Use of Proceeds:

Net proceeds from this offering are expected to be used to redeem the Series 2005-1 Senior Unsecured Notes due 2015 and for general corporate purposes, including working capital, capital expenditures, acquisitions of or investments in businesses or assets, redemption and repayment of other indebtedness, and purchases of the issuer's common stock under its ongoing stock repurchase program.

*** Note: A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.**

We expect that delivery of the notes will be made against payment therefore on or about the closing date which will be on or about the 7th business day following the date of pricing of the notes (this settlement cycle being referred to as "T+7"). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market are generally required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next succeeding three business days will be required, by virtue of the fact that the notes initially will settle in T+7, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes on the date of pricing or succeeding three business days should consult their own advisor.
