The 2026 Notes are not redeemable, except as described under “Description of Debt Securities and Guarantees—Optional Tax Redemption” on page 19 of the prospectus and as described below under “Optional Redemption”. The provision for optional tax redemption described in the prospectus will apply in respect of changes in tax treatments occurring after February 6, 2019.

Optional Redemption:

Prior to December 11, 2025 (the date that is two months prior to the scheduled maturity date for the 2026 Notes), BP Capital America has the right to redeem the 2026 Notes, in whole or in part, at any time and from time to time at a redemption price equal to the greater of (i) 100% of the principal amount of the 2026 Notes to be redeemed and (ii) the sum of the present values of the remaining scheduled payments of principal and interest on the 2026 Notes to be redeemed that would be due if such notes matured on December 11, 2025 (not including any portion of payments of interest accrued and unpaid to the redemption date) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the treasury rate plus 15 basis points, plus in either case accrued and unpaid interest to the date of redemption. On or after December 11, 2025 (the date that is two months prior to the scheduled maturity date for the 2026 Notes), BP Capital America has the right to redeem the 2026 Notes, in whole or in part, at any time and from time to time at a redemption price equal to 100% of the principal amount of the 2026 Notes to be redeemed, plus accrued and unpaid interest, if any, thereon to, but excluding, the date of redemption. For purposes of determining the optional redemption price, the following definitions are applicable. “Treasury rate” means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the comparable treasury issue, assuming a price for the comparable treasury issue (expressed as a percentage of its principal amount) equal to the comparable treasury price for such redemption date. “Comparable treasury issue” means the U.S. Treasury security or securities selected by the quotation agent as having an actual or interpolated maturity comparable to the remaining term of the 2026 Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the

remaining term of such notes. "Comparable treasury price" means, with respect to any redemption date, the average of the reference treasury dealer quotations for such redemption date. "Quotation agent" means one of the reference treasury dealers appointed by BP Capital America. "Reference treasury dealer" means BNP Paribas Securities Corp., Deutsche Bank Securities Inc., HSBC Securities (USA) Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Morgan Stanley & Co. LLC or their affiliates, each of which is a primary U.S. government securities dealer in the United States (a "primary treasury dealer"), and their respective successors, and two other primary treasury dealers selected by BP Capital America, provided, however, that if any of the foregoing shall cease to be a primary treasury dealer, BP Capital America shall substitute therefor another primary treasury dealer. "Reference treasury dealer quotations" means with respect to each reference treasury dealer and any redemption date, the average, as determined by the quotation agent, of the bid and asked prices for the comparable treasury issue (expressed in each case as a percentage of its principal amount) quoted in writing to the quotation agent by such reference treasury dealer at 5:00 p.m. New York time on the third business day preceding such redemption date.

Supplemental Information on U.S. Taxation:

BP Capital America expects that the 2028 Notes will be treated as issued in a “qualified reopening” of the outstanding U.S. \$1,000,000,000 4.234% Fixed Rate Guaranteed Notes due 2028 (CUSIP No. 10373Q AE0, ISIN US10373QAE08), previously issued by BP Capital America for U.S. federal income tax purposes. Debt securities issued in a qualified reopening for U.S. federal income tax purposes are deemed to be part of the same issue as the original debt securities. Under such treatment, the 2028 Notes would have the same issue date, the same issue price and the same adjusted issue price as the Original 2028 Notes for U.S. federal income tax purposes. Payments on the 2028 Notes that are attributable to pre-issuance accrued interest should not be includible in income. A United States holder acquiring the 2028 Notes pursuant to this offering generally will be treated as acquiring the notes with premium, as described in the accompanying prospectus under “Tax Considerations—United States Taxation—United States Holders—Debt Securities Purchased at a Premium.” However, because the 2028 Notes may be redeemable by BP Capital America prior to maturity at a premium, special rules may apply that could reduce, eliminate or defer the amount of premium that you may amortize with respect to the 2028 Notes. Please consult your tax advisor about the effect of BP Capital America’s optional redemption right on your ownership of the 2028 Notes.
