,855)	-
Total		<u>\$1,787,980</u>	<u>\$(372,074)</u>	<u>\$(96,311)</u>

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(7) Securities and bonds purchased under resell agreements

	June 30, 2024	December 31, 2023	June 30, 2023
Securities purchased under resell agreements	\$24,090,442	\$21,390,034	\$11,140,085
Face value of debt instruments	\$26,389,296	\$23,174,135	\$11,731,296
Interest rate	1.33%~5.30%	1.15%~5.34%	1.10%~5.12%
Last settlement date	2024.7.29	2024.1.29	2023.7.31
Resell price	\$24,121,834	\$21,416,152	\$11,155,789

As of June 30, 2024, December 31, 2023 and June 30, 2023, allowance for impairments of the above securities and bonds purchased under resell agreements were \$0 thousand, \$55 thousand and \$11 thousand, respectively.

Changes in the allowance for bad debts of securities and bonds purchased under resell agreements and instruments were as follows:

	For the six months ended June 30, 2024			
	12-month expected credit losses	Lifetime expected credit losses	Lifetime expected credit losses (non-purchased or originated credit impaired financial assets)	Lifetime expected credit losses (purchased or originated credit impaired financial assets)

(21) Employee benefits

(a) Defined contribution plans

The Company's defined contribution plans follow the Labor Pension Act of the R.O.C. and make monthly cash contributions to the employees' individual pension accounts at the Bureau of Labor Insurance at the rate of 6% of the employees' monthly salary. Under these plans, the Company has no legal or constructive obligation to make other payments after the making the fixed amounts of contributions to the Bureau of Labor Insurance.

For the six months ended June 30, 2024 and 2023, the pension expenses under defined contribution plans of the Company amounted to \$80,892 thousand and \$78,075 thousand, respectively, recorded under operating expenses-employee benefits expenses.

i. Defined benefit plans

	June 30, 2024	December 31, 2023	June 30, 2023
Defined benefit plans	<u>\$325,007</u>	<u>\$508,201</u>	<u>\$617,216</u>

The Company adopted the defined benefit plans, which contribute 5% of eligible employees' monthly salary to the retirement reserve trust account at the Bank of Taiwan. Employees' pension is calculated based on the employees' years of service under the Labor Standard Act and the employees' final average monthly salary at the time of retirement. Final average monthly salary refers to the average 6-month monthly salary preceding retirement including basic monthly salary, meal allowance, car allowance, shift allowance, sales incentives, and overtime payment.

Income tax related to components of other comprehensive income

	For the six months ended June 30	
	2024	2023
Income tax related to components of other comprehensive income that will not be reclassified to profit or loss:		
Remeasurements of defined benefit plans	\$35,860	\$(231)
Income tax related to components of other comprehensive income that will be reclassified to profit or loss:		
Investments in debt instruments measured at fair value through other comprehensive income	(1,984)	22,686
Hedging instruments	(68,621)	21,402
Total	<u>\$(34,745)</u>	<u>\$43,857</u>

The differences between the expected income tax at statutory rates and the income tax expenses were as follows:

	For the six months ended June 30	
	2024	2023
Accounting profit before tax from continuing operations	\$3,112,484	\$2,785,818
Income tax from profit before tax at statutory rate	\$622,497	\$557,164
Permanent differences	31,377	(182,062)
Prior-year income tax adjustments	(2,129)	(2,662)
Other adjustments per tax regulation	4,239	44,990
Income tax expenses	<u>\$655,984</u>	<u>\$417,430</u>

The components of deferred income tax expenses (benefits) were as follows:

	For the six months ended June 30	
	2024	2023
Bad debt expenses and provisions for guarantee liabilities	\$(7,529)	\$(40,726)
Depreciation expenses	(1,552)	(732)
Expenses from share-based payments	(1,086)	(3,181)
Employee benefits	780	5,826
Provisions	605	319
Deferred income	2,145	(210)
Unrealized interest income on financial assets	21,048	7,876
Total	<u>\$14,411</u>	<u>\$(30,828)</u>

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

The Company's temporary differences of deferred tax components, based on the income tax rate for June 30, 2024, December 31, 2023 and June 30, 2023 were as follows:

	June 30, 2024	December 31, 2023	June 30, 2023
Deferred tax assets			
Bad debt expenses and provisions for guarantee liabilities	\$512,480	\$504,951	\$500,707
Depreciation expenses	37,765	36,213	36,669
Impairment losses on assets	395	395	395
Expenses from share-based payments	8,463	7,377	7,377
Employee benefits	65,001	101,641	123,443
Provisions	6,876	7,481	6,865
Deferred income	55,465	57,610	55,620
Unrealized losses on financial assets measured at fair value through other comprehensive income	-	-	2,988
Losses on hedging instruments	63,545	-	30,864
Total	<u>\$749,990</u>	<u>\$715,668</u>	<u>\$764,928</u>
Deferred tax liabilities			
Unrealized interest income on financial assets	\$179,613	\$158,565	\$141,491
Amortization of goodwill	618,585	618,585	618,585
Land value increment tax	39,707	58,889	58,890
Unrealized gains on financial assets measured at fair value through other comprehensive income	459	2,340	2,503
Gains on hedging instruments	-	5,076	-
Total	<u>\$838,364</u>	<u>\$843,455</u>	<u>\$821,469</u>

The movements of deferred tax items were as follows:

	For the six months ended June 30	
	2024	2023
Beginning balance	\$(127,787)	\$(51,536)
Land value increment tax	19,182	8,051
Recognized in current period profit and loss	(14,411)	30,828
Recognized in other comprehensive income	34,642	(43,884)
Ending balance	<u>\$(88,374)</u>	<u>\$(56,541)</u>

The income tax returns of the prior years have been assessed and agreed up to the year 2022 (except that 2020 tax return is still reviewing by tax authority).

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(23) Stockholders' equity

(a) Capital

As of June 30, 2024, the Company's authorized capital was \$30,000,000 thousand, representing 3,000,000 thousand shares with par value of NT \$10 per share; paid-in capital was \$29,105,720 thousand and 2,910,572 thousand of shares were issued.

(b) Capital surplus

The R.O.C. Company Act as amended in January 2012 requires capital surplus to be used to offset an accumulated deficit before capitalization to shareholders' equity as realized capital surplus or distribution of cash dividends. The aforementioned realized capital surplus includes the proceeds received in excess of the par value of common stock issued and any amounts donated to the Company. In accordance with "Regulations Governing the Offering and Issuance of Securities", the amount of capital surplus capitalized each year may not exceed 10% of the Company's issued share capital.

(c) Legal reserve

Whenever the Company generates a profit in accordance with "The Banking Act of The Republic of China". The Company, at the time of distributing its earnings for each fiscal year, shall set aside 30% of its after-tax earnings as legal reserve, until the legal reserve equals its paid in capital. Otherwise, the maximum cash profits, which may be distributed, shall not exceed 15% of the Company's paid in capital. In addition to the legal reserve, a special reserve can be appropriated after being approved during the stockholders' meeting.

(d) Special reserve

In terms of the Financial Supervisory Commission, Executive Yuan, Jin-Guan-Zheng-(Fa)-Zi No. 1010012865 dated April 6, 2012, the first time a public company adopts International Financial Reporting Standards ("IFRS"), it must set aside special reserves equal in amounts to those portions of unrealized revaluation gains and cumulative translation adjustments (both of which are sub accounts under booked shareholder equity) that is shifted to retained earnings as a result of the claiming of an IFRS 1 exemption. However, if the increment of retained earnings resulted from first time adoption of IFRS is not sufficient at the date of transition; the Company could recognize that incremental amount only. When the Company subsequently uses, disposes of, or reclassifies the assets in question, a proportional amount of the special reserve set aside previously may be reversed to distributable earnings. In accordance with that regulation, under the situation of not having sufficient increment of retained earnings resulted from first time adoption of IFRS, the Company can shift that incremental amount \$239,413 thousand to special reserves.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

For the six months ended June 30, 2024 and 2023, due to a disposal of assets mentioned above by the Company, the proportional amount of the special reserve resulted from the first time adoption of IFRS was reversed and increased unappropriated retained earnings amounted to \$40,161 thousand and \$12,419 thousand, respectively.

(e) Other equity interest

Changes in the Company's other equity interest were as follows:

	Unrealized gains (losses) from financial assets measured at fair value through other comprehensive income	Gains (losses) on hedging instruments	Total
January 1, 2024	\$(244,424)	\$20,302	\$(224,122)
Losses on hedging instruments	-	(274,897)	(274,897)
Disposal of equity instruments at fair value through other comprehensive profit or loss	(2,547)	-	(2,547)
Financial assets at fair value through other comprehensive income			
Valuation adjustments	(105,074)	-	(105,074)
June 30, 2024	<u>\$(352,045)</u>	<u>\$(254,595)</u>	<u>\$(606,640)</u>
	Unrealized gains (losses) from financial assets measured at fair value through other comprehensive income	Gains (losses) on hedging instruments	Total
January 1, 2023	\$(482,169)	\$(209,062)	\$(691,231)
Gains on hedging instruments	-	85,608	85,608
Financial assets at fair value through other comprehensive income			
Valuation adjustments	171,934	-	171,934
June 30, 2023	<u>\$(310,235)</u>	<u>\$(123,454)</u>	<u>\$(433,689)</u>

(f) Dividend policy and appropriation of earnings

The Articles of Incorporation approved by the Board of Directors on June 25, 2019, from the profit earned by the Company as shown in the final annual account after tax, 30% of the profit shall be first set aside for the legal reserve, then an amount shall be set aside for the special reserve. The remaining profit, if any, shall be distributed to shareholders as dividend and bonus in accordance with the shareholders' resolution.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

According to Financial-Supervisory-Securities-Corporate No. 1090150022 issued by the Financial Supervisory Commission on March 31, 2021: 1) when a company distributes distributable surplus, it shall allocate an amount of special reserve equal to the cumulative net amount of other deductions from equity, which may not be distributed. If there is any deficiency, it is set aside from the undistributed earnings of the previous year. 2) For the net deduction of accumulated other equity in the previous period, it is deducted from the undistributed earnings of the previous period. If there is still any deficiency, the net profit after tax plus other comprehensive income for the current period shall be included in the undistributed surplus for the current period and shall be set aside. If there is a subsequent reversal of the net deduction of other equity items, the reversal of the special surplus reserve shall be included in distribution of retained earnings.

On May 31, 2024 and June 6, 2023, the Board of Directors, representing shareholders, approved the distribution of retained earnings and distributed cash dividends for 2023 and 2022 were as follows:

	2023	2022
Legal reserve appropriated	\$1,459,297	\$814,379
Special reserve appropriated	224,123	-
Cash dividends of ordinary shares	3,180,903	1,900,218
Total	<u>\$4,864,323</u>	<u>\$2,714,597</u>

The relevant information about earnings distribution or deficit compensation can be accessed through Market Observation Post System or other sites.

(24) Share-based payments

The SC PLC Group operates a number of share-based arrangements for its executive directors and employees. For the six months ended June 30, 2024 and 2023, the share-based payment schemes adopted by the Company were as follows:

(a) All Employee Sharesave Plans (Original: International Sharesave Schemes “ISS”)

Under the All Employee Sharesave Plans (“AESP”), employees may open a savings contract. Within a period of six months after the third anniversary, if appropriate, employees may purchase ordinary shares in the SC PLC Group at a discount of up to 20 % on the share price at the date of invitation (this is known as the “option exercise price”). There are no performance measures attached to options granted under the AESP.

STANDARD CHARTERED BANK (TAIWAN) LIMITED
Notes to the Financial Statements (Continued)
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

The option movements of the AESP were as follows:

	For the six months ended June 30	
	2024 Units	2023 Units
Beginning balance	246,939	262,858
Less: exercised	54,731	23,329
lapsed	9,530	16,873
Ending balance	182,678	222,656

For the six months ended June 30, 2024 and 2023, the costs of the AESP charged to profit or loss were \$2,055 thousand and \$1,553 thousand, respectively, recorded under operating expenses-employee benefits expenses.

Options under the AESP are valued using a binomial option-pricing model. The same fair value is applied to all employees including executive directors.

(b)Restricted Share Awards (Original: Restricted Share Scheme “RSS”)

Restricted Share Awards (“RSA”) are used to deliver 2 types of awards, buy-out awards and deferred awards.

Buy-out awards are made outside of the annual performance process as compensation to new joiners who forfeit granted-but-unvested variable remuneration awards on leaving their previous employers, vest in instalments on the anniversaries of the award date specified at the time of grant. This enables the Company to meet regulatory requirements relating to buyouts, and is in line with market practices. In line with similar plans operated by the competitors of the Company, RSA is not subject to an annual limit and does not have any performance measures.

Deferred awards are used to deliver the deferred portion of variable remuneration, in line with both market practices and regulatory requirements. These awards vest in instalments on anniversaries of the award date specified at the time of grant. Deferred awards are not subject to any plan limit. This enables the Company to meet regulatory requirements relating to deferral levels, and is in line with market practices.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

The option movements of the RSA were as follows:

	For the six months ended June 30	
	2024 Units	2023 Units
Beginning balance	139,871	179,106
Add: granted	73,260	59,412
dividend	1,412	835
Less: exercised	57,037	70,432
lapsed	-	12,187
Ending balance	157,506	156,734

For the six months ended June 30, 2024 and 2023, the costs of the RSA charged to profit or loss were \$7,507 thousand and \$5,035 thousand, respectively, recorded under operating expenses-employee benefits expenses.

(c) Long-term Incentive Plan Awards

Long-term Incentive Plan Awards (“LTIP”) are granted with vesting subject to performance measures. Before 2016, performance measures attached to awards granted previously include: total shareholder return (“TSR”); return on equity (“RoE”) with a Common Equity Tier 1 (“CET1”) underpin; strategic measures; earnings per share (“EPS”) growth; and return on risk-weighted assets (“RoRWA”). Each measure is assessed independently over a 3-year period. Awards granted from 2016 have an individual conduct gateway requirement that results in the award lapsing if not met.

For the six months ended June 30, 2024 and 2023, there was no change in the option movements of the LTIP and no related cost of stock warrants was recorded.

The vesting of awards granted is subject to the satisfaction of RoE (subject to a capital underpin) and relative TSR performance measures and achievement of a strategic scorecard. The fair value of the TSR component is calculated using the probability of meeting the measures over a three-year performance period, using a Monte Carlo simulation model. The number of shares expected to vest is evaluated at each reporting date, based on the expected performance against the RoE and strategic measures in the scorecard, to determine the accounting charge.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(d) Upfront Shares Awards (UFSA)

Upfront Shares are awards to the Material Risk Takers (MRTs) who are met specific criteria after assessment and identification process as part of their non-deferred variable compensation for that performance year. Typically, upfront shares are ordinary Standard Chartered PLC shares that are purchased with beneficial ownership transferred to the individual (after any relevant tax deductions or withholdings) through a specified nominee arrangement. Upfront shares awarded to MRTs are subject to a minimum retention period of 12 months from the award date. During this holding period, the upfront shares cannot be sold or transferred.

For the six months ended June 30, 2024 and 2023, the costs of the UFSA (reversal)/ charged to profit or loss were \$(1,343) thousand and \$3,230 thousand, respectively, recorded under operating expenses-employee benefits expenses.

(25) Earnings per share

	For the six months ended June 30	
	2024	2023
Net income attributable to common stockholders (after tax)	\$2,456,500	\$2,368,388
Common stock (in thousands)	2,910,572	2,910,572
Basic EPS (in dollars)	\$0.84	\$0.81

Since the Company's implementation of share-based payment transactions would proceed by cash settlement, there is no impact on the Company's weighted-average shares of common stock outstanding during the period.

Other	99,291	97,078
Total	<u>\$2,690,971</u>	<u>\$2,533,680</u>

In accordance with the Articles of Incorporation, from the profit earned by the Company as shown in the final annual account before tax, 0.01% shall be reserved as employees' remuneration. However, if the Company has an accumulated deficit, it shall be set aside first to compensate the losses.

The accrued employee's remuneration of the Company for the six months ended June 30, 2024 and 2023 were \$311 thousand and \$279 thousand, respectively, recorded under operating expenses-employee benefits expenses.

The accrued employee's remuneration of the Company for the years ended December 31, 2023 and 2022 were \$575 thousand and \$286 thousand respectively, recorded under operating expenses-employee benefits expenses. There was no difference between actual and estimated distributed bonuses for the years ended December 31, 2023 and 2022. Relevant information can be accessed through Market Observation Post System.

Material difference between estimated amounts and the amounts resolved by the Board of Directors on or before the annual financial statements are authorized for issue are adjusted in the year the compensation was recognized. If there is a change in the resolved amounts after the annual financial statements are authorized for issue, the differences are recorded as a change in accounting estimates and recognized in the following year.

For the six months ended June 30, 2024 and 2023, the average number of the Company's employees were 2,440 and 2,507, of which the number of directors who had not served concurrently as employees were 6 and 5, respectively.

(37) Disclosure of financial instruments

(a) Financial instruments measured at fair value

i. Valuation of financial instruments measured at fair value:

A. Financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, financial instruments for hedging and other financial assets-debt instruments: for investment securities that have directly observable market values available, securities are valued using inputs proxied from the same or closely related or inputs proxied from a different underlying. Certain instruments cannot be proxied as set out above, and in such cases the positions are valued using non-market observable inputs. The fair value for such instruments is usually proxied from internal assessments of the underlying cash flows. Equity instruments are evaluated by independent professional departments or external experts.

B. Derivative financial assets and liabilities: wherever possible, fair values have been calculated using unadjusted quoted market prices in active markets, the market data used for price may include those sourced from recent trade data involving external counterparties or third parties such as Reuters, Bloomberg, and brokers. Where quoted market prices are not available, fair values have been determined using the prices sources from consensus pricing providers, to the extent possible, use market observable inputs, such as Totem or Markit or similar instruments' prices.

- ii. The Company makes a credit valuation adjustment ("CVA") against derivative products. CVA is an estimate of the adjustment to fair value to account for the possibility that the counterparty may default and the Company would not receive the full market value of the transactions. CVA is determined by applying the counterparty's probability of default to counterparty's loss given default ("LGD") and exposure at default ("EAD"), whereas, debit valuation adjustment ("DVA") is calculated on its derivative liabilities and issued debt designated at fair value, including structured notes. DVA is determined by applying the Company's PD to the Company's negative expected exposure against the counterparty. Collateral held are taken into account for the calculation of CVA and DVA.

Internal model is used to calculate the probability of default ("PD") and the loss given default ("LGD"); whereas exposure at default ("EAD") is on simulation basis. The methodology used to determine DVA on derivative liabilities is consistent with the methodology used to determine counterparty CVA on derivative assets.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

- iii. The definition of fair value hierarchy of financial instruments measured at fair value
- A. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Active markets are defined as markets that meet the following criteria: (1) the asset or liability traded in the market have similar attributes; (2) there is a willing buyer and seller for the asset or liability in the market at any given time; (3) price information on the asset or liability can be accessed by the general public.
- B. Level 2 inputs are inputs other than quoted prices in active markets that are observable, including those inputs that can be observed directly (quoted prices) or indirectly (derived from quoted prices) from active markets. For example:
- a. The quoted price in similar financial instruments' active market was referred to the fair value of financial instruments held by and based on similar financial instruments' recent quoted prices; the judgment of similar financial instruments should follow the characteristics of the financial instruments and trading conditions. The factors that require the fair value of financial instruments to be adjusted with compatible similar financial instruments which have observable trading prices might include recent financial instruments trading price already have time gap (i.e. has been a while since last trading time), the difference between the financial instruments trading conditions, transaction prices involved with a related party, and the correlation between observable transaction price of similar financial instruments and the price of financial instruments held.
- b. Quoted prices for identical or similar assets or liabilities in markets those are not active.
- c. Fair value determined based on a valuation model. Inputs for the model (for example, interest rates, yield curves, volatilities, etc.) can be observed from the market (these observable inputs are obtained from market information, and when they are being used in the model, the resulting valuation for the asset or liability shall represent prices anticipated by the market participants).
- d. Inputs are derived principally from or corroborated by observable market data by correlation or other means.
- C. Level 3 means to measure the fair value of the input parameters are not based on observable market data (inputs which are unobservable). For example, the option pricing model with historical volatility cannot represent the expectation of future volatility for the overall market participant.

Financial assets at fair value through other comprehensive income-equity instruments	\$1,147,642	\$-	\$(34,631)	\$-	\$-	\$-	\$1,113,011

vii. For Level 3 of fair value, the sensitivity analysis of value based on reasonable possible substitution assumption.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

The Company's measurement of financial instruments at fair value was reasonable. Only when using different valuation models would the results of the valuations be different.

Level 3 financial instruments the Company invested are non-listed equity investment, and sensitivity analysis was conducted for those equity investments. Below are the valuation techniques and the range of reasonable changes for the material unobservable inputs that the Company applied. The impact to other comprehensive income under this assumption is describe as follows:

Financial instruments at fair value	Fair value changes reflected in profit or loss of the period		Fair value changes reflected on other comprehensive income	
	Beneficial changes	Adverse changes	Beneficial changes	Adverse changes
June 30, 2024				
Financial assets at fair value through other comprehensive income-equity instruments	\$-	\$-	\$83,157	\$(68,931)
Financial instruments at fair value	Fair value changes reflected in profit or loss of the period		Fair value changes reflected on other comprehensive income	
	Beneficial changes	Adverse changes	Beneficial changes	Adverse changes
December 31, 2023				
Financial assets at fair value through other comprehensive income-equity instruments	\$-	\$-	\$84,793	\$(69,778)
Financial instruments at fair value	Fair value changes reflected in profit or loss of the period		Fair value changes reflected on other comprehensive income	
	Beneficial changes	Adverse changes	Beneficial changes	Adverse changes
June 30, 2023				
Financial assets at fair value through other comprehensive income-equity instruments	\$-	\$-	\$90,809	\$(72,818)

viii. The quantitative information on significant unobservable inputs (Level 3) used in the fair value measurement

Financial asset at fair value through other comprehensive income-equity instruments	\$47,431	Net asset value approach	Net asset value	-0.10%~0.10%	The higher the net asset value, the higher the fair value.
	741,813	Market approach	Unlisted marketability discount	2.51%~12.51%	The higher the unlisted marketability discount rate, the lower the fair value.
	254,580	Income approach	Discount rate/	Discount rate is	The higher the discount rate, the lower the fair value.
			Sustainable growth rate	8.75%~14.39%	The higher the sustainable growth rate, the higher the fair value.
	43,200	Asset approach	Unlisted marketability discount	15.43%~25.43%	The higher the unlisted marketability discount rate, the lower the fair value.
June 30, 2023					
Item	Fair value	Valuation technique	Material unobservable inputs	Reasonable change range	Correlation between input and fair value
Financial asset at fair value through other comprehensive income-equity instruments	\$45,184	Net asset value approach	Net asset value	-0.10%~0.10%	The higher the net asset value, the higher the fair value.
	754,812	Market approach	Unlisted marketability discount	4.96%~14.96%	The higher the unlisted marketability discount rate, the lower the fair value.
	269,765	Income approach	Discount rate/	Discount rate is	The higher the discount rate, the lower the fair value.
			Sustainable growth rate	8.40%~14.04%	The higher the sustainable growth rate, the higher the fair value.
	43,250	Asset approach	Unlisted marketability discount	15.37%~25.37%	The higher the unlisted marketability discount rate, the lower the fair value.

ix. The valuation procedure to fair value attributed to Level 3

The level 3 of fair value from financial instruments of the Company was valued by the independent departments and external specialists. Appropriate valuation methods are applied according to the underlying characteristics and data collections. The applied valuation model and related inputs are in accordance with that of the market and the basic principles that the industry approves. The Company checks the valuation model on a periodic basis. When necessary, the Company will calibrate and adjust accordingly to ensure the reasonableness of the valuation results, and that they are in line with the market condition.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(b) Financial instruments measured at amortized cost

i. Valuation of financial instruments measured at amortized cost:

- A. Non-derivative short term financial assets and liabilities with short maturity dates, including cash and cash equivalents, receivables-net, payables, related parties payable and other financial liabilities, the fair values are the amounts those carried.
- B. Due from the Central Bank and call loans to banks, funds borrowed from the Central Bank and banks and deposits from the Central Bank and banks: the fair value of floating rate placements and borrowings and overnight deposits is their carrying amounts. The estimated fair value of fixed interest bearing deposits or interest earning loans is based on discounted cash flows using the prevailing money market rates for debts with a similar credit risk and remaining maturity.
- C. Debt instrument investments measured at amortized cost: for debt instruments that have direct observable market values, market values were used as fair values; for debt instruments that do not have direct observable market values, fair values were measured via valuation technique.
- D. Securities purchased under resell agreements and debt instruments: for securities that have direct observable market values, market values were used as fair values; for securities that do not have direct observable market values, fair values were measured via valuation technique.
- E. Discounts and loans-net: discounts and loans are presented net of provisions for impairment. The fair value of discounts and loans to customers with a residual maturity of less than one year generally approximates the carrying value. The estimated fair value with a residual maturity of more than one year represents the discounted amount of future cash flows expected to be received, including assumptions relating to prepayment rates. Expected cash flows are discounted at current market rates or secondary syndication market prices to determine fair value.
- F. Deposits and remittances: the estimated fair value of deposits and remittances with no stated maturity and floating rate deposits is the amount repayable on demand. The estimated fair value of fixed interest bearing deposits is based on discounting cash flows using the prevailing market rates with a similar credit risk and remaining maturity.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

G. Financial debentures payable-net: the aggregate fair values are calculated based on quoted market prices. For those notes which quoted market prices are not available, a discounted cash flow model is used based on a current market related yield curve appropriate for the remaining term to maturity. The fair value of subordinated debt is estimated based on its book value on the balance sheet.

(c) Information on financial risk

The Company's risk management framework encompasses servicing client interests and fulfilling long term operation goals while keeping overall risk tolerance and compliance to local regulations. This framework serves to diversify or transfer risk in an effective manner, benefiting not only our customers and shareholders but ourselves as well. The Company encounters credit risk, operational risk, market risk (interest rate, exchange rate, equity, and commodity), and liquidity risk both on and off the balance sheets in our day-to-day operations.

The Company has formulated both the risk management policies and operation procedures into structured operation manuals, which have been approved by the Board of Directors. These manuals set out a clear guidance on distinguishing, measuring, monitoring, and managing credit risk, operational risk, market risk, and liquidity risk.

i. Market risk

A. Strategy and procedure of market risk management

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

The Company recognizes market risk as loss resulting from changes in market prices and rates. The Company is exposed to market risk arising principally from customer-driven transactions. The objective of the Company's market risk policies and processes is to obtain the best balance of risk and return while meeting customers' requirements.

B. Market risk management organization and structure

The department, Market Risk Taiwan, follows the regulatory requirements of the Taiwan Financial Supervisory Commission to develop the market risk management policies and procedures, which include the banking books and trading books. The market risk policies, procedures and limits are annually reviewed by the department and are in line with the guidance of Group Market Risk Committee.

Market risk limits are proposed by the business within the terms of the agreed policies. Limits are presented to the Executive Risk Committee or delegated manager for approval with its authority delegated by the Board. The risk appetite requires approval from the Board.

The department monitors exposures against these limits on a daily basis. Related market risk management results are reported to the Executive Risk Committee at a minimum on a quarterly basis.

The Company also receives strong support from SCB regional and group business and market risk management functions based outside of Taiwan.

C. The scope and characteristics of market risk report and evaluation system

The scope of market risk report produced by Market Risk Taiwan covers market exposures in both trading book and banking book. The primary categories of market risk for the Company are interest rate risk and currency exchange rate risk linked to trading products in financial markets, as the Company has not held any risk exposures relating to commodities price risk or equity price risk.

The Company measures the risk of losses arising from future potential adverse movements in market rates, prices and volatilities using a Value at Risk ("VaR") methodology. VaR, in general, is a quantitative measure of market risk which applies recent historical market conditions to estimate the potential future loss in market value that will not be exceeded in a set time period at a set statistical confidence level.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

The table below lists the market risk (such as exchange rate or interest rate) of financial instruments of the Company. Market risk represents potential losses that the Company may suffer in one day when unfavorable changes occur on the Company's position at a 97.5% confidence interval under a certain price probability distribution.

	For the six months ended June 30					
	2024			2023		
	Average	Maximum	Minimum	Average	Maximum	Minimum
Trading book VaR	\$15,057	\$27,278	\$8,328	\$15,419	\$25,316	\$10,236
Banking book-						
fair value VaR	21,307	26,584	17,804	56,175	68,482	46,663
Total VaR	27,145	35,425	20,289	53,557	63,217	41,068

Losses beyond the confidence interval are not captured by a VaR calculation, which therefore gives no indication of the size of unexpected losses in these situations. The Company complements the VaR measurement by stress testing of market risk exposures to highlight the potential risk that may arise from extreme market events that are rare but plausible. Stress testing is an integral part of the market risk management framework and considers both historical market events and forward looking scenarios. Stress testing is applied to trading and banking books fair value portfolios, respectively.

D. Policies for market risk hedge/mitigation, as well as the strategy and procedure for maintaining efficiency in risk hedge/mitigation tools

Market risk is mitigated by the Company's standard process as risk is measured, monitored, reported and controlled on a portfolio basis.

Market risk policies, procedures and limits are annually reviewed by Market Risk Taiwan with approval by the delegated authority. The Traded Risk Type Framework is presented to the Board for approval.

All products used in risk mitigation must be authorized products in their own right with appropriate product programs.

Any product a business uses for risk mitigation must be explicitly referenced in the market risk limit for the business.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

E. Method used for regulatory capital calculation

Standardized Approach/Delta-Plus for Options.

F. Exchange rate risk exposure information

The significant exposure to foreign currency exchange rates was as follows:

ii. Operational risk

A. Strategy and procedure of operational risk management

The Company has set up and follows the Operational and Technology Risk Type Framework (“O&T RTF”) for operational risk management. The O&T RTF builds on Enterprise Risk Management Framework (“ERMF”) and covers the operational risk related to inadequate or failed internal processes, technology events, human errors, or from the impact of external events (including legal risks). According to the O&T RTF, operational risks should be managed through the Risk and Control Self-Assessment (“RCSA”) cycle, which includes the following stages: Process Universe, Risk Identification, Inherent Risk Assessment, Control Design and Assessment, Risk and Control Monitoring, Residual Risk Assessment, Response, and Reporting. Responsibility for the management of operational risk rests with businesses and functions. O&T RTF sets out the respective responsibilities of the Three Lines of Defense.

STANDARD CHARTERED BANK (TAIWAN) LIMITED
Notes to the Financial Statements (Continued)
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

B. Operational risk management organization and structure

Governance over operational risk management is achieved through a defined structure of committees.

The Executive Risk Committee (“ERC”) is designed to oversee and to challenge the effectiveness of risk management and control. They may also be authorized to take certain risk acceptance and control decisions which are outside the authority of individual managers. The ERC oversees the management of operational risks at the country level and ensures that an appropriate and robust risk management framework is in place to monitor and manage operational risk. Its scope includes all client segments, products and functions.

The Company also receives strong support from SCB regional and group business and operational risk management functions based outside of Taiwan.

C. The scope and characteristics of operational risk report and evaluation system

According to O&T RTF, the First line of Defense (“1LoD”) is required to comply with the applicable laws and regulatory expectations, and manage the risk that arises from first line activities, and comply with policies set by the Second Line of Defense (“2LoD”). The 2LoD is responsible to provide challenge, guidance, and oversight over the 1LoD, set policies that the 1LoD must adhere to, assess the overall risk levels relating to Operational Risk sub-types, and to confirm the effectiveness of their policies to the Country Head of OR.

The operational risk subtypes include transaction processing, product management, client service resilience, technology risk, change management, people management, safety and security, corporate governance, enterprise risk governance, financial books and records, financial regulatory reporting, tax obligations, and legal enforceability.

The 1LoD defines monitors, i.e. Key Control Indicators (“KCI”) and Control Sample Tests (“CSTs”), and sets benchmark thresholds for Key Control Indicators. Group Internal Audit acts as the Third Line of Defence (“3LoD”), independently assessing whether the First and Second Line controls and risk management processes are effective.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

D. Policies for operational risk hedge/mitigation, as well as the strategy and procedure for maintaining efficiency in risk hedge/mitigation tools

The Company conducts its risk identification and assessment (including loss incidents and self-assessment) in accordance with the O&T RTF. The identified risk shall be escalated to the authority defined in O&T RTF for risk monitoring by the management.

Risk management information shall at least include: detailed information of operational risk exposure, risk ratings (including impact and likelihood ratings), risk and mitigation action ownership, target date for reducing risk exposure within appetite. Risk management information must also ensure data quality by verified and monitored data source.

E. Method used for regulatory capital calculation

Basic Indicator Approach.

iii. Compliance and legal risk

Compliance and legal risks arise from the possibility that an entity may not be able to comply with laws or regulations, and a contract or legal documentation may likely cause loss due to illegality, incompleteness or unfairness, which results in a regulations breach or disputes. The Conduct, Financial Crime and Compliance Department of the Company is responsible for taking charge of the planning, management, and execution of the regulatory compliance system. And as the designated department in charge of the planning, implementation and supervision of each department's executions for Treating Customers Fairly Principles, also including Money laundering, terrorist financing, and financial crime supervision, such as the planning and implementation of policies and procedures for identifying, assessing and monitoring money laundering and terrorist financing risks, and coordinating and supervising the implementation of the company-wide Anti-Money Laundering and Counter Terrorist Financing risk identification and assessment. The Legal Department of the Company is responsible for providing advisory services to legal aspects of transaction documents including legality and enforceability of such transaction documents. The two departments together are to make sure that the financial structure and operations of the Company follows relevant regulatory compliance and legal matters.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

iv. Credit risk management

A. Credit risk strategy, goal, policy and standard

The management of risk lies at the heart of the Company's business. One of the main risks we incur arises from extending credit to customers through our trading and lending operations.

Effective risk management is fundamental to being able to generate profits continuously and sustainably and is thus a central part of the financial and operational management of the Company.

a. Strategy and Goal

Through our enterprise risk management framework ("ERMF"), we manage enterprise-wide risks with the objective of optimizing risk-adjusted returns while remaining within our risk appetite.

Under the ERMF, we use a set of principles that describe the risk management culture we wish to sustain:

- Balancing risk and return: A sustainable franchise is built by managing the overall risks and in the interest of all the stakeholders; risks that the Company is taken are consistent with the approved strategy and within the Company's risk tolerances and risk appetite. The Company manages the risk profile to maintain a low probability of an unexpected loss event that would materially undermine the confidence of the investors;
- Conduct of business: The Company demonstrate the 'Here for Good' through the conduct. The Company seeks to achieve good outcomes for clients and investors in the markets which the Company operates, while abiding by the relevant laws and regulations. The Company treats all colleagues fairly and with respect;
- Responsibility and accountability: The Company takes individual responsibility to ensure risk-taking is disciplined and focused, particularly within our area of authority. The Company makes sure risk taking is transparent, controlled and reported within risk appetite;

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

- Anticipation: The Company seeks to anticipate material future risks, learn lessons from events that have produced adverse outcomes and ensure awareness of known risks; and
- Competitive advantage: The Company seeks competitive advantage through efficient and effective risk management and control.

b. Policies and standards

The credit policies and standards are considered and approved by the Board, which also oversees the delegation of credit approval and loan impairment provisioning authorities. Policies and standards that are specific to each business are established. These are consistent with the Group-wide credit policies, but are more detailed and adapted to reflect the different risk environments and portfolio characteristics.

B. Credit risk management organization and structure

Ultimate responsibility for the effective management of risk rests with the Company Board. The Executive Risk Committee, through its authority delegated by the Board, is directly responsible for the management of credit risk.

The management of credit risk includes approving standards (and policies) for the measurement and management of credit risk, approval of delegated approval authority framework and responsibilities to sub-committees and to Risk Officers. The Risk function is independent of the origination, trading and sales functions to ensure that the necessary balance in risk/return decisions is not compromised. The Board receives regular reports on risk management and is authorized to investigate or seek any information relating to an activity within its term of reference.

Internal Audit is an independent function that reports to the Board. It provides assurance that policies and procedures are being complied with. The findings and recommended corrective actions from the audits are reported to all relevant management and governance bodies.

C. The scope and characteristics of credit risk report and evaluation system

Risk measurement plays a central role, along with judgment and experience, in informing risk-taking and portfolio management decisions.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Various risk measurement systems are available to the Risk function to enable them to assess and manage the credit portfolio. These include systems to calculate probability of default (“PD”), loss given default (“LGD”) and exposure at default (“EAD”) on a transaction, counterparty and portfolio basis.

A number of internal risk management reports are produced on a regular basis, providing information such as individual counterparty, counterparty group, portfolio exposure, credit grade migration, the status of accounts or portfolios showing signs of weakness or financial deterioration, models performance and updates on credit markets.

The Company regularly monitors credit exposures, portfolio performance, and external trends which may impact risk management outcomes. Internal risk management reports are presented to risk committees, containing information on key environmental, political and economic trends across major portfolios and countries, portfolio delinquency and loan impairment performance.

D. Standards for credit risk hedge and mitigation, as well as the strategy and procedure for maintaining efficiency in risk hedge and mitigation tools

Potential credit losses from any given accounts, customers or portfolios are mitigated using a range of tools such as collateral, netting agreements, credit insurance, credit derivatives and other guarantees. The reliance that can be placed on these mitigates is carefully assessed in light of potential issues such as legal certainty and enforceability, market valuation correlation and counterparty risk of the guarantor.

Risk mitigation standards determine the eligibility of collateral types. Collateral types which are eligible for risk mitigation include: cash, residential, commercial and industrial property; fixed assets such as motor vehicles, aircrafts, plants and machineries, marketable securities, commodities, bank guarantees and letters of credit. The Company also enters into collateralized reverse repurchase agreements.

Where guarantees or credit derivatives are used as Credit Risk Mitigation (“CRM”), the creditworthiness is assessed and established using the credit approval process in addition to that of the obligor or main counterparty.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Collateral is valued in accordance with the CRM, which prescribes the frequency of valuation for different collateral types, based on the level of price volatility of each type of collateral and the nature of the underlying product or risk exposure. Collateral held against impaired loans is maintained at fair value.

Certain credit exposures, e.g. non-recourse receivable service, are mitigated using credit default insurance.

Bilateral and multilateral netting agreements are used to reduce settlement counterparty risk. Settlement exposures are generally netted using bilateral netting documentation in legally approved jurisdictions, Delivery vs. Payment or Payment vs. Payment systems.

E. Method used for regulatory capital calculation

Standardized Approach.

F. Maximum exposure to credit risk

Without taking collateral or other credit enhancement mitigation effects into account, the maximum exposure to credit risk of on-balance-sheet financial assets are equal to their carrying values. Maximum exposures of financial instruments (without taking collateral or other credit enhancement, and irrevocable maximum exposure) were as follows:

	Maximum exposure to credit risk		
	June 30, 2024	December 31, 2023	June 30, 2023
Off-balance-sheet items			
Other guarantees	\$8,078,123	\$10,276,860	\$7,171,441
Unused amount of irrevocable loan commitments	10,402,331	6,292,069	4,923,112
Unused amount of irrevocable letters of credit	819,797	783,507	635,164
Total	<u>\$19,300,251</u>	<u>\$17,352,436</u>	<u>\$12,729,717</u>

Due to the Company's use of a stricter selection process for credit risk followed by subsequent periodic review, the Company's management assessed a more sustainable control to minimize the Company's off-balance-sheet items for credit risk.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

G. Concentrations of credit risk

Financial instruments counterparties are significantly concentrated onto one person or multiple people. Concentration of credit risk exists if a number of counterparties are engaged in similar activities, activities in the same region, or have similar economic characteristics that would cause their abilities to meet contractual obligations to be similarly affected by changes in economic or other conditions.

The Company's concentration of credit risk is derived from assets, liabilities, off-balance sheets items, compliance or enforcement by transactions (regardless of the product or service), or arises from a combination of categories including credit, due from banks and call loans to banks, portfolio investments, and other receivables and derivatives. The Company currently has no concentration of transaction to a single counterparty nor a single transaction with a counterparty for the Company's discounts and loans, and non-performing loans that are significant. The following table illustrates the diversification of the loan portfolio among industry sectors, geographical regions and collateral types of the Company:

a. By industry

		December 31,	
	June 30, 2024	2023	June 30, 2023
Individual	\$242,304,097	\$229,322,384	\$219,931,090
Manufacturing	27,559,774	31,596,041	30,785,862

-Movable assets	5,163,351	5,628,723	7,849,875
-Debt instruments	2,946,085	1,825,347	2,352,637
-Other	468,681	949,978	2,018,703
Total	<u>\$298,969,600</u>	<u>\$291,190,133</u>	<u>\$284,797,337</u>

H. Credit quality and impairment analysis on financial assets

The main criteria for identifying significant increase in credit risk since initial recognition are as follows:

- a. Internal/external risk rating of credit extensions at the reporting date deteriorates significantly compared to that at the initial recognition date.
- b. Significant change in the probability of default over the lifetime since origination.
- c. Borrowers that fail to make payment and are past due over 30 days.
- d. Borrowers that have outstanding amounts unpaid, past maturity dates, and are overdue for the agreed grace period.
- e. Borrowers that have significant deterioration in ability to repay and face the compulsory enforcement, debt restructuring or legal action.
- f. Borrowers that have been placed as Early Alert - Non-Purely Precautionary (EA-NPP) are concluded by Credit Issue Committee (CIC) to have fundamental deterioration in creditworthiness which requires closer scrutiny and monitoring.

Definitions of default and credit impaired financial assets:

An account is in default when the borrower fails to make payments and account is over 90 days past due.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Besides, if there is objective evidence that borrower cannot make payments or there is evidence that borrower is in financial difficulty, the account can be considered as impaired:

- a. Borrower is deceased.
- b. Borrower has declared bankruptcy or may declare bankruptcy or financial restructuring.
- c. Enterprise has been temporarily suspended.
- d. Borrower has applied for debt restructuring program (including internal or government programs) due to financial difficulty.

Consideration factors of forward-looking information:

To determine if there has either been a significant increase in credit risk post deal origination and to assess expected credit loss (ECL) for financial assets, the Company adopts a forward looking approach to generate multiple macroeconomic scenarios to ensure that ECL has been evaluated in a range of possible outcomes. The Company applies historical data to analyze and to identify key macroeconomic variables, such as real GDP, import and export values, consumer price index, and unemployment rate, that will have critical impact on the portfolio's credit performance as well as credit expected loss.

The Company generates base macroeconomic scenario by obtaining the forecasts of exchange rates, GDP and inflation rates from the economic research team. Moreover, to incorporate the non-linearity of ECL as well as to increase the visibility of macroeconomic forecasts, multiple macroeconomic scenarios are generated via Monte Carlo simulation, and the weighted average result of multiple scenario outcomes is applied to evaluate against the criteria of significant increase in credit risk and as well as to estimate ECL.

Some of the financial assets held by the Company, such as cash and cash equivalents, due from the Central Bank and call loans to banks, financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, derivative financial assets for hedging, and securities purchased under resell agreements and debt instruments are excluded from this analysis since the counterparty is normally with good credit quality and can be considered as low credit risk. Below tables provide the credit quality analysis for other financial assets.

v. Liquidity risk management mechanism

A. Definition and sources of liquidity risk

Liquidity risk is the potential that the Company either does not have sufficient liquid financial resources available to meet all its obligations as they fall due, or can only access these financial resources at excessive cost.

B. Management procedures of liquidity risk

The Liquidity Risk Framework governs liquidity risk and is managed by Asset and Liability Committee. The Company maintains a liquid portfolio of marketable securities as a liquidity buffer as required by local regulations. In total, it maintains a liquidity buffer of \$151.6 billion as of June 30, 2024, which is equivalent to 20.63% of the Company's total assets. The level of the Company's aggregate liquid reserves is in accordance with local regulatory minimum liquidity requirements.

The asset side of the balance sheet is of equal importance to the Company's balance sheet as the liability side. The Company's balance sheet is fluid as evidenced by the majority of wholesale banking lending and fixed income assets are contractually less than one year in tenor.

The Company is of the view that capital is not a mitigation for liquidity risk; liquid reserves and a short tenured book are the appropriate mitigation. Accordingly, the Company does not hold capital in respect of liquidity risk.

C. Financial assets held for liquidity risk management

The Company holds cash and high quality liquid assets to support the repay liability and the potential urgency for cash demand emerges from market environment. The assets held for liquidity risk management include cash and cash equivalents, due from the Central Bank and call loans to banks, financial assets at fair value through profit or loss, discounts and loans, and financial assets at fair value through other comprehensive income.

D. Maturity analysis of non-derivatives liabilities

The table below shows the analysis of non-derivative liabilities based on time remaining until the contractual maturity dates.

iv. The offsetting information for financial assets and financial liabilities

The Company has signed total net executable settlement contracts and similar agreements. When both parties choose to conduct the settlement using the net amount, it is acceptable to use the net amount after offsetting the financial assets and financial liabilities. If not, the total value is used in the settlement. If one party defaults, the other party has the right to select the net amount during the settlement.

The table below shows the relevant offsetting information for financial assets and financial liabilities:

June 30, 2024						
Financial assets under net executable settlement contracts or similar agreements						
	Offset total		Relevant amounts not offset in			
	financial	Net financial	balance sheet (d)

v. Capital management

A. Summary

The goals of the Company's capital management are shown below:

- a. To maintain adequate levels of capital so as to support business growth and to meet regulatory capital requirements, which is the Company's fundamental goal for capital management. The Company calculates qualified capital and regulatory capital requirement in accordance with rules issued by the regulator.
- b. To hold adequate levels of capital so as to take on all risks arising from the business. The assessment of adequate capital takes into consideration the risk profile and characteristics. The risk management process is conducted through capital risk appetite.

B. Capital management procedures

The Company maintains the capital adequacy ratio in line with the regulatory requirement and reports to the regulator on a quarterly basis. The Company's capital is managed by the Asset and Liability Committee. The regulatory capital is the aggregate amount of Tier 1 Capital and Tier 2 Capital following the "Regulations Governing the Capital Adequacy and Capital Category of Banks":

- a. Tier 1 Capital: The aggregate amount of Common Equity and additional Tier 1 Capital.
 - i) Common equity Tier 1 capital: Consists of the common equity deducting intangible assets, the deferred tax assets due to losses from previous years, the insufficiency of operation reserves and loan loss provisions, the revaluation surplus of real estate, and the statutory adjustment items calculated in accordance with other rules for calculation methods.

The common equity Tier 1 capital shall be the sum of the following items:

- Common stock and additional paid-in capital in excess of par-common stock
- Capital collected in advance
- Capital reserve
- Legal reserve
- Special reserve
- Accumulated profit or loss
- Non-controlling interests
- Other items in stockholders' equity

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

ii) Additional Tier 1 capital: Consists of the aggregate amount of non-cumulative perpetual preferred stock and its capital stock premium, non-cumulative perpetual subordinated debts, etc.

b. Tier 2 capital: Consists of the aggregate amount of cumulative perpetual preferred stock and its capital stock premium, cumulative perpetual subordinated debts, convertible subordinated debts, long-term subordinated debts and non-perpetual preferred stock and its capital stock premium, and allowed operational reserves and loan-loss provisions, etc.

C. Capital adequacy

Item \ Period-end			June 30, 2024	December 31, 2023	June 30, 2023

- (b) Amount limitation of investments in Mainland China: None.

(5) Major shareholder information:

Securities firms whose stocks have been listed on the stock exchange or traded over the counter at the securities firm's business premises should disclose the names, shareholding amounts and proportions of shareholders whose equity ratio exceeds 5%: Not applicable.

14. Operating segment financial information

The Company presents the following segment information for the decision makers of the Company to allocate resources and evaluate each segment's performance. The information focuses on the results from the operations of the relevant segments and their respective profits before tax. Reported segments in accordance with IFRS 8 are as follows:

- (1) Wealth and Retail Banking ("WRB"): In charge of developing a long-term sustainable customer-focused strategy and building a high performance culture through robust execution. Responsible for retail clients segment development in customer value propositions, product development and developing customer-focused planning and promotion of wealth management and trust to conduct investment, financing and trust services.
- (2) Corporate and Investment Banking Client Coverage ("CIB"): In charge of developing a sustainable client-focused strategy by engaging in the development, promotion, credit analysis, risk management, client on-boarding, integrated client documentation handing, client due diligence, and sale products and services to Corporate clients and Financial institutions clients. Responsible for business development and maintenance, sales channel management, operation process and risk management, enhancement of customer experience and service quality, analysis of business operations, evaluation of product performance, and project execution, etc.
- (3) Other Banking ("OB"): Including asset and liability management and other income and expense that cannot be classified under a specific department.

STANDARD CHARTERED BANK (TAIWAN) LIMITED

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Management monitors each segment's performance in order to allocate the required resources and to evaluate its performance. Segments' performance is evaluated according to its operating gain or loss. The disclosures of profit or loss are in accordance with the accounting policies of the Company specified under note 4. Segmental gains and losses include inter department transfer pricing expenses as well as head office allocated expenses. Income tax expense (income) is not allocated to the reportable segments for disclosure purposes.

Majority of the Company's business is located domestically, so there is no geographic information applicable. There is no income from one single client that represents more than 10% of the income of the Company.

The disclosures of profit or loss are in accordance with the accounting policies of the SC PLC Group. The Company's information and reconciliation of operating segments were as follows:

English Translation of Financial Statements Originally Issued in Chinese
STANDARD CHARTERED BANK (TAIWAN) LIMITED SECURITIES DEPARTMENT
Notes to the Financial Statements
For the six months ended June 30, 2024 and 2023
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

1. Security department and operation

- (1) On May 6, 2015, the Company was approved to start engaging in underwriting of bonds and marketable securities (limited to fixed income securities). On July 27, 2015, the securities department of the Company and offshore banking unit (OBU) started engaging in foreign exchange trading; the Company was approved to conduct its own foreign securities business on November 10, 2017.
- (2) Main business includes:
- (a) Foreign exchange trading
 - (b) Various bonds and securitized commodities on their business premises (limited to fixed income securities)
 - (c) Foreign securities business on its own business premises
 - (d) Underwriting bonds and securitized commodities (limited to fixed income securities).

2. Date and procedures of authorization for issuance of the financial statements

The date and procedure of the securities department's financial statements are the same as the Company's financial statements. Please refer to the Company's financial statements note 2.

3. Newly issued or revised standards and interpretations

The application of the newly issued and revised standards and interpretations by the securities department of the Company is the same as the financial statements of the Company. Please refer to the Company's financial statements note 3.

4. Summary of significant accounting policies

The financial statements of the securities department of the Company have been prepared in conformity with Regulations Governing the Preparation of Financial Reports by Securities Firms, and International Accounting Standard (IAS) 34, *Interim Financial Reporting*, as endorsed and became effective by FSC. Significant accounting policies adopted in the financial statements are summarized as below:

(1) Current and non-current distinction

Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- (a) The Company expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- (b) The Company holds the asset primarily for the purpose of trading;
- (c) The Company expects to realize the asset within 12 months after the reporting period;
- (d) The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

STANDARD CHARTERED BANK (TAIWAN) LIMITED SECURITIES DEPARTMENT
Notes to the Financial Statements (Continued)
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) The Company expects to settle the liability in its normal operating cycle
- (b) The Company holds the liability primarily for the purpose of trading
- (c) The liability is due to be settled within 12 months after the reporting period
- (d) The Company does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

(2) Basis of preparation

The financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value.

(3) Foreign currency

Except for accounts in the OBU of the Company that are denominated in US Dollars, accounts in all entities are denominated in New Taiwan Dollars. For those transactions denominated in foreign currencies, assets and liabilities are recorded in their original foreign currencies, while all income and expense accounts are denominated in original foreign currencies and translated into New Taiwan Dollars at the daily closing exchange rates. At the report date, the financial statements amount in all foreign currencies are translated into New Taiwan Dollars at ruling exchange rates assigned on that date. The Company's financial statements are presented in New Taiwan Dollars, the functional currency of the Company. All financial information presented in New Taiwan Dollars is expressed in thousands of New Taiwan Dollars, unless otherwise specified. Foreign exchange differences arising from the conversion of currency are recognized in current period profit or loss.

(4) Financial instruments

Financial assets

Financial assets held by securities department of the Company are recorded on the trading date.

Financial assets are recognized when securities department of the Company becomes the party of a financial instrument contract. Financial assets are classified into the following categories: measured at amortized cost, fair value through other comprehensive income (FVOCI), and fair value through profit or loss (FVTPL).

STANDARD CHARTERED BANK (TAIWAN) LIMITED SECURITIES DEPARTMENT
Notes to the Financial Statements (Continued)
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

Securities department of the Company shall reclassify all affected financial assets only when it changes its business model for managing its financial assets.

(a) Financial assets measured at amortized cost

i. Debt instrument investments measured at amortized cost

When a financial asset meets both of the following conditions and is not designated as at FVTPL, it is measured at amortized cost;

- A. it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- B. its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses, and impairment loss are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

ii. Securities and bonds under repurchase/resell agreements

Securities and bonds sold/purchased with a commitment to repurchase/resell at predetermined price are treated as financing transactions. The difference between the cost and the repurchase/resell price is treated as interest expenses/revenue and recognized over the term of the agreement. On the selling/purchasing date, these agreements are recognized as securities and bonds sold under repurchase agreements or securities and bonds purchased under resell agreements.

iii. Receivables

Receivables should be evaluated at every reporting date whether or not the credit risks have increased significantly after initial recognition. One estimate is by comparing the default risk at reporting date and initial recognition date, and considering the reasonableness and verifiable information of the increase in credit risk since initial recognition as the estimate basis for default risk and expected loss rate to calculate the expected credit loss. Another estimate follows Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans issued by the FSC and other related regulations. Final provision will be based on the higher of the two estimates.

STANDARD CHARTERED BANK (TAIWAN) LIMITED SECURITIES DEPARTMENT
Notes to the Financial Statements (Continued)
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(b) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- i. it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- ii. its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instrument investments at fair value through other comprehensive income should be valued at fair value on the reporting date, and the changes in value shall be listed in other comprehensive income as adjustment items. It should also use the effective rate to amortize the discount premium and calculate the interest receivable on an accrual basis, as well as recognize the credit impairment loss. If the impairment loss related to the events after impairment recognition is reduced in the subsequent period, it is reversed and recognized as profit or loss in the current period. The reversal is limited by the fact that other comprehensive income recognized as impairment adjustment items cannot be negative. Prior to derecognition, the changes in the remaining book values of financial assets, other than foreign currency related financial asset exchange losses, interest income calculated according to effective interest rate, and impairment losses recognized in income, should be recognized in other comprehensive income and accumulated under equity in "Unrealized profit or loss on financial assets at fair value through other comprehensive income." Upon derecognition, the accumulated profit or loss under equity should be reclassified as profit or loss in the current period.

On initial recognition of an equity investment that is not held for trading, securities department of the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. A financial asset measured at FVOCI is initially recognized at fair value, plus any directly attributable transaction costs. These assets are subsequently measured at fair value. Dividends deriving from equity investments are recognized as income in profit or loss, and other net gains and losses of financial assets measured at FVOCI are recognized in OCI. Upon derecognition, gains and losses accumulated in OCI of equity investments are reclassified to retained earnings.

(c) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, securities department of the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

STANDARD CHARTERED BANK (TAIWAN) LIMITED SECURITIES DEPARTMENT
Notes to the Financial Statements (Continued)
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

These assets are subsequently measured at fair value, which take into account any dividend and interest income, and recognized in profit or loss.

(d) Impairment of financial assets

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Securities department of the Company measures loss allowances for expected credit losses on financial assets measured at amortized cost (Including securities and bonds purchased under resell agreements, receivables, financial assets measured at amortized cost), debt investments measured at FVOCI and contract assets.

Securities department of the Company takes into consideration the reasonable information supported by evidence that can be obtained without excessive cost or input, which includes qualitative and quantitative information, an analysis based on securities department of the Company's past experience, credit evaluation, and prospective information, when determining whether there is a significant increase in the credit risk of financial assets since initial recognition. If a financial asset or portfolio of financial assets does not experience a significant increase in credit risk since initial recognition, the loss allowances are measured at 12-month ECL; and such assets are classified as Stage 1 assets. However, if a financial asset, or portfolio of financial assets, experiences a significant increase in credit risk since initial recognition, an ECL allowance should be recognized for default events that may occur over the lifetime of the asset; and such assets are classified as Stage 2 assets.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the securities department of the Company is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses during the expected lifetime of financial assets. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to securities department of the Company in accordance with the contract and the cash flows that securities department of the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

STANDARD CHARTERED BANK (TAIWAN) LIMITED SECURITIES DEPARTMENT

Notes to the Financial Statements (Continued)

(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

At each reporting date, securities department of the Company assesses whether financial assets at amortized cost and debt instrument investments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt instrument investments at FVOCI, the loss allowance is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when securities department of the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with securities department of the Company's procedures for recovery of amounts due.

Please refer to the Company's financial report for the judgment on whether the credit risk has significantly increased after initial recognition and prospective adjustments.

(e) Derecognition of financial assets

Financial assets are derecognized when the contractual rights to the cash flows from the assets expire, or when the Company transfers substantially all the risks and rewards of ownership of the financial assets.

If majority of the risks and rewards are not kept nor transferred, while securities department of the Company still possess the ownership of the financial assets, then securities department of the Company shall continuously recognize it as assets according to the extent of its own involvement.

(f) Reclassification of financial assets

Only when the business model of financial assets management is changed does securities department of the Company reclassifies the affected financial assets according to regulations.

STANDARD CHARTERED BANK (TAIWAN) LIMITED SECURITIES DEPARTMENT
Notes to the Financial Statements (Continued)
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(5) Refundable security deposits

According to the Regulations Governing Securities Firms, the securities department of the Bank lodged operation bond and recorded them under other non-current assets, based on the nature of security business.

Based on settlement reserves placed in the Taipei Exchange's electronic bond trading system, which was prepared in accordance with the related regulation, those who had engaged transactions using this system should deposit an amount as settlement reserves for bond proprietary trading; those who had engaged transactions in Taiwan Securities Association fund should deposit an amount as self-regulatory fund deposits.

(6) Revenue recognition

- (a) Profit or loss on disposal of trading securities, and relevant brokerage securities transaction charges are recognized at the trading date.
- (b) Brokerage handling fee revenue are recognized at the trading date.
- (c) Revenue from underwriting business are recognized right after the underwriting service are made.
- (d) Interest income: interest income from investments in debt instruments measured at amortized cost and fair value through other comprehensive income are required to be calculated using the effective interest rate method; interest income from securities purchased under resell agreements are measured at accrual basis, according to its principal amount, interest rate and settlement date.
- (e) Operating expenses: Expenses derived from the operating of securities department are mainly classified under employee benefits expense and other operating expense.

(7) Change in accounting policy

From January 1, 2023, in response to the changing of trading system for debt securities of the Standard Chartered Group, to more properly reflect the economic substance while calculating the cost, gain and loss of investment, in accordance with the Regulations Governing the Preparation of Financial Reports by Public Banks, the company had been approved the below change of accounting policy by Financial Supervisory Commission of the Republic of China through Jin-Guan-Yin-(Wai)-Zi No. 1110233582 on March 13, 2023. The inventory costing method to the investment on debt securities was changed from Weighted Average Cost to First In First Out method beginning on January 1, 2023. However, due to the limitation and constraint of current transaction system design for debt securities, it is impractical to determine the effects of above mentioned change for the period ended December 31, 2022 and the cumulative effect of the change. Retrospective application is also impractical.

5. Significant accounting judgments, estimates and assumptions

When preparing financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Firms and the IFRSs endorsed by the FSC, securities department of the Company is required to make judgments, estimates, and assumptions on valuation of below assets that may causes differences between actual results and estimates. Subsequently, it affects the adoption of accounting policies, reported amounts of assets, liabilities, revenues, and expenses.

The securities department of the Company keeps testing applicable judgements, estimates and assumptions. Adjustment will be done due to any impacts of changes in the uncertainty mentioned above; and changes will be recognized in the period when they applied.

Below shows the management judgments, estimates, and assumptions that contain risk, and may cause adjustments in the current and future accounting period due to uncertainty.

Valuation of financial instruments

Fair value of financial instruments in determined using valuation techniques when there is no active market or quoted price. Under this circumstance, fair value is assessed through relevant observable information or model. If there are no observable market parameters, the fair value of financial instruments can be evaluated based on appropriate assumptions. When valuation technique is used to determine fair value, all models shall be calibrated to ensure that all outputs reflect the actual data and the market price. The valuation techniques are adopted, as much as possible, from observable data. However, for credit risk (risk between itself and counterparty), the management shall estimate volatility and correlation.

6. Contents of significant accounts

As of June 30, 2024, the Offshore banking unit of the securities department of the Company has not yet completed relevant business. The following details do not include the amount of Offshore banking unit.

(1) Financial assets at fair value through profit or loss

The financial assets at fair value through profit or loss of the securities department of the Company were as follows:

	June 30, 2024	December 31, 2023	June 30, 2023
Securities held for operations-dealing:			
Government bonds	\$6,188,239	\$4,689,853	\$5,030,790
Corporate bonds	2,346,650	3,507,823	1,804,966
Financial bonds	-	201,248	201,636
