**Issue of USD 75,000,000 Callable Fixed Rate Notes due 2031 (the "Notes")
under the
U.S.\$15,000,000,000 Notes, Certificates and Warrants Programme**

Issue Price: 100 per cent.

Issue Date: 15 June 2021

This information package includes the Base Listing Particulars under the Standard Chartered Bank, Standard Chartered Bank (Hong Kong) Limited and Standard Chartered Bank (Singapore) Limited US\$15,000,000,000 Notes, Certificates and Warrants Programme (the "**Programme**") dated 10 July 2020 and the supplements thereto dated 5 August 2020, 10 September 2020, 1 February 2021, 2 March 2021, 6 April 2021, and 5 May 2021, which together constitute the base listing particulars (the "**Base Listing Particulars**") and the Pricing Supplement dated 15 June 2021 in respect of the Notes (the "**Pricing Supplement**," together with the Base Listing Particulars, the "**Information Package**").

The Notes will be issued by Standard Chartered Bank (the "**Issuer**").

Application will be made by the Issuer for the Notes to be listed on the Taipei Exchange ("**TPEX**") in the Republic of China (the "**ROC**").

The Notes will be traded on TPEX pursuant to the applicable rules of TPEX. Effective date of listing and trading of the Notes on the TPEX is expected to be on or about 15 June 2021.

TPEX is not responsible for the content of the Information Package and no representation is made by TPEX as to the accuracy or completeness of the Information Package. TPEX expressly disclaims any and all liability for any losses arising from, or as a result of the reliance on, all or part of the contents of this Information Package. Admission of the Notes to listing and trading on the TPEX shall not be taken as an indication of the merits of the Issuer or the Notes.

The Notes have not been, and shall not be, offered, sold or re-sold, directly or indirectly, to investors other than "professional institutional investors" as defined under Paragraph 2 of Article 4 of the Financial Consumer Protection Act of the ROC. Purchasers of the Notes are not permitted to sell or otherwise dispose of the Notes except by transfer to a professional institutional investor.

ROC TAXATION

The following summary of certain taxation provisions under ROC law is prepared based on current laws and practice. It does not purport to be comprehensive and does not constitute legal or tax advice. Investors (particularly those subject to special tax rules, such as banks, dealers, insurance companies and tax-exempt entities) should consult with their own tax advisers regarding the tax consequences of an investment in the Notes. This general description is based upon the law as in effect on the date hereof and that the Notes will be issued, offered, sold and re-sold, directly or indirectly, to professional institutional investors as defined under Paragraph 2 of Article 4 of the Financial Consumer Protection Act of the R.O.C. only. Purchasers of the Notes are not permitted to sell or otherwise dispose of the Notes except by transfer to a Professional Institutional Investor. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below.

Interest on the Notes

As the Issuer of the Notes is not an ROC statutory tax withholding, there is no ROC withholding tax on the interest or deemed interest to be paid by the Issuer on the Notes.

ROC corporate holders must include any interest or deemed interest receivable under the Notes as part of their taxable income and pay income tax at a flat rate of 20 per cent. (unless the total taxable income for a fiscal year is \$120,000 New Taiwan Dollars or under), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax (the "AMT") is not applicable.

Sale of the Notes

In general, the sale of corporate bonds or financial bonds is subject to 0.1 per cent. securities transaction tax ("STT") on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act of the ROC prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Notes will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Notes will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from ROC income tax. Accordingly, ROC corporate holders are not subject to ROC income tax on any capital gains generated from the sale of the Notes. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the ROC Income Basic Tax Act (also known as the AMT Act), the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders could be carried over 5 years to offset against capital gains of the same category of income for the purposes of calculating their AMT.

Non-ROC corporate holders with a fixed place of business (e.g., a branch) or a business agent in the ROC are not subject to income tax on any capital gains generated from the sale of the Notes. However, their fixed place of business or business agent should include any such capital gains in calculating their basic income for the purpose of calculating AMT.

As to non-ROC corporate holders without a fixed place of business and a business agent in the ROC, they are not subject to income tax or AMT on any capital gains generated from the sale of the Notes.

ROC SETTLEMENT AND TRADING

Investors with a securities book-entry account with an ROC securities broker and a foreign currency deposit account with an ROC bank, may request the approval of the Taiwan Depository & Clearing Corporation ("**TDCC**") for the settlement of the Notes through the account of TDCC with Euroclear or Clearstream, Luxembourg and if such approval is granted by TDCC, the Notes may be so cleared and settled. In such circumstances, TDCC will allocate the respective book-entry interest of such investor in the Notes position to the securities book-entry account designated by such investor in the ROC. The Notes will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEx as domestic bonds.

In addition, an investor may apply to TDCC (by filing in a prescribed form) to transfer the Notes in its own account with Euroclear or Clearstream, Luxembourg to the TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or *vice versa* for trading in overseas markets.

For such investors who hold their interest in the Notes through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interest for the Notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second Taiwanese business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese business day after the distribution date). However, the timing of receipt of such distributions by the holders may vary depending upon the daily operations of the ROC banks with which the holder has the foreign currency deposit account.

ADDITIONAL RISK FACTOR

Application will be made for the listing of the Notes on TPEx. No assurance can be given as to whether the Notes will be, or will remain, listed on TPEx. If the Notes fail to or cease to be listed on TPEx, certain investors may not invest in, or continue to hold or invest in, the Notes.

The Base Listing Particulars referred to below (as completed by this Pricing Supplement) have been prepared on the basis that any offer of Notes in any Member State of the European Economic Area ("EEA") will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of the Notes. Accordingly, any person making an offer or intending to make an offer in that Member State of the Notes may only do so in circumstances in which no obligation arises for the Issuer or any Manager to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. Neither the Issuer nor any Manager has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

This Pricing Supplement does not constitute final terms for the purposes of the Prospectus Regulation.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); (ii) a customer within the meaning of Directive 2016/97 (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the "Prospectus Regulation"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Additional Taxation:

R.O.C. Taxation

The following summary of certain taxation provisions under R.O.C. law is based on current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice. Investors (particularly those subject to special tax rules, such as banks, dealers, insurance companies and tax-exempt entities) should consult with their own tax advisers regarding the tax consequences of an investment in the Notes. This general description is based upon the law as in effect on the date hereof and that the Notes will be issued, offered, sold and re-sold, directly or indirectly, to professional institutional investors as defined under Paragraph 2 of Article 4 of the Financial Consumer Protection Act of the R.O.C. only. Purchasers of the Notes are not permitted to sell or otherwise dispose of the Notes except by transfer to a Professional Institutional Investor. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below.

Interest on the Notes

As the Issuer of the Notes is not a R.O.C. statutory tax withholder, there is no R.O.C. withholding tax on the interests or deemed interests to be paid on the Notes.

R.O.C. corporate holders must include any interest or deemed interest receivable under the Notes as part of their taxable income and pay income tax at a flat rate of 20 per cent. (unless the total taxable income for a fiscal year is \$120,000 New Taiwan Dollars or under), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax (the "AMT") is not applicable.

Sale of the Notes

In general, the sale of corporate bonds or financial bonds is subject to 0.1 per cent. securities transaction tax ("STT") on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act of the R.O.C. prescribes that STT will cease to be levied on the sale of corporate bonds

and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Notes will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Notes will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from R.O.C. income tax. Accordingly, R.O.C. corporate holders are not subject to R.O.C. income tax on any capital gains generated from the sale of the Notes. However, R.O.C. corporate holders should include such capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the Income Basic Tax Act of the R.O.C. (also known as the AMT Act), the excess becomes the R.O.C. corporate holders' AMT payable. Capital losses, if any, incurred by such holders could be carried over 5 years to offset against capital gains of same category of income for the purposes of calculating their AMT.

Non-R.O.C. corporate holders with a fixed place of business (e.g., a branch) or a business agent in the R.O.C. are not subject to income tax on any capital gains generated from the sale of the Notes. However, their fixed place of business or business agent should include any such capital gains in calculating their basic income for the purpose of calculating AMT.

As to non-R.O.C. corporate holders without a fixed place of business and a business agent in the R.O.C., they are not subject to income tax or AMT on any capital gains generated from the sale of the Notes.

Listing

This Base Prospectus has been approved as a base prospectus by the Central Bank of Ireland (the "**Central Bank**"), as competent authority under the Prospectus Regulation. The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuers or of the quality of the Notes. Investors should make their own assessment as to the suitability of investing in the Notes. Such approval relates only to the Securities which are to be admitted to trading on a regulated market in the EEA for the purposes of Directive 2014/65/EU (the "**Markets in Financial Instruments Directive**") and/or which are to be offered to the public in any Member State of the EEA (and, for these purposes, references to the EEA include the United Kingdom) in circumstances which require the publication of a prospectus.

Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin ("**Euronext Dublin**") for Securities issued under the Programme (other than Exempt Securities, as defined below) to be admitted to the Official List and to trading on its regulated market. References in this Base Prospectus to Securities being "listed" (and all related references) on Euronext Dublin shall mean that such Securities have been admitted to the Official List and to trading on its regulated market. The regulated market of Euronext Dublin is a regulated market for the purposes of the Markets in Financial Instruments Directive.

In addition, application has been made to Euronext Dublin for the approval of this Base Prospectus as Base Listing Particulars. Application will also be made to Euronext Dublin for Securities issued under the Programme to be admitted to the Official List and to trading on the global exchange market (the "**Global Exchange Market**") which is the exchange regulated market of Euronext Dublin. The Global Exchange Market is not a regulated market for the purposes of the Markets in Financial Instruments Directive.

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Notes which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. For these purposes, references to the EEA include the United Kingdom. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Save where expressly provided or the context otherwise requires, where Securities are to be admitted to trading on the Global Exchange Market or otherwise are Exempt Securities (as defined below), references herein to "Base Prospectus" shall be construed to be to "Base Listing Particulars".

The Programme also permits Securities to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation, as the case may be, on such other or further listing

authorities, stock exchange(s) and/or quotation systems as the relevant Issuer may agree with the Manager(s) (as defined below). The Issue Terms in respect of an issue of Securities will specify whether or not an application will be made for such Securities to be listed on and admitted to trading on a regulated market for the purposes of the Market in Financial Instruments Directive.

Requirement to publish a prospectus

The requirement to publish a prospectus under the Prospectus Regulation only applies to Securities which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation (and for these purposes, references to the EEA include the United Kingdom). References in this Base Prospectus to "**Exempt Securities**" are to Securities for which no prospectus is required to be published under the Prospectus Regulation (including, for the avoidance of doubt, Certificates). The Central Bank has neither approved nor reviewed information contained in this Base Prospectus in connection with Exempt Securities.

Denominations

Warrants have no individual denomination and may be acquired for an issue price of less than €100,000 per Warrant. Notes will be issued in such denominations as may be specified by the relevant Issuer save that the minimum denomination of each Note admitted to trading on a regulated market in the EEA or the UK will be €100,000 (or if the Notes are denominated in a currency other than euro, the equivalent amount in such currency) or such higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to any relevant currency specified in the Issue Terms. In the event that any Certificates are admitted to trading on a regulated market in the EEA or the UK, such Certificates will have a minimum issue price per Certificate of €100,000 (or the equivalent in any other currency). No Securities issued pursuant to this Base Prospectus will be offered to the public in a Member State of the EEA or the UK in circumstances which require the publication of a prospectus under the Prospectus Regulation.

Terms of issuances

Each issue of Securities will be issued on the terms set out in this Base Prospectus and/or any documents incorporated by reference herein and in the relevant Issue Terms which (with respect to Securities to be listed on the Official List) will be filed with Euronext Dublin on or before the date of issue of the Securities of the relevant Tranche (as defined herein). The Issuers may issue Securities under the Programme which are intended to be listed on the Official List and which are in a form not contemplated herein and/or may issue Securities which are to be offered to the public in a Member State of the EEA or the UK in circumstances which require the publication of a prospectus under the Prospectus Regulation, in which event, a "unitary" or "series" prospectus or a supplement to this Base Prospectus will be made available which will set out the relevant terms applicable to such Securities and/or such offer.

Any additional terms and conditions not set out herein which are applicable to any Exempt Securities that may be issued by the Issuers under the Programme will be set out in one or more separate offering documents and/or prospectuses and/or pricing supplements which do not form part of this Base Prospectus.

Appointment of Manager(s)

The relevant Issuer may appoint a manager or managers (each a "**Manager**") for any particular issue of Securities issued by it on terms agreed with the relevant Issuer as set out in a purchase agreement or other subscription agreement.

Form of Securities

Each series of Certificates or Warrants will be represented at all times by a global security and will be transferable only in accordance with the rules and procedures for the time being of the Clearing System(s). Notes may be issued in bearer form ("**Bearer Notes**") or in registered form ("**Registered**

Risk Factors

Prospective purchasers of Securities should ensure that they understand the nature of the relevant Securities and the extent of their exposure to risks and that they consider the suitability of the relevant Securities as an investment in the light of their own circumstances and financial condition. Certain issues of Securities involve a high degree of risk and potential investors should be prepared to sustain a loss of all or part of their investment. It is the responsibility of prospective purchasers to ensure that they have sufficient knowledge, experience and professional advice to make their own legal, financial, tax, accounting and other business evaluation of the merits and risks of investing in Securities and are not relying on the advice of the relevant Issuer, any specified branch or any relevant Manager in that regard. See "Risk Factors" below.

The offering and sale of securities and the distribution of documents relating thereto is restricted

Restrictions have been imposed on offers and sales of the Securities and on the distribution of documents relating thereto in the United States of America and the EEA (including the United Kingdom). The distribution of this document and offers and sales of the Securities in certain other jurisdictions may also be restricted by law. Persons into whose possession this document comes are required by the relevant Issuer to inform themselves about, and to observe, any such restrictions. See "*Subscription and Sale and Transfer and Selling Restrictions*" below.

Discretionary determinations by the Issuer and Calculation Agent

During the life of the Securities, certain events may occur which are outside the control of the Issuer and Calculation Agent. Under the Terms and Conditions of the Securities, if such an event occurs, the Issuer or Calculation Agent (as applicable) may determine, in their discretion, to take one or more actions available to them in order to deal with the impact of such event on the Securities or, as the case may be, on the Issuer or both. Such actions may have an adverse impact on the value of the Securities. Further information is set out in the "*Overview of the Programme*" below.

Each of SCB, SCBHK and SCBSL accepts responsibility for the information contained in this Base Prospectus. To the best of the knowledge of SCB, SCBHK and SCBSL, the information contained or incorporated in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Information on websites

Other than in relation to documents which are deemed to be incorporated by reference (see "*Documents incorporated by reference*" above), the information on the websites to which this Base Prospectus refers do not form part of this Base Prospectus.

Information relating to Reference Items

The applicable Issue Terms will (if applicable) specify the nature of the responsibility taken by the relevant Issuer for the information relating to any currency, commodity (or related forward or futures contract), equity security, exchange traded fund security, depositary receipt security, fund interest, index, relevant account, formula or other factor relating to assets or property (each a "**Reference Item**") to which the relevant Securities relate and which is contained in such Issue Terms. However, unless otherwise expressly stated in the applicable Issue Terms, any such information contained therein will only consist of extracts from, or summaries of, information contained in financial and other information released publicly by the issuer, owner or sponsor, as the case may be, of such Reference Item.

No Manager accepts responsibility for this Base Prospectus

To the fullest extent permitted by law, no Manager accepts any responsibility for the contents of this Base Prospectus or for any statement made or purported to be made by any Manager or on its behalf in connection with the Issuers, or the issue or the offering of the Securities. Each Manager accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this Base Prospectus or any such statement.

Offers to be made pursuant to an exemption under the Prospectus Regulation

This Base Prospectus has been prepared on the basis that any offer of Securities in any Member State of the EEA or the UK which has implemented the Prospectus Regulation (each, a "**Relevant State**") will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of Securities. Accordingly any person making or intending to make an offer in that Relevant State of Securities which are the subject of an offering contemplated in this Base Prospectus as completed by Issue Terms in relation to the offer of those Securities may only do so in circumstances in which no obligation arises for the relevant Issuer or any Manager to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. None of the Issuers and any Manager has authorised, nor do any of them authorise, the making of any offer of Securities in circumstances in which an obligation arises for the Issuers or any Manager to publish or supplement a prospectus for such offer.

No authorisation to give any information or make any representation not contained in or not consistent with this Base Prospectus

No person is or has been authorised by the Issuers to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other information supplied in connection with the Programme or the Securities and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuers or any Manager.

No investment recommendation

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Securities (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation or constituting an invitation or offer by any Issuer or any Manager that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any Securities should purchase any Securities. Each investor contemplating purchasing any Securities should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the relevant Issuer. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Securities constitutes an offer or invitation by or on behalf of the relevant Issuer or any Manager to any person to subscribe for or to purchase any Securities.

Information correct as of date of Base Prospectus

Save as further disclosed below, neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Securities shall in any circumstances imply that the information contained herein

concerning the Issuers is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. No Manager has, or will, undertake to review the financial condition or affairs of the relevant Issuer during the life of the Programme or to advise any investor in the Securities of any information coming to their attention. Investors should review, *inter alia*, the most recently published documents incorporated by reference into this Base Prospectus when deciding whether or not to purchase any Securities. If at any time during the duration of the Programme there is a significant new factor, material mistake or material inaccuracy relating to information contained in this Base Prospectus which may affect the assessment of any Securities and which is material to an investor for making an informed assessment of the assets and liabilities profits and losses, financial position and prospects of the relevant Issuer, the rights attaching to the Securities and the reasons for the issuance and its impact on the relevant Issuer, the relevant Issuer shall prepare a supplement to this Base Prospectus or publish a replacement Base Prospectus for use in connection with any subsequent offering of Securities.

Securities have not and will not be registered under the Securities Act

The Securities and, in the case of Securities to be settled by physical delivery of securities, any such securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") nor any U.S. state securities law, nor may the Securities be offered sold or delivered in the United States or to, or for the benefit of (a) a "U.S. person" as defined under Regulation S under the Securities Act ("**Regulation S**"), except to certain QIBs (as defined in "*U.S. Information*," below) in reliance on Rule 144A under the Securities Act (b) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the Commodity Futures Trading Commission (the "**CFTC**") pursuant to the Commodity Exchange Act (as defined below) or (c) a person other than a "Non-United States person" as defined in CFTC Rule 4.7, in each case, as such definition may be amended, modified or supplemented from time to time (such persons, "**U.S. persons**"), unless (i) an exemption from the United States Commodity Exchange Act of 1936, as amended (the "**Commodity Exchange Act**") is available and (ii) an exemption from the registration requirements of the Securities Act and applicable state securities laws is available.

The Securities have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States

The Securities and, in the case of Securities to be settled by physical delivery of securities, any securities delivered in settlement thereof, have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities reviewed or passed upon the accuracy or adequacy of this Base Prospectus. Any representation to the contrary is a criminal offence in the United States. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the Commodity Exchange Act and trading in the Securities has not been approved by the CFTC under the Commodity Exchange Act. Furthermore, neither the sale of nor trading in any Securities has been approved by the CFTC under the Commodity Exchange Act and no U.S. person may at any time purchase, trade or maintain a position in such Securities unless otherwise specified in the applicable Issue Terms. In order to receive payment of any amount or delivery of any Reference Item, Warrantholders may be required to certify (a) that the relevant Warrants are not being exercised by or on behalf of a U.S. person or a person within the United States and (b) in certain circumstances, that the Warrants are being exercised by a QIB (as defined in "*U.S. Information*", below).

No offer to sell or solicitation of an offer to buy in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Securities in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Securities may be restricted by law in certain jurisdictions. None of the Issuers and any Manager represents that this Base Prospectus may be lawfully distributed, or that any Securities may be lawfully offered, in compliance

with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuers or any Manager which would permit a public offering of any Securities or the distribution of this document in any jurisdiction where action for that purpose is required. Accordingly, no Securities may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Securities may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Securities. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Securities in the jurisdictions specified in the section entitled "*Subscription and Sale and Transfer and Selling Restrictions*" below.

You should note that, in relation to any Securities, the Issuer may, without your consent but subject to certain conditions, substitute for itself in respect of such Securities, any Affiliate (as defined herein) or any other company with which it consolidates, merges or transfers all or substantially all its assets. In addition, SCB has the right to change the branch through which it is acting.

IMPORTANT – EEA AND UK Retail Investors

If the Issue Terms in respect of any Securities includes a legend entitled "*Prohibition of Sales to EEA and UK Retail Investors*", from the Issue Date (or from such later date as is specified in the applicable Issue Terms) such Securities are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**") or the United Kingdom (the "**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIPs Regulation.

Benchmarks

Amounts payable or assets deliverable under the Securities may be calculated or otherwise determined by reference to one or more "benchmarks" for the purposes of Regulation (EU) No. 2016/1011 (the "**Benchmarks Regulation**"). Where relevant, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmarks Regulation. Transitional provisions in the Benchmarks Regulation may apply such that the administrator of a particular "benchmark" is not required to be included in the register of administrators and benchmarks at the date of the applicable Issue Terms.

Sale of Securities

The Securities of each issue may be sold by the relevant Issuer and/or any Manager at such times and at such prices as the relevant Issuer and/or the Manager(s) may select. There is no obligation on the relevant Issuer or any Manager to sell all of the Securities of a Tranche. The Securities may be offered or sold from time to time in one or more transactions, in the secondary market or the over-the-counter market at prevailing market prices or in negotiated transactions, at the discretion of the relevant Issuer. No representation or warranty or other assurance is given as to the number of Securities of a Tranche issued or outstanding at any time.

Currencies

All references in this document to "**USD**", "**U.S. dollars**" and "**U.S.\$**" refer to United States dollars, to "**HK\$**" refer to Hong Kong dollars, to "**Pesos**" refer to Philippine pesos and to "**S\$**" and "**SGD**" refer to Singapore dollars. References to "**euro**" refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community, as amended.

Rounding

Certain figures and percentages included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown in the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

Each purchaser or holder of Warrants or Certificates represented by the Global W&C Securities will be deemed, by its acceptance or purchase of any such Warrants or Certificates, to have made certain representations and agreements intended to restrict the resale, other transfer or exercise of such Warrants or Certificates as set out in "*Subscription and Sale and Transfer and Selling Restrictions*" below and/or (in respect of Exempt Securities) as set out in the applicable Pricing Supplement.

- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities, including where the Specified Currency is different from the currency in which such investor's principal financial activities are principally denominated;
- understand thoroughly the terms of the Securities and be familiar with the behaviour of any relevant securities, assets, indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Securities are complex financial instruments. Investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in

Securities unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor's overall investment portfolio.

Potential Discretionary Determinations by the Issuer and Calculation Agent:

Under the Terms and Conditions of the Securities, if certain events outside the control of the Issuer and Calculation Agent occur during the life of the Securities, the Issuer or Calculation Agent (as applicable) may determine, in their discretion, to take one of more actions available to them in order to deal with the impact of such event on the Securities or, as the case may be, on the Issuer (or both). Such actions may have an adverse impact on the value of the Securities.

Types of events that could lead to a discretionary determination

The types of event that could lead to a discretionary determination by the Issuer or Calculation Agent include if the Issuer's obligations under the Securities or its related hedging arrangements become (or will become) impracticable, illegal, impossible or an external event occurs which impacts the Reference Item(s) or the Issuer's hedging arrangements.

More details on the above events are set out in the relevant General Terms and Conditions applicable to the Securities and the relevant Product Terms applicable to the relevant Reference Item(s). Additional details may also be set out in the applicable Pricing Supplement.

If the Issuer or Calculation Agent's obligations under the Securities or its related hedging obligations become or will become impracticable, illegal or impossible then the Issuer and Calculation Agent may need to determine what action to take so that it is no longer impracticable, illegal or impossible to perform its obligations, or the Issuer may need to early redeem the Securities.

The Issuer may enter into hedging arrangements in order to manage its exposure in relation to its payment obligations under the Securities and to enable it to issue the Securities at the relevant price and on the relevant terms. Such hedging arrangements may involve holding the Reference Item(s) directly, entering into derivative contracts with counterparties to receive a corresponding economic exposure to the Reference Item(s) or to hedge the currency or price risk in relation to the Reference Item(s) or the Securities. The Issuer may need to exercise discretion and make adjustments if an external event occurs which negatively impacts the Issuer's hedging arrangements or the cost of maintaining its hedging arrangements. Such external events are unlikely to have been reflected in the original pricing of the Securities.

Types of actions that the Issuer or Calculation Agent may take

Following such an event (as described above), the types of actions that the Issuer or Calculation Agent may take include (i) adjusting the Terms and Conditions of the relevant Securities, (ii) for Securities linked to a Reference Item, substitution of the affected Reference Item and/or (iii) early redemption of the Securities and payment of the Early Redemption Amount or fair market value (as applicable).

In addition, the Terms and Conditions of the relevant Securities may specify additional events that could result in discretionary determination by the Issuer or Calculation Agent and/or additional actions that may be taken.

The determination of the occurrence of such events and of amounts to be calculated are also subject to the Issuer and Calculation Agent's discretion.

Calculation of the Early Redemption Amount or fair market value of the Securities

On any early redemption of the Securities the amount payable may involve a determination of the fair market value of the Securities. Such amount (which may be zero) shall be determined by the Calculation Agent and in so doing it may consider, without limitation, such relevant information, as it determines appropriate at the relevant time (such relevant information may include, without limitation, quotations (firm or indicative), relevant market data, in each case whether internal or external, and any other considerations as set out in the Terms and Conditions of the Securities).

The effect of such events and/or actions by the Issuer or Calculation Agent

Such event and actions taken by the Issuer and Calculation Agent may result in a reduced return on the Securities and/or have a material adverse impact on the value of the Securities. The amount payable or assets deliverable at maturity or on any such early redemption may be less than an investor's initial investment, and could be reduced to zero. If the Securities are redeemed prior to the scheduled maturity, investors may be unable to reinvest the redemption or settlement proceeds or assets at that time in another investment that provides an equivalent return.

How will the discretion be exercised?

Unless the Terms and Conditions expressly state otherwise, the Issuer and Calculation Agent shall act in good faith and in a commercially reasonable manner at all times in considering whether and how to make such a discretionary determination and any action required. All determinations and actions shall be made in accordance with the Terms and Conditions of the Securities, having regard to any criteria, factors or methodology stipulated therein.

Notification

Where so specified in the Terms and Conditions of the relevant Securities, notice will be given to the holders of the relevant Securities pursuant to such Terms and Conditions if any action is taken following the occurrence of such an event.

RISK FACTORS

Each Issuer believes that the following factors, which are specific to the Issuers, may affect its ability to fulfil its obligations under Securities issued pursuant to the Programme. All of these factors are contingencies which may or may not occur.

Factors which each Issuer believes may be material for the purpose of assessing the specific risks relating to the Securities issued under the Programme are also described below.

Each Issuer believes that the factors described below represent the principal risks inherent in investing in the Securities issued under the Programme, but either Issuer may be unable to pay interest, principal or other amounts on or in connection with any Notes issued by it for other reasons and neither Issuer represents that the statements below regarding the risks of holding any Securities are exhaustive.

PROSPECTIVE INVESTORS SHOULD HAVE REGARD TO AND SHOULD HAVE SUFFICIENT KNOWLEDGE AND EXPERTISE TO EVALUATE THE EFFECT OF OR THE LIKELIHOOD OF THE OCCURRENCE OF THE FACTORS DESCRIBED IN THE SECTIONS BELOW, WHICH INCLUDE THE RISK THAT THE NOTES MAY BE CONVERTED INTO ORDINARY SHARES AND/OR MAY BE SUBJECT TO STATUTORY WRITE-DOWN OR BAIL-IN, WHICH MAY RESULT IN LOSS ABSORPTION BY INVESTORS. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision.

1. RISKS RELATING TO THE GROUP AND ITS BUSINESS OPERATIONS

1.1 *The Group is exposed to macroeconomic risks*

Standard Chartered PLC ("**SCPLC**") and the subsidiaries and subsidiary undertakings of SCPLC (together, the "**Group**") operates across more than 59 markets and is affected by the prevailing economic conditions in each of these markets. Macroeconomic factors have an impact on personal expenditure and consumption, demand for business products and services, the debt service burden of consumers and businesses, the general availability of credit for retail and corporate borrowers and the availability of capital and liquidity for the Group. All these factors have impacted and may continue to impact the Group's financial condition and results of operations.

Asia remains the main driver of global growth supported by internal drivers, led by the People's Republic of China ("**China**"). In particular, Greater China, North Asia and South East Asian economies remain key strategic regions for the Group. The emergence of the novel strain of the coronavirus identified in China in late 2019 ("**COVID-19**") has impacted the Group's overall macroeconomic and operating environment; see risk factor titled "*The novel coronavirus outbreak, and the emergence of new diseases, could materially and adversely affect the business, results of operations and financial condition of the Issuers and of the Group*" for further disclosure on the impact of COVID-19 on the Group. The COVID-19 pandemic coincides with a period of slowdown in China's economy. Prior to the pandemic, China's GDP growth had slowed to 6 per cent. in each of Q3 and Q4 in 2019, the weakest pace in almost 30 years. Highly trade oriented economies such as Hong Kong and Singapore with close ties to China are especially vulnerable. In Q1 2020, GDP shrank by 8.9 per cent. and 2.2 per cent. year-on-year for Hong Kong and Singapore respectively. Regional supply chain economies such as Korea, Taiwan and Malaysia are being impacted from a fall in economic activity.

The occurrence or continuance of any of the above risks could have a material adverse effect on the Group's financial condition, results of operations and, if severe or prolonged, its prospects.

1.2 *The novel coronavirus outbreak, and the emergence of new diseases, could materially and adversely affect the business, results of operations and financial condition of the Issuers and of the Group*

COVID-19 has spread throughout the world. On 11 March, 2020, the World Health Organisation confirmed that its spread and severity had escalated to the point of pandemic. The outbreak of COVID-19 has resulted in authorities implementing numerous measures to try to contain the virus, such as travel bans and restrictions, curfews, quarantines and shut downs, and has led to increased volatility and declines in financial markets and severe economic downturn in many countries.

The spread of COVID-19 has led the Group to modify its business practices, including the imposition of restrictions on employee travel, changes to working locations and the cancellation of physical participation in meetings. The Group may take further actions required by authorities or that it determines are in the best interests of its employees, customers, partners or suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by COVID-19, and the implementation of such measures (or their insufficiency) could harm the Group's ability to perform critical functions. The unavailability of staff could adversely impact the quality and continuity of service to customers and the reputation of the Group.

The further economic impact of COVID-19 will depend on the continuing development of the virus and the responses of the authorities and the global community. The degree to which COVID-19 continues to impact the Group's results will depend on future developments, which, as at the date of this Base Prospectus, are highly uncertain and cannot be predicted. These developments may include, but are not limited to, the duration and spread of the outbreak, its severity, actions taken to contain the virus or treat its impact, the extent and effectiveness of economic stimulus packages and how quickly and to what extent normal economic and operating conditions can resume. In the medium- to long-term, if the spread of COVID-19 is

RISK FACTORS

prolonged, or further diseases emerge that give rise to similar macroeconomic effects, macroeconomic conditions will be adversely affected and could lead to further economic downturn in countries where the Group operates and the global economy more broadly (which could be widespread, severe and long lasting). The ability of the Group's customers to serve their contractual obligations, including to the Group, may also be materially adversely affected. The factors described above could, together or individually, have a material and adverse impact on the business, results of operations and financial condition of the Issuers and of the Group, which could be severe.

1.3 *The Group is exposed to geopolitical risks*

The Group faces risks associated with geopolitical uncertainty. Geopolitical tensions or conflicts in areas where the Group operates could impact: (i) trade flows; (ii) economic activity and related levels of financial transactions; (iii) the ability of the Group's customers to serve their contractual obligations; and (iv) the Group's ability to manage capital, liquidity or operations across borders.

In particular:

- The Group derives significant revenues from supporting cross-border trade and material offshore support operations. The adoption of protectionist policies driven by nationalist agendas could disrupt established supply chains and invoke retaliatory actions. Countries could introduce tariffs on goods and services available domestically or from other economies. Such actions would impact global trade. In addition, several authorities in the Group's footprint continue to adopt stringent standards on outsourcing or offshoring activities and there is an increased focus on priority sector lending requirements. The adoption of such policies and standards could have a material adverse impact on the Group's revenues from affected operations.
- Tensions between the U.S. and China, driven by trade imbalance and geopolitical tensions, continue to rise. The situation is rapidly changing and remains fragile, particularly given the backdrop of actions taken by the U.S. and China in relation to trade tariffs imposed on respective imports since 2018, the U.S. 2020 presidential election, the politics evolving around the COVID-19 pandemic, and China's protest over the U.S. Senate's passing of the Hong Kong Human Rights and Democracy Act which threatens Hong Kong's special trade status. Extended U.S.-China trade tensions could destabilise the world economy.
- Hong Kong remains the largest profit contributor to the Group. The combined effect of various factors, including: (i) the uncertainty over U.S.-China trade relations; (ii) ongoing social unrest (in particular that seen in the second half of 2019 following the proposal by the Hong Kong government of the Fugitive Offenders and Mutual Legal Assistance in Criminal Matters Legislation (Amendment) Bill (the "**Extradition Bill**")); and (iii) COVID-19, has led to a notable slowdown in Hong Kong's economy, which shrank by 8.9% in Q1 2020 year-on-year. In addition, China's move to impose national security laws in Hong Kong resulted in the U.S. announcing intentions to withdraw privileges granted to Hong Kong under the U.S.-Hong Kong Policy Act of 1992.. If Hong Kong were to lose its special status in U.S. laws, it could be subject to the same U.S. tariffs on China and U.S. restrictions on technology transfer and investment. Until full details of the actions proposed by the U.S. are revealed it will be premature to ascertain the exact impact on Hong Kong.
- The Group has a material presence across the Middle East. The last 12 months have seen an increase in political and military volatility across the Middle East with Iran, Saudi Arabia, the UAE and the U.S. as the key actors. Continued or worsening volatility could destabilise the region's economy or disrupt the Group's operations in the Middle East.
- Following the UK's exit from the European Union ("**EU**") ("**Brexit**") on 31 January, 2020 the UK entered an implementation period that will remain in place until 31 December, 2020 (subject to any extension which may be agreed between the UK and the EU) (the "**Implementation Period**"). In the event the UK and the EU fail to agree on a post Brexit

trade framework for the financial services sector by the end of the Implementation Period, a 'hard' Brexit will occur effective from 1 January, 2021 unless an alternative approach is agreed, or the Implementation Period is extended. Brexit could have implications on the economic outlook for the Eurozone and the UK which might in turn have global implications because of changes in policy direction. The uncertainties linked to Brexit negotiations could delay corporate investment decisions until there is more clarity.

- As the Japan-South Korea dispute over wartime labour compensation escalated, Japan imposed export restrictions on South Korea on important raw materials for semiconductors and Organic Light Emitting Diode ("**OLED**") displays, with effect from 4 July, 2019. On 21 February, 2020 a preparatory meeting was held where both sides agreed to hold the Eighth Japan-Korea Export Control Policy Dialogue in Seoul on 10 March, 2020. At the meeting both sides discussed issues including further updates to the status of export control systems and their implementation in order to contribute to exploring resolution of issues of concern. South Korean chip manufacturers rely on these imports. Although this supply shortage is expected to have minimal immediate impact because the use of these raw materials is limited to high-end products, the adoption of these advanced technologies is critical for retaining technological leadership and is expected to accelerate in the medium term. These are important markets for the Group.

The occurrence or continuance of any of the above risks could have a material adverse effect on the Group's financial condition, results of operations and, if severe or prolonged, its prospects.

1.4 Climate related physical risks and transition risks

The Group is exposed to the potential for financial loss and further non-financial detriments arising from climate change and society's response to it. This risk consists principally of:

- physical risk, being the risks arising from increasing frequency and severity of acute weather-related events and longer-term chronic shifts in climate patterns; and
- transition risk, being the risks arising from the process of adjustment to a low-carbon economy, in order to limit global temperature rise.

(together referred to as "**Climate Risk**").

The Bank of England ("**BoE**") published its Supervisory Statement SS 3/19 ("**SS 3/19**") in April 2019, setting out significant measures to be taken by banks and insurers in managing Climate Risk.

The Group has set out a Climate Risk workplan, with oversight from the Group Risk Committee, to meet the expectations of SS 3/19. This includes developing tools and methodologies for Climate Risk assessments and integrating these into risk management practices. The Group's central Enterprise Risk Management Framework recognises Climate Risk as a material cross-cutting risk type, manifesting through other principal risks and the SCPLC Board has approved a Risk Appetite Statement for Climate Risk.

The Group has an existing commitment to measure, monitor and ultimately reduce the emissions associated with the financing of its clients, and to align lending portfolios to the Paris Agreement. In December 2019, the BoE published a Discussion Paper setting out its proposal for the 2021 Biennial Exploratory Scenario ("**BES**") on Climate Risks. The objective is to test the resilience of the largest banks' and insurers' exposure to Climate Risks, as well as that of the financial system more generally. The BoE expects to publish its final BES in the second half of 2020, and the results in 2021. The Group also anticipates regulatory guidance and expectation in respect of Climate Risks in many of the Group's other markets to increase.

Such regulatory developments, together with existing guidance and expectations, may have significant impacts, for example, on energy infrastructure developed in the Group's markets,

RISK FACTORS

and thus present 'transition' risks for the Group's clients, and may affect demand for financial products and services. Conversely, if governments fail to enact policies which limit global warming, many of the Group's markets will be particularly susceptible to the 'physical' risks of climate change such as droughts, floods, sea level change and average temperature change.

Climate Risk may impact the loss profile of the Group's loan portfolio and may reduce demand for financial products and services. The occurrence or continuance of any of the abovementioned risks could have a material adverse effect on the Group's financial condition, results of operations and, if severe or prolonged, its prospects.

1.5 The Group is exposed to risks relating to the integrity and continued existence of reference rates

In July 2017, the CEO of the UK Financial Conduct Authority ("**FCA**") announced that beyond 2021 the FCA would no longer seek to persuade or compel panel banks to submit quotes to LIBOR. The BoE and FCA Working Group on Sterling Risk-Free Rates (the "**RFRWG**") have been mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("**SONIA**") across sterling bond, loan and derivative markets so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021. The Alternative Reference Rates Committee (the "**ARRC**") is a group of private-market participants convened by the Federal Reserve Board (the "**FRB**") and the New York Fed (the "**Fed**") to help ensure a successful transition from U.S. dollar LIBOR to its recommended alternative, the Secured Overnight Financing Rate ("**SOFR**"). Whilst SCB does not submit to LIBOR, LIBOR is heavily relied upon by the Group as a reference rate.

In a public letter dated 16 January, 2020, in which the Prudential Regulation Authority ("**PRA**") and the FCA set out their initial expectations for transition from GBP LIBOR to SONIA during 2020, the PRA and the FCA referred to a series of targets set for 2020 by the RFRWG. Following this statement, on 29 April, 2020 the BoE, FCA and the RFRWG further issued a joint statement on the impact of COVID-19 on firms' LIBOR transition plans. While recognising the challenges, the UK Authorities reinforced the message that the industry should continue to plan for a permanent cessation of LIBOR with effect from 2022. The statement did however acknowledge that it would not be feasible for firms to complete their transition away from LIBOR for all new GBP loans by end Q3 2020, as per the originally planned target date communicated in January 2020. Recognising that there will likely be a "continued use of LIBOR-referencing loan products into Q4 2020 in particular, to maintain the smooth flow of credit to the real economy", the RFRWG published the following set of revised guidelines / targets:

- By the end of Q3 2020 lenders should be in a position to offer non-LIBOR linked products to their customers;
- After the end of Q3 2020 lenders, working with their borrowers, should include clear contractual arrangements in all new and re-financed LIBOR-referencing loan products to facilitate conversion ahead of end-2021, through pre-agreed conversion terms or an agreed process for renegotiation, to SONIA or other alternatives; and
- Establish a clear framework to significantly reduce the stock of GBP LIBOR referencing contracts by Q1 2021

On 27 May, 2020, the ARRC published its own set of recommended best practices and concrete dates for the cessation of U.S. dollar LIBOR and transition to SOFR. The ARRC's guidance on near-term transition steps include some aggressive targets and should serve as a catalyst for an accelerated shift away from LIBOR and adoption of SOFR by industry participants. Most noteworthy are the targets that require "hardwired" fallbacks (i.e. detailing the specific mechanism for converting a LIBOR-referenced transaction to its RFR equivalent) into all U.S. dollar business loans by end Q3 2020, and the target for cessation of new USD LIBOR lending and derivatives by 30 June, 2021.

On 26 February, 2020, the BoE published a market notice (the "**Market Notice**") relating to: (i) haircut add-ons that will be applied to LIBOR linked collateral; and (ii) the eligibility of LIBOR linked collateral for the purposes of the Sterling Monetary Framework ("**SMF**"). For these

purposes, the phrase 'LIBOR linked collateral' means: (a) LIBOR linked loan portfolios, (b) collateral securities where the coupon pays a rate of interest calculated by reference to LIBOR; (c) collateral securities where embedded swap payments are calculated by reference to LIBOR; and (d) collateral securities backed by loans where one or more loans in the portfolio is a LIBOR linked loan. Under the terms of the Market Notice, the haircut add-on to LIBOR linked collateral will be 10 percentage points from 1 October, 2020, 40 percentage points from 1 June, 2021 and 100 percentage points from 31 December, 2021. The Market Notice also provides that: (x) from 1 October, 2020, all LIBOR linked collateral securities issued on or after that date and maturing after 31 December, 2021, where LIBOR is the applicable reference rate, will be ineligible for use in the SMF; and (y) from 31 December, 2021, all LIBOR linked collateral, regardless of the issuance or origination date, will be ineligible for use in the SMF. Throughout the Market Notice LIBOR refers to GBP LIBOR, USD LIBOR, EUR LIBOR, JPY LIBOR and CHF LIBOR. The measures proposed by the BoE in relation to LIBOR linked collateral may have an adverse financial impact on the Group to the extent that any member of the Group has an exposure to, or has posted, such collateral.

Transition from LIBOR to RFRs presents several risks: (i) there are fundamental differences between LIBOR and RFRs and value transfer may arise in transitioning contracts from one to the other; (ii) the market may transition at different paces in different regions and across different products, presenting various sources of basis risk and posing major challenges on hedging strategies; (iii) clients may allege that they have not been treated fairly throughout the transition or may not be aware of the options available to them and the implications of decisions taken, leading them to claim unfair financial detriment; (iv) changes in processes, systems and vendor arrangements associated with the transition may not be within appropriate tolerance levels; (v) legal risk in relation to the fall-back risks associated with the transition; and (vi) accounting and financial reporting risk in that the changes in underlying rates, and their impact on matters such as cashflows and valuations, may not be incorporated correctly.

The occurrence or continuance of any of the above risks could have a material adverse effect on the Group's financial condition, results of operations and, its prospects.

1.6 *New technologies and digitisation (including disruption risk, responsible use of Artificial Intelligence ("AI") and obsolescence risk)*

New technologies have continued to gather speed with a growing number of use cases that address evolving customer expectations.

The banking landscape for retail banking, for example, is witnessing significant shifts in customer value propositions as markets deepen. Companies using financial technology (commonly referred to as "**Fintechs**") are delivering digital-only banking offerings with a differentiated user experience, value propositions and product pricing. There is growing usage of machine learning ("**ML**") to deliver highly personalised services, e.g. virtual chatbots to provide digital financial advice and predictive analytics to cross-sell products.

In Corporate Banking, the Group observes an increasing focus on process digitisation to streamline processes and provide scalable and personalised solutions for corporate clients. There are a growing number of use cases for blockchain technologies, e.g. streamline cross-border payments and automated key documentation. AI and ML have also been increasingly used in predictive risk modelling, e.g. loan default forecast. Failure to expediently adapt and harness such technologies would place the Group at a competitive disadvantage.

There is an increasing usage of partnerships and alliances by banks to respond to a rapidly changing banking landscape and disruption from existing players and new entrants. This is making partnerships and alliances an integral part of banks' emerging business model and value propositions to clients, including those part of the Group.

As these new technologies grow in sophistication and become further embedded across the banking and financial services industry, banks, including SCB, may become more susceptible to technology-related risks. For example, the growing usage of big data and cloud computing

RISK FACTORS

solutions has heightened cyber security risks in banks. Banks may also face increased risks of business model disruption as new products and technologies continue to emerge.

Regulators increasingly emphasise the importance of resilient technology infrastructure in terms of eliminating cyber risk and improving reliability. The challenge is in both renewing, and increasing investment into, the Group's technology estate to reduce the risks presented by obsolescence and to meet the demand for its required performance levels, which continue to rise significantly.

The occurrence or continuance of any of the above risks could have a material adverse effect on the Group's financial condition, results of operations and, if severe or prolonged, its prospects.

1.7 *The Group is exposed to competition in the markets in which it operates*

The Group is subject to significant competition from local banks and other international banks carrying on business in the markets in which it operates, including competitors that may have greater financial and other resources. In addition, the Group may experience increased competition from new entrants in the relevant product or geographic markets and existing competitors may combine to increase their existing market presence or market share.

Many of the international and local banks operating in the Group's markets compete for substantially the same customers as the Group and competition may increase in some or all of the Group's principal markets. In order to remain competitive, the Group may not realise the margins in certain markets which it would otherwise have expected or desired. In addition, certain competitors may have access to lower cost funding and be able to offer loans on more favourable terms than the Group. Furthermore, in certain of the Group's markets, it competes against financial institutions that are supported or controlled by governments or governmental bodies and the Group might be required to satisfy certain lending thresholds and other identified targets. Regulations may also favour local banks by restricting the ability of international banks, such as the Group, to enter the market and/or expand their existing operations. Such restrictions could adversely affect the Group's ability to compete in these markets.

In addition, the wider banking industry is witnessing several significant technology related trends, which is increasingly leading to competition from non-bank technology companies, primarily in areas such as peer-to-peer lending, payments and cross-border remittances. See the risk factor titled "*New technologies and digitisation (including disruption risk, responsible use of Artificial Intelligence ("AI") and obsolescence risk)*".

The above matters, individually or in combination, may have a material adverse effect on the Group's financial condition, results of operations and prospects.

1.8 *Regulatory and enforcement reviews, investigations and legal proceedings*

Regulatory and enforcement reviews and investigations and internal practice and process reviews may result in adverse consequences for the Group.

Since the global financial crisis in 2007–2008, the banking industry has been subject to increased regulatory scrutiny. There has been an unprecedented volume of regulatory changes and requirements, as well as a more intensive approach to supervision, oversight and conduct. Banking sector entities, including the Group, have been and continue to be subjected to an increasing number of regulatory and enforcement reviews, requests for information (including subpoenas and requests for documents) and investigations across the markets in which the Group operates, often with enforcement consequences.

The Group is also party to legal proceedings from time to time, which may give rise to financial losses or adversely impact the Group's reputation in the eyes of its customers, investors and other stakeholders.

Regulatory and enforcement authorities have broad discretion to pursue prosecutions and impose a wide range of penalties for non-compliance with laws and regulations. Penalties imposed by authorities have included substantial monetary penalties, additional compliance and remediation requirements and additional business restrictions. In recent years, authorities have exercised their discretion to impose increasingly severe penalties on financial institutions in connection with violations of laws and regulations, and there can be no assurance that future penalties will not be of increased severity. As a result, the outcome of regulatory and enforcement reviews, requests for information and investigations may, in turn, have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group has in recent years been subject to a number of proceedings with various authorities and other parties, the resolution of which has in certain cases included substantial monetary penalties, additional compliance and remediation requirements and additional business restrictions. These proceedings have included:

- In April 2019, the Group resolved investigations by various U.S. authorities (concerning historical violations of U.S. sanctions laws and regulations) and the FCA (concerning the effectiveness and governance of certain historical financial crime controls) (the "**2019 Resolutions**"), paying U.S.\$947 million in monetary penalties to the U.S. authorities and £102 million to the FCA. Deferred Prosecution Agreements ("**DPAs**") previously entered with each of the Department of Justice ("**DOJ**") and the New York Country District Attorney's Office ("**DANY**") were also extended to 9 April, 2021. The monitorship previously imposed by the DOJ expired on 31 March, 2019. As of 31 December, 2019, the term of the independent consultant appointed by the New York Department of Financial Services ("**NYDFS**") terminated and the business restrictions previously imposed by the NYDFS are no longer in effect.
- In January 2020, a shareholder derivative complaint was filed by the City of Philadelphia in the New York State Court against 45 current and former directors and senior officers of the Group. It is alleged that the individuals breached their duties to the Group and caused a waste of corporate assets by permitting the conduct that gave rise to the costs and losses to the Group of the 2019 Resolutions. Each of the Issuers and Standard Chartered Holdings Limited are named as "nominal defendants" in the complaint.
- The Group is also a defendant in a number of lawsuits that have been filed since 2014 in the United States District Courts for the Southern and Eastern Districts of New York against a number of banks (including SCB) on behalf of plaintiffs who are, or are relatives of, victims of various terrorist attacks in Iraq. The plaintiffs allege that the defendant banks aided and abetted the unlawful conduct of U.S. sanctioned parties in breach of the U.S. Anti-Terrorism Act. Based on the facts currently known, it is not possible for the Group to predict the outcome of these lawsuits.

The Group's compliance with historical, current and future sanctions, as well as financial crime control, anti-money laundering and the U.S. Bank Secrecy Act 1970 (the "**Bank Secrecy Act**") requirements and customer due diligence practices are, and will remain, a focus of relevant authorities.

Any breach of law, regulation, settlement agreement (including DPAs) or order, or non-compliance with or weakness in, the Group's policies, procedures, systems, controls and assurance for its anti-money laundering, Bank Secrecy Act, sanctions, compliance, corruption and tax crime prevention efforts may give rise to the adverse consequences described above, any of which could have a material adverse impact on the Group, including its reputation, business, results of operations, financial condition and prospects.

1.9 Increased data privacy and security risks from strategic and wider use of data

As digital technologies grow in sophistication and become further embedded across the banking and financial services industry, the potential impact profile with regards to data risk is changing. Banks may become more susceptible to technology-related data security risks as

RISK FACTORS

well as customer privacy risks. The growing use of big data for analysis purposes and cloud computing solutions are examples of this.

In addition, these risks represent an emerging and topical theme both from a regulatory and compliance perspective (i.e. the General Data Protection Regulation EU 2016/679 raises the profile of data protection compliance). Similarly, increasing the use of AI and ML technology within the Group requires additional data protection considerations and assumptions, including in respect of the algorithms used in the underlying analysis as well as the resulting data produced. Regulatory controls on the resulting data produced from such tools also need to be considered.

The Group's move towards cloud computing solutions and increasing use of big data for analysis purposes leads to increased susceptibility to data security and customer privacy risks, which in turn may, individually or in combination, have a material adverse effect on the Group's financial condition, results of operations and prospects.

2. CREDIT AND TRADED RISK

2.1 ***The Group is exposed to risks associated with changes in the credit quality and the recoverability of loans and amounts due from counterparties.***

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Group's businesses.

Although the Group's continued focus on high-quality origination within a more granular risk appetite has enabled sustained improvements in the credit quality of its corporate portfolios, the Group remains alert to broader geopolitical uncertainties that continue to affect sentiment.

Principal uncertainties include the emergence of COVID-19 and its impact on the Group's operating environment and the overall macroeconomic outlook. See the risk factor titled "*The novel coronavirus outbreak, and the emergence of new diseases, could materially and adversely affect the business, results of operations and financial condition of the Issuers and of the Group*". Uncertainties also include macroeconomic conditions, in particular, the economic slowdown in China, Hong Kong and the U.S. and the potential impact on regional economies with close ties to China, and emerging market risks. Any change in global or country-specific economic conditions or asset values, adverse changes in the credit quality of the Group's borrowers and counterparties, and adverse changes arising from a deterioration in economic conditions or asset values (including a prolonged or severe deterioration) could reduce the recoverability and value of the Group's assets and require an increase in the Group level provisions for bad and doubtful debts or write-downs experienced by the Group. The Group may also experience these effects if a systemic failure in one or more financial systems were to occur (see the risk factor titled "*The Group is exposed to systemic risk resulting from failures by banks, other financial institutions and corporates*").

Direct or indirect regulatory interventions may also adversely impact the operating environment. These interventions could be based on fundamental policies such as house-hold debt levels, money supply control etc. but could also at times be influenced by populist measures. Industry wide forbearances, capping of debts to overleveraged customers, capping unsecured debt limits and controlling property prices are some examples of measures which can impact a customer's ability and intention to serve debt obligations.

Credit impairment rose significantly in Q1 2020 as against Q1 2019, with approximately half of this increase attributable to two Corporate and Institutional Banking clients in unrelated markets and sectors. The impact of COVID-19 is expected to lead to higher Stage 3 impairments from Q2 2020 onwards.

The occurrence of any of the above, or a failure by the Group to manage these risks effectively, could have a material adverse effect on the Group's financial condition, results of operations and, if severe or prolonged, its prospects.

2.2 *The Group is exposed to systemic risk resulting from failures by banks, other financial institutions and corporates*

Within the financial services industry the default of any institution or corporate could lead to defaults by other institutions. Concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions as the commercial soundness of many financial institutions may be closely correlated as a result of their credit, trading, clearing or other relationships. This risk is sometimes referred to as “systemic risk”, and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms, other financial institutions and exchanges with whom the Group interacts on a daily basis. In turn, the soundness of these institutions could have an adverse effect on the Group’s ability to raise new funding and could have a material impact on the Group’s business, financial condition, results of operations and prospects.

2.3 *The Group is exposed to risks associated with changes in interest rates, exchange rates, commodity prices, and credit spreads and other market risks*

The primary categories of market risk for the Group are:

- interest rate risk: arising from changes in yield curves, credit spreads and implied volatilities on interest rate options;
- foreign exchange risk: arising from changes in currency exchange rates and implied volatilities on foreign exchange options;
- commodity price risk: arising from changes in commodity prices and implied volatilities on commodity options, covering energy, precious metals, base metals and agriculture; and
- equity risk: arising from changes in the prices of equities, equity indices, equity baskets and implied volatilities on related options.

The occurrence or continuance of unexpected events resulting in significant market dislocation could have a material adverse effect on the Group’s financial condition and results of operations and, if severe or prolonged, its prospects. Failure to manage these risks effectively may also have a material adverse effect on the Group’s financial condition and results of operations and, if such failure is significant or prolonged, its prospects.

2.4 *The Group is exposed to the risks associated with volatility and dislocation affecting financial markets and asset classes*

Volatility and dislocation affecting certain financial markets and asset classes, whether unexpected, prolonged or elevated, are factors that have had and may continue to have a material adverse effect on the Group’s assets, financial condition and results of operations. In particular, these factors have had, and may continue to have, a negative impact on the mark-to-market valuations of assets in the Group’s Fair Value through Other Comprehensive Income (“FVOCI”) and trading portfolios. As at close of business on 19 May, 2020, Treasury Markets held approximately U.S.\$126 billion of High Quality Liquid Assets for regulatory purposes under IFRS9/FVOCI accounting rules. Under Regulation (EU) 575/2013 (as amended, the “CRR”), any profit or loss under FVOCI impacts the Group’s Common Equity Tier 1 Capital (“CET1 Capital”) position directly. In addition, if such volatility or dislocation were to be severe or prolonged, this may also adversely affect the Group’s prospects.

Market volatility may also negatively impact certain customers exposed to derivative contracts. While the Group seeks to manage customer exposure and risk, the potential losses incurred by certain customers as a result of derivative contracts could lead to an increase in customer disputes and corporate defaults and result in further write-downs or impairments. Failure to manage such risks therefore may have a material adverse effect on the Group’s financial condition, results of operations and, if such failure is significant or prolonged, its prospects.

2.5 *The Group is subject to the risk of exchange rate fluctuations and risks associated with exposure to cross-border or foreign currency obligations, in each case arising from the geographical diversity of its businesses*

As the Group's business is conducted in a number of jurisdictions and in a number of currencies (including, for example, U.S. dollars, Pounds sterling, Korean won, Hong Kong dollars, Singapore dollars, Taiwan dollars, Chinese yuan, Indian rupees and a number of African currencies), the Group's business is subject to the risk of exchange rate fluctuations. The results of operations of Group companies are initially reported in the local currencies in which they are domiciled, and these results are then translated into U.S. dollars at the applicable foreign currency exchange rates for inclusion in the Group's consolidated financial statements. The exchange rates between local currencies and the U.S. dollar have been, and may continue to be, volatile. The Group is therefore exposed to movements in exchange rates in relation to non-U.S. dollar currency receipts and payments, dividend and other income from its subsidiaries and branches, reported profits of subsidiaries and branches and the net asset carrying value of non-U.S. dollar investments and Risk Weighted Assets ("RWA") attributable to non-U.S. dollar currency operations.

Although the Group monitors adverse exchange rate movements (and, in some cases, may seek to hedge against such movements), it is difficult to predict changes in economic or market conditions with accuracy and to anticipate the effects that such changes could have on the Group and the translation effect against the U.S. dollar of such fluctuations in the exchange rates of the currencies of those countries in which the Group operates.

In addition, the Group's exposure to cross-border or foreign currency obligations give rise to transfer and convertibility risks, which arise from the possibility that a government is unable or unwilling to make foreign currency available for remittance out of the country, thereby preventing, amongst other things, its use in settlement of cross-border arrangements. Unless suitable mitigation is in place to transfer the exposure to an alternative country of risk (e.g. parental support, offshore cash collateral, comprehensive credit insurance), transfer and convertibility risks could result in counterparties being unable to discharge their obligations to the Group when due. They could also adversely affect the ability of one member of the Group to make remittances to other members of the Group.

Any such changes in the economic and market conditions, or a failure by the Group to manage such risks effectively, could have a material adverse effect on the Group's financial condition, results of operations and, if severe or prolonged, its prospects.

2.6 *The Group is exposed to counterparty credit risk*

Counterparty credit risk is the risk that a counterparty in a foreign exchange, interest rate, commodity, equity or credit derivative or repurchase contract defaults either on, or prior to, the maturity date of the relevant contract, and that the Group at the time has a claim on the counterparty. This risk arises predominantly in the trading book, but also arises in the non-trading book when hedging with external counterparties is undertaken.

Changes in the credit quality of the counterparties, and adverse changes arising from a deterioration (including a prolonged or severe deterioration) in global or country-specific economic conditions or asset values can impact the counterparty's ability to meet its payment, margin call and collateral posting requirements. The Group may also experience these effects if a systemic failure in one or more financial systems were to occur.

In the broad range of trading products and services, the Group also faces settlement risk when there is an exchange of value that is not made simultaneously between the counterparties (i.e. where the Group delivers value prior to receipt of payment from the counterparty); foreign exchange products are primary contributors to the Group's settlement risk profile. There are a broad range of settlement techniques adopted such as Continuous Linked Settlement ("CLS"), settlement via Central Counterparties ("CCPs"), settlement on a netted basis and Delivery-Versus-Payment ("DVP") mechanisms, to reduce, mitigate and monitor settlement risk.

The occurrence of any of the above or a failure by the Group to manage these risks effectively, could have a material adverse effect on the Group's financial condition, results of operations and, if severe or prolonged, its prospects.

2.7 The Group is exposed to Issuer Risk

The Group is exposed to the risk of an issuer of marketable securities defaulting, including risks in respect of its underwriting commitments from time to time. Market participants raise capital and funding for their needs through the issuance of bonds, notes, debentures, loans and other forms of negotiable instruments or securities from investors through public or private issuances. Risk arises from the change in value to the investors in such instruments or their derivatives.

The risk has two key components:

- the market price risk, which is the potential change in the value of the instrument resulting from changes in the underlying market risk factors, predominantly interest rates and credit spreads; and
- the risk arising from a potential Jump-to-Default ("JTD") of the issuer on its obligation, resulting in the value of the instrument falling to the expected value of the instrument at default.

(together, "Issuer Risk")

The Group has appropriate mechanisms in place to monitor and manage Issuer Risk; sensitivities to the market risk factors and concentration limits across multiple dimensions are monitored on a daily basis. Any failure in these mechanisms, or losses occurring as a result of the occurrence of an event of default in relation to an issuer or issuers (in each case, whether arising from a JTD or otherwise) could have a material adverse effect on the Group's financial condition, results of operations and prospects.

2.8 The Group is exposed to pension risk

Pension risk is the potential for loss due to requirements on having to meet an actuarially assessed shortfall in the Group's pension schemes. In the event of a shortfall, the Group may be required or may choose to make additional payments to the Group's pension schemes which, depending on the amount, could have a material adverse effect on the Group's financial condition, results of operations and prospects.

3. CAPITAL AND LIQUIDITY RISK

3.1 The Group's business is exposed to risks resulting from restrictions on, and decisions relating to, the management of its balance sheet and capital resources

The Group must ensure the effective management of its capital position in order to operate its business, to grow organically and to pursue its strategy. Future changes that limit the Group's ability to manage its balance sheet and capital resources effectively, or capital, strategic, operational or financial decisions taken by the Group, could have a material adverse effect on the Group's regulatory capital position, financial condition, results of operations and prospects.

3.2 The Group is exposed to risks associated with any downgrade to the Group's credit ratings

The Group's ability to access the capital markets, and the cost of borrowing in these markets, is significantly influenced by the Group's credit ratings. A reference to the Group's credit ratings includes (a) all ratings provided by the agencies including, but not limited to, long term and short term ratings, counterparty ratings and instrument ratings and (b) any outlooks assigned to those ratings from time to time.

RISK FACTORS

There is no guarantee that the Group will not be subject to downgrades to its credit ratings and/or negative changes in the outlook on such ratings. Factors leading to any such downgrade or change in outlook may not be within the control of the Group (for example, the deterioration of macroeconomic assessments, including as a result of COVID-19, the exercise of subjective judgement, a change in the methodology or a change in approach used by the rating agencies to rate the Group or its securities).

Since November 2015, certain of the Group's ratings have been downgraded by Fitch, Moody's and S&P for various reasons. The impact of these changes has not, to date been considered significant by the Group; however, the impact of any future changes to the Group's ratings may be material. The ratings agencies each rely on their own methodologies to assess the Group's ratings. Common drivers include operating environment, profitability, capital, liquidity, asset risk, government/affiliate support and debt buffers. Changes in these methodologies or drivers and/or any changes in the rating agencies' subjective assessments of the Group could adversely impact the Group's ratings. Notwithstanding the rating agency methodologies, rating agencies have also specifically identified a number of factors based on their most recent assessment of the Group that could result in a negative change to the Group's ratings in the near future, some of which may be referred to in the ratings agencies' public statements on the Group's ratings from time to time.

These factors include, but are not limited to, the Group's financial performance or balance sheet metrics of the Group on which elements of the ratings are based, reduction in the Group's debt buffers, external events affecting the Group or the broader banking sector, deterioration in the macro-economic assessments of the Group's markets and/or the potential for deterioration in the Group's operating environment. If any of these factors materialise or other events occur (for example, a change in the methodology or approach used by any applicable agency that rates the Group or its securities) or any other factors not yet identified emerge, they could lead to negative change in the Group's ratings.

Although the Group currently has a liquid and well-funded balance sheet, a negative change in the Group's credit ratings in the future could impact the volume, price and source of its funding, or adversely impact the Group's competitive position, all of which could have a material adverse effect on the Group's financial condition, results of its operations and/or prospects.

3.3 *The Group is exposed to liquidity and funding risks*

Liquidity and funding risks are a potential cause of loss where the Group may not have sufficiently stable or diverse sources of funding or financial resources to meet the Group's obligations as they fall due.

Although the Group currently has a liquid and well-funded balance sheet, liquidity and funding risk is inherent in banking operations and can be heightened by a number of factors, including: (i) an over-reliance on, or inability to, access a particular source of funding (including, for example, reliance on inter-bank funding); (ii) the extent of mobility of intra-Group funding; (iii) changes in credit ratings or market-wide phenomena such as financial market instability; and (iv) natural disasters.

As the Group operates in markets which have been and may continue to be affected by illiquidity and extreme price volatility, either directly or indirectly through exposures to securities, loans, derivatives and other commitments, its policy is to manage its liquidity prudently in all geographic locations so as to ensure each country operates within predefined liquidity limits and remains in compliance with Group liquidity policies and practices, as well as local regulatory requirements.

However, any reoccurrence or prolonged continuation of such conditions could have an adverse effect on the Group's financial condition and results of operations and, if severe, its prospects. In addition, any significant increase in the cost of acquiring deposits, inability to further increase deposits or significant outflow of deposits from the Group, particularly if it occurs over a short period of time, could have a material adverse impact on the Group's financial condition and liquidity position.

3.4 The Group is exposed to the risk of regulators imposing new prudential standards, including increased capital, leverage, loss-absorbing capacity and liquidity requirements

Currently, the Group meets the minimum regulatory capital standards under Directive (2013/36/EU (as amended, the "**CRD IV Directive**"), the CRR and associated implementing measures (collectively "**CRD IV**"). However, the Group is exposed to the risk that the PRA or BoE could:

- increase the minimum regulatory requirements or additional capital, liquidity or leverage buffers set for the Group or any of its UK regulated firms;
- introduce changes to the basis on which capital, liquidity, leverage and RWA are computed; and/or
- change the manner in which it applies existing requirements to or impose new regulatory requirements on the Group or any of its UK regulated firms.

As a result, the Group may be required to raise capital and/or liquidity to meet any of the foregoing requirements (or to meet any changes, or changes to the application of, such requirements) or take other actions to ensure compliance, which could have a material adverse impact on the Group's financial condition, results of operations and prospects.

The Group's ability to maintain its regulatory capital and leverage ratios in the longer term could also be affected by a number of factors, including its RWA and exposures, post-tax profit, exchange rate movements and fair value adjustments. Capital levels and requirements are more sensitive to market and economic conditions under the Basel III prudential framework, as adopted by the BSBC in 2017 ("**Basel III**"), than under previous regimes and effective capital requirements could increase if economic or financial market conditions worsen.

The Group remains a Global Systemically Important Bank ("**G-SIB**") with a 1.0 per cent. G-SIB CET1 Capital buffer which was fully implemented on 1 January 2019. If the Group were categorised as a G-SIB with a greater than 1 per cent. requirement, the Group's minimum CET1 Capital requirement would increase. Certain of the Group's non-UK entities have been, and others may be, designated domestic systemically-important banks (referred to in the EU as other systemically-important institutions, or "**O-SIIs**") in the markets in which they operate in accordance with the approach developed by the Basel Committee on Banking Supervision ("**BCBS**") and the Financial Stability Board (the "**FSB**"), which may in the future result in higher capital requirements for them.

From time to time, the Group may also be subject to a PRA buffer, intended to ensure the Group remains well capitalised during periods of stress. It is understood that to set the PRA buffer, the PRA considers results from various stress tests as well as other relevant information. The PRA buffer is additional to the existing capital conservation buffer, and is applied if and to the extent that the PRA considers existing capital buffers do not adequately address the Group risk profile. The PRA buffer is not disclosed.

UK banks (including SCB) are subject to a minimum leverage ratio of 3.25 per cent, and in certain cases, a supplementary leverage ratio buffer is applicable. The Group is also required to ensure that the amount of stable sources of funding to which it has access (i.e. liquidity) meets a ratio prescribed by the CRR.

Institutions for which bail-in is the appropriate resolution strategy, such as the Group, are also required to hold certain amounts of loss-absorbing capital (i.e. minimum requirements for own funds and eligible liabilities ("**MREL**")).

If the regulatory capital, leverage, loss-absorbing capacity, liquidity or other requirements applied to the Group are increased in the future, this may have an adverse effect on the Group's financial condition, results of operations and prospects. In addition, any failure by the Group to satisfy such increased requirements could result in regulatory intervention or sanctions (including loss or suspension of a banking license) or significant reputational harm, which in

RISK FACTORS

turn may have a material adverse effect on the Group's financial condition, results of operations and prospects.

The Group may also be impacted by the implementation of further regulations which are currently under consultation or yet to be finalised or transposed (where applicable) into domestic law. Such changes in regulation, if implemented and/or when finalised may, directly or indirectly, give rise to increased regulatory capital requirements for the Group and could materially adversely affect the Group's business, financial condition, results of operations and prospects.

4. RISKS ASSOCIATED WITH REGULATORY REQUIREMENTS AND RESOLUTION MEASURES

4.1 Risks relating to SCB

The business and operations of the Group may be affected by resolution measures developed by its regulators, including those introduced in accordance with the Directive (EU) 2014/59 ("BRRD") (as amended) and the Banking Act 2009

The wide-ranging powers introduced and to be introduced by the Group's regulators to enable them to intervene and alter the business and operations as well as the capital and debt structure of an unsound or failing bank could have significant consequences for the Group's profitability, its financing costs and the implementation of its global strategy. The exercise or prospective exercise of resolution powers may have a material adverse effect on the Group's financial condition, results of operations and prospects.

Moreover, in order to prepare for the possibility of a bank entering financial difficulty, recovery and resolution planning regimes provide the Group's regulators with powers to require the Group to make changes to its legal, capital or operational structures, alter or cease to carry on certain specified activities, or satisfy MREL requirements. If the Group's regulators ultimately decide that any such changes are necessary or desirable to increase the resolvability and recoverability of the Group, the impact of any changes required may have a material effect on capital, liquidity and leverage ratios or on the overall profitability of the Group.

(A) Regulatory Capital Write-Down, Bail-in and other Resolution Powers

The BRRD requires EU Member States ("**Member States**") to give powers to their regulators and other bodies responsible for resolution activities ("**Resolution Authorities**") to recapitalise institutions and/or their EEA parent holding companies that are in severe financial difficulty or at the point of non-viability by permanently writing-down certain capital instruments (such as the Notes) issued by such institutions and/or their EEA or UK parent holding companies (or converting capital instruments into shares) ("**Regulatory Capital Write-Down Powers**").

The BoE, HM Treasury, the PRA and the FCA have additional powers under the Banking Act 2009 (as amended) to deal with, among others, banks and other deposit-taking institutions which are failing or likely to fail to satisfy certain threshold conditions (the "**SRR**"). The SRR is comprised of, amongst others, a bank insolvency procedure, a bank administration procedure, and five stabilisation options, including transfer of the business and the power to 'bail-in' certain unsecured liabilities (such as the Notes) of an institution and/or certain of its parent holding companies (among others) in a resolution scenario ("**Bail-in Powers**"). Other powers provided by the Banking Act 2009 include powers to amend or alter the maturity of debt instruments issued by an institution or amend the amount of interest payable or the date on which interest becomes payable under such instruments, to delist shares, to relist any debt instruments which have been written down and to transfer assets, rights and liabilities of an institution, among others.

(B) Early intervention powers and powers to remove barriers to resolvability

The BRRD also extends the existing powers of regulators to intervene at an appropriate early stage to facilitate the recovery of viable institutions, including powers to remove and replace board members, implement measures identified in the institution's recovery plan, require changes to the legal or operational structure of the institution or appoint special managers to restore the financial health of the institution.

(C) Contractual recognition of Bail-in

The PRA requires UK banks (such as SCB) to ensure that contracts which are governed by the law of a non-EEA country contain a term whereby the creditor or party to the agreement creating the liability recognises that the liability may be subject to the write-down and conversion powers, and agrees to be bound by any reduction of the principal or outstanding amount due, conversion or cancellation that is effected by the exercise of those powers (the "**Article 55 Requirement**"). Failure to include such a contractual term shall not prevent the Resolution Authority from exercising its Regulatory Capital Write-Down Powers in respect of the relevant liability. Whilst the PRA have not historically challenged SCB's compliance with the Article 55 Requirement, it remains open to the PRA to comment on this, which could require SCB to renegotiate relevant contracts in the future, incurring additional costs to the Group in doing so.

There is a risk that the Article 55 Requirement could affect the ability of the Group's non-UK branches to raise and maintain funding and deposits in their local markets, increase the cost of such funding, give rise to a competitive disadvantage for the Group relative to its non-UK competitors, impact funding in periods of stress and give rise to additional operational requirements.

(D) Ongoing requirements

The Group is required to produce and keep up-to-date recovery plans to withstand a significant deterioration in its financial position, and to provide detailed information about its businesses and entities. The preparation and maintenance of recovery plans and resolution plan-related information, and the need to undertake work to improve the resolvability of the Group, represents a significant operational burden for the Group.

(E) Resolution funds

Banks (such as SCB) are required to make ex ante contributions (the "**UK bank levy**") to a resolution fund designed to ensure the effective application of resolution powers by the BoE. The cost of the UK bank levy could represent a material cost to SCB or the Group. Institutions, including the Group, may also be required to make an extraordinary ex-post contribution if the amounts raised by the ex-ante contributions are insufficient to cover the losses, costs or other expenses involved in the resolution of an institution or institutions.

4.2 Risks relating to SCBHK

Hong Kong Regulation

Under the Banking Ordinance (Cap. 155 of the Laws of Hong Kong), the Hong Kong Monetary Authority ("**HKMA**") regulates the business activities and operations of commercial banks and has the ability to influence banking and financial markets generally. Potential investors should be aware that regulatory requirements in Hong Kong may differ from those that prevail in other countries. Since the Group operates in the highly regulated banking and securities industries in Hong Kong, potential investors should also be aware that the regulatory authorities have been consistently imposing higher standards and developing new guidelines and regulatory requirements, such as the Basel III capital adequacy standards which have been adopted in Hong Kong.

RISK FACTORS

The initial stage of these proposed Basel III reforms was implemented by the government of Hong Kong at the beginning of 2013, and the HKMA is aligning its implementation of the reforms in line with the BCBS's timeline. On 30 March, 2020, the HKMA announced that it would defer the implementation of the Basel III final package by one year to 1 January, 2023 following BCBS's amended timeline.

In order to implement the first phase of revised regulatory capital standards as prescribed by the BCBS in Hong Kong, the HKMA issued the Banking (Capital) (Amendment) Rules 2012 ("**BCAR**") which came into effect for authorised institutions in Hong Kong on 1 January, 2013. Under the BCAR, all authorised institutions in Hong Kong are required to meet three levels of minimum capital ratios; namely, Common Equity Tier 1 Capital, Tier 1 Capital and Total capital ratios. The Banking (Capital) (Amendment) Rules 2014 came into effect on 1 January, 2015 to implement the Basel III capital buffer requirements in Hong Kong. The changes include the phasing-in from 2016 to 2019 of the Capital Conservation Buffer which is designed to ensure banks build up capital outside periods of stress of 2.5 per cent. of RWAs, the Countercyclical Capital Buffer ("**CCyB**") which is set on an individual country basis and is built up during periods of excess credit growth to protect against future losses, and the Higher Loss Absorbency ("**HLA**") requirements for Domestic Systemically Important Banks ("**D-SIB**"). On 27 January, 2015 and 14 January, 2016, the HKMA announced a CCyB for Hong Kong of 0.625 per cent. and 1.25 per cent. of RWAs from 1 January, 2016 and 1 January, 2017 respectively under the phase-in arrangements of Basel III, equivalent to 2.5 per cent. once fully phased in. On 10 January, 2018, the HKMA announced a CCyB for Hong Kong of 2.5 per cent. with effect from 1 January, 2019, and on 16 April, 2019, further announced that the CCyB would remain at 2.5 per cent.; on 9 July, 2019, the HKMA announced that the CCyB would remain at 2.5 per cent. On 14 October, 2019, the HKMA announced a CCyB for Hong Kong of 2.0 per cent. effective from the same day, and on 29 January, 2020, the HKMA announced that the CCyB would remain at 2.0 per cent. On 16 March, 2020, the HKMA announced a CCyB for Hong Kong of 1.0 per cent. effective from the same day. On 16 March, 2015, the HKMA announced its designation of SCBHK as a D-SIB in Hong Kong and on 29 December, 2017, further announced its designation of SCBHK under HLA bucket 1 with effect from 1 January, 2018, and on 21 December, 2018, required SCBHK to establish 1 per cent. of risk-weighted assets for HLA from 1 January, 2019. On 24 December, 2019, HKMA further announced its designation of SCBHK under HLA bucket 2 as of 1 January, 2020 with a HLA requirement of 1.5 per cent.

To implement the liquidity standards introduced by Basel III, the HKMA issued the Banking (Liquidity) Rules ("**BLR**") in October, 2014 which came into effect on 1 January, 2015. Under the BLR, authorised institutions are subject to liquidity coverage ratio or, as the case may be, liquidity maintenance ratio requirements. SCPLC has implemented policies and procedures to monitor its liquidity position to ensure the liquidity standards set out in the BLR, as amended from time to time, are complied with.

The HKMA may implement the package of reforms in a manner that is different from that which is currently envisaged, or may impose additional capital or Loss Absorbing Capacity ("**LAC**") requirements on authorised institutions. If the regulatory capital or LAC requirements, liquidity restrictions or ratios applied to the Group are increased in the future, any failure of the Group to maintain such increased regulatory capital ratios could result in administrative actions or sanctions, which may have an adverse effect on the Group's results of operations.

Establishment of a Resolution Regime in Hong Kong

The Financial Institutions (Resolution) Ordinance (Cap. 628 of the Laws of Hong Kong) ("**FIRO**") was enacted by the Legislative Council on 22 June, 2016 and came into effect on 7 July, 2017.

The FIRO establishes the legal basis for a cross-sector resolution regime in Hong Kong, under which the HKMA is the resolution authority for banking sector entities including all authorised institutions. The resolution regime grants the HKMA with administrative powers to bring about timely and orderly resolution in order to stabilise and secure continuity for a failing authorised institution in Hong Kong. In particular, subject to certain safeguards, the HKMA has been provided with powers to affect contractual and property rights as well as payments (including

in respect of any priority of payment) that creditors would receive in resolution, including but not limited to, powers to write off or convert all or a part of the principal amount of, or interest on, the Securities, and powers to amend or alter the contractual provisions of the Securities. As such, holders of Securities are subject to and bound by the resolution regime.

4.3 **Risks relating to SCBSL**

Singapore Regulation

Singapore banks come within the ambit of the Banking Act, Chapter 19 of Singapore (the "**Banking Act**") and the Monetary Authority of Singapore ("**MAS**"), as the administrator of the Banking Act, supervises and regulates the banks and their operations. In addition to provisions in the Banking Act and the subsidiary legislation issued thereunder, banks have to comply with notices, directives, circulars and guidelines issued by the MAS from time to time.

SCBSL is subject to capital adequacy and liquidity guidelines adopted for a Singapore bank, which provide for a minimum ratio of total capital to risk-adjusted assets and a minimum liquidity coverage ratio and minimum net stable funding ratio, expressed as a percentage, as further described below.

Banks incorporated in Singapore ("**SIBs**" and each a "**SIB**") are required to meet capital adequacy requirements under MAS Notice 637 Notice on Risk Based Capital Adequacy Requirements for Banks Incorporated in Singapore ("**MAS Notice 637**"), that are higher than the standards set by the Basel Committee on Banking Supervision (the "**Basel Committee**"). Domestic systemically important bank ("**D-SIBs**"), shall, at all times in the periods specified under MAS Notice 637, maintain at both standalone and consolidated levels (referred to as "Solo" and "Group" levels in MAS Notice 637), the following minimum capital adequacy ratio ("**CAR**") requirements:

- (a) a common equity Tier 1 ("**CET1**") CAR of at least 6.5 per cent.;
- (b) a Tier 1 CAR of at least 8.0 per cent.; and
- (c) a total CAR of at least 10 per cent.

In addition to complying with the minimum CAR requirements, SIBs shall, at all times in the periods specified under MAS Notice 637, maintain at both the Solo and Group levels, a capital conservation buffer above the minimum CAR requirements. The capital conservation buffer is met with CET1 capital and is currently 2.5 per cent.

In addition to complying with the minimum CAR and the capital conservation buffer, SIBs shall, at all times in the periods specified under MAS Notice 637, maintain, at both the Solo and Group levels, a countercyclical buffer comprising CET1 capital of up to 2.5 per cent. above the minimum CET1 CAR, minimum Tier 1 CAR and minimum total CAR.

The actual magnitude of the countercyclical buffer to be applied shall be the weighted average of the country-specific countercyclical buffer requirements that are being applied by national authorities in jurisdictions to which SIBs have private sector credit exposures. For the purpose of calculation of the countercyclical buffer by SCBSL, the country-specific countercyclical buffer requirement in respect of a jurisdiction outside Singapore shall be capped at 2.5 per cent. from 2019 onwards, unless the MAS otherwise specifies.

In the Financial Stability Review released by the MAS in November 2015, the MAS set the Singapore countercyclical buffer at 0 per cent. effective 1 January, 2017. In the Financial Stability Review released by the MAS in November 2017 and 2019, the MAS confirmed that it would maintain the Singapore countercyclical buffer at 0 per cent..

The MAS issued MAS Notice 649 Minimum Liquid Assets and Liquidity Coverage Ratio ("**MAS Notice 649**") which sets out the minimum liquid assets ("**MLA**") framework and the liquidity

RISK FACTORS

coverage ratio ("**LCR**") framework. MAS Notice 649 took effect on 1 January, 2015 for Domestically Systemically Important Banks ("**DSIBs**"). Under MAS Notice 649, SCBSL, a DSIB as designated by the authorities shall be required to maintain at all times, a Singapore dollar LCR of at least 100 per cent. and an all currency LCR of at least 50 per cent..

The MAS issued MAS Notice 652 Net Stable Funding Ratio ("**MAS Notice 652**") which sets out the minimum net stable funding ratio ("**NSFR**") which took effect on 1 January, 2018. Under MAS Notice 652, SCBSL shall be required to maintain at all times, an all currency NSFR of at least 50 per cent. at the entity-level.

The Basel III framework also includes a leverage ratio as a non-risk based backstop limit intended to supplement the risk-based capital requirements. The introduction of the leverage ratio commenced with supervisory monitoring in 2011, followed by a parallel run period from January 2013 to January 2017. Consistent with the Basel III framework, MAS Notice 637 imposes a minimum leverage ratio requirement of 3 per cent. for SIBs at both the Solo and Group levels.

If the regulatory capital requirements, liquidity requirements or ratios applied to SCBSL continue to increase in the future, SCBSL's return on capital and profitability could be materially and adversely affected. Any failure by SCBSL to satisfy such increased regulatory capital ratios or liquidity requirements within the applicable timeline could result in administrative actions or sanctions or significant reputational harm, which in turn may have a material adverse effect on the Group's business, financial condition and results of operations.

In the event of the winding-up of a bank, section 62 of the Banking Act provides that the liabilities in Singapore of the bank shall, amongst themselves, rank in the following order of priority: (a) firstly, any premium contributions due and payable by the bank under the Deposit Insurance and Policy Owners' Protection Schemes Act, Chapter 77B of Singapore (the "**Deposit Insurance Act**"); (b) secondly, liabilities incurred by the bank in respect of insured deposits, up to the amount of compensation paid or payable out of the Deposit Insurance Fund by the Agency (as defined in the Deposit Insurance Act) under the Deposit Insurance Act in respect of such insured deposits; (c) thirdly, deposit liabilities incurred by the bank with non-bank customers, other than those specified in (b) above and (d) below; (d) fourthly, deposit liabilities incurred by the bank with non-bank customers when operating an Asian Currency Unit approved under the Banking Act other than those specified in (b) above; and (e) fifthly, any sum claimed by the trustee of a resolution fund from the bank under the MAS Act. As between liabilities of the same class referred to in each of (a) to (e) above, such liabilities shall rank equally between themselves. The liabilities described above shall have priority over all unsecured liabilities of the bank other than the preferential debts specified in section 328(1) of the Companies Act, Chapter 50 of Singapore.

Singapore Resolution Regime

Under the resolution regime for financial institutions in Singapore, the MAS has resolution powers in respect of Singapore licensed banks. Broadly speaking, in relation to Singapore incorporated banks, the MAS has the power to (a) impose moratoriums, (b) apply for court orders against winding-up or judicial management of the bank, against commencement or continuance of proceedings by or against the bank in respect of any business of the bank, against commencement or continuance of execution, distress or other legal processes against any property of the bank, or against enforcement of security, (c) apply to court for the winding-up of the bank, (d) order compulsory transfers of business or transfers of shares, (e) order compulsory restructurings of share capital, (f) bail-in eligible instruments, (g) temporarily stay termination rights of counterparties, (h) impose requirements relating to recovery and resolution planning and (i) give directions to significant associated entities of a bank. In addition, the MAS has powers under the Banking Act to assume control of a bank. Under the resolution regime, there are also provisions for cross-border recognition of resolution actions, creditor safeguards in the form of a creditor compensation framework and resolution funding.

Severe supervisory actions taken against SCBSL by the MAS may have an adverse impact on the Group's reputation, operations and business and may, in certain circumstances, adversely affect the rights of a holder of Securities against SCBSL.

5. OPERATIONAL, REPUTATIONAL, COMPLIANCE (INCLUDING LEGAL) AND CONDUCT RISKS

5.1 *The Group is exposed to operational risks*

Operational risk is the potential for loss resulting from inadequate or failed internal processes and systems, human error, or from the impact of external events (including legal risks). Operational losses may result from:

- deficient execution capability (the failure to execute client facing transactions appropriately, and failure to design and/or meet product management standards and product-related regulatory requirements);
- challenges in the Group's operational resilience (failure to maintain and test business continuity plans, failure to maintain systems, failure to meet appropriate data standards, failure to appropriately manage vendor services and meet related regulatory requirements, failure to manage change projects, failure to meet standards for people management including relevant regulations);
- non-compliance with laws and regulations on corporate governance and exchange listing rules;
- inadequate maintenance of financial books and records, financial reporting, or failure to comply with tax laws and regulations;
- erroneous design or inappropriate use of models;
- failure to create a safe, secure, and healthy environment for staff and clients; and/or
- inability to enforce the Group's contractual risks.

In the majority of cases, the Group adopts straight through processing to deliver internal or external client requests. In certain situations, processes are dependent on manual interventions (for example, when a bespoke transaction is supported) which expose the Group to execution related risks. The Group continues to invest in and prioritise process and system enhancements to curtail and limit these risks.

The BoE, PRA and FCA jointly released a discussion paper on an approach to improve the operational resilience of firms and financial markets infrastructures ("**FMIs**") in July 2018. On 5 December 2019 the BoE, PRA and FCA published consultation papers in line with the concepts introduced in the July 2018 discussion paper. The latest proposals expect firms and FMIs to identify important business services that, if disrupted, could cause harm to consumers or market integrity, threaten the viability of firms or cause instability in the financial system. Firms and FMIs will also be expected to identify and document the people, processes, technology, facilities and information that support their important business services. The proposed policies will comprise new rules (for the FCA and PRA), principles and guidance, and will be implemented through the authorities' respective supervisory areas. The consultations closed on 3 April, 2020 and the PRA has indicated that, subject to the feedback received, it will work to develop final Operational Resilience Parts for publication in the second half of 2020.

These reforms have highlighted the importance of maintaining client services on an end to end basis and proposed the adoption of thresholds to inform resilience. Resilience risks are heightened for the Group in the following areas:

RISK FACTORS

- The Group continues to enhance its product (hardware and software) lifecycle, however the Group may be exposed to obsolescence risk if product refreshes are not carried out in a timely manner before vendor end of support dates. The Group continues to run targeted programs to review its product support and to inform on investment requirements to maintain products.
- The appropriate management, maintenance and use of data supports many of the Group's decisions and interactions with clients and regulators. Inaccurate or erroneous use of data may lead to financial, regulatory, or reputational impact. The Group has adopted a number of key processes and standards to apply and oversee adherence to the BCBS principles for effective risk data aggregation and risk reporting (BCBS239).
- The Group selectively engages third party vendors to support its business strategy and operating model. These vendors may expose the Group to further operational challenges ranging from non-delivery of services to reputational or regulatory impact. The Group manages vendor service risk under the Third Party Risk Management Process supported by the Group's control assessment standards.
- In support of its strategy, the Group continues to invest in its people, processes, and infrastructure through material change programmes which expose the Group to delivery risk. The Group maintains standard business and technology protocols to deliver such programmes supported by second line oversight.

Although the Group seeks to manage operational risks in a timely and effective manner through a framework of policies and procedures, the occurrence or continuation of one or more of the foregoing risks which are inherent in banking activities, or any failure to manage one or more of such risks effectively, may have a material adverse effect on the Group's financial condition, results of operations and prospects.

5.2 *The Group's business is subject to reputational risk*

Reputational risk is the potential for damage to the franchise, resulting in loss of earnings or adverse impact on market capitalisation, as a result of stakeholders taking a negative view of the organisation, its actions or inactions, leading stakeholders to change their behaviour.

Risk drivers with negative impact on the Group are frequently linked with Environmental, Social, and Governance ("**ESG**") risks including, increasing regulatory and Non-Governmental Organisation focus on climate risk and decisions taken around thresholds for financing sectors which contribute to climate change (e.g. coal, oil and gas, and plastics), the social impact of the businesses the Group finances in alignment with responsible corporate lending, and ongoing regulatory investigations related to financial crime management, trading activities and other governance related risks.

Additionally, a potential failure in the Group's other principal risks may also result in reputational impact to the Group if not managed effectively (i.e. secondary reputational risk).

Material damage to the Group's reputation could have a material impact on the future earning capacity of the Group through the loss of current and prospective customers, or through damage to key governmental or regulatory relationships. As such, a failure to manage reputational risk effectively could materially affect the Group's business, results of operations and prospects.

5.3 *The Group is exposed to risks associated with operating in some markets that have relatively less developed judicial and dispute resolution systems*

In some of the markets in which the Group operates, judicial and dispute resolution systems are less developed than in North America and Western Europe. In case of a breach of contract, there may be difficulties in making and enforcing claims against contractual counterparties. Conversely, if claims are made against the Group, there may be difficulties in defending such

allegations. If the Group becomes party to legal proceedings in a market with an insufficiently developed judicial system, this exacerbates the risk of there being an outcome which is unexpected, and an adverse outcome to such proceedings could have a material adverse effect on the Group's financial condition, results of operations and prospects.

5.4 *The Group is exposed to penalties or loss through a failure to comply with laws or regulations.*

The Group is subject to a wide variety of banking and financial services laws and regulations and is supervised by a large number of regulatory and enforcement authorities in each of the jurisdictions in which it operates. As a result, the Group is exposed to many forms of legal and regulatory risk, which may arise in a number of ways, primarily:

- as a result of changes in applicable laws and regulations or in their application or interpretation; this may cause losses and the Group may not be able to predict the timing or form of any current or future regulatory or law enforcement initiatives which are becoming increasingly common for international banks and financial institutions;
- as a result of being subject to extensive laws and regulations which are designed to combat money laundering and terrorist financing, and requiring action to be taken to enforce compliance with sanctions against designated countries, entities and persons, including countries in which, and entities or persons with which, the Group may conduct and may have conducted business from time to time;
- in connection with the risk from defective transactions or contracts, either where contractual obligations are not enforceable or do not allocate rights and obligations as intended, or where contractual obligations are enforceable against the Group in an unexpected or adverse way, or by defective security arrangements;
- as a result of the title to and ability to control the assets of the Group (including the intellectual property of the Group, such as its trade names) not being adequately protected; and
- as a result of allegations being made against the Group, or claims (including through legal proceedings) being brought against the Group; regardless of whether such allegations or claims have merit, the outcome of legal proceedings is inherently uncertain and could result in financial loss (including as a result of the Group being liable to pay damages).

Failure to manage legal and regulatory risks properly has, in some cases, resulted (and may, in some cases, continue to result) in a variety of adverse consequences for the Group that, individually or in combination, could have an adverse impact on the Group's business, financial condition, results of operations and prospects. For example:

- the Group has been, and continues to be, subject to regulatory actions, reviews, requests for information and investigations relating to compliance with applicable laws and regulations (see further the risk factor entitled "*Regulatory and enforcement reviews, investigations and legal proceedings*");
- the Group may incur costs and expenses in connection with proceedings resulting from non-compliance by the Group (or its employees, representatives, agents or third party service providers) with applicable laws and regulations, or a suspicion or perception of such non-compliance (including costs associated with the conduct of such proceedings and any associated liability for damages) and such non-compliance may also give rise to reputational damage; and
- a failure by the Group to comply with applicable laws or regulations may result in the Group deciding to implement restrictions on its businesses or the markets in which it operates (or offering to relevant regulators to implement such restrictions or accepting

RISK FACTORS

proposed restrictions or being required by relevant regulators to do so). These restrictions may be accompanied by a requirement on the Group to make periodical attestations to the relevant regulators as to its compliance with the relevant restrictions (and, if the Group does not comply with such restrictions, or is unable to give any required attestations, this may give rise to the adverse consequences described above).

5.5 *The Group is exposed to the risks of operating in a highly regulated industry and changes to banking and financial services laws and regulations*

The Group's businesses are subject to a complex framework of banking and financial services laws and regulations which give rise to associated legal and regulatory risks, including the effects of changes in laws, regulations, policies, regulatory interpretations and voluntary codes of practice. Legislative and regulatory changes, and changes to governmental or regulatory policy, that could adversely impact the Group's business include:

- the monetary and other policies of central banks and regulatory authorities;
- general changes in governmental or regulatory policy, or changes in regulatory regimes that may significantly influence investor decisions in particular markets in which the Group operates, may change the structure of those markets and the products offered, or may increase the costs of doing business in those markets;
- changes to other regulatory requirements such as rules on consumer protection and prudential rules relating to capital adequacy and/or liquidity and/or loss-absorbing capacity instruments, charging special levies to fund governmental intervention in response to crises (which may not be tax-deductible for the Group), separation of certain businesses from deposit-taking and the breaking-up of financial institutions that are perceived to be too large for regulators to take the risk of their failure;
- over-the-counter ("**OTC**") derivatives reforms across the Group's markets, designed to contain systemic risk (central clearing, margin requirements, capital) and increase market transparency (real-time reporting, exchange or swap execution facility trading, disclosure and record retention);
- changes in competition and pricing environments; and
- further developments in relation to financial reporting, including changes in accounting and auditing standards, corporate governance, conduct of business and employee compensation.

In recent years there has been a substantial increase in the regulation and supervision of the financial services industry in order to seek to prevent future crises and otherwise ensure the stability of institutions, including the imposition of higher capital and liquidity requirements (including pursuant to Basel III and CRD IV, as defined above), increased levies and taxes, requirements to centrally clear certain transactions, heightened disclosure standards, further development of corporate governance and employee compensation regimes and restrictions on certain types of transaction structures.

While there is growing international regulatory co-operation on supervision and regulation of international and EU and UK banking groups, the Group is, and will continue to be, subject to the complexity of complying with existing and new regulatory requirements in each of the jurisdictions in which it operates. Where changes in regulation are implemented they may not be co-ordinated, potentially resulting in the Group having to comply with different and possibly conflicting requirements.

Brexit is likely to lead to significant changes to the UK's legislative and regulatory framework. It is also expected that regulatory amendments will be introduced in the jurisdictions in which the Group operates that are designed to ensure banks can continue to support the economy

through the COVID-19 pandemic. As an early example, the European Commission published the "Quick Fix to CRR II" on 28 April, 2020, which proposed certain changes to the prudential framework in light of the ongoing COVID-19 pandemic, addressing areas such as leverage ratios, IFRS 9, backstops for non-performing exposures, software deduction, pension-salary backed loans and SME and infrastructure exposures.

The foregoing matters may adversely impact any number of areas of the Group's operations and activities which in turn may have a material adverse effect on its financial condition, results of operations and prospects.

5.6 *Changes in law or regulation applicable to derivatives may adversely affect the Group's business and the Group may face increased costs and/or reduced revenues*

The business of the Group is subject to increased regulation and regulatory changes at both a local and global level which may increase the costs of, and/or reduce the revenue from, its business. The Group is subject to financial services laws, regulations, administrative actions and policies in each location in which the Group operates.

In July 2010, the United States passed the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "**Dodd-Frank Act**"). The Dodd-Frank Act established wide-ranging reform of the U.S. regulatory system designed to contain systemic risk (central clearing, margin requirements, capital) and increase market transparency (real-time reporting, exchange or swap execution facility trading, disclosure and record retention). The legislation also introduced registration and oversight of key entities engaging in swaps. The Group is not a U.S. Person and it is registered with the Commodity Futures Trading Commission ("**CFTC**") as a Non-U.S. Person Swap Dealer. Relevant federal regulatory agencies have been issuing new rules, implementing regulations, and instructing the relevant regulatory agencies to examine specific issues before taking any action. The Group therefore continues to track and assess the impact of the reforms.

On 16 August 2012, the European Market Infrastructure Regulation ("**EMIR**") (formally known as Regulation (EU) No 648/2012 of the European Parliament and the Council on Over-The-Counter Derivatives, Central Counterparties and Trade Repositories) came into force. EMIR imposes requirements to report all derivative transactions to authorised or recognised trade repositories and the obligation to clear on authorised or recognised central clearing counterparties certain OTC derivative transactions ("**Transactions**") executed with financial counterparties and non-financial counterparties who exceed certain clearing thresholds. EMIR also introduces a stringent risk mitigation regime for all uncleared Transactions including a requirement to exchange collateral or margin.

The regulatory changes and resulting requirements of the Dodd-Frank Act, EMIR and similar international reform efforts may increase the costs of, and/or reduce the revenue from, engaging in Transactions and related activities for the Group. Provisions of the Dodd-Frank Act have also caused or required certain market participants (including SCB) to transfer some of their derivatives activities to separate entities. For example, in the CFTC swap dealer space, SCB currently prohibits any subsidiary from transacting in-scope derivatives with US persons (specifically to prevent any subsidiary from having to register as a swap dealer). In cases where these counterparties are not able (or are unwilling) to face SCB this activity and associated client revenue may be lost at a Group level. Accordingly, the ability to enter into and perform transactions or engage in future transactions may be affected in both predictable and unpredictable ways, including increasing the costs of or reducing the incentives for engaging in such activities. New regulations may also put restraints on the way the Group can conduct its business with regard to derivatives, if those derivatives are not cleared through a central clearing house (or otherwise give rise to new compliance requirements depending on the type of regulation).

5.7 *Changes in the Group's accounting policies or in accounting standards could affect its capital ratios and how it reports its financial condition and results of operations*

The Group prepares its financial statements under International Financial Reporting Standards as endorsed by the EU ("IFRS"). From time to time, the International Accounting Standards Board and/or the EU change IFRS, which can affect the Group's capital ratios or how it reports its financial position and performance. In some cases, the Issuer could be required to apply a new or revised standard retroactively, or voluntarily elect to change its accounting policies, resulting in restating prior period financial statements.

On 1 January 2019, the Group adopted IFRS 16 Leases, replacing IAS 17 Leases. IFRS 16 introduced a single lessee accounting model that requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. This resulted in an equal increase in assets and liabilities of US\$1,421 million on the adoption date, with no adjustment to retained earnings. The asset is presented in 'Property, plant and equipment' and the liability is presented in 'Other liabilities'. The impact on the CET1 ratio was a reduction of approximately 8 basis points due to the right-of-use asset being 100 per cent risk-weighted.

Further information on the Group's accounting policies and accounting standards in issue but not yet effective may be found on pages 262 to 264 of the Annual Report 2019. However, any other changes to IFRS, to the extent applicable, that may be proposed in the future, could materially adversely affect the Group's reported results of operations and financial position.

5.8 *The Group is exposed to conduct risk*

Conduct risk is the risk of detriment to the Group's clients, investors, shareholders, market integrity, competition and counter-parties, or from the inappropriate supply of financial services, including instances of wilful or negligent misconduct. Failure to deliver fair outcomes and to protect the integrity of the markets may lead to regulatory sanctions, financial loss and reputational damage. The effective management of conduct risk takes into consideration the Group's culture, its strategy, business model, and the implementation of the three lines of defence model across the Group.

Conduct risk may also arise in respect to the Group's behaviour towards its employees. The Group believes that everyone is entitled to a fair and safe working environment that is free from discrimination, exploitation, bullying, harassment or inappropriate language.

Although the Group seeks to manage conduct risk in a timely and effective manner through the Group's Conduct Risk Type Framework, the occurrence or continuation of one or more of the abovementioned risks, or any failure to manage one or more of such risks effectively, may have a material adverse effect on clients and the Group's financial position and operations.

6. INFORMATION AND CYBER SECURITY RISK, FINANCIAL CRIME RISK AND MODEL RISK

6.1 *The Group is exposed to information and cyber security ("ICS") risk*

Cybercrime is rising and becoming more globally coordinated. The Group's business depends on its ability to protect client data and process large volumes of transactions efficiently and with integrity. The Group is increasingly reliant on ICS to be effectively managed for digital technologies, computer and email services, software and networks. The dependency on secure processing, storage and transmission of sensitive information in its systems and networks increases the Group's risk to cybercrime including risks related to fraud, vandalism and damage to critical infrastructure.

In 2019, the Group consolidated its ICS efforts to seek to withstand cyber threats, eliminate duplication and improve clarity of roles. However if the Group fails to effectively manage its ICS risks, the impact could be significant and may include harm to the Group's reputation and may

make the Group liable for the payment of customer compensation, regulatory penalties and fines. Factors such as failing to apply critical security patches from its technology providers, to manage out obsolete technology or to update the Group's processes in response to new threats could give rise to these consequences, which, if they occur, could have a material adverse effect on the Group's operations, financial condition and prospects.

6.2 The Group is exposed to financial crime risk

The Group, through its size and strategic intent, continues to be exposed to money laundering and sanctions risks. These risks are inherent in the Group's operations and may arise from, among other things, the Group offering different banking products via multiple channels across regions to diverse customer types; the Group's defences being overcome by criminals; and/or regulators assessing deficiencies in the Group's design and/or governance over controls operating across the Group's client or counterparty due diligence and surveillance. The Group seeks continuously to enhance its approach to money laundering prevention, combating terrorist financing and compliance with sanctions.

The Group has reclassified the Fraud Risk sub-type from Operational Risk to Financial Crime Risk, thus providing a more holistic view of Financial Crime threats.

The Group is exposed to internal and external fraud risk.

- External fraud risk is predominantly focused on the misappropriation of Group or client funds with the largest risk also in the Group's corporate and commercial client segments.
- Internal fraud risk involves internal staff who seek to circumvent the Group's internal controls for personal benefit, and, in limited cases, collude with other staff or vendors.

Fraud risk in the Retail segment is an elevated risk that manifests itself in three ways:

- application fraud, mainly through falsification of identity and income documents to increase limits (in 2018, some isolated instances of fabricating financial documents were observed);
- digital banking fraud incidents via phishing, brute attacks etc.; and
- internal frauds, due to non-systemic staff misconduct.

The occurrence or continuation of one or more of the abovementioned risks, or any failure to manage one or more of such risks effectively, may have a material adverse effect on the Group's financial condition, results of operations and prospects.

6.3 The Group is exposed to model risk

Model risk is defined as potential loss that may occur as a consequence of either a decision, or mis-estimation, on the output of models due to errors in the development, implementation or use of such models.

Regulatory focus on model risk has intensified with: (i) the growing importance of models for business decisions, and (ii) recognition of financial losses due to inadequate models or wrong use. Additionally, new areas such as machine-learning and artificial intelligence also generate model risk.

The Group's model risk results in part from both the number and complexity of the models used, and the extent of their use within the Group. The Group uses approximately 900 in-use models across 13 model families under the scope of the Group Model Risk Policy ("**GMRP**"). Material models are concentrated in the Credit Risk IRB model family in relation to its role in regulatory capital calculation. IFRS9 models are largely assessed as having high uncertainty with respect

RISK FACTORS

to their model performance and data availability aspects. Financial crime compliance scorecard-based models are used to flag high-risk customers to aid the prioritisation of investigation work. Operational risk models are mainly used in capital adequacy assessments to project operational losses under stress conditions. Algorithmic, artificial intelligence and machine learning models, while not currently in scope of the GMRP, are recognised as emerging model use cases.

Models are used across the Group for various important processes (such as capital calculation, stress testing and business decisions). Examples of existing and emerging model uses include, but are not limited to:

- financial, public and regulatory reporting and disclosures;
- stress testing, financial and economic forecasting, and internal capital adequacy assessments;
- product pricing, hedging, valuations, portfolio allocations, automated trading strategies and execution, economic and market research;
- counterparty and credit risk management and client credit decisions;
- fraud detection, trade and communication surveillance and anti-money laundering controls; and
- algorithms, artificial intelligence and machine learning.

The occurrence or continuation of model risk, or any failure to manage such risk effectively, may have a material adverse effect on the Group's financial condition, results of operations and prospects.

RISKS RELATING TO SECURITIES

7. RISKS RELATING TO THE PURCHASE, HOLDING AND TRADING OF SECURITIES

7.1 *Holders of the Securities may lose all or some of their investment*

A Series of Securities may involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Prospective purchasers of Securities should recognise that their Securities, other than any Securities having a minimum expiration, redemption or termination value, may expire or mature worthless. Purchasers should be prepared to sustain a total loss of the purchase price of their Securities, except, if so indicated in the applicable Issue Terms, to the extent of any minimum expiration, redemption or termination value attributable to such Securities. (except to the extent of any minimum value).

The risk of the loss of some or all of the purchase price of a Security upon exercise, expiration, termination or maturity means that, in order to recover and realise a return upon his or her investment, a purchaser of a Security must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Reference Item(s) specified in the applicable Issue Terms. Save for Security where an investor has an earlier right to exercise or request the redemption of the Security, the only means through which a Securityholder can realise value from the Security prior to the final exercise or redemption date in relation to such Security is to sell it at its then market price in an available secondary market. See "*The Securities may be illiquid or there may be no active trading market for the Securities*" below.

7.2 *Investors are exposed to the creditworthiness of the relevant Issuer*

The Securities constitute direct and unsecured obligations of the relevant Issuer. The obligations of the relevant Issuer under the Securities and the claims of investors under the Securities shall, save for such exceptions as may be provided by applicable legislation, at all

times rank at least equally with all other unsecured and unsubordinated obligations of the relevant Issuer, present and future.

The holders will be exposed to the general credit risk of the relevant Issuer, including the risk that the relevant Issuer becomes insolvent or defaults on its obligations (including payment obligations) under the Securities, in which case a holder of Securities may lose some or all of its investment.

7.3 *A credit rating reduction may reduce the trading value of the Securities*

The value of the Securities is expected to be affected, in part, by investors' general appraisal of the relevant Issuer's creditworthiness. Such perceptions are generally influenced by the ratings accorded to the relevant Issuer's outstanding securities by credit rating agencies, such as Moody's Investors Service Singapore Pte. Ltd., Moody's Investors Service Hong Kong Limited, Standard & Poor's Hong Kong Limited, S&P Global Ratings Singapore Pte. Ltd., Fitch (Hong Kong) Limited and Fitch Ratings Singapore Pte. Ltd. (amongst others). A reduction in the rating, if any, accorded to outstanding securities of the relevant Issuer, by any rating agency could result in a reduction in the trading value of the Securities, meaning that investors may find it difficult to sell their Securities at what they consider to be a reasonable price or at all.

7.4 *Credit ratings may not reflect all risks*

One or more independent credit rating agencies may assign credit ratings to the Securities. The credit rating agencies may have different rating methodologies, criteria, models and requirements from one another. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed herein, and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be reduced, withdrawn or qualified by its assigning rating agency at any time. Additionally, global financial sector regulation is undergoing significant change. In the U.S., the Dodd Frank Wall Street Reform and Consumer Protection Act of 2010 (the "**Financial Reform Act**"), among other things, expands regulatory oversight of the credit rating agencies. It is not clear how this expanded regulatory oversight will impact the ratings on the Securities or the ratings of the Issuers.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings will be disclosed in the relevant offering document.

7.5 *Meetings of Securityholders*

The Programme General Terms and Conditions contain provisions for calling meetings of holders to consider and vote upon matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

7.6 Calculation Agent Powers and Conflicts of Interest

The Calculation Agent or any delegate, where applicable, will employ the methodology described in the Conditions to determine amounts payable or deliverable in respect of the Securities. When making any such determination in relation to any amounts so payable or deliverable, the Calculation Agent or any delegate may in its sole and absolute discretion consider a wide range of information. Such determinations could result in amounts paid or delivered to holders being lower than would have been the case had the relevant determination not been made or been made on the basis of different information.

In addition to providing calculation agency services to the relevant Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the relevant Issuer and any Series of Securities including, but not limited to, for example, being involved in arrangements relating to any relevant asset(s). Furthermore, the Calculation Agent or any of its Affiliates may contract with the relevant Issuer and/or enter into transactions which relate to the relevant Issuer, the Securities or any relevant asset(s) and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the relevant Issuer nor the Calculation Agent in respect of the Securities shall owe any duty or responsibility to any Securityholder to avoid any conflict or to act in the interests of any Securityholder.

7.7 Exchange rate risks and exchange controls

In the case of Securities, the settlement or redemption in respect of which is by way of cash payment ("**Cash Settled Securities**"), the relevant Issuer will pay the relevant settlement or redemption amount in respect of the Securities in the Specified Currency specified in the applicable Issue Terms. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency equivalent yield on the Securities, (ii) the Investor's Currency equivalent value of the settlement or redemption amount in respect of the Securities and (iii) the Investor's Currency equivalent market value of the Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, the settlement or redemption amount that investors may receive may be less than expected or zero.

7.8 The Securities may be illiquid or there may be no active trading market for the Securities

Securities issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single Series with a Tranche of Securities which is already issued). If the Securities are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the actual or perceived financial condition of the relevant Issuer. Consequently, holders of the Securities may not be able to realise the value of Securities prior to their expiration or maturity or at prices reasonably acceptable to them.

Although application has been made for certain Securities issued under the Programme to be admitted to listing on the Official List of Euronext Dublin and to trading on its regulated market or its Global Exchange Market, this does not mean that the market in such Securities will be any more or less liquid than if such Securities were not listed. In addition, there is no assurance that such applications will be accepted, that any particular Series or Tranche of Securities will be so admitted or that an active trading market will develop or if one does develop, that it will be liquid and any such market may be sensitive to changes in financial markets.

Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Series or Tranche of Securities and this is particularly the case (i) should the Issuer be in financial distress, which may result in any sale of the Securities having to be at a substantial discount to the originally anticipated return, and (ii) for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors.

7.9 *Market price of Securities may be influenced by many unpredictable factors*

Either (1) the Settlement Amount or Final Redemption Amount (in the case of Cash Settled Securities) or (2) the Asset Amount (in the case of Physical Delivery Securities) at any time prior to expiration or redemption is typically expected to be less than the trading price of such Securities at that time. The difference between the trading price and the Settlement Amount or Final Redemption Amount or the Asset Amount, as the case may be, will reflect, among other things, the "time value" of the Securities. The "time value" of the Securities will depend partly upon the length of the period remaining to expiration or redemption and expectations concerning the value of the Reference Item(s) to which the relevant Securities relate. Securities offer hedging and investment diversification opportunities but also pose some additional risks with regard to interim value. The interim value of the Securities varies with the price, level or value of the Reference Item(s) as specified in the applicable Issue Terms, as well as due to a number of other interrelated factors, including those specified herein.

When selling Securities prior to their expiration, Securityholders should carefully consider, among other things, (i) the trading price of the Securities, (ii) the value and volatility of the Reference Item(s) specified in the applicable Issue Terms, (iii) the time remaining to expiration, (iv) in the case of Cash Settled Securities, the probable range of Settlement Amounts or Final Redemption Amount, (v) any change(s) in interim interest rates and dividend yield, if applicable, (vi) any change(s) in currency exchange rates, (vii) economic, financial, political, regulatory or judicial events that affect markets generally and which may affect the market price of the Reference Item(s), (viii) the depth of the market or liquidity of the Reference Item(s) specified in the applicable Issue Terms and (ix) any related transaction costs. Any one or a combination of these factors has the potential to significantly reduce the market value of the Securities and in turn the price at which an investor is able to sell its Securities.

7.10 *Reliance on DTC, Euroclear and Clearstream, Luxembourg procedures*

Securities issued under the Programme may be represented by one or more global securities that may be deposited with a common depositary for Euroclear and Clearstream, Luxembourg or may be deposited with a nominee for DTC (each as defined herein). Except in the circumstances described in a global security, if applicable, investors will not be entitled to receive Securities in definitive form. Each of DTC, Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the beneficial interests in each global security held through it. While the Securities are represented by a global security, investors will be able to trade their beneficial interests only through the relevant clearing systems and their respective participants.

While the Securities are represented by global securities, the relevant Issuer will discharge its payment obligation under the Securities by making payments through the relevant clearing systems. A holder of a beneficial interest in a global security must rely on the procedures of the relevant clearing system and its participants to receive payments under the Securities. The relevant Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any global security.

Holders of beneficial interests in a global security will not have a direct right to vote in respect of the Securities so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

RISK FACTORS

8. RISKS RELATING TO PARTICULAR TYPES OF SECURITIES

8.1 *Risks relating to Warrants*

Purchasers of Warrants may lose all or part of their investment

Prospective purchasers of Warrants should understand that Warrants represent an option in a traded form. Such purchasers should therefore be experienced with respect to options and option transactions. In particular, a Warrant is an asset which tends to decline in value over time and may become worthless when it expires. Assuming all other factors are held constant, the more a Warrant is "out-of-the-money" and the shorter its remaining term to expiration, the greater the risk that purchasers of such Warrants will lose all or part of their investment.

Risks relating to time lag after exercise of Warrants

In the case of any exercise of Warrants, there will be a time lag between the time a Warrantholder gives instructions to exercise and the time the applicable Settlement Amount relating to such exercise is determined. Any delay between the time of exercise and the determination of the Settlement Amount will be specified in the applicable Issue Terms or the terms and conditions of the relevant Securities. However, a delay in such determination could be significantly longer than anticipated, particularly in the case of either a delay in the exercise of Warrants arising from any daily maximum exercise limitation or the occurrence of a Disrupted Day or a Market Disruption Event (if specified as applicable in the applicable Issue Terms) or following the imposition of any exchange controls or other similar regulations affecting the ability to obtain or exchange any relevant currency (or basket of currencies) in the case of currency linked Warrants. Any such delay could significantly affect and could decrease the Settlement Amount of the Warrants being exercised from what it might otherwise have been and may result in such Settlement Amount being zero. Warrantholders who have exercised their Warrants will not be compensated in respect of any such delay and it will not be possible to withdraw Exercise Notices in respect of such Warrants.

On exercise of Physical Delivery Warrants, there will be a time lag between the time the Warrants are automatically exercised or a Warrantholder gives instructions to exercise and the time the applicable Asset Amount is delivered. Any delay between the time of exercise and such delivery will be specified in the terms and conditions of the relevant Securities. However, a delay in delivery could be significantly longer, particularly in the case of either a delay in the exercise of Warrants arising from any daily maximum exercise limitation or upon due determination by the Calculation Agent that a Settlement Disruption Event (as defined in the terms and conditions of the relevant Securities) occurred at any relevant time. The value of the assets comprising the Asset Amount (as defined in the terms and conditions of the relevant Securities) could increase or decrease during this period and could result in the value of the Asset Amount being less than the Strike Price (where delivery of the Asset Amount is against payment of the Strike Price) or possibly zero. Warrantholders who have exercised their Warrants will not be compensated in respect of any such delay and it will not be possible to withdraw Exercise Notices in respect of such Warrants.

Limitation on exercise of Warrants

If a Maximum Exercise Number is specified in the applicable Issue Terms, the relevant Issuer will have the option to limit the number of Warrants exercisable on any date (other than on the final exercise date) to the maximum number specified in the applicable Issue Terms and, in conjunction with such limitation, to limit the number of Warrants exercisable by any person or group of persons (whether or not acting in concert) on such date. In the event that the total number of Warrants being exercised on any date (other than the final exercise date) exceeds such maximum number and the relevant Issuer elects to limit the number of Warrants exercisable on such date, a Warrantholder may not be able to exercise on such date all Warrants that such Warrantholder desires to exercise. In any such case, the number of Warrants to be exercised on such date will be reduced until the total number of Warrants exercised on such date no longer exceeds such maximum, such Warrants being selected at

the discretion of the relevant Issuer or, in respect of Exempt Securities, in any other manner specified in the applicable Pricing Supplement.

If a Minimum Exercise Number is specified in the applicable Issue Terms, a Warrantholder must exercise, or, in the case of automatic exercise, hold, the specified minimum number of Warrants at any one time in order to exercise and, if specified in the applicable Issue Terms, if exercising or holding a number at any one time greater than the Minimum Exercise Number, such number must be an integral multiple of the number specified in the applicable Issue Terms in order to exercise. Thus, Warrantholders with fewer than the specified minimum number of Warrants or not having the requisite integral multiple will either have to sell their Warrants or purchase additional Warrants, incurring transaction costs in each case, in order to realise their investment. Furthermore, holders of such Warrants incur the risk that there may be differences between the trading price of such Warrants and the Settlement Amount (in the case of Cash Settled Warrants) or the Asset Amount (in the case of Physical Delivery Warrants) of such Warrants.

Exercise Expenses may reduce the overall return on investment in Warrants

A holder of Warrants must pay all Exercise Expenses relating to the Warrants. As used in the General Terms and Conditions of the Warrants, "Exercise Expenses" means all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or taxes or duties arising in connection with the exercise of the Warrants. Payment of such Exercise Expenses may reduce the overall return on the investment.

8.2 Risks relating to Notes

Notes are capital-at-risk investments

The nominal amount of the Noteholder's investment in the Notes is not assured and the Noteholder may receive less than the amount it had invested. Accordingly, the Noteholder may lose some or all of its initial investment in the Notes.

Optional redemption feature may limit the market value of Notes and poses reinvestment risk

An optional redemption feature of Notes is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Partly-paid Notes

The relevant Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of its investment.

The value of Fixed Rate Notes may be adversely affected by changes in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently rise above the fixed rate paid on the Fixed Rate Notes, the value of such Fixed Rate Notes may decrease and holders may be unable to sell such Notes or may receive a price which is lower than the value of its original investment.

RISK FACTORS

Variable rate Notes with a multiplier or other leverage factor are volatile investments

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features and holders therefore risk greater losses.

Increases in the reference rate will reduce the value of Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes. In these circumstances an investor may be unable to sell their Notes.

Risks relating to Fixed/Floating Rate Notes

Fixed/Floating Rate Notes bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market in, and the market value of, such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than the prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

Range Accrual Notes are volatile investments and may pay no interest

Range Accrual Notes have an interest rate determined by reference to a specified fixed rate multiplied by the applicable day count fraction (which includes an accrual rate). The accrual rate is determined by reference to how many days in the relevant interest period the relevant reference rate(s) (which may include a spread of the relevant reference rate(s)) satisfy the "Accrual Condition" specified in the applicable Issue Terms (being that the relevant reference rate(s) are (A)(i) greater than, (ii) greater than or equal to (as specified in the applicable Issue Terms) the relevant lower barrier rate(s) and (B)(i) less than and/or (ii) less than or equal to (as specified in the applicable Issue Terms) the relevant upper barrier rate(s) (as specified in the applicable Issue Terms)). Investors should note that if the applicable "Accrual Condition" is not satisfied in respect of any observation day in the relevant Interest Period, Securityholders will receive less interest than if the Notes were Fixed Rate Notes that were not Range Accrual Notes.

Therefore, Range Accrual Notes are subject to variable interest rates and can be volatile instruments, and may pay no interest in respect of an interest period.

Notes issued at a substantial discount or premium are volatile investments

The market values of securities issued at a substantial discount or premium from their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. Such volatility may reduce the market value of the Notes and lead to an investor being unable to sell its Notes or receiving a price which is substantially lower than the value of the original investment.

Risks relating to Bearer Notes where denominations involve integral multiples: definitive bearer Notes

In relation to any issue of Notes in bearer form which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in bearer form in respect of such holding (should such Notes be printed) and would need to purchase a nominal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If definitive Notes in bearer form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

8.3 Risks relating to Credit Linked Securities

An overview of Credit Linked Securities is set out in the section "*Investment Considerations and additional risks relating only to Exempt Securities*" of this Base Prospectus. Investors should refer to the overview for important information relating to Credit Linked Securities, including information concerning how Credit Linked Securities are structured, the role of the Credit Derivatives Determinations Committee and the ISDA Credit Derivatives Definitions. Risks relating to an investment in Credit Linked Securities are set out below.

Investors may lose all or some of their investment

Following the occurrence of a Credit Event, the Credit Linked Securities may then be redeemed prior to their scheduled maturity. In the case of Linear Basket Credit Linked Securities, the relevant Issuer will account for any Credit Event in respect of each applicable Reference Entity as it occurs and interest will then accrue on a decreased nominal amount of the Securities. The credit event redemption amount payable at maturity, if any, will also be reduced and may be zero.

Market price of Credit Linked Securities may be influenced by many unpredictable factors

The market price of Credit Linked Securities may be volatile and will be affected by, amongst other things, the time remaining to the redemption date or settlement date, as applicable, prevailing credit spreads and the creditworthiness of the reference entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions. Such price volatility may mean the Credit-Linked Securities are illiquid or difficult to trade or can only be sold for an amount less than the amount invested by the holders.

A Reference Entity could take actions that may adversely affect a Credit Linked Security

A Reference Entity or one of the Reference Entities will, unless otherwise provided in the applicable Issue Terms, have no involvement in the offer and sale of the Credit Linked Security and no obligation to a Securityholder of Credit Linked Securities. Any Reference Entity may take actions, such as a merger or sale of assets, without regard to the interests of the holders of the relevant Credit Linked Securities. Any of these actions could adversely affect the value of a Credit Linked Security linked to the relevant Reference Entity.

RISK FACTORS

A holder of Credit Linked Securities has no rights with respect to the Reference Entity

As an owner of Credit Linked Securities, a Securityholder will not have voting rights or the right to receive dividends or other distributions or any other rights with respect to the Reference Entity or the obligations of the Reference Entity.

Hedge Disruption Event could affect physical settlement

In the case of Physically Settled Securities, if in the opinion of the Calculation Agent an event, as a result of which the relevant Issuer and/or any of its affiliates has not received the relevant Deliverable Obligations (each a "**Hedge Disruption Obligation**") under the terms of any hedging transactions in respect of the Physically Settled Securities (a "**Hedge Disruption Event**"), has occurred and is continuing on the second Business Day immediately preceding the Scheduled Physical Settlement Date, then the Physical Settlement Date will be postponed until the earlier of (i) the second Business Day following the date on which no Hedge Disruption Event exists and (ii) the day falling 60 Business Days following the Scheduled Physical Settlement Date. Such an event may have an adverse effect on the value of the relevant Credit Linked Securities and result in a substantial delay to settlement. If all or a portion of the Deliverable Obligations included in the Asset Amount are Hedge Disruption Obligations that are not Delivered by the Physical Settlement Date, then the relevant Issuer has 30 calendar days after the Physical Settlement Date to deliver such Deliverable Obligations, after which the relevant Issuer may pay, in respect of each Hedge Disruption Obligation, the Partial Cash Settlement Amount (adjusted to take account fully for any Hedging Costs, if "**Adjustment for Hedging Costs**" is specified as applying in the applicable Issue Terms) in lieu of delivering the Asset Amount. Such an event may have an adverse effect on the value of the relevant Credit Linked Securities and mean that the return to investors is not as they may have originally anticipated.

Increased credit risk is associated with First to Default or Linear Basket Credit Linked Securities

Where the Securities are First to Default Credit Linked Securities, the Securities will be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to the first Reference Entity in respect of which a Credit Event occurs. Where the Securities are Linear Basket Credit Linked Securities, the Securities may be subject to redemption in part as described above upon the occurrence of a Credit Event in relation to each Reference Entity in respect of which a Credit Event occurs. The credit risk to Securityholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

In the case of Linear Basket Credit Linked Securities and Fixed Recovery Credit Linked Securities, investors' exposure to the credit performance of the Reference Entities may not correspond to actual market recovery on such Reference Entities

In the case of Linear Basket Credit Linked Securities, interest and principal repayments on the Securities may be calculated by reference to the outstanding nominal amount of the Securities. As at the Issue Date the outstanding nominal amount is an amount equal to the Aggregate Nominal Amount. If a Credit Event occurs in respect of a Reference Entity, then the outstanding nominal amount will be reduced by an amount equal to a predefined portion of the Aggregate Nominal Amount irrespective of the actual market recovery in respect of such Reference Entity.

In the case of Fixed Recovery Credit Linked Securities, the amount payable following a Credit Event is determined by a set Final Price irrespective of the actual market recovery in respect of the relevant Reference Entity. Therefore, in the case of Fixed Recovery Credit Linked Securities, investors' exposure to the Reference Entity may exceed the exposure that they might incur in respect of having entered into a standard single name credit default swap as protection seller in respect of such Reference Entity and investors may lose the entire principal amount invested.

In the case of Fixed Recovery Credit Linked Securities, it should be noted that the Securities will be redeemed 10 Business Days following the day on which the Calculation Agent first determines that a Credit Event Determination Date has occurred subject to the provisions in paragraph 14 (Settlement Suspension). If the Calculation Agent later determines that the Credit Event Determination Date should be adjusted or should not have occurred (for example, due to a DC Credit Event Announcement occurring) then no account will be taken of this and the Securities will in any case be redeemed unless this subsequent determination is made prior to a cut-off date and subject to the provisions in paragraph 14 (Settlement Suspension). In this case the Fixed Recovery Credit Linked Securities will be redeemed at a Credit Event Redemption Amount even where credit settlement might not occur on any market credit default swap.

Physical settlement risks

Where the Credit Linked Securities provide for physical settlement, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions but excluding the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any affiliate and/or agent has not received under the terms of any transaction and/or trading position entered into by the relevant Issuer and/or such affiliate and/or agent to hedge the relevant Issuer's obligations in respect of the Credit Linked Securities. Any such determination may delay settlement in respect of the Credit Linked Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Credit Linked Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Credit Linked Securities and as a result, the amount payable on redemption.

In the case of Physical Settlement, where the Deliverable Obligation is a loan, in order for the Delivery of the loan (or an interest in the loan) to be effected, the Deliverable Obligation must be capable of being transferred to the Securityholder in accordance with its terms and the Securityholders must have the capacity to hold such loan (or loan interest) otherwise, there is a significant risk that the obligation to deliver such specified assets may be replaced by an obligation to pay a cash amount.

Discretion of Calculation Agent to elect for Auction Settlement may change the terms of settlement and reduce the recovery value of Credit Linked Securities

Notwithstanding that a Credit Linked Security is not issued as an Auction Settled Security, the Calculation Agent may, following a Credit Event, in its discretion and in certain circumstances, elect to determine the amounts payable by and/or rights and obligations of the parties under such Credit Linked Security in respect of the relevant Reference Entity or Reference Obligation in accordance with Auction Settlement. Consequently, Credit Linked Securities may be settled on terms that are less favourable than those anticipated by the Securityholders. Using an Auction could also affect the timing of settlement under Credit Linked Securities. Where settlement of Credit Linked Securities is determined in accordance with an Auction and this results in a lower recovery value than would have been realised if such Auction had not been used, this will lead to a higher loss of the amounts invested.

Auction Settlement risks

Where Auction Settlement is specified as being applicable in the applicable Issue Terms, or is elected to apply by the Calculation Agent as provided in the immediately preceding paragraph, and an Auction Final Price Determination Date occurs, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, available on ISDA's website at www.isda.org (or any successor website thereto). Such auction procedure is subject to change at any time.

RISK FACTORS

The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Valuation Obligation.

Auction Final Price and the Issuer's or the Calculation Agent's ability to influence the Auction Final Price

If the Credit Linked Securities are redeemed following the occurrence of a Credit Event, the amount payable in respect of the Securities may be determined by reference to the Auction Final Price determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms. There is a possibility that the relevant Issuer or the Calculation Agent or any of their respective affiliates would act as a participating bidder in any such auction. In such capacity, any such entity may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), the relevant Issuer or the Calculation Agent or any of their respective affiliates shall be under no obligation to consider the interests of any Securityholder.

Decisions of the Credit Derivatives Determinations Committee are binding

As described in the section "*Investment Considerations and additional risks relating only to Exempt Securities*", in certain circumstances the Credit Derivatives Determinations Committee has the power to make binding decisions on critical issues and investors will have no control over how such decisions are made notwithstanding that they may have a significant impact on the return (if any) to investors.

Credit Event and Succession Event Backstop Dates

Where (a) the Credit Terms (2003 ISDA Credit Derivatives Definitions Version) applies and the July 2009 Supplement is specified as being applicable in the applicable Issue Terms or (b) the Credit Terms (2014 ISDA Credit Derivatives Definitions Version) applies, a Credit Event may be triggered if a request is submitted to ISDA for the relevant Credit Derivatives Determinations Committee to consider whether the relevant event constitutes a Credit Event or if a Credit Event Notice or a Notice of Publicly Available Information is delivered, within 60 calendar days of the occurrence of such Credit Event unless a Credit Event Determination Date has already occurred with respect to such event. For Succession Events the lookback period is 90 calendar days and functions similarly. These changes mean that there is a time limit on the ability to act on a Credit Event or Succession Event and that it is possible that the Securities could be affected by a Credit Event or Succession Event that took place prior to the Trade Date.

Movement Option

In certain circumstances, if following a Restructuring Credit Event a No Auction Announcement Date has occurred pursuant to sub-paragraph (b) of the definition of No Auction Announcement Date, the Calculation Agent may elect, in its sole discretion, to exercise the Movement Option, by delivering an effective Notice to Exercise Movement Option to the relevant Issuer on or prior to the Movement Option Cut-off Date. If the Calculation Agent exercises such option, the Parallel Auction Settlement Terms shall apply for the purposes of determining the Auction Final Price. Securityholders should be aware that they do not have the right to exercise the Movement Option and therefore if the Calculation Agent elects not to exercise the Movement Option, the Securities shall be redeemed in accordance with the Fallback Settlement Method.

Changes to terms of credit derivatives

Terms relating to credit derivatives generally, including the ISDA Credit Derivatives Definitions and those for Credit Linked Securities are subject to continuous evolution and the view of market participants may differ as to how the ISDA Credit Derivatives Definitions operate or

should operate. As a result, the terms of Credit Linked Securities may not conform to future market standards. Such a result may have a negative impact on the Credit Linked Securities and changes to the terms applicable to credit derivatives may not be predicable or favourable to the Issuer or the Securityholders.

Differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions and the terms of Credit Linked Securities

There are a number of important differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions (in each case, as defined below), as described in the section "*Investment Considerations and additional risks relating only to Exempt Securities*". Some differences, such as the inclusion of a new Credit Event in the 2014 ISDA Definitions, may have a significant economic effect on relevant Credit Linked Securities and may mean the value of and return on Credit Linked Securities where "*Credit Terms (2014 ISDA Credit Derivatives Definitions Version)*" are specified as applicable in the applicable Issue Terms is significantly different from Credit Linked Securities where "*Credit Terms (2003 ISDA Credit Derivatives Definitions Version)*" are specified as applicable in the applicable Issue Terms.

The 2003 ISDA Definitions have been reflected in the terms set out in the section of this Base Prospectus entitled "*Credit Terms (2003 ISDA Credit Derivatives Definitions Version)*" and the 2014 ISDA Definitions have been reflected in the terms set out in the section of this Base Prospectus entitled "*Credit Terms (2014 ISDA Credit Derivatives Definitions Version)*", but such terms include important changes to the 2003 ISDA Definitions and the 2014 ISDA Definitions, respectively, including changes to reflect the nature of Securities as compared to "over-the-counter" transactions and to reflect any hedging arrangements the Issuer may put in place. Investing in Credit Linked Securities may therefore not have the same economic effect as entering into a credit default swap referencing the 2003 ISDA Definitions or the 2014 ISDA Definitions and the return to investors may be lower.

Amendment of Credit Terms in accordance with market convention

The Calculation Agent may from time to time amend any provision of the Credit Terms for the following reasons, notwithstanding that any such amendment may be unfavourable to Securityholders:

- (i) to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the documentation, trading or settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees; and/or
- (ii) in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable to reflect or account for market practice for credit derivative transactions and/or reflect the Hedging Arrangements of the Issuer or any of its Affiliates.

Risks related to the structure of a particular issue of Credit Linked Securities

Credit default risk with respect to the Reference Entity in addition to credit default risk with respect to the relevant Issuer

The payment of principal and interest, if any, on any Credit Linked Securities is contingent upon each Reference Entity's satisfaction of its present and future financial obligations and holders will be exposed to credit default risk with respect to each Reference Entity in addition to credit risk with respect to the relevant Issuer.

If one or more Reference Entities experience a Credit Event during the credit protection period, and the related Credit Event Notice is delivered or deemed delivered during the Notice Delivery Period, Credit Linked Securities will be subject to mandatory redemption in accordance with

RISK FACTORS

the applicable Settlement Method or, if a Fallback Settlement Event occurs, the applicable Fallback Settlement Method.

The Credit Event that is the subject of the Credit Event Notice does not have to be continuing on the date of the Credit Event Notice or subsequently. Accordingly, holders of Credit Linked Securities are exposed to credit default risk with respect to the Reference Entity for Credit Events that may be cured or waived subsequent to their occurrence.

A Credit Event may occur even if the relevant Issuer does not suffer loss

The relevant Issuer's obligations in respect of the Credit Linked Securities are irrespective of the existence or the amount of such Issuer's or its affiliate's credit exposure to a Reference Entity and such Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

Verification of Credit Event

Prospective holders of Credit Linked Securities should note that in certain circumstances, there may be no requirement for the relevant Issuer to give information which is generally publicly available in relation to the occurrence of a Credit Event. In addition, if a Credit Event occurs in respect of an Obligation of a Reference Entity which is not public, holders of the Credit Linked Securities may not be able to verify the occurrence of such Credit Event.

Deliverable Obligations and Valuation Obligations with the lowest market value

Where Physical Settlement or Cash Settlement is applicable, upon the occurrence of a Credit Event and the delivery of the Credit Event Notice and if applicable, the Notice of Physical Settlement, the relevant Issuer has the discretion to choose the Deliverable Obligations to be delivered to holders if Physical Settlement applies and/or the Calculation Agent has the discretion to choose the Valuation Obligations (as defined in the Pricing Supplement in respect of Exempt Securities) to be valued if Cash Settlement applies. It is likely that the Deliverable Obligations and/or the Valuation Obligations selected will be Deliverable Obligations and/or Valuation Obligations of the Reference Entity with the lowest market value that are permitted to be delivered or valued pursuant to the terms of the Credit Linked Securities. This could result in a lower recovery value and hence greater losses for investors in the Credit Linked Securities.

Interest may cease to accrue

Upon the delivery of a Credit Event Notice with respect to a Credit Event by the Calculation Agent to the relevant Issuer, interest on any interest bearing Credit Linked Notes will cease to accrue as of (i) the Interest Payment Date immediately preceding the Credit Event Determination Date (or, if none, on the Interest Commencement Date) if No Accrual of Interest upon Credit Event applies or (ii) the Credit Event Determination Date if Partial Accrual of Interest upon Credit Event applies.

Public Disclosure of Information by Reference Entities

Investors in Credit Linked Securities bear the risk that information contained in a Reference Entity's publicly available filings may be inadequate or inaccurate, a Reference Entity fails to publicly disclose certain information and/or that events occurring prior to the date of the applicable Issue Terms that would affect the creditworthiness of the Reference Entity or the trading price of the Credit Linked Securities may not be publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning a Reference Entity could affect its creditworthiness and thereby the trading prices of the Credit Linked Securities, the likelihood of a Credit Event under the Credit Linked Securities and the Auction Settlement Amount (if Auction Settlement applies), the Cash Settlement Amount (if Cash Settlement is applicable) or the value of any Deliverable Obligations that holders will receive in lieu of the cash amounts payable (if Physical Settlement is applicable).

Actions of Reference Entities

Actions of Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Credit Linked Securities. The views of market participants and/or legal counsel may differ as to how the terms of market standard credit default swaps, and corresponding terms of the Credit Linked Securities, should be interpreted in the context of such actions, or such terms may operate in a manner contrary to the expectations of market participants and/or adversely to the interest of holders of the Credit Linked Securities. Holders of Credit Linked Securities should be aware that the Reference Entities to which the value of the Credit Linked Securities is exposed, and the terms of such exposure, may change over the term of the Credit Linked Securities.

Reference Obligation and Valuation Obligations

It should be noted that the Issuer has the discretion to select a Reference Obligation and the Calculation Agent has the discretion to select Valuation Obligations in certain circumstances. In this case the Issuer or the Calculation Agent, as applicable, may select the lowest value obligations available (see "*Deliverable Obligations and Valuation Obligations with the lowest market value*" below). In addition, the Calculation Agent may select one or more Valuation Dates for the determination of the relevant Final Price in the case of Cash Settlement. This may result in lower returns, if any, in respect of the Securities where a Credit Event occurs and in the case of Cash Settlement, this may be significantly delayed to allow for all relevant Valuation Dates to occur.

Force Majeure Events pose certain risks

Force Majeure Events include, inter alia, events, including legal and regulatory changes or illiquidity in the relevant foreign exchange or currency market(s), which make it impracticable, illegal or impossible to convert, remit abroad or determine a rate in respect of the relevant local or specified currency relating to the Credit Linked Securities or for the relevant Issuer to perform or to hedge effectively its obligations under the Credit Linked Securities.

If the relevant Issuer determines that a Force Majeure Event has occurred, the relevant Issuer may suspend and/or early redeem such Credit Linked Securities (in whole or in part) and upon such redemption, if permitted by applicable law, pay the holder of each such Credit Linked Security (or part thereof) an amount determined by the relevant Issuer to be its fair market value (which may be zero) and which in certain circumstances may be made in the Local Currency notwithstanding such Force Majeure Event less the cost to the relevant Issuer of unwinding any underlying related hedging arrangements. It is possible that any suspension by the relevant Issuer could continue after the scheduled expiration or redemption date until the relevant Issuer exercises its right to redeem such Credit Linked Securities or until the date falling 10 days after such Force Majeure Event ceases to exist. The occurrence of a Force Majeure Event may therefore reduce amounts owed to holders and alter the timing at which such amounts are received.

Emerging Markets risks

Where the Credit Linked Securities relate to Reference Entities which involve emerging market countries, investors should note that the risk of the occurrence and the severity of the consequences of the matters described herein may be greater than they would otherwise be in relation to more developed countries.

Potential conflicts of interest

The Issuers and/or any of their affiliates may have conflicts of interest with respect to some Credit Linked Securities. These entities may engage in trading, including trading for hedging purposes, for their proprietary accounts or for other accounts under their management, in Credit Linked Securities or obligations of a Reference Entity or derivative instruments referencing or based on one or more Reference Entities. These trading activities could adversely affect the

RISK FACTORS

value of Credit Linked Securities. The Issuers and/or any of their affiliates may also issue securities or derivative instruments that are linked to the same Reference Entity as one or more Credit Linked Securities. By introducing competing products into the marketplace in this manner, such entity could adversely affect the value of a Credit Linked Security.

To the extent that an Issuer and/or any of its affiliates serves as calculation agent with respect to a Credit Linked Security, it may have considerable discretion in performing the calculation or, as the case may be, in respect of making determinations and judgements in relation to the relevant Credit Linked Securities. Exercising discretion in this manner could adversely affect the value of or the rate of return on the relevant Credit Linked Security and/or cause the relevant Credit Linked Securities to be redeemed early by the Issuer at an amount that is likely to be less than a Securityholder's initial investment. If the Credit Linked Securities are so redeemed, no other amounts shall be payable in respect of the Credit Linked Securities on account of interest or otherwise.

The relevant Issuer and any Manager may, at the date hereof or at any time hereafter, be in possession of information in relation to a Reference Entity that is or may be material in the context of the Credit Linked Securities and may or may not be publicly available to holders of the relevant Credit Linked Securities. There is no obligation on the relevant Issuer or any Manager to disclose to such holders any such information.

The relevant Issuer and/or any of its affiliates may have existing or future business relationships with any Reference Entity or, if applicable, any of their subsidiaries or affiliates or any other person or entity having obligations relating to any Reference Entity (including, but not limited to, dealing, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deem(s) necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a holder of Credit Linked Securities linked to any such Reference Entity regardless of whether any such action might have an adverse effect (including, without limitation, any action which might constitute or give rise to any breach, event of default, credit event or termination event) on any Reference Entity or any Credit Linked Security.

Non-publicly available information may not be disclosed to investors

The relevant Issuer or any of its respective affiliates may have acquired, or during the term of the Securities may acquire, non-public information with respect to any Reference Entity or related obligor(s) that they may not disclose. None of the relevant Issuer or any of its respective affiliates is under any obligation (i) to review on the Securityholder's behalf, the business, financial conditions, nature, prospects, creditworthiness, status or affairs of any Reference Entity or related obligor(s) or conduct any investigation or due diligence into any Reference Entity or related obligor(s) or (ii) other than as may be required by applicable rules and regulations relating to the Securities, to make available (a) any information relating to the Securities or (b) any non-public information they may possess in respect of the Reference Entity or related obligor(s).

Leverage

The Securities may be subject to leverage, in which case, the effective exposure to any Reference Entity or related obligor(s) may be substantially increased. Leverage will expose Securityholders to increased and potentially significant losses where the credit of any relevant Reference Entity deteriorates.

Country Risk

By seeking exposure to the Reference Entities and/or related obligor(s) through an investment in the Securities, an investor may also be exposed to the market risks of the country or countries to which the Reference Entities and/or related obligor(s) are linked. Such investments may be sensitive to any significant (i) changes in market conditions, political, social or economic policy, or (ii) changes in laws and regulations, in such a country or countries. Country's or countries'

government's future control of currency conversion, free transfer of monies and securities, and movements in exchange rates may adversely affect the performance of, and returns under, the Securities.

9. RISKS RELATING TO REFERENCE ITEM LINKED SECURITIES

9.1 *Investors in Reference Item Linked Securities could lose some or all of their investment*

Amounts payable or deliverable in respect of a Series of Securities may be determined by reference to the price, value or performance of one or more Reference Item(s) (any such Security a "**Reference Item Linked Security**"), as may be specified in any applicable offering document, any supplement to this Base Prospectus and/or the applicable Issue Terms. The direction and magnitude of the change in the value of the relevant Reference Item(s) may determine any or all of the amounts payable on settlement or redemption of Reference Item Linked Securities, any interim amounts payable on an interim payment date or the amount of interest payable on an interest payment date and the cash value or physical settlement value of a physically settled Reference Item Linked Security.

The terms of a particular Reference Item Linked Security may or may not provide for the repayment or payment on settlement or redemption of the original amount invested or the payment on an interim or interest payment date of a minimum interim or interest amount. Accordingly, if an investor invests in a Reference Item Linked Security, it may lose all or a portion of the amount invested in such Reference Item Linked Security and may receive no interim or interest amount(s) on the Reference Item Linked Security.

9.2 *An investment in Reference Item Linked Securities presents significant risks not associated with other types of securities*

An investment in Reference Item Linked Securities presents certain significant risks not associated with conventional debt securities, the principal risk of conventional debt securities being that the relevant Issuer will be unable to meet its obligations under the securities when due, the lack of an established trading market and exchange rate and exchange control risks.

Reference Item Linked Securities present additional risks, which may include, among others, interest rate, foreign exchange, time value and political risks, and a holder may lose its entire investment if it purchases these types of securities. Prospective purchasers of Securities should recognise that their Securities, other than any Securities having a minimum expiration or redemption value, may expire worthless. Purchasers should be prepared to sustain a total loss of the purchase price of their Securities, except, if so indicated in the applicable Issue Terms, to the extent of any minimum expiration or redemption value attributable to such Securities.

9.3 *The market price of Reference Item Linked Securities may be influenced by many unpredictable factors*

Factors independent of the creditworthiness of the relevant Issuer, many of which are beyond the control of the relevant Issuer, will influence the value of Reference Item Linked Securities, including, but not limited to:

- the market price of the Reference Item(s);
- the volatility (frequency and magnitude of changes in price) of the Reference Item(s);
- any dividend rate or distribution on the Reference Item(s);
- economic, financial, political, regulatory or judicial events that affect markets generally and which may affect the market price or level of the Reference Item(s);
- fluctuation in the exchange rates;

RISK FACTORS

- the level, direction and volatility of interest and yield rates in the market;
- the method of calculating the settlement or redemption amount or any interim amount or interest to be paid in respect of such Reference Item Linked Securities;
- any exercise or redemption features of the Reference Item Linked Securities;
- changes in the method of calculating the relevant Reference Item(s);
- market expectations regarding the future performance of the relevant Reference Item(s) and its composition;
- liquidity of the Reference Item Linked Security or any Reference Item in the secondary market;
- the time remaining until (a) the relevant Issuer can call the Reference Item Linked Securities (if applicable) or (b) the expiration or maturity of the Reference Item Linked Securities; and
- the outstanding amount of the Reference Item Linked Securities.

Where the Reference Item(s) may vary during the term of the relevant Reference Item Linked Security, such factors relating to assets of the class or type that may be Reference Item(s) from time to time may also influence the value of such Reference Item Linked Securities.

These factors will influence the price that a holder will receive if it sells its Reference Item Linked Securities prior to expiration or maturity. For example, a holder may have to sell its Reference Item Linked Securities at a substantial discount from the issue price if the market price of the Reference Item is at, below or not sufficiently above the price of the Reference Item at pricing.

Potential investors should also note that while the market value of such Securities is linked to such Reference Item(s) and will be influenced (positively or negatively) by such Reference Item(s), any change may not be comparable and may be disproportionate.

9.4 *The issuer, sponsor or adviser of a Reference Item could take actions that may adversely affect a Reference Item Linked Security and may not disclose all relevant information*

The issuer, sponsor or adviser of a Reference Item or an asset comprising part of a Reference Item for a Reference Item Linked Security will, unless otherwise provided in the applicable Issue Terms, have no involvement in the offer and sale of the Reference Item Linked Security, no involvement in establishing the terms of the Reference Item Linked Security and no obligation to any holder in relation to the relevant Reference Item Linked Security.

Such issuer or sponsor may take actions, such as a merger or sale of assets, without regard to the interests of the holders of the relevant Reference Item Linked Securities.

In addition, in connection with the offering of such Reference Item Linked Securities, neither the relevant Issuer nor any Manager will make any investigation or enquiry with respect to the information concerning any such Reference Item contained in the Issue Terms or in the publicly available documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph or in any applicable Issue Terms) that would affect the value of the Reference Item will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning any Reference Item could affect the value of such Reference Item and therefore the trading price of the Securities.

Any of these actions could adversely affect the value of a Reference Item Linked Security linked to the relevant Reference Item, which may lead to a holder being unable to sell its Reference

Item Linked Securities or receiving a price which is substantially lower than the amount of its original investment.

9.5 *A holder of Reference Item Linked Securities has no rights with respect to the Reference Item*

As an owner of Reference Item Linked Securities, a holder will not have voting rights or the right to receive dividends or other distributions or any other rights with respect to any Reference Item.

9.6 *Risks relating to the use of Reference Item Linked Securities to hedge an exposure to the Reference Item(s)*

Prospective purchasers intending to purchase Reference Item Linked Securities to hedge against the market risk associated with investing in any Reference Item should recognise the complexities of utilising Reference Item Linked Securities in this manner. For example, the value of the Reference Item Linked Securities may not exactly correlate with the value of the relevant Reference Item. Due to fluctuating supply and demand for the Reference Item Linked Securities, there is no assurance that their value will correlate with movements of the relevant Reference Item. For these reasons, among others, it may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant Reference Item.

9.7 *Hedging arrangements, adjustments and discretions may affect the return on Reference Item Linked Securities*

The relevant Issuer will normally enter into hedging arrangements in respect of an issue of Reference Item Linked Securities. Such hedging transactions refer to the arrangements the relevant Issuer makes to ensure it will have available to it the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due. This will normally involve the relevant Issuer investing directly or indirectly in the Reference Item(s). An indirect investment might be made by an Affiliate or agent of the relevant Issuer or other third party making an investment in the Reference Item(s). Alternatively an indirect investment might involve the relevant Issuer or an Affiliate, agent or other third party entering into a derivative contract referencing the Reference Item(s). The relevant Issuer will select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates. The relevant Issuer may also adjust hedging arrangements from time to time but it will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements.

An adjustment event or disruption event in respect of the Reference Item(s) may materially affect the cost to the relevant Issuer of maintaining the Securities or its hedging arrangements in a way which has not been factored into the issue price of the Securities. This may therefore require adjustments to the Securities in order to reflect such events or a termination of the Securities in these circumstances. Any adjustment made due to an adjustment event or disruption event, or any adjustment or termination of the Securities or replacement of a Reference Item following an adjustment event or disruption event may have an adverse effect on the Securities and Securityholders. In particular, the value of the Securities may fall and amounts payable or assets deliverable under the Securities may be less and may be made at different times than anticipated. This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.

9.8 *An Issuer may engage in market-making, trading or hedging activities that could adversely affect the value of a Reference Item Linked Security and/or the return to investors*

In the ordinary course of its business, including without limitation in connection with its market-making activities, the relevant Issuer and/or any of its affiliates may effect transactions for its own account or for the account of its customers and hold long or short positions in the

RISK FACTORS

Reference Item(s) or related derivatives. In addition, in connection with the offering of the Reference Item Linked Securities, the relevant Issuer and/or any of its affiliates may enter into one or more hedging transactions with respect to the Reference Item(s) or related derivatives. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the relevant Issuer and/or any of its affiliates, the relevant Issuer and/or any of its affiliates may enter into transactions in the Reference Item(s) or related derivatives which may affect the market price, liquidity or value of the Reference Item Linked Securities and which could be deemed to be adverse to the interests of the holders of the relevant Reference Item Linked Securities.

Upon the early termination or early redemption of Reference Item Linked Securities, the relevant Issuer may be required to unwind, terminate, liquidate, adjust, obtain, replace or re-establish such hedging or market-making activities, resulting in a gain to, or losses and costs incurred by, the relevant Issuer and/or any of its affiliates. In this event and if so specified in the applicable Issue Terms, on such early termination or early redemption of the Reference Item Linked Securities, any amounts payable on such early termination or early redemption that would otherwise be received by the holders of the Reference Item Linked Securities will be increased to reflect any such gain or decreased to reflect any such loss or cost. Similarly, in the case of physical settlement of the Reference Item Linked Securities, where physical delivery of the relevant Asset Amount is not practicable by reason of a Settlement Disruption Event and the relevant Issuer elects to satisfy its obligations in respect of the Reference Item Linked Securities by payment of a cash amount in lieu of physical settlement, if so specified in the applicable Issue Terms, any such amount may be increased to reflect any such gain or decreased to reflect any such loss or cost.

9.9 *Holders of Reference Item Linked Securities have no right to any of the relevant Issuer's hedging profits*

As described above, an Issuer may engage in activities to hedge its exposure under a Reference Item Linked Security. It may have profits or losses from these hedging activities. It is possible that it could achieve substantial profits from its hedging transactions while the value of the Reference Item Linked Security may decline. Holders of a Reference Item Linked Security will have no right to any such profit, unless otherwise specified in the applicable Issue Terms.

9.10 *Information about Reference Item(s) may not be indicative of future performance*

If an Issuer issues a Reference Item Linked Security linked to one or more Reference Item(s), it may include details on the past and future performance and volatility of the relevant Reference Item(s) in the applicable Issue Terms. Any information about such Reference Item(s) that may be provided will be furnished as a matter of information only, and holders of the relevant Reference Item Linked Securities should not regard the information as indicative of the range of, or trends in, fluctuations in the relevant Reference Item that may occur in the future. There is a significant risk that the future performance of Reference Item Linked Securities will not correlate with past performance of the relevant Reference Item and as such, a holder of a Reference Item Linked Security cannot predict the future performance of a Reference Item or a Reference Item Linked Security based on its historical performance.

9.11 *Risks relating to Market Disruption Event and Disrupted Day*

If an issue of Reference Item Linked Securities includes provisions dealing with the occurrence of a market disruption event, a failure of an exchange or related exchange to open on a Valuation Date or an Averaging Date or disruptions relating to securities trading and clearing services (where applicable) and the Calculation Agent determines that a market disruption event or such failure or disruption has occurred or exists on a Valuation Date or an Averaging Date, any consequential postponement of the Valuation Date or Averaging Date or any alternative provisions for valuation provided in any Reference Item Linked Security may have an adverse effect on the value of such Reference Item Linked Security and the holder of such Reference Item Linked Security may lose all or a proportion of the amount invested in such Reference Item Linked Security.

9.12 Force Majeure Events pose certain risks

Force Majeure Events include, inter alia, events, including legal and regulatory changes or illiquidity in the relevant foreign exchange or currency market(s), which make it impracticable, illegal or impossible to convert, remit abroad or determine a rate in respect of the relevant local or specified currency relating to the Reference Item Linked Securities or for the relevant Issuer to perform or to hedge effectively its obligations under the Reference Item Linked Securities.

If the relevant Issuer determines that a Force Majeure Event has occurred, the relevant Issuer may suspend and/or terminate or early redeem such Reference Item Linked Securities (in whole or in part) and upon such termination or redemption, if permitted by applicable law, pay the holder of each such Reference Item Linked Security (or part thereof) an amount determined by the relevant Issuer to be its fair market value (which may be zero) and which in certain circumstances may be made in the Local Currency notwithstanding such Force Majeure Event less the cost to the relevant Issuer of unwinding any underlying related hedging arrangements. It is possible that any suspension by the relevant Issuer could continue after the scheduled expiration or redemption date until the relevant Issuer exercises its right to terminate such Reference Item Linked Securities or until the date falling 10 days after such Force Majeure Event ceases to exist. The occurrence of a Force Majeure Event may therefore reduce amounts owed to holders and alter the timing at which such amounts are received.

9.13 Risks relating to Adjustment and Termination Provisions

The conditions of the Reference Item Linked Securities may permit the adjustment of the terms of the Reference Item Linked Securities upon the occurrence of certain adjustment or disruption events (including without limitation any hedging disruption event). Any such adjustment may result in a change in a method of calculation of any amounts payable or deliverable and/or a change in or substitution of a Reference Item and/or a change in any of the other conditions of such Reference Item Linked Securities. In addition, the occurrence of any such events may permit the relevant Issuer to terminate or early redeem or delay the redemption of the Reference Item Linked Securities. If the relevant Issuer terminates or early redeems the Reference Item Linked Securities, then the relevant Issuer will (if so specified in the applicable Issue Terms) pay an amount equal to the fair market value of such Reference Item Linked Security less (in relation to certain events) the costs to the relevant Issuer and/or any of its affiliates of unwinding any underlying or related hedging arrangements. Such adjustment or redemption or termination may have an adverse effect on the value of such Reference Item Linked Security and may result in an increased risk of the holders of such Reference Item Linked Securities losing all or part of their investment or a delay in the relevant holders receiving payment under the Reference Item Linked Securities.

The occurrence of any Adjustment/Termination Event may have the result that the Issuer is either not able to continue to perform its obligations under the Securities or to maintain its hedging arrangements or will incur increased costs, taxes, or expenses in so doing, and such increased costs, taxes, or expenses have not been reflected in the pricing of the Securities. As a result the Issuer may be entitled to make adjustments to the Conditions or to substitute a Reference Item or to cancel and terminate the Securities following the occurrence of any such adjustment/termination. This is part of the economic risk Securityholders bear when investing in the Securities and the basis on which the Securities are priced.

9.14 Emerging Markets risks

Where the Reference Item Linked Securities relate to Reference Items which involve emerging market countries, investors should note that the risk of the occurrence and the severity of the consequences of the matters described herein may be greater than they would otherwise be in relation to more developed countries.

9.15 *Potential conflicts of interest*

The Issuers and/or any of their affiliates may have conflicts of interest with respect to some Reference Item Linked Securities. These entities may engage in trading, including trading for hedging purposes, for their proprietary accounts or for other accounts under their management, in Reference Item Linked Securities or a Reference Item or derivative instruments referencing or based on one or more Reference Items. These trading activities could adversely affect the value of Reference Item Linked Securities. The Issuers and/or any of their affiliates may also issue securities or derivative instruments that are linked to the same Reference Item as one or more Reference Item Linked Securities. By introducing competing products into the marketplace in this manner, such entity could adversely affect the value of a Reference Item Linked Security.

To the extent that an Issuer and/or any of its affiliates calculates or compiles a particular index or serves as calculation agent with respect to a Reference Item Linked Security, it may have considerable discretion in performing the calculation or compilation, or, as the case may be, in respect of making determinations and judgements in relation to the relevant Reference Item Linked Securities. Exercising discretion in this manner could adversely affect the value of or the rate of return on the relevant Reference Item Linked Security and/or cause the relevant Reference Item Linked Securities to be redeemed or cancelled early by the Issuer at an amount that is likely to be less than a Securityholder's initial investment. If the Reference Item Linked Securities are so redeemed or cancelled, no other amounts shall be payable in respect of the Reference Item Linked Securities on account of interest or otherwise.

The relevant Issuer and any Manager may, at the date hereof or at any time hereafter, be in possession of information in relation to a Reference Item that is or may be material in the context of the Reference Item Linked Securities and may or may not be publicly available to holders of the relevant Reference Item Linked Securities. There is no obligation on the relevant Issuer or any Manager to disclose to such holders any such information.

The relevant Issuer and/or any of its affiliates may have existing or future business relationships with any Reference Item or, if applicable, any of their subsidiaries or affiliates or any other person or entity having obligations relating to any Reference Item (including, but not limited to, dealing, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deem(s) necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a holder of Reference Item Linked Securities linked to such Reference Item(s) regardless of whether any such action might have an adverse effect (including, without limitation, any action which might constitute or give rise to any breach, event of default, credit event or termination event) on any Reference Item or any Reference Item Linked Security.

9.16 *Liquidity Risks*

The Reference Item Linked Securities may not have an established trading market when issued. There can be no assurance of a secondary market for the Reference Item Linked Securities or the continued liquidity of such market if one develops. The secondary market for the Reference Item Linked Securities will be affected by a number of factors as described in the sub-category above entitled "The market price of Reference Item Linked Securities may be influenced by many unpredicable factors".

In addition, certain Reference Item Linked Securities may be designed for specific investment objectives or strategies and therefore may have a more limited secondary market and experience more price volatility than conventional debt securities. Holders of such Reference Item Linked Securities may not be able to sell their Reference Item Linked Securities readily or at prices that will enable such holders to realise their anticipated yield. No investor should purchase Reference Item Linked Securities unless such investor understands and is able to bear the risk that certain Reference Item Linked Securities may not be readily saleable, that the value of Reference Item Linked Securities will fluctuate over time and that such fluctuations may be significant.

9.17 Risks relating to determinations

The terms of the Reference Item Linked Securities confer on the Issuer, the Calculation Agent and certain other persons some discretion in making determinations and calculations in relation to, inter alia, Reference Asset(s) and the occurrence of various events. The exercise of any such discretion may adversely affect the value of the Securities or the occurrence of an early repayment or cancellation.

9.18 Non-publicly available information may not be disclosed to investors

The relevant Issuer or any of its respective affiliates may have acquired, or during the term of the Securities may acquire, non-public information with respect to any Reference Item(s) or related obligor(s) that they may not disclose. None of the relevant Issuer or any of its respective affiliates is under any obligation (i) to review on the Securityholder's behalf, the business, financial conditions, nature, prospects, creditworthiness, status or affairs of any Reference Item(s) or related obligor(s) or conduct any investigation or due diligence into any Reference Item(s) or related obligor(s) or (ii) other than as may be required by applicable rules and regulations relating to the Securities, to make available (a) any information relating to the Securities or (b) any non-public information they may possess in respect of the Reference Item(s) or related obligor(s).

9.19 Leverage

The Securities may be subject to leverage, in which case, the effective exposure to any Reference Item(s) or related obligor(s) may be substantially increased. Leverage will expose Securityholders to increased and potentially significant losses where the value of the relevant Reference Items(s) decrease or move against a Securityholder's position.

9.20 Country Risk

By seeking exposure to the Reference Item(s) and/or related obligor(s) through an investment in the Securities, an investor may also be exposed to the market risks of the country or countries to which the Reference Item(s) and/or related obligor(s) is linked. Such investments may be sensitive to any significant (i) changes in market conditions, political, social or economic policy, or (ii) changes in laws and regulations, in such a country or countries. Country's or countries' government's future control of currency conversion, free transfer of monies and securities, and movements in exchange rates may adversely affect the performance of, and returns under, the Securities.

9.21 Risks relating to EMAP Securities

Terms used in this category are as defined in the Equity and Market Access Product Terms.

EMAP Securities may be linked to a volatile index, which could adversely affect a holder's investment

Certain indices are highly volatile, which means that their value may change significantly, up or down, over a short period of time. The expected amount payable on settlement or on redemption, the amount of any interim amount or interest payable on an interim or interest payment date and the cash value or physical settlement value of a physically settled EMAP Security based on a volatile index may vary substantially from time to time. Because the amount payable on an EMAP Security is generally calculated based on the value of the relevant index on a specified date or over a limited period of time, volatility in the index increases the risk that the return on the EMAP Securities may be adversely affected by a fluctuation in the level of the relevant index.

The volatility of an index may be affected by political or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these could adversely affect the value of an EMAP Security.

RISK FACTORS

An index to which an EMAP Security is linked could be changed or become unavailable

Certain indices reference several different securities. The compiler or sponsor of such an index typically reserves the right to alter the composition of the index and the manner in which the value of the index is calculated. Such an alteration may result in a decrease in the value of or return on an EMAP Security which is linked to such index.

An index may become unavailable due to such factors as war, natural disasters, cessation of publication of the index, or suspension of or disruption in trading in the security or securities comprising or underlying such index. If an index becomes unavailable, the determination of the amount payable on an EMAP Security may be delayed or an alternative method may be used to determine the value of the unavailable index or another index may be substituted for the relevant index. Alternative methods of valuation are generally intended to produce a value similar to the value resulting from reference to the relevant index. However, it is unlikely that such alternative methods of valuation will produce values identical to those which would be produced were the relevant index to be used. An alternative method of valuation or a substitution may result in a decrease in the value of or return on an EMAP Security.

Certain EMAP Securities are linked to indices that are not commonly utilised or have been recently developed. The lack of historic index levels may make it difficult to anticipate the volatility or other risks to which such an EMAP Security is subject. In addition, there may be less trading in such indices or instruments underlying such indices, which could increase the volatility of such indices and decrease the value of or return on EMAP Securities relating to them.

Factors affecting the performance of indices may adversely affect the value of the EMAP Securities

Indices are comprised of a synthetic portfolio of shares or other assets, and as such, the performance of an index is dependent upon the macroeconomic factors relating to the shares or other components that comprise such index, which may adversely affect the value of the relevant EMAP Securities and which may include interest and price levels on the capital markets, currency developments, the volatility (frequency and magnitude of changes of price) and liquidity of such components, political factors and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy.

Exposure to the risk that returns on the EMAP Securities linked to indices do not reflect direct investment in underlying shares or other assets comprising the relevant index

The return payable on EMAP Securities that reference indices may not reflect the return a Securityholder would realise if he or she actually owned the relevant assets comprising the components of the index. For example, if the components of the indices are shares, Securityholders will not receive any dividends paid on those shares and will not participate in the return on those dividends unless the relevant index takes such dividends into account for purposes of calculating the relevant level. Similarly, Securityholders will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant index. Accordingly, an investor in EMAP Securities that reference indices as reference assets may receive a lower payment upon redemption or settlement of such EMAP Securities than such an investor would have received if he or she had invested in the components of the index directly.

A change in the composition or discontinuance of an index could adversely affect the market value of the EMAP Securities

The sponsor of any index may add, delete or substitute the components of such index or make other methodological changes that could change the level of one or more components. The changing of components of any index may affect the level of such index as a newly added component may perform significantly worse or better than the component it replaces, which in

turn may affect the payments made by the relevant Issuer to the Securityholders. The sponsor of any such index may also alter, discontinue or suspend calculation or dissemination of such index. The sponsor of an index will have no involvement in the offer and sale of the EMAP Securities and will have no obligation to any Securityholder. The sponsor of an index may take any actions in respect of such index without regard to the interests of the Securityholders, and any of these actions could adversely affect the market value of the EMAP Securities.

Factors affecting the performance of Equity Securities/ETF Securities/Depositary Receipt Securities/Fund Interests/Relevant Accounts may adversely affect the value of EMAP Securities

The performance of Underlying Assets or Fund Interests is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors, company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, relevant account-specific factors such as the economic performance and concentration of the constituents of the account and fund-specific factors such as the performance of the relevant fund service providers and in particular the relevant fund adviser. Changes in any such factors may adversely affect the performance of any relevant Underlying Asset or Fund Interest, and therefore, the value of the relevant EMAP Securities.

Risks relating to Securities linked to Fund Interests

Holders of Securities linked to Fund Interests are exposed to the effects of a diverse range of risks relating to Funds, including the following:

- Investment strategies and techniques: a Fund may either invest directly in certain assets or may reference the assets' performance using a multitude of hedging strategies and/or mathematical modelling techniques. These strategies and techniques can change over time. They may also be speculative in nature, prove ineffective, or entail a substantial risk of loss. It may be difficult to obtain valuations of products to which such strategies and/or techniques are applied. Furthermore, the loss in value regarding such products may be greater than with other investments. Alternative investment vehicles are often unregulated, offer only limited information about their activities, may charge high costs, commissions and fees (including fees charged on the basis of unrealised profits), have no minimum credit standards, pursue short-selling strategies, use external resources to a large degree, and offer securities relating to accounts not managed separately.
- Concentration of assets: the relevant Fund may concentrate its assets on certain countries, industries or investment classes. In this case it can be subject to greater fluctuations in value than if it diversified the risks among lines of business, regions and countries. The value of investments in certain countries, industries and investment classes may be very volatile within brief periods of time.
- Currency and market risks: the relevant Fund may be subject to substantial currency risks. Even a Fund's hedging transactions may not exclude such risks. Funds that invest in lightly regulated, narrow and exotic markets face certain risks. For example, some markets can face government actions resulting in the full or partial loss of the invested asset or attachment of the asset invested there. These markets might also be regulated less reliably than others. Funds might be subject to no supervision or may invest in vehicles that are themselves unsupervised. Conversely, the introduction of supervision over previously unregulated funds can result in substantial disadvantages for them.
- Business risks: a large number of subscription or repurchase orders with the Fund by investors can lead to either an accelerated sale or temporary dilution of assets and higher fees for the remaining investors or "gating" where such orders are only satisfied in part, with others being delayed. The price or value of unit(s) or fund share(s) may be

RISK FACTORS

affected by the performance of the fund service providers, and in particular the investment adviser.

Any one or a combination of the above may have an adverse effect on the value and liquidity of the affected Securities, in which case holders may be unable to sell such Securities or may receive a price which is substantially lower than the value of their original investment.

Funds regularly charge fees (such as management fees) that may lower the redemption proceeds used to determine the redemption, settlement, cancellation and/or interim amounts under Securities linked to Fund Interests. In addition, other fees and expenses can be incurred that are charged by third persons employed by the fund manager to provide services connected to the Fund (such as custodian bank fees, fees for investment advice and auditing). Furthermore, the fund manager, asset manager or investment consultant may charge a performance-related fee. There may also be fees incurred at the level of the assets held by a Fund that lower the value of these assets, and thereby also indirectly lower the net asset value of the Fund itself. Such fees occur especially if the Fund for its part invests in other funds (a fund of funds) or other investment vehicles or instruments entailing fees. These fees may lower the net asset value of the fund, and thereby also indirectly lower the redemption or settlement amounts under the Securities.

Certain conflicts of interest may occur in connection with a Fund's business activities. Such conflicts may result in a Fund performing poorly or below expectations, which may in turn have an adverse effect on the value of the relevant Securities. With a trustee, manager or consultant of the Fund, potential conflicts of interest may arise due to fee refunds or other benefits. In addition, advisers of the Fund and their employees may perform management, trading or consulting services for other accounts. Where investments are lucrative, one of these people might be tempted to initially favour the portfolios yielding the highest fees. Similarly, fund advisors and their employees or senior officials may provide management, trading or consulting services for their own accounts and those of other customers and make recommendations or adopt positions differing from those issued for or maintained by the Fund or competing with those of the Fund. People entrusted with managing the Fund assets might receive performance fees but not participate in possible losses. This can create an incentive to execute riskier transactions. Furthermore, persons connected with an administrator, manager, trustee or other persons involved in the fund's management might enter into their own transactions with the Fund.

No claim against Asset Issuer or recourse to the Underlying Asset or Fund Interest, but risks of the Underlying Asset or Fund Interest are passed on to Securityholders

EMAP Securities do not represent a claim against or an investment in any Underlying Assets or Fund Interest and Securityholders will not have any right of recourse under the EMAP Securities to any such Underlying Asset or Fund Interest or the related Asset Issuer or Fund. The EMAP Securities are not in any way sponsored, endorsed or promoted by any Asset Issuer or Fund and such companies or funds have no obligation to take into account the consequences of their actions for any Securityholders. Accordingly, an Asset Issuer or Fund may take any actions in respect of such Underlying Asset or Fund Interest without regard to the interests of the purchasers of the EMAP Securities, and any of these actions could adversely affect the market value of the EMAP Securities.

At the same time, certain EMAP Securities are structured in such a way that the economic risks and rewards of the Underlying Assets or Fund Interests are passed on to Securityholders. In particular, the amount and timing of payments on the Securities may be reduced or postponed if a hypothetical investor would not receive the full amount of the payment by the scheduled payment date. Determinations made by the Calculation Agent in respect of Potential Adjustment Events, De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency, Additional Disruption Events, ETF Fund Termination Events and Index Adjustment Events may have an adverse effect on the value of the EMAP Securities.

Upon determining that a Potential Adjustment Event, De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency, Additional Disruption Event, ETF Fund Termination Event or Index

Adjustment Event has occurred in relation to an Underlying Asset, an Asset Issuer or an Index, the Calculation Agent has the discretion to make certain determinations to account for such event including, without limitation, to (i) make adjustments to calculation of the relevant Underlying Asset price or amount payable under the EMAP Securities and/or (ii) (in the case of a De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency, Additional Disruption Event, ETF Fund Termination Event and/or Index Adjustment Event) cause early redemption or cancellation of the EMAP Securities, any of which determinations may have an adverse effect on the value of the EMAP Securities and/or result in a Securityholder receiving less than their initial investment (and potentially nothing) at a time other than when payment or delivery in respect of the EMAP Securities was otherwise due.

Potential Adjustment Events include (a) a sub-division, consolidation or re-classification of relevant Underlying Assets (unless resulting in a Merger Event) or a free distribution or dividend of any such Underlying Assets to existing holders by way of bonus, capitalisation or similar issue, (b) a distribution, issue or dividend to existing holders of the relevant Underlying Assets, (c) an extraordinary dividend in respect of the relevant Underlying Assets, (d) a call by an Asset Issuer of relevant Underlying Assets that are not fully paid, (e) a repurchase by an Asset Issuer or any of its subsidiaries of relevant Underlying Assets, (f) in respect of an Asset Issuer, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Asset Issuer, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides, upon the occurrence of certain events, for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights, and (g) any other event having, in the determination of the Calculation Agent, a diluting, concentrative or other effect on the theoretical value of the relevant Underlying Assets.

Additional Disruption Events include if specified as applying in the applicable Issue Terms (a) a change in applicable law on or after the Issue Date that (i) makes it illegal to hold, acquire or dispose of any Underlying Assets or related hedging transaction or (ii) results in a materially increased cost in performing obligations under the EMAP Securities or any underlying or related hedging transaction, (b) an insolvency filing in relation to an Asset Issuer, (c) the failure of a party to any underlying or related hedging transaction to deliver, when due, the relevant Underlying Asset under that transaction, (d) a hedging disruption, (e) a loss by a Hedging Party of the ability to borrow (or maintain the borrowing of) Underlying Assets with respect to a hedging transaction or the increased cost of such borrowing, or (f) the cost of hedging becomes materially increased.

ETF Fund Termination Events include if specified as applying in the applicable Issue Terms, the ETF Securities are reclassified or the index which the relevant ETF Securities track is changed or the relevant fund is acquired by or aggregated with another fund having a different mandate, risk-profile or benchmark, the ETF Securities being redenominated in a different currency, a material change in the mandate, risk-profile or fund documents or financial reports or a material change in the rules and regulations governing the investments of the fund, there is any proposal to wind-up the fund or any substantive litigation in respect of the fund, there is any breach of violation of any strategy or investment guideline set out in the fund documents or financial reports that is reasonably likely to effect the value of the ETF Securities or the rights of holders thereof or there is any cancellation to suspension of the registration or approval of the fund, any change in the legal, tax, accounting or regulatory treatment of the fund that is reasonably likely to have an adverse impact on the value of the ETF Securities or on the holders thereof or any fund administrator becomes subject to any investigation, proceeding or litigation.

Index Adjustment Events include the announcement or making of a material change in the formula for or the method of calculating an Index or other material modification of an Index, a permanent cancellation of an Index and no successor existing or a failure by the sponsor of the Index to calculate and announcement an Index.

RISK FACTORS

Determinations made by the Calculation Agent in respect of Fund Events may have an adverse effect on the value of the EMAP Securities

Upon determining that a Fund Event has occurred in relation to a Fund or a Fund Interest, the Issuer has the discretion (a) to require the Calculation Agent to make certain determinations and/or adjustments to account for such event including, without limitation, (i) to delay any determination until the relevant event no longer exists and/or (ii) to use an estimated or modified value of the relevant Fund Interest and/or (iii) to make adjustments to the conditions of the relevant EMAP Securities (which may include delaying any relevant payments) and/or (iv) in the case of a Fund Potential Adjustment Event, to replace all or part of the affected Fund Interests by such other assets received following such Fund Potential Adjustment Event and/or (v) if "Fund Replacement following Fund Event" is specified as applicable in the applicable Issue Terms, to replace the affected Fund Interest with a similar fund interest and/or (vi) to determine that the value for the relevant Fund Interest shall be the removal value for such Fund Interest which will be fixed on the relevant removal date and will accrue compounded interest from such date or (b)(i) to redeem or cancel all the EMAP Securities by paying an amount determined by the Calculation Agent as representing their fair market value less any costs, taxes and expenses incurred or (ii) to redeem or cancel such portion of all the EMAP Securities which corresponds to the Fund Interests affected by the Fund Event by paying their pro rata share of the available cash proceeds which the Calculation Agent determines could be realised by a hypothetical investor following such determination and in accordance with the timing of the proceeds payable to such hypothetical investor less any costs, taxes and expenses incurred or (c) to postpone any relevant payment date until the earlier of such time (if any) as the Calculation Agent determines the redemption proceeds in respect of all affected Fund Interests would be received in full by a hypothetical investor or the last day of the delay period. Any of such elections may have an adverse effect on the value of the EMAP Securities.

Fund Events include (in each case, as specified in the applicable Pricing Supplement) (i) a change in applicable law, (ii) a hedging disruption, (iii) an increased cost of hedging, (iv) a fund composition event, (v) a failure by a Fund on any day to pay the full amount of any fund redemption proceeds, (vi) a disruption to the scheduled fund publication date, (vii) a nationalisation, (viii) a Fund insolvency, (ix) a net asset value trigger event, (x) the removal of a key adviser, (xi) a modification of the Fund, (xii) the imposition of any fees or charges in relation to redemptions, subscriptions or transfers of Fund Interests, (xiii) a breach of any strategy of the Fund or change in the nature of the Fund, (xiv) the cancellation of any registration or approval of the Fund, any change in the tax or accounting treatment of the Fund or any Fund Adviser, the instigation of any litigation or proceedings in relation to the Fund or any Fund Administrator or Fund Adviser, the Fund or any Fund Adviser or Fund Administrator does not take any relevant action or fulfil any relevant requirement to enter into or perform any obligation or exercise any rights or any activities of the Fund, any Fund Adviser or Fund Administrator become unlawful or illegal as a result of compliance with any applicable law, (xv) the imposition or change of any tax after the Trade Date, (xvi) the failure by the Fund to deliver any relevant information or the determination by the Calculation Agent that any information (including any net asset value) delivered or published by the Fund is unreliable or inaccurate, (xvii) any information provided by the Fund, the Fund Adviser or other service provider is misleading or inaccurate or any information published by the Fund would be likely to cause a hypothetical investor to refrain from investing or to realise any investment in the Fund, (xviii) material limitations or restrictions are imposed on dealings in Fund Interests or there is a material reduction in the assets under management, (xix) Fund Interests are redeemed otherwise than in cash or in a different currency to that originally anticipated, (xx) one or more Fund Service Providers cease to provide relevant services and are not replaced, (xxi) any event occurs which compromises the independence of a Fund Service Provider, (xxii) the Fund or any Fund Adviser or Fund Administrator or other relevant party has terminated an existing agreement with the Fund, (xxiii) the association or continued association by the relevant Issuer with the Fund or any Fund Administrator or Fund Adviser in any capacity, including, without limitation, through Securities linked to the relevant Fund, would be detrimental to the reputation of the relevant Issuer or (xxiv) limits imposed on holdings in the relevant Fund Interests under applicable laws are or are likely to be reached.

Risks relating to EMAP Securities in relation to which Physical Delivery is specified as applicable

Risks relating to Settlement Disruption Events

In the case of physical delivery in respect of Equity Linked Securities or Market Access Product Securities, if a Settlement Disruption Event occurs or exists on the settlement or redemption date, settlement will be postponed until the next date on which no Settlement Disruption Event occurs and a Securityholder shall not be entitled to any payment as a result of such delay. The relevant Issuer in these circumstances also has the right to pay the Disruption Cash Settlement Price in lieu of delivering the Asset Amount. Such a determination may have an adverse effect on the value of the relevant Equity Linked Securities or Market Access Product Securities.

In addition if "Failure to Deliver" is specified as applying in the applicable Issue Terms, and a party to any underlying or related hedging transaction fails to deliver the relevant Underlying Asset under that transaction when due as a result of illiquidity in the market for such Underlying Asset, then the terms of the Securities may be adjusted to account for such Failure to Deliver or the relevant Issuer may redeem or cancel the Equity Linked Securities or Market Access Product Securities at an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select in its discretion instead of delivering the Asset Amount. Any such adjustment or redemption or cancellation may have an adverse effect on the value of such Equity Linked Security or Market Access Product Security and may result in an increased risk of the Securityholders losing all or part of their investment or a delay in the Securityholders receiving payment under the Equity Linked Securities or Market Access Product Securities.

Delivery Expenses/Exercise Expenses may reduce the overall return on Securities

All Delivery Expenses arising from the delivery of any Asset Amount in respect of any Equity Linked Securities or Market Access Product Securities shall be for the account of the relevant Securityholder and no delivery of any Asset Amount shall be made until all Delivery Expenses have been paid to the satisfaction of the relevant Issuer. Such expenses may therefore reduce the overall return on the relevant Securities.

Risks relating to Relevant Asset Substitution

Where Relevant Asset Substitution is specified as applicable in the applicable Pricing Supplement, then the Issuer acting in good faith and a commercially reasonable manner may at any time substitute the assets comprising the Relevant Assets with such other assets as selected by it in accordance with the Relevant Asset Substitution Criteria specified in the applicable Pricing Supplement. Such new assets shall be deemed to be the Relevant Assets in place of the assets that were the Relevant Assets prior to such substitution. The Issuer may make any such substitution on more than one occasion and in respect of all or part of the assets from time to time comprising the Relevant Assets.

Investors should note that the Issuer is not obliged to monitor the satisfaction by any Relevant Assets of the Relevant Asset Substitution Criteria at any time other than the time at which it makes a substitution.

The Relevant Asset Substitution Criteria will be set out in the applicable Pricing Supplement but, unless such criteria identify specific replacement assets, the Issuer will have discretion surrounding what assets from time to time comprise the Relevant Assets and therefore may be delivered to Securityholders.

Unless expressly provided in the Relevant Asset Substitution Criteria, neither the Issuer nor its Affiliates shall at any time be bound or concerned to make any investigation into the creditworthiness of any obligor in respect of any Relevant Assets, the validity of any such obligor's obligations under or in respect of the Relevant Assets, any terms of the Relevant Assets or expected returns or liquidity of the Relevant Assets. Securityholders should therefore

RISK FACTORS

have regard to the Relevant Asset Substitution Criteria and be satisfied that they can take delivery of, and would be satisfied to receive as the Asset Amount due on physical delivery, any assets that would from time to time satisfy the criteria.

Upon settlement of the Asset Amount to Securityholders, the Relevant Assets comprising such Asset Amount may not provide Securityholders with a return greater than that which may have been achieved from the originally designated Relevant Assets and such return may be considerably less or zero.

Risks relating to EMAP Securities in relation to which Variation of Settlement is specified as applicable

Where Variation of Settlement is specified as applicable in the applicable Issue Terms, the Issuer has an option to vary settlement in respect of the Securities and, in lieu of (i) paying the Securityholders the Final Redemption Amount or the Settlement Amount (as applicable), to deliver or procure delivery of the Asset Amount; or (ii) delivering or procuring delivery of the relevant Asset Amount, to pay an amount determined to be equal to the Final Redemption Amount or the Settlement Amount (as applicable) on the Maturity Date to the relevant Securityholders.

In such circumstances, where Physical Delivery then applies, a Securityholder will not receive a cash redemption amount on the Maturity Date as the Securities will be physically settled by delivery of the Relevant Assets comprising the Asset Amount and such assets received by a Securityholder may be worth considerably less than such Securityholder's initial investment in the Securities and it may not be possible to realise cash value from such assets in a timely manner or at all. Securityholders should also consider the risks set out herein relating to physical delivery.

In such circumstances, where Cash Settlement then applies, a Securityholder will not receive any Relevant Assets as the Securities will only be cash settled and the Final Redemption Amount or the Settlement Amount (as applicable) received by a Securityholder may be significantly less than such Securityholder's initial investment in the Securities. Furthermore, a Securityholder would not benefit from any increase in the price of the Relevant Assets that would have otherwise been deliverable if the Securities had been settled by physical delivery. Securityholders should also consider the risks set out herein relating to cash settlement. Prospective investors who consider purchasing any Securities should reach an investment decision only after carefully considering the suitability of such Securities in light of their particular circumstances.

Risks relating to SCEEN Securities

SCEEN Notes, SCEEN Certificates, Reverse SCEEN Notes And Reverse SCEEN Certificates ("SCEEN Securities") are investments that give the relevant Securityholder the right to redeem the Securities for a cash equivalent of a specified number of a specified Underlying Asset per Security at any time prior to maturity by giving prior notice to the relevant Issuer. At maturity, the Final Redemption Amount per Calculation Amount of the Security (if held to maturity) will be equal to 100 per cent. of the Calculation Amount of such Security and will be cash settled. If the Securities are redeemed at the option of a Securityholder prior to maturity, the Optional Redemption Amount per Calculation Amount of a Note or the Early Redemption Amount per Calculation Amount of a Certificate will be linked to the closing price of the Underlying Assets on the specified valuation date and the effect of any foreign exchange provisions. In such circumstances, a Securityholder may not recover its initial investment in the Securities.

An investor in SCEEN Securities will benefit from an increase in the price of the Underlying Asset whereas in the case of Reverse SCEEN Security, Securityholders will benefit from a decline in the value of the Underlying Asset, depending on the conversion value.

EMAP Securities may be linked to a dynamic basket of Underlying Assets the components of which will affect the return on the Securities

EMAP Securities may be linked to a static or dynamic basket of Underlying Assets. Where the basket is a dynamic basket, the constituents of the basket and/or their weighting in it may change during the term of the Securities following the relevant rules-based parameters as set out in the applicable Pricing Supplement.

As set out in the applicable Pricing Supplement, either the Issuer (or its Affiliates) or the Securityholders, or an entity acting on their behalf or instruction, may implement the strategy and make elections from time to time.

Where the Issuer (or its Affiliates) or an entity acting on their behalf or instruction manages the basket of Underlying Assets, Securityholders should be aware that the basket from time to time may contain, and they should be willing to accept the Securities being linked to, any Underlying Assets that could from time to time be eligible for inclusion in the basket as specified in, or determined in accordance with the criteria for selection described in, the applicable Pricing Supplement. Recompositions of the Underlying Assets may not be made in the manner or at the time most advantageous to Securityholders.

Where the Securityholder(s) or an entity acting on its behalf or instruction manages the basket of Underlying Assets, an individual Securityholder should be aware that its ability to determine the basket constituents from time to time may be subject to various limitations and affected by factors such as: (i) the day or dates when elections to rebalance or vary constituents may be made; (ii) the assets eligible for inclusion in the basket from time to time; (iii) the right of the Issuer to 'veto' or refuse a request; (iv) concentration limits; and (v) the requirement for a request to be made by Securityholders in respect of the entire Series of Securities only. Accordingly, a Securityholder should be aware that their ability to control the basket constituents may be materially restricted from time to time.

Investors should read and ensure that they understand the rules relating to the basket and the terms of the Securities to ascertain how the basket constituents may from time to time vary and other provisions relating to the basket which may affect the return on their Securities (such as to whether any dividends or distributions on the Underlying Assets will be disregarded, leverage factors apply or fees are deducted from the basket level). In all cases, investors should ensure that the rules and strategy of the basket meet their investment objectives.

Any of the above factors may have an adverse effect on the value of the Securities.

EMAP Securities linked to Relevant Account(s) have certain particular risks

EMAP Securities may be linked to Relevant Account(s). Any such accounts may be held with Standard Chartered Bank (or its Affiliates) or a third party entity as custodian. The level or value of the account(s) from time to time, and therefore the return on the Securities, will depend on the constituent assets of the relevant account(s). The constituent assets may include assets such as transferable securities and derivatives and the exact composition of them may vary during the term of the Securities at the direction of a manager or account holder.

Limited information is likely to be available to potential investors in respect of the performance of any manager(s) of the accounts, the accounts themselves including rules and strategies relating to them and the constituent assets from time to time included in such accounts. Furthermore, such accounts are not expected to have publicly available published levels or other historic or current performance information (including in relation to the track record of the manager of them). Constituent assets of the accounts may also be illiquid and difficult to value. Accordingly, Securities linked to Relevant Account(s) may be difficult to value and the merits of an investment in them may therefore also be difficult to assess. The Issuer and its Affiliates do not endorse or recommend the relevant manager(s) or the strategies of any account and investors should make their own decisions as to the merits of an investment linked to the Relevant Account(s).

RISK FACTORS

Management of the accounts and their constituents may permit considerable discretions of the account manager or account holder and such persons may also change during the term of the Securities. The determinations and elections they from time to time make in respect of the accounts may, whilst satisfying the account rules and requirements, not generate the highest possible return on the account and consequently the Securities. Further conflicts of interest may arise where the relevant Issuer and its Affiliates also perform an account management, custodian or other role in respect of a Relevant Account. The account manager or account holder will take actions without regard to the interests or investment of Securityholders and Securityholders will not be able to direct or influence those actions or the exercise of such discretions. Any such actions or exercise of discretions may adversely affect the value of the Securities.

The constituent assets of an account may be concentrated, or consist only of, a particular type of asset, sector, geographic region or country, currency, counterparty or obligor, or otherwise. In such circumstances, exposure to the risks relating to the relevant assets is increased and the performance of the Relevant Account and the Securities may be more volatile than if the assets were more diversified.

Depending on the terms of the account and the Securities, Securityholders may be subject also to the credit risk of the custodian and entity with which the account is held (which may be the Issuer and, if so and in certain insolvency or similar circumstances, valuation of the account and realisation of any value on the Securities may be delayed and the return on the Securities may be zero). Investors will not, however, have any claim against or investment in the account itself or the constituents thereof.

The provisions in relation to how a Relevant Account is valued for the purpose of the Securities, and any applicable provisions to address disruptions to valuations, adjustment or other extraordinary events will be set out in the applicable Pricing Supplement. Such provisions may result in amendments being made to the terms and conditions of the Securities and could have an adverse effect on the value of the Securities and/or result in payments being made in respect of them at a different time to that which was originally scheduled. Accordingly, potential investors should ensure that they read and understand those provisions prior to investing in the Securities.

Additional risk factors in respect of such Securities may be specified in the applicable Pricing Supplement.

9.22 Risks relating to Market Access Product Securities

Risks associated with Underlying Assets are passed on to Securityholders

The attention of prospective purchasers of Market Access Product Securities is drawn to the fact that Market Access Product Securities are structured in such a way that the economic risks and rewards of the Underlying Assets are passed on to Securityholders. The relevant Issuer's obligations in respect of such Market Access Product Securities may be hedged by means of the Underlying Assets and/or any instrument used for the purposes of hedging obligations under the Market Access Product Securities being held by a qualified investor which is an affiliate of the relevant Issuer. Whilst the Securityholder will have no proprietary interest in such Underlying Assets and/or any instrument used for the purposes of hedging obligations under the Market Access Product Securities, the risks associated with such Underlying Assets and/or instrument may be passed on to the Securityholders including, without limitation, the following:

- (i) the risks in converting the currency in which the Underlying Assets and/or any instrument used for the purposes of hedging obligations under the Market Access Product Securities are denominated into the Specified Currency (including difficulties in determining the appropriate exchange rate). Such conversion may not be possible, legal or practical at the relevant time or it may only be possible for conversion to take place at a rate that is unfavourable to Securityholders;

- (ii) the risks in transferring the currency in which the Underlying Assets and/or any instrument used for the purposes of hedging obligations under the Market Access Product Securities are denominated or the Specified Currency out of the jurisdiction in which such Underlying Assets and/or instruments are traded. Such transfer may not be possible, legal or practical at the relevant time or it may only be possible to transfer at a rate which is unfavourable to Securityholders;
- (iii) the risks of legal or regulatory factors resulting in it becoming impracticable, illegal or impossible for the relevant Issuer and/or any of its affiliates or any qualified investor to deal in any relevant hedging arrangements in connection with the Market Access Product Securities or materially increasing the costs of hedging; and
- (iv) the risk of any other event beyond the control of the relevant Issuer resulting in it being impracticable, illegal or impossible for the relevant Issuer to perform its obligations under the Market Access Product Securities or to hedge effectively its obligations under the Market Access Product Securities or materially increasing the cost of so doing.

As a result, amongst other things, the laws, rules and regulations of the jurisdiction(s) that govern the Underlying Assets, the holder of the Underlying Assets and/or any hedging instruments and the foreign exchange situation relating to such jurisdiction(s) and that of the Specified Currency may affect the value of and may result in the termination of such Market Access Product Securities or a suspension of the relevant Issuer's obligations under the Market Access Product Securities and could result in Securityholders losing their entire investment.

Investors are exposed to risks arising out of payments elected by the Issuer to be made in the Local Currency in the Relevant Jurisdiction

In certain circumstances following a Force Majeure Event the relevant Issuer may elect in its discretion to pay the applicable amount(s) to the Securityholders in the Local Currency in the Relevant Jurisdiction. The payment to the Securityholders in the Relevant Jurisdiction may require them to establish, at their own expense, an account at a bank in the Relevant Jurisdiction to receive that payment. If a Force Majeure Event results in the Securityholders' acceptance of a payment in Local Currency, the Securityholder may be unable to convert that payment into the Specified Currency and/or to remit such Specified Currency abroad. In addition, the Securityholder may be subject to other fees, expenses or taxes in connection with the receipt of funds within the Relevant Jurisdiction or the repatriation of funds from the Relevant Jurisdiction. If it is impracticable or unlawful for the relevant Issuer to pay the Securityholder in the Relevant Jurisdiction or the Securityholder does not establish an account in a bank in the Relevant Jurisdiction to receive payment in the Relevant Jurisdiction in the currency the relevant Issuer elects, the relevant Issuer shall not be obliged to make payment to the Securityholder of any such amounts. Depending upon the Underlying Assets in respect of the relevant Market Access Product Securities, it is possible that the jurisdiction(s) involved will mean that such risks may be exceedingly high at the relevant times. Such jurisdictions may include the Republic of Korea, the Republic of China (i.e. Taiwan), Republic of India, Malaysia, Kingdom of Thailand and the People's Republic of China.

Risks relating to Dividends paid prior to Dividend Start Date

Where the applicable Issue Terms specifies that Interim Amounts are applicable, then where a cash dividend is paid in respect of an Underlying Asset, the ex-dividend date in respect of which falls from and including the Dividend Start Date to and including the earlier of (i) the Valuation Date or Actual Exercise Date (as applicable) and (ii) the Early Redemption Date or Expiration Date (as applicable), holders are entitled to receive an amount in the Specified Currency equal to such cash dividend, less certain costs, commissions and fees and net of any withholding taxes on the relevant Interim Payment Date. Investors should note that where the Dividend Start Date is a date falling after the Issue Date, they will not be entitled to receive any cash dividends paid in respect of an ex-dividend date falling prior to the Dividend Start Date but after the Issue Date and, accordingly, potential investors should note that not all potential economic rewards of directly holding the Underlying Asset will be passed on to Securityholders in such circumstances.

RISK FACTORS

Exchange Rate

If the applicable Issue Terms indicate, the relevant Issuer may apply the exchange rate actually obtained by it or its affiliates to convert the Local Currency into the Specified Currency instead of using the market exchange rate published on a relevant screen page at the relevant time on the relevant date to determine amounts payable in respect of the Market Access Product Securities. The use of the actual exchange rate obtained by the relevant Issuer or its affiliate may have an adverse impact on the value of any such amounts.

Reference Price

If the applicable Issue Terms indicate, the relevant Issuer may apply the execution price actually obtained by it or its affiliates on selling the Underlying Assets at the relevant time on the relevant date instead of using the market volume weighted average price of the Underlying Assets at the relevant time on the relevant date to determine the Reference Price in respect of Market Access Product Securities. The use of the actual execution price obtained by the relevant Issuer or its affiliate may have an adverse impact on the value of any amounts received by the Securityholders.

Illiquidity of the Market Access Product Securities

No assurance is given as to the availability of a secondary market in the Market Access Product Securities or the Underlying Assets. The relevant Issuer may purchase the Market Access Product Securities in the secondary trading market but is under no obligation to do so and the price at which it may do so will depend upon, among other things, the liquidity and prevailing market price of any relevant Underlying Assets, the level of any relevant Indices, the currency of denomination and the risks referred to herein. If a secondary market does develop, there can be no assurance that the holders of Market Access Product Securities will be provided with liquidity of investment or that it will continue throughout the life of the Market Access Product Securities.

Taxes

Each Securityholder will assume and be solely responsible for all taxes, duties and/or expenses arising in connection with any payment of a Settlement Amount or Final Redemption Amount. In addition, the relevant Issuer shall have the right to withhold or deduct from any amount payable to Securityholders such amount as shall be necessary to account for any tax, duty, charge, withholding or other payment in respect of any hedging transactions in respect of any Market Access Product Securities. Such payment obligations and deductions may reduce the overall return on the Securities.

The relevant Issuer will not pay any additional amounts to Securityholders to reimburse them for any tax, assessment or charge required to be withheld or deducted from payments in respect of the Market Access Product Securities by the relevant Issuer.

Political Risks

Political conditions in certain geographical locations where issuers of the Underlying Assets or the sponsors of the Indices may operate may be volatile or unstable. Political instability, including as a result of armed conflict or of acts of terrorism, could have an adverse effect on issuers of the Underlying Assets' operations, on sponsors of the Indices' operations, on the market value of Underlying Assets, the level of the Indices and, as a result, on the value of the Market Access Product Securities.

10. LEGAL AND REGULATORY RISKS

10.1 *Change of law*

The conditions of the Securities are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.

As described more fully under "*Risks relating to the Group and its Business Operations*" above, the relevant Issuer and its Affiliates are subject to regulatory capital requirements in respect of their activities and Securities may be subject to "bail-in" under certain financial institution resolution regimes. The cost to the relevant Issuer and its Affiliates of the Securities being outstanding may be significantly affected by changes in such requirements or regimes. The terms of the Securities and, in particular, any Increased Cost of Hedging provisions may allow the relevant Issuer to pass on to Securityholders any increase or adjustment to or imposition of a regulatory capital charge or cost for the relevant Issuer or any of its Affiliates in connection with the Securities or a change in the regulatory capital status of the Securities or the status of the Securities in any "bail-in" or financial institutions resolution regime. This may have an adverse effect on the return to Securityholders under the Securities. It may also allow the relevant Issuer to terminate the Securities early.

10.2 *Risks related to US Regulatory Reform*

Implementation of US federal financial reform legislation may adversely affect the value of Reference Items, which may ultimately adversely affect the value, trading price and viability of Securities. For example, the Financial Reform Act (i) imposes limits on the maximum position that could be held by a single trader in certain of the Reference Items and may subject certain transactions to new forms of regulation that could create barriers to some types of hedging activity by an Issuer or any of its affiliates; (ii) requires certain Reference Items or hedging transactions to be cleared, traded on a regulated exchange and reported to regulators, central data repositories and, in some cases, the public; and (iii) expands entity registration requirements and imposes business conduct requirements on persons active in the swaps market (including capital and margin requirements), which may affect the value of Reference Items or value and/or cost of hedging transactions. In turn this may affect the value, trading price and viability of Securities, which could reduce the price at which investors are able to sell such Securities. The Financial Reform Act and future rulemaking thereunder could potentially limit or completely restrict the ability of an Issuer to hedge its exposure on Securities, increase the costs of hedging or make hedging strategies less effective, which in turn may have an adverse effect on the value of the Securities and/or result in costs being passed on to Securityholders.

10.3 *The regulation and reform of "benchmarks" may adversely affect the value of Securities linked to or referencing such "benchmarks"*

The London Inter-Bank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**"), the Hong Kong Interbank Offered Rate ("**HIBOR**") and other interest rate, equity, commodity, foreign exchange and other types of indices which are deemed to be "benchmarks", are the subject of national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented.

These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to or referencing such a "benchmark".

Regulation (EU) 2016/1011 (the "**Benchmarks Regulation**") applies, subject for some benchmarks to certain transitional provisions until the end of 2021. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the European Union (which, for these purposes, includes the United Kingdom). Among other things, it (i) requires benchmark administrators to be

RISK FACTORS

authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as SCB) of "benchmarks" provided by administrators that are not authorised or registered (or, if non-EU based, deemed equivalent or recognised or endorsed).

The Benchmarks Regulation could have a material impact on any Securities linked to or referencing a "benchmark", in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs for users of benchmarks such as the Issuers of complying with any such regulations or requirements.

In addition to the expected cessation of LIBOR from the end of 2021, separate workstreams are also underway in Europe to reform EURIBOR using a hybrid methodology and to provide a fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). The working group on euro risk-free rates has recommended Euro Short-term Rate ("€STR") as the new risk free rate and this has been available since October 2019. In addition, the euro risk free-rate working group has published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds). The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts may increase the risk to the euro area financial system.

It is not possible to predict with certainty whether, and to what extent, LIBOR and EURIBOR will continue to be supported going forwards. This may cause LIBOR and EURIBOR to perform differently than they have done in the past, and may have other consequences which cannot be predicted. Such factors may have (without limitation) the following effects on certain "benchmarks": (i) discouraging market participants from continuing to administer or contribute to a "benchmark"; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Securities linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

While Floating Rate Notes may be issued referring to SONIA for GBP, SOFR for USD and €STR for Euro (each a so called risk free rate or RFR), each of these RFRs is "backward-looking", meaning that interest payments are calculated shortly before the relevant Interest Payment Date. Therefore, investors will have significantly less notice of the amounts due to be paid for an Interest Period where the relevant interest rate is determined by reference to a RFR. Forward looking RFRs are not generally available as of the date of this Base Prospectus and there is no certainty that a forward looking RFR will be available in respect of any currency or any particular product in the future.

In addition, whilst IBORs are rates that embed bank credit risk, the RFRs identified as of the date of this Base Prospectus are overnight rates and are intended to be nearly risk-free. As such, investors should be aware that LIBOR, EURIBOR, SONIA, SOFR and €STR may behave materially differently as interest reference rates for Notes issued under the Programme. There is also far less historical data available for RFRs than for IBORs and consequently it may be more difficult to understand the possible ways in which a RFR could develop as compared to an IBOR.

In addition, the occurrence of an Administrator/Benchmark Event may cause early redemption or adjustment of the Securities which may include selecting one or more successor benchmarks and making related adjustments to the Securities, including if applicable to reflect increased costs or any adjustment posts. An Administrator/Benchmark Event may arise if any of the following circumstances occurs or may occur: (1) a benchmark is materially changed or

cancelled, (2)(i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn or (3) it is not commercially reasonable to continue use of the benchmark due to licensing restrictions or increased licence costs or (4) a relevant supervisor officially announces the benchmark is no longer representative of any relevant underlying market(s).

The provisions relating to cessation, modification etc. of benchmarks in the terms and conditions of the Securities (including the Administrator/Benchmark Event) are based on provisions of the type the Issuers anticipate it may have under its hedging arrangements and such provisions may not follow comparable provisions in the vanilla debt markets.

A replacement rate for an -IBOR relevant interest rate (i.e. LIBOR or EURIBOR) following an Administrator/Benchmark Event or under the relevant floating rate adjustment provisions does not have to be but may be the RFR identified as the replacement rate for the relevant currency (e.g. SONIA for GBP, SOFR for USD and €STR for Euro). The absence of bank credit risk in the RFRs may have an adverse effect on the value of the Notes. As noted above, the shorter history of RFRs may also be more difficult to understand the possible ways in which a RFR could develop.

The possible adjustment costs to be applied to the Notes on a replacement of an -IBOR may be intended to reduce any transfer of economic value because of the absence of a bank credit risk premium in any replacement RFR. However, if such replacement adjustment is negative, it will mean a lower rate of interest is payable. Even where such replacement adjustment is positive, there can be no assurance that any replacement adjustment will fully mitigate the transfer of economic value between the Issuer and Noteholders and any replacement adjustments are not intended, or able, to replicate the dynamic bank credit risk premium embedded in an IBOR.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by Benchmarks Regulation or any of the international or national reforms in making any investment decision with respect to any Securities linked to or referencing a "benchmark".

10.4 *Future discontinuance of an -IBOR may adversely affect the value of Securities which reference such benchmark*

Investors should be aware that, if an -IBOR were discontinued or otherwise unavailable, amounts payable on the Securities which reference such -IBOR will be determined for the relevant period by the fall-back provisions applicable to such Securities which may (depending on market circumstances at the relevant time) not operate as intended. Depending on the manner in which the relevant -IBOR rate is to be determined under the Conditions, this may in certain circumstances (i) be reliant upon the provision by reference banks of offered quotations for the -IBOR rate which, depending on market circumstances, may not be available at the relevant time or (ii) be determined by the Calculation Agent having regard to comparable rates, any adjustments made to related hedging arrangements, relevant information, industry developments and market approaches. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any of the Securities.

10.5 *Foreign Account Tax Compliance Act (FATCA) withholding may affect payments on the Securities*

Whilst the Securities issued by a branch or office outside the United States ("**Non-U.S. Securities**") are held within Euroclear or Clearstream, Luxembourg (together, the "**ICSDs**"), in all but the most remote circumstances, it is not expected that the new reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") will affect the amount of any payment received by the ICSDs (see

RISK FACTORS

"Foreign Account Tax Compliance Act" under "*Taxation of Securities*"). However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. Each Issuer's obligations under the Non-U.S. Securities are discharged once it has made payment to, or to the order of, the common depositary for the ICSDs (as bearer or registered holder of the Non-U.S. Securities) and such Issuer has therefore no responsibility for any amount thereafter transmitted through the ICSDs and custodians or intermediaries. Further, foreign financial institutions in a jurisdiction which has entered into an intergovernmental agreement with the United States (an "**IGA**") are generally not expected to be required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments they make.

Payments on Securities issued by SCB's New York branch may be subject to withholding under FATCA if the holder, beneficial owner or an intermediary in the chain of payments is not FATCA compliant.

10.6 *Hiring Incentives to Restore Employment Act withholding may affect payments on the Securities*

The U.S. Hiring Incentives to Restore Employment Act imposes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. If an Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section "*Hiring Incentives to Restore Employment Act*" under "*Taxation of Securities*".

10.7 *Taxation and no gross up of payments by the Issuers*

The Issuers shall not be liable for, or otherwise be obliged to pay, and the relevant Securityholder shall pay any tax, duty, charge, withholding or other payment which may arise as a result of or in connection with the ownership, transfer, exercise, or enforcement of any Security (including, without limitation, the payment of any Settlement Amount or Final Redemption Amount) by any person and all payments made by the relevant Issuer in respect of any Securities shall be made subject to any such tax, duty, charge, withholding or other payment which may be required to be made, paid, withheld or deducted.

The relevant Issuer is not obliged to gross up or otherwise increase any payment made in respect of any Securities where such payment is subject to any tax, duty, charge, withholding or other payment. Therefore, should any such tax, duty, charge, withholding or other payment be or become applicable to any such payment by the relevant Issuer in respect of any Securities, then the actual amount received by the Securityholder may be less than it would have been in the absence of such tax, duty, charge, withholding or other payment and the Securityholder may not be able to recover any amount or credit in respect of such tax, duty, charge, withholding or other payment.

INVESTMENT CONSIDERATIONS AND ADDITIONAL RISKS RELATING ONLY TO EXEMPT SECURITIES

INVESTMENT CONSIDERATIONS

Prospective investors should refer to the information contained in this section to inform any decision to invest in the Securities.

Terms and expressions defined in the General Terms and Conditions of the Warrants, the General Terms and Conditions of the Notes or the General Terms and Conditions of the Certificates, together, the "Programme General Terms and Conditions", the Equity and Market Access Product Terms, the Credit Terms (2003 ISDA Credit Derivatives Definitions Version) or the Credit Terms (2014 ISDA Credit Derivatives Definitions Version), the Currency Terms, the Commodity Terms, the Index Terms shall, save where the context otherwise requires, have the same meaning when used in this section.

Considerations Relating to the Securities Generally

The Securities may not be a suitable investment for all investors

Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement to the Base Prospectus;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Securities and the impact the Securities will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities, including where the Specified Currency is different from the currency in which such investor's principal financial activities are principally denominated;
- (iv) understand thoroughly the terms of the Securities and be familiar with the behaviour of any relevant securities, assets, indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Securities are complex financial instruments. Investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Securities unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor's overall investment portfolio.

Suitability of investment

This Base Prospectus identifies in a general way some of the information that a prospective investor should consider prior to making an investment in any Securities. However, this Base Prospectus does not purport to provide all of the information or the comprehensive analysis necessary to evaluate the economic and other consequences of investing in Securities. Therefore, a prospective investor should conduct its own thorough analysis (including its own financial, accounting, legal and tax analysis) prior to deciding whether to invest in Securities. Any evaluation of whether an investment in Securities is suitable depends upon a prospective investor's particular financial and other circumstances, as well as

INVESTMENT CONSIDERATIONS AND ADDITIONAL RISKS RELATING ONLY TO EXEMPT SECURITIES

on the specific terms of any Securities. This Base Prospectus is not, and does not purport to be, investment advice. A prospective investor should make an investment in any Securities only after it has determined that such investment is suitable for its financial investment objectives. Determining whether an investment in the Securities is suitable is a prospective investor's responsibility. If a prospective investor does not have experience in financial, legal, business and investment matters sufficient to permit it to make such a determination, the prospective investor should consult with its financial, tax, legal and/or accounting advisers prior to deciding to make an investment in any Securities.

Modifications

The General Terms and Conditions of the Securities provide that the relevant Issuer may modify any of the conditions of the Securities and the Warrants and Certificates Agency Agreement or the Notes Agency Agreement, as applicable, without the consent of the holders provided that such modification (i) does not adversely affect the interest of holders in any material respect or (ii) is of a formal, minor or technical nature or (iii) is to correct a manifest or proven error or to cure, correct or supplement any defective provision or to comply with mandatory provisions of law.

The role of the Calculation Agent

The relevant Issuer and/or the Calculation Agent and/or any delegate makes no express or implied representations or warranties as to (i) the advisability of investing in or obtaining exposure to the Securities, (ii) the value of the Securities at any particular time on any particular date, or (iii) any amounts that may become payable or deliverable in respect of the Securities.

Without limiting any of the foregoing, in no event shall the Calculation Agent and/or such other persons have any liability (whether in negligence or otherwise) to any Securityholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

The Calculation Agent and/or such other persons shall not have any responsibility to any holder for any errors or omissions in any calculations or determinations in respect of the Securities and acts solely as an agent of the Issuer and does not assume any obligations towards or relationship of agency or trust for or with any holder.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Securities are legal investments for it, (2) Securities can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Securities. In addition, certain jurisdictions may impose restrictions on investments in Securities but there is no guarantee that any issue of Securities will satisfy any relevant investment criteria or would be considered by the relevant regulator as qualifying for any particular investment purpose. Investors should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Securities under any applicable risk-based capital or similar rules.

Regulatory initiatives may restrict certain investments and have an adverse impact on the regulatory treatment of the Securities

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the derivatives and structured securities industries. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may restrict investment in certain Securities, have an adverse impact on the regulatory position for certain investors and/or on the incentives for certain investors to hold Securities and may thereby also affect the liquidity of such Securities in the secondary market. Investors in the Securities are responsible for analysing their own regulatory position and none of the Issuers or any Manager makes any representation to any prospective investor or purchaser of the Securities regarding the regulatory treatment of their investment at the time of such investment or at any time in the future. Prospective investors should

therefore make themselves aware of the changes and requirements applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in Securities

Tax considerations relating to the Securities

The treatment of Securities for tax purposes may be unclear due to the absence of any authority specifically addressing the issues presented by any particular Security. Accordingly, a Securityholder, or its tax adviser, should, in general, be capable of independently evaluating the tax consequences of purchasing a Security applicable in its particular circumstances.

Considerations relating to Reference Item Linked Securities

Amounts payable under the Reference Item Linked Securities

In contrast to a direct investment in the relevant Reference Item(s), Reference Item Linked Securities represent the right to receive payment or delivery, as the case may be, of the Settlement Amount, Final Redemption Amount or the Asset Amount, as the case may be, as well as interim payments (if specified in the applicable Issue Terms in respect of the Securities), all or some of which and the value of which may be determined by reference to the price, value or performance of the relevant Reference Item(s).

No assurance of further issues

Each Issuer may issue several issues of Securities relating to a particular Reference Item. However, no assurance can be given that either Issuer will issue any such Securities other than the Securities to which particular Issue Terms relate. At any given time, the amount or number of Securities outstanding may be substantial. Securities provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the relevant Reference Item(s). Investors should refer to the "Risk Factors" for the key risks.

Considerations Relating to Credit Linked Securities

General considerations

The premium or the interest on and/or the redemption amount of a Series of Credit Linked Securities may, if so specified herein, in a supplement to this Base Prospectus and/or in the Issue Terms, be determined by reference to the creditworthiness of, or the performance of obligations by, or some other factor relating to, another entity or entities not affiliated with the relevant Issuer (each such entity, a "Reference Entity").

The Issuers may issue Credit Linked Securities where the amount payable is dependent upon whether certain events ("Credit Events") have occurred in respect of one or more Reference Entity/Entities. If a Credit Event has occurred and relevant procedures are followed, the amount payable is dependent on the value of certain specified assets of such Reference Entity/Entities or may be replaced by the relevant Issuer's obligation to deliver certain specified assets.

The relevant Issuer's obligations in respect of Credit Linked Securities are irrespective of the existence or amount of the relevant Issuer's and/or any Affiliates' credit exposure to a Reference Entity and the relevant Issuer and/or any Affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

The role of the Credit Derivatives Determination Committee

Where (a) the Credit Terms (2003 ISDA Credit Derivatives Definitions Version) applies and the July 2009 Supplement is specified as being applicable in the applicable Issue Terms, or (b) the Credit Terms (2014 ISDA Credit Derivatives Definitions Version) applies, prospective purchasers should note that the Credit Derivatives Determination Committee has the power to make binding decisions on critical issues, such as whether a Credit Event has occurred and, where Auction Settlement is specified as being applicable, which obligations are to be valued and whether an Auction should take place in accordance with and as more fully described in the Credit Derivatives Determinations Committees Rules issued in

connection with the 2003 ISDA Credit Derivatives Definitions (as amended in 2009) (the "**2003 ISDA Definitions**") and the 2014 ISDA Credit Derivatives Definitions (published on 21 February, 2014) (the "**2014 ISDA Definitions**"), as amended from time to time and available on ISDA's website at www.isda.org (or any successor website thereto). Consequently, where Auction Settlement is specified as being applicable in the applicable Issue Terms, or is elected to apply by the Calculation Agent as provided above, payments or deliveries under the Securities may be affected by any such relevant decisions.

Differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions

Investors should be aware that the 2014 ISDA Definitions have:

- (a) introduced a new Credit Event of "Governmental Intervention", which is intended to capture "bail-in" procedures to which financial institutions may be subject;
- (b) made certain amendments to the Restructuring Credit Event to provide for the possibility of a Euro exit;
- (c) reduced the number of "maturity buckets" applicable in circumstances where Mod Mod R is applicable and deleted the concept of the "Enabling Obligation" which was previously applicable to both Mod R and Mod Mod R;
- (d) introduced the concept of Asset Package Delivery in respect of certain Financial Reference Entities and Sovereigns. This provides that if Deliverable Obligations are exchanged into non-Deliverable assets or written-down in part or in full, in certain circumstances, the credit protection buyer will be able to deliver the resultant package of Assets or the written-down Deliverable Obligation to realise its protection;
- (e) split credit protection between senior and subordinated coverage in respect of a Governmental Intervention and Restructuring Credit Event for Financial Reference Entities, i.e. a Senior Transaction will only be triggered by a Restructuring or Governmental Intervention of Senior Obligations and a Subordinated Transaction will not be capable of being triggered by a Restructuring or Governmental Intervention of an obligation which is Subordinated to the Subordinated Reference Obligation;
- (f) made a number of changes to the provisions for determining a Successor to a Reference Entity, particularly with respect to Financial and Sovereign Reference Entities;
- (g) provided for a new election of "Standard Reference Obligation" which, if chosen, will mean that the Reference Obligation will be the obligation of the relevant seniority level published in respect of the relevant Reference Entity on a List maintained by ISDA. A transaction on the terms of the 2014 ISDA Definitions may elect not to apply that election such that the Reference Obligation would remain as chosen by the parties, although, if this is the case, the procedure for selecting a Substitute Reference Obligation has also changed significantly in the 2014 ISDA Definitions;
- (h) replaced the Not Contingent Deliverable Obligation Characteristic with the concept of Outstanding Principal Balance. In order for an obligation (including the Reference Obligation) to constitute a Deliverable Obligation, it must have an Outstanding Principal Balance greater than zero;
- (i) amended the definition of "Qualifying Guarantee" to expand the universe of guarantees that can constitute Qualifying Guarantees (with a particular emphasis on including, to some extent, guarantees with caps or transfer provisions); and
- (j) introduced a large number of technical and other changes.

The key risks relating to these changes are described in the Risk Factors section of this Base Prospectus. Some changes may be disadvantageous to Securityholders and prospective investors

should review carefully the terms of any issue of Securities and, where in any doubt, take advice from suitably qualified professional advisers.

Public Disclosure of Information by Reference Entities

The Issue Terms will not provide detailed information with respect to any Reference Entity, any financial or other risks relating to the business or operations of any Reference Entity in general, or the debt obligations of each Reference Entity in particular. Neither the relevant Issuer nor any of its affiliates assume any responsibility for the adequacy or accuracy of any information about any Reference Entity that is contained in any of such Reference Entity's publicly available filings. Investors in the Credit Linked Securities should make their own investigation and investment decision with regard to each Reference Entity.

Neither the relevant Issuer nor the Calculation Agent will participate in the preparation of any public filings or other documentation of any Reference Entity or make any due diligence inquiry with respect to any Reference Entity. Neither the relevant Issuer nor the Calculation Agent makes any representation that such publicly available information regarding any Reference Entity is accurate or complete. Furthermore, none of the Issuers, the Calculation Agent and any of their respective affiliates can give any assurance that all events occurring prior to the date of the applicable Issue Terms (including events that would affect the accuracy or completeness of the publicly available documents described above) that would affect the creditworthiness of the Reference Entity (including the creditworthiness of the Reference Entity at the time the Credit Linked Securities are priced), or the trading price of the Credit Linked Securities, have been publicly disclosed.

Considerations Relating to Certificates

Certificates subject to optional redemption by the relevant Issuer

An optional redemption feature of Certificates is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Certificates, the market value of those Certificates generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Certificates in circumstances when it would be favourable to the relevant Issuer and may not be favourable to investors. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective rate of return as high as that on the Certificates being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Prospective investors who consider purchasing any Certificates should reach an investment decision only after carefully considering the suitability of such Certificates in light of their particular circumstances.

Considerations relating to investments in Market Access Product Securities

Market Access Product Securities are complex and may not be suitable for all investors

Prospective purchasers of Market Access Product Securities should be experienced with respect to such transactions, should understand the risks of transactions involving the relevant Market Access Product Securities and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Market Access Product Securities in light of their particular financial circumstances and investment objectives, the information set forth herein and the information regarding the relevant Market Access Product Securities and the particular equity securities, exchange traded fund security, depositary receipt (and related underlying share or other security), index or relevant account to which the value of the relevant Market Access Product Securities may relate, as specified in the applicable Issue Terms.

RISKS RELATING ONLY TO EXEMPT SECURITIES

Investors in Exempt Securities should refer to the risk factors set out in the "Risk Factors" section above, to the extent applicable, and should also consider the additional risk factors relating only to Exempt Securities below.

ADDITIONAL RISKS RELATING TO CURRENCY LINKED SECURITIES

All potential investors in any Currency Linked Securities should review this section and also each other section of these Risk Factors relevant to its investment decision.

Factors affecting the performance of the relevant currency exchange rate may adversely affect the value of the Currency Linked Securities

The foreign exchange rate(s) to which the Currency Linked Securities are linked will affect the nature and value of the investment return on the Currency Linked Securities. The performance of foreign exchange rates are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility, transferability and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls (including capital and currency controls) or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability and/or liquidity of a specified currency.

Affiliates of the Issuers are major foreign exchange dealers and are subject to conflicts of interest

Potential investors should note that affiliates of the Issuers are regular participants in the foreign exchange markets and in the ordinary course of their business may effect transactions for their own account or for the account of their customers and hold long and short positions in currencies and related derivatives, including in the currencies of the relevant foreign currency exchange rate(s). Such transactions may affect the relevant foreign currency exchange rate(s), the market price, liquidity or value of the Currency Linked Securities and could be adverse to the interests of Securityholders. No affiliate of the Issuers has any duty to enter into such transactions in a manner which is favourable to Securityholders.

Currencies of emerging markets jurisdictions pose particular risks

Currency Linked Securities linked to emerging market currencies may experience greater volatility and less certainty as to their future levels or as against other currencies. Please see the risk factor entitled "Emerging Markets risks" above.

Prospective investors who consider purchasing any Currency Linked Securities should reach an investment decision only after carefully considering the suitability of such Currency Linked Securities in light of their particular circumstances.

ADDITIONAL RISKS RELATING TO COMMODITY LINKED SECURITIES

All potential investors in any Commodity Linked Securities should review this section and also each other section of the above Risk Factors relevant to its investment decision.

Factors affecting the performance of Commodities may adversely affect the value of the Securities; Commodity prices may be more volatile than other asset classes

Trading in commodities can be speculative and may be extremely volatile. Commodity prices are affected by a variety of factors that are unpredictable including, for example, changes in supply and

demand relationships, weather patterns and extreme weather conditions, governmental programmes and policies, national and international political, military, terrorist and economic events, fiscal, monetary and exchange control programmes, changes in interest and exchange rates and changes and suspensions or disruptions of market trading activities in commodities and related contracts. Commodity prices may be more volatile than other asset classes, making investments in commodities riskier than other investments.

Commodities may reference physical commodities or commodity contracts and certain commodity contracts may be traded on unregulated exchanges

Commodities comprise both (i) "physical" commodities, which need to be stored and transported, and which are generally traded at a "spot" price, and (ii) commodity contracts, which are agreements either to (a) buy or sell a set amount of an underlying physical commodity at a predetermined price and delivery period (which may be referred to as delivery month), or to (b) make and receive a cash payment based on changes in the price of the underlying physical commodity.

Commodity contracts may be traded on regulated specialised futures exchanges (such as futures contracts). Commodity contracts may also be traded directly between market participants "over-the-counter" on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. Accordingly, trading in such "over-the-counter" contracts may not be subject to the same provisions of, and the protections afforded to, contracts traded on regulated specialised futures exchanges. In addition, the price discovery mechanisms of the markets for such "over-the-counter" contracts may be less transparent than specialised futures exchanges and there may therefore be additional risks related to the liquidity and price histories of the relevant contracts.

Commodity Linked Securities which are linked to commodity futures contracts may provide a different return than Commodity Linked Securities linked to the relevant physical commodity

The price of a futures contract on a commodity will generally be at a premium or at a discount to the spot price of the underlying commodity. This discrepancy is due to such factors as (i) the need to adjust the spot price due to related costs (e.g., warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the commodity, there can be significant differences in the liquidity of the spot and the futures markets. Accordingly, Commodity Linked Securities which are linked to commodity futures contracts may provide a different return than Commodity Linked Securities linked to the relevant physical commodity.

Additional risks in relation to Commodity indices, including potential effects of "rolling"

Commodity indices are indices which track the performance of a basket of commodity contracts on certain commodities, depending on the particular index. The weighting of the respective commodities included in a commodity index will depend on the particular index.

Commodity contracts have a predetermined expiration date – i.e. a date on which trading of the commodity contract ceases. Holding a commodity contract until expiration will result in delivery of the underlying physical commodity or the requirement to make or receive cash settlement. Alternatively, "rolling" the commodity contracts means that the commodity contracts that are nearing expiration (the "near-dated commodity contracts") are sold before they expire and commodity contracts that have an expiration date further in the future (the "longer-dated commodity contracts") are purchased. Commodity indices apply "rolling" of the component commodity contracts in order to maintain an on-going exposure to such commodities. Specifically, as a commodity contract is required to be rolled pursuant to the relevant index rules, the commodity index is calculated as if exposure to the commodity contract was liquidated and exposure was taken to another (generally longer-dated) commodity contract for an equivalent exposure.

"Rolling" can affect the level of a commodity index in a number of ways, including:

- (a) The sensitivity of the overall level of a commodity index to particular commodity contracts may be increased or decreased through "rolling": Where the price of a near-dated commodity

INVESTMENT CONSIDERATIONS AND ADDITIONAL RISKS RELATING ONLY TO EXEMPT SECURITIES

contract is greater than the price of the longer-dated commodity contract (the commodity is said to be in "backwardation"), then "rolling" from the former to the latter will result in exposure to a greater number of the longer-dated commodity contracts being taken. Therefore, any loss or gain on the new positions for a given movement in the prices of the commodity contract will be greater than if the commodity index had synthetically held the same number of commodity contracts as before the "roll". Conversely, where the price of the near-dated commodity contract is lower than the price of the longer-dated commodity contract (the commodity is said to be in "contango"), then "rolling" will result in exposure to a smaller number of the longer-dated commodity contract being taken. Therefore, any gain or loss on the new positions for a given movement in the prices of the commodity contract will be less than if the commodity index had synthetically held the same number of commodity contracts as before the "roll".

- (b) Where a commodity contract is in backwardation (or, alternatively, contango) such may be expected to (though it may not) have a negative (or, alternatively, positive) effect on the commodity index level over time: Where a commodity contract is in "contango", then the price of the longer-dated commodity contract will generally be expected to (but may not) decrease over time as it nears expiry. In such event, the level of the relevant commodity index can generally be expected to be negatively affected. Where a commodity is in "backwardation", then the price of the longer-dated commodity contract will generally be expected to (but may not) increase over time as it nears expiry. In such event, the level of the relevant commodity index can generally be expected to be positively affected.

Prospective investors who consider purchasing any Commodity Linked Securities should reach an investment decision only after carefully considering the suitability of such Commodity Linked Securities in light of their particular circumstances.

ADDITIONAL RISK FACTORS RELATING TO INDEX LINKED SECURITIES

All potential investors in any Index Linked Securities should review this section and also each other section of the above Risk Factors relevant to its investment decision.

Index Linked Securities may be linked to a volatile index which could adversely affect a holder's investment

Certain indices are highly volatile, which means that their value may change significantly, up or down, over a short period of time. The expected amount payable on settlement or on redemption or the amount of any interest payable on an interest payment date based on a volatile index may vary substantially from time to time. Where the amount payable on an Index Linked Security is calculated based on the value of the relevant index on a specified date or over a period of time, volatility in the index increases the risk that the return on the Index Linked Securities may be adversely affected by a fluctuation in the level of the relevant index.

The volatility of an index may be affected by political or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these could adversely affect the value of an Index Linked Security.

An index to which an Index Linked Security is linked could be changed or become unavailable

Certain indices reference several different securities. The compiler or sponsor of such an index typically reserves the right to alter the composition of the index and the manner in which the value of the index is calculated. Such an alteration may result in a decrease in the value of or return on an Index Linked Security which is linked to such index.

An index may become unavailable due to such factors as war, natural disasters, cessation of publication of the index, or suspension of or disruption in trading in the security or securities comprising or underlying such index. If an index becomes unavailable, the determination of the amount payable on an Index Linked Security may be delayed or an alternative method may be used to determine the value of the unavailable index or another index may be substituted for the relevant index. Alternative methods of valuation are generally intended to produce a value similar to the value resulting from reference to

the relevant index. However, it is unlikely that such alternative methods of valuation will produce values identical to those which would be produced were the relevant index to be used. An alternative method of valuation or a substitution may result in a decrease in the value of or return on an Index Linked Security.

Certain Index Linked Securities may be linked to indices that are not commonly utilised or have been recently developed. The lack of historic index levels may make it difficult to anticipate the volatility or other risks to which such an Index Linked Security is subject. In addition, there may be less trading in such indices or instruments underlying such indices, which could increase the volatility of such indices and decrease the value of or return on Index Linked Securities relating to them.

Factors affecting the performance of indices may adversely affect the value of the Index Linked Securities

Indices are comprised of a synthetic portfolio of shares or other assets, and as such, the performance of an index is dependent upon the macroeconomic factors relating to the shares or other components that comprise such index, which may adversely affect the value of the relevant Index Linked Securities and which may include interest and price levels on the capital markets, currency developments, the volatility (frequency and magnitude of changes of price) and liquidity of such components, political factors and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy.

Exposure to the risk that returns on the Index Linked Securities do not reflect direct investment in underlying shares or other assets comprising the index

The return payable on Index Linked Securities may not reflect the return a Securityholder would realise if he or she actually owned the relevant assets comprising the components of the index. For example, if the components of the indices are shares, Securityholders will not receive any dividends paid on those shares and will not participate in the return on those dividends unless the relevant index takes such dividends into account for purposes of calculating the relevant level. Similarly, Securityholders will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant index. Accordingly, an investor in Index Linked Securities may receive a lower payment upon redemption or exercise of such Index Linked Securities than such an investor would have received if he or she had invested in the components of the index directly.

A change in the composition or discontinuance of an index could adversely affect the market value of the Index Linked Securities

The sponsor of any index may add, delete or substitute the components of such index or make other methodological changes that could change the level of one or more components. The changing of components of any index may affect the level of such index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may affect the payments made by the relevant Issuer to the Securityholders. The sponsor of any such index may also alter, discontinue or suspend calculation or dissemination of such index. The sponsor of an index will have no involvement in the offer and sale of the Index Linked Securities and will have no obligation to any Securityholder. The sponsor of an index may take any actions in respect of such index without regard to the interests of the Securityholders and any of these actions could adversely affect the market value of the Index Linked Securities.

Prospective investors who consider purchasing any Index Linked Securities should reach an investment decision only after carefully considering the suitability of such Index Linked Securities in light of their particular circumstances.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the Permanent Bearer Global Note without any requirement for certification. For the purpose of any payments made in respect of a Bearer Global Note, the relevant place of presentation shall be disregarded in the definition of "Payment Day" set out in Condition 5(f) of the General Terms and Conditions of the Notes.

The applicable Issue Terms will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Notes with, where applicable, receipts, interest coupons and talons attached upon either (i) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) to the Agent as described therein or (ii) the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (i) an Event of Default (as defined in Condition 9 of the General Terms and Conditions of the Notes) has occurred and is continuing, (ii) the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available or (iii) the relevant Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Bearer

Global Note in definitive bearer form. The relevant Issuer will promptly give notice to Noteholders in accordance with Condition 16 of the General Terms and Conditions of the Notes if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) may give notice to the Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer may also give notice to the Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Agent. If a Bearer Global Note is exchangeable for definitive Bearer Notes at the option of Noteholders, the Notes shall be tradable only in nominal amounts of at least the Specified Denomination.

Temporary Bearer Global Notes, Permanent Bearer Global Notes and definitive Bearer Notes will be issued pursuant to the Notes Agency Agreement.

The following legend will appear on all Permanent Bearer Global Notes and definitive Bearer Notes where TEFRA D is specified in the applicable Issue Terms and on all receipts and interest coupons relating to such Notes:

"ANY UNITED STATES PERSON (AS DEFINED IN THE UNITED STATES INTERNAL REVENUE CODE) WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(J) AND 1287(A) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Notes

As specified in the applicable Issue Terms, the Registered Notes of each Tranche offered and sold to persons outside the United States who are not U.S. persons in reliance on Regulation S ("**Regulation S Notes**"), will initially be represented by either:

- (i) a permanent registered global certificate (a "**Regulation S Global Note**") representing Regulation S Notes of the same Series or Tranche issued by the relevant Issuer and registered in the name of a nominee for Euroclear, Clearstream, Luxembourg or other applicable clearing system; or
- (ii) one or more individual registered certificates delivered outside any clearing system, each representing one or more Regulation S Notes of the same Series or Tranche issued by the relevant Issuer and, save as provided in the conditions of the Notes, comprising the entire holding by a Noteholder of his Registered Notes of that Series or Tranche (each a "**Regulation S Definitive Registered Note**").

Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Regulation S Global Note or Regulation S Definitive Registered Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in Condition 2 of the General Terms and Conditions of the Notes and (in respect of beneficial interests in Regulation S Global Notes) may not be held otherwise than through Euroclear or Clearstream, Luxembourg, and such Regulation S Global Note and Regulation S Definitive Registered Note will bear a legend regarding such restrictions on transfer.

The Registered Notes of each Tranche may only be offered and sold in the United States or to U.S. persons in private transactions to "qualified institutional buyers" within the meaning of Rule 144A under the Securities Act ("**QIBs**") ("**Rule 144A Notes**"). The Rule 144A Notes will initially be represented by

FORM OF THE NOTES

a permanent registered global certificate (a "**Rule 144A Global Note**" and, together with a Regulation S Global Note, the "**Registered Global Notes**").

Registered Global Notes will either (i) be deposited with a custodian for, and registered in the name of a nominee of, Depository Trust Company ("**DTC**") for the accounts of Euroclear and Clearstream, Luxembourg or (ii) be deposited with a common depositary for, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg, as specified in the applicable Issue Terms. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of (in the case of Regulation S Global Notes) Regulation S Definitive Registered Notes or (in the case of Rule 144A Global Notes) one or more individual registered certificates delivered outside any clearing system, each representing one or more Rule 144A Notes of the same Series or Tranche issued by the relevant Issuer and, save as provided in the conditions of the Notes, comprising the entire holding by a Noteholder of his Registered Notes of that Series or Tranche of Definitive Registered Notes ("**Rule 144A Definitive Registered Notes**" and together with Regulation S Definitive Registered Notes, "**Definitive Registered Notes**").

The Rule 144A Notes will be subject to certain restrictions on transfer set forth in the Rule 144A Global Note and Rule 144A Definitive Registered Notes, which will each bear a legend regarding such restrictions. Payments of principal, interest and any other amount in respect of the Registered Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 5(d) of the General Terms and Conditions of the Notes) as the registered holder of the Registered Notes. Neither Issuer, the Paying Agents and the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests. All payments in respect of Notes represented by a Registered Global Note will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the Clearing System Business Day immediately prior to the date for payment, where Clearing System Business Day means Monday to Friday inclusive except 25 December and 1 January.

Payments of principal, interest or any other amount in respect of the Definitive Registered Notes will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 5(d) of the General Terms and Conditions of the Notes) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for Definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (i) an Event of Default has occurred and is continuing, (ii) in the case of Notes registered in the name of a nominee for DTC, either DTC has notified the relevant Issuer that it is unwilling or unable to continue to act as depository for the Notes and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act and no alternative clearing system is available, (iii) in the case of Notes registered in the name of a nominee for a common depositary for Euroclear and Clearstream, Luxembourg, the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (iv) the relevant Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by Definitive Registered Notes. The relevant Issuer will promptly give notice to Noteholders in accordance with Condition 16 of the General Terms and Conditions of the Notes if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iv) above, the relevant Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

Transfer of Interests

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Note. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case, to the extent applicable. **Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see "Subscription and Sale and Transfer and Selling Restrictions".**

General

Pursuant to the Notes Agency Agreement (as defined in the General Terms and Conditions of the Notes), the Agent or the Registrar, as the case may be, shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN and, where applicable, a CUSIP and CINS number which are different from the common code, ISIN, CUSIP and CINS assigned to Notes of any other Tranche of the same Series until at least the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg, each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the relevant Issuer and its agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the relevant Issuer and its agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note, and the expressions "**Noteholder**" and "**holder of Notes**" and related expressions shall be construed accordingly.

So long as DTC or its nominee is the registered owner or holder of a Registered Global Note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Registered Global Note for all purposes under the Notes Agency Agreement and such Notes except to the extent that, in accordance with DTC's published rules and procedures, any ownership rights may be exercised by its participants or beneficial owners through participants.

Any reference herein to Euroclear and/or Clearstream, Luxembourg and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Issue Terms.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 9 of the General Terms and Conditions of the Notes. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the General Terms and Conditions of such Notes and payment in full of the amount due or delivery of any Asset Amount has not been made in accordance with the provisions of the Global Note, then holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, will become entitled to proceed directly against the relevant Issuer on the basis of statements of account provided by Euroclear, Clearstream, Luxembourg and DTC on and subject to the terms of, in the case of SCB, a deed of covenant given by SCB and dated 12 July, 2016 (such deed of covenant as amended and/or supplemented and/or restated from time to time, the "**SCB Notes Deed of Covenant**"), in the case of SCBHK, a deed of covenant given by SCBHK and dated 12 July, 2016 (such deed of covenant as amended and/or supplemented and/or restated from time to time, the "**SCBHK Notes Deed of Covenant**") and in the case of SCBSL, a deed of covenant given by SCBSL and dated on or around 11 July, 2018 (such deed of covenant as amended and/or supplemented and/or restated from time to time, the "**SCBSL Notes Deed of Covenant**" and, together with the SCB Notes Deed of Covenant and the SCBHK Notes Deed of

FORM OF THE NOTES

Covenant, the "**Notes Deeds of Covenant**"). In addition, holders of interests in such Global Note credited to their accounts with DTC may require DTC to deliver Definitive Registered Notes in registered form in exchange for their interest in such Global Note in accordance with DTC's standard operating procedures.

Bearer Notes will not be exchangeable for Registered Notes and Registered Notes will not be exchangeable for Bearer Notes.

Regulation S Global Notes, Rule 144A Global Notes and Definitive Registered Notes will be issued pursuant to the Notes Agency Agreement.

FORM OF PRICING SUPPLEMENT OF THE WARRANTS

Set out below is the form of Pricing Supplement which will be completed for each Tranche of Exempt Warrants issued under the Programme.

Pricing Supplement dated [Date]

[Standard Chartered Bank/Standard Chartered Bank (Hong Kong) Limited 渣打銀行(香港)有限公司/Standard Chartered Bank (Singapore) Limited (registration number 201224747C)]

under the U.S.\$15,000,000,000
Notes, Certificates and Warrants Programme**

The Base Listing Particulars referred to below (as completed by this Pricing Supplement) have been prepared on the basis that any offer of Warrants in any Member State of the European Economic Area ("EEA") or in the United Kingdom (the "UK", each a "Relevant State") will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of the Warrants. Accordingly, any person making an offer or intending to make an offer in that Relevant State of the Warrants may only do so in circumstances in which no obligation arises for the Issuer or any Manager to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or to supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. Neither the Issuer nor any Manager has authorised, nor do they authorise, the making of any offer of Warrants in any other circumstances.

This Pricing Supplement does not constitute final terms for the purposes of the Prospectus Regulation.

Consequently no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPs Regulation") for offering or selling the Warrants or otherwise making them available to retail investors in the EEA or in the UK [has been prepared/will be published or updated after such date] and therefore offering or selling the Warrants or otherwise making them available to any retail investor in the EEA or in the UK [after such date] may be unlawful under the PRIIPs Regulation.]¹⁶

In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Warrant Agents and the Clearing System(s) shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Warrantholder.

(g) Delivery of an Exercise Notice

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Warrantholder to exercise the Warrants specified. After the delivery of such Exercise Notice, such exercising Warrantholder may not transfer such Warrants.

(h) Exercise Risk

Exercise of the Warrants (whether Automatic Exercise or by Exercise Notice) is subject to all applicable laws, regulations and practices in force on the relevant Actual Exercise Date or Expiration Date, as applicable, and neither the Issuer nor the Warrant Agents shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor any Manager nor the Warrant Agents shall under any circumstances be liable for any acts or defaults of the Clearing System(s) in relation to the performance of their duties in relation to the Warrants.

(i) **Restrictions**

The exercise of the Warrants will be conditional upon the person exercising the Warrants providing to the Principal Warrant Agent, or such other person as may be specified, the certifications in respect of selling and transfer restrictions under the securities, commodities and other laws of the United States of America or other jurisdictions as indicated and set out in the Conditions and/or, in respect of Exempt Warrants, the applicable Pricing Supplement.

5. MINIMUM AND MAXIMUM NUMBER OF WARRANTS EXERCISABLE(a) **Number of Warrants Exercisable**

Subject to Condition 5(d) below, the number of American Style Warrants or Bermudan Style Warrants exercisable by any Warrantholder on any Actual Exercise Date must be not less than the Minimum Exercise Number and, if specified in the applicable Issue Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Issue Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.

(b) **American Style Warrants**

If the Issuer determines that the number of American Style Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number (the number equal to the Maximum Exercise Number being the "**Quota**") as specified in the applicable Issue Terms, the Issuer may deem the Actual Exercise Date for the first Quota of such American Style Warrants, selected at the discretion of the Issuer, to be such day, and the deemed Actual Exercise Date for each additional Quota of such American Style Warrants (and any remaining number thereof) to be each of the succeeding Exercise Business Days until all such American Style Warrants have been attributed with an Actual Exercise Date; provided, however, that the deemed Actual Exercise Date for any such American Style Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where the aggregate number of American Style Warrants exercised on the same day by two or more Warrantholders exceeds the Quota, the order of settlement in respect of such American Style Warrants shall be at the sole discretion of the Issuer.

(c) **Bermudan Style Warrants**

If the Issuer determines that the number of Bermudan Style Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number as specified in the applicable Issue Terms, the Issuer may deem such exercise to be limited to an exercise of the number of Bermudan Style Warrants equal to the Maximum Exercise Number (the number of Bermudan Style Warrants exceeding the Maximum Exercise Number being deemed to remain unexercised). In any case where the aggregate number of Bermudan Style Warrants exercised on the same day by two or more Warrantholders exceeds the Maximum Exercise Number, the number of Bermudan Style Warrants deemed to be exercised by each of such Warrantholders shall be determined by the Issuer on a pro rata basis between such Warrantholders.

(d) **Permitted Exercise**

Notwithstanding the foregoing, a Warrantholder may, on any Actual Exercise Date, exercise any number of Warrants that does not exceed the Maximum Exercise Number if it exercises all Warrants remaining unexercised. On the Expiration Date, a Warrantholder may exercise any number of Warrants remaining unexercised.

6. PAYMENTS

(a) General provisions applicable to payments

Payments in respect of Warrants will be made to either (a) (i) where the relevant Clearing System is Euroclear or Clearstream, Luxembourg, the common depository for Euroclear and Clearstream, Luxembourg in whose name the Global W&C Security is registered or (ii) otherwise, the relevant Warrantholder's account with the relevant Clearing System specified in the relevant Exercise Notice (if applicable) for value on the relevant date. Payment by the Issuer of any amount payable in respect of a Warrant will be subject in all cases to (i) all applicable fiscal or other laws, regulations and directives in the place of payment and the rules and procedures of the relevant Clearing System(s), (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof or any law implementing an intergovernmental approach thereto and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code ("**871(m) Withholding**"). Any such payment to the common depository will discharge the Issuer's obligations in respect thereof. In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Warrants, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

Neither the Issuer nor any Warrant Agent shall under any circumstances be liable for any acts or defaults of any Clearing System in the performance of its duties in relation to the Warrants.

With respect to Warrants that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e., a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on the Warrants that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

(b) Payment Days

If any date for payment in respect of any Warrant is not a Payment Day, Warrantholders shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to any interest or other payment in respect of such postponed payment.

7. TAXATION

The Issuer is not liable for or otherwise obliged to pay, and the relevant Warrantholder shall pay, any tax, duty, charges, withholding or other payment which may arise as a result of, or in connection with, the ownership, transfer, exercise or enforcement of any Warrant, including, without limitation, the payment of any Settlement Amount. The Issuer shall have the right, but not the duty, to withhold or deduct from any amount payable to the Warrantholder, such amount as is necessary (i) for the payment of any such taxes, duties, charges, withholdings or other payments or (ii) for effecting reimbursement to the Issuer for any payment by it of any tax, duty, charge, withholding or other payment referred to in this Condition 7. To the extent that the Settlement Amount exceeds the Issue Price, the excess represents a commercial rate of return in compensation for the use of the Issue Price in full recognition of the risks and specific features of the associated underlying assets.

8. PURCHASES BY THE ISSUER

The Issuer and any subsidiary of the Issuer may at any time purchase Warrants at any price in the open market or by tender or private treaty. Any Warrants so purchased may be held or resold or surrendered for cancellation.

9. WARRANT AGENTS AND CALCULATION AGENT

- (a) The names of the Principal Warrant Agent and the other initial Warrant Agents and their initial specified offices are set out below.

The Issuer is entitled to vary or terminate the appointment of any Warrant Agent and/or appoint additional or other Warrant Agents and/or approve any change in the specified office through which any Warrant Agent acts, provided that there will at all times be a Principal Warrant Agent and a Warrant Agent, which may be the Principal Warrant Agent.

In acting under the Warrants and Certificates Agency Agreement, the Warrant Agents act solely as agents of the Issuer and do not assume any obligation to, or relationship of agency or trust with any Warrantholders. The Warrants and Certificates Agency Agreement contains provisions permitting any entity into which any Warrant Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor Warrant Agent.

- (b) In relation to each issue of Warrants where there is a Calculation Agent (whether it be the Issuer or a third party), it acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with the Warrantholders.

10. Determinations and Calculations

All calculations, determinations, decisions, selections, elections and opinions made by the Issuer or Calculation Agent (as applicable) shall be made in its discretion in accordance with the Conditions, having regard in each case to any criteria stipulated therein, and shall (save in the case of manifest error) be made in good faith and in its sole and absolute discretion and shall be final, conclusive and binding on the Issuer, the Warrant Agents and the Warrantholders. The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

Save as otherwise expressly provided, in considering whether and how to exercise its discretion, the Issuer and Calculation Agent (or such third party) shall act in good faith and in a commercially reasonable manner.

In exercising its discretion as described above, the Issuer or Calculation Agent (or such third party) may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the hedging arrangements (as described below) entered into by the Issuer and/or any of its Affiliates and/or any other relevant party (each a "**Relevant Party**") in respect of the Warrants. The exercise of the Issuer or Calculation Agent's (or such third party's) discretion in respect of the Warrants as provided herein is necessary because certain circumstances or events (for example a material modification or disruption to a relevant asset(s) to which the Warrants are linked) may occur subsequent to the issuance of the Warrants which may materially affect the costs to the Relevant Party of maintaining the Warrants or any relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the Warrants. In addition, as a result of certain circumstances or events (e.g. unavailability or disruption to any reference source) it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of any relevant asset(s) to which the Warrants are linked or otherwise in connection with the Warrants to be made, thus making it necessary for the Issuer or Calculation Agent (or such third party) to exercise its discretion in such a case.

GENERAL TERMS AND CONDITIONS OF THE WARRANTS

As used in this Condition, **hedging arrangements** means the arrangements, if any, the Issuer makes to have available to it the relevant cash amounts or assets to be paid or delivered under the Warrants as these fall due. This may involve a Relevant Party investing directly in an underlying reference asset or basis. Alternatively, a Relevant Party may make an indirect investment by entering into or acquiring a derivative contract referencing any relevant asset(s). Such hedging arrangements may be carried out on a portfolio basis (i.e. where the Relevant Party maintains arrangements for hedging the Warrants together with other obligations of the Issuer and/or its Affiliates). A Relevant Party will seek to select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates, but will do so without having regard to the interests of Warrantholders. A Relevant Party may also adjust hedging arrangements from time to time but will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements. For the avoidance of doubt, no Relevant Party is under any obligation to enter into any hedging arrangements and, if any hedging arrangements are entered into, such arrangements will not confer any rights or entitlements on any Warrantholder and no Warrantholder will have recourse to any such hedging arrangements.

The Issuer or Calculation Agent (or such third party) will employ the methodology described in the Conditions to determine amounts payable or deliverable in respect of the Warrants. When making any such determination in relation to any amounts so payable or deliverable, Issuer or the Calculation Agent (or such third party) may in its consider any relevant information ("**Relevant Information**"), which may but is not required to include, without limitation, one or more of the following:

- (i) quotations (either firm or indicative) supplied by one or more third parties or information sources;
- (ii) information consisting of relevant market data in the relevant markets supplied by one or more third parties or information sources including, without limitation, relevant rates, prices, yields, yield curves, volatilities, spreads correlation or other relevant market data in the relevant market; or
- (iii) information of the types described in (i) or (ii) above from internal sources (including any Affiliate of the Issuer or Calculation Agent) or other information of a type used by the Issuer or Calculation Agent (or such third party) in the regular course of its business or in connection with similar transactions.

Whenever the Issuer or Calculation Agent (or such third party) is required to make any determination it may, inter alia, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Issuer or Calculation Agent (or such third party) in the performance or exercise of any of its obligations or discretions under the Warrants including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion.

Where specified in the Conditions, notice of any such determination (and details of the adjustments made or other actions taken) shall be given to Warrantholders as soon as practicable and pursuant to Condition 10 (provided that any failure to give such notice shall not affect the validity of the action taken).

The Issuer and/or the Calculation Agent and/or such other persons makes no express or implied representations or warranties as to (i) the advisability of investing in or obtaining exposure to the Warrants, (ii) the value of the Warrants at any particular time on any particular date, or (iii) any amounts that may become payable or deliverable in respect of the Warrants.

Without limiting any of the foregoing, in no event shall the Calculation Agent and/or such other persons have any liability (whether in negligence or otherwise) to any Warrantholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

The Calculation Agent and/or such other persons shall not have any responsibility to any holder for any errors or omissions in any calculations or determinations in respect of the Warrants and acts solely as an agent of the Issuer and does not assume any obligations towards or relationship of agency or trust for or with any holder.

In addition to providing calculation agency services to the Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the Issuer and any Series of Warrants including, but not limited to, for example, being involved in arrangements relating to any relevant asset(s). Furthermore, the Calculation Agent or any of its Affiliates may contract with the Issuer and/or enter into transactions which relate to the Issuer, the Warrants or any relevant asset(s) and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Issuer nor the Calculation Agent in respect of the Warrants shall owe any duty or responsibility to any Warrantholder to avoid any conflict or to act in the interests of any Warrantholder.

11. NOTICES

- (a) All notices to Warrantholders shall be valid if delivered to the Clearing System(s), for communication by them to the Warrantholders. The Issuer shall also ensure that the notices are duly published in a manner which complies with the rules and regulations of any stock exchange on which the Warrants are for the time being listed, including publication on the website of the relevant stock exchange if required by those rules. Any such notice shall be deemed to have been given on the weekday following such delivery to the Clearing System(s) or, if published more than once or on different dates, on the date of the first such publication and, if and so long as the Warrants are listed on any stock exchange, there will at all times be a Warrant Agent with a specified office in such place as may be required by the rules and regulations of the relevant listing authority or stock exchange.
- (b) Any notice to be given by a Warrantholder to the Issuer may be given by such Warrantholder to the Principal Warrant Agent through the relevant Clearing System(s) in such manner as the Principal Warrant Agent and the relevant Clearing System(s) may approve for this purpose. Any such notice shall be deemed to have been given on the day when delivered or if delivered after 5.00 p.m. in the place of location of the Issuer on an Issuer Business Day, will be deemed effective on the next following Issuer Business Day. The relevant Warrantholder must provide satisfactory evidence to the Issuer of its holding of Warrants which is expected to be in the form of certification from the Clearing System(s).

12. MEETINGS OF WARRANTHOLDERS, MODIFICATION AND WAIVER

(a) Meetings

The Warrants and Certificates Agency Agreement contains provisions for convening meetings of the Warrantholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Warrants and Certificates Agency Agreement) of a modification of these General Terms and Conditions or the Warrants and Certificates Agency Agreement. At least 21 days' notice (exclusive of the day on which the notice is given and the day on which the meeting is to be held) specifying the date, time and place of the meeting shall be given to Warrantholders in accordance with Condition 11. Such a meeting may be convened by the Issuer or Warrantholders holding not less than 10 per cent. (by number) of the Warrants for the time being remaining unexercised. The quorum at a meeting of the Warrantholders (except for the purpose of passing an Extraordinary Resolution) will be two or more persons holding or representing not less than 10 per cent. (by number) of the Warrants for the time being remaining unexercised, or at any adjourned meeting two or more persons holding Warrants or representing Warrantholders, whatever the number of Warrants so held or represented. The quorum at a meeting of Warrantholders for the purpose of passing an Extraordinary Resolution will be two or

GENERAL TERMS AND CONDITIONS OF THE WARRANTS

more persons holding or representing not less than 50 per cent. (by number) of the Warrants for the time being remaining unexercised or at any adjourned meeting two or more persons holding or representing not less than 10 per cent. (by number) of the Warrants for the time being remaining unexercised. A resolution will be an Extraordinary Resolution when it has been passed at a duly convened meeting by not less than three-fourths of the votes cast by Warrantheolders at such meeting as, being entitled to do so, vote in person or by proxy. An Extraordinary Resolution passed by the Warrantheolders will be binding on all the Warrantheolders, whether or not they are present at any meeting and whether or not they voted on the resolution, save for those Warrants remaining unexercised but for which an Exercise Notice shall have been received as described in Condition 4 prior to the date of the meeting. Warrants which have not been exercised but in respect of which an Exercise Notice has been received as described in Condition 4 will not confer the right to attend or vote at, or join in convening, or be counted in the quorum for, any meeting of the Warrantheolders. Resolutions can be passed in writing if passed unanimously.

(b) **Modifications**

The Issuer may, without the consent of the Warrantheolders, modify any terms of the Warrants, the Warrants and Certificates Agency Agreement and/or the relevant W&C Deed of Covenant in any manner which the Issuer may deem necessary or desirable provided that such modification (i) does not, in the determination of the Issuer, adversely affect the interests of the Warrantheolders in any material respect or (ii) is of a formal, minor or technical nature or (iii) is to correct a manifest or proven error or to cure, correct or supplement any defective provision contained herein and/or therein or to comply with mandatory provisions of law. The Issuer may modify any terms of the Warrants and/or the Warrants and Certificates Agency Agreement and/or the relevant W&C Deed of Covenant in any other manner with the prior consent of the requisite majority of Warrantheolders as specified in the Warrants and Certificates Agency Agreement.

Notice of any such modification will be given to the Warrantheolders in accordance with Condition 11 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification. In connection with such right of modification, the Issuer shall not be obliged to have regard to the consequences of the exercise of such right for any particular Warrantheolder resulting from that Warrantheolder being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory, and no Warrantheolder shall be entitled to claim from the Issuer any indemnification or payment in respect of any tax or other consequence of any such modification.

13. **SUBSTITUTION**

- (i) The Issuer may, at any time, without the consent of the Warrantheolders, substitute for itself any company (the "**Substitute**") being any Affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells, leases, transfers or conveys all or substantially all its property, subject to:
 - (A) where the Substitute is an Affiliate of the Issuer, the Substitute having a long-term unsecured debt rating equal to or higher than that of the Issuer given by an internationally recognised rating agency or having the benefit of a guarantee from the Issuer or another Affiliate of the Issuer with such a debt rating;
 - (B) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of necessary consents and regulatory approvals) to ensure that the Warrants and the relevant W&C Deed of Covenant represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done, and are in full force and effect;

- (C) the Substitute becoming party to the Warrants and Certificates Agency Agreement with any appropriate consequential amendments, as if it had been an original party to it in place of the Issuer;
 - (D) such substitution being permitted by the rules of any stock exchange on which the Warrants are listed and each such stock exchange confirming that, following the proposed substitution of the Substitute, the Warrants will continue to be listed on such stock exchange;
 - (E) if appropriate, the Substitute appointing a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Warrants; and
 - (F) the Issuer giving at least 30 days' prior notice of the date of such substitution to the holders in accordance with Condition 11.
- (ii) Upon such substitution, any reference in the Conditions to the Issuer shall be deemed to be a reference to the Substitute.
 - (iii) After a substitution pursuant to Condition 13(i), the Substitute may, without the consent of any holder, effect a further substitution. All the provisions specified in Condition 13(i) or 13(ii) shall apply *mutatis mutandis*, and references in the Conditions to the Issuer shall, where the context so requires, be deemed to be or include references to any such further Substitute.
 - (iv) For so long as any Warrants are listed on a stock exchange, such stock exchange shall be notified of any such consolidation, merger or substitution and the requirements of such stock exchange in respect of such consolidation, merger or substitution shall be complied with.

14. FURTHER ISSUES

The Issuer shall be at liberty from time to time, without the consent of the Warrantholders, to create and issue further warrants having terms and conditions the same as the Warrants or the same in all respects save for the Issue Date and/or the Issue Price and so that the same shall be consolidated and form a single Series with the outstanding Warrants.

15. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Warrant, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

16. GOVERNING LAW AND SUBMISSION TO JURISDICTION

(a) Governing Law

The Warrants and Certificates Agency Agreement, the SCB W&C Deed of Covenant, the SCBHK W&C Deed of Covenant, the SCBSL W&C Deed of Covenant, the Warrants and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law.

(b) Submission to Jurisdiction

Subject as provided below, the English courts are to have exclusive jurisdiction to settle any disputes arising out of or in connection with the Warrants, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity, and any dispute relating to any non-contractual obligations arising out of or in connection with the Warrants (a "Dispute") and

GENERAL TERMS AND CONDITIONS OF THE WARRANTS

accordingly each of the Issuer and any Warrantholder in relation to any Dispute, submits to the exclusive jurisdiction of the English courts.

For the purposes of this Condition 16(b), the Issuer hereby waives any objection to the English courts on the grounds that they are in an inconvenient or inappropriate forum to settle any Dispute.

To the extent allowed by law, the Warrantholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with competent jurisdiction and/or (ii) concurrent proceedings in any number of jurisdictions.

(c) **Appointment of Process Agent**

Where the Issuer is SCBHK or SCBSL, SCBHK or SCBSL, as the case may be, irrevocably appoints SCB at its principal office in London at 1 Basinghall Avenue, London EC2V 5DD as its agent for service of process in any proceedings before the English courts in relation to any Dispute, and agrees that, in the event of SCB at its principal office in London being unable or unwilling for any reason so to act, it will appoint another person as its agent for service of process in England in respect of any Dispute. SCBHK or SCBSL, as the case may be, agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing herein shall affect the right to serve process in any other manner permitted by law.

(d) **Waiver of trial by jury**

WITHOUT PREJUDICE TO CONDITION 16(b), THE ISSUER WAIVERS ANY RIGHT IT MAY HAVE TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION IN CONNECTION WITH THE WARRANTS. THESE CONDITIONS MAY BE FILED AS A WRITTEN CONSENT TO A BENCH TRIAL.

(e) **Other documents**

The Issuer has in the Warrants and Certificates Agency Agreement and the SCBHK W&C Deed of Covenant or the SCBSL W&C Deed of Covenant (as applicable) submitted to the jurisdiction of the English courts and, where the Issuer is SCBHK or SCBSL, appointed an agent for service of process in terms similar to those set out above.

17. **Fair market value**

For purposes of determining any amount due on early exercise, cancellation or termination of the Warrants which is calculated by reference to the "fair market value" of a Warrant, the fair market value of a Warrant will be determined by the Calculation Agent, by reference to such Relevant Information (as defined in Condition 10) as it determines appropriate at the relevant time.

Where the relevant Warrants provide for any minimum amount(s) of cash or assets to be payable or deliverable this shall be taken into account in determining the fair market value. However, the Calculation Agent shall reduce (i.e. discount) the value of such amounts in determining the fair market value to take into account the length of time remaining to the first possible date on which such amount(s) would otherwise have been payable or deliverable. Such discounting may be determined by reference to Relevant Information which may include risk free rate(s).

The Calculation Agent shall also take into account appropriate values for any other amount which would or could otherwise have been payable or deliverable under the relevant Warrants. This may include the element of the return on the Warrants determined by reference to the relevant assets or reference basis(es) to which the Warrants relate (i.e. the derivative element).

The relevant value for this element of the Warrants may be determined by reference to the cost at the relevant time of entering into a transaction to provide similar amounts.

18. Corrections

In the event that any level, price, rate or value (as applicable) of an underlying reference asset for any time on any day which is published or announced by or on behalf of the person or entity responsible for such publication or announcement and which is used for any calculation or determination made in respect of the Warrants is subsequently corrected, and the correction (the "**Corrected Level**") is published by or on behalf of such person or entity within the relevant Correction Period after the original publication (and at least two Business Days prior to the relevant date on which a payment or delivery is scheduled to be made under the Warrants (the "**Relevant Scheduled Payment Date**")), then the Calculation Agent may (but need not) deem such Corrected Level to be the level, price, rate or value for the relevant underlying reference asset for the relevant time on the relevant day and, in such circumstances the Calculation Agent shall use such Corrected Level in determining any amounts payable and/or deliverable in respect of the Warrants. Corrections published after the day which is two Business Days prior to the Relevant Scheduled Payment Date shall be disregarded by the Calculation Agent for the purposes of determining any such amounts payable and/or deliverable under the Warrants.

Where "**Correction Period**" means the period of time specified as such in the applicable Issue Terms and which may, for the avoidance of doubt, be expressed to be "at any time". If no such period is so specified, the Correction Period shall be construed to be 2 Business Days.

19. RESPONSIBILITY

Neither the Issuer nor the Calculation Agent (or any third party) shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or announcement of any level, price, rate or value (as applicable) of an underlying reference asset, whether caused by negligence or otherwise.

20. CANCELLATION OR ADJUSTMENT FOR AN ADMINISTRATOR/BENCHMARK EVENT

In the event that an Administrator/Benchmark Event occurs, the Issuer may (at its option):

- (i) require the Calculation Agent to (i) make such adjustment to the Conditions as it determines appropriate to account for the relevant event or circumstance and, without limitation, such adjustments may (a) consist of one or more amendments and/or be made on one or more dates (b) be determined by reference to any adjustment(s) in respect of the relevant event or circumstance made in relation to any hedging arrangements in respect of the Warrants and (c) include selecting a successor benchmark(s) and making related adjustments to the Conditions including where applicable to reflect any increased costs of the Issuer providing such exposure to the successor benchmark(s) or apply an adjustment cost which may be positive or negative and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks and (ii) determine the effective date of that adjustment; or
- (ii) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such adjustment, having given not more than 30 nor less than 15 days' notice to the Warrantheolders in accordance with Condition 11, cancel the Warrants by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

In determining any adjustments pursuant to (i) above, the Issuer may, without limitation, have regard to relevant information (as described in Condition 10 (*Determinations and Calculations*) above), industry developments and market consensus.

GENERAL TERMS AND CONDITIONS OF THE WARRANTS

Upon the occurrence of an Administrator/Benchmark Event, the Calculation Agent shall give notice as soon as practicable to the Warrantholders in accordance with Condition 11, stating the occurrence of the Administrator/Benchmark Event and giving details thereof and the action proposed to be taken in relation thereto

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Warrants. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole and absolute discretion.

"Administrator/Benchmark Event" means the Calculation Agent determines that (1) a Benchmark Modification or Cessation Event has occurred or will occur or (2) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case, with the effect that the Issuer or the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Benchmark to perform its or their respective obligations under the Warrants or (3) it is not commercially reasonable to continue the use of a relevant Benchmark in connection with the Warrants from the perspective of the Issuer or the Calculation Agent, or the Issuer or the Calculation Agent suffers or will suffer an increased cost, in each case, as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation Agent or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the Warrants and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence) or (4) there has been a formal public statement or publication of information by the supervisor of the administrator or sponsor of the relevant Benchmark, the central bank for the currency of the Benchmark or another official body with applicable responsibility announcing that such Benchmark is no longer representative, or as of a specified future date will no longer be capable of being representative, of any relevant underlying market(s) or economic reality that such Benchmark is intended to measure.

 - (i) the Floating Rate Option is as specified in the applicable Issue Terms for such CMS Spread Rate 1 or CMS Spread Rate 2 (as applicable) comprising such Reference Rate;
 - (ii) the Designated Maturity is a period specified in the applicable Issue Terms for such CMS Spread Rate 1 or CMS Spread Rate 2 (as applicable) comprising such Reference Rate; and
 - (iii) the relevant Reset Date is the relevant Scheduled Publication Day.

For which purpose, 'Floating Rate', 'Floating Rate Option', 'Designated Maturity' and 'Reset Date' have the meanings given to those terms in the ISDA Definitions and each such Floating Rate Option shall always be determined by reference to the rate which appears on the relevant screen page or price source on the applicable Reset Date and, accordingly, all reference in any Floating Rate Option to the contrary, including any references to the rate on any day other than that Reset Date shall be deemed to be deleted and the words "on the Reset Date" shall be substituted therefor.

GENERAL TERMS AND CONDITIONS OF THE NOTES

A beneficial interest in a Registered Global Note will, subject to compliance with all applicable legal and regulatory restrictions, be transferable for an interest in Definitive Registered Notes or for a beneficial interest in another Registered Global Note only in the authorised denominations set out in the applicable Issue Terms and only in accordance with the rules and operating procedures for the time being of DTC, Euroclear or Clearstream, Luxembourg, as the case may be, and in accordance with the terms and conditions specified in the Notes Agency Agreement. Transfers of a Registered Global Note registered in the name of a nominee for DTC shall be limited to transfers of such Registered Global Note, in whole but not in part, to another nominee of DTC or to a successor of DTC or such successor's nominee.

(b) *Transfers of interests in Definitive Registered Notes*

Subject as provided in paragraphs (e), (g) and (h) below, upon the terms and subject to the conditions set forth in the Notes Agency Agreement, Registered Notes represented by a Definitive Registered Note may be transferred in whole or in part (in

the authorised denominations set out in the applicable Issue Terms). In order to effect any such transfer (i) the holder or holders must (A) surrender the Definitive Registered Note for registration of the transfer of all or part of the Registered Notes represented by it at the specified office of the Registrar or any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing and (B) complete and deposit such other certifications as may be required by the Registrar or, as the case may be, the relevant Transfer Agent and (ii) the Registrar or, as the case may be, the relevant Transfer Agent must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request. Any such transfer will be subject to such reasonable regulations as the Issuer and the Registrar may from time to time prescribe (the initial such regulations being set out in Schedule 10 (*Register and Transfer of Registered Notes*) to the Notes Agency Agreement). Subject as provided above, the Registrar or, as the case may be, the relevant Transfer Agent will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar or, as the case may be, the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee, or (at the risk of the transferee) send by uninsured mail to such address as the transferee may request, a new Definitive Registered Note representing the aggregate nominal amount of the Registered Notes transferred. In the case of the transfer of only some of the Registered Notes represented by a Definitive Registered Note, a new Definitive Registered Note in respect of the balance of the Registered Notes not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

(c) *Exercise of options or partial redemption in respect of Definitive Registered Notes*

In the case of an exercise of an Issuer's or Noteholders' option in respect of, or a partial redemption of, a holding of Registered Notes represented by a Definitive Registered Note, a new Definitive Registered Note shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Definitive Registered Notes shall be issued in respect of those Notes of that holding that have the same terms. New Definitive Registered Notes shall only be issued against surrender of the existing Definitive Registered Notes to the Registrar or any Transfer Agent. In the case of a transfer of Registered Notes to a person who is already a holder of Registered Notes, a new Definitive Registered Note representing the enlarged holding shall only be issued against surrender of the Definitive Registered Note representing the existing holding.

(d) *Costs of registration*

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

(e) *Delivery of new Definitive Registered Notes*

Each new Definitive Registered Note to be issued pursuant to Conditions 2(b) or (c) shall be available for delivery within three business days of receipt of the form of transfer or Put Notice (as defined in Condition 6(d)) and surrender of the Definitive Registered Note for exchange. Delivery of the new Definitive Registered Note(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such form of transfer, Put Notice or Definitive Registered Note shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the form of transfer, Put Notice

or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Definitive Registered Note to such address as may be so specified, unless such holder requests otherwise and pays in advance to the Transfer Agent or the Registrar (as the case may be) the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(e), "**business day**" means a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar (as the case may be).

- (ii) otherwise pursuant to an effective registration statement under the Securities Act or to a person whom the transferor reasonably believes is a QIB or pursuant to another exemption from the registration requirements of the Securities Act, subject to receipt by the Registrar of such satisfactory evidence as the Registrar may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States,

and, in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction.

In the case of (i) above, such transferee may take delivery through a Rule 144A Global Note or Rule 144A Definitive Registered Notes. After expiry of the applicable Distribution Compliance Period (A) beneficial interests in Regulation S Global Notes registered in the name of a nominee for DTC may be held through DTC directly, by a participant in DTC, or indirectly through a participant in DTC and (B) such certification requirements will no longer apply to such transfers of beneficial interests in Regulation S Notes.

(h) Transfers of interests in Rule 144A Notes

Transfers of Rule 144A Notes or beneficial interests therein may be made:

- (i) to a transferee who takes delivery of such interest through a Regulation S Global Note, upon receipt by the Registrar of a duly completed Transfer Certificate from the transferor to the effect that such transfer is being made in accordance with Regulation S and that, in the case of a Rule 144A Global Note registered in the name of a nominee for DTC, if such transfer is being made

prior to expiry of the applicable Distribution Compliance Period, the interests in the Notes being transferred will be held immediately thereafter through Euroclear and/or Clearstream, Luxembourg; or

- (ii) to a transferee who takes delivery of such interest through a Rule 144A Note where the transferee is a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A, without certification; or
- (iii) otherwise pursuant to an effective registration statement under the Securities Act or to a person whom the transferor reasonably believes is a QIB or pursuant to another exemption from the registration requirements of the Securities Act, subject to receipt by the Registrar of such satisfactory evidence as the Registrar may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States,

and, in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction.

Upon the transfer, exchange or replacement of Note Certificates representing Rule 144A Notes, or upon specific request for removal of the Rule 144A Legend, the Registrar shall deliver only Note Certificates bearing the Rule 144A Legend or refuse to remove the Rule 144A Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that neither the Rule 144A Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

3 STATUS OF THE NOTES

The Notes and any related Receipts and Coupons are direct and unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves. The obligations of the Issuer under the Notes and the Receipts and Coupons relating to them shall, save for such exceptions as may be provided by applicable legislation, at all times rank at least equally with all other unsecured and unsubordinated obligations of the Issuer, present and future.

4 INTEREST

(a) *General*

(i) *Interest Payment Dates*

Each Note (other than a Zero Coupon Note or a Note for which the Interest Basis is specified as "Non-interest bearing" in the applicable Issue Terms) bears interest on its outstanding nominal amount from (and including) the Interest Commencement Date and such interest will be payable in arrears on the dates specified as Specified Interest Payment Date(s) in the applicable Issue Terms (each such date an "**Interest Payment Date**").

Such interest will be payable in respect of each Interest Period. The amount of interest payable shall be determined in accordance with Condition 4(b)(iii).

If any date that is specified in the applicable Issue Terms to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

GENERAL TERMS AND CONDITIONS OF THE NOTES

- (I) the Floating Rate Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such date shall be brought forward to the immediately preceding Business Day and (B) each subsequent such date shall be the last Business Day in the month in which such date would have fallen had it not been subject to adjustment;
- (II) the Following Business Day Convention, such date shall be postponed to the next day which is a Business Day;
- (III) the Modified Following Business Day Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day; or
- (IV) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(ii) *Minimum Rate of Interest and/or Maximum Rate of Interest*

If the applicable Issue Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 4(b)(i) below is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Issue Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 4(b)(i) below is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(b) ***Interest on Fixed Rate Notes (including Fixed Rate Notes that are Range Accrual Notes) and Floating Rate Notes***

(i) *Rate of Interest*

(I) Fixed Rate Notes

The Rate of Interest payable from time to time in respect of Fixed Rate Notes will be specified in the applicable Issue Terms. If the Fixed Rate Notes are expressed to be Range Accrual Notes in the applicable Issue Terms, then the applicable Accrual Rate for an Interest Period shall be applied to the Day Count Fraction in determining the amount of interest due for such Interest Period as further detailed in Condition 4(b)(iii) below.

If specified in the applicable Issue Terms, the amount of interest payable on each Interest Payment Date in respect of its related Interest Period will amount to the Fixed Coupon Amount.

Payments of interest on any Interest Payment Date will, if so specified in the applicable Issue Terms, amount to the Broken Amount so specified.

(II) Floating Rate Notes

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Issue Terms. Unless otherwise specified in the applicable Issue Terms, if the Rate of Interest

for the relevant Interest Period is a negative number, it shall be deemed to be zero.

(1) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined and subject as provided below, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Issue Terms) the Margin (if any). For the purposes of this paragraph (1), "**ISDA Rate**" for an Interest Period means a rate (as determined by the Agent, or, if specified in the applicable Issue Terms, the Calculation Agent or other entity so specified, each an "**Interest Determination Agent**") equal to the Floating Rate that would be determined by the Interest Determination Agent under an interest rate swap transaction if the Interest Determination Agent were acting as "Calculation Agent" (as defined in the ISDA Definitions) for that swap transaction under the terms of an agreement incorporating the ISDA Definitions, and under which:

- (A) the Floating Rate Option is as specified in the applicable Issue Terms;
- (B) the Designated Maturity is a period specified in the applicable Issue Terms; and
- (C) the relevant Reset Date is the day specified in the applicable Issue Terms,

provided that, if the Calculation Agent determines that the determination of the Rate of Interest in accordance with the above would not produce a commercially reasonable result or the Rate of Interest cannot be so determined, the Calculation Agent may determine the relevant Rate of Interest having regard to comparable benchmarks then available, the adjustment made in relation to any hedging arrangements in respect of the Notes, relevant information (as described in Condition 12 (*Determinations and Calculations*) below), industry developments and market consensus and may make such adjustments, if any, to the Conditions as it determines appropriate to reflect the determination of the Rate of Interest by reference to such comparable rate.

For the purposes of this paragraph (1): "**Floating Rate**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

(2) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, and save where the Reference Rate is specified in the applicable Issue Terms as being Compounded Daily SONIA, Compounded Daily SOFR or Compounded Daily €STR (each being a "**Relevant Benchmark**"), the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or

GENERAL TERMS AND CONDITIONS OF THE NOTES

- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at the Specified Time on the Interest Determination Date in question plus or minus (as indicated in the applicable Issue Terms) the Margin (if any), all as determined by the Interest Determination Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Interest Determination Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If (i) the Relevant Screen Page is not available or (ii) in the case of (A) above, no such offered quotation appears or (iii) in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph, or (iv) the Rate of Interest, including in the case of any Relevant Benchmark, is unavailable or cannot be determined pursuant to this Condition 4(b) the Interest Determination Agent may determine the relevant Rate of Interest having regard to comparable benchmarks then available, the adjustments made in relation to any hedging arrangements in respect of the Notes, relevant information (as described in Condition 12 (*Determinations and Calculations*) below), industry developments and market approaches, including if applicable any appropriate industry-accepted successor rate (which may include a rate selected or recommended by a relevant trade association, working group or committee) or a rate that has been selected or recommended by the central bank for the currency of the Reference Rate, where applicable for the corresponding tenor to the Reference Rate, and may make such adjustments, if any, to the Conditions as it determines appropriate to reflect the determination of the Rate of Interest by reference to such comparable rate. Such adjustments may include adjusting any replacement rate by an adjustment spread which may be positive or negative.

In respect of Exempt Notes, if the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Pricing Supplement as being other than LIBOR, EURIBOR, HIBOR or SIBOR, the Rate of Interest in respect of such Notes may alternatively be determined as provided in the applicable Pricing Supplement.

Compounded Daily SOFR – Index Determination

Where Screen Rate Determination is specified for a Floating Rate Note in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Reference Rate is Compounded Daily SOFR, and Index Determination is specified as being applicable in the applicable Issue Terms, the Rate of Interest for each Interest Period will be calculated by reference to the following formula and based on the SOFR Index (as defined below), as further specified in the applicable Issue Terms and the resulting percentage will be rounded if necessary to the nearest one hundred-thousandth of a percentage point e.g., 9.876541% (or .09876541) being rounded down to 9.87654% (or .0987654) and 9.876545% (or .09876545) being rounded up to 9.87655% (or .0987655). For the avoidance of doubt, such Rate of Interest will be plus or minus (as specified in the applicable Issue Terms) the Margin (if any), all as calculated by the Calculation Agent.

Compounded Daily SOFR =

$$\left(\frac{SOFR\ Index_{End}}{SOFR\ Index_{Start}} - 1 \right) \times \left(\frac{360}{d_c} \right)$$

where:

"**SOFR Index_{Start}**" is the SOFR Index value for the day which is the Relevant Number of U.S. Government Securities Business Days preceding the first date of the relevant Interest Period;

(C) €STR

Where Screen Rate Determination is specified for a Floating Rate Note in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined for such note, and the Reference Rate is specified in the applicable Issue Terms as being Compounded Daily €STR, the Rate of Interest for each Interest Period will, subject as provided below, be Compounded Daily €STR plus or minus (as

indicated in the applicable Issue Terms) the Margin (if any), as calculated by the Interest Determination Agent, as applicable (as specified in the applicable Issue Terms) calculated as immediately set out below.

"Compounded Daily €STR" means, with respect to an Interest Period, the rate of return of a daily compound interest investment (with the daily euro short term rate as the reference rate for the calculation of interest) calculated by the Interest Determination Agent on the relevant Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the nearest fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{Relevant } \text{€STR}_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

"d" is the number of calendar days in (where in the applicable Issue Terms "Look-Back" is specified as the RFR Observation Method) the relevant Interest Period or (where in the applicable Issue Terms "Observation Period Shift" is specified as the RFR Observation Method) the relevant €STR Observation Period;

"€STR Reference Rate", in respect of any TARGET2 Business Day, is a reference rate equal to the daily euro short term ("€STR") rate for such TARGET2 Business Day as provided by the European Central Bank, as the administrator of such rate (or any successor administrator of such rate) on the website of the European Central Bank at <https://www.ecb.europa.eu/home/html/index.en.html>, or any successor website or the website of any successor administrator for the publication of such rate (the **"ECB's Website"**) on such TARGET2 Business Day or if the ECB's Website is unavailable as otherwise published by or on behalf of the relevant administrator;

"€STR_{i-pTBD}" means, in respect of any TARGET2 Business Day "i", the €STR reference rate for the TARGET2 Business Day falling "p" TARGET2 Business Days prior to the relevant TARGET2 Business Day "i";

Terms "Observation Period Shift" is specified as the RFR Observation Method) the relevant €STR Observation Period;

"**Shift/Lag Factor**" means the number of TARGET2 Business Day specified in the applicable Issue Terms.

(3) CMS Determination for Floating Rate Notes

Where CMS Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be determined by reference to either the relevant CMS Rate or the CMS Spread Rate, as specified in the applicable Issue Terms, determined as specified below, in each case, plus or minus the Margin (if any).

For the purposes of this paragraph (3):

"**CMS Rate**" means, in respect of an Interest Period and subject as provided below, a rate (as determined by the Agent or, if specified in the applicable Issue Terms, the Calculation Agent or other entity so specified in the applicable Issue Terms, each an "**Interest Determination Agent**") equal to the Floating Rate that would be determined by the Interest Determination Agent under an interest rate swap transaction if the Interest Determination Agent were acting as "Calculation Agent" (as defined in the ISDA Definitions) for that swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (A) the Floating Rate Option is as specified in the applicable Issue Terms;
- (B) the Designated Maturity is a period specified in the applicable Issue Terms; and
- (C) the relevant Reset Date is the day specified in the applicable Issue Terms.

GENERAL TERMS AND CONDITIONS OF THE NOTES

"CMS Spread Rate" means, in respect of an Interest Period and subject as provided below, a percentage determined by the Calculation Agent equal to CMS Spread Rate 1 minus CMS Spread Rate 2.

Each of CMS Spread Rate 1 and CMS Spread Rate 2 shall be a rate (as determined by the Interest Determination Agent) equal to the respective Floating Rates that would be determined by the Interest Determination Agent under a separate interest rate swap transaction if the Interest Determination Agent were acting as "Calculation Agent" (as defined in the ISDA Definitions) for that swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (A) the Floating Rate Option is as specified in the applicable Issue Terms for such CMS Spread Rate 1 or CMS Spread Rate 2 (as applicable);
- (B) the Designated Maturity is a period specified in the applicable Issue Terms for such CMS Spread Rate 1 or CMS Spread Rate 2 (as applicable); and
- (C) the relevant Reset Date is the day specified in the applicable Issue Terms.

"Floating Rate", "Floating Rate Option", "Designated Maturity" and "Reset Date" have the meanings given to those terms in the ISDA Definitions.

If the Calculation Agent determines that the determination of the Rate of Interest in accordance with the above would not produce a commercially reasonable result or the Rate of Interest cannot be so determined, the Calculation Agent may determine the relevant Rate of Interest having regard to comparable benchmarks then available, the adjustments made in relation to any hedging arrangements in respect of the Notes, relevant information (as described in Condition 12 (*Determinations and Calculations*) below), industry developments and market consensus and may make such adjustments, if any, to the Conditions as it determines appropriate to reflect the determination of the Rate of Interest by reference to such comparable rate.

(III) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Issue Terms, the Rate of Interest for such Interest Period shall be calculated by the Interest Determination Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Issue Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Issue Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided that, if there is no rate available for a period of time next shorter or, as the case may be, longer, then the Interest Determination Agent shall determine such rate at such time and reference to such sources as it determines appropriate.

"Designated Maturity" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(IV) Structured Rate Notes

If, in respect of Exempt Notes, the applicable Pricing Supplement specifies that the Notes are Structured Rate Notes, the Rate of Interest payable from time to time in respect of such Notes will be determined in the manner specified in the applicable Pricing Supplement. Unless otherwise specified in the applicable Pricing Supplement, if the Rate of Interest for the relevant Interest Period is a negative number, it shall be deemed to be zero.

(ii) *Determination of Rate of Interest*

The Agent or the Calculation Agent, if specified in the applicable Issue Terms, will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. If the Rate of Interest for the relevant Interest Period is determined by the Calculation Agent, the Calculation Agent will notify the Agent of such Rate of Interest as soon as practicable after calculating the same.

(iii) *Calculation of Interest Amounts*

Unless the applicable Issue Terms specifies that either a Fixed Coupon Amount or a Broken Amount shall be payable on an Interest Payment Date, the Agent or the Calculation Agent, if specified in the applicable Issue Terms, will calculate the amount of interest (the **"Interest Amount"**) payable on the Notes for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest to:

- (i) in the case of Notes which are represented by a Global Note or a Definitive Registered Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note or such Registered Notes (as applicable); or
- (ii) in the case of Notes which are Definitive Bearer Notes, the Calculation Amount

and, in each case multiplying such amount by (i) the applicable Day Count Fraction and, (ii) where the Notes are Range Accrual Notes also the relevant Accrual Rate.

Where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Where the Notes are specified in the applicable Issue Terms to be Alternate Currency Notes, the amount referred to above as the Interest Amount and determined as provided above shall be converted into the Payment Currency at the relevant FX Rate on the FX Valuation Date specified in relation thereto in the applicable Issue Terms and such converted amount shall be the Interest Amount as otherwise used herein.

If the Interest Amount payable on the Notes per Calculation Amount for the relevant Interest Period or other applicable period is determined by the Calculation Agent, the Calculation Agent will notify the Agent of such Interest Amount as soon as practicable after calculating the same.

GENERAL TERMS AND CONDITIONS OF THE NOTES

(iv) *Notification of Rate of Interest and Interest Amounts for Floating Rate Notes*

In respect of Floating Rate Notes, the Agent or the Calculation Agent, will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Notes are for the time being listed and notice thereof to be published in accordance with Condition 16 as soon as possible after their determination, but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Notes are for the time being listed and to the Noteholders in accordance with Condition 16.

(v) *Certificates to be final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4, whether by the Agent or the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent, the Calculation Agent (if applicable), the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence of wilful default, bad faith or manifest error) no liability to the Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Agent or the Calculation Agent (if applicable) in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) ***Accrual of interest***

Each Note (or, in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date of its redemption unless payment of principal and/or delivery of all assets deliverable is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (i) the date on which all amounts due in respect of such Note have been paid and/or all assets deliverable in respect of such Note have been delivered; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Agent, in the case of Bearer Notes, or the Registrar, in the case of Registered Notes, and/or all assets in respect of such Note have been received by any agent appointed by the Issuer to deliver such assets to Noteholders and notice to that effect has been given to the Noteholders in accordance with Condition 16.

(d) ***References to interest***

References to interest (or other amounts payable in excess of the amount subscribed for Notes) in these General Terms and Conditions are to payments by the Issuer of amounts for the use of the sum subscribed for Notes and as compensation for the risk that, as the case may be, the amount repayable on Notes may be less than the sum subscribed or the amount payable as interest on Notes may be reduced to zero in certain circumstances. For the avoidance of doubt, where the amount of any interest payable on the Notes (or any other amount payable in excess of the amount subscribed for Notes) is calculated by reference to another asset, the interest (or other amount) payable represents a return on the Notes rather than on the referenced asset.

5 PAYMENTS

(a) Method of payment

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland, respectively); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to (i) any fiscal or other laws, regulations and directives applicable thereto in the place of payment, (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof or any law implementing an intergovernmental approach thereto and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code ("**871(m) Withholding**"). In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Notes, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Notes that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on the Notes that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

(b) Presentation of definitive Bearer Notes, Receipts and Coupons

Payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of instalments of principal (if any) in respect of definitive Bearer Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the

GENERAL TERMS AND CONDITIONS OF THE NOTES

case of part payment of any sum due, endorsement) of the relevant Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the definitive Bearer Note to which it appertains. Receipts presented without the definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Long Maturity Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon at any time before the expiry of five years after the Relevant Date in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Long Maturity Note or any Note that is not a Fixed Rate Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Period Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

(c) *Payments in respect of Bearer Global Notes*

Payments of principal and interest (if any) in respect of Bearer Notes represented by any Global Note in bearer form will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of any Global Note in bearer form, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

(d) *Payments in respect of Registered Notes*

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Note Certificate representing such Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the "**Register**") at the close of

business on (i) the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date, in the case of Definitive Registered Notes, or (ii) the Clearing System Business Day immediately prior to the date for payment, where **"Clearing System Business Day"** means Monday to Friday inclusive except 25 December and 1 January, in the case of Registered Global Notes. For these purposes, **"Designated Account"** means the account (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and **"Designated Bank"** means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland, respectively) and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by transfer to the Designated Account of the holder (or the first named of joint holders) of the Registered Note appearing in the Register at the close of business on (i) the fifteenth day (whether or not such fifteenth day is a business day) before the relevant due date, in the case of Definitive Registered Notes, or (ii) the Clearing System Business Day immediately prior to the date for payment, in the case of Registered Global Notes (each such date, the **"Record Date"**), at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest or instalment of principal in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the nominal amount of such Registered Note.

No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

All amounts payable to DTC or its nominee as registered holder of a Registered Global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of the FX Agent on behalf of DTC or its nominee for conversion into and payment in U.S. dollars unless the participant in DTC with interest in the Notes has elected to receive any part of such payment in that specified currency, in the manner specified in the Notes Agency Agreement and in accordance with the rules and procedures for the time being of DTC.

None of the Issuer or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

(e) General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or DTC as the beneficial holder of a particular nominal amount of Notes

GENERAL TERMS AND CONDITIONS OF THE NOTES

represented by such Global Note must look solely to Euroclear, Clearstream, Luxembourg or DTC, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition 5(e), if any amount of principal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the determination of the Issuer, adverse tax consequences to the Issuer.

(f) *Payment Day*

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, then the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay.

(g) *Interpretation of principal or nominal*

Any reference in these General Terms and Conditions to "**principal**" or "**nominal**" in respect of the Notes shall be deemed to include, as applicable:

- (i) the Final Redemption Amount of the Notes;
- (ii) the Early Redemption Amount of the Notes;
- (iii) the Optional Redemption Amount(s) (if any) or Optional Reduction Amount(s) (if any) of the Notes;
- (iv) in relation to Notes redeemable in instalments, the Instalment Amounts;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 6(e)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

(h) *Rounding*

In respect of Notes represented by a Global Note or a Definitive Registered Note, amounts payable in respect of the aggregate outstanding nominal amount of the Notes represented by such Global Note or such Registered Notes shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

In respect of Definitive Bearer Notes, amounts payable in respect of the Calculation Amount shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

6 GENERAL PROVISIONS RELATING TO REDEMPTION AND PURCHASE

(a) *Redemption at maturity*

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Issue Terms in the relevant Specified Currency on the Maturity Date.

(b) *Redemption for tax reasons*

In the event that the Calculation Agent determines that a Tax Event has occurred, the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than the Minimum Period and not more than the Maximum Period (if any) of notice specified in the applicable Issue Terms to the Noteholders in accordance with Condition 16 (which notice shall be irrevocable).

Notes redeemed pursuant to this Condition 6(b) will be redeemed at their Early Redemption Amount referred to in Condition 6(e) together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(c) *Redemption or pro rata reduction of principal at the option of the Issuer (Issuer Call)*

(i) If Issuer Call is specified in the applicable Issue Terms, the Issuer may, having given not less than the Minimum Period and not more than the Maximum Period (if any) of notice specified in the applicable Issue Terms to the Noteholders and to any stock exchange on which the relevant Notes are for the time being listed in accordance with Condition 16 and, not less than two days before the giving of such notice to the Noteholders and to any such stock exchange, has given notice to the Agent and, in the case of a redemption of Registered Notes, the Registrar (which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in the applicable Issue Terms or, in the case of Exempt Notes, determined in the manner specified in, the applicable Pricing Supplement together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount that is (A) equal to or greater than the Minimum Redemption Amount and (B) equal to or less than the Maximum Redemption Amount, in each case, if applicable and as specified in the applicable Issue Terms.

(ii) In the case of a redemption of some but not all Notes, where such Notes are in the form of Definitive Bearer Notes or Definitive Registered Notes, the Notes to be redeemed ("**Redeemed Notes**") will be selected individually by lot (in such place as the Agent, in the case of Bearer Notes, or the Registrar, in the case of Registered Notes, may approve and in such manner as the Agent or, as applicable, the Registrar, shall deem to be appropriate and fair) not more than 60 days prior to the date fixed for redemption and a list of the Notes called for redemption will be given in accordance with Condition 16 not less than 30 days prior to such date fixed for redemption (such date of selection being hereinafter called the "**Selection Date**"). In the case of a redemption of some but not all Notes which are represented by a Global Note, the relevant Notes

GENERAL TERMS AND CONDITIONS OF THE NOTES

to be redeemed will be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg and/or DTC.

In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 16 not less than 15 days prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that, such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination and the aggregate nominal amount of Redeemed Notes represented by a Global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this Condition 6(c) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 16 at least five days prior to the Selection Date.

- (iii) If Issuer Call and Pro Rata Reduction are specified as applicable in the applicable Issue Terms, the Issuer may, having given not less than the minimum period and not more than the maximum period (if any) of notice specified in the applicable Issue Terms to the Noteholders and to any stock exchange on which the relevant Notes are for the time being listed in accordance with Condition 16 and not less than two days before the giving of such notice to the Noteholders and to any such stock exchange has given notice to the Agent and, in the case of a redemption of Registered Notes, the Registrar (which notices shall be irrevocable and shall specify the date fixed for redemption), redeem a stated nominal amount of each Note then outstanding on any Optional Reduction Date by payment of the Optional Reduction Amount(s) specified in the applicable Issue Terms or, in respect of Exempt Notes, determined in the manner specified in, the applicable Pricing Supplement together, if appropriate, with interest accrued to (but excluding) the relevant Optional Reduction Date and the Calculation Agent shall make such other amendments as it determines appropriate to the Final Redemption Amount, the Calculation Amount and/or any of the other relevant provisions of the Conditions to account for such partial redemption and Pro Rata Reduction.

(d) *Redemption at the option of the Noteholders (Investor Put)*

If Investor Put is specified in the applicable Issue Terms, upon the holder of any Note giving to the Issuer, and to any stock exchange on which the relevant Notes are for the time being listed, in accordance with Condition 16 not less than the Minimum Period and not more than the Maximum Period (if any) of notice specified in the applicable Issue Terms, the Issuer will, upon the expiry of such notice, redeem, in accordance with the terms specified in the applicable Issue Terms, such Note on the Optional Redemption Date and at the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date. If "Adjustment for Hedging Costs" is specified in the applicable Issue Terms, the Optional Redemption Amount will be adjusted to take account of any Hedging Costs. Registered Notes may be redeemed under this Condition 6(d) in any multiple of their Calculation Amount.

If this Note is in the form of a Definitive Note, to exercise the right to require redemption of this Note, the holder of this Note must deliver such Definitive Note at the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar, falling within the notice period, accompanied by a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the

Registrar, (a "**Put Notice**") and in which the holder must specify a bank account to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes represented by the Definitive Registered Note so surrendered is to be redeemed, an address to which a new Definitive Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 2(b). If this Note is in the form of a Definitive Note, the Put Notice must be accompanied by this Definitive Note or evidence satisfactory to the Paying Agent concerned that this Definitive Note will, following delivery of the Put Notice, be held to its order or under its control.

If this Note is represented by a Global Note or a Definitive Note that is held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period, give notice of such exercise in accordance with Condition 16(b).

Any Put Notice given by a holder of any Definitive Note or given in accordance with the standard procedures of Euroclear, Clearstream, Luxembourg and DTC pursuant to this Condition 6(d) shall be irrevocable except where, prior to the due date of redemption, an Event of Default shall have occurred and be continuing, in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this Condition 6(d) and instead to declare such Note forthwith due and payable pursuant to Condition 9.

(e) Early Redemption Amounts

For the purpose of Condition 6(b) and Condition 9, each Note will be redeemed at its "**Early Redemption Amount**" calculated as follows:

- (i) in the case of a Note (other than a Zero Coupon Note) either (A) (i) at the amount specified in the applicable Issue Terms or (ii) where the Notes are Alternate Currency Notes, the Early Redemption Amount per Calculation Amount will be determined by converting the Specified Amount specified in the applicable Issue Terms into the Payment Currency at the FX Rate on the FX Valuation Date specified in the applicable Issue Terms and the amount so converted will be the Early Redemption Amount per Calculation Amount or, (iii) in the case of Exempt Notes, determined in the manner specified in, the applicable Pricing Supplement or (B) otherwise, an amount determined to be the fair market value (as described in Condition 6(j) below) of such Note (which may be zero) on such day as the Calculation Agent shall select, all as determined by the Calculation Agent using its internal models and methodologies (and which may be based on, among other things: the time remaining to maturity of the Note; if the Note is linked to one or more reference item, the value, expected future performance and volatility of such reference item; the interest rates at which banks lend to each other; and any other information which the Issuer or Calculation Agent deems relevant (including the circumstances that led to event causing the early redemption)), and, for the purposes of determining the fair market value of such Note for the purposes of Condition 9, no account shall be taken of the financial condition of the Issuer which shall be presumed to be able to perform fully its obligations in respect of the Notes; or
- (ii) in the case of a Zero Coupon Note, at an amount (the "**Amortised Face Amount**") calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^Y$$

where:

GENERAL TERMS AND CONDITIONS OF THE NOTES

"RP" means the Reference Price; and

"AY" means the Accrual Yield expressed as a decimal; and

"y" is the Day Count Fraction specified in the applicable Issue Terms which will either be (i) 30/360 (in which case, the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of will be 360), (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of will be 360) or (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of will be 365),

provided that, in each case, if "Adjustment for Hedging Costs" is specified in the applicable Issue Terms, the Early Redemption Amount will be adjusted to take account of any Hedging Costs.

(f) Instalments

Exempt Notes which are Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 6(e).

(g) Purchases

The Issuer or any subsidiary of the Issuer may at any time purchase Notes (provided that, in the case of definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent and/or the Registrar for cancellation.

(h) Cancellation

All Notes which are redeemed will forthwith be cancelled (together with, in the case of definitive Bearer Notes, all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to Condition 6(g) (together with, in the case of definitive Bearer Notes, all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be reissued or resold.

(i) Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Condition 6(a), Condition 6(b), Condition 6(c) or Condition 6(d) or upon its becoming due and repayable as provided in Condition 7 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the Amortised Face Amount calculated as provided in Condition 6(e)(ii) above as though the references therein to the date fixed for the redemption or

the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Agent in the case of Bearer Notes or the Registrar in the case of Registered Notes and notice to that effect has been given to the Noteholders in accordance with Condition 16.

(j) ***Fair market value***

For purposes of determining an Early Redemption Amount or any other amount due on early redemption of the Notes which is calculated by reference to the "fair market value" of a Note, the fair market value of a Note will be determined by the Calculation Agent, by reference to such Relevant Information (as defined in Condition 12) as it determines appropriate at the relevant time.

Where the relevant Notes provide for any minimum amount(s) of cash or assets to be payable or deliverable this shall be taken into account in determining the fair market value. However, the Calculation Agent shall reduce (i.e. discount) the value of such amounts in determining the fair market value to take into account the length of time remaining to the first possible date on which such amount(s) would otherwise have been payable or deliverable. Such discounting may be determined by reference to Relevant Information which may include risk free rate(s).

The Calculation Agent shall also take into account appropriate values for any other amount which would or could otherwise have been payable or deliverable under the relevant Notes. This may include the element of the return on the Notes determined by reference to the relevant assets or reference basis(es) to which the Notes relate (i.e. the derivative element). The relevant value for this element of the Notes may be determined by reference to the cost at the relevant time of entering into a transaction to provide similar amounts.

(k) ***Hedging Costs***

For the purposes of this Condition 6, "**Hedging Costs**" means, in respect of the Early Redemption Amount or Optional Redemption Amount (as the case may be and each a "**Relevant Redemption Amount**"), (A) the losses, expenses and costs (if any), including any loss of bargain or cost of funding (in which case the Relevant Redemption Amount will be adjusted downward to the extent of such losses, expenses and costs, provided that the Relevant Redemption Amount shall not be less than zero) or (B) the gain (in which case the Relevant Redemption Amount will be adjusted upward to the extent of such gain), as the case may be, to the Issuer and/or any of its Affiliate of unwinding, terminating, liquidating, adjusting, obtaining, replacing or re-establishing any underlying or related hedging arrangements (including, but not limited to, any options or selling or otherwise realising any instruments of any type whatsoever which the Issuer and/or any of its Affiliates may hold as part of such hedging arrangements), in each case expressed on a par Note basis and all as calculated by the Calculation Agent in its discretion.

7 TAXATION

The Issuer is not obliged to gross up or otherwise increase any payment in respect of any Notes and shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note, and all payments made by the Issuer shall be made subject to any

GENERAL TERMS AND CONDITIONS OF THE NOTES

tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted. To the extent that the Final Redemption Amount exceeds the Issue Price, the excess represents a commercial rate of return in compensation for the use of the Issue Price in full recognition of the risks and specific features of the associated underlying assets.

8 PRESCRIPTION

The Notes (whether in bearer or registered form), Receipts and Coupons will become void unless presented for payment within a period of ten years (in the case of principal) and five years (in the case of interest) after the Relevant Date therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 8 or Condition 5(b) or any Talon which would be void pursuant to Condition 5(b).

9 EVENTS OF DEFAULT

If any one or more of the following events (each, an "**Event of Default**") shall occur and be continuing:

- (a) if default is made in the payment of any principal or interest or delivery of any Asset Amount due in respect of the Notes or any of them and the default continues for a period of 45 days after the due date;
- (b) if the Issuer fails to perform or observe any one or more of its other obligations under the Conditions and (except in any case where the failure is incapable of remedy when no such continuation or notice as is hereinafter mentioned will be required) the failure continues for the period of 30 days next following the service by a Noteholder on the Issuer of written notice requiring the same to be remedied; or
- (c) if an order is made or an effective resolution passed for winding up the Issuer, except for the purpose of a reconstruction or amalgamation and the entity resulting from such reconstruction or amalgamation assumes all the rights and obligations, as the case may be, of the Issuer (including its obligations under the Notes),

then any holder of a Note may, by written notice to the Issuer at the specified office of the Agent or the Registrar, as the case may be, effective upon the date of receipt thereof by the Agent or the Registrar, as the case may be, declare any Notes held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Early Redemption Amount, together with accrued interest (if any) to the date of payment, without presentment, demand, protest or other notice of any kind.

10 REPLACEMENT OF NOTES, NOTE CERTIFICATES, RECEIPTS, COUPONS AND TALONS

Should any Note, Note Certificate, Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Agent or, as the case may be, the Registrar, upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Note Certificates, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

11 AGENT, REGISTRAR, OTHER PAYING AGENTS AND CALCULATION AGENT ROLES

- (a) The names of the initial Agent and the other initial Paying Agents and their initial specified offices are set out below if this is a Bearer Note or the name and initial specified office of the initial Registrar are set out below if this is a Registered Note.

The Issuer is entitled to vary or terminate the appointment of the Registrar or any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which any Paying Agent acts, provided that:

- (i) there will at all times be an Agent and a Paying Agent, which may be the Agent;
- (ii) while the Notes are listed on any stock exchange or admitted to listing by any other relevant authority and are in definitive form, it will at all times maintain a Paying Agent having its specified office in such place as may be required by the rules and regulations of the relevant stock exchange or such other relevant authority;
- (iii) there will at all times be a Registrar and Transfer Agent in respect of Registered Notes which, so long as Registered Notes are listed on any stock exchange or admitted to listing by any other relevant authority, will have a specified office in such place as may be required by the rules and regulations of the relevant stock exchange or other relevant authority; and
- (iv) so long as any of the Registered Global Notes payable in a Specified Currency other than U.S. dollars are held through DTC or its nominee, there will at all times be an FX Agent with a specified office in New York City.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 5(e). Notice of any variation, termination, appointment or change in Paying Agents will be given to the Noteholders promptly by the Issuer in accordance with Condition 16.

In acting under the Notes Agency Agreement, the Paying Agents act solely as agents of the Issuer and do not assume any obligation to, or relationship of agency or trust with, any Noteholders, Receiptholders or Couponholders. The Notes Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor Paying Agent.

- (b) In relation to each issue of Notes where there is a Calculation Agent (whether it be the Issuer or a third party), it acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with the Noteholders.

12 DETERMINATIONS AND CALCULATIONS

All calculations, determinations, decisions, selections, elections and opinions made by the Issuer or Calculation Agent (as applicable) shall be made in its discretion in accordance with the Conditions, having regard in each case to any criteria stipulated therein, and shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Paying Agents and the Noteholders. The Issuer or Calculation Agent (as applicable) may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

Save as otherwise expressly provided, in considering whether and how to exercise its discretion, the Issuer and Calculation Agent (or such third party) shall act in good faith and in a commercially reasonable manner.

In exercising its discretion as described above, the Issuer or Calculation Agent (or such third party) may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the hedging arrangements (as described below) entered into by the Issuer and/or any of its Affiliates and/or any other relevant party (each a "**Relevant Party**") in respect of the Notes. The exercise of the Issuer or Calculation Agent's (or such third party's) discretion in respect of the Notes as provided herein is necessary because certain circumstances or events (for example a material modification or disruption to a relevant asset(s) to which the Notes are linked) may

GENERAL TERMS AND CONDITIONS OF THE NOTES

occur subsequent to the issuance of the Notes which may materially affect the costs to the Relevant Party of maintaining the Notes or any relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the Notes. In addition, as a result of certain circumstances or events (e.g. unavailability or disruption to any reference source) it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of any relevant asset(s) to which the Notes are linked or otherwise in connection with the Notes to be made, thus making it necessary for the Issuer or Calculation Agent (or such third party) to exercise its discretion in such a case.

As used in this Condition, **hedging arrangements** means the arrangements, if any, the Issuer makes to have available to it the relevant cash amounts or assets to be paid or delivered under the Notes as these fall due. This may involve a Relevant Party investing directly in an underlying reference asset or basis. Alternatively, a Relevant Party may make an indirect investment by entering into or acquiring a derivative contract referencing any relevant asset(s). Such hedging arrangements may be carried out on a portfolio basis (i.e. where the Relevant Party maintains arrangements for hedging the Notes together with other obligations of the Issuer and/or its Affiliates). A Relevant Party will seek to select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates, but will do so without having regard to the interests of Noteholders. A Relevant Party may also adjust hedging arrangements from time to time but will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements. For the avoidance of doubt, no Relevant Party is under any obligation to enter into any hedging arrangements and, if any hedging arrangements are entered into, such arrangements will not confer any rights or entitlements on any Noteholder and no Noteholder will have recourse to any such hedging arrangements.

The Issuer or Calculation Agent (or such third party) will employ the methodology described in the Conditions to determine amounts payable or deliverable in respect of the Notes. When making any such determination in relation to any amounts so payable or deliverable, the Issuer or Calculation Agent (or such third party) may in its sole and absolute discretion consider any relevant information ("**Relevant Information**"), which may but is not required to include, without limitation, one or more of the following:

- (i) quotations (either firm or indicative) supplied by one or more third parties or information sources;
- (ii) information consisting of relevant market data in the relevant markets supplied by one or more third parties or information sources including, without limitation, relevant rates, prices, yields, yield curves, volatilities, spreads correlation or other relevant market data in the relevant market; or
- (iii) information of the types described in (i) or (ii) above from internal sources (including any Affiliate of the Issuer or Calculation Agent) or other information of a type used by the Issuer or Calculation Agent (or such third party) in the regular course of its business or in connection with similar transactions.

Whenever the Issuer or Calculation Agent (or such third party) is required to make any determination it may, inter alia, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Issuer or Calculation Agent (or such third party) in the performance or exercise of any of its obligations or discretions under the Notes including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion.

Where specified in the Conditions, notice of any such determination (and details of the adjustments made or other actions taken) shall be given to Noteholders as soon as practicable and pursuant to Condition 16 (provided that any failure to give such notice shall not affect the validity of the action taken).

The Issuer and/or the Calculation Agent and/or such other persons makes no express or implied representations or warranties as to (i) the advisability of investing in or obtaining

exposure to the Notes, (ii) the value of the Notes at any particular time on any particular date, or (iii) any amounts that may become payable or deliverable in respect of the Notes.

Without limiting any of the foregoing, in no event shall the Calculation Agent and/or such other persons have any liability (whether in negligence or otherwise) to any Noteholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

The Calculation Agent and/or such other persons shall not have any responsibility to any holder for any errors or omissions in any calculations or determinations in respect of the Notes and acts solely as an agent of the Issuer and does not assume any obligations towards or relationship of agency or trust for or with any holder.

In addition to providing calculation agency services to the Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the Issuer and any Series of Notes including, but not limited to, for example, being involved in arrangements relating to any relevant asset(s). Furthermore, the Calculation Agent or any of its Affiliates may contract with the Issuer and/or enter into transactions which relate to the Issuer, the Notes or any relevant asset(s) and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Issuer nor the Calculation Agent in respect of the Notes shall owe any duty or responsibility to any Noteholder to avoid any conflict or to act in the interests of any Noteholder.

13 CORRECTIONS

In the event that any level, price, rate or value (as applicable) of an underlying reference asset for any time on any day which is published or announced by or on behalf of the person or entity responsible for such publication or announcement and which is used for any calculation or determination made in respect of the Notes is subsequently corrected, and the correction (the "**Corrected Level**") is published by or on behalf of such person or entity within the relevant Correction Period after the original publication (and at least two Business Days prior to the relevant date on which a payment or delivery is scheduled to be made under the Notes (the "**Relevant Scheduled Payment Date**")), then the Calculation Agent may (but need not) deem such Corrected Level to be the level, price, rate or value for the relevant underlying reference asset for the relevant time on the relevant day and, in such circumstances, the Calculation Agent shall use such Corrected Level in determining any amounts payable and/or deliverable in respect of the Notes. Corrections published after the day which is two Business Days prior to the Relevant Scheduled Payment Date shall be disregarded by the Calculation Agent for the purposes of determining any such amounts payable and/or deliverable under the Notes.

Where "**Correction Period**" means the period of time specified as such in the applicable Issue Terms and which may, for the avoidance of doubt, be expressed to be "at any time". If no such period is so specified, the Correction Period shall be construed to be 2 Business Days.

14 RESPONSIBILITY

Neither the Issuer nor the Calculation Agent (or any third party) shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or announcement of any level, price, rate or value (as applicable) of any underlying reference asset, whether caused by negligence or otherwise.

15 EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final

date for the payment of interest due in respect of the Bearer Note to which it appertains) a further Talon, subject to the provisions of Condition 8.

16 NOTICES

- (a) All notices regarding the Bearer Notes will be deemed to be validly given if published in a leading English language daily newspaper of general circulation in London. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any stock exchange on which the Notes are for the time being listed, including publication on the website of the relevant stock exchange if required by those rules. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication.

All notices to holders of Registered Notes will be deemed validly given if mailed to their registered addresses appearing on the Register. Any such notice shall be deemed to have been given on the third day after the day on which it was mailed. In addition, for so long as any Notes are listed on a stock exchange and the rules of that stock exchange so require, a copy of such notice will be published in a daily newspaper of general circulation in the place or places required by those rules.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg and/or DTC, be substituted for such publication as described above the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or DTC for communication by them to the holders of the Notes and the Issuer shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any stock exchange on which the Notes are for the time being listed, including publication on the website of the relevant stock exchange if required by those rules. Any such notice shall be deemed to have been given to the holders of the Notes on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg and/or DTC.

- (b) Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relevant Note or Notes, with the Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes), as the case may be. Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Agent or the Registrar through Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, may approve for this purpose. Any such notice shall be deemed to have been given on the day when delivered or if delivered after 5.00 p.m. in the place of location of the Issuer on an Issuer Business Day, will be deemed effective on the next following Issuer Business Day.

17 MEETINGS OF NOTEHOLDERS, MODIFICATION AND WAIVER

The Notes Agency Agreement provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Notes Agency Agreement by a majority consisting of not less than 75 per cent. of the votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of all the Notes for the time being outstanding or (iii) consent given by way of electronic consents through the relevant clearing system(s) (in a form satisfactory to the Agent) by or on behalf of the holders of all the Notes for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. An Extraordinary Resolution passed by the Noteholders will be binding on all the Noteholders, whether or not they are present at any meeting and whether or not they voted on the resolution, and on all Receipholders and Couponholders.

The Notes Agency Agreement contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary

Resolution of a modification of the Notes, the Receipts, the Coupons or any of the provisions of the Notes Agency Agreement. Such a meeting may be convened by the Issuer or Noteholders holding not less than 5 per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes, the Receipts or the Coupons (including modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the Asset Amount or the Rate of Interest payable in respect of the Notes or altering the currency of payment of the Notes, the Receipts or the Coupons), the quorum shall be one or more persons holding or representing not less than two-thirds in nominal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing not less than one-third in nominal amount of the Notes for the time being outstanding.

The Issuer may make, without the consent of the Noteholders, Receiptholders or Couponholders:

20 CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

21 GOVERNING LAW AND SUBMISSION TO JURISDICTION

(a) *Governing Law*

The Notes Agency Agreement, the SCB Notes Deed of Covenant, the SCBHK Notes Deed of Covenant, the SCBSL Notes Deed of Covenant, the Notes, the Receipts and the Coupons and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law.

(b) Submission to Jurisdiction

Subject as provided below, the English courts are to have exclusive jurisdiction to settle any disputes arising out of or in connection with the Notes, the Receipts and/or the Coupons, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity, and any dispute relating to any non-contractual obligations arising out of or in connection with the Notes, the Receipts and/or the Coupons (a "**Dispute**") and accordingly each of the Issuer and any Noteholder, Receiptholder or Couponholder in relation to any Dispute, submits to the exclusive jurisdiction of the English courts.

For the purposes of this Condition 21(b), the Issuer hereby waives any objection to the English courts on the grounds that they are in an inconvenient or inappropriate forum to settle any Dispute.

To the extent allowed by law, the Noteholders, the Receiptholders and the Couponholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with competent jurisdiction and/or (ii) concurrent proceedings in any number of jurisdictions.

(c) Appointment of Process Agent

Where the Issuer is SCBHK or SCBSL, SCBHK or SCBSL, as the case may be, irrevocably appoints SCB at its principal office in London at 1 Basinghall Avenue, London EC2V 5DD as its agent for service of process in any proceedings before the English courts in relation to any Dispute, and agrees that, in the event of SCB at its principal office in London being unable or unwilling for any reason so to act, it will appoint another person as its agent for service of process in England in respect of any Dispute. SCBHK or SCBSL, as the case may be, agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing herein shall affect the right to serve process in any other manner permitted by law.

(d) Waiver of trial by jury

WITHOUT PREJUDICE TO CONDITION 21(b), THE ISSUER WAIVES ANY RIGHT IT MAY HAVE TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION IN CONNECTION WITH THE NOTES. THESE CONDITIONS MAY BE FILED AS A WRITTEN CONSENT TO A BENCH TRIAL.

(e) Other Documents

The Issuer has in the Notes Agency Agreement and the SCBHK Notes Deed of Covenant or the SCBSL Notes Deed of Covenant (as applicable) submitted to the jurisdiction of the English courts and, where the Issuer is SCBHK or SCBSL, appointed an agent for service of process in terms substantially similar to those set out above.

22 REDEMPTION OR ADJUSTMENT FOR AN ADMINISTRATOR/BENCHMARK EVENT

GENERAL TERMS AND CONDITIONS OF THE NOTES

and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks and (ii) determine the effective date of that adjustment; or

- (ii) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such adjustment, having given not more than 30 nor less than 15 days' notice to the Noteholders in accordance with Condition 16, on expiry of such notice redeem all, but not some only, of the Notes, each Note being redeemed at its Early Redemption Amount referred to in Condition 6(e) above.

In determining any adjustments pursuant to (i) above, the Issuer may, without limitation, have regard to relevant information (as described in Condition 12 (*Determinations and Calculations*) above), industry developments and market consensus.

Upon the occurrence of an Administrator/Benchmark Event, the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 16, stating the occurrence of the Administrator/Benchmark Event and giving details thereof and the action proposed to be taken in relation thereto.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Notes. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole and absolute discretion.

"Administrator/Benchmark Event" means the Calculation Agent determines that (1) a Benchmark Modification or Cessation Event has occurred or will occur or (2) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case, with the effect that the Issuer or the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Benchmark to perform its or their respective obligations under the Notes or (3) it is not commercially reasonable to continue the use of a relevant Benchmark in connection with the Notes from the perspective of the Issuer or the Calculation Agent, or the Issuer or the Calculation Agent suffers or will suffer an increased cost, in each case, as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation Agent or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the Notes and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence) or (4) there has been a formal public statement or publication of information by the supervisor of the administrator or sponsor of the relevant Benchmark, the central bank for the currency of the Benchmark or another official body with applicable responsibility announcing that such Benchmark is no longer representative, or as of a specified future date will no longer be capable of being representative, of any relevant underlying market(s) or economic reality that such Benchmark is intended to measure.

"Benchmark" means any figure, level, rate or value by reference to which any amount payable or deliverable under the Notes, or the value of the Notes, is determined in whole or in part (including, without limitation, any benchmark, as defined in the BMR), all as determined by the Calculation Agent.

In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Certificates, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Certificates that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on the Certificates that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

GENERAL TERMS AND CONDITIONS OF THE CERTIFICATES

If any date for payment in respect of any Certificate is not a Payment Day, Certificateholders shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to any interest or other payment in respect of such postponed payment.

(g) **Fair market value**

For purposes of determining any amount due on early redemption of the Certificates which is calculated by reference to the "fair market value" of a Certificate, the fair market value of a Certificate will be determined by the Calculation Agent, by reference to such Relevant Information (as defined in Condition 8) as it determines appropriate at the relevant time.

Where the relevant Certificates provide for any minimum amount(s) of cash or assets to be payable or deliverable this shall be taken into account in determining the fair market value. However, the Calculation Agent shall reduce (i.e. discount) the value of such amounts in determining the fair market value to take into account the length of time remaining to the first possible date on which such amount(s) would otherwise have been payable or deliverable. Such discounting may be determined by reference to Relevant Information which may include risk free rate(s).

The Calculation Agent shall also take into account appropriate values for any other amount which would or could otherwise have been payable or deliverable under the relevant Certificates. This may include the element of the return on the Certificates determined by reference to the relevant assets or reference basis(es) to which the Certificates relate (i.e. the derivative element). The relevant value for this element of the Certificates may be determined by reference to the cost at the relevant time of entering into a transaction to provide similar amounts.

(h) **Hedging Costs**

For the purposes of this Condition 3, "**Hedging Costs**" means, in respect of the Early Redemption Amount, (A) the losses, expenses and costs (if any), including any loss of bargain or cost of funding (in which case the Relevant Redemption Amount will be adjusted downward to the extent of such losses, expenses and costs, provided that the Relevant Redemption Amount shall not be less than zero) or (B) the gain (in which case the Relevant Redemption Amount will be adjusted upward to the extent of such gain), as the case may be, to the Issuer and/or any of its Affiliate of unwinding, terminating, liquidating, adjusting, obtaining, replacing or re-establishing any underlying or related hedging arrangements (including, but not limited to, any options or selling or otherwise realising any instruments of any type whatsoever which the Issuer and/or any of its Affiliates may hold as part of such hedging arrangements), in each case expressed on a par Certificate basis and all as calculated by the Calculation Agent in its discretion.

4. **PROCEDURE FOR EARLY REDEMPTION AT THE OPTION OF THE CERTIFICATEHOLDERS**

This Condition only applies to Certificates in respect of which the applicable Pricing Supplement specifies that Investor Put is applicable.

(a) **Certificateholder Put Option**

To redeem Certificates early, a duly completed early redemption notice in the form and with the content prescribed by the relevant Clearing System(s) through which the relevant Certificateholder redeems early its Certificates (an "**Early Redemption Notice**") must be delivered to that relevant Clearing System(s) and a copy sent for information purposes to the Principal Certificate Agent or any additional or such other Certificate Agent as may be specified for such purpose in the applicable Pricing

Supplement on or prior to the Cut-off Time on any day that is an Early Redemption Notification Date.

An Early Redemption Notice delivered after the relevant Cut-off Time on the Early Redemption Notification Date shall be void.

Each Early Redemption Notice shall be deemed to constitute an irrevocable election and undertaking by the holder of the number of Certificates specified in it to redeem early such Certificates.

Failure to send a copy of the Early Redemption Notice to any relevant Certificate Agent will not affect the validity of the Early Redemption Notice and, in the case of any discrepancy between the Early Redemption Notice delivered to the relevant Clearing System(s) and such copy, the terms of the Early Redemption Notice sent to the relevant Clearing System(s) shall prevail.

(b) Verification

In accordance with its normal operating procedures, the relevant Clearing System(s) is expected to verify that, according to its records, each person redeeming Certificates has Certificates in the amount being redeemed in its securities account with the relevant Clearing System(s) on the Early Redemption Notification Date. If the relevant Clearing System(s) or the Principal Certificate Agent determines that an Early Redemption Notice is improperly completed or the Clearing System(s) determines that the relevant Certificateholder has insufficient Certificates in the Clearing System account(s) specified on the Early Redemption Notification Date, the Early Redemption Notice will be treated as void.

(c) Notification of Principal Certificate Agent

The relevant Clearing System(s) is expected to notify the Principal Certificate Agent, in accordance with its normal operating procedures, of (i) the number and details of Certificates being redeemed early, and (ii) details of the account to which the relevant Early Redemption Amount is to be credited. If the relevant Clearing System(s) fails so to notify the Principal Certificate Agent, the Early Redemption Notice shall be void unless the relevant Clearing System(s) so notifies the Principal Certificate Agent by 12.00 noon (London time) on the third Business Day after the Early Redemption Notification Date.

(d) Debit of Certificateholder's account

The relevant Clearing System(s) is expected on the relevant Early Redemption Date, in accordance with its normal operating procedures, to debit the relevant account of the Certificateholder with the Certificate(s) being redeemed early.

(e) Early Redemption subject to applicable laws etc.

Early redemption of the Certificates and payment by the Issuer of any Early Redemption Amount will be subject in all cases to all applicable fiscal and other laws, regulations and practices in force at the relevant time (including, without limitation, any relevant exchange control laws or regulations and the rules and procedures of the relevant Clearing System(s)) and neither the Issuer nor any Certificate Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated after using all reasonable efforts, as a result of any such laws, regulations and practices. Neither the Issuer nor any Certificate Agent shall under any circumstances be liable for any acts or defaults of any Clearing System(s) in the performance of its duties in relation to the Certificates.

GENERAL TERMS AND CONDITIONS OF THE CERTIFICATES

(f) **Determinations**

Any determination as to whether an Early Redemption Notice is duly completed and in proper form shall be made by the relevant Clearing System(s), or, as the case may be, the Principal Certificate Agent, and shall be conclusive and binding on the Issuer, the Certificate Agents and the relevant Certificateholder.

(g) **Effect of Early Redemption Notice**

Delivery of an Early Redemption Notice shall constitute an irrevocable election and undertaking by the Certificateholder to redeem early the Certificates specified therein, provided that the person redeeming early and delivering such Early Redemption Notice is the person then appearing in the books of the relevant Clearing System(s) as the holder of the relevant Certificates. If the person redeeming early and delivering the Early Redemption Notice is not the person so appearing, such Early Redemption Notice shall for all purposes be void.

After the delivery of an Early Redemption Notice (other than an Early Redemption Notice which shall have become void), the Certificateholder specified in such Early Redemption Notice may not otherwise transfer such Certificates. Notwithstanding this, if any Certificateholder does so transfer or attempts to transfer such Certificates, the Certificateholder will be liable to the Issuer for any losses, costs and expenses suffered or incurred by the Issuer including those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant Early Redemption Notice and subsequently (i) entering into replacement hedging operations in respect of such Certificates or (ii) paying any amount on the subsequent early redemption of such Certificates without having entered into any replacement hedging operations.

5. TAXATION

The Issuer is not liable for or otherwise obliged to pay, and the relevant Certificateholder shall pay, any tax, duty, charges, withholding or other payment which may arise as a result of, or in connection with, the ownership, transfer, redemption or enforcement of any Certificate, including, without limitation, the payment of any Early Redemption Amount or Final Redemption Amount. The Issuer shall have the right, but not the duty, to withhold or deduct from any amount payable to the Certificateholder such amount as is necessary (i) for the payment of any such taxes, duties, charges, withholdings or other payments or (ii) for effecting reimbursement to the Issuer for any payment by it of any tax, duty, charge, withholding or other payment referred to in this Condition. To the extent that the Final Redemption Amount exceeds the Issue Price, the excess represents a commercial rate of return in compensation for the use of the Issue Price in full recognition of the risks and specific features of the associated underlying assets.

6. PURCHASES BY THE ISSUER

The Issuer and any subsidiary of the Issuer may at any time purchase Certificates at any price in the open market or by tender or private treaty. Any Certificates so purchased may be held or resold or surrendered for cancellation.

7. CERTIFICATE AGENTS AND CALCULATION AGENT

- (a) The names of the Principal Certificate Agent and the other initial Certificate Agents and their initial specified offices are set out below.

The Issuer is entitled to vary or terminate the appointment of any Certificate Agent and/or appoint additional or other Certificate Agents and/or approve any change in the specified office through which any Certificate Agent acts, provided that there will at all times be a Principal Certificate Agent and a Certificate Agent, which may be the Principal Certificate Agent and, if and so long as the Certificates are listed on any stock

exchange, there will at all times be a Certificate Agent with a specified office in such place as may be required by the rules and regulations of the relevant listing authority or stock exchange.

In acting under the Warrants and Certificates Agency Agreement, the Certificate Agents act solely as agents of the Issuer and do not assume any obligation to, or relationship of agency or trust with, any Certificateholders. The Warrants and Certificates Agency Agreement contains provisions permitting any entity into which any Certificate Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor certificate agent.

- (b) In relation to each issue of Certificates where there is a Calculation Agent (whether it be the Issuer or a third party), it acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with the Certificateholders.

8. Determinations and Calculations

All calculations, determinations, decisions, selections, elections and opinions made by the Issuer or Calculation Agent (as applicable) shall be made in its discretion in accordance with the Conditions, having regard in each case to criteria stipulated therein, and shall (save in the case of manifest error) be final, conclusive and binding on the Issuer or Calculation Agent (as applicable), the Certificate Agents and the Certificateholders. The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

Save as otherwise expressly provided, in considering whether and how to exercise its discretion, the Issuer and Calculation Agent (or such third party) shall act in good faith and in a commercially reasonable manner.

In exercising its discretion as described above, the Issuer or the Calculation Agent (or such third party) may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the hedging arrangements (as described below) entered into by the Issuer and/or any of its Affiliates and/or any other relevant party (each a "**Relevant Party**") in respect of the Certificates. The exercise of the Issuer or Calculation Agent's (or such third party's) discretion in respect of the Certificates as provided herein is necessary because certain circumstances or events (for example a material modification or disruption to a relevant asset(s) to which the Certificates are linked) may occur subsequent to the issuance of the Certificates which may materially affect the costs to the Relevant Party of maintaining the Certificates or any relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the Certificates. In addition, as a result of certain circumstances or events (e.g. unavailability or disruption to any reference source) it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of any relevant asset(s) to which the Certificates are linked or otherwise in connection with the Certificates to be made, thus making it necessary for the Issuer or Calculation Agent (or such third party) to exercise its discretion in such a case.

As used in this Condition, **hedging arrangements** means the arrangements, if any, the Issuer makes to have available to it the relevant cash amounts or assets to be paid or delivered under the Certificates as these fall due. This may involve a Relevant Party investing directly in an underlying reference asset or basis. Alternatively, a Relevant Party may make an indirect investment by entering into or acquiring a derivative contract referencing any relevant asset(s). Such hedging arrangements may be carried out on a portfolio basis (i.e. where the Relevant Party maintains arrangements for hedging the Certificates together with other obligations of the Issuer and/or its Affiliates). A Relevant Party will seek to select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates, but will do so without having regard to the interests of Certificateholders. A Relevant Party may also adjust hedging arrangements from time to time but will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements. For

GENERAL TERMS AND CONDITIONS OF THE CERTIFICATES

the avoidance of doubt, no Relevant Party is under any obligation to enter into any hedging arrangements and, if any hedging arrangements are entered into, such arrangements will not confer any rights or entitlements on any Certificateholder and no Certificateholder will have recourse to any such hedging arrangements.

The Issuer or Calculation Agent (or such third party) will employ the methodology described in the Conditions to determine amounts payable or deliverable in respect of the Certificates. When making any such determination in relation to any amounts so payable or deliverable, the Issuer or Calculation Agent (or such third party) may in its discretion consider any relevant information ("**Relevant Information**"), which may but is not required to include, without limitation, one or more of the following:

- (i) quotations (either firm or indicative) supplied by one or more third parties or information sources;
- (ii) information consisting of relevant market data in the relevant markets supplied by one or more third parties or information sources including, without limitation, relevant rates, prices, yields, yield curves, volatilities, spreads correlation or other relevant market data in the relevant market; or
- (iii) information of the types described in (i) or (ii) above from internal sources (including any Affiliate of the Issuer or Calculation Agent) or other information of a type used by the Issuer or Calculation Agent (or such third party) in the regular course of its business or in connection with similar transactions.

Whenever the Issuer or Calculation Agent (or such third party) is required to make any determination it may, inter alia, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Issuer or Calculation Agent or such third party in the performance or exercise of any of its obligations or discretions under the Certificates including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion.

Where specified in the Conditions, notice of any such determination (and details of the adjustments made or other actions taken) shall be given to Certificateholders as soon as practicable and pursuant to Condition 9 (provided that any failure to give such notice shall not affect the validity of the action taken).

The Issuer and/or the Calculation Agent and/or such other persons makes no express or implied representations or warranties as to (i) the advisability of investing in or obtaining exposure to the Certificates, (ii) the value of the Certificates at any particular time on any particular date, or (iii) any amounts that may become payable or deliverable in respect of the Certificates.

Without limiting any of the foregoing, in no event shall the Calculation Agent and/or such other persons have any liability (whether in negligence or otherwise) to any Certificateholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

The Calculation Agent and/or such other persons shall not have any responsibility to any holder for any errors or omissions in any calculations or determinations in respect of the Certificates and acts solely as an agent of the Issuer and does not assume any obligations towards or relationship of agency or trust for or with any holder.

In addition to providing calculation agency services to the Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the Issuer and any Series of Certificates including, but not limited to, for example, being involved in arrangements relating to any relevant asset(s). Furthermore, the Calculation Agent or any of its Affiliates may contract with the Issuer and/or enter into transactions which relate to the Issuer, the Certificates or any relevant asset(s) and as a result the Calculation Agent may face a conflict between its

obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Issuer nor the Calculation Agent in respect of the Certificates shall owe any duty or responsibility to any Certificateholder to avoid any conflict or to act in the interests of any Certificateholder.

9. Corrections

In the event that any level, price, rate or value (as applicable) of an underlying reference asset for any time on any day which is published or announced by or on behalf of the person or entity responsible for such publication or announcement and which is used for any calculation or determination made in respect of the Certificates is subsequently corrected, and the correction (the "**Corrected Level**") is published by or on behalf of such person or entity within the relevant Correction Period after the original publication (and at least two Business Days prior to the relevant date on which a payment or delivery is scheduled to be made under the Certificates (the "**Relevant Scheduled Payment Date**")), then the Calculation Agent may (but need not) deem such Corrected Level to be the level, price, rate or value for the relevant underlying reference asset for the relevant time on the relevant day and, in such circumstances, the Calculation Agent shall use such Corrected Level in determining any amounts payable and/or deliverable in respect of the Certificates. Corrections published after the day which is two Business Days prior to the Relevant Scheduled Payment Date shall be disregarded by the Calculation Agent for the purposes of determining any such amounts payable and/or deliverable under the Certificates.

Where "**Correction Period**" means the period of time specified as such in the applicable Issue Terms and which may, for the avoidance of doubt, be expressed to be "at any time". If no such period is so specified, the Correction Period shall be construed to be 2 Business Days.

10. RESPONSIBILITY

Neither the Issuer nor the Calculation Agent (or any third party) shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or announcement of any level, price, rate or value (as applicable) of an underlying reference asset, whether caused by negligence otherwise.

11. NOTICES

- (a) All notices to Certificateholders shall be valid if delivered to the Clearing System(s), for communication by them to the Certificateholders. The Issuer shall also ensure that the notices are duly published in a manner which complies with the rules and regulations of any stock exchange on which the Certificates are for the time being listed, including publication on the website of the relevant stock exchange if required by those rules. Any such notice shall be deemed to have been given on the weekday following such delivery to the Clearing System(s) or, if published more than once or on different dates, on the date of the first such publication.
- (b) Any notice to be given by a Certificateholder to the Issuer may be given by such Certificateholder to the Principal Certificate Agent through the relevant Clearing System(s) in such manner as the Principal Certificate Agent and the relevant Clearing System(s) may approve for this purpose. Any such notice shall be deemed to have been given on the day when delivered or, if delivered after 5.00 p.m. in the place of location of the Issuer on an Issuer Business Day, will be deemed effective on the next following Issuer Business Day. The relevant Certificateholder must provide satisfactory evidence to the Issuer of its holding of Certificates which is expected to be in the form of certification from the Clearing System(s).

12. MEETINGS OF CERTIFICATEHOLDERS, MODIFICATION AND WAIVER

- (a) **Meetings**

GENERAL TERMS AND CONDITIONS OF THE CERTIFICATES

The Warrants and Certificates Agency Agreement contains provisions for convening meetings of the Certificateholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Warrants and Certificates Agency Agreement) of a modification of any terms of the Certificates or the Warrants and Certificates Agency Agreement. At least 21 days' notice (exclusive of the day on which the notice is given and the day on which the meeting is to be held) specifying the date, time and place of the meeting shall be given to Certificateholders in accordance with Condition 9. Such a meeting may be convened by the Issuer or Certificateholders holding not less than 10 per cent. (by number) of the Certificates for the time being remaining outstanding. The quorum at a meeting of the Certificateholders (except for the purpose of passing an Extraordinary Resolution) will be two or more persons holding or representing not less than 10 per cent. (by number) of the Certificates for the time being remaining outstanding, or at any adjourned meeting two or more persons holding Certificates or representing Certificateholders, whatever the number of Certificates so held or represented. The quorum at a meeting of Certificateholders for the purpose of passing an Extraordinary Resolution will be two or more persons holding or representing not less than 50 per cent. (by number) of the Certificates for the time being remaining outstanding or at any adjourned meeting two or more persons holding or representing not less than 10 per cent. (by number) of the Certificates for the time being remaining outstanding. A resolution will be an Extraordinary Resolution when it has been passed at a duly convened meeting by not less than three-fourths of the votes cast by Certificateholders at such meeting as, being entitled to do so, vote in person or by proxy. An Extraordinary Resolution passed by the Certificateholders will be binding on all the Certificateholders, whether or not they are present at any meeting and whether or not they voted on the resolution. Resolutions can be passed in writing if passed unanimously.

(b) **Modifications**

The Issuer may, without the consent of the Certificateholders, modify any terms of the Certificates and/or the Warrants and Certificates Agency Agreement and/or the relevant W&C Deed of Covenant in any manner which the Issuer may deem necessary or desirable provided that such modification (i) does not, in the determination of the Issuer, adversely affect the interests of the Certificateholders in any material respect or (ii) is of a formal, minor or technical nature or (iii) is to correct a manifest or proven error or to cure, correct or supplement any defective provision contained herein and/or therein or to comply with mandatory provisions of law. The Issuer may modify any terms of the Certificates and/or the Warrants and Certificates Agency Agreement and/or the relevant W&C Deed of Covenant in any other manner with the prior consent of the requisite majority of Certificateholders as specified in the Warrants and Certificates Agency Agreement.

Notice of any such modification will be given to the Certificateholders in accordance with Condition 9 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification. In connection with such right of modification, the Issuer shall not be obliged to have regard to the consequences of the exercise of such right for any particular Certificateholder resulting from that Certificateholder being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory, and no Certificateholder shall be entitled to claim from the Issuer any indemnification or payment in respect of any tax or other consequence of any such modification.

13. **SUBSTITUTION**

- (i) The Issuer may, at any time, without the consent of the Certificateholders, substitute for itself any company (the "**Substitute**") being any Affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells, leases, transfers or conveys all or substantially all its property, subject to:

- (A) where the Substitute is an Affiliate of the Issuer, the Substitute having a long-term unsecured debt rating equal to or higher than that of the Issuer given by an internationally recognised rating agency or having the benefit of a guarantee from the Issuer or another Affiliate of the Issuer with such a debt rating;
 - (B) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of necessary consents and regulatory approvals) to ensure that the Certificates and the relevant W&C Deed of Covenant represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done, and are in full force and effect;
 - (C) the Substitute becoming party to the Warrants and Certificates Agency Agreement with any appropriate consequential amendments, as if it had been an original party to it in place of the Issuer;
 - (D) such substitution being permitted by the rules of any stock exchange on which the Certificates are listed and each such stock exchange confirming that, following the proposed substitution of the Substitute, the Certificates will continue to be listed on such stock exchange;
 - (E) if appropriate, the Substitute appointing a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Certificates; and
 - (F) the Issuer giving at least 30 days' prior notice of the date of such substitution to the holders in accordance with Condition 11.
- (ii) Upon such substitution, any reference in the Conditions to the Issuer shall be deemed to be a reference to the Substitute.
 - (iii) After a substitution pursuant to Condition 13(i), the Substitute may, without the consent of any holder, effect a further substitution. All the provisions specified in Condition 13(i) or 13(ii) shall apply *mutatis mutandis*, and references in the Conditions to the Issuer shall, where the context so requires, be deemed to be or include references to any such further Substitute.
 - (iv) For so long as any Certificates are listed on a stock exchange, such stock exchange shall be notified of any such consolidation, merger or substitution and the requirements of such stock exchange in respect of such consolidation, merger or substitution shall be complied with.

14. FURTHER ISSUES

The Issuer shall be at liberty from time to time, without the consent of the Certificateholders, to create and issue further certificates having terms and conditions the same as the Certificates or the same in all respects save for the date of the first Interim Payment thereon and the Issue Date and/or the Issue Price and so that the same shall be consolidated and form a single Series with the outstanding Certificates.

15. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Certificate, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

16. GOVERNING LAW AND SUBMISSION TO JURISDICTION

(a) Governing law

The Warrants and Certificates Agency Agreement, the SCB W&C Deed of Covenant, the SCBHK W&C Deed of Covenant, the SCBSL W&C Deed of Covenant, the Certificates and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law.

(b) Submission to jurisdiction

Subject as provided below, the English courts are to have exclusive jurisdiction to settle any disputes arising out of or in connection with the Certificates, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity, and any dispute relating to any non-contractual obligations arising out of or in connection with the Certificates (a "**Dispute**") and accordingly each of the Issuer and any Certificateholder in relation to any Dispute, submits to the exclusive jurisdiction of the English courts.

For the purposes of this Condition 16(b), the Issuer hereby waives any objection to the English courts on the grounds that they are in an inconvenient or inappropriate forum to settle any Dispute.

To the extent allowed by law, the Certificateholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with competent jurisdiction and/or (ii) concurrent proceedings in any number of jurisdictions.

(c) Appointment of Process Agent

Where the Issuer is SCBHK or SCBSL, SCBHK or SCBSL, as the case may be, irrevocably appoints SCB at its principal office in London at 1 Basinghall Avenue, London EC2V 5DD as its agent for service of process in any proceedings before the English courts in relation to any Dispute, and agrees that, in the event of SCB at its principal office in London being unable or unwilling for any reason so to act, it will appoint another person as its agent for service of process in England in respect of any Dispute. SCBHK or SCBSL, as the case may be, agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing herein shall affect the right to serve process in any other manner permitted by law.

(d) Waiver of trial by jury

WITHOUT PREJUDICE TO CONDITION 16(b), THE ISSUER WAIVES ANY RIGHT IT MAY HAVE TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION IN CONNECTION WITH THE CERTIFICATES. THESE CONDITIONS MAY BE FILED AS A WRITTEN CONSENT TO A BENCH TRIAL.

(e) Other documents

The Issuer has in the Warrants and Certificates Agency Agreement and the SCBHK W&C Deed of Covenant or the SCBSL W&C Deed of Covenant (as applicable) submitted to the jurisdiction of the English courts and, where the Issuer is SCBHK or SCBSL, appointed an agent for service of process in terms similar to those set out above.

17. REDEMPTION OR ADJUSTMENT FOR AN ADMINISTRATOR/BENCHMARK EVENT

In the event that an Administrator/Benchmark Event occurs, the Issuer may (at its option):

- (i) require the Calculation Agent to (i) make such adjustment to the Conditions as it determines appropriate to account for the relevant event or circumstance and, without limitation, such adjustments may (a) consist of one or more amendments and/or be made on one or more dates (b) be determined by reference to any adjustment(s) in respect of the relevant event or circumstance made in relation to any hedging arrangements in respect of the Certificates and (c) include selecting a successor benchmark(s) and making related adjustments to the Conditions including where applicable to reflect any increased costs of the Issuer providing such exposure to the successor benchmark(s) or apply an adjustment cost which may be positive or negative and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks and (ii) determine the effective date of that adjustment; or
- (ii) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such adjustment, having given not more than 30 nor less than 15 days' notice to the Certificateholders in accordance with Condition 11, on expiry of such notice redeem all, but not some only, of the Certificates, each Certificate being redeemed at its Early Redemption Amount as defined herein.

In determining any adjustments pursuant to (i) above, the Issuer may, without limitation, have regard to relevant information (as described in Condition 8 (*Determinations and Calculations*) above), industry developments and market consensus.

Upon the occurrence of an Administrator/Benchmark Event, the Calculation Agent shall give notice as soon as practicable to the Certificateholders in accordance with Condition 11, stating the occurrence of the Administrator/Benchmark Event and giving details thereof and the action proposed to be taken in relation thereto.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Certificates. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole and absolute discretion.

"Administrator/Benchmark Event" means the Calculation Agent determines that (1) a Benchmark Modification or Cessation Event has occurred or will occur or (2) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case, with the effect that the Issuer or the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Benchmark to perform its or their respective obligations under the Certificates or (3) it is not commercially reasonable to continue the use of a relevant Benchmark in connection with the Certificates from the perspective of the Issuer or the Calculation Agent, or the Issuer or the Calculation Agent suffers or will suffer an increased cost, in each case, as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation Agent or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the Certificates and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence) or (4) there has been a formal public statement or publication of information by the supervisor of the administrator or sponsor of the relevant Benchmark, the central bank for the currency of the Benchmark or another official body with applicable responsibility announcing that such Benchmark is no longer representative, or as of a specified future date will no longer be capable of being representative, of any relevant underlying market(s) or economic reality that such Benchmark is intended to measure.

"Benchmark" means any figure, level, rate or value by reference to which any amount payable or deliverable under the Certificates, or the value of the Certificates, is determined in whole or

GENERAL TERMS AND CONDITIONS OF THE CERTIFICATES

in part (including, without limitation, any benchmark, as defined in the BMR), all as determined by the Calculation Agent.

"Benchmark Modification or Cessation Event" means, in respect of the Benchmark any of the following:

- (i) any material change in such Benchmark;
- (ii) the permanent or indefinite cancellation or cessation in the provision of such Benchmark; or
- (iii) a regulator or other official sector entity prohibits the use of such Benchmark.

"BMR" means the EU Benchmark Regulation (Regulation (EU) 2016/1011), as amended from time to time.

1. POTENTIAL ADJUSTMENT EVENTS, DE-LISTING, MERGER EVENT, TENDER OFFER, NATIONALISATION, INSOLVENCY, ADDITIONAL DISRUPTION EVENTS, ETF FUND TERMINATION EVENT, underlying share event, FUND EVENT AND INDEX ADJUSTMENT EVENTS

- (i) If Potential Adjustment Events are specified as applying in the applicable Issue Terms, following the declaration by an Asset Issuer of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Underlying Asset and, if so, will (i) either (a) make the corresponding adjustment to the calculation of the relevant Underlying Asset price or any amount payable under the Securities (which may include the substitution of an Asset Issuer with another company or companies or fund(s) or depository and/or underlying share company (as the case may be), irrespective of whether such company or companies or fund(s) or depository and/or underlying share company (as the case may be) are then currently used for the purposes of the calculation of amounts payable under the Securities) and/or any of the other terms of these Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustment will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Underlying Asset) or (b) issue additional Securities with a view to preserve the direct economic link between the value of the Underlying Asset and the value of the Securities and (ii) determine the effective date of that adjustment. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Underlying Asset traded on that options exchange and/or, in the case of an Underlying Asset that is a Depositary Receipt, to any adjustment made by the Depositary under the Deposit Agreement.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with the General Conditions, stating the adjustment made to these Terms and Conditions and/or the applicable Issue Terms and giving brief details of the Potential Adjustment Event.

- (ii) If De-listing, Merger Event, Tender Offer, Nationalisation and/or Insolvency is specified as applying in the applicable Issue Terms, then if a De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency occurs in relation to an Underlying Asset, the Issuer, in its sole and absolute discretion, may:
- (A) require the Calculation Agent to (i) make such adjustment, if any, as it determines appropriate to the calculation of the relevant Underlying Asset price or any amount payable under the Securities (which may include the substitution of an Asset Issuer with another company or companies or fund(s) or depository and/or underlying share company (as the case may be), irrespective of whether such company or companies or fund(s) or depository and/or underlying share company (as the case may be) are then currently used for the purposes of the calculation of amounts payable under the Securities) and/or any of the other terms of these Terms and Conditions and/or the applicable Issue Terms to account for the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, and (ii) determine the effective date of that adjustment; or
- (B) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such an adjustment, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem or cancel the Securities by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

If the provisions of paragraph 1(ii)(A) above apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency made by an options exchange to options on the Underlying Asset traded on that options exchange and/or, in the case of an Underlying Asset that is a Depositary Receipt, to any adjustment made by the Depositary under the Deposit Agreement.

Upon the occurrence of (if applicable) a De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with the General Conditions, stating the occurrence of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, and giving details thereof and the action proposed to be taken in relation thereto.

- (iii) If "Change in Law" or "Insolvency Filing" is specified as applying in the applicable Issue Terms, then, upon the occurrence of such an event, the Issuer may, in its sole and absolute discretion, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem or cancel the Securities by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.
- (iv) If "Failure to Deliver" is specified as applying in the applicable Issue Terms, then, upon the occurrence of such an event, the Issuer, in its sole and absolute discretion, may:
 - (A) require the Calculation Agent to (i) make such adjustment, if any, as it determines appropriate to the calculation of the relevant Underlying Asset price or any amount payable under the Securities (which may include the substitution of an Asset Issuer with another company or companies or fund(s) or depositary and/or underlying share company (as the case may be), irrespective of whether such company or companies or fund(s) or depositary and/or underlying share company (as the case may be) are then currently used for the purposes of the calculation of amounts payable under the Securities and/or any of the other terms of the Conditions) to account for the Failure to Deliver and (ii) determine the effective date of that adjustment; or
 - (B) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such an adjustment, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem or cancel the Securities by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

If the provisions of paragraph 1(iv)(A) above apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Failure to Deliver made by an options exchange to options on the Underlying Asset traded on that options exchange.

Upon the occurrence of (if applicable) a Failure to Deliver, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with the General Conditions, stating the occurrence of the Failure to Deliver and giving details thereof and the action proposed to be taken in relation thereto.

- (v) If "Hedging Disruption" is specified as applying in the applicable Issue Terms, then the Issuer shall have the right to give notice of such Hedging Disruption in accordance with the General Conditions at any time to the Securityholders. The Issuer shall state in such notice whether the Securities will be terminated pursuant to paragraph 1(v)(A) or whether the Issuer's obligations under the Securities will be suspended pursuant to paragraph 1(v)(B). If the Issuer elects to give notice to Securityholders of a suspension of its obligations under the Securities pursuant to paragraph 1(v)(B), the Issuer shall

nevertheless retain the right at all times to terminate the Securities pursuant to paragraph 1(v)(A) by giving notice to Securityholders in accordance with the General Conditions.

- (A) Upon the Issuer's election to terminate the Securities as aforesaid (or upon expiry of the 10 day period referred to in paragraph 1(v)(B), the Issuer will, in respect of each and every Security, cause to be paid to the Securityholder an amount determined to be the fair market value of the Security as at termination (which may be zero) taking into consideration all information which the Calculation Agent deems relevant (including the circumstances that resulted in the occurrence of the Hedging Disruption) less the cost to the Issuer and/or its Affiliates of unwinding any related hedging arrangements (including, but not limited to, selling or otherwise realising the Underlying Asset(s) or any options or futures contracts in relation to the Underlying Asset(s) or any options or futures contracts in relation to the Index/Indices or any other such property), all as determined by the Calculation Agent.
 - (B) Upon the Issuer's election to suspend the Securities, the Issuer's obligations in respect of the Securities may be suspended up until the tenth day after the event causing such Hedging Disruption shall cease to exist.
- (vi) If "Loss of Stock Borrow" is specified as applying in the applicable Issue Terms, then, upon the occurrence of such an event, the Issuer, in its discretion, may:
- (A) require the Calculation Agent to (i) make such adjustment, if any, as it determines appropriate to the calculation of the relevant Underlying Asset price or any amount payable under the Securities (which may include the substitution of an Asset Issuer with another company or companies or depositary and/or underlying share company (as the case may be), irrespective of whether such company or companies or depositary and/or underlying share company (as the case may be) are then currently used for the purposes of the calculation of amounts payable under the Securities and/or any of the other Terms and Conditions and/or the applicable Issue Terms) to account for the Loss of Stock Borrow and (ii) determine the effective date of that adjustment; or
 - (B) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such an adjustment, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem or cancel the Securities by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

If the provisions of paragraph 1(vi)(A) above apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Loss of Stock Borrow made by an options exchange to options on the Underlying Asset traded on that options exchange.

Upon the occurrence of (if applicable) a Loss of Stock Borrow, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with the General Conditions, stating the occurrence of Loss of Stock Borrow and giving details thereof and the action proposed to be taken in relation thereto.

- (vii) If "Increased Cost of Stock Borrow" is specified as applying in the applicable Issue Terms, then, upon the occurrence of such an event, the Issuer, in its discretion, may:
- (A) require the Calculation Agent to (i) make such adjustment, if any, as it determines appropriate to the calculation of the relevant Underlying Asset price

or any amount payable under the Securities (which may include the substitution of an Asset Issuer with another company or companies or fund(s) or depositary and/or underlying share company (as the case may be), irrespective of whether such company or companies or fund(s) or depositary and/or underlying share company (as the case may be) are then currently used for the purposes of the calculation of amounts payable under the Securities and/or any of the other Terms and Conditions and/or the applicable Issue Terms) to account for the Increased Cost of Stock Borrow and (ii) determine the effective date of that adjustment; or

- (B) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such an adjustment, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem or cancel the Securities by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

If the provisions of paragraph 1(vi)(A) above apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Increased Cost of Stock Borrow made by an options exchange to options on the Underlying Asset traded on that options exchange.

Upon the occurrence of (if applicable) an Increased Cost of Stock Borrow, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with the General Conditions, stating the occurrence of the Increased Cost of Stock Borrow and giving details thereof and the action proposed to be taken in relation thereto.

- (viii) If "Increased Cost of Hedging" is specified as applying in the applicable Issue Terms, then, upon the occurrence of such an event, the Issuer, in its discretion, may:
 - (A) require the Calculation Agent to (i) make such adjustment, if any, as it determines appropriate to the calculation of the relevant Underlying Asset price, the level of the Index or any amount payable under the Securities (which may include the substitution of an Asset Issuer or Index with another company, companies, fund(s) or Index or depositary and/or underlying share company (as the case may be), irrespective of whether such company, companies, fund(s) or Index or depositary and/or underlying share company (as the case may be) are then currently used for the purposes of the calculation of amounts payable under the Securities) to account for and pass on to Securityholders the Increased Cost of Hedging and (ii) determine the effective date of that adjustment; or
 - (B) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such an adjustment, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem or cancel the Securities by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

If the provisions of paragraph 1(viii)(A) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Increased Cost of Hedging made by an options exchange to options on the Underlying Asset or Index traded on that options exchange.

Upon the occurrence of (if applicable) an Increased Cost of Hedging, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance

with the General Conditions, stating the occurrence of the Increased Cost of Hedging and giving details thereof and the action proposed to be taken in relation thereto.

- (ix) If one or more of the Underlying Assets is an ETF Security and "ETF Fund Termination Event" is specified as applying in the applicable Issue Terms, then, upon the occurrence of such an event, the Issuer, in its discretion, may:
 - (A) require the Calculation Agent to (i) make such adjustment, if any, as it determines appropriate to the calculation of the relevant Underlying Asset price or any amount payable under the Securities (which may include the substitution of an Asset Issuer with another depositary receipt and/or underlying share company), irrespective of whether such depositary receipt and/or underlying share company are then currently used for the purposes of the calculation of amounts payable under the Securities and/or any of the other Terms and Conditions and/or the applicable Issue Terms) to account for the ETF Fund Termination Event and (ii) determine the effective date of that adjustment; or
 - (B) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such an adjustment, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem or cancel the Securities by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

If the provisions of paragraph 1(x)(A) below apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the ETF Fund Termination Event made by an options exchange to options on the Underlying Asset traded on that options exchange.

Upon the occurrence of (if applicable) an ETF Fund Termination Event, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with the General Conditions, stating the occurrence of the ETF Fund Termination Event and giving details thereof and the action proposed to be taken in relation thereto.

- (x) If one or more of the Underlying Assets is a Depositary Receipt Security and "Underlying Share Event" is specified as applying in the applicable Issue Terms, then, upon the occurrence of such an event, the Issuer, in its sole and absolute discretion, may:
 - (A) require the Calculation Agent to (i) make such adjustment, if any, as it determines appropriate to the calculation of the relevant Underlying Asset price or any amount payable under the Securities (which may include the substitution of an Asset Issuer with another depositary and/or underlying share company irrespective of whether such depositary and/or underlying share company are then currently used for the purposes of the calculation of amounts payable under the Securities and/or any of the other Terms and Conditions and/or the applicable Issue Terms) to account for the Underlying Termination Event and (ii) determine the effective date of that adjustment; or
 - (B) if the Calculation Agent determines that it is unable to make such an adjustment, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem or cancel the Securities by paying an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

If the provisions of paragraph 1(x)(A) above apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Underlying Share Event made by an options exchange to options on the Underlying Asset traded on that options exchange.

(xi) Adjustments to an Index

(A) Successor Sponsor Calculates and Reports an Index

If a relevant Index is (A) not calculated and announced by the Sponsor specified in the applicable Issue Terms but is calculated and announced by a successor sponsor (the "**Successor Sponsor**") acceptable to the Calculation Agent or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the relevant Index.

(B) Modification and Cessation of Calculation of an Index

If (A) on or prior to any Valuation Date or (if applicable) an Averaging Date, as specified in the applicable Issue Terms, the relevant Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts or commodities and other routine events) (an "**Index Modification**") or permanently cancels the Index and no Successor Index exists (an "**Index Cancellation**"), or (B) a relevant Index or its Sponsor or calculating entity (which may be the Issuer or an Affiliate) or any issue of Securities is subject to any regulation, law, guidelines, code, rules or principles (an "**Index Regulation**") which, in the determination of the Calculation Agent, the Sponsor or calculating entity or Issuer as applicable, may not be able to comply with in full or which may affect the availability or publication of the Index or which may lead to a cost or an additional cost for the Issuer in connection with the Securities referencing the Index (an "**Index Regulation Event**"), or (C) on any Valuation Date or (if applicable) an Averaging Date, the Sponsor or (if applicable) the Successor Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**") and, together with an Index Modification, an Index Cancellation and an Index Regulation Event, each an "**Index Adjustment Event**") then (x) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the Reference Price and any other prices or levels relevant to the Securities and make such determinations as may be appropriate using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on the relevant Valuation Date or (if applicable) an Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those Index Components that comprised that Index immediately prior to that Index Adjustment Event, (y) the Calculation Agent shall replace the affected Index with another index selected by the Calculation Agent at its discretion or (z) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is unable to make such an adjustment, the Issuer may, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem the Securities at an amount determined by the

Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

Any such adjustments may take into account and pass on to Securityholders any increased direct or indirect cost to the Issuer as a result of or in connection with the relevant Index Adjustment Event including, without limitation, any tax, duty, withholding, deduction or other charge whatsoever (including, but not limited to, a change in tax consequences) for the Issuer.

(C) Notice

Upon the occurrence of an adjustment to an Index as set out above, the Calculation Agent shall give notice as soon as practicable to Securityholders in accordance with the General Conditions and giving details of the action proposed to be taken in relation thereto.

2. FUND EVENTS

Upon the occurrence of a Fund Event, the Issuer, in its sole and absolute discretion, may:

- (i) require the Calculation Agent to make such determinations and/or adjustments to these Terms and Conditions and/or the applicable Pricing Supplement as it determines appropriate to account for the Fund Event which may include, without limitation:
 - (A) delaying any determination until it determines that no Fund Event exists; and/or
 - (B) using an estimated or modified value of a Fund Interest taking into account the occurrence or existence of the relevant Fund Event, prevailing market conditions, and by reference to such source(s) as it determines appropriate which may include, without limitation, the last communicated official and/or estimated net asset value(s) of the relevant Fund; and/or
 - (C) making corresponding adjustments, if any, to any one or more of any of these Terms of the Conditions and/or the applicable Pricing Supplement (which may include, without limitation, delaying any date for payment under the Securities) as the Calculation Agent determines appropriate to account for the relevant Fund Event and determine the effective date of that adjustment; and/or
 - (D) in case of a Fund Potential Adjustment Event replace all or part of the affected Fund Interest by the kind and number of units or other securities and property received upon such subdivision, consolidation, reclassification, distribution, dividend, issue, repurchase or other relevant event by a holder of Fund Interests (and, without limitation, this may include electing to treat Spin-off Fund Interests as additional Fund Interests) for the purposes of determining the value of the Fund Interest (and as appropriate make corresponding replacements of the issuer of the relevant Fund) and make any adjustment (if necessary) to the value of such Fund Interest and corresponding appropriate adjustments to any of the other of these Terms and Conditions and/or the applicable Pricing Supplement that the Calculation Agent considers relevant; and/or
 - (E) if "Fund Replacement following Fund Event" is specified as applicable in the applicable Pricing Supplement, at its option replacing the affected Fund Interest (the "**Affected Fund Interest**") with a replacement fund interest (the "**Replacement Fund Interest**") in a fund which in the determination of the Calculation Agent has similar characteristics, investment objectives and policies to those applicable to the Fund to which the Affected Fund Interest relates immediately prior to the occurrence of the Fund Event. Such replacement shall be made on terms that the value of the Replacement Fund

Interests at or about the time of the replacement shall have a reported value as determined by the Calculation Agent as near as reasonably practicable equal to the Removal Value for the Affected Fund Interest less any costs, taxes and expenses incurred by the Issuer and/or any of its Affiliates or agents in relation to such Fund replacement (including costs, taxes and expenses incurred in relation to any hedging arrangements entered into by the Issuer and/or any of its Affiliates or agents in connection therewith). If the Calculation Agent replaces an Affected Fund Interest with a Replacement Fund Interest, such replacement shall take effect on the first reasonably practicable date following the Removal Date for such Affected Fund Interest on which the Calculation Agent determines that a Hypothetical Investor could acquire the Replacement Fund Interest in full; and/or

- (F) determining that the Reference Price for such Affected Fund Interest on the Removal Date shall be the Removal Value for an Affected Fund Interest and the Reference Price for such Affected Fund Interest for each day following the Removal Date shall be such Removal Value plus interest (compounded on a daily basis from (and including) the Removal Date to but excluding such day) and accrued at an overnight rate relating to the currency of denomination of the Affected Fund Interest, all as determined by the Calculation Agent by reference to such source(s) as it deems appropriate; or
- (ii) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is not reasonably practicable to make any adjustment as described in (i) above or the Issuer so elects as an alternative to (i) above and (iii) below, having given not less than the Minimum Period (as specified in the applicable Pricing Supplement) and not more than the Maximum Period (if any and as specified in the applicable Pricing Supplement) of notice to Securityholders in accordance with the General Conditions, either:
 - (A) redeem or cancel all the Securities by paying an amount determined by the Calculation Agent as representing their fair market value less any costs, taxes and expenses incurred by the Issuer and/or any of its Affiliates or agents in relation to such early redemption or cancellation (including costs, taxes and expenses incurred in relation to any hedging arrangements entered into by the Issuer and/or any of its Affiliates or agents in connection therewith) on such day as the Calculation Agent shall select; or
 - (B) redeem or cancel such portion of all the Securities which corresponds to the Fund Interests (or portion thereof) which are affected by the Fund Event by paying their pro rata share of the available cash proceeds which the Calculation Agent determines could be realised by a Hypothetical Investor following such determination and in accordance with the timing of such proceeds payable to such Hypothetical Investor (or such other amount as reflects the contribution of such Fund Interest(s) to the Securities) less any costs, taxes and expenses incurred by the Issuer and/or any of its Affiliates or agents in relation to such early redemption or cancellation (including costs, taxes and expenses incurred in relation to any hedging arrangements entered into by the Issuer and/or any of its Affiliates or agents in connection therewith). In respect of the remaining portion of the Securities, the Issuer may at its option require the Calculation Agent to make such adjustments as it determines appropriate to account for the Fund Event and such partial redemption or cancellation; or
- (iii) if the Calculation Agent determines that it is unable to achieve a commercially reasonable result with any such adjustment or that it is not reasonably practicable to make any adjustments as provided in (i) above or the Issuer so elects as an alternative to (i) and (ii) above, elect that the provisions of Equity and Market Access Product Term 7 below shall apply to the Securities.

Following the determination of a Fund Event, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with the General Conditions, stating the occurrence of the Fund Event and giving details thereof and the action proposed to be taken in relation thereto.

For the avoidance of doubt nothing in these Terms and Conditions shall require the Calculation Agent or the Issuer or any of their Affiliates or agents to monitor any Fund on an on-going basis and no representation (express or implied) is made that there will be any such monitoring.

3. FORCE MAJEURE

If "Force Majeure Event" is specified as applying in the applicable Issue Terms, the following provisions in this paragraph 3 shall apply:

(i) Notice of Force Majeure Event

The Issuer shall have the right to give notice in accordance with the General Conditions at any time to the Securityholders if it determines that any of the following events (each a "**Force Majeure Event**") has occurred:

- (A) the performance of the Issuer's obligations under the Securities has become unlawful in whole or in part as a result of compliance by the Issuer with any applicable present or future law, rule, regulation, judgment, order, interpretation, directive or decree of any Government Authority (as defined below) or otherwise;
- (B) the performance of the Issuer's obligations under the Securities is prevented or materially hindered or delayed due to either (1) any act, law, rule, regulation, judgment, order, directive, interpretation, decree or material legislative or administrative interference of any Government Authority or otherwise, or (2) the occurrence of civil war, disruption, military action, unrest, political insurrection, terrorist activity of any kind, riot, public demonstration and/or protest, or any other financial or economic reasons or any other causes or impediments beyond such party's control;
- (C) it has become impracticable, illegal or impossible (1) for the Issuer, any of its relevant Affiliates or agents or, in respect of Market Access Product Securities, any Qualified Investor to convert any relevant currency (a "**Local Currency**") in which the relevant Underlying Asset/Index/Fund Interest or traded instruments or any options or futures contracts or other hedging arrangement in relation to the Underlying Asset/Index/Fund Interest (for the purposes of hedging the Issuer's obligations under the Securities) are denominated, traded or settled into the Specified Currency or to exchange or repatriate any funds in a Local Currency or the Specified Currency outside of any relevant jurisdiction, including any country in which the relevant Underlying Asset/Index/Fund Interest or any options or futures contracts in relation to the Underlying Asset/Index/Fund Interest are traded, in each case for any reason including without limitation due to the adoption of, or any change in, any applicable law, rule, regulation, judgment, order, directive or decree of any Government Authority or any illiquidity in the relevant foreign exchange or currency market(s) or otherwise, or (2) for the Calculation Agent to determine a rate or (in the determination of the Calculation Agent) a commercially reasonable rate at which a Local Currency can be exchanged for the Specified Currency or *vice versa*;
- (D) it has become impracticable, illegal or impossible for the Issuer, any of its relevant Affiliates or agents or, in respect of Market Access Product Securities, any Qualified Investor or the Issuer, any of its relevant Affiliates or agents or, in respect of Market Access Product Securities, any Qualified Investor is

otherwise unable, to purchase, sell, hold or otherwise deal in (or to continue to do so in the future) an Underlying Asset/Index/Fund Interest or any options or futures contracts in relation to an Underlying Asset/Index/Fund Interest in order for the Issuer to perform its obligations under the Securities or in respect of any relevant hedging arrangements in connection with the Securities (including, without limitation, any purchase, sale or entry into or holding of one or more securities positions, currency positions, stock loan transactions, derivatives positions or other instruments or arrangements (however described) by the Issuer (or any of its Affiliates or agents) in order to hedge, either individually or on a portfolio basis, the Securities) or the costs of so doing would (in the absolute determination of the Calculation Agent) be materially increased as compared to the costs at or about the first Trade Date of the Securities;

- (E) in respect of Market Access Product Securities, the performance of the Issuer's obligations under the Securities or the performance by the Issuer, any of its relevant Affiliates or agents or, in respect of Market Access Products, any Qualified Investor, of its obligations under any relevant hedging arrangements in connection with the Securities has become impracticable, illegal or impossible due to any expropriation, confiscation, requisition, nationalisation or other action taken or threatened by any Government Authority that deprives the Issuer, any of its relevant Affiliates or agents or, in respect of Market Access Products, any Qualified Investor of all or substantially all of its assets in the Local Currency jurisdiction;
- (F) any other event beyond the control of the Issuer which makes it impracticable, illegal or impossible for the Issuer to perform its obligations under the Securities or to hedge effectively its obligations under the Securities or the costs of so doing would (in the determination of the Calculation Agent) be materially increased as compared to the costs at or about the first Trade Date of the Securities; or
- (G) any other Additional Force Majeure Event specified in the applicable Pricing Supplement.

If an event which would otherwise (but for this provision) constitute a Force Majeure Event also constitutes a Market Disruption Event, then, unless "Market Disruption Event prevails" is specified as not applicable in the applicable Issue Terms, it will be deemed to be a Market Disruption Event and will not constitute a Force Majeure Event. For the avoidance of doubt, if an event which would otherwise (but for this provision) constitute a Force Majeure Event also constitutes a Potential Adjustment Event, Delisting, Merger Event, Tender Offer, Nationalisation, Insolvency, Change in Law, Failure to Deliver, Insolvency Filing, Hedging Disruption, Increased Cost of Hedging, Loss of Stock Borrow, Increased Cost of Stock Borrow, ETF Fund Termination Event or Fund Event (each a "**Relevant Adjustment Event**"), then, unless "Relevant Adjustment Event prevails" is specified as not applicable in the applicable Issue Terms, it will be deemed to be a Relevant Adjustment Event and will not constitute a Force Majeure Event.

(ii) Issuer's Option following a Force Majeure Event

If the Issuer decides to give notice to Securityholders of the occurrence of a Force Majeure Event pursuant to this paragraph 3, it shall state in such notice whether the Securities will be terminated pursuant to paragraph 3(iii) or whether the Issuer's obligations under the Securities will be suspended pursuant to paragraph 3(iv). If the Issuer elects to give notice to Securityholders of a suspension of its obligations under the Securities pursuant to paragraph 3(iv), the Issuer shall nevertheless retain the right at all times to terminate the Securities pursuant to paragraph 3(iii) by giving notice to Securityholders in accordance with the General Conditions.

(iii) Termination

Upon the Issuer's election to terminate the Securities as aforesaid (or upon expiry of the 10 day period referred to in paragraph 3(iv), the Issuer will, in respect of each Security, cause to be paid to the Securityholder an amount determined to be the fair market value of the Security as at termination (which may be zero) taking into consideration all information which the Calculation Agent deems relevant (including the circumstances that resulted in the occurrence of the Force Majeure Event) less the proportionate cost to the Issuer and/or its Affiliates or agents of unwinding any related hedging arrangements (including, but not limited to, selling or otherwise realising the Underlying Asset(s), Fund Interest(s), Index/Indices or any options or futures contracts in relation to the Underlying Asset(s) or Index/Indices or any other such property), all as determined by the Calculation Agent. At the election of the Issuer, such payment may be made in the Local Currency in the Relevant Jurisdiction, in which case each Securityholder will have responsibility for establishing an account in the Relevant Jurisdiction in order to receive such payments; provided that if it is impracticable or unlawful for the Issuer to pay such amount in the Relevant Jurisdiction or the relevant Securityholder does not establish the necessary account in the Relevant Jurisdiction to receive payment(s) in the currency the Issuer elects, the Issuer shall not be obliged to make payment of any such amounts so affected, as applicable. Payment will be made, as the case may be, in such manner as shall be notified to the Securityholders in accordance with the General Conditions.

(iv) Suspension

Upon the Issuer's election to suspend the Securities, the Issuer's obligations in respect of the Securities may be suspended up until the tenth day after such Force Majeure Event shall cease to exist. No additional interest or other amount will be payable as a result of such suspension.

(v) Loss

No Securityholder will be entitled to any compensation from the Issuer for any loss suffered as a result of the occurrence of a Force Majeure Event.

For the purposes hereof:

"Government Authority" means any nation, state or government, any province or other political subdivision thereof, any body, agency or ministry, any taxing, monetary, foreign exchange or other authority, court, tribunal or other instrumentality and any other entity exercising executive, legislative, judicial, regulatory or administrative functions of or pertaining to government.

"Relevant Jurisdiction" has the meaning specified in the applicable Issue Terms and if it is not specified, it will mean the jurisdiction determined by the Calculation Agent.

4. PHYSICAL DELIVERY

(i) Physical Delivery upon redemption of Securities (other than Warrants)

THIS PARAGRAPH 4(i) IS APPLICABLE TO NOTES AND CERTIFICATES WHICH ARE LINKED TO UNDERLYING ASSETS ONLY

If Physical Delivery is specified in the applicable Pricing Supplement in relation to any Securities (other than Warrants) that relate to a single Underlying Asset or a Basket of Underlying Assets, then, in order to obtain delivery of the Asset Amount(s) in respect of any such Security and subject (where applicable) to certification that the relevant Securityholder is either (a) not a U.S. person or a person within the United States or (b) in certain circumstances, a QIB:

EQUITY AND MARKET ACCESS PRODUCT TERMS

- (A) if such Security is represented by a Global W&C Security (In the case of a Certificate) or a Global Note (in the case of a Note) (each a "**Global Security**"), the relevant Securityholder must deliver to the relevant Clearing System(s), with a copy to the Issuer and not later than the close of business in each place of receipt on the Cut-Off Date (as specified in the applicable Pricing Supplement), a duly completed Asset Transfer Notice; or
- (B) if such Security is a Note in definitive form, the relevant Securityholder must deliver (i) if this is a Bearer Note, to any Paying Agent or (ii) if this is a Registered Note, to the Registrar or any Paying Agent, in each case, with a copy to the Issuer and not later than the close of business in each place of receipt on the Cut-Off Date, a duly completed Asset Transfer Notice.

Forms of the Asset Transfer Notice may be obtained during normal business hours from the specified office of the Relevant Agent.

Unless otherwise specified, in the case of Exempt Securities, in the applicable Pricing Supplement, an Asset Transfer Notice may only be delivered (i) if such Security is represented by a Global Security, in such manner as is acceptable to the relevant Clearing System(s), as the case may be, which is expected to be by authenticated SWIFT message or tested telex or (ii) if such Security is in definitive form, in writing or by tested telex.

If this Security is in definitive form, this Security must be delivered together with the duly completed Asset Transfer Notice.

An Asset Transfer Notice must:

- (1) specify the name and address of the relevant Securityholder, the person from whom the Issuer may obtain details for the delivery of the Asset Amount;
- (2) in the case of Securities represented by a Global Security, specify the nominal amount of Notes or the number of Certificates which are the subject of such notice and the number of the Securityholder's account at the relevant Clearing System(s) to be debited with such Securities and irrevocably instruct and authorise to debit the relevant Securityholder's account with such Securities on or before the Delivery Date (as defined below);
- (3) include an undertaking to pay all Delivery Expenses and, in the case of Securities represented by a Global Security, an authority to debit a specified account of the Securityholder at the relevant Clearing System(s) in respect thereof and to pay such Delivery Expenses;
- (4) specify an account to which dividends (if any) payable pursuant to this paragraph 4 or any other cash amounts specified in these Terms and Conditions and/or the applicable Pricing Supplement as being payable are to be paid;
- (5) include an undertaking to provide such various forms of certification in respect of selling and transfer restrictions under the securities, commodities and other laws of the United States of America or other jurisdictions as indicated and set out in these Terms and Conditions and/or the applicable Pricing Supplement (including that the relevant Securityholder is either (a) not a U.S. person or a person within the United States or (b) in certain circumstances, a QIB); and
- (6) authorise the production of such notice in any applicable administrative or legal proceedings.

No Asset Transfer Notice may be withdrawn after receipt thereof by the relevant Clearing System(s) or the Relevant Agent, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Securityholder may not transfer the Securities which are the subject of such notice.

In the case of Securities represented by a Global Security, upon receipt of an Asset Transfer Notice, the relevant Clearing System(s) shall verify that the person specified therein as the Securityholder is the holder of the specified nominal amount of Securities according to its books.

Failure to complete and deliver an Asset Transfer Notice properly may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in these Terms and Conditions shall be made, in the case of Securities represented by a Global Security, by the relevant Clearing System(s) after consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Securityholder and, in the case of Securities in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, after consultation with the Issuer, and shall be conclusive and binding on the Issuer and the relevant Securityholder.

Securities of the same Securityholder in respect of which an Asset Amount is due and payable at the same time, will be aggregated for the purpose of determining the aggregate Asset Amounts in respect of such Securities, provided that the aggregate Asset Amounts will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and, in lieu thereof, an amount in the Specified Currency which shall be the value of the amount of the Relevant Assets so rounded down, as calculated by the Calculation Agent from such source(s) as it may select (converted if necessary into the Specified Currency by reference to such exchange rate as the Calculation Agent deems appropriate) shall be paid to the Securityholder.

Delivery of the Asset Amount in respect of each Security shall be made on the Maturity Date (such date, subject to adjustment as provided below, the "**Delivery Date**") at the risk of the relevant Securityholder in such commercially reasonable manner as the Calculation Agent shall determine and notify to the person designated by the Securityholder in the relevant Asset Transfer Notice. All Delivery Expenses arising from the delivery of the Asset Amount in respect of such Security shall be for the account of the relevant Securityholder and no delivery of the Asset Amount shall be made until all Delivery Expenses have been paid to the satisfaction of the Issuer by the relevant Securityholder. The Issuer shall not be obliged to make or procure any delivery if to do so would breach any applicable securities or other relevant laws.

If a Securityholder fails to give an Asset Transfer Notice as provided herein with a copy to the Issuer by later than the close of business in each place of receipt on the Cut-Off Date, then the Asset Amount will be delivered as soon as practicable after the Maturity Date (in which case such date of delivery shall be the Delivery Date) at the risk of such Securityholder in the manner provided above. For the avoidance of doubt, in such circumstances, such Securityholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the originally designated Delivery Date and no liability in respect thereof shall attach to the Issuer.

If a Securityholder fails in respect of any Securities, on or before the date falling 180 calendar days after the Cut-Off Date specified in the applicable Issue Terms, (a) to deliver an Asset Transfer Notice in the manner set out herein or (b) to pay the Delivery Expenses:

- (i) in respect of Securities which are admitted to the Official List and to trading on the regulated market of Euronext Dublin, the Calculation Agent shall determine

the value (the "**Default Redemption Amount**") of the Asset Amount(s) in respect of such Securities on such date and by reference to such sources as it determines appropriate and the Issuer shall pay such Default Redemption Amount to the relevant Securityholder in such manner as shall be notified to the Securityholder in accordance with the General Conditions; or

- (ii) otherwise, the Issuer shall be discharged from its obligation (or, as the case may be, part thereof) in respect of such Security and shall have no further obligation or liability whatsoever in respect thereof.
- (ii) Physical Delivery upon exercise of Warrants

THIS PARAGRAPH 4(ii) IS APPLICABLE FOR ISSUES OF WARRANTS WHICH ARE LINKED TO UNDERLYING ASSETS ONLY

If Physical Delivery is specified in the applicable Issue Terms in relation to any Warrants that relate to a single Underlying Asset or a Basket of Underlying Assets, then each such Warrant entitles its holder, upon due exercise and subject (where applicable) to certification that either (a) the Warrants are not being exercised by or on behalf of a U.S. person or a person within the United States or (b) in certain circumstances, that the Warrants are being exercised by a QIB, to receive from the Issuer on the Settlement Date the Asset Amount, subject to payment of the relevant Strike Price specified in the applicable Issue Terms (if applicable) and any other sums payable. In order to obtain delivery of the Asset Amount(s) in respect of a Warrant, the relevant Warrantholder must deliver an Exercise Notice to the relevant Clearing System(s) in accordance with Condition 4(a)(ii) of the Warrants Conditions (regardless of whether the applicable Issue Terms specifies that Automatic Exercise is applicable).

Warrants exercised at the same time by the same Warrantholder will be aggregated for the purpose of determining the aggregate Asset Amounts in respect of such Warrants provided that the aggregate Asset Amounts in respect of the same Warrantholder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof the relevant Warrantholder will receive an amount in the Specified Currency equal to the value of any such fractions after such aggregation as calculated by the Calculation Agent from such source(s) as it may select (and converted if necessary into the Specified Currency by reference to such exchange rate as the Calculation Agent deems appropriate). Payment of any such amount will be made to the account specified by the Warrantholder in the relevant Exercise Notice as referred to in Condition 4(c) of the Warrants Conditions or in such manner as shall be notified to the Warrantholders in accordance with the General Conditions.

Subject as provided herein and subject to payment of the aggregate Strike Prices (if applicable) and to payment of any Exercise Expenses with regard to the relevant Warrants, the Issuer shall on the Settlement Date (such date, subject to adjustment as provided below, the "**Delivery Date**") deliver, or procure the delivery of, the Asset Amount for each duly exercised Warrant in such manner as the Calculation Agent shall determine and notify to the person designated by the Securityholder in the relevant Exercise Notice.

If a Warrantholder fails to give an Exercise Notice as provided in Condition 4(a)(ii) of the Warrants Conditions by later than the close of business in each place of receipt on the Cut-Off Date, then the Asset Amount will be delivered as soon as practicable after the Settlement Date (in which case such date of delivery shall be the Delivery Date) at the risk of such Warrantholder in the manner provided above. For the avoidance of doubt, in such circumstances, such Warrantholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the originally designated Delivery Date and no liability in respect thereof shall attach to the Issuer.

If a Warrantholder fails in respect of any Warrants, on or before the date falling 180 calendar days after the Cut-Off Date specified in the applicable Issue Terms, (a) to deliver an Exercise Notice in the manner set out herein or (b) to pay the Exercise Expenses or other amounts payable pursuant to the General Conditions:

- (i) in respect of Warrants which are admitted to the Official List and to trading on the regulated market of Euronext Dublin, the Calculation Agent shall determine the value (the "**Default Settlement Amount**") of the Asset Amount(s) in respect of such Warrants on such date and by reference to such sources as it determines appropriate (less any amounts payable pursuant to these Terms and Conditions and/or the applicable Issue Terms) and the Issuer shall pay such Default Settlement Amount to the relevant Warrantholder in such manner as shall be notified to the Warrantholder in accordance with the General Conditions; or
- (ii) otherwise, the Issuer shall be discharged from its obligation (or, as the case may be, part thereof) in respect of such Security and shall have no further obligation or liability whatsoever in respect thereof.

Following exercise of a Warrant which is a Physical Delivery Warrant, all dividends on the relevant Underlying Asset to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Underlying Asset executed on the relevant Actual Exercise Date and to be delivered in the same manner as such relevant Underlying Asset. Any such dividends to be paid to a Warrantholder will be paid to the account specified by the Warrantholder in the relevant Exercise Notice as referred to in Condition 4(c) of the Warrants Conditions.

- (iii) Settlement Disruption in respect of Securities

THIS PARAGRAPH 4(iii) IS APPLICABLE TO SECURITIES WHICH ARE LINKED TO UNDERLYING ASSETS ONLY

If, prior to the delivery of the Asset Amount in respect of any Security in accordance with this paragraph, a Settlement Disruption Event is subsisting, then the Delivery Date in respect of such Security shall be postponed until the date on which no Settlement Disruption Event is subsisting and notice thereof shall be given to the relevant Securityholder in accordance with the General Conditions. Such Securityholder shall not be entitled to any payment, whether of interest or otherwise, on such Security as a result of any delay in the delivery of the Asset Amount pursuant to this paragraph 4. Where delivery of the Asset Amount has been postponed as provided in this paragraph 4, the Issuer shall not be in breach of these Terms and Conditions and no liability in respect thereof shall attach to the Issuer.

For so long as delivery of the Asset Amount in respect of any Security is not practicable by reason of a Settlement Disruption Event, then, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its discretion to satisfy its obligations in respect of the relevant Security by payment to the relevant Securityholder of the Disruption Cash Settlement Price not later than on the third Business Day following the date that the notice of such election (the "**Election Notice**") is given to the Securityholder in accordance with the General Conditions. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Securityholder in accordance with the General Conditions.

Where the Asset Amount is, in the determination of the Issuer, an amount other than an amount of Relevant Assets (as specified in the applicable Issue Terms) capable of being delivered (any such amount, a "**Tradable Amount**"), the Securityholder will receive an Asset Amount comprising of the nearest amount (rounded down) of Relevant Assets capable of being delivered by the Issuer (taking into account that a Securityholder's entire holding may be aggregated at the Issuer's discretion for the purpose of delivering the Asset Amounts), and an amount in the Specified Currency

which shall be the value of the amount of the Relevant Assets so rounded down, as calculated by the Calculation Agent from such source(s) as it may select (converted if necessary into the Specified Currency by reference to such exchange rate as the Calculation Agent deems appropriate). Payment will be made in such manner as shall be notified to the Securityholder in accordance with the General Conditions.

(iv) General Provisions in relation to Physical Delivery

After delivery of the Asset Amount and for the Intervening Period, none of the Issuer, the Calculation Agent and any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Securityholder of, any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities or obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to a Securityholder in respect of any loss or damage which such Securityholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations.

Any such interest dividend or other distribution to be paid to a Securityholder shall be paid to the account specified in the relevant Asset Transfer Notice.

The Issuer shall not be obliged to pay any additional amount or interest payment as a result of any such delay.

provided above and the last day of the Delay Period, the Issuer's obligation to pay the relevant Scheduled Obligation or any remaining amount thereof shall be cancelled and the Issuer shall have no further obligations in respect of such obligation and, if no other Scheduled Obligation remains outstanding, the Securities shall be cancelled and the Issuer shall have no further obligations in respect thereof.

1 **Cash Settlement**(i) *If the Securities are not Auction Settled Securities:*

If the Securities are Cash Settled Securities, upon satisfaction of the Conditions to Settlement, the Issuer shall give notice (such notice a "**Settlement Notice**") to the Securityholders as soon as practicable in accordance with the General Conditions, and, subject to paragraph 8 (*Credit Event Notice after Restructuring Credit Event*) below, redeem all but not some only of the Securities on the Credit Event Redemption Date at, in respect of the Calculation Amount, the Credit Event Redemption Amount (which Credit Event Redemption Amount will, if "Adjustment for Hedging Costs" is specified in the applicable Issue Terms, be subject to adjustment to account for any Hedging Costs).

Notwithstanding that the Securities are not Auction Settled Securities and notwithstanding anything else to the contrary contained herein, if the Calculation Agent determines that (a) an Auction has taken, or is expected to take, place in respect of the relevant Reference Entity to value obligations of the same seniority as the Reference Obligation and (b) the date on which the final price is determined pursuant to such Auction falls on or before the sixtieth (60th) Business Day after the relevant Credit Event Determination Date, the Calculation Agent may elect that the Auction Final Price as so determined pursuant to such Auction shall be deemed to be the Final Price hereunder in respect of such Reference Entity (or, if "First-to-Default" is specified as applicable in the applicable Issue Terms, of the Defaulted Reference Entity), in which case, the definitions of Valuation Method, Valuation Date, Quotation, Quotation Method

and Quotation Amount shall not apply in respect of such Reference Entity and/or Reference Obligation, and the Calculation Agent may make such amendments to the Conditions as it determines appropriate to reflect the change in the determination of the Final Price.

(ii) *If the Securities are Auction Settled Securities:*

If the Securities are Auction Settled Securities and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice a "**Settlement Notice**") to the Securityholders as soon as practicable in accordance with the General Conditions, and, subject to paragraph 8 (*Credit Event Notice after Restructuring Credit Event*) below, redeem all but not some only of the Securities on the Auction Settlement Date, in respect of the Calculation Amount, at the Auction Cash Settlement Amount (which Auction Cash Settlement Amount will, if "Adjustment for Hedging Costs" is specified as applicable in the applicable Issue Terms, be subject to adjustment to account for any Hedging Costs).

Notwithstanding the above, if a Fallback Settlement Method Event occurs:

- (A) if "Cash Settlement" is specified as the applicable Fallback Settlement Method in the applicable Issue Terms, then, notwithstanding that the Securities are Auction Settled Securities, these Terms and Conditions shall apply in respect of such Credit Event as if the Securities are not Auction Settled Securities (but for the avoidance of doubt, are Cash Settled Securities) and the Issuer shall redeem the Securities in accordance with paragraph 1(i) above; and
- (B) if "Physical Settlement" is specified as the applicable Fallback Settlement Method in the applicable Issue Terms, then, notwithstanding that the Securities are Auction Settled Securities, these Terms and Conditions shall apply in respect of such Credit Event as if the Securities were Physically Settled Securities and the Issuer shall redeem the Securities in accordance with paragraph 2 (*Physical Settlement*) below.

If no Fallback Settlement Method is specified in the applicable Issue Terms, "Physical Settlement" shall be deemed to be specified in the applicable Issue Terms as the applicable Fallback Settlement Method.

If the Conditions to Settlement are satisfied and the Securities become redeemable in accordance with this paragraph 1, upon payment of the Credit Event Redemption Amount or Auction Cash Settlement Amount (as applicable) in respect of the Securities, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount or Auction Cash Settlement Amount (as applicable) may be less than the Calculation Amount of a Security. Any shortfall shall be borne by the Securityholder and no liability shall attach to the Issuer.

2 Physical Settlement

If the Securities are Physically Settled Securities, upon satisfaction of the Conditions to Settlement, the Issuer shall, subject to paragraph 8 (*Credit Event Notice after Restructuring Credit Event*) below, redeem all but not some only of the Securities by Delivery of the Deliverable Obligations comprising the Asset Amount, subject to and in accordance with paragraph 6 (*Procedures for Physical Delivery*) below.

If "Adjustment for Hedging Costs" is specified as applicable in the applicable Issue Terms, and:

- (i) if the Hedging Costs represent losses and costs incurred by the Issuer, then, the Issuer will deduct from the Asset Amount such Outstanding Principal Balance or Due and

Payable Amount, as the case may be, of Deliverable Obligations with a Liquidated Value of not less than the amount of such Hedging Costs and the Delivery by the Issuer of such reduced Asset Amount (and the payment of any excess of such Liquidated Value (if any) over the amount of such Hedging Costs) shall be deemed to satisfy and discharge in full the obligation of the Issuer in respect of the relevant Asset Amount; or

- (ii) if the Hedging Costs represent a gain to the Issuer, the Securityholder will receive a payment from the Issuer in respect of such Hedging Costs with the delivery of any Asset Amount by the Issuer.

In the Physical Settlement Notice, the Issuer shall specify (i) each Deliverable Obligation comprising the Asset Amount that it reasonably expects to Deliver and (ii) if "Adjustment for Hedging Costs" is specified in the applicable Issue Terms, whether any Hedging Costs representing losses and costs incurred by the Issuer will be accounted for in the manner described in paragraph 2(i) above. For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Asset Amount, irrespective of their market value.

In addition, in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, where (a) the relevant Credit Event is a Restructuring, (b) either "Restructuring Maturity Limitation and Fully Transferable Obligation" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as "Applicable" in the applicable Issue Terms and (c) the Maturity Date is later than (A) the final maturity date of the Latest Maturity Restructured Bond or Loan, if any, or (B) the 2.5-year Limitation Date, the Physical Settlement Notice shall contain a detailed description of at least one Enabling Obligation and any other information necessary to establish that such obligation is an Enabling Obligation.

In the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, the Issuer shall deliver the Physical Settlement Notice on or before the Physical Determination Date.

The Issuer may, from time to time, notify the Securityholders (each such notification, a **"Physical Settlement Amendment Notice"**) that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Physical Settlement Notice or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective) or the detailed description(s) thereof. A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that Issuer reasonably expects to Deliver to or to the order of the Securityholders (each, a **"Replacement Deliverable Obligation"**). Each such Physical Settlement Amendment Notice must be effective on or prior to the Physical Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, the Issuer may correct any errors or inconsistencies in the Physical Settlement Notice or any Physical Settlement Amendment Notice, as applicable, by notice to Securityholders prior to the relevant Delivery Date; it being understood that such notice of correction shall not constitute a Physical Settlement Amendment Notice.

If the Conditions to Settlement are satisfied and the Securities become redeemable in accordance with this paragraph 2, upon Delivery of the Deliverable Obligations and/or payment of the Cash Settlement Amount or the Auction Cash Settlement Amount (or any other amounts payable in accordance with paragraphs 6 or 7 below), as the case may be, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Cash Settlement Amount or the Auction Cash Settlement Amount may be less than the Calculation Amount of a Security. Any shortfall shall be borne by the Securityholder and no liability shall attach to the Issuer.

3 Repudiation/Moratorium Extension

Where the Conditions to Settlement have not been satisfied on or prior to the Maturity Date but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Maturity Date and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation/Moratorium will, in the determination of the Calculation Agent, fall after the Maturity Date, then the Calculation Agent shall notify the Securityholders and (if the relevant Securities are listed) any stock exchange on which the Securities are for the time being listed that a Potential Repudiation/Moratorium has occurred and:

- (i) where a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date:
 - (a) each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, will be redeemed by the Issuer by payment of the Final Redemption Amount on the third Business Day following the Repudiation/Moratorium Evaluation Date (the "**Repudiation/Moratorium Deferred Maturity Date**"); and
 - (b) in the case of interest bearing Securities, the Issuer shall be obliged to pay interest, calculated as provided herein, accrued up to (but excluding) the final Interest Period Date (which will, if Interest Period Dates are specified in the applicable Issue Terms as being the Interest Payment Dates, be the Maturity Date), but shall only be obliged to make such payment of interest on the Repudiation/Moratorium Deferred Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; and
- (ii) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date and the Conditions to Settlement are satisfied, the provisions of paragraph 1 (*Cash Settlement*) or 2 (*Physical Settlement*) above, as applicable, shall apply to the Securities.

4 Grace Period Extension

If "Grace Period Extension" is specified as applicable in the applicable Issue Terms, the provisions of this paragraph 4 shall apply.

Where the Conditions to Settlement have not been satisfied on or prior to the Maturity Date but a Potential Failure to Pay has occurred with respect to one or more Obligation(s) in respect of which a Grace Period is applicable on or prior to the Maturity Date (and such Grace Period(s) is/are continuing as at that date), then:

- (i) where a Failure to Pay has not occurred on or prior to the Grace Period Extension Date:
 - (a) each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, will be redeemed by the Issuer by payment of the Final Redemption Amount on the third Business Day following the Grace Period Extension Date (the "**Grace Period Deferred Maturity Date**"); and
 - (b) in the case of interest bearing Securities, the Issuer shall be obliged to pay interest calculated as provided herein, accrued up to (but excluding) the final Interest Period Date (which will, if Interest Period Dates are specified in the applicable Issue Terms as being the Interest Payment Dates, be the Maturity Date), but shall only be obliged to make such payment of interest on the Grace Period Deferred Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; and

- (ii) where a Failure to Pay has occurred on or prior to the Grace Period Extension Date and the Conditions to Settlement are satisfied, the provisions of paragraph 1 (*Cash Settlement*) or 2 (*Physical Settlement*) above, as applicable, shall apply to the Securities.

5 Deferral of Maturity Date

If on (A) the Maturity Date, (B) the Repudiation/Moratorium Evaluation Date, or (C) if "Grace Period Extension" is specified as applying in the applicable Issue Terms, the Grace Period Extension Date, as the case may be, the Conditions to Settlement have not been satisfied but, in the determination of the Calculation Agent, a Credit Event may have occurred on or prior to such date, the Calculation Agent may notify the Securityholders in accordance with the General Conditions that the Maturity Date, the Repudiation/Moratorium Evaluation Date or the Grace Period Extension Date, as the case may be, has been postponed to a date (such date the "**Deferred Maturity Date**") specified in such notice that is 21 calendar days after the Maturity Date, the Repudiation/Moratorium Evaluation Date or the Grace Period Extension Date, as the case may be, and:

- (i) where the Conditions to Settlement are not satisfied on or prior to the Deferred Maturity Date:
 - (a) subject as provided below, each Security will be redeemed by the Issuer by payment of the Final Redemption Amount on the Deferred Maturity Date; and
 - (b) in the case of interest bearing Securities, the Issuer shall be obliged to pay interest calculated as provided herein, accrued up to (but excluding) the final Interest Period Date (which will, if Interest Period Dates are specified in the applicable Issue Terms as being the Interest Payment Dates, be the Maturity Date), but shall only be obliged to make such payment of interest on the Deferred Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; and
- (ii) where the Conditions to Settlement are satisfied on or prior to the Deferred Maturity Date, the provisions of paragraph 1 (*Cash Settlement*) or 2 (*Physical Settlement*) above, as applicable, shall apply to the Securities.

6 Procedures for Physical Delivery

If any Credit Linked Securities are to be redeemed by delivery of the Asset Amount, either (i) any such Asset Amount shall be delivered to the Securityholders through the relevant Clearing System(s) without an Asset Transfer Notice being required, subject (where applicable) to certification that the relevant Securityholder is either (a) not a U.S. person or a person within the United States or (b) in certain circumstances, a QIB, or (ii) if the Calculation Agent determines that such Asset Amount cannot be delivered through the relevant Clearing System(s), prior to the Cut-off Date the Calculation Agent shall notify the Securityholders of such fact in accordance with the General Conditions and shall specify the delivery details required for such delivery and, following such notification, in order to obtain delivery of the Asset Amount in respect of any Security:

- (i) if such Security is represented by a Global W&C Security (in the case of a Certificate) or a Global Note (in the case of a Note) (each a "**Global Security**"), the relevant Securityholder must deliver to Euroclear or Clearstream, Luxembourg (as applicable), with a copy to the Issuer and not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice; or
- (ii) if such Security is a Note in definitive form, the relevant Securityholder must deliver (i) if this Security is a Bearer Note, to any Paying Agent or (ii) if this is a Registered Note, to the Registrar or any Paying Agent, in each case with a copy to the Issuer and not

later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice.

If "Restructuring Maturity Limitation and Fully Transferable Obligation" is specified as applicable in the applicable Issue Terms and "Restructuring" is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may be included in the Asset Amount only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date.

If "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as applying in the applicable Issue Terms and "Restructuring" is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may be included in the Asset Amount only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date.

Forms of the Asset Transfer Notice may be obtained during normal business hours from the specified office of any Relevant Agent.

An Asset Transfer Notice may only be delivered (i) if such Security is represented by a Global Security, in such manner as is acceptable to Euroclear or Clearstream, Luxembourg, as the case may be, which is expected to be by authenticated SWIFT message or tested telex or (ii) if such Security is in definitive form, in writing or by tested telex.

If the Security is in definitive form, the Security must be delivered together with the duly completed Asset Transfer Notice.

An Asset Transfer Notice must:

- (1) specify the name and address of the relevant Securityholder and the details required for the delivery of the Asset Amount;
- (2) in the case of Securities represented by a Global Security, specify the nominal amount of Notes or the number of Certificates, as the case may be, which are the subject of such notice and the number of the Securityholder's account at Euroclear or Clearstream, Luxembourg, as the case may be, to be debited with such Securities and irrevocably instruct and authorise Euroclear or Clearstream, Luxembourg, as the case may be, to debit the relevant Securityholder's account with such Securities on or before the Physical Settlement Date;
- (3) include an undertaking to pay all Delivery Expenses and, in the case of Securities represented by a Global Security, an authority to debit a specified account of the Securityholder at Euroclear or Clearstream, Luxembourg, as the case may be, in respect thereof and to pay such Delivery Expenses;

- (5) authorise the production of such notice in any applicable administrative or legal proceedings.

No Asset Transfer Notice may be withdrawn after receipt thereof by Euroclear, Clearstream, Luxembourg or a Relevant Agent, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Securityholder may not transfer the Securities which are the subject of such notice.

In the case of Securities represented by a Global Security, upon receipt of an Asset Transfer Notice, Euroclear or Clearstream, Luxembourg, as the case may be, shall verify that the person

specified therein as the Securityholder is the holder of the specified nominal amount of Notes or the number of Certificates, as the case may be, according to its books.

Failure to complete and deliver an Asset Transfer Notice properly may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in these Terms and Conditions shall be made, in the case of Securities represented by a Global Security, by Euroclear or Clearstream, Luxembourg, as the case may be, after consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Securityholder and, in the case of Securities in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, after consultation with the Issuer, and shall be conclusive and binding on the Issuer and the relevant Securityholder.

Delivery of the Asset Amount in respect of each Security shall be made at the risk of the relevant Securityholder through the relevant Clearing System(s) as specified above or in such manner as the Calculation Agent shall notify to the Securityholders as described above. All Delivery Expenses arising from the delivery of the Asset Amount in respect of such Security shall be for the account of the relevant Securityholder and no delivery of the Asset Amount shall be made until all Delivery Expenses have been paid to the satisfaction of the Issuer by the relevant Securityholder. The Issuer shall not be obliged to make or procure any delivery if to do so would breach any applicable securities or other laws.

After delivery of the Asset Amount and for the Intervening Period, none of the Issuer, the Calculation Agent and any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Securityholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities or obligations comprising the Asset Amount, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations, or (iii) be under any liability to a Securityholder in respect of any loss or damage which such Securityholder may sustain or suffer as a result, whether directly or indirectly, of that person not being registered during such Intervening Period as legal owner of such securities or obligations.

In relation to each Deliverable Obligation constituting the Asset Amount, the Issuer will, subject to paragraph 14 (*Settlement Suspension*) below, Deliver or procure the Delivery of the relevant Deliverable Obligation as provided below on or prior to the Physical Settlement Date, provided that if all or some of the Deliverable Obligations included in the Asset Amount are (a) Undeliverable Obligations and/or Hedge Disruption Obligations, then the Issuer shall continue to attempt to Deliver all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, until the date that is 30 calendar days after the Physical Settlement Date (in respect of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, the "**Final Delivery Date**"), or (b) Undeliverable Loan Obligations or Unassignable Obligations, then the Issuer shall continue to attempt to Deliver all or a portion of such Undeliverable Loan Obligations or Unassignable Obligations, as the case may be, until the date that is 15 Business Days after the Physical Settlement Date (in respect of such Undeliverable Loan Obligations or Unassignable Obligations, the "**Final Delivery Date**"),

provided further that:

- (i) if all or a portion of the Deliverable Obligations included in the Asset Amount that are Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, (but subject to paragraph (ii) below in the case of Assignable Loans or Consent Required Loans) are not Delivered by the Final Delivery Date, the provisions of paragraph 7(i) shall apply; or
- (ii) if all or a portion of the Deliverable Obligations included in the Asset Amount consist of Assignable Loans or Consent Required Loans that, due to the non-receipt of any requisite consents, are not capable of being Delivered by the Final Delivery Date, the provisions of paragraph 7(ii) shall apply.

If a Securityholder fails to give an Asset Transfer Notice as provided herein on or prior to the Cut-Off Date specified in the applicable Issue Terms, the Issuer will, subject as provided above, deliver the Deliverable Obligations constituting the Asset Amount in respect of the relevant Securities as soon as practicable after the receipt of the duly completed Asset Transfer Notice, provided that if, in respect of a Security, a Securityholder fails to give an Asset Transfer Notice prior to the day falling 45 days after the Cut-Off Date, the Issuer's obligations in respect of such Securities shall be discharged and the Issuer shall have no liability in respect thereof.

Notwithstanding that the Securities are not Auction Settled Securities and notwithstanding anything set out in paragraph 2 (*Physical Settlement*) above or the foregoing provisions of this paragraph 6, if on or before the Physical Settlement Date the Calculation Agent determines that an Auction (in respect of the Reference Entity to which the Credit Event Notice relates) may be published on or before the sixtieth (60th) Business Day after the relevant Credit Event Determination Date, the Calculation Agent may elect in its sole and absolute discretion to postpone the Physical Settlement Date to any date determined by the Calculation Agent within the period of up to, and including, the date falling 60 Business Days after the Credit Event Determination Date. The Calculation Agent shall give notice of such election (such notice, an "**Auction Notice**") to the Securityholders in accordance with the General Conditions. If an Auction Notice has been given to the Securityholders and the Calculation Agent determines that (a) an Auction has taken, or is expected to take, place in respect of the relevant Reference Entity to value obligations of the same seniority as the Deliverable Obligations and (b) the date on which the Auction Final Price is, or is expected to be, determined pursuant to such Auction falls on or before the sixtieth (60th) Business Day after the Credit Event Determination Date, the Calculation Agent may further elect in its sole and absolute discretion that the Issuer redeems each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, either (1) by payment of the Auction Cash Settlement Amount on the Auction Settlement Date in lieu of Delivering the relevant Deliverable Obligations (as specified in the Physical Settlement Notice or Physical Settlement Amendment Notice) or (2) by Delivery of the Deliverable Obligations comprising the Asset Amount (as specified in the Physical Settlement Notice or Physical Settlement Amendment Notice), in either case on the postponed Physical Settlement Date. The Calculation Agent shall give notice of such election to the Securityholders as soon as possible in accordance with the General Conditions.

7 Partial Cash Settlement

- (i) If all or a portion of the Deliverable Obligations included in the Asset Amount that are Undeliverable Obligations or Hedge Disruption Obligations are not Delivered by the Final Delivery Date (other than in respect of Assignable Loans or Consent Required Loans that, due to the non-receipt of any requisite consents, are not capable of being Delivered on that day), the Issuer shall give notice (a "**Cash Settlement Notice**") to the Securityholders in accordance with the General Conditions and the Issuer shall pay, in respect of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, the Cash Settlement Amount (adjusted to take account fully for any Hedging Costs, if "Adjustment for Hedging Costs" is specified as applying in the applicable Issue Terms) on the Cash Settlement Date.

In the Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligations, as the case may be.

- (ii) If:
 - (a) "Partial Cash Settlement of Consent Required Loans" is specified as applicable in the applicable Issue Terms and all or a portion of the Deliverable Obligations comprising the Asset Amount consist of Consent Required Loans that, due to the non-receipt of any requisite consents, are not capable of being Delivered by the Final Delivery Date (each such Deliverable Obligation being an "**Undeliverable Loan Obligation**"); or

- (b) "Partial Cash Settlement of Assignable Loans" is specified as applying in the applicable Issue Terms and all or a portion of the Deliverable Obligations comprising the Asset Amount consist of Assignable Loans that, due to the non-receipt of any requisite consents, are not capable of being Delivered by the Final Delivery Date (each such Deliverable Obligation being an "**Unassignable Obligation**"),

the Issuer shall give notice (a "**Cash Settlement Notice**") to the Securityholders in accordance with the General Conditions and the Issuer shall pay, in respect of each Undeliverable Loan Obligation or Unassignable Obligation, the Cash Settlement Amount (adjusted to take account fully for any Hedging Costs, if "Adjustment for Hedging Costs" is specified as applicable in the applicable Issue Terms) on the Cash Settlement Date.

For the avoidance of doubt, if neither "Partial Cash Settlement of Consent Required Loans" nor "Partial Cash Settlement of Assignable Loans" is specified as applicable in the applicable Issue Terms, and all of the Deliverable Obligations comprising the Asset Amount consist of Undeliverable Loan Obligations or Unassignable Obligations, as the case may be, then the Issuer shall have no further obligation to Deliver any Asset Amount or pay any Cash Settlement Amount in respect of the Securities.

- (iii) If all or any part of the Asset Amount to be Delivered to a Securityholder is not a whole integral multiple of the smallest unit of transfer for any such Deliverable Obligation at the relevant time of Delivery, as determined by the Calculation Agent, the Issuer will Deliver and such Securityholder will only be entitled to receive the portion of the Asset Amount specified by the Calculation Agent which is closest to but less than the full Asset Amount, after consideration of such smallest unit or units of transfer (such portion of the Asset Amount that is not so Delivered, a "**Delivery Shortfall**"), and the Issuer will pay to such Securityholder in the Settlement Currency at the same time as such Delivery an amount in cash equal to the value of such Delivery Shortfall, as determined by the Calculation Agent.

Unless otherwise specified in the applicable Pricing Supplement in respect of Exempt Securities, for the purposes of this paragraph 7 (*Partial Cash Settlement*) the following terms are deemed to have the following meanings:

"**Cash Settlement Amount**" is deemed to be for each Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation, the aggregate of the greater of (i) the Outstanding Principal Balance or Due and Payable Amount or Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation multiplied by the Final Price with respect to each Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation and (ii) zero;

"**Cash Settlement Date**" is deemed to be the date falling three Business Days after the calculation of the Final Price;

"**Indicative Quotation**" means, in accordance with the Quotation Method, each quotation obtained from a Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation equal to the Quotation Amount, which reflects such Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation based on such factors as such Dealer may consider relevant, which may include historical prices and recovery rates. Indicative Quotations shall be applicable only in the event that the provisions of this paragraph 7 (*Partial Cash Settlement*) are applicable;

"**Market Value**" means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation on

a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotations remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applicable in the applicable Issue Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (ii) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which two or more Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if the Quotations are deemed to be zero, the Market Value shall be zero;

"Quotation" means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applicable in the applicable Issue Terms, each Indicative Quotation obtained and expressed as a percentage with respect to a Valuation Date in the manner that follows:

- (i) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date), the Calculation Agent shall attempt to obtain Full Quotations from five or more Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applicable in the applicable Issue Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Dealers.
- (ii) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the applicable Issue Terms, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be zero.
- (iii) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this specification or determination.
- (iv) If any Quotation obtained with respect to an Accreting Obligation is expressed as a percentage of the amount payable in respect of such obligation at maturity, such Quotation will instead be expressed as a percentage of the Outstanding Principal Balance for the purposes of determining the Final Price;

"Quotation Amount" is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation an amount equal to the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant

Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation. For the purposes of this paragraph 7 (*Partial Cash Settlement*), there shall be deemed to be no Minimum Quotation Amount;

"Quotation Method" is deemed to be Bid;

"Reference Obligation" is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation;

"Valuation Method" is deemed to be Highest unless the relevant Quotations include Weighted Average Quotations, in which case, "Valuation Method" is deemed to be Market; and

"Valuation Time" is deemed to be 11:00 a.m. in the principal trading market for the Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation.

8 Credit Event Notice after Restructuring Credit Event

If "Partial Redemption Following Restructuring" is specified as applicable in the applicable Issue Terms, then, notwithstanding anything to the contrary in these Terms and Conditions, upon the occurrence of a Restructuring Credit Event for which either "Restructuring Maturity Limitation and Fully Transferable Obligation" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" are specified as applicable in the applicable Issue Terms:

- (i) The Calculation Agent may deliver a Credit Event Notice with respect to such Restructuring in respect of an amount (the **"Partial Redemption Amount"**) that is less than the nominal amount outstanding of each Security immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of the Credit Terms shall be deemed to apply to the Partial Redemption Amount only and each such Security shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount) and where applicable, references in the Credit Terms to "the Calculation Amount" shall be interpreted to mean "the Partial Redemption Amount" accordingly.
- (ii) For the avoidance of doubt (i) only the nominal amount of each such Security not so redeemed in part shall remain outstanding, the Final Redemption Amount and any other relevant provisions of these Terms and Conditions shall be amended in such manner as the Calculation Agent determines to be appropriate to reflect such partial redemption and (in relation to Notes only) interest shall continue to accrue on the nominal amount outstanding of such Security as provided in Condition 4 (*Interest*) of the Notes Conditions (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate) and (ii) the provisions of the Credit Terms shall apply to such nominal amount outstanding of such Security in the event that subsequent Credit Event Notices are delivered.
- (iii) If the provisions of this paragraph 8 (*Credit Event Notice after Restructuring Credit Event*) apply in respect of the Securities, on redemption of part of each such Security, the relevant Security or, if the Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption.

For the purposes of this paragraph 8 (*Credit Event Notice after Restructuring Credit Event*) and, for the purposes of the definition of Credit Event Determination Date set out in paragraph 15 (*Definitions*) below, references to the nominal amount outstanding of each Security shall be deemed to be a reference to the amount of the Calculation Amount of each Certificate outstanding from time to time.

9 Provisions relating to Multiple Holder Obligation

If "Multiple Holder Obligation" is specified as applicable in the applicable Issue Terms, notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a) to (e) of the definition of "Restructuring" shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation, where **"Multiple Holder Obligation"** means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event, provided that any Obligation that is a Bond shall be deemed to satisfy the requirements in sub-paragraph (ii) above.

10 **Redemption**

In respect of Securities that are Notes only, notwithstanding the provisions of the General Conditions, for the purpose of Condition 6(b) and Condition 9 in the Notes Conditions, the Early Redemption Amount in respect of each nominal amount of the Notes equal to the Calculation Amount will be determined by reference to the provisions in Condition 6(e) of the Notes Conditions, provided that if "Adjustment for Hedging Costs" is specified as applicable in the applicable Issue Terms, the Early Redemption Amount will be adjusted to take account of any Hedging Costs.

11 **Accrual of Interest**

In respect of Securities that are Notes only, notwithstanding the provisions of the General Conditions, if:

- (i) "No Accrual of Interest upon Credit Event" is specified as being applicable in the applicable Issue Terms, each Note shall cease to bear interest from the Interest Period Date (or, if none, the Interest Commencement Date) immediately preceding the Credit Event Determination Date, or if the Credit Event Determination Date is an Interest Period Date (or, as the case may be, the Interest Commencement Date) such Interest Period Date (or, as the case may be, the Interest Commencement Date); or
- (ii) "Partial Accrual of Interest upon Credit Event" is specified as being applicable in the applicable Issue Terms, each Note shall continue to bear interest from the Interest Period Date (or, if none, the Interest Commencement Date) immediately preceding the Credit Event Determination Date, or if the Credit Event Determination Date is an Interest Period Date (or, as the case may be, the Interest Commencement Date) such Interest Period Date (or, as the case may be, the Interest Commencement Date), but shall cease to bear interest from the Credit Event Determination Date.

12 **Force Majeure**

If "Force Majeure Events" is specified as applying in the applicable Issue Terms, the following provisions in this paragraph 12 shall apply:

(i) **Notice of Force Majeure Event**

The Issuer shall have the right to give notice in accordance with the General Conditions at any time to the Securityholders if it determines that any of the following events (each a **"Force Majeure Event"**) has occurred:

- (a) the performance of the Issuer's obligations under the Securities has become unlawful in whole or in part as a result of compliance by the Issuer with any applicable present or future law, rule, regulation, judgment, order, interpretation, directive or decree of any Government Authority (as defined below) or otherwise;

- (b) the performance of the Issuer's obligations under the Securities is prevented or materially hindered or delayed due to either (1) any act, law, rule, regulation, judgment, order, interpretation, directive, decree or material legislative or administrative interference of any Government Authority or otherwise, or (2) the occurrence of civil war, disruption, military action, unrest, political insurrection, terrorist activity of any kind, riot, public demonstration and/or protest, or any other financial or economic reasons or any other causes or impediments beyond such party's control;
- (c) it has become impracticable, illegal or impossible for the Issuer or any of its relevant affiliates, or the Issuer or any of its relevant affiliates are otherwise unable, (1) to convert the relevant currency (the "**Local Currency**") in which the relevant Reference Entity or traded instruments or any options or futures contracts or other hedging arrangement in relation to the Reference Entity (for the purposes of hedging the Issuer's obligations under the Securities) are denominated, into the Specified Currency or exchange or repatriate any funds in the Local Currency or the Specified Currency outside of the country in which the relevant Reference Entity or any options or futures contracts in relation to the Reference Entity are traded due to the adoption of, or any change in, any applicable law, rule, regulation, judgment, order, directive or decree of any Government Authority or otherwise, or (2) for the Calculation Agent to determine a rate or (in the determination of the Calculation Agent) a commercially reasonable rate at which the Local Currency can be exchanged for the Specified Currency for payment under the Securities;
- (d) it has become impracticable, illegal or impossible for the Issuer or any of its relevant affiliates to purchase, sell, hold or otherwise deal (or to continue to do so in the future) in the Reference Entity or any options or futures contracts in relation to the Reference Entity in order for the Issuer to perform its obligations under the Securities or in respect of any relevant hedging arrangements in connection with the Securities (including, without limitation, any purchase, sale or entry into or holding of one or more securities positions, currency positions, stock loan transactions, derivatives position or other instruments or arrangements (however described) by the Issuer (or any of its affiliates) in order to hedge, either individually or on a portfolio basis, the Securities) or the costs of so doing would (in the determination of the Calculation Agent) be materially increased under the restriction; or
- (e) any other event beyond the control of the Issuer has occurred which makes it impracticable, illegal or impossible for the Issuer to perform its obligations under the Securities or to hedge effectively its obligations under the Securities or the costs of so doing would (in the determination of the Calculation Agent) be materially increased.

(ii) Issuer's Option following a Force Majeure Event

If the Issuer decides to give notice to Securityholders of the occurrence of a Force Majeure Event pursuant to this paragraph 12, it shall state in such notice whether the Securities will be terminated pursuant to paragraph 12(iii) or whether the Issuer's obligations under the Securities will be suspended pursuant to paragraph 12(iv). If the Issuer elects to give notice to Securityholders of a suspension of its obligations under the Securities pursuant to paragraph 12(iv), the Issuer shall nevertheless retain the right at all times to terminate the Securities pursuant to paragraph 12(iii) by giving notice to Securityholders in accordance with the General Conditions.

(iii) Termination

Upon the Issuer's election to terminate the Securities as aforesaid (or upon expiry of the 10-day period referred to in paragraph 12(iv), the Issuer will, in respect of each and every Security cause to be paid to the Securityholder an amount determined to be the

fair market value of the Security as at termination (which may be nil) taking into consideration all information which the Calculation Agent deems relevant (including the circumstances that resulted in the occurrence of the Force Majeure Event) less the cost to the Issuer and/or its Affiliates of unwinding any related hedging arrangements (including but not limited to selling or otherwise realising the Reference Entity/Entities or any options or futures contracts in relation to the Reference Entity/Entities or any other such property), all as determined by the Calculation Agent. At the election of the Issuer, such payment may be made in the Local Currency in the Relevant Jurisdiction, in which case the Securityholder will have responsibility for establishing an account in the Relevant Jurisdiction in order to receive such payments; provided that if it is impracticable or unlawful for the Issuer to pay such amount in the Relevant Jurisdiction or the relevant Securityholder does not establish the necessary account in the Relevant Jurisdiction to receive payment(s) in the currency the Issuer elects, the Issuer shall not be obliged to make payment of any such amounts so affected, as applicable. Payment will be made, as the case may be, in such manner as shall be notified to the Securityholders in accordance with the General Conditions.

(iv) Suspension

Upon the Issuer's election to suspend the Securities, the Issuer's obligations in respect of the Securities may be suspended up until the tenth day after such Force Majeure Event shall cease to exist.

(v) Loss

No Securityholder will be entitled to any compensation from the Issuer for any loss suffered as a result of the occurrence of a Force Majeure Event.

For the purposes of this paragraph 12:

"Government Authority" means any nation, state or government; any province or other political subdivision thereof; any body, agency or ministry; any taxing, monetary, foreign exchange or other authority, court, tribunal or other instrumentality; and any other entity exercising; executive, legislative, judicial, regulatory or administrative functions of or pertaining to government.

"Relevant Jurisdiction" has the meaning specified in the relevant Issue Terms and if it is not specified, it will mean the jurisdiction determined by the Calculation Agent.

13 Notices

- (a) The Calculation Agent may deliver a Credit Event Notice and (if applicable) a Notice of Publicly Available Information to the Issuer at any time during either (i) the Notice Delivery Period or (ii) in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, the period set out in subparagraph (a)(b) of the definition of Credit Event Determination Date, provided that the Notice of Publicly Available Information Condition to Settlement shall be deemed to be satisfied in circumstances where ISDA publicly announces on or prior to the last day of the Notice Delivery Period (including prior to the Trade Date) that the relevant Credit Derivatives Determinations Committee has resolved that an event that constitutes a Credit Event has occurred with respect to the relevant Reference Entity or Obligation thereof.
- (b) In the case of a Physically Settled Security (or where Physical Settlement is the Fallback Settlement Method and a Fallback Settlement Method Event has occurred) in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, the relevant Physical Settlement Notice must be delivered by the Issuer subject, where applicable, to paragraph 14 (*Settlement Suspension*) below, on or prior to:

- (i) subject to sub-paragraph (ii) below, the later of:
 - (a) the thirtieth calendar day (subject to adjustment in accordance with any applicable Business Day Convention) after the Credit Event Determination Date; and
 - (b) the tenth calendar day after either (I) the date of the relevant DC Credit Event Announcement, if any, or (II) the date on which ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date if any, as applicable; or
- (ii) if "Physical Settlement" is applicable pursuant to the Fallback Settlement Method and:
 - (a) the relevant Credit Event is not a Restructuring (or, if such Credit Event is a Restructuring, neither "Restructuring Maturity Limitation and Fully Transferable Obligation" nor "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as "Applicable" in the applicable Issue Terms), the thirtieth calendar day after the Auction Cancellation Date or the No Auction Announcement Date, as applicable; or
 - (b) the relevant Credit Event is a Restructuring and either "Restructuring Maturity Limitation and Fully Transferable Obligation" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as applicable in the applicable Issue Terms, either:
 - (a) the thirtieth calendar day after:
 - (1) a No Auction Announcement Date occurring pursuant to subparagraph (a) of the definition of No Auction Announcement Date, if any; or
 - (2) a No Auction Announcement Date occurring pursuant to subparagraph (c) of the definition of No Auction Announcement Date, if any, in circumstances where no Parallel Auction will be held; or
 - (3) the Auction Cancellation Date, if any,
 as applicable; or
 - (b) the Relevant City Business Day immediately following the later of the Parallel Auction Final Price Determination Date, if any (or, if more than one should occur, the last Parallel Auction Final Price Determination Date), and the Parallel Auction Cancellation Date, if any (or, if more than one should occur, the last Parallel Auction Cancellation Date), as applicable, in circumstances where either:
 - (1) a No Auction Announcement Date occurs pursuant to subparagraph (b) of the definition of No Auction Announcement Date and the Issuer has not exercised the Movement Option in respect of the Securities; or

- (2) a No Auction Announcement Date occurs pursuant to subparagraph (c) of the definition of No Auction Announcement Date in circumstances where one or more Parallel Auctions will be held,

provided that in the case of paragraph (b)(i)(b) and paragraph (b)(ii), the relevant Credit Event Resolution Request Date occurred on or prior to the date described in paragraph (b)(i)(a),

the "**Physical Determination Date**".

For the purposes of determining whether such Physical Settlement Notice has been so delivered by the Physical Determination Date, the effective date of delivery of the Physical Settlement Notice (whether or not subsequently changed) shall be used. The Securities may not be physically settled until an effective Physical Settlement Notice is delivered by the Issuer.

If a Physical Settlement Notice in respect of the final Credit Event capable of occurring pursuant to any Physically Settled Securities is not delivered on or before the related Physical Determination Date, the Securities will then be redeemed at their Final Redemption Amount.

- (c) The Calculation Agent may deliver a Succession Event Notice at any time, provided that, in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, the Calculation Agent shall not be obliged to give such Succession Event Notice in order for a Succession Event to occur, notwithstanding whether or not such Succession Event was determined by DC Resolution of the relevant Credit Derivatives Determinations Committee.
- (d) In the case where the Issuer receives a Succession Event Notice, the Issuer will give notice to the Securityholders in accordance with the General Conditions that a Succession Event has occurred as soon as reasonably practicable after receiving such Succession Event Notice, provided that for the avoidance of doubt, any failure by the Issuer to give such notice shall not affect the validity of the related Succession Event. In the case where a Succession Event occurs as a result of a Succession Event Resolution Request Date occurring, the Issuer shall not be obliged to give or procure the giving of a notice of a Succession Event to the Securityholders.

14 Settlement Suspension

If, in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, following the determination of a Credit Event Determination Date in accordance with sub-paragraph (a) of the definition of Credit Event Determination Date but prior to the Physical Settlement Date or, to the extent applicable, a Valuation Date, ISDA publicly announces that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date are satisfied in accordance with the Rules, the timing requirements of paragraph 13(b) above and the definitions of Credit Event Redemption Date, Valuation Date, Settlement Notice, Physical Settlement Notice, Physical Settlement Period, and any other provision of these Terms and Conditions and/or the applicable Issue Terms as determined by the Calculation Agent, shall toll and remain suspended until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved (a) the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date or (b) not to determine such matters. Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved (i) the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date or (ii) not to determine such matters, the relevant timing requirements of these Terms and Conditions and/or the applicable Issue Terms that have

previously tolled or been suspended shall resume on the Business Day following such public announcement by ISDA.

15 Definitions

"Accreted Amount" means, with respect to an Accreting Obligation, an amount equal to (a) the sum of (i) the original issue price of such obligation and (ii) the portion of the amount payable at maturity that has accreted in accordance with the terms of the obligation (or as otherwise described below), less (b) any cash payments made by the obligor thereunder that, under the terms of such obligation, reduce the amount payable at maturity (unless such cash payments have been accounted for in (a)(ii) above), in each case calculated as of the earlier of (A) the date on which any event occurs that has the effect of fixing the amount of a claim in respect of principal and (B) the Delivery Date or applicable Valuation Date, as the case may be. Such Accreted Amount shall include any accrued and unpaid periodic cash interest payments only if "Include Accrued Interest" is specified in the applicable Issue Terms. If an Accreting Obligation is expressed to accrete pursuant to a straight-line method or if such Obligation's yield to maturity is not specified in, nor implied from, the terms of such Obligation, then, for the purposes of (a)(ii) above, the Accreted Amount shall be calculated using a rate equal to the yield to maturity of such Obligation. Such yield shall be determined on a semi-annual bond equivalent basis using the original issue price of such obligation and the amount payable at the scheduled maturity of such obligation, and shall be determined as of the earlier of (A) the date on which any event occurs that has the effect of fixing the amount of a claim in respect of principal and (B) the Delivery Date or applicable Valuation Date, as the case may be. The Accreted Amount shall exclude, in the case of an Exchangeable Obligation, any amount that may be payable under the terms of such obligation in respect of the value of the Equity Securities for which such obligation is exchangeable.

"Accreting Obligation" means any obligation (including, without limitation, a Convertible Obligation or an Exchangeable Obligation), the terms of which expressly provide for an amount payable upon acceleration equal to the original issue price (whether or not equal to the face amount thereof) plus an additional amount or amounts (on account of original issue discount or other interest or principal accruals not payable on a periodic issue) that will or may accrete, whether or not (a) payment of such additional amounts is subject to a contingency or determined by reference to a formula or index, or (b) periodic cash interest is also payable.

"Adjusted Maturity Date" means the latest of (i) the Credit Event Redemption Date, (ii) the Auction Settlement Date, (iii) the Physical Settlement Date, (iv) the Final Delivery Date, (v) the Repudiation/Moratorium Deferred Maturity Date, (vi) the Grace Period Deferred Maturity Date or (vii) the Deferred Maturity Date or, if none of those dates is relevant, the Maturity Date.

If the date on which the Best Available Information is available or is filed precedes the legally effective date of the relevant Succession Event, any assumptions as to the allocation of obligations between or among entities contained in the Best Available Information will be deemed to have been fulfilled as of the legally effective date of the Succession Event, whether or not this is in fact the case.

For purposes of this definition of "Restructuring" and paragraph 9 (*Provisions relating to Multiple Holder Obligation*) above, the term Obligation shall be deemed to include (i) Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy or (ii) Underlying Obligations for which the Reference Entity is acting as provider of a Qualifying Affiliate Guarantee or, if "All Guarantees" is specified as applicable in the applicable Issue Terms, as provider of any Qualifying Guarantee. - (a) In the event that:
 - (i) a Reference Obligation is redeemed in whole; or
 - (ii) in the determination of the Calculation Agent (A) the aggregate amounts due under a Reference Obligation have been materially reduced by redemption or otherwise (other than due to any scheduled redemption, amortisation or prepayments), (B) any Reference Obligation is an Underlying Obligation with a Qualifying Guarantee of a Reference Entity or, as the case may be, an Insured Instrument with a Qualifying Policy of a Reference Entity and, other than due to the existence or occurrence of a Credit Event, the Qualifying Guarantee or, as the case may be, the Qualifying Policy is no longer a valid and binding obligation of such Reference Entity enforceable in accordance with its terms, or (C) for any other reason, other than due to the existence or occurrence of a Credit Event, a Reference Obligation is no longer an obligation of a Reference Entity,

the Calculation Agent shall identify one or more Obligations to replace such Reference Obligation.

The Substitute Reference Obligation or Substitute Reference Obligations identified by the Calculation Agent shall, without further action, replace such Reference Obligation or Reference Obligations.
- (c) If more than one specific Reference Obligation is identified as a Reference Obligation for a Reference Entity in the applicable Issue Terms, any of the events set forth in paragraph (a) above has occurred with respect to one or more but not all of the Reference Obligations, and the Calculation Agent determines that no Substitute Reference Obligation is available for one or more of such Reference Obligations, each Reference Obligation for which no Substitute Reference Obligation is available shall cease to be a Reference Obligation.
- (d) If more than one specific Reference Obligation is identified as a Reference Obligation for a Reference Entity in the applicable Issue Terms, any of the events set forth in paragraph (a) above has occurred with respect to all of the Reference Obligations, and the Calculation Agent determines that at least one Substitute Reference Obligation is available for any such Reference Obligation, then each such Reference Obligation shall be replaced by a Substitute Reference Obligation and each Reference Obligation for which no Substitute Reference Obligation is available will cease to be a Reference Obligation.

Notwithstanding the foregoing, "Succession Event" shall not include (A) an event in which the holders of obligations of the Reference Entity exchange such obligations for the obligations of another entity, unless such exchange occurs in connection with a merger, demerger, consolidation, amalgamation, transfer of assets or liabilities, spin-off or other similar event or (B), in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, with respect to which the legally effective date (or, in the case of a Reference Entity that is a Sovereign, the date of occurrence) has occurred prior to the Succession Event Backstop Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign, Tokyo time)).

"Succession Event Backstop Date" means, in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable: (i) for purposes of any event that constitutes a Succession Event, as determined by DC Resolution, the date that is 90 calendar days prior to the Succession Event Resolution Request Date (determined by reference to Greenwich Mean Time (or if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign, Tokyo time)) or (ii) otherwise, the date that is 90 calendar days prior to the earlier of (A) the date on which the Succession Event Notice is effective and (B) in circumstances where (I) the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in sub-paragraphs (a) and (b) of the definition of "Succession Event Resolution Request Date" are satisfied in accordance with the Rules, (II) the relevant Credit Derivatives Determinations Committee has Resolved not to determine such matters and (III) the Succession Event Notice is delivered by the Calculation Agent not more than fourteen calendar days after the day on which ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine such matters, the Succession Event Resolution Request Date. The Succession Event Backstop Date shall not be subject to adjustment in accordance with any Business Day Convention.

"Succession Event Notice" means, in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, an irrevocable notice from the Calculation Agent (which may be in writing and/or by telephone) to the Issuer that describes a Succession Event that occurred on or after the Succession Event Backstop Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign, Tokyo time)).

A Succession Event Notice must contain a description in reasonable detail of the facts relevant to the determination, pursuant to sub-paragraphs (a) or (b) of the definition of "Successor" of (i) whether a Succession Event has occurred and (ii) if relevant, the identity of any Successor(s).

"Successor" means:

- (a) in relation to a Reference Entity that is not a Sovereign, the entity or entities, if any, determined as set forth below:
 - (i) if one entity directly or indirectly succeeds to 75 per cent. or more of the Relevant Obligations of the Reference Entity by way of a Succession Event, that entity will be the sole Successor;
 - (ii) if only one entity directly or indirectly succeeds to more than 25 per cent. (but less than 75 per cent.) of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent. of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each directly or indirectly succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent. of the Relevant Obligations will each be a Successor, and the Calculation Agent shall adjust such of these Terms and Conditions and/or the provisions of the applicable Issue Terms as it shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment;
 - (iv) if one or more entities each directly or indirectly succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will be a Successor, and the Calculation Agent shall adjust such of these Terms and Conditions and/or the provisions of the applicable Issue Terms as it shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment;
 - (v) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of the Succession Event; and
 - (vi) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which

succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the greatest percentage of obligations of the Reference Entity) will be the sole Successor; and

- (b) with respect to a Sovereign Reference Entity, each entity which becomes a direct or indirect successor to such Reference Entity by way of Succession Event irrespective of whether any such successor assumes any of the obligations of such Reference Entity, as determined by the Calculation Agent.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but not earlier than 14 calendar days after the date of the occurrence of the relevant Succession Event), and with effect from the date of the occurrence of the Succession Event, each Sovereign and/or entity (if any) that qualifies under paragraph (b) above; provided that, in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, the Calculation Agent will not make such determination if, at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in (b) above, and subparagraphs (a) and (b)(B) of the definition of Succession Event Resolution Request Date are satisfied in accordance with the Rules (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred.

In the case of (a) above, the Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than 14 calendar days after the legally effective date of the relevant Succession Event), and with effect from the legally effective date of the Succession Event, whether the relevant thresholds set out in (a) (i) to (vi) above have been met, or which entity qualifies under (a) (vi) above, as applicable; provided that, in the case of Securities in respect of which the applicable Issue Terms specify that the July 2009 Supplement is applicable, the Calculation Agent will not make such determination if, at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in (a) above, and subparagraphs (a) and (b)(A) of the definition of Succession Event Resolution Request Date are satisfied in accordance with the Rules (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. In calculating the percentages used to determine whether the relevant thresholds set out in (a) above have been met, or which entity qualifies under (a) (vi) above, as applicable, the Calculation Agent shall use, with respect to each applicable Relevant Obligation included in such calculation, the amount of the liability with respect to such Relevant Obligation listed in the Best Available Information and shall notify the Issuer of such calculation.

For the purposes of this definition of "**Successor**", "**succeed**" means, with respect to a Reference Entity and its Relevant Obligations (or, as applicable, obligations), that a party other than such Reference Entity (1) assumes or becomes liable for such Relevant Obligations (or, as applicable, obligations) whether by operation of law or pursuant to any agreement or (2) issues Bonds that are exchanged for Relevant Obligations (or, as applicable, obligations), and in either case such Reference Entity is no longer an obligor (primarily or secondarily), insurer or guarantor with respect to such Relevant Obligations (or, as applicable, obligations). The determinations required pursuant to paragraph (a) above shall be made, in the case of an exchange offer, on the basis of the Outstanding Principal Balance of Relevant Obligations tendered and accepted in the exchange and not on the basis of the Outstanding Principal Balance of Bonds for which Relevant Obligations have been exchanged.

Where:

- (A) a Reference Obligation with respect to a Reference Entity is specified in the applicable Issue Terms; and
- (B) one or more Successors to the Reference Entity have been identified; and
- (C) any one or more such Successors have not assumed the Reference Obligation,

a Substitute Reference Obligation will be determined in accordance with the definition of "Substitute Reference Obligation" above.

Where pursuant to paragraph (a)(iii) or (iv) above, more than one Successor has been identified, the Calculation Agent shall adjust such terms of the Conditions as it determines appropriate to reflect the fact that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be entitled but not obliged to make such adjustments in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Securities under the provisions of the 2003 ISDA Credit Derivatives Definitions (in the case of Securities in respect of which the applicable Issue Terms specifies that the July 2009 Supplement is not applicable) or the Credit Derivative Definitions (in the case of Securities in respect of which the applicable Issue Terms specifies that the July 2009 Supplement is applicable). 1 Cash Settlement

(i) *If the Securities are not Auction Settled Securities:*

Subject to paragraph 1(iii) below, where applicable, if the Securities are Cash Settled Securities and if a Credit Event Determination Date has occurred, the Issuer shall give notice (such notice a "**Settlement Notice**") to the Securityholders as soon as practicable in accordance with the General Conditions, and, subject to these Credit Terms, in particular paragraph 9 (*Credit Event Notice after M(M)R Restructuring*) below, redeem all but not some only of the Securities on the Credit Event Redemption Date at, in respect of the Calculation Amount, the Credit Event Redemption Amount (which Credit Event Redemption Amount will, if "Adjustment for Hedging Costs" is specified in the applicable Issue Terms, be subject to adjustment to account for any Hedging Costs).

Notwithstanding that the Securities are not Auction Settled Securities and notwithstanding anything else to the contrary contained herein, if the Calculation Agent determines that (a) an Auction has taken, or is expected to take, place in respect of the relevant Reference Entity to value obligations of the same seniority as the Reference Obligation and (b) the Auction Final Price Determination Date falls, or is expected to fall, on or before the sixtieth (60th) Business Day after the relevant Credit Event Determination Date, the Calculation Agent may elect that the Auction Final Price as so determined pursuant to such Auction shall be deemed to be the Final Price hereunder in respect of such Reference Entity, in which case, the definitions of Valuation Method, Valuation Date, Quotation, Quotation Method and Quotation Amount shall not apply in respect of such Reference Entity and/or Reference Obligation, and the Calculation Agent may make such amendments to the Conditions as it determines appropriate to reflect the change in the determination of the Final Price provided, however that, if the Calculation Agent has so elected but no appropriate Auction Final Price is determined within such time frame, the Calculation Agent may reverse such election and make such amendments to the Conditions as it determines appropriate to reflect such reversal.

(ii) *If the Securities are Auction Settled Securities:*

Subject to paragraph 1(iii) below, where applicable, if the Securities are Auction Settled Securities and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice a "**Settlement Notice**") to the Securityholders as soon as practicable in accordance with the General Conditions, and, subject to these Credit Terms, in particular paragraph 9 (*Credit Event Notice after M(M)R Restructuring*) below, redeem all but not some only of the Securities on the second Business Day following the Auction Settlement Date at, in respect of the Calculation Amount, the Auction Cash Settlement Amount (which Auction Cash Settlement Amount will, if "Adjustment for Hedging Costs" is specified as applicable in the applicable Issue Terms, be subject to adjustment to account for any Hedging Costs).

Notwithstanding the above, if a Fallback Settlement Method Event occurs:

- (A) if "Cash Settlement" is specified as the applicable Fallback Settlement Method in the applicable Issue Terms, then, notwithstanding that the Securities are Auction Settled Securities, these Terms and Conditions shall apply in respect of such Credit Event as if the Securities were Cash Settled Securities and the Issuer shall redeem the Securities in accordance with paragraph 1(i) above; and
- (B) if "Physical Settlement" is specified as the applicable Fallback Settlement Method in the applicable Issue Terms, then, notwithstanding that the Securities are Auction Settled Securities, these Terms and Conditions shall apply in respect of such Credit Event as if the Securities were Physically Settled

Securities and the Issuer shall redeem the Securities in accordance with paragraph 2 (*Physical Settlement*) below.

If no Fallback Settlement Method is specified in the applicable Issue Terms, "Physical Settlement" shall be deemed to be specified in the applicable Issue Terms as the applicable Fallback Settlement Method.

(iii) *Where the Notes are Linear Basket Credit Linked Securities:*

If a Credit Event Determination Date has occurred in respect of any specified Reference Entity: (x) the Issuer shall give a Settlement Notice to the Securityholders as described in paragraph 1(i) or (ii) above, as applicable, and (y) in respect of each Security:

- (A) the Issuer shall pay in respect of each Calculation Amount, an amount equal to the relevant Credit Event Amount, if any, on the relevant Credit Event Payment Date (and such Credit Event Amount will, if "Adjustment for Hedging Costs" is specified in the applicable Issue Terms, be subject to adjustment to account for any Hedging Costs). The relevant Credit Event Amount will be deemed to be an Instalment Amount for the purposes of Notes Condition 6(f) and the relevant Credit Event Payment Date will be deemed to be the relevant Instalment Date. As of each Credit Event Determination Date, the outstanding aggregate nominal amount of the Securities will be reduced to the Adjusted Credit Outstanding Nominal Amount. In the case of any early redemption of the Securities where an Early Redemption Amount is to be determined pursuant to Notes Condition 6(e), the fair market value of such Securities must take into account, without limitation, the relevant reduction in the outstanding aggregate nominal amount of the Securities;
- (B) the interest calculation basis described in sub-paragraph (iv) below will apply;
- (C) subject as provided in sub paragraph (D) below, each Security, in respect of each Calculation Amount shall be redeemed by payment (i) on the Maturity Date (or such later date as specified in paragraphs 3, 4, 5 or 6, being the Repudiation/Moratorium Deferred Maturity Date, Grace Period Deferred Maturity Date, DC Determination Postponed Payment Date or Deferred Maturity Date, as applicable) of the Security's pro rata share of the Adjusted Credit Outstanding Nominal Amount, if any, in respect of such payment date and, (ii), if applicable, on the last occurring Credit Event Payment Date at the relevant Credit Event Amount, provided that in no event shall any such amount be less than zero. In relation to a Note, where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the relevant redemption amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding; and
- (D) if at any time, a Credit Event Determination Date has occurred in respect of all the specified Reference Entities each Security will be redeemed (together with accrued interest, if any) at the final Credit Event Amount on the final Credit Event Payment Date and the Issuer will have no further obligations in respect of the Securities.

For the avoidance of doubt, parts (A) and (B) of this paragraph (iii) will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred and part (C) of this paragraph (iii) will continue to apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has not occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

(iv) *Interest calculation for Linear Basket Credit Linked Securities:*

Where the Notes are Linear Basket Credit Linked Securities, each Linear Basket Credit Linked Security will bear interest pursuant to, and in accordance with, Note Condition 4, provided that for the purposes of determining the interest amounts payable on or after any Credit Event Determination Date, the provisions set out in paragraph 12 below will not apply and instead for the purposes of calculating interest pursuant to Note Condition 4(b)(i)(I) or (II), each Security will be deemed to bear interest in respect of the whole of the relevant Interest Period on its *pro rata* share of the Adjusted Credit Outstanding Nominal Amount, as of the relevant Interest Payment Date on which payment is due instead of its original outstanding nominal amount or the Calculation Amount, as applicable. Each interest amount will be payable on the relevant Interest Payment Date or the relevant date for payment pursuant to the Credit Terms.

For these purposes, and subject as provided below, "**Adjusted Credit Outstanding Nominal Amount**" means, on any Interest Payment Date or date for payment pursuant to the Credit Terms or any other relevant date (i) the Aggregate Nominal Amount minus (ii) the product of (a) the Aggregate Nominal Amount and (b) a fraction with (x) the aggregate Reference Entity Notional Amounts of Reference Entities in respect of which a Credit Event Determination Date has occurred on or prior to the relevant Interest Payment Date or other relevant date, as numerator and (y) the aggregate Reference Entity Notional Amounts of the original number of Reference Entities to which the Securities related, in each case as of the Issue Date of the first Tranche of the Securities, as denominator.

Where an Interest Payment Date or the Maturity Date is delayed pursuant to paragraphs 3, 4, 5 or 6, in addition to taking into account any Credit Event Determination Date that occurred on or prior to such original due date, the relevant Adjusted Credit Outstanding Nominal Amount may only be calculated taking into account a Credit Event Determination Date for a Reference Entity in respect of which such delay was made and not any other Reference Entity for which a Credit Event Determination Date has subsequently occurred after such original due date. Where the Maturity Date is delayed, the relevant amount of interest (if any) will be payable on the date provided in paragraphs 3, 4, 5 or 6 being the Repudiation/Moratorium Deferred Maturity Date, Grace Period Deferred Maturity Date, DC Determination Postponed Payment Date or Deferred Maturity Date, as applicable, regardless of whether a Credit Event Determination Date occurs but in any event no further or other amount shall be payable in respect of such delay. Where an Interest Payment Date is delayed, the relevant amount of interest (if any) will be payable on (i) where the Interest Payment Date was scheduled to fall on or about the Maturity Date, the Repudiation/Moratorium Deferred Maturity Date, Grace Period Deferred Maturity Date, DC Determination Postponed Payment Date or Deferred Maturity Date, as applicable, or (ii) otherwise, (a) if a Credit Event Determination Date has not occurred, the third Business Day following the day on which the Calculation Agent determines that a Credit Event Determination Date has not occurred, or (b) if a Credit Event Determination Date has occurred, the third Business Day following the day on which the Calculation Agent determines that a Credit Event Determination Date has occurred in respect of the affected Reference Entity but, in either case, no additional amount of interest will be payable in respect of such delay.

In the case of Linear Basket Credit Linked Securities, if any Rate of Interest or Margin in the applicable Issue Terms is specified as a "**Weighted Average Rate**" then such Rate of Interest (where Fixed Rate Note provisions apply) or Margin (where Floating Rate Note provisions apply) in respect of the calculation of interest for a relevant Interest Payment Date shall be the sum of, in respect of each Relevant Reference Entity, the product of (a) the Relevant Reference Entity's Reference Entity Notional

Amount divided by the sum of the Reference Entity Notional Amounts in respect of each Reference Entity (i.e. all original Reference Entities regardless of whether a Credit Event Determination Date has occurred), and (b) the Relevant Rate specified for such Relevant Reference Entity in the applicable Issue Terms. For these purposes "**Relevant Reference Entity**" means a Reference Entity in respect of which no Credit Event Determination Date has occurred (or pursuant to paragraphs 3, 4, 5 or 6 is not subsequently determined to have occurred) as of the relevant Interest Payment Date.

(v) *Linear Basket Credit Linked Securities - adjustments*

In the case of Linear Basket Credit Linked Securities, if any purchase and cancellation of Securities occurs under Note Condition 6(g) or Certificate Condition 6 or any further issue under Note Condition 19 or Certificate Condition 14, the Calculation Agent will make such adjustments to the applicable Issue Terms and/or these Credit Terms as it determines appropriate (including Reference Entity Notional Amounts) to ensure the Securities continue to reflect economic intentions.

If a Credit Event Determination Date has occurred and the Securities become redeemable in accordance with this paragraph 1, upon payment of the Credit Event Redemption Amount or Auction Cash Settlement Amount (as applicable) in respect of the Securities or each Credit Event Amount and the final redemption amount (if any) in the case of Linear Basket Credit Linked Securities, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount or Auction Cash Settlement Amount or each Credit Event Amount and the final redemption amount (if any) in the case of Linear Basket Credit Linked Securities (as applicable) may be less than the Calculation Amount of a Security. Any shortfall shall be borne by the Securityholder and no liability shall attach to the Issuer.

2 Physical Settlement

If the Securities are Physically Settled Securities, a Credit Event Determination Date has occurred and the Calculation Agent delivers a Calculation Agent Physical Settlement Notice that is effective on or prior to the PSN Cut-off Date, the Issuer shall give notice (such notice a "**Physical Settlement Notice**") to the Securityholders as soon as practicable in accordance with the General Conditions, and, subject to these Credit Terms, in particular paragraph 9 (*Credit Event Notice after M(M)R Restructuring*) below, redeem all but not some only of the Securities by, in respect of each Calculation Amount, Delivery of the Deliverable Obligations comprising the Asset Amount, subject to and in accordance with paragraph 7 (*Procedures for Physical Delivery*) below.

If "Adjustment for Hedging Costs" is specified as applicable in the applicable Issue Terms, and:

- (i) if the Hedging Costs represent losses, expenses and costs incurred by the Issuer, then, the Issuer will deduct from the Asset Amount such Outstanding Principal Balance or Due and Payable Amount, as the case may be, of Deliverable Obligations with a Liquidated Value of not less than such Asset Amount's *pro rata* share of such Hedging Costs and the Delivery by the Issuer of such reduced Asset Amount (and the amount of any excess of such Liquidated Value (if any) over such Asset Amount's *pro rata* share of such Hedging Costs which will be payable by the Issuer with delivery of the relevant Asset Amount) shall be deemed to satisfy and discharge in full the obligation of the Issuer to the Securityholder in respect of the relevant Asset Amount; or
- (ii) if the Hedging Costs represent a gain to the Issuer, the Securityholder will receive a payment from the Issuer being such Securityholder's *pro rata* share of such gain in respect of such Hedging Costs with the delivery of any Asset Amount by the Issuer.

In the Physical Settlement Notice, the Issuer shall specify (i) each Deliverable Obligation comprising the Asset Amount that it reasonably expects to Deliver, (ii) the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Settlement Currency (in each case the relevant "**Outstanding Amount**") and, if different, the face amount, of each such Deliverable Obligation and (iii) if "Adjustment for Hedging Costs" is specified in the applicable Issue Terms, whether any Hedging Costs representing losses, expenses and costs incurred by the Issuer will be accounted for in the manner described in paragraph 2(i) above. The aggregate Outstanding Amount of all Deliverable Obligations specified in the Physical Settlement Notice that the Issuer intends to Deliver shall be the relevant "**Aggregate Outstanding Amount**". For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Asset Amount, irrespective of their market value.

If "Mod R" is specified as applicable in the applicable Issue Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Asset Amount only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date in each case as of each such date as the Calculation Agent determines relevant in the context of the Securities, which dates may include any relevant dates for purposes of the Hedging Arrangements (if any).

If "Mod Mod R" is specified as applicable in the applicable Issue Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Asset Amount only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant in the context of the Securities, which dates may include any relevant dates for purposes of the Hedging Arrangements (if any). For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

The Issuer may, from time to time, amend a Physical Settlement Notice by notifying the Securityholders in accordance with the General Conditions (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Physical Settlement Notice or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective) or any relevant details thereof. A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer reasonably expects to Deliver to or to the order of the Securityholders (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Physical Settlement Notice or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of each Replacement Deliverable Obligation identified in a Physical Settlement Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligation(s) specified in any Physical Settlement Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligation(s) specified in the Physical Settlement Notice or any earlier Physical Settlement Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. The Replacement Deliverable Obligation(s), taken together, shall have an aggregate Replaced Deliverable Obligation Outstanding Amount at least equal to the Outstanding Principal Balance(s) and/or Due and Payable Amount(s) (or the equivalent Currency Amount(s) of any such amount(s)) of the Deliverable Obligations being replaced. Each such Physical Settlement Amendment Notice must be effective on or prior to the Physical Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice).

Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies in the Physical Settlement Notice or any Physical Settlement Amendment Notice, as applicable, by notice to Securityholders in accordance with the General Conditions prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall on the PSN Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Securityholders (in accordance with the General Conditions) of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Physical Settlement Notice or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice of correction shall not constitute a Physical Settlement Amendment Notice.

If a Credit Event Determination Date has occurred and the Securities become redeemable in accordance with this paragraph 2, upon Delivery of the Deliverable Obligations and/or payment of the Partial Cash Settlement Amount or the Auction Cash Settlement Amount (or any other amounts payable in accordance with paragraphs 7 or 8 below), as the case may be, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount or the Auction Cash Settlement Amount (or any other amounts payable in accordance with paragraphs 6 or 7 below), as the case may be, may be less than the Calculation Amount of a Security. Any shortfall shall be borne by the Securityholder and no liability shall attach to the Issuer.

3 Repudiation/Moratorium Extension

Where a Credit Event Determination Date has not occurred on or prior to the Maturity Date or any Interest Payment Date but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Maturity Date or any Interest Payment Date or, if paragraph 6 (Deferral of Certain Dates) below applies, the Deferred Maturity Date or the Deferred Interest Payment Date (each as defined in paragraph 6 below) and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation/Moratorium may, in the opinion of the Calculation Agent, fall after, as applicable, the Maturity Date, such Interest Payment Date, the Deferred Maturity Date or such Deferred Interest Payment Date, then the Calculation Agent may (at its option) notify the Securityholders in accordance with the General Conditions that a Potential Repudiation/Moratorium has occurred and the maturity of the Securities and/or relevant interest payment will be delayed and:

- (i) in relation to such event as of the Maturity Date or Deferred Maturity Date, where a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date:
 - (a) each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, will be redeemed by the Issuer by payment of the Relevant Final Amount on the third Business Day following the Repudiation/Moratorium Evaluation Date (the "**Repudiation/Moratorium Deferred Maturity Date**"); and
 - (b) in the case of interest bearing Notes other than Linear Basket Credit Linked Securities, the Issuer shall be obliged to pay interest (if any), calculated as provided herein, accrued up to (but excluding) the final Interest Period Date (which will, if Interest Period Dates are specified in the applicable Issue Terms as being the Interest Payment Dates, be the Maturity Date), but shall only be obliged to make such payment of interest on the Repudiation/Moratorium Deferred Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (ii) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date and a Credit Event Determination Date has

occurred, the provisions of paragraph 1 (*Cash Settlement*) or 2 (*Physical Settlement*) above, as applicable, and paragraph 12 (*Accrual of Interest*) shall apply to the Securities; or

- (iii) in relation to such event as of an Interest Payment Date or Deferred Interest Payment Date, the Calculation Agent may delay the relevant amount of interest which would otherwise be payable on such Interest Payment Date or Deferred Interest Payment Date. In this case where (a) a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date then the relevant amount of interest shall be payable on the third Business Day following the Repudiation/Moratorium Evaluation Date but no additional interest will be payable in respect of the relevant delay and for the avoidance of doubt no amendment will be made to any Interest Period or basis of calculation of the relevant amount of interest, other than as described above; (b) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date and a Credit Event Determination Date has occurred thereafter, the relevant amount of interest will be determined and payable in accordance with paragraph 1(iv) in the case of Linear Basket Credit Linked Securities or otherwise paragraph 12 and may be zero or (c) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date but a Credit Event Determination Date has not occurred thereafter, the relevant amount of interest will be payable on the third Business Day following the Calculation Agent's determination that a Credit Event Determination Date will not occur.

4 Grace Period Extension

If "Grace Period Extension" is specified as applicable in the applicable Issue Terms, the provisions of this paragraph 4 shall apply.

If a Credit Event Determination Date has not occurred on or prior to the Maturity Date or any Interest Payment Date but, in the determination of the Calculation Agent, a Potential Failure to Pay has occurred with respect to one or more Obligation(s) in respect of which a Grace Period is applicable on or prior to the Maturity Date or relevant Interest Payment Date (and such Grace Period(s) is/are continuing as at that date), then the Calculation Agent may (at its option) notify the Securityholders in accordance with the General Conditions that a Potential Failure to Pay has occurred and that the maturity of the Securities and/or relevant interest payment will be delayed and:

- (i) in relation to such event as of the Maturity Date, where a Failure to Pay has not occurred on or prior to the Grace Period Extension Date:
 - (a) each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, will be redeemed by the Issuer by payment of the Relevant Final Amount on the third Business Day following the Grace Period Extension Date (the "**Grace Period Deferred Maturity Date**"); and
 - (b) in the case of interest bearing Notes other than Linear Basket Credit Linked Securities, the Issuer shall be obliged to pay interest calculated as provided herein, accrued up to (but excluding) the final Interest Period Date (which will, if Interest Period Dates are specified in the applicable Issue Terms as being the Interest Payment Dates, be the Maturity Date), but shall only be obliged to make such payment of interest on the Grace Period Deferred Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (ii) where a Failure to Pay has occurred on or prior to the Grace Period Extension Date and a Credit Event Determination Date has occurred, the provisions of paragraph 1 (*Cash Settlement*) or 2 (*Physical Settlement*) above, as applicable, and paragraph 12 (*Accrual of Interest*) shall apply to the Securities; or

- (iii) in relation to such event as of an Interest Payment Date, the Calculation Agent may delay the relevant amount of interest which would otherwise be payable on the relevant Interest Payment Date. In this case where (a) a Failure to Pay has not occurred on or prior to the Grace Period Extension Date then the relevant amount of interest shall be payable on the third Business Day following the Grace Period Extension Date but no additional interest will be payable in respect of the relevant delay and for the avoidance of doubt no amendment will be made to any Interest Period or basis of calculation of the relevant amount of interest, other than as described above; (b) where a Failure to Pay has occurred on or prior to the Grace Period Extension Date and a Credit Event Determination Date has occurred thereafter, the relevant amount of interest will be determined and payable in accordance with paragraph 1(iv) in the case of Linear Basket Credit Linked Securities or otherwise paragraph 12 and may be zero or (c) a Failure to Pay has occurred on or prior to the Grace Period Extension Date and a Credit Event Determination Date has not occurred thereafter the relevant amount of interest will be payable on the third Business Day following the Calculation Agent's determination that a Credit Event Determination Date will not occur.

5 Credit Derivatives Determinations Committee Extension

If, in the determination of the Calculation Agent, a Potential Credit Event has occurred and the Credit Derivatives Determinations Committee has not made its related determination on or prior to the Maturity Date or any Interest Payment Date then the Calculation Agent may (at its option) notify Securityholders in accordance with the General Conditions that redemption of the Securities and/or payment of the relevant amount of interest due on the relevant Interest Payment Date has been postponed to a date (the "**DC Determination Postponed Payment Date**") being the day falling five Business Days after (a) if the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred, fifteen (15) Business Days following the relevant DC Credit Event Announcement or (b) if the Credit Derivatives Determinations Committee Resolves that a Credit Event has not occurred, the second Business Day following the relevant DC No Credit Event Announcement or, as applicable (c) fifteen (15) Business Days following the DC Credit Event Question Dismissal (the date of the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Dismissal, as applicable, the "**DC Determination Cut-off Date**"), and:

- (a) in the case of the Maturity Date, where a Credit Event has not occurred on or prior to the Extension Date or a Credit Event has occurred but no Credit Event Determination Date has occurred:
 - (1) each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, will be redeemed by the Issuer at the Relevant Final Amount on the DC Determination Postponed Payment Date; and
 - (2) in the case of interest bearing Notes other than Linear Basket Credit Linked Securities, the Issuer shall be obliged to pay interest calculated as provided herein, accrued up to (but excluding) the final Interest Period Date (which will, if Interest Period Dates are specified in the applicable Issue Terms as being the Interest Payment Dates, be the Maturity Date) but shall only be obliged to make such payment of interest on the DC Determination Postponed Payment Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (b) where a Credit Event has occurred on or prior to the Extension Date and a Credit Event Determination Date has occurred, no payment shall be made on the DC Determination Postponed Payment Date and the provisions of paragraph 1 (*Cash Settlement*) or 2 (*Physical Settlement*) above, as applicable, and paragraph 12 (*Accrual of Interest*) shall apply to the Securities; or
- (c) in relation to such event as of an Interest Payment Date, the Calculation Agent may delay the relevant amount of interest which would otherwise be payable on the relevant Interest Payment Date. In this case where (i) a Credit Event has not occurred on or

prior to the Extension Date or a Credit Event has occurred but no Credit Event Determination Date has occurred, then the relevant amount of interest shall be payable on the DC Determination Postponed Payment Date but no additional interest will be payable in respect of the relevant delay and for the avoidance of doubt no amendment will be made to any Interest Period or basis of calculation of the relevant amount of interest, other than as described above; or (ii) where a Credit Event has occurred on or prior to the Extension Date and a Credit Event Determination Date has occurred, the relevant amount of interest will be determined and be payable in accordance with paragraph 1(iv) in the case of Linear Basket Credit Linked Securities or otherwise paragraph 12 and may be zero.

6 Deferral of Certain Dates

The following provisions may, for the avoidance of doubt, be applied on more than one occasion.

Without prejudice to paragraph 5 (*Credit Derivatives Determinations Committee Extension*) above or 14 (*Settlement Suspension*) below, if:

- (x) on or prior to (A) the Maturity Date, (B) if applicable, the Repudiation/Moratorium Evaluation Date, (C) if applicable, the Grace Period Extension Date, or (D) the DC Determination Cut-off Date, as the case may be, a Credit Event Determination Date has not occurred but in the opinion of the Calculation Agent, a Credit Event or (in respect of the Maturity Date only) Potential Credit Event (other than a Potential Repudiation/Moratorium) may have occurred or may occur; or
- (y) on or prior to the Maturity Date, a Credit Event Determination Date has not occurred but in the determination of the Calculation Agent, a Potential Repudiation/Moratorium may have occurred or may occur; or
- (z) (A) on or prior to any Interest Payment Date, a Credit Event Determination Date has not occurred but in the determination of the Calculation Agent, a Credit Event or Potential Credit Event (other than a Potential Repudiation/Moratorium) may have occurred; or (B) on any Interest Payment Date, a Credit Event Determination Date has not occurred but in the determination of the Calculation Agent, a Potential Repudiation/Moratorium may have occurred or may occur,

the Calculation Agent may (at its option) notify the Securityholders in accordance with the General Conditions that in the case of (x) or (y) above, redemption of the Securities and/or in the case of (z) above, payment of the relevant amount of interest due on the relevant Interest Payment Date, has been postponed to a date (such date, in the case of an Interest Payment Date, the "**Deferred Interest Payment Date**", or in each other case, the "**Deferred Maturity Date**") specified in such notice falling (A) 21 calendar days after, respectively, the Maturity Date, the relevant Interest Payment Date, the relevant Repudiation/Moratorium Evaluation Date, the Grace Period Extension Date, as the case may be or (B) the DC Determination Postponed Payment Date, and:

- (i) in the case of sub-paragraph (x) above and if a Credit Event Determination Date has not occurred or, in the case of sub-paragraph (y) or (z)(B) above, the Repudiation/Moratorium Extension Condition is not satisfied or, in the case of sub-paragraph (z)(A) above, a Credit Event Determination Date has not occurred on or prior to the Deferred Interest Payment Date then:
 - (a) in the case of sub-paragraph (x) or (y) above and subject as provided below, each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, will be redeemed by the Issuer by payment of the Relevant Final Amount on the Deferred Maturity Date; and

- (b) in the case of sub-paragraph (x) or (y) above and in the case of interest bearing Notes other than Linear Basket Credit Linked Securities, the Issuer shall be obliged to pay interest (if any) calculated as provided herein, accrued up to (but excluding) the final Interest Period Date (which will, if Interest Period Dates are specified in the applicable Issue Terms as being the Interest Payment Dates, be the Maturity Date), but shall only be obliged to make such payment of interest on the Deferred Maturity Date, and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
 - (c) in the case of a Deferred Interest Payment Date other than the Deferred Interest Payment Date falling on or about the Deferred Maturity Date and other than in the case of Linear Basket Credit Linked Securities, the Issuer shall be obliged to pay the relevant amount of interest on the Deferred Interest Payment Date and no further or other amounts in respect of interest shall be payable as a result of such delay; or
- (ii) in the case of:
 - (A) sub-paragraph (x) or sub-paragraph (z)(A) above, if a Credit Event Determination Date has occurred on or prior to the Deferred Maturity Date or relevant Deferred Interest Payment Date, no payment shall be made on the Deferred Maturity Date or Deferred Interest Payment Date and the provisions of paragraph 1 (*Cash Settlement*) or 2 (*Physical Settlement*) above, as applicable, and 12 (*Accrual of Interest*) shall apply to the Securities and, in the case of Linear Basket Credit Linked Securities, the provisions of paragraph 1(iv) will apply; and
 - (B) sub-paragraph (y) or subparagraph (z)(B) above, if the Repudiation/Moratorium Extension Condition is satisfied on or prior to the Deferred Maturity Date or Deferred Interest Payment Date, as applicable, the provisions of paragraph 3 (*Repudiation/Moratorium Extension*) above shall apply to the Securities and, in the case of Linear Basket Credit Linked Securities, the provisions of paragraph 1(iv) will apply.

7 Procedures for Physical Delivery

If any Credit Linked Securities are to be redeemed by delivery of the Asset Amount, either (i) any such Asset Amount shall be delivered to the Securityholders through the relevant Clearing System(s) without an Asset Transfer Notice being required, subject (where applicable) to certification that the relevant Securityholder is either (a) not a U.S. person or a person within the United States or (b) in certain circumstances, a QIB, or (ii) if the Calculation Agent determines that such Asset Amount cannot be delivered through the relevant Clearing System(s), prior to the Cut-off Date the Calculation Agent shall notify the Securityholders of such fact in accordance with the General Conditions and shall specify the delivery details required for such delivery and, following such notification, in order to obtain delivery of the Asset Amount in respect of any Security:

- (i) if such Security is represented by a Global W&C Security (in the case of a Certificate) or a Global Note (in the case of a Note) (each a "**Global Security**"), the relevant Securityholder must deliver to Euroclear or Clearstream, Luxembourg (as applicable), with a copy to the Issuer and not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice; or
- (ii) if such Security is a Note in definitive form, the relevant Securityholder must deliver (i) if this Security is a Bearer Note, to any Paying Agent or (ii) if this is a Registered Note, to the Registrar or any Paying Agent, in each case with a copy to the Issuer and not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice.

Forms of the Asset Transfer Notice may be obtained during normal business hours from the specified office of any Relevant Agent.

An Asset Transfer Notice may only be delivered (i) if such Security is represented by a Global Security, in such manner as is acceptable to Euroclear or Clearstream, Luxembourg, as the case may be, which is expected to be by authenticated SWIFT message or tested telex or (ii) if such Security is in definitive form, in writing or by tested telex.

If the Security is in definitive form, the Security must be delivered together with the duly completed Asset Transfer Notice.

An Asset Transfer Notice must:

- (1) specify the name and address of the relevant Securityholder and the details required for the delivery of the Asset Amount;
- (2) in the case of Securities represented by a Global Security, specify the nominal amount of Notes or the number of Certificates, as the case may be, which are the subject of such notice and the number of the Securityholder's account at Euroclear or Clearstream, Luxembourg, as the case may be, to be debited with such Securities and irrevocably instruct and authorise Euroclear or Clearstream, Luxembourg, as the case may be, to debit the relevant Securityholder's account with such Securities on or before the Physical Settlement Date;
- (3) include an undertaking to pay all Delivery Expenses and, in the case of Securities represented by a Global Security, an authority to debit a specified account of the Securityholder at Euroclear or Clearstream, Luxembourg, as the case may be, in respect thereof and to pay such Delivery Expenses;
- (4) specify an account to which any amounts payable pursuant to paragraph 8 (*Partial Cash Settlement*) or any other cash amounts specified in these Terms and Conditions as being payable are to be paid; and
- (5) authorise the production of such notice in any applicable administrative or legal proceedings.

No Asset Transfer Notice may be withdrawn after receipt thereof by Euroclear, Clearstream, Luxembourg or a Relevant Agent, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Securityholder may not transfer the Securities which are the subject of such notice.

In the case of Securities represented by a Global Security, upon receipt of an Asset Transfer Notice, Euroclear or Clearstream, Luxembourg, as the case may be, shall verify that the person specified therein as the Securityholder is the holder of the specified nominal amount of Notes or the number of Certificates, as the case may be, according to its records.

Failure to complete and deliver an Asset Transfer Notice properly may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in these Terms and Conditions shall be made, in the case of Securities represented by a Global Security, by Euroclear or Clearstream, Luxembourg, as the case may be, after consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Securityholder and, in the case of Securities in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, after consultation with the Issuer, and shall be conclusive and binding on the Issuer and the relevant Securityholder.

Delivery of the Asset Amount in respect of each Security shall be made at the risk of the relevant Securityholder through the relevant Clearing System(s) as specified above or in such manner as the Calculation Agent shall notify to the Securityholders as described above. All Delivery Expenses arising from the delivery of the Asset Amount in respect of such Security shall be for

the account of the relevant Securityholder and no delivery of the Asset Amount shall be made until all Delivery Expenses have been paid to the satisfaction of the Issuer by the relevant Securityholder. The Issuer shall not be obliged to make or procure any delivery if to do so would breach any applicable securities or other laws.

After delivery of the Asset Amount and for the Intervening Period, none of the Issuer, the Calculation Agent and any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Securityholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities or obligations comprising the Asset Amount, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations, or (iii) be under any liability to a Securityholder in respect of any loss or damage which such Securityholder may sustain or suffer as a result, whether directly or indirectly, of that person not being registered during such Intervening Period as legal owner of such securities or obligations.

In relation to each Deliverable Obligation constituting the Asset Amount, the Issuer will, subject to paragraph 14 (*Settlement Suspension*) below, Deliver or procure the Delivery of the relevant Deliverable Obligation as provided below on or prior to the Physical Settlement Date, provided that if all or some of the Deliverable Obligations included in the Asset Amount are (a) Undeliverable Obligations and/or Hedge Disruption Obligations, then the Issuer shall continue to attempt to Deliver all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, until the date that is 30 calendar days after the Physical Settlement Date (in respect of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, the "**Final Delivery Date**"), or (b) Undeliverable Loan Obligations or Unassignable Obligations, then the Issuer shall continue to attempt to Deliver all or a portion of such Undeliverable Loan Obligations or Unassignable Obligations, as the case may be, until the date that is 15 Business Days after the Physical Settlement Date (in respect of such Undeliverable Loan Obligations or Unassignable Obligations, the "**Final Delivery Date**"),

provided further that:

- (i) if all or a portion of the Deliverable Obligations included in the Asset Amount that are Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, (but subject to paragraph (ii) below in the case of Assignable Loans or Consent Required Loans) are not Delivered by the Final Delivery Date, the provisions of paragraph 8(i) shall apply; or
- (ii) if all or a portion of the Deliverable Obligations included in the Asset Amount consist of Assignable Loans or Consent Required Loans that, due to the non-receipt of any requisite consents, are not capable of being Delivered by the Final Delivery Date, the provisions of paragraph 8(ii) shall apply.

If a Securityholder fails to give an Asset Transfer Notice as provided herein on or prior to the Cut-Off Date specified in the applicable Issue Terms, the Issuer will, subject as provided above, deliver the Deliverable Obligations constituting the Asset Amount in respect of the relevant Securities as soon as practicable after the receipt of the duly completed Asset Transfer Notice, provided that if, in respect of a Security, a Securityholder fails to give an Asset Transfer Notice prior to the day falling 45 days after the Cut-Off Date, the Issuer's obligations in respect of such Securities shall be discharged and the Issuer shall have no liability in respect thereof.

Notwithstanding that the Securities are not Auction Settled Securities and notwithstanding anything set out in paragraph 2 (*Physical Settlement*) above or the foregoing provisions of this paragraph 7, if on or before the Physical Settlement Date the Calculation Agent determines that an Auction (in respect of the Reference Entity to which the Credit Event Notice relates) may take place on or before the sixtieth (60th) Business Day after the relevant Credit Event Determination Date, the Calculation Agent may elect in its sole and absolute discretion to postpone the Physical Settlement Date to any date determined by the Calculation Agent within the period of up to, and including, the date falling 60 Business Days after the Credit Event Determination Date. The Calculation Agent shall give notice of such election (such notice, an

"**Auction Notice**") to the Securityholders in accordance with the General Conditions. If an Auction Notice has been given to the Securityholders and the Calculation Agent determines that (a) an Auction has taken, or is expected to take, place in respect of the relevant Reference Entity to value obligations of the same seniority as the Deliverable Obligations and (b) the date on which the Auction Final Price is, or is expected to be, determined pursuant to such Auction falls on or before the sixtieth (60th) Business Day after the Credit Event Determination Date, the Calculation Agent may further elect in its discretion that the Issuer redeems each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, either (1) by payment of the Auction Cash Settlement Amount on the second Business Day following the Auction Settlement Date in lieu of Delivering the relevant Deliverable Obligations (as specified in the Physical Settlement Notice or Physical Settlement Amendment Notice) or (2) by Delivery of the Deliverable Obligations comprising the Asset Amount (as specified in the Physical Settlement Notice or Physical Settlement Amendment Notice), in either case on the postponed Physical Settlement Date. The Calculation Agent shall give notice of such election to the Securityholders as soon as possible in accordance with the General Conditions.

8 Partial Cash Settlement

- (i) If all or a portion of the Deliverable Obligations included in the Asset Amount that are Undeliverable Obligations or Hedge Disruption Obligations are not Delivered by the Final Delivery Date (other than in respect of Assignable Loans or Consent Required Loans that, due to the non-receipt of any requisite consents, are not capable of being Delivered on that day), the Issuer shall give notice (a "**Partial Cash Settlement Notice**") to the Securityholders in accordance with the General Conditions and the Issuer shall pay, in respect of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount (adjusted to take account fully for any Hedging Costs, if "Adjustment for Hedging Costs" is specified as applying in the applicable Issue Terms) on the Partial Cash Settlement Date.

In the Partial Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligations, as the case may be.

- (ii) If:
 - (a) "Partial Cash Settlement of Consent Required Loans" is specified as applicable in the applicable Issue Terms and all or a portion of the Deliverable Obligations comprising the Asset Amount consist of Consent Required Loans that, due to the non-receipt of any requisite consents, are not capable of being Delivered by the Final Delivery Date (each such Deliverable Obligation being an "**Undeliverable Loan Obligation**"); or
 - (b) "Partial Cash Settlement of Assignable Loans" is specified as applying in the applicable Issue Terms and all or a portion of the Deliverable Obligations comprising the Asset Amount consist of Assignable Loans that, due to the non-receipt of any requisite consents, are not capable of being Delivered by the Final Delivery Date (each such Deliverable Obligation being an "**Unassignable Obligation**"),

the Issuer shall give notice (a "**Partial Cash Settlement Notice**") to the Securityholders in accordance with the General Conditions and the Issuer shall pay, in respect of each Undeliverable Loan Obligation or Unassignable Obligation, the Partial Cash Settlement Amount (adjusted to take account fully for any Hedging Costs, if "Adjustment for Hedging Costs" is specified as applicable in the applicable Issue Terms) on the Partial Cash Settlement Date.

For the avoidance of doubt, if neither "Partial Cash Settlement of Consent Required Loans" nor "Partial Cash Settlement of Assignable Loans" is specified as applicable in the applicable Issue Terms, and all of the Deliverable Obligations comprising the Asset Amount consist of Undeliverable Loan Obligations or Unassignable Obligations, as the

case may be, then the Issuer shall have no further obligation to Deliver any Asset Amount or pay any Partial Cash Settlement Amount in respect of the Securities.

- (iii) If all or any part of the Asset Amount to be Delivered to a Securityholder is not a whole integral multiple of the smallest unit of transfer for any such Deliverable Obligation at the relevant time of Delivery, as determined by the Calculation Agent, the Issuer will Deliver and such Securityholder will only be entitled to receive the portion of the Asset Amount specified by the Calculation Agent which is closest to but less than the full Asset Amount, after consideration of such smallest unit or units of transfer (such portion of the Asset Amount that is not so Delivered, a "**Delivery Shortfall**"), and the Issuer will pay to such Securityholder in the Settlement Currency at the same time as such Delivery an amount in cash equal to the fair market value (if any) of such Delivery Shortfall, as determined by the Calculation Agent.

Unless otherwise specified in the applicable Pricing Supplement in respect of Exempt Securities, for the purposes of this paragraph 8 the following terms are deemed to have the following meanings:

"Indicative Quotation" means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates. Indicative Quotations shall be applicable only in the event that the provisions of this paragraph 8 are applicable;

"Market Value" means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation on a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotations remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applicable in the applicable Issue Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (ii) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which two or more Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if the Quotations are deemed to be zero, the Market Value shall be zero.

"Partial Cash Settlement Amount" is deemed to be, for each Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation, the aggregate of the greater of (i) the Outstanding Principal Balance or Due and Payable Amount or Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation multiplied by the Final Price with respect to each Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation and (ii) zero, provided that where the relevant Undeliverable

Obligation, Hedge Disruption Obligation, Undeliverable Loan Obligation or Unassignable Obligation, as the case may be, forms part of the Asset Package and the Calculation Agent determines in its discretion that a Final Price cannot reasonably be determined in respect of such Undeliverable Obligation, Hedge Disruption Obligation, Undeliverable Loan Obligation or Unassignable Obligation, then the Partial Cash Settlement Amount will be an amount calculated by the Calculation Agent in its discretion equal to the fair market value (determined at such time and by reference to such sources as the Calculation Agent considers appropriate and which, for the avoidance of doubt, may be zero) of the relevant Undeliverable Obligation, Hedge Disruption Obligation, Undeliverable Loan Obligation or Unassignable Obligation, as the case may be, less Hedging Costs;

"Partial Cash Settlement Date" is deemed to be the date falling three Business Days after the calculation of the Final Price;

"Quotation" means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applicable in the applicable Issue Terms, each Indicative Quotation obtained and expressed as a percentage of the Outstanding Principal Balance or Due and Payable Amount, as applicable, of the relevant Undeliverable Obligation, Hedge Disruption Obligation, Undeliverable Loan Obligation or Unassignable Obligation, as the case may be, with respect to a Valuation Date in the manner that follows:

- (i) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date), the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applicable in the applicable Issue Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (ii) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the applicable Issue Terms, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be zero.
- (iii) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this determination.

"Quotation Amount" is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation an amount equal to at least the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation. For the purposes of this paragraph 8, there shall be deemed to be no Minimum Quotation Amount;

"Quotation Method" is deemed to be Bid;

"**Valuation Method**" is deemed to be Highest unless fewer than two Full Quotations are obtained or a Weighted Average Quotation applies (or, if applicable, Indicative Quotations), in which case, "Valuation Method" is deemed to be Market;

"**Valuation Obligation**" is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation;

"**Valuation Time**" is deemed to be 11:00 a.m. in the principal trading market for the Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation; and

"**Weighted Average Quotation**" means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or Hedge Disruption Obligation (as the case may be), Undeliverable Loan Obligation or Unassignable Obligation with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount that in the aggregate are approximately equal to the Quotation Amount.

9 Credit Event Notice after M(M)R Restructuring

Notwithstanding anything to the contrary in these Terms and Conditions, upon the occurrence of an M(M)R Restructuring:

- (i) The Calculation Agent may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring, each such Credit Event Notice setting forth an amount to which such Restructuring Credit Event applies (the "**Partial Redemption Amount**") that may be less than the nominal amount outstanding of each Security or, in the case of Linear Basket Credit Linked Securities, the relevant Reference Entity Notional Amount immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of the Credit Terms shall be deemed to apply to the Partial Redemption Amount only and each such Security shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount) and where applicable, references in the Credit Terms to "the Calculation Amount" or, in the case of Linear Basket Credit Linked Securities, any reduction of the relevant Reference Entity Notional Amount, shall be interpreted to mean "the Partial Redemption Amount" accordingly.
- (ii) For the avoidance of doubt (A) only the nominal amount of each such Security not so redeemed in part shall remain outstanding, the Final Redemption Amount (or Adjusted Credit Outstanding Nominal Amount in the case of Linear Basket Credit Linked Securities) and any other relevant provisions of these Terms and Conditions shall be amended in such manner as the Calculation Agent determines to be appropriate to reflect such partial redemption and (in relation to Notes only) interest (if any) shall continue to accrue on the nominal amount outstanding of such Security as provided in Condition 4 (*Interest*) of the Notes Conditions (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate) and (B) the provisions of the Credit Terms shall apply to such nominal amount outstanding of such Security in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable or deliverable to Securityholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to these Terms and Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this paragraph and (y) the effective date of such adjustment(s).
- (iii) If the provisions of this paragraph 9 (*Credit Event Notice after M(M)R Restructuring*) apply in respect of the Securities, on redemption of part of each such Security, the

relevant Security or, if the Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption.

- (iv) In addition, in the case of First to Default Credit Linked Notes, once a Credit Event Determination Date has occurred in respect of the First Reference Entity, where the Credit Event is a Restructuring Credit Event, no further Credit Event Notices may be delivered in respect of any other Reference Entity.

For the purposes of this paragraph 9 (*Credit Event Notice after M(M)R Restructuring*) and, for the purposes of the definition of Credit Event Determination Date set out in paragraph 20 (*Definitions*) below, references to the nominal amount outstanding of each Security shall be deemed to be a reference to the amount of the Calculation Amount of each Certificate outstanding from time to time.

10 Provisions relating to Multiple Holder Obligation

If "Multiple Holder Obligation" is specified as applicable in the applicable Issue Terms, notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a) to (e) of the definition of "Restructuring" shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation, where "**Multiple Holder Obligation**" means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event, provided that any Obligation that is a Bond shall be deemed to satisfy the requirements in sub-paragraph (ii) above.

11 Redemption

In respect of Securities that are Notes only, notwithstanding the provisions of the General Conditions, for the purpose of Condition 6(b) and Condition 9 in the Notes Conditions, the Early Redemption Amount in respect of each nominal amount of the Notes equal to the Calculation Amount will be determined by reference to the provisions in Condition 6(e) of the Notes Conditions, provided that if "Adjustment for Hedging Costs" is specified as applicable in the applicable Issue Terms, the Early Redemption Amount will be adjusted to take account of any Hedging Costs.

12 Accrual of Interest

In respect of Securities that are Notes only, notwithstanding the provisions of the General Conditions but subject to paragraphs 1, 3, 4, 5 and 6 above, if:

- (i) "No Accrual of Interest upon Credit Event" is specified as being applicable in the applicable Issue Terms, no amount of interest will be payable in respect of an Interest Payment Date (and accordingly will be deemed not to have accrued) if the relevant interest payment (as the same may be deferred) has not become due and payable on or prior to the Credit Event Determination Date. Accordingly, if the Credit Event Determination Date falls prior to the first Interest Period Date, no interest shall accrue on the Notes; or
- (ii) "Partial Accrual of Interest upon Credit Event" is specified as being applicable in the applicable Issue Terms, each Note shall continue to bear interest up to (but excluding) the Credit Event Determination Date but shall cease to bear interest from (and including) the Credit Event Determination Date and such accrued interest shall be paid on the second Business Day following the Auction Settlement Date or on the Credit Event Redemption Date (as the case may be) or on or prior to the Scheduled Physical Settlement Date.

13 Force Majeure and Merger Event

If "Force Majeure Events" is specified as applying in the applicable Issue Terms, the following provisions in this paragraph 13 shall apply and will continue to apply notwithstanding the occurrence of any Credit Event Determination Date for so long as the Securities are outstanding. For the avoidance of doubt, the provisions of this paragraph 13 shall apply without limitation in the case of Linear Basket Credit Linked Securities.

(i) Notice of Force Majeure Event

The Issuer shall have the right to give notice in accordance with the General Conditions at any time to the Securityholders if it determines that any of the following events (each a "**Force Majeure Event**") has occurred:

- (a) the performance of the Issuer's obligations under the Securities has become unlawful in whole or in part as a result of compliance by the Issuer with any applicable present or future law, rule, regulation, judgment, order, interpretation, directive or decree of any Government Authority (as defined below) or otherwise;
- (b) the performance of the Issuer's obligations under the Securities is prevented or materially hindered or delayed due to either (1) any act, law, rule, regulation, judgment, order, interpretation, directive, decree or material legislative or administrative interference of any Government Authority or otherwise, or (2) the occurrence of civil war, disruption, military action, unrest, political insurrection, terrorist activity of any kind, riot, public demonstration and/or protest, or any other financial or economic reasons or any other causes or impediments beyond the Issuer's control;
- (c) it has become impracticable, illegal or impossible for the Issuer or any of its Affiliates, or the Issuer or any of its Affiliates are otherwise unable, (1) to convert the relevant currency (the "**Local Currency**") in which the relevant Valuation Obligation or traded instruments or any options or futures contracts or other hedging assets or arrangements in relation to the Reference Entity (for the purposes of hedging the Issuer's obligations under the Securities) are denominated or settled, into the Specified Currency or exchange or repatriate any funds in the Local Currency or the Specified Currency outside of the country in which the relevant Valuation Obligation or any options or futures contracts in relation to the Valuation Obligation are traded due to the adoption of, or any change in, any applicable law, rule, regulation, judgment, order, directive or decree of any Government Authority or otherwise, or (2) to determine a rate or (in the determination of the Calculation Agent) a commercially reasonable rate at which the Local Currency can be exchanged for the Specified Currency for payment under the Securities;
- (d) it has become impracticable, illegal or impossible for the Issuer or any of its relevant Affiliates to purchase, sell, hold or otherwise deal (or to continue to do so in the future) in the Valuation Obligation or any options or futures contracts in relation to the Valuation Obligation in order for the Issuer to perform its obligations under the Securities or in respect of any relevant Hedging Arrangements or the costs of so doing would (in the determination of the Calculation Agent) be materially increased;
- (e) it is not reasonably practicable for the Issuer to settle the Securities pursuant to these Credit Terms following the occurrence of a Credit Event Determination Date due directly or indirectly to there being no Reference Obligation(s) and/or no Deliverable Obligation(s) in respect of the relevant Reference Entity; or

- (f) any other event beyond the control of the Issuer has occurred which makes it impracticable, illegal or impossible for the Issuer to perform its obligations under the Securities or to hedge effectively its obligations under the Securities or the costs of so doing would (in the determination of the Calculation Agent) be materially increased.

(ii) Issuer's Option following a Force Majeure Event

If the Issuer decides to give notice to Securityholders of the occurrence of a Force Majeure Event pursuant to this paragraph 13, it shall state in such notice whether the Securities will be terminated pursuant to paragraph 13(iii) or whether the Issuer's obligations under the Securities will be suspended pursuant to paragraph 13(iv) and, in the case of Linear Basket Credit Linked Securities, whether such consequence should apply in whole or in part in relation to the Securities. The notice may also state any adjustments the Issuer deems necessary in its discretion to make to the Securities to give effect to any such consequence. If the Issuer elects to give notice to Securityholders of a suspension of its obligations under the Securities pursuant to paragraph 13(iv), the Issuer shall nevertheless retain the right at all times to terminate the Securities pursuant to paragraph 13(iii) by giving notice to Securityholders in accordance with the General Conditions.

(iii) Termination

Upon the Issuer's election to terminate the Securities as aforesaid in whole or in part, the Issuer will, in respect of each and every Security cause to be paid to the Securityholder an amount determined to be the fair market value of the Security (or part thereof) as at termination (which may be zero) taking into consideration all information which the Calculation Agent deems relevant (including the circumstances that resulted in the occurrence of the Force Majeure Event) less the cost to the Issuer and/or its Affiliates of unwinding the Hedging Arrangements in whole or in part (if any) (including but not limited to selling or otherwise realising the Valuation Obligation/Obligations or any options or futures contracts in relation to the Valuation Obligation/Obligations or any other such property), all as determined by the Calculation Agent. At the election of the Issuer, such payment may be made in the Local Currency in the Relevant Jurisdiction, in which case the Securityholder will have responsibility for establishing an account in the Relevant Jurisdiction in order to receive such payments; provided that if it is impracticable or unlawful for the Issuer to pay such amount in the Relevant Jurisdiction or the relevant Securityholder does not establish the necessary account in the Relevant Jurisdiction to receive payment(s) in the currency the Issuer elects, the Issuer shall not be obliged to make payment of any such amounts so affected, as applicable. Payment will be made, as the case may be, in such manner as shall be notified to the Securityholders in accordance with the General Conditions.

(iv) Suspension

Upon the Issuer's election to suspend the Securities or provisions in respect of part thereof, the Issuer's obligations in respect of the Securities may be suspended up until the tenth day after such Force Majeure Event shall cease to exist.

(v) Loss

No Securityholder will be entitled to any compensation from the Issuer for any loss suffered as a result of the occurrence of a Force Majeure Event.

(vi) Redemption following a Merger Event

If "Merger Event" is specified as applying in the Issue Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may

give notice to the Securityholders in accordance with the General Conditions, and redeem all but not some only of the Securities and pay in respect of each nominal amount of Notes equal to the Calculation Amount or each Certificate, as the case may be, the fair market value of such Calculation Amount or Certificate (as relevant) at termination as determined by the Calculation Agent taking into consideration all information it determines relevant less the cost to the Issuer and/or its Affiliates of unwinding any Hedging Arrangements. The Issuer will notify the timing of such early redemption to Securityholders.

For the purposes of this paragraph 13:

"Government Authority" means any nation, state or government; any province or other political subdivision thereof; any body, agency or ministry; any taxing, monetary, foreign exchange or other authority, court, tribunal or other instrumentality; and any other entity exercising; executive, legislative, judicial, regulatory or administrative functions of or pertaining to government.

For these purposes, **"Merger Event"** means that at any time during the period from (and including) the Trade Date to (but excluding) the Maturity Date either (A) the Issuer or a Reference Entity (any such entity, the **"Mergor"**) consolidates or amalgamates with, or merges into, or transfers all or substantially all of its assets to (i) where the Mergor is the Issuer, a Reference Entity or (ii) where the Mergor is a Reference Entity, the Issuer, or (B) the Issuer and a Reference Entity become Affiliates.

"Relevant Jurisdiction" has the meaning specified in the applicable Issue Terms and if it is not specified, it will mean any jurisdiction determined by the Calculation Agent as having a connection with the Local Currency and/or Hedging Arrangements (if any).

14 Settlement Suspension

funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or

- (III) The definition of "Restructuring" in paragraph 20 is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments).
 - (II) **"Instrument Payments"** means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (A) and (B) (1) determined without regard to limited recourse or reduction provisions of the type described in paragraph (c) above and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the "Qualifying Policy").

- (ii) Provisions taken from the ISDA supplement titled "Additional Provisions for Senior Non-Preferred Reference Obligations" (published on 8 December 2017)

If this paragraph 15(ii) is specified as applicable in the applicable Issue Terms in respect of a Reference Entity, the following provisions will apply to the Reference Entity:

- (a) The definition of "Reference Obligation" in paragraph 20 (*Definitions*) is amended by the insertion of the following language after the words "if any" in the first line of such definition:

"provided that, irrespective of any Original Non-Standard Reference Obligation specified in the applicable Issue Terms, if (i) a Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity is specified on the SRO List, such Standard Reference Obligation shall be deemed to constitute the Reference Obligation, or (ii) no such Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity is specified on the SRO List but such Standard Reference Obligation has previously been specified on the SRO List, there shall be deemed to be no Reference Obligation applicable to the Credit Linked Securities and such previously specified Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity shall be deemed to constitute the Prior Reference Obligation".
- (b) The definition of "Seniority Level" in paragraph 20 (*Definitions*) shall be deleted and replaced with the following:

"**Seniority Level**" means with respect to an obligation of the Reference Entity, Senior Non-Preferred Level.

- (c) "Subordination" shall have the meaning ascribed to such term in paragraph (c)(A)(2)(ii) under the definition of "Obligation" in paragraph 20 (*Definitions*) and such term shall be applied in the assessment of any Obligation without regard to how the Obligation is described by the laws of any relevant jurisdiction, including any characterisation of the Obligation as senior or unsubordinated by the laws of any relevant jurisdiction.
- (d) The following terms shall have the following meanings:

"**Senior Non-Preferred Obligation**" means any obligation of the Reference Entity which is Subordinated only to any unsubordinated Borrowed Money Obligations of the Reference Entity but not further or otherwise, or which would be so Subordinated if any unsubordinated Borrowed Money Obligations of the Reference Entity existed, and which ranks above Traditional Subordinated Obligations of the Reference Entity or which would so rank if any Traditional Subordinated Obligations of the Reference Entity existed. A Senior Non-Preferred Obligation shall constitute a Subordinated Obligation as defined in paragraph 20 (*Definitions*) for the purposes of the Credit Terms;

"**Traditional Subordinated Obligation**" means (i) Tier 2 Subordinated Obligations of the Reference Entity; (ii) any obligations of the Reference Entity which rank or are expressed to rank *pari passu* with any Tier 2 Subordinated Obligations of the Reference Entity; and (iii) any obligations of the Reference Entity which are Subordinated to the obligations thereto described in (i) and (ii) above shall each (without limitation) constitute Traditional Subordinated Obligations in respect of a Senior Non-Preferred Obligation. A Traditional Subordinated Obligation shall constitute a Further Subordinated Obligation for the purposes of paragraph 20 (*Definitions*); and

"**Tier 2 Subordinated Obligation**" means any obligation of the Reference Entity which meets the conditions set out in Article 63 of Regulation 575/2013 of the European Parliament and of the Council of 26 June 2013, as such Article may be amended or replaced from time to time (the "**CRR**") or which are (or were at any time) otherwise eligible as a Tier 2 item in accordance with the CRR.

- (e) The Reference Obligation or Prior Reference Obligation, as applicable, will constitute a Subordinated Obligation.
- (iii) Provisions taken from the ISDA Supplement titled "2019 Narrowly Tailored Credit Event Supplement" (published on 15 July, 2019)

If this paragraph 15(iii) is specified as applicable in the applicable Issue Terms, the following provisions will apply:

- (a) Outstanding Principal Balance

The definition of "Outstanding Principal Balance" in paragraph 20 is hereby deleted in its entirety and replaced with the following:

"**Outstanding Principal Balance**" means the outstanding principal balance of an obligation which will be calculated as follows:

- (i) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with the definition of Accrued Interest above,

the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (i) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (ii) the amount of the Fixed Cap, if any);

- (II) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (i) is subject to any Prohibited Action, or (ii) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (A) payment or (B) a Permitted Contingency) (the amount determined in accordance with paragraph (I) above) less any amounts subtracted in accordance with this paragraph (II), the "**Non Contingent Amount**"; and
- (III) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- (1) unless otherwise specified, in accordance with the terms of the obligation in effect on either (A) the relevant PSN Effective Date (or if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date) or (B) the relevant Valuation Date; and
- (2) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of paragraph (2) above, "**applicable laws**" shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

If "**Fallback Discounting**" is specified as applicable in the applicable Issue Terms, then notwithstanding the above, if (I) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph (2) above, (II) that obligation is either a Bond that has an issue price less than ninety-five per cent. of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent. of the principal repayment amount, and (III) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent. of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate

Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and

- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee or, if none, as determined by the Calculation Agent in its sole and absolute discretion in such manner and by reference to such source(s) as it determines appropriate."

- (b) Failure to Pay

The definition of "Failure to Pay" in paragraph 20 is hereby deleted in its entirety and replaced with the following:

"Failure to Pay" means, after the expiration of any applicable Grace Period (after the satisfaction of any conditions precedent to the commencement of such Grace Period), the failure by the Reference Entity to make, when and where due, any payments in an aggregate amount of not less than the Payment Requirement under one or more Obligations, in accordance with the terms of such Obligations at the time of such failure provided that, if an occurrence that would constitute a Failure to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination. If "**Credit Deterioration Requirement**" is specified as applicable in the applicable Issue Terms, then, notwithstanding the foregoing, it shall not constitute a Failure to Pay if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the Reference Entity. In the event that the Calculation Agent makes any such determination, it may take into account the guidance note set out in paragraph 3 (Interpretive Guidance) of the ISDA 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (published on 15 July, 2019)."

16 Calculation Agent Notices, certain provisions relating to timing and payment timing and non-exclusive use of certain provisions hereof

Any notice to be delivered by the Calculation Agent to the Issuer pursuant to these Terms and Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be

executed and delivered confirming the substance of that notice within one Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.

For the purposes of determining the day on which an event occurs for purposes of these Terms and Conditions, the Calculation Agent will determine the demarcation of days by reference to Greenwich Mean Time (or, if the Calculation Agent determines the Reference Entity has a material connection to any jurisdiction for these purposes, local time of the relevant jurisdiction) irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Calculation Agent determines the Reference Entity has a material connection to any jurisdiction for these purposes, local time of the relevant jurisdiction), irrespective of the time zone of its place of payment.

The application of any of paragraph 3, 4, 5, 6 or 14 above shall, for the avoidance of doubt, not preclude the application of any other such paragraph either contemporaneously or subsequently and in the event that any such paragraphs are inconsistent or the Calculation Agent becomes entitled to exercise a discretion under one or more of such paragraphs, the Calculation Agent may elect in its discretion which paragraph shall apply and under which paragraph or paragraphs it shall exercise its discretion.

17 **Amendment of Terms and Conditions**

The Calculation Agent may from time to time amend any provision of these Terms and Conditions (i) to incorporate and/or reflect (a) further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or (b) the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees and/or (ii) in any manner which the Calculation Agent determines is necessary or desirable to reflect or account for market practice for credit derivative transactions or legal or regulatory requirements and/or reflect or account for a Hedge Disruption Event. Without limitation (i) such amendments may be made to reflect or account for market practice or legal or regulatory requirements whether or not these existed or were in force as of the Trade Date and (ii) legal or regulatory requirements may include rules on settlement discipline under and other provisions of the Central Securities Depositories Regulation (EU 909/2014). Any amendment made in accordance with this paragraph 17 shall be notified to the Securityholders in accordance with the General Conditions.

18 **Early redemption of Reference Obligation Only Securities following a Substitution Event or Repurchase**

If the Securities are Reference Obligation Only Securities relating to a single Reference Entity and (i) the event set out in paragraph (a) of the definition of "Substitution Event" below occurs with respect to the Reference Obligation or (ii) the Calculation Agent determines the Reference Obligation has been repurchased in whole pursuant to the terms of the Reference Obligation or a tender offer, then:

- (a) interest (if any) shall cease to accrue on the Securities from and including the Interest Payment Date immediately preceding the relevant (i) Substitution Event Date or (ii) the date of repurchase as determined by the Calculation Agent or, if no Interest Payment Date has occurred, no interest will accrue on the Securities; and
- (b) each Security will be redeemed by the Issuer at its relevant Reference Obligation Only Termination Amount specified in, or determined in the manner specified in, the applicable Issue Terms in the Specified Currency on the Maturity Date, which for the purposes of this paragraph shall be the day falling three Business Days following the

relevant (i) Substitution Event Date or (ii) the date of repurchase as determined by the Calculation Agent.

19 DC Resolution Adjustment Events

If following the publication of a DC Resolution (the "Prior DC Resolution"), a further DC Resolution (the relevant "Further DC Resolution") is published the effect of which would be to reverse all or part of the Prior DC Resolution or if any DC Resolution would reverse any determination made by the Calculation Agent and/or the occurrence of a Credit Event Determination Date, notwithstanding any other provisions of these Terms and Conditions the Calculation Agent may, in its discretion, make any adjustment(s) that the Calculation Agent determines is necessary or desirable to the General Conditions or these Terms and Conditions to reflect the publication of such Further DC Resolution or DC Resolution, including, without limitation, as a result of the impact or effect of such Further DC Resolution or DC Resolution on the Hedging Arrangements (if any).

provided that where any information of the type described in paragraphs (ii) or (iii) above is not publicly available, it can only constitute Publicly Available Information if it can be made public without violating any law, agreement, understanding or other restriction regarding the confidentiality of such information.

In relation to any information of the type described in paragraphs (a)(ii) and (iii) above, the Calculation Agent may assume that such information has been disclosed to it without violating any law, agreement, understanding or other restriction regarding the confidentiality of such information and that the entity disclosing such information has not taken any action or entered into any agreement or understanding with the Reference Entity or any Affiliate of the Reference Entity that would be breached by, or would prevent, the disclosure of such information to third parties.

A Qualifying Guarantee shall not include any guarantee:

- (a) which is structured as a surety bond, financial guarantee insurance policy or letter of credit (or any legal arrangement which is equivalent thereto in form); or

 - (B) any Solvency Capital Provisions, if "Subordinated European Insurance Terms" is specified as applicable in the applicable Issue Terms.

If the guarantee or Underlying Obligation contains provisions relating to the discharge, release, reduction, assignment or other alteration of the principal payment obligations of the Reference Entity and such provisions have ceased to apply or are suspended at the time of the relevant determination, in accordance with the terms of such guarantee or Underlying Obligation, due to or following the occurrence of (I) a non-payment in respect of the guarantee or the Underlying Obligation, or (II) an event of the type described in the definition of Bankruptcy above in respect of the Reference Entity or the Underlying Obligor, then it shall be deemed for these purposes that such cessation or suspension is permanent, notwithstanding the terms of the guarantee or Underlying Obligation.

If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers and, if two or more Full Quotations are not available, a Weighted Average Quotation. "Quotation Amount" means the amount specified as such in the applicable Issue Terms (which may be specified by reference to an amount in a currency or by reference to a Representative Amount) or, if no amount is specified in the applicable Issue Terms, the Calculation Amount (where paragraph (a) of the definition of "Valuation Obligation" applies) or the amount specified in the Valuation Obligation Notification (where paragraph (b) of the definition of "Valuation Obligation" applies) (or, in any such case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent in a commercially reasonable manner by reference to exchange rates in effect at the time that the relevant Quotation is being obtained).

"Quotation Dealer" means a dealer in obligations of the type of Obligation(s) for which Quotations are to be obtained, including each Quotation Dealer specified in the applicable Issue Terms. If no Quotation Dealer(s) are specified in the applicable Issue Terms, the Calculation Agent shall select the Quotation Dealers. If the Standard Reference Obligation is removed from the SRO List (an **"SRO Removal Event"**) or the Standard Reference Obligation published would not have been eligible to be selected as a Substitute Reference Obligation, such obligation shall not be the Reference Obligation and, unless and until a new Standard Reference Obligation which is so eligible is published, the Reference Obligation shall be any Deliverable Obligation selected by the Issuer from time to time with the same level of seniority as the relevant Seniority Level (which, for the avoidance of doubt, may be the lowest value Deliverable Obligation available at the relevant time). If an SRO Removal Event has occurred or the Standard Reference Obligation published would not have been eligible to be selected as a Substitute Reference Obligation and the Issuer determines that no such Deliverable Obligation is available, then notwithstanding the fact that the Standard Reference Obligation may have ceased to be the Reference Obligation, the Issuer may attempt to identify a Deliverable Obligation to be the Reference Obligation. The provisions of this definition may be applied by the Issuer on more than one occasion and are without prejudice to the right of the Calculation Agent to determine a Substitute Reference Obligation.

Obligation Category "Bond or Loan", provided that if no such Relevant Obligations exist, "Relevant Obligations" shall only include the Senior Obligations of the Reference Entity which fall within the Obligation Category "Bond or Loan".

"Repudiation/Moratorium Evaluation Date" means, if a Potential Repudiation/Moratorium occurs on or prior to the Maturity Date or relevant Interest Payment Date, (a) if the Obligations to which such Potential Repudiation/Moratorium relates include Bonds, the date that is the later of (i) the date that is 60 days after the date of such Potential Repudiation/Moratorium and (ii) the first payment date under any such Bond after the date of such Potential Repudiation/Moratorium (or, if later, the expiration date of any applicable Grace Period in respect of such payment date) and (b) if the Obligations to which such Potential Repudiation/Moratorium relates do not include Bonds, the date that is 60 days after the date of such Potential Repudiation/Moratorium provided that, in either case, the Repudiation/Moratorium Evaluation Date shall occur no later than the Maturity Date unless the Repudiation/Moratorium Extension Condition is satisfied.

For purposes of this definition of Restructuring and paragraph 10 (*Provisions relating to Multiple Holder Obligation*) above, the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Guarantee. In the case of a Guarantee and an Underlying Obligation, references to the Reference Entity in the definition of Restructuring (other than in paragraphs (A) to (D) of this definition of Restructuring) and the definition of Subordination shall be deemed to refer to the Underlying Obligor and the references to the Reference Entity in paragraphs (A) to (D) of this definition of Restructuring shall continue to be deemed to refer to the Reference Entity.

- (b) If any of the events set forth under paragraphs (a) or (b)(ii) of the definition of Substitution Event have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable Obligation Characteristic and paragraph (c)(ii)). For purposes of identification of the Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event. If an event described in paragraphs (a) or (b)(i) above has occurred on or prior to the Trade Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraphs (a) or (b)(i) above as the case may be, on the Trade Date.

 - (i) subject to paragraph (vii), if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to 75 per cent. or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor;
 - (ii) if only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. (but less than 75 per cent.) of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent. of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent. of the Relevant Obligations will each be a Successor, and the Calculation Agent shall adjust such of these Terms and Conditions and/or the provisions of the applicable Issue Terms as it shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment;

- (iv) if one or more entities each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor, and the Calculation Agent shall adjust such of these Terms and Conditions and/or the provisions of the applicable Issue Terms as it shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment;
 - (v) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;
 - (vi) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations each such entity will be a Successor and the Calculation Agent shall adjust such of these Terms and Conditions and/or the provisions of the applicable Issue Terms as it shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment); and
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the "**Universal Successor**") will be the sole Successor; and
- (b) an entity may only be a Successor if:
- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January, 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under paragraph (a) above, provided that the Calculation Agent will not make any such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information or any DC Secretary announcement or publication or other information the Calculation Agent determines appropriate and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Securityholders at the specified office of each of the Relevant Agents. In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

For the purposes of this definition of "**Successor**", "**succeed**" means, with respect to the Reference Entity and its Relevant Obligations that an entity other than the Reference Entity (1) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (2) issues Bonds or incurs Loans (the "**Exchange Bonds or Loans**") that are exchanged for Relevant Obligations and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans as applicable. For purposes of this definition of "Successor", "succeeded" and "succession" shall be construed accordingly. In the case of an exchange offer, the determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

Where pursuant to paragraph (a)(iii) or (iv) or (vi) above or any DC Resolution, more than one Successor has been identified, the Calculation Agent shall adjust such terms of the Terms and Conditions as it determines appropriate to reflect the fact that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be entitled but not obliged to make such adjustments in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Securities under the provisions of the 2014 ISDA Credit Derivatives Definitions. Such adjustments may but do not have to include, without limitation, (A) a reallocation of the nominal amount of the Securities relating to the relevant Reference Entity to each relevant Successor and consequential changes in all related payment and other terms or (B) the issuance by the Issuer of one or more series of new securities in addition to or as a replacement for the Securities in order to reflect the further Successor(s). In the case of (B) the Issuer shall be entitled to decrease the Aggregate Nominal Amount of the Securities and select appropriate aggregate nominal amounts for each such further series of Securities consistent with any adjustment to and/or division of any credit derivative transaction(s) related to the original Reference Entity. Any such further series shall otherwise be on such terms as the Calculation Agent may determine appropriate to reflect there being more than one Successor with the aim of passing on to Securityholders the economic effect of such event. Upon making such adjustment, the Calculation Agent shall give notice as soon as practicable to Securityholders in accordance with the General Conditions, stating the adjustment to these Terms and Conditions and/or the applicable Issue Terms and giving brief details of the relevant Successor event.

Notwithstanding the provisions above and sub-paragraph (b) of the definition of Reference Entity, where one or more Reference Entities (each an "**Affected Reference Entity**") and/or

the Issuer would, but for this provision, be identified as a Successor to another Reference Entity pursuant to the above provisions and at least one other entity which is not a Reference Entity or the Issuer is also identified as a Successor for the purposes of any succession, each Affected Reference Entity and/or the Issuer, as applicable, shall not be regarded as a "**Successor**" for the purposes of the Securities. Where pursuant to the provisions above or sub-paragraph (b) of the definition of Reference Entity one or more Reference Entities (each an "Affected Reference Entity") and/or the Issuer would, but for this provision, be identified as a Successor to another Reference Entity pursuant to the above provisions but no other entities (that are not Reference Entities or the Issuer) are identified as a Successor in respect of the relevant succession, each Affected Reference Entity and/or the Issuer, as applicable, shall not be regarded as a "Successor" for the purposes of the Securities and, in respect of each Affected Reference Entity or the Issuer, as applicable, the Calculation Agent shall use reasonable endeavours to (a) select an Alternative Reference Entity to be the Successor in respect of the relevant succession and (b) select an Alternative Reference Obligation to be the Reference Obligation in respect of such Alternative Reference Entity after the relevant succession and the Calculation Agent may make such adjustments to the Conditions and/or the Issue Terms as it determines to be necessary or desirable to reflect such Alternative Reference Entity and Alternative Reference Obligation. If the Calculation Agent is unable to select an Alternative Reference Entity or an Alternative Reference Obligation, then: (i) no Successor shall be appointed; (ii) the Affected Reference Entity to which the relevant succession relates shall be deemed to have ceased to be a Reference Entity; (iii) that portion of any interest payable which is referable to the purchase of credit protection purchased by the Issuer under the Securities in respect of the Affected Reference Entity shall be reduced accordingly as determined by the Calculation Agent; and (iv) the Calculation Agent may make such adjustments to the Conditions and/or the Issue Terms to account for the Successor Associated Costs, which may include, without limitation, reducing the Final Redemption Amount, Credit Event Redemption Amount, Auction Cash Settlement Amount or the Asset Amount (as the case may be) by an amount equal to the Successor Associated Costs, in each case with effect from the date determined by the Calculation Agent to be the relevant Succession Date.

At the election of the Issuer, such payment may be made in the Local Currency in the Relevant Jurisdiction, in which case the Securityholder will have responsibility for establishing an account in the Relevant Jurisdiction in order to receive such payments; provided that if it is

impracticable or unlawful for the Issuer to pay such amount in the Relevant Jurisdiction or the relevant Securityholder does not establish the necessary account in the Relevant Jurisdiction to receive payment(s) in the currency the Issuer elects, the Issuer shall not be obliged to make payment of any such amounts so affected, as applicable. Payment will be made, as the case may be, in such manner as shall be notified to the Securityholders in accordance with the General Conditions.

1. Adjustments to an Index

- (i) Successor Sponsor Calculates and Reports an Index

If a relevant Index is (A) not calculated and announced by the Sponsor specified in the applicable Pricing Supplement but is calculated and announced by a successor sponsor (the "**Successor Sponsor**") acceptable to the Calculation Agent or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the relevant Index.

- (ii) Modification and Cessation of Calculation of an Index

If (A) on or prior to any Valuation Date or (if applicable) an Averaging Date, as specified in the applicable Pricing Supplement, the relevant Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts or commodities and other routine events) (an "**Index Modification**") or permanently cancels the Index and no Successor Index exists (an "**Index Cancellation**"), or (B) on any Valuation Date or (if applicable) an Averaging Date, the Sponsor or (if applicable) the Successor Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**") then (x) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the Reference Price and any other prices or levels relevant to the Securities and make such determinations as may be appropriate using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on the relevant Valuation Date or (if applicable) an Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those Index Components that comprised that Index immediately prior to that Index Adjustment Event, (y) replace the affected Index with another index selected by the Calculation Agent at its discretion or (z) if the Calculation Agent determines that it is unable to make such an adjustment, the Issuer may, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, redeem the Securities at an amount determined by the Calculation Agent as representing their fair market value on such day as the Calculation Agent shall select.

(iii) Notice

Upon the occurrence of an adjustment to an Index as set out above, the Calculation Agent shall give notice as soon as practicable to Securityholders in accordance with the General Conditions giving details of the action proposed to be taken in relation thereto.

2. Force Majeure

If "Force Majeure Events" is specified as applying in the applicable Pricing Supplement, the following provisions in this paragraph 2 shall apply:

(i) Notice of Force Majeure Event

The Issuer shall have the right to give notice in accordance with the General Conditions at any time to the Securityholders if it determines that any of the following events (each a "**Force Majeure Event**") has occurred:

- (A) the performance of the Issuer's obligations under the Securities has become unlawful in whole or in part as a result of compliance by the Issuer with any applicable present or future law, rule, regulation, judgment, order, interpretation, directive or decree of any Government Authority (as defined below) or otherwise;
- (B) the performance of the Issuer's obligations under the Securities is prevented or materially hindered or delayed due to either (1) any act, law, rule, regulation, judgment, order, directive, interpretation, decree or material legislative or administrative interference of any Government Authority or otherwise, or (2) the occurrence of civil war, disruption, military action, unrest, political insurrection, terrorist activity of any kind, riot, public demonstration and/or protest, or any other financial or economic reasons or any other causes or impediments beyond such party's control;

- (C) it has become impracticable, illegal or impossible (1) for the Issuer or any of its relevant Affiliates to convert the relevant currency (the "**Local Currency**") in which the relevant Index or traded instruments or any options or futures contracts or other hedging arrangement in relation to the Index (for the purposes of hedging the Issuer's obligations under the Securities) are denominated, into the Specified Currency or exchange or repatriate any funds in the Local Currency or the Specified Currency outside of the country in which the relevant Index or any options or futures contracts in relation to the Index are traded due to the adoption of, or any change in, any applicable law, rule, regulation, judgment, order, directive or decree of any Government Authority or otherwise, or (2) for the Calculation Agent to determine a rate or (in the determination of the Calculation Agent) a commercially reasonable rate at which the Local Currency can be exchanged for the Specified Currency for payment under the Securities;
- (D) it has become impracticable, illegal or impossible for the Issuer or any of its relevant Affiliates, or the Issuer or any of its relevant affiliates are otherwise unable, to purchase, sell, hold or otherwise deal (or to continue to do so in the future) in the Index or any options or futures contracts in relation to the Index in order for the Issuer to perform its obligations under the Securities or in respect of any relevant hedging arrangements in connection with the Securities (including, without limitation, any purchase, sale or entry into or holding of one or more securities positions, currency positions, stock loan transactions, derivatives position or other instruments or arrangements (however described) by the Issuer (or any of its affiliates) in order to hedge, either individually or on a portfolio basis, the Securities) or the costs of so doing would (in the determination of the Calculation Agent) be materially increased under the restriction;
- (E) any other event beyond the control of the Issuer has occurred which makes it impracticable, illegal or impossible for the Issuer to perform its obligations under the Securities or to hedge effectively its obligations under the Securities or the costs of so doing would (in the determination of the Calculation Agent) be materially increased; or
- (F) any other Additional Force Majeure Event specified in the applicable Pricing Supplement.

If an event which would otherwise (but for this provision) constitute a Force Majeure Event also constitutes a Market Disruption Event, then, unless "Market Disruption Event prevails" is specified as not applicable in the applicable Pricing Supplement, it will be deemed to be a Market Disruption Event and will not constitute a Force Majeure Event.

(ii) Issuer's Option following a Force Majeure Event

If the Issuer decides to give notice to Securityholders of the occurrence of a Force Majeure Event pursuant to this paragraph 2, it shall state in such notice whether the Securities will be terminated pursuant to paragraph 2(iii) or whether the Issuer's obligations under the Securities will be suspended pursuant to paragraph 2(iv). If the Issuer elects to give notice to Securityholders of a suspension of its obligations under the Securities pursuant to paragraph 2(iv), the Issuer shall nevertheless retain the right at all times to terminate the Securities pursuant to paragraph 2(iii) by giving notice to Securityholders in accordance with the General Conditions.

(iii) Termination

Upon the Issuer's election to terminate the Securities as aforesaid (or upon expiry of the 10 day period referred to in paragraph 2(iv)), the Issuer will, in respect of each and every Security, cause to be paid to the Securityholder an amount determined to be the fair market value of the Security as at termination (which may be zero) taking into consideration all information which

INDEX TERMS

the Calculation Agent deems relevant (including the circumstances that resulted in the occurrence of the Force Majeure Event) less the cost to the Issuer and/or its Affiliates of unwinding any related hedging arrangements (including but not limited to selling or otherwise realising the Index/Indices or any options or futures contracts in relation to the Index/Indices or any other such property), all as determined by the Calculation Agent. At the election of the Issuer, such payment may be made in the Local Currency in the Relevant Jurisdiction, in which case the Securityholder will have responsibility for establishing an account in the Relevant Jurisdiction in order to receive such payments; provided that if it is impracticable or unlawful for the Issuer to pay such amount in the Relevant Jurisdiction or the relevant Securityholder does not establish the necessary account in the Relevant Jurisdiction to receive payment(s) in the currency the Issuer elects, the Issuer shall not be obliged to make payment of any such amounts so affected, as applicable. Payment will be made, as the case may be, in such manner as shall be notified to the Securityholders in accordance with the General Conditions.

(iv) Suspension

Upon the Issuer's election to suspend the Securities, the Issuer's obligations in respect of the Securities may be suspended up until the tenth day after such Force Majeure Event shall cease to exist.

(v) Loss

No Securityholder will be entitled to any compensation from the Issuer for any loss suffered as a result of the occurrence of a Force Majeure Event.

For the purposes hereof:

"Government Authority" means any nation, state or government, any province or other political subdivision thereof, any body, agency or ministry, any taxing, monetary, foreign exchange or other authority, court, tribunal or other instrumentality and any other entity exercising executive, legislative, judicial, regulatory or administrative functions of or pertaining to government.

3. Definitions

"Averaging Date" means, in respect of a Certificate or Warrant, each date specified as an Averaging Date in the applicable Pricing Supplement or, if such date is not in respect of an Index, a Scheduled Trading Day, the next following Scheduled Trading Day in respect of such Index unless Disrupted Day is specified as applying in the applicable Pricing Supplement and, in the determination of the Calculation Agent, such day is a Disrupted Day in respect of such Index. If such day is a Disrupted Day in respect of an Index then:

- (a) where the Securities are specified in the applicable Pricing Supplement to relate to a single Index, the relevant Averaging Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day unless each of the eight Scheduled Trading Days immediately following the Scheduled Averaging Date is a Disrupted Day. In that case (i) the eighth Scheduled Trading Day shall be deemed to be the relevant Averaging Date notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine the Reference Price in the manner set out in the applicable Pricing Supplement or, if not set out or not practicable, determine the Reference Price by determining the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each Index Component comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant Index

Component on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant Index Component as of the Valuation Time on that eighth Scheduled Trading Day); or

- (b) where the Securities are specified in the applicable Pricing Supplement to relate to a Basket of Indices, the relevant Averaging Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Averaging Date and the relevant Averaging Date for each Index affected by the occurrence of a Disrupted Day (each an "**Affected Index**") shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Averaging Date is a Disrupted Day relating to the Affected Index. In that case (i) that eighth Scheduled Trading Day shall be deemed to be the relevant Averaging Date for the Affected Index (notwithstanding the fact that such day is a Disrupted Day), and (ii) the Calculation Agent shall determine the Reference Price using, in relation to the Affected Index, the level of that Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each Index Component comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant Index Component on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant Index Component as of the Valuation Time on that eighth Scheduled Trading Day).

"Disrupted Day" means, any Scheduled Trading Day on which a relevant Exchange or any Related Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event has occurred.

"Exchange" means, in relation to an Index each exchange or quotation system specified as such for such Index in the applicable Pricing Supplement, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Index Components comprising such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the Index Components comprising such Index on such temporary substitute exchange or quotation system as on the original Exchange).

"Exchange Business Day" means any Scheduled Trading Day on which each Exchange and each Related Exchange are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time.

"Final Redemption Amount" means:

- (a) for the purpose of Condition 6(a) of the Notes Conditions, in respect of each Calculation Amount of the Index Linked Redemption Notes only, the Final Redemption Amount specified in the applicable Pricing Supplement or, if no such amount is specified in the applicable Pricing Supplement, an amount equal to:
- (i) in the case of a Call Index Linked Redemption Note as specified in the applicable Pricing Supplement,

$$\frac{\text{Reference Price}}{\text{Strike Price}} \times \text{Calculation Amount}; \text{ or}$$

- (ii) in the case of a Put Index Linked Redemption Note as specified in the applicable Pricing Supplement,

INDEX TERMS

$$\frac{\text{Strike Price}}{\text{Reference Price}} \times \text{Calculation Amount}; \text{ or}$$

as determined by the Calculation Agent provided always that the Final Redemption Amount shall in no event be less than zero. The Final Redemption Amount will be rounded to the nearest two decimal places (or, in the case of Japanese Yen, the nearest whole unit), in the Specified Currency, 0.005 (or, in the case of Japanese Yen, half of one unit) being rounded upwards. In relation to a Note, where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the Final Redemption Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding; and

- (b) means, in respect of Index Linked Certificates and each Calculation Amount, the amount specified as such in the Certificates Conditions as amended by the applicable Pricing Supplement.

"Index Components" means, in relation to an Index, the securities, commodities, contracts or other matters (including other indices) by reference to which the level of the Index is from time to time calculated.

"Indices" and **"Index"** mean, subject to adjustment in accordance with paragraph 1 above, the indices or index specified in the applicable Pricing Supplement and related expressions shall be construed accordingly.

"Market Disruption Event" means, in respect of an Index:

- (a) the occurrence or existence at any time of:
 - (i) any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise:
 - (A) on any relevant Exchange(s) relating to Index Components that comprise 20 per cent. or more of the level of the relevant Index; or
 - (B) in futures or options contracts relating to the relevant Index on any relevant Related Exchange; or
 - (ii) any event (other than an event described in (b) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (A) to effect transactions in, or obtain market values for, on any relevant Exchange(s), Index Components that comprise 20 per cent. or more of the level of the relevant Index, or (B) to effect transactions in, or obtain market values for, futures or options contracts relating to the relevant Index on any relevant Related Exchange,

which, in either case of (i) or (ii) above, the Calculation Agent determines is material; or

- (b) the closure on any Exchange Business Day of any relevant Exchange(s) relating to Index Components that comprise 20 per cent. or more of the level of the relevant Index or any Related Exchange(s) prior to its Scheduled Closing Time.

For the purpose of determining whether a Market Disruption Event in respect of an Index exists at any time, if a Market Disruption Event occurs in respect of an Index Component included in the Index at any time, then the relevant percentage contribution

of that Index Component to the level of the Index shall be based on a comparison of (i) the portion of the level of the Index attributable to that Index Component and (ii) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event.

"Reference Price" means the Reference Price as specified in the applicable Pricing Supplement or, if no such price is specified in the applicable Pricing Supplement:

- (a) where the Securities are specified in the applicable Pricing Supplement to relate to a single Index, an amount (which shall be deemed to be an amount of the Specified Currency (or in the case of Warrants, the Settlement Currency) on the same basis as the Strike Price) equal to the official closing level of the Index as determined by the Calculation Agent (or, if a Valuation Time other than the Scheduled Closing Time is specified in the applicable Pricing Supplement, the level of the Index determined by the Calculation Agent at such Valuation Time) on the Valuation Date or (if Averaging is specified in the Pricing Supplement) an Averaging Date, as the case may be (as defined below), without regard to any subsequently published correction; or
- (b) where the Securities are specified in the applicable Pricing Supplement to relate to a Basket of Indices, an amount (which shall be deemed to be an amount of the Specified Currency (or in the case of Warrants, the Settlement Currency) on the same basis as the Strike Price) equal to the sum of the values calculated for each Index as the official closing level of each Index as determined by the Calculation Agent (or, if a Valuation Time other than the Scheduled Closing Time is specified in the applicable Pricing Supplement, the level of each Index determined by the Calculation Agent at such Valuation Time) on the Valuation Date or (if Averaging is specified in the Pricing Supplement) an Averaging Date, as the case may be, without regard to any subsequently published correction, multiplied by the relevant Multiplier specified in the applicable Pricing Supplement.

"Related Exchange" means, in relation to an Index, each exchange or quotation system specified as such for such Index in the applicable Pricing Supplement, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where "All Exchanges" is specified as the Related Exchange in the applicable Pricing Supplement, Related Exchange shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.

"Scheduled Averaging Date" means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been an Averaging Date.

"Scheduled Closing Time" means, in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

"Scheduled Trading Day" means any day on which each Exchange and each Related Exchange are scheduled to be open for trading for their respective regular trading sessions.

"Scheduled Valuation Date" means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Valuation Date.

"Strike Price" means the level or number specified as such in the applicable Pricing Supplement.

INDEX TERMS

"Valuation Date" means the date (or each date) specified as such in the applicable Pricing Supplement or, if such date is not in respect of an Index, a Scheduled Trading Day, the next following Scheduled Trading Day in respect of such Index unless Disrupted Day is specified as applying in the applicable Pricing Supplement and, in the determination of the Calculation Agent, such day is a Disrupted Day in respect of such Index. If such day is a Disrupted Day in respect of an Index then:

- (a) where the Securities are specified in the applicable Pricing Supplement to relate to a single Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day. In that case (i) the eighth Scheduled Trading Day shall be deemed to be the Valuation Date notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine the Reference Price in the manner set out in the applicable Pricing Supplement or, if not set out or not practicable, determine the Reference Price by determining the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each Index Component comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant Index Component on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant Index Component as of the Valuation Time on that eighth Scheduled Trading Day); or
- (b) where the Securities are specified in the applicable Pricing Supplement to relate to a Basket of Indices, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date and the Valuation Date for each Index affected by the occurrence of a Disrupted Day (each an **"Affected Index"**) shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to the Affected Index. In that case (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the Affected Index (notwithstanding the fact that such day is a Disrupted Day), and (ii) the Calculation Agent shall determine the Reference Price using, in relation to the Affected Index, the level of that Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each Index Component comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant Index Component on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant Index Component as of the Valuation Time on that eighth Scheduled Trading Day).

"Valuation Time" means the Valuation Time specified in the applicable Pricing Supplement or, if no Valuation Time is specified, the Scheduled Closing Time on the relevant Exchange on the relevant Valuation Date or (if Averaging is specified in the Pricing Supplement) an Averaging Date, as the case may be, in relation to each Index to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

4. Determinations and Calculations

All determinations and calculations made by the Issuer or Calculation Agent (as applicable) pursuant to these Index Terms shall be made pursuant to Warrant Condition 10, Note Condition 12 or Certificate Condition 8 (as applicable) and, in respect of the determination and calculation of fair market value, shall also be made pursuant to Warrant Condition 17, Note Condition 6(j) or Certificate Condition 3(g) (as applicable).

USE OF PROCEEDS

The net proceeds from each issue of Securities will be applied by the relevant Issuer for general funding purposes, including making a profit and/or hedging certain risks. If, in respect of any particular issue of Securities, there is a particular identified use, this will be stated in the relevant Issue Terms.

TAXATION OF SECURITIES

Tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Securities. **GENERAL**

The following comments are intended only as a general guide to certain limited United States, United Kingdom, Hong Kong, Ireland, Singapore and Dubai International Financial Centre ("DIFC") tax considerations and do not purport to be a complete analysis of all potential tax consequences relating to the Securities in those jurisdictions. Some aspects may not apply to certain classes of persons (such as managers, dealers or persons connected with the relevant Issuer) to whom special rules may apply. The comments are based on current law and on what is understood to be current practice, both of which may change, possibly with retroactive effect. These comments are intended to be for information purposes only and are not intended to be, nor should they be regarded as, legal or tax advice. The precise tax treatment of Securityholders for each issue will depend on the terms of a particular Security, as specified in the General Terms and Conditions of the Securities as completed by the applicable Final Terms or, in respect of Exempt Securities, amended and supplemented by the applicable Pricing Supplement. Further statements regarding the tax treatment of particular classes of Securityholder in respect of any issue of Exempt Securities may be contained in the applicable Pricing Supplement. Prospective Securityholders should obtain their own professional tax advice in all relevant jurisdictions about their particular tax treatment in relation to such Security.

Potential purchasers of Securities should carefully consider Condition 7 of the General Terms and Conditions of the Warrants and Notes and Condition 5 of the General Terms and Conditions of the Certificates which provides that the Issuer of the relevant Securities shall not be required to gross up or otherwise increase any payment made on or in respect of the Securities which is required to be made subject to any tax, duty, deduction, withholding or other payment.

No obligation to gross-up payments

Potential purchasers of Securities should be aware that none of SCB, SCBHK or SCBSL is obliged to gross up or otherwise increase any payment in respect of any Security which is subject to deduction or withholding in any jurisdiction. Accordingly, should any such deduction or withholding be or become applicable to any such payment by SCB, SCBHK or SCBSL in respect of any Security, then the actual amount received by the Securityholder may be less than it would have been in the absence of such deduction or withholding. Pursuant to the terms of any applicable double taxation treaty or domestic legislation, a Securityholder who receives a payment which has been subject to a deduction or withholding, may be able to claim repayment of or a credit in respect of the amount withheld or deducted.

Any provisions relating to payment of Exercise Expenses by the relevant Warrantholder in connection with the exercise of the Warrants or payment of Delivery Expenses by the relevant Noteholder on physical delivery of the Asset Amount(s), in either case, set out in this Base Prospectus, any supplement to this Base Prospectus, any other relevant offering document or the applicable Pricing Supplement should be considered carefully by all potential purchasers of Securities.

This summary also does not discuss all of the tax considerations that may be relevant to certain types of investors subject to special treatment under the U.S. federal income tax laws (such as financial institutions, insurance companies, individual retirement accounts and other tax-deferred accounts, tax-exempt organisations, dealers in securities or currencies, investors that will hold the Warrants as part of straddles, hedging transactions or conversion transactions for U.S. federal income tax purposes or U.S. Holders whose functional currency is not the U.S. dollar). Moreover, the summary deals only with Warrants with a term of 30 years or less.

As used herein, the term "**U.S. Holder**" means a beneficial owner of Warrants that is, for U.S. federal income tax purposes, (i) an individual citizen or resident of the United States, (ii) a corporation created or organised under the laws of the United States or any State thereof, (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source or (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or the trust has elected to be treated as a domestic trust for U.S. federal income tax purposes.

The U.S. federal income tax treatment of a partner in a partnership that holds Warrants will depend on the status of the partner and the activities of the partnership. Prospective purchasers that are partnerships should consult their tax adviser concerning the U.S. federal income tax consequences to their partners of the acquisition, ownership and disposition of Warrants by the partnership.

The summary is based on the tax laws of the United States including the Internal Revenue Code of 1986, as amended (the "**Code**"), its legislative history, existing and proposed regulations thereunder, published rulings and court decisions, all as of the date hereof and all subject to change at any time, possibly with retroactive effect.

THE SUMMARY OF U.S. FEDERAL INCOME TAX CONSEQUENCES SET OUT BELOW IS FOR GENERAL INFORMATION ONLY. PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR TAX ADVISERS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF OWNING THE WARRANTS, INCLUDING THE APPLICABILITY AND EFFECT OF STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND POSSIBLE CHANGES IN TAX LAW.

Part A – U.S. Holders

U.S. Federal Income Tax Characterisation of the Warrants

The characterisation of a Series or Tranche of Warrants may be uncertain and will depend on the terms of those Warrants. The determination of whether an obligation represents debt, equity, or some other instrument or interest is based on all the relevant facts and circumstances. There may be no statutory, judicial or administrative authority directly addressing the characterisation of some of the types of Warrants that are anticipated to be issued under the Programme or of instruments similar to such Warrants.

Although the matter is not free from doubt, and there is no controlling authority, the Issuers intend to take the position that the Warrants will be treated for U.S. federal income tax purposes as an "open transaction" for U.S. federal income tax purposes. The Issuers and, by a U.S. Holder's purchasing a Warrant or an interest therein, the U.S. Holder agree to treat the Warrants as an "open transaction", and the discussion below assumes this to be the case.

If the Warrants were not treated as "open transactions" for U.S. federal income tax purposes, the timing, character, and source of a U.S. Holder's items of income and deduction could differ substantially from the manner herein described. For example, the United States Internal Revenue Service ("**IRS**") or a court might characterise the arrangement as a notional principal contract, a contingent payment debt instrument or some other type of financial contract. Additional alternative characterisations may also be possible. Further possible characterisations in respect of Warrants, if applicable, may be discussed in

TAXATION OF SECURITIES

a supplement to this Base Prospectus, any other relevant offering document or, in respect of Exempt Warrants, the applicable Pricing Supplement.

There is a risk that certain Warrants (particularly Warrants issued "deep in the money") might be recharacterised as other financial instruments subject to treatment under Section 1260 of the Code as "constructive ownership transactions", resulting in adverse U.S. federal income tax consequences to U.S. Holders. To the extent that a Warrant is treated as a constructive ownership transaction, any gain on disposition may be treated as ordinary income and an interest charge may be imposed on a deemed underpayment of tax for each taxable year during which the Warrant was held. Prospective purchasers should consult their tax advisers regarding the application of the constructive ownership transaction rules to ownership of the Warrants.

No rulings will be sought from the IRS regarding the characterisation of the Warrants issued hereunder for U.S. federal income tax purposes. Each holder should consult its own tax adviser about the proper characterisation of the Warrants for U.S. federal income tax purposes and consequences to such holder of acquiring, owning or disposing of the Warrants.

U.S. Federal Income Tax Treatment of Warrants Treated as an "Open Transaction"

Except as otherwise provided in the relevant offering document or Pricing Supplement in respect of Exempt Securities, a Warrant should be treated as a single financial contract that is an "open transaction" for U.S. federal income tax purposes. Assuming this characterization of a Warrant is respected, the following U.S. federal income tax consequences should result.

Treatment Prior to Settlement

A U.S. Holder should not be required to recognize taxable income over the term of a Warrant prior to settlement, other than pursuant to a sale or exchange as described below.

Tax Basis

A U.S. Holder's tax basis in a Warrant should equal the amount paid by the U.S. Holder to acquire the Warrant.

Sale, Exchange, Lapse or Cash Settlement of a Warrant

Upon a sale or exchange of a Warrant, or upon the lapse or cash settlement of a Warrant, a U.S. Holder will recognise capital gain or loss equal to the difference between the amount realized, if any, on the sale, exchange, lapse or cash settlement and the U.S. Holder's tax basis in the Warrants sold, exchanged, lapsed or settled. Any gain or loss recognised upon sale, exchange, lapse or settlement of the Warrants will be long-term capital gain or loss if the U.S. Holder has held the Warrants for more than one year at that time.

Physical Settlement of a Warrant

A U.S. Holder will not recognise any gain or loss in respect of the receipt of the underlying property upon physical settlement of a Warrant. A U.S. Holder's tax basis in the underlying property received upon physical settlement of a Warrant will be equal to the U.S. Holder's tax basis in the warrant plus the strike price paid by the holder upon exercise of the Warrant (where applicable). The U.S. Holder's holding period in the underlying property received upon settlement of a Warrant begins one day after the receipt of the underlying property.

Interim Payment Amounts

There is no direct authority addressing the treatment of any interim payments (the "Interim Payments") that may be made to U.S. Holders with respect to the Warrants under current law, and the applicable treatment is unclear. The Interim Payments may constitute other periodic income payments that must be reported as ordinary income by a U.S. Holder when received or accrued, in accordance with the U.S. Holder's method of tax accounting. Interim payments will not qualify for the dividends-received

deduction generally allowed to corporations with respect to certain dividends or the reduced tax rate applicable to dividends received by individuals and certain other investors.

Additional alternative characterisations may also be possible. The Interim Payments may be treated as a purchase price adjustment, rather than being includible in income on a current basis. The treatment of the Interim Payments could affect a U.S. Holder's tax basis in the Warrants, or its amount realised upon the sale or disposition of the Warrants or upon settlement of the Warrants. U.S. Holders should consult their tax advisers about the proper characterisation of the Interim Payments for U.S. federal income tax purposes and the consequences of receiving Interim Payments on the Warrants.

Proposed Legislation on Prepaid Forward Contracts

In Notice 2008-2, the IRS and the U.S. Department of Treasury announced they were considering whether the holder of a prepaid forward contract or similar instrument should be required to accrue ordinary income on a current basis, whether additional gain or loss from such instruments should be treated as ordinary or capital, whether non-U.S. holders of such instruments should be subject to withholding tax on any deemed income accruals, and whether the special "constructive ownership rules" of Section 1260 of the Code might be applied to such instruments. Legislation has also been proposed in Congress that would require the holders of certain prepaid forward contracts to accrue income during the term of the transaction. It is not possible to predict the final form of legislative or regulatory changes that might affect holders of these instruments, if any, but it is possible that any such changes could be applied retroactively. U.S. Holders are urged to consult their tax advisors concerning the significance, and the potential impact, of the above considerations. The Issuers intend to treat the Warrants for U.S. federal income tax purposes in accordance with the treatment described above unless and until such time as Congress, the Treasury, and/or the IRS determine that some alternative treatment is more appropriate.

Backup Withholding and Information Reporting

In general, the proceeds of a sale or other disposition of the Warrants payable to a U.S. Holder by a U.S. paying agent or other U.S. intermediary will be reported to the IRS and to the U.S. Holder as may be required under applicable regulations. Backup withholding will apply to these payments if the U.S. Holder fails to provide an accurate taxpayer identification number or certification of exempt status or fails to report all payments required to be shown on its U.S. federal income tax returns. Certain U.S. Holders are not subject to backup withholding. U.S. Holders should consult their tax advisers as to their qualification for exemption from backup withholding and the procedure for obtaining an exemption.

Foreign Financial Asset Reporting

Certain U.S. Holders may be required to report to the IRS certain information with respect to their beneficial ownership of certain foreign financial assets, such as the Warrants, if the aggregate value of such assets exceeds certain U.S. dollar value thresholds. U.S. Holders who fail to report required information could be subject to substantial penalties.

Part B – Non-U.S. Holders

For purposes of this discussion, a "**Non-U.S. Holder**" means a beneficial owner of the Warrants that is not a U.S. Holder.

Generally

Subject to the discussion below under "*Hiring Incentives to Restore Employment Act*" and "*Foreign Account Tax Compliance Act*", Non-U.S. Holders generally should not be subject to U.S. federal income or withholding tax on any payments on the Warrants and gain from the sale, redemption or other disposition of the Warrants unless: (i) that payment and/or gain is effectively connected with the conduct by that Non-U.S. Holder of a trade or business in the U.S.; (ii) in the case of any gain realized on the sale or exchange of a Warrant by an individual Non-U.S. Holder, that holder is present in the U.S. for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions

TAXATION OF SECURITIES

are met; or (iii) the Non-U.S. Holder is subject to tax pursuant to provisions of the Code applicable to certain expatriates.

Non-U.S. holders should consult their own tax advisers regarding the U.S. federal income and other tax consequences of owning Warrants.

Hiring Incentives to Restore Employment Act

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the Code which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). The final U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the "**Section 871(m) Regulations**") require withholding on certain non-U.S. holders of the Warrants with respect to amounts treated as attributable to dividends from certain U.S. securities. Under the Section 871(m) Regulations, only a Warrant that has an expected economic return sufficiently similar to that of the underlying U.S. security based on tests set forth in the Section 871(m) Regulations will be subject to the Section 871(m) withholding regime (making such Warrant a "**Specified Warrant**"). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Warrant or upon the date of settlement, lapse or other disposition by the non-U.S. holder of the Specified Warrant. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Warrant, withholding generally will still be required even if the Specified Warrant does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Warrants in respect of any dividend equivalent arising with respect to such Warrants regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the IRS. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If an Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Warrants issued on or after 1 January, 2017. If the terms of a Warrant are subject to a "significant modification" (as defined for U.S. tax purposes), the Warrant generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Warrant is a Specified Warrant. Similarly, if additional Warrants of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Warrants out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Warrants are Specified Warrants as the date of such subsequent sale or issuance. Consequently, a previously out of scope Warrant might be treated as a Specified Warrant following such modification or further issuance.

In addition, with respect to Warrants that provide for net dividend reinvestment in respect of either an underlying U.S. security or an index that includes U.S. securities, all payments on the Warrants that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of

the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Issue Terms will indicate whether the Issuer has determined that Warrants are Specified Warrants and may specify contact details for obtaining additional information regarding the application of Section 871(m) to Warrants. If Warrants are Specified Warrants, a non-U.S. holder of the Warrants should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Warrants. The Issuer's determination is binding on non-U.S. holders of the Warrants, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Warrants linked to U.S. securities and their application to a specific issue of Warrants may be uncertain.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Warrants.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code ("**FATCA**") impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or "**FFI**" (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the IRS to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Issuer (a "**Recalcitrant Holder**"). The Issuers are classified as FFIs.

The new withholding regime is now in effect for payments from sources within the United States and will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than the date that is two years after the date on which final regulations defining foreign passthru payments are published in the Federal Register. This withholding would potentially apply to payments in respect of (i) any Warrants characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which (A) with respect to Warrants that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are published and (B) with respect to Warrants that give rise to a dividend equivalent pursuant to Section 871(m) of the Code, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents, or (in each case) which are materially modified after the grandfathering date and (ii) any Warrants characterised as equity for U.S. federal tax purposes, whenever issued. If Warrants are issued on or before the grandfathering date, and additional Warrants of the same series are issued after that date, the additional Warrants may not be treated as grandfathered, which may have negative consequences for the existing Warrants, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "**Reporting FI**" not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being "**FATCA Withholding**") from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States has entered into agreements with Singapore (the "**US-Singapore IGA**") and the United Kingdom (the "**US-UK IGA**") based largely on the Model 1 IGA. The United States and Hong Kong have entered into an agreement (the "**US-Hong Kong IGA**") based largely on the Model 2 IGA.

If the Issuers are treated as Reporting FIs pursuant to the US-Singapore IGA, US-UK IGA and US-Hong Kong IGA, as applicable, they do not anticipate that they will be obliged to deduct any FATCA Withholding on payments they make. There can be no assurance, however, that the Issuers will be treated as Reporting FIs, or that they would in the future not be required to deduct FATCA Withholding from payments they make. Accordingly, the Issuers and financial institutions through which payments on the Warrants are made may be required to withhold FATCA Withholding if (i) any FFI through or to

TAXATION OF SECURITIES

which payment on such Warrants is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

As the Warrants are held within the ICSDs, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Warrants by the Issuers or any warrant agent, as the case may be, given that each of the entities in the payment chain between the Issuers and the participants in the ICSDs is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Warrants.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Warrants.

Taxation of Notes

The following is a summary of certain material U.S. federal income tax consequences of the acquisition, ownership and disposition of Notes by: in the case of Part A, a U.S. Holder (as defined below) and in the case of Part B, a Non-U.S. Holder (as defined below). This summary does not address the material U.S. federal income tax consequences of every type of Note which may be issued under the Programme, and, if not contained herein, additional or modified disclosure concerning the material U.S. federal income tax consequences relevant to such type of Note as appropriate may be set out in a supplement to this Base Prospectus, any other relevant offering document or, in respect of Exempt Notes, the applicable Pricing Supplement. This summary deals only with purchasers of Notes that will hold the Notes as capital assets. The discussion does not cover all aspects of U.S. federal income taxation that may be relevant to, or the actual tax effect that any of the matters described herein will have on, the acquisition, ownership or disposition of Notes by particular investors, and does not address state, local, foreign or other tax laws, the Medicare contribution tax on net investment income, special tax accounting rules that apply to accrual basis taxpayers under Section 451(b) of the Internal Revenue Code of 1986, as amended (the "**Code**") or alternative minimum tax considerations. This summary also does not discuss all of the tax considerations that may be relevant to certain types of investors subject to special treatment under the U.S. federal income tax laws (such as financial institutions, insurance companies, individual retirement accounts and other tax-deferred accounts, tax-exempt organisations, dealers in securities or currencies, investors that will hold the Notes as part of straddles, hedging transactions or conversion transactions for U.S. federal income tax purposes or U.S. Holders whose functional currency is not the U.S. dollar). Moreover, the summary deals only with Notes with a term of 30 years or less. The U.S. federal income tax consequences of owning Notes with a longer term may, where applicable, be discussed in a supplement to this Base Prospectus, any other relevant offering document or, in respect of Exempt Notes, the applicable Pricing Supplement.

As used herein, the term "**U.S. Holder**" means a beneficial owner of Notes that is, for U.S. federal income tax purposes, (i) an individual citizen or resident of the United States, (ii) a corporation created or organised under the laws of the United States or any State thereof, (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source or (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or the trust has elected to be treated as a domestic trust for U.S. federal income tax purposes.

The U.S. federal income tax treatment of a partner in a partnership that holds Notes will depend on the status of the partner and the activities of the partnership. Prospective purchasers that are partnerships should consult their tax adviser concerning the U.S. federal income tax consequences to their partners of the acquisition, ownership and disposition of Notes by the partnership.

The summary is based on the tax laws of the United States including the Code, its legislative history, existing and proposed regulations thereunder, published rulings and court decisions, all as of the date hereof and all subject to change at any time, possibly with retroactive effect.

Bearer Notes are not being offered to U.S. Holders. A U.S. Holder who owns a Bearer Note may be subject to limitations under United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Code.

THE SUMMARY OF U.S. FEDERAL INCOME TAX CONSEQUENCES SET OUT BELOW IS FOR GENERAL INFORMATION ONLY. PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR TAX ADVISERS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF OWNING THE NOTES, INCLUDING THE APPLICABILITY AND EFFECT OF STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND POSSIBLE CHANGES IN TAX LAW.

Part A – U.S. Holders

U.S. Federal Income Tax Characterisation of the Notes

The characterisation of a Series or Tranche of Notes may be uncertain and will depend on the terms of those Notes. The determination of whether an obligation represents debt, equity, or some other instrument or interest is based on all the relevant facts and circumstances. There may be no statutory, judicial or administrative authority directly addressing the characterisation of some of the types of Notes that are anticipated to be issued under the Programme or of instruments similar to such Notes.

Depending on the terms of a particular Series or Tranche of Notes, such Notes may not be characterised as debt for U.S. federal income tax purposes despite the form of the Notes as debt instruments. For example, Notes of a Series or Tranche may be more properly characterised as collateralised put options, prepaid forward contracts or some other type of financial instrument. Additional alternative characterisations may also be possible. Further possible characterisations, if applicable, may be discussed in a supplement to this Base Prospectus, any other relevant offering document or, in respect of Exempt Notes, the applicable Pricing Supplement.

No rulings will be sought from the United States Internal Revenue Service ("**IRS**") regarding the characterisation of any of the Notes issued hereunder for U.S. federal income tax purposes. Each holder should consult its own tax adviser about the proper characterisation of the Notes for U.S. federal income tax purposes and consequences to such holder of acquiring, owning or disposing of the Notes.

U.S. Federal Income Tax Treatment of Notes Treated as Debt

The following summary applies to Notes that are properly treated as debt for U.S. federal income tax purposes.

Payments of Interest

General

Interest on a Note, whether payable in U.S. dollars or a currency, composite currency or basket of currencies other than U.S. dollars (a "**foreign currency**"), other than interest on a "Discount Note" that is not "qualified stated interest" (each as defined below under "*Original Issue Discount — General*"), will be taxable to a U.S. Holder as ordinary income at the time it is received or accrued, depending on the holder's method of accounting for tax purposes. Interest paid by the relevant Issuer on Notes issued by a branch or office outside the United States (a "**Non-U.S. Branch**") and OID, if any, accrued with respect to such Notes (as described below under "*Original Issue Discount*") will generally constitute income from sources outside the United States. Interest paid by SCB on Notes issued out of SCB's New York branch (the "**U.S. Branch**") and OID, if any, accrued with respect to such Notes will generally constitute income from sources within the United States. Prospective purchasers should consult their tax advisers concerning the applicability of the foreign tax credit and source of income rules to income attributable to the Notes.

Effect of United Kingdom and Singapore Withholding Taxes

As discussed in "*United Kingdom Taxation*" and "*Singapore Taxation*", under current law payments of interest in respect of the Notes may be subject to U.K. or Singapore withholding taxes. For U.S. federal

TAXATION OF SECURITIES

income tax purposes, U.S. Holders would be treated as having actually received the amount of U.K. or Singapore taxes withheld by the relevant Issuer with respect to a Note, and as then having actually paid over the withheld taxes to the U.K. or Singapore taxing authorities. As a result of this rule, the amount of interest income included in gross income for U.S. federal income tax purposes by a U.S. Holder with respect to a payment of interest may be greater than the amount of cash actually received (or receivable) by the U.S. Holder from the relevant Issuer with respect to the payment.

Subject to certain limitations, a U.S. Holder will generally be entitled to a credit against its U.S. federal income tax liability, or a deduction in computing its U.S. federal taxable income, for U.K. or Singapore taxes withheld by the relevant Issuer. For purposes of the foreign tax credit limitation, foreign source income is classified in one of two "baskets", and the credit for foreign taxes on income in any basket is limited to U.S. federal income tax allocable to that income. Interest and OID (defined below) generally will constitute foreign source income in the "passive income" basket. In certain circumstances a U.S. Holder may be unable to claim foreign tax credits (and may instead be allowed deductions) for U.K. or Singapore taxes imposed on a payment of interest if the U.S. Holder has not held the Notes for at least 16 days during the 31-day period beginning on the date that is 15 days before the date on which the right to receive the payment arises. Since a U.S. Holder may be required to include OID on the Notes in its gross income in advance of any withholding of U.K. taxes from payments attributable to the OID (which would generally occur when the Note is repaid or redeemed), a U.S. Holder may not be entitled to a credit or deduction for these U.K. taxes in the year the OID is included in the U.S. Holder's gross income, and may be limited in its ability to credit or deduct in full the U.K. or Singapore taxes in the year those taxes are actually withheld by the Issuer. Prospective purchasers should consult their tax advisers concerning the foreign tax credit implications of the payment of these U.K. or Singapore taxes.

Original Issue Discount

General

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Notes issued with original issue discount ("**OID**").

A Note, other than a Note with a term of one year or less (a "**Short-Term Note**"), will be treated as issued with OID (a "**Discount Note**") if the excess of the Note's "stated redemption price at maturity" over its issue price is equal to or more than a de minimis amount (0.25 per cent. of the Note's stated redemption price at maturity multiplied by the number of complete years to its maturity). An obligation that provides for the payment of amounts other than qualified stated interest before maturity (an "**instalment obligation**") will be treated as a Discount Note if the excess of the Note's stated redemption price at maturity over its issue price is equal to or greater than 0.25 per cent. of the Note's stated redemption price at maturity multiplied by the weighted average maturity of the Note. A Note's weighted average maturity is the sum of the following amounts determined for each payment on a Note (other than a payment of qualified stated interest): (i) the number of complete years from the issue date until the payment is made multiplied by (ii) a fraction, the numerator of which is the amount of the payment and the denominator of which is the Note's stated redemption price at maturity. Generally, the issue price of a Note will be the first price at which a substantial amount of Notes included in the issue of which the Note is a part is sold to persons other than bond houses, brokers, or similar persons or organisations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a Note is the total of all payments provided by the Note that are not payments of "qualified stated interest". A "qualified stated interest" payment is generally any one of a series of stated interest payments on a Note that are unconditionally payable at least annually at a single fixed rate (with certain exceptions for lower rates paid during some periods), or a variable rate (in the circumstances described below under "*Variable Interest Rate Notes*"), applied to the outstanding principal amount of the Note. Solely for the purposes of determining whether a Note has OID, the relevant Issuer will be deemed to exercise any call option that has the effect of decreasing the yield on the Note and the U.S. Holder will be deemed to exercise any put option that has the effect of increasing the yield on the Note.

U.S. Holders of Discount Notes must include OID in income calculated on a constant-yield method before the receipt of cash attributable to the income, and will generally have to include in income increasingly greater amounts of OID over the life of the Discount Notes. The amount of OID includible in income by a U.S. Holder of a Discount Note is the sum of the daily portions of OID with respect to

the Discount Note for each day during the taxable year or portion of the taxable year on which the U.S. Holder holds the Discount Note ("**accrued OID**"). The daily portion is determined by allocating to each day in any "accrual period" a pro rata portion of the OID allocable to that accrual period. Accrual periods with respect to a Note may be of any length selected by the U.S. Holder and may vary in length over the term of the Note as long as (i) no accrual period is longer than one year and (ii) each scheduled payment of interest or principal on the Note occurs on either the final or first day of an accrual period. The amount of OID allocable to an accrual period equals the excess of (a) the product of the Discount Note's adjusted issue price at the beginning of the accrual period and the Discount Note's yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the Note allocable to the accrual period. The "**adjusted issue price**" of a Discount Note at the beginning of any accrual period is the issue price of the Note increased by (x) the amount of accrued OID for each prior accrual period and decreased by (y) the amount of any payments previously made on the Note that were not qualified stated interest payments.

Acquisition Premium

A U.S. Holder that purchases a Discount Note for an amount less than or equal to the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, but in excess of its adjusted issue price (any such excess being "**acquisition premium**") and that does not make the election described below under "*Election to Treat All Interest as Original Issue Discount*", is permitted to reduce the daily portions of OID by a fraction, the numerator of which is the excess of the U.S. Holder's adjusted basis in the Note immediately after its purchase over the Note's adjusted issue price and the denominator of which is the excess of the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, over the Note's adjusted issue price.

Short-Term Notes

In general, an individual or other cash basis U.S. Holder of a Short-Term Note is not required to accrue OID (as specially defined below for the purposes of this paragraph) for U.S. federal income tax purposes unless it elects to do so (but may be required to include any stated interest in income as the interest is received). Accrual basis U.S. Holders and certain other U.S. Holders are required to accrue OID on Short-Term Notes on a straight-line basis or, if the U.S. Holder so elects, under the constant-yield method (based on daily compounding). In the case of a U.S. Holder not required and not electing to include OID in income currently, any gain realised on the sale or retirement of the Short-Term Note will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant-yield method) through the date of sale or retirement. U.S. Holders who are not required and do not elect to accrue OID on Short-Term Notes will be required to defer deductions for interest on borrowings allocable to Short-Term Notes in an amount not exceeding the deferred income until the deferred income is realised.

For the purposes of determining the amount of OID subject to these rules, all interest payments on a Short-Term Note are included in the Short-Term Note's stated redemption price at maturity. A U.S. Holder may elect to determine OID on a Short-Term Note as if the Short-Term Note had been originally issued to the U.S. Holder at the U.S. Holder's purchase price for the Short-Term Note. This election will apply to all obligations with a maturity of one year or less acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies and may not be revoked without the consent of the IRS.

Fungible Issue

The relevant Issuer may, without the consent of the holders of outstanding Notes, issue additional Notes with identical terms. These additional Notes, even if they are treated for non-tax purposes as part of the same series as the original Notes, may in some cases be treated as a separate series for U.S. federal income tax purposes. In such a case, the additional Notes may be considered to have been issued with OID even if the original Notes had no OID, or the additional Notes may have a greater amount of OID than the original Notes. These differences may affect the market value of the original Notes if the additional Notes are not otherwise distinguishable from the original Notes.

Market Discount

A Note, other than a Short-Term Note, generally will be treated as purchased at a market discount (a "**Market Discount Note**") if the Note's stated redemption price at maturity or, in the case of a Discount Note, the Note's "adjusted issue price", exceeds the amount for which the U.S. Holder purchased the Note by at least 0.25 per cent. of the Note's stated redemption price at maturity or adjusted issue price, respectively, multiplied by the number of complete years to the Note's maturity (or, in the case of a Note that is an instalment obligation, the Note's weighted average maturity). If this excess is not sufficient to cause the Note to be a Market Discount Note, then the excess constitutes "**de minimis market discount**". For this purpose, the "**adjusted issue price**" of a Note generally equals its issue price, increased by the amount of any OID that has accrued on the Note and decreased by the amount of any payments previously made on the Note that were not qualified stated interest payments.

Under current law, any gain recognised on the maturity or disposition of a Market Discount Note (including any payment on a Note that is not qualified stated interest) will be treated as ordinary income to the extent that the gain does not exceed the accrued market discount on the Note. Alternatively, a U.S. Holder of a Market Discount Note may elect to include market discount in income currently over the life of the Note. This election will apply to all debt instruments with market discount acquired by the electing U.S. Holder on or after the first day of the first taxable year to which the election applies. This election may not be revoked without the consent of the IRS. A U.S. Holder of a Market Discount Note that does not elect to include market discount in income currently will generally be required to defer deductions for interest on borrowings incurred to purchase or carry a Market Discount Note that is in excess of the interest and OID on the Note includible in the U.S. Holder's income, to the extent that this excess interest expense does not exceed the portion of the market discount allocable to the days on which the Market Discount Note was held by the U.S. Holder.

Under current law, market discount will accrue on a straight-line basis unless the U.S. Holder elects to accrue the market discount on a constant-yield method. This election applies only to the Market Discount Note with respect to which it is made and is irrevocable.

Variable Interest Rate Notes

Notes that provide for interest at variable rates ("**Variable Interest Rate Notes**") generally will bear interest at a "qualified floating rate" and thus will be treated as "variable rate debt instruments" under Treasury regulations governing accrual of OID. A Variable Interest Rate Note will qualify as a "**variable rate debt instrument**" if (a) its issue price does not exceed the total noncontingent principal payments due under the Variable Interest Rate Note by more than a specified de minimis amount, (b) it provides for stated interest, paid or compounded at least annually, at (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate and (c) it does not provide for any principal payments that are contingent (other than as described in (a) above).

A "**qualified floating rate**" is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Interest Rate Note is denominated. A fixed multiple of a qualified floating rate will constitute a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Variable Interest Rate Note (e.g., two or more qualified floating rates with values within 25 basis points of each other as determined on the Variable Interest Rate Note's issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate.

An "**objective rate**" is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). A rate will not qualify as an objective rate if it is based on information that is within the control of the relevant Issuer (or a related

party) or that is unique to the circumstances of the relevant Issuer (or a related party), such as dividends, profits or the value of the relevant Issuer's stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the relevant Issuer). Other variable interest rates may be treated as objective rates if so designated by the IRS in the future. Despite the foregoing, a variable rate of interest on a Variable Interest Rate Note will not constitute an objective rate if it is reasonably expected that the average value of the rate during the first half of the Variable Interest Rate Note's term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Variable Interest Rate Note's term. A **"qualified inverse floating rate"** is any objective rate where the rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate. If a Variable Interest Rate Note provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period and if the variable rate on the Variable Interest Rate Note's issue date is intended to approximate the fixed rate (e.g., the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a "current value" of that rate. A **"current value"** of a rate is the value of the rate on any day that is no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day.

If a Variable Interest Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof qualifies as a "variable rate debt instrument", then any stated interest on the Note which is unconditionally payable in cash or property (other than debt instruments of the relevant Issuer) at least annually will constitute qualified stated interest and will be taxed accordingly. Thus, a Variable Interest Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a "variable rate debt instrument" will generally not be treated as having been issued with OID unless the Variable Interest Rate Note is issued at a "true" discount (i.e., at a price below the Note's stated nominal amount) in excess of a specified de minimis amount. OID on a Variable Interest Rate Note arising from "true" discount is allocated to an accrual period using the constant yield method described above by assuming that the variable rate is a fixed rate equal to (i) in the case of a qualified floating rate or qualified inverse floating rate, the value, as of the issue date, of the qualified floating rate or qualified inverse floating rate or (ii) in the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note.

In general, any other Variable Interest Rate Note that qualifies as a "variable rate debt instrument" will be converted into an "equivalent" fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Note. Such a Variable Interest Rate Note must be converted into an "equivalent" fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Note with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Interest Rate Note's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Note is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note. In the case of a Variable Interest Rate Note that qualifies as a "variable rate debt instrument" and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate Note provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Interest Rate Note as of the Variable Interest Rate Note's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Note is converted into an "equivalent" fixed rate debt instrument in the manner described above.

Once the Variable Interest Rate Note is converted into an "equivalent" fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined

TAXATION OF SECURITIES

for the "equivalent" fixed rate debt instrument by applying the general OID rules to the "equivalent" fixed rate debt instrument and a U.S. Holder of the Variable Interest Rate Note will account for the OID and qualified stated interest as if the U.S. Holder held the "equivalent" fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the "equivalent" fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Note during the accrual period.

If a Variable Interest Rate Note, such as a Note the payments on which are determined by reference to an index, does not qualify as a "variable rate debt instrument", then the Variable Interest Rate Note will be treated as a contingent payment debt obligation. See "*Contingent Payment Debt Instruments*" below for a discussion of the U.S. federal income tax treatment of such Notes.

Notes Purchased at a Premium

A U.S. Holder that purchases a Note for an amount in excess of its principal amount, or for a Discount Note, its stated redemption price at maturity, may elect to treat the excess as "amortisable bond premium", in which case the amount required to be included in the U.S. Holder's income each year with respect to interest on the Note will be reduced by the amount of amortisable bond premium allocable (based on the Note's yield to maturity) to that year. Any election to amortise bond premium will apply to all bonds (other than bonds the interest on which is excludable from gross income for U.S. federal income tax purposes) held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and is irrevocable without the consent of the IRS. See also "*Original Issue Discount — Election to Treat All Interest as Original Issue Discount*".

Election to Treat All Interest as Original Issue Discount

A U.S. Holder may elect to include in gross income all interest that accrues on a Note using the constant-yield method described above under "*Original Issue Discount — General*" with certain modifications. For purposes of this election, interest includes stated interest, OID, de minimis OID, market discount, de minimis market discount and unstated interest, as adjusted by any amortisable bond premium (described above under "*Notes Purchased at a Premium*") or acquisition premium. This election will generally apply only to the Note with respect to which it is made and may not be revoked without the consent of the IRS. If the election to apply the constant-yield method to all interest on a Note is made with respect to a Market Discount Note, the electing U.S. Holder will be treated as having made the election discussed above under "*Market Discount*" to include market discount in income currently over the life of all debt instruments with market discount held or thereafter acquired by the U.S. Holder. U.S. Holders should consult their tax advisers concerning the propriety and consequences of this election.

Contingent Payment Debt Instruments

Certain Series or Tranches of Notes may be treated as "contingent payment debt instruments" for U.S. federal income tax purposes ("**Contingent Notes**"). Under applicable U.S. Treasury regulations, interest on Contingent Notes will be treated as "original issue discount" ("**OID**"), and must be accrued on a constant-yield basis based on a yield to maturity that reflects the rate at which the relevant Issuer would issue a comparable fixed-rate non-exchangeable instrument (the "**comparable yield**"), in accordance with a projected payment schedule. This projected payment schedule must include each non-contingent payment on the Contingent Notes and an estimated amount for each contingent payment, and must produce the comparable yield.

The relevant Issuer is required to provide to holders, solely for U.S. federal income tax purposes, a schedule of the projected amounts of payments on Contingent Notes. This schedule must produce the comparable yield. The comparable yield and projected payment schedule will be available from the relevant Issuer by submitting a written request for such information to: Manager, Transaction Management Group, 7th Floor, Standard Chartered Bank Building, 4-4A Des Voeux Road Central, Hong Kong.

THE COMPARABLE YIELD AND PROJECTED PAYMENT SCHEDULE WILL NOT BE DETERMINED FOR ANY PURPOSE OTHER THAN FOR THE DETERMINATION OF INTEREST ACCRUALS AND

ADJUSTMENTS THEREOF IN RESPECT OF CONTINGENT NOTES FOR UNITED STATES FEDERAL INCOME TAX PURPOSES AND WILL NOT CONSTITUTE A PROJECTION OR REPRESENTATION REGARDING THE ACTUAL AMOUNTS PAYABLE TO THE HOLDERS OF THE NOTES.

The use of the comparable yield and the calculation of the projected payment schedule will be based upon a number of assumptions and estimates and will not be a prediction, representation or guarantee of the actual amounts of interest that may be paid to a U.S. Holder or the actual yield of the Contingent Notes. A U.S. Holder will generally be bound by the comparable yield and the projected payment schedule determined by the relevant Issuer, unless the U.S. Holder determines its own comparable yield and projected payment schedule and explicitly discloses such schedule to the IRS, and explains to the IRS the reason for preparing its own schedule. The relevant Issuer's determination, however, is not binding on the IRS and it is possible that the IRS could conclude that some other comparable yield or projected payment schedule should be used instead.

A U.S. Holder of a Contingent Note will generally be required to include OID in income pursuant to the rules discussed in the third paragraph under "*Original Issue Discount – General*", above, applied to the projected payment schedule. The "**adjusted issue price**" of a Contingent Note at the beginning of any accrual period is the issue price of the Note increased by the amount of accrued OID for each prior accrual period, and decreased by the projected amount of any payments on the Note. No additional income will be recognised upon the receipt of payments of stated interest in amounts equal to the annual payments included in the projected payment schedule described above. Any differences between actual payments received by the U.S. Holder on the Notes in a taxable year and the projected amount of those payments will be accounted for as additional interest (in the case of a positive adjustment) or as an offset to interest income in respect of the Note (in the case of a negative adjustment) for the taxable year in which the actual payment is made. If the negative adjustment for any taxable year exceeds the amount of OID on the Contingent Note for that year, the excess will be treated as an ordinary loss, but only to the extent the U.S. Holder's total OID inclusions on the Contingent Note exceed the total amount of any ordinary loss in respect of the Contingent Note claimed by the U.S. Holder under this rule in prior taxable years. Any negative adjustment that is not allowed as an ordinary loss for the taxable year is carried forward to the next taxable year and is taken into account in determining whether the U.S. Holder has a net positive or negative adjustment for that year. However, any negative adjustment that is carried forward to a taxable year in which the Contingent Note is sold, exchanged or retired, to the extent not applied to OID accrued for such year, reduces the U.S. Holder's amount realised on the sale, exchange or retirement.

Purchase, Sale and Retirement of Notes

Notes other than Contingent Notes

A U.S. Holder's tax basis in a Note will generally be its cost, increased by the amount of any OID or market discount included in the U.S. Holder's income with respect to the Note and the amount, if any, of income attributable to de minimis OID and de minimis market discount included in the U.S. Holder's income with respect to the Note, and reduced by (i) the amount of any payments that are not qualified stated interest payments and (ii) the amount of any amortisable bond premium applied to reduce interest on the Note.

A U.S. Holder will generally recognise gain or loss on the sale or retirement of a Note equal to the difference between the amount realised on the sale or retirement and the tax basis of the Note. The amount realised does not include the amount attributable to accrued but unpaid interest, which will be taxable as interest income to the extent not previously included in income. Except to the extent described above under "*Original Issue Discount — Market Discount*" or "*Original Issue Discount — Short-Term Notes*" or attributable to changes in exchange rates (as discussed below), gain or loss recognised on the sale or retirement of a Note will be capital gain or loss and will be long-term capital gain or loss if the U.S. Holder's holding period in the Notes exceeds one year.

Gain or loss realised by a U.S. Holder on the sale or retirement of a Note generally will be U.S. source.

TAXATION OF SECURITIES

Contingent Notes

Gain from the sale or retirement of a Contingent Note will be treated as interest income taxable at ordinary income (rather than capital gains) rates. Any loss will be ordinary loss to the extent that the U.S. Holder's total interest inclusions to the date of sale or retirement exceed the total net negative adjustments that the U.S. Holder took into account as ordinary loss, and any further loss will be capital loss. Gain or loss realised by a U.S. Holder on the sale or retirement of a Contingent Note issued by a Non-U.S. Branch will generally be foreign source. Gain or loss realised by a U.S. Holder on the sale or retirement of a Contingent Note issued by the U.S. Branch will generally be U.S. source.

A U.S. Holder's tax basis in a Contingent Note will generally be equal to its cost, increased by the amount of interest previously accrued with respect to the Note (determined without regard to any positive or negative adjustments reflecting the difference between actual payments and projected payments), increased or decreased by the amount of any positive or negative adjustment that the holder is required to make to account for the difference between the holder's purchase price for the Note and the adjusted issue price of the Note at the time of the purchase, and decreased by the amount of any projected payments scheduled to be made on the Note to the U.S. Holder through such date (without regard to the actual amount paid).

Foreign Currency Notes

Interest

If an interest payment is denominated in, or determined by reference to, a foreign currency, the amount of income recognised by a cash basis U.S. Holder will be the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars.

An accrual basis U.S. Holder may determine the amount of income recognised with respect to an interest payment denominated in, or determined by reference to, a foreign currency in accordance with either of two methods. Under the first method, the amount of income accrued will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an accrual period that spans two taxable years of a U.S. Holder, the part of the period within the taxable year).

Under the second method, the U.S. Holder may elect to determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is actually received within five business days of the last day of the accrual period, an electing accrual basis U.S. Holder may instead translate the accrued interest into U.S. dollars at the exchange rate in effect on the day of actual receipt. Any such election will apply to all debt instruments held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and will be irrevocable without the consent of the IRS.

Upon receipt of an interest payment (including a payment attributable to accrued but unpaid interest upon the sale or retirement of a Note) denominated in, or determined by reference to, a foreign currency, the U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

OID

OID for each accrual period on a Discount Note that is denominated in, or determined by reference to, a foreign currency, will be determined in the foreign currency and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder, as described above. Upon receipt of an amount attributable to OID (whether in connection with a payment on the Note or a sale or disposition of the Note), a U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S.

dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

Market Discount

Market discount on a Note that is denominated in, or determined by reference to, a foreign currency, will be accrued in the foreign currency. If the U.S. Holder elects to include market discount in income currently, the accrued market discount will be translated into U.S. dollars at the average exchange rate for the accrual period (or portion thereof within the U.S. Holder's taxable year). Upon the receipt of an amount attributable to accrued market discount, the U.S. Holder may recognise U.S. source exchange gain or loss (which will be taxable as ordinary income or loss) determined in the same manner as for accrued interest or OID. A U.S. Holder that does not elect to include market discount in income currently will recognise, upon the disposition or maturity of the Note, the U.S. dollar value of the amount accrued, calculated at the spot rate on that date, and no part of this accrued market discount will be treated as exchange gain or loss.

Bond Premium

Bond premium (including acquisition premium) on a Note that is denominated in, or determined by reference to, a foreign currency, will be computed in units of the foreign currency, and any such bond premium that is taken into account currently will reduce interest income in units of the foreign currency. On the date bond premium offsets interest income, a U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the amount offset multiplied by the difference between the spot rate in effect on the date of the offset and the spot rate in effect on the date the Notes were acquired by the U.S. Holder. A U.S. Holder that does not elect to take bond premium (other than acquisition premium) into account currently will recognise a market loss when the Note matures.

Foreign Currency Contingent Notes

Special rules apply to determine the accrual of OID and the amount, timing, source and character of any gain or loss on a Contingent Note that is denominated in, or determined by reference to, a foreign currency (a "**Foreign Currency Contingent Note**"). The rules applicable to Foreign Currency Contingent Notes are complex and U.S. Holders are urged to consult their tax advisers concerning the application of these rules.

Under these rules, a U.S. Holder of a Foreign Currency Contingent Note will generally be required to accrue OID in the foreign currency in which the Foreign Currency Contingent Note is denominated (i) at a yield at which the relevant Issuer would issue a fixed rate debt instrument denominated in the same foreign currency with terms and conditions similar to those of the Foreign Currency Contingent Note, and (ii) in accordance with a projected payment schedule determined by the relevant Issuer, under rules similar to those described above under "*Contingent Payment Debt Instruments*". The amount of OID on a Foreign Currency Contingent Note that accrues in any accrual period will be the product of the comparable yield of the Foreign Currency Contingent Note (adjusted to reflect the length of the accrual period) and the adjusted issue price of the Foreign Currency Contingent Note. The adjusted issue price of a Foreign Currency Contingent Note will generally be determined under the rules described above and will be denominated in the foreign currency of the Foreign Currency Contingent Note.

OID on a Foreign Currency Contingent Note will be translated into U.S. dollars under translation rules similar to those described above under "*Foreign Currency Notes — Interest*". Any positive adjustment (i.e. the excess of actual payments over projected payments) in respect of a Foreign Currency Contingent Note for a taxable year will be translated into U.S. dollars at the spot rate on the last day of the taxable year in which the adjustment is taken into account, or if earlier, the date on which the Foreign Currency Contingent Note is disposed of. The amount of any negative adjustment on a Foreign Currency Contingent Note (i.e. the excess of projected payments over actual payments) that is offset against accrued but unpaid OID will be translated into U.S. dollars at the same rate at which the OID was accrued. To the extent a net negative adjustment exceeds the amount of accrued but unpaid OID, the negative adjustment will be treated as offsetting OID that has accrued and been paid on the Foreign Currency Contingent Note and will be translated into U.S. dollars at the spot rate on the date the Foreign Currency Contingent Note was issued. Any net negative adjustment carry forward will be carried forward in the relevant foreign currency.

TAXATION OF SECURITIES

Sale or Retirement

Notes other than Foreign Currency Contingent Notes.

As discussed above under "*Purchase, Sale and Retirement of Notes*", a U.S. Holder will generally recognise gain or loss on the sale or retirement of a Note equal to the difference between the amount realised on the sale or retirement and its tax basis in the Note. A U.S. Holder's tax basis in a Note that is denominated in a foreign currency will be determined by reference to the U.S. dollar cost of the Note. The U.S. dollar cost of a Note purchased with foreign currency will generally be the U.S. dollar value of the purchase price on the date of purchase or the settlement date for the purchase, in the case of Notes traded on an established securities market, as defined in the applicable Treasury Regulations, that are purchased by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects).

The amount realised on a sale or retirement for an amount in foreign currency will be the U.S. dollar value of this amount on the date of sale or retirement or the settlement date for the sale, in the case of Notes traded on an established securities market, as defined in the applicable Treasury Regulations, sold by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects). Such an election by an accrual basis U.S. Holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS.

A U.S. Holder will recognise U.S. source exchange rate gain or loss (taxable as ordinary income or loss) on the sale or retirement of a Note equal to the difference, if any, between the U.S. dollar values of the U.S. Holder's purchase price for the Note (or, if less, the principal amount of the Note) (i) on the date of sale or retirement and (ii) the date on which the U.S. Holder acquired the Note. Any such exchange rate gain or loss will be realised only to the extent of total gain or loss realised on the sale or retirement (including any exchange gain or loss with respect to the receipt of accrued but unpaid interest).

Foreign Currency Contingent Notes.

Upon a sale, exchange or retirement of a Foreign Currency Contingent Note, a U.S. Holder will generally recognise taxable gain or loss equal to the difference between the amount realised on the sale, exchange or retirement and the U.S. Holder's tax basis in the Foreign Currency Contingent Note, both translated into U.S. dollars as described below. A U.S. Holder's tax basis in a Foreign Currency Contingent Note will equal (i) the cost thereof (translated into U.S. dollars at the spot rate on the issue date), (ii) increased by the amount of OID previously accrued on the Foreign Currency Contingent Note (disregarding any positive or negative adjustments and translated into U.S. dollars using the exchange rate applicable to such OID) and (iii) decreased by the projected amount of all prior payments in respect of the Foreign Currency Contingent Note. The U.S. dollar amount of the projected payments described in clause (iii) of the preceding sentence is determined by (i) first allocating the payments to the most recently accrued OID to which prior amounts have not already been allocated and translating those amounts into U.S. dollars at the rate at which the OID was accrued and (ii) then allocating any remaining amount to principal and translating such amount into U.S. dollars at the spot rate on the date the Foreign Currency Contingent Note was acquired by the U.S. Holder. For this purpose, any accrued OID reduced by a negative adjustment carry forward will be treated as principal.

The amount realised by a U.S. Holder upon the sale, exchange or retirement of a Foreign Currency Contingent Note will equal the amount of cash and the fair market value (determined in foreign currency) of any property received. If a U.S. Holder holds a Foreign Currency Contingent Note until its scheduled maturity, the U.S. dollar equivalent of the amount realised will be determined by separating such amount realised into principal and one or more OID components, based on the principal and OID comprising the U.S. Holder's basis, with the amount realised allocated first to OID (and allocated to the most recently accrued amounts first) and any remaining amounts allocated to principal. The U.S. dollar equivalent of the amount realised upon a sale, exchange or unscheduled retirement of a Foreign Currency Contingent Note will be determined in a similar manner, but will first be allocated to principal and then any accrued OID (and will be allocated to the earliest accrued amounts first). Each component of the amount realised will be translated into U.S. dollars using the exchange rate used with respect to the corresponding principal or accrued OID. The amount of any gain realised upon a sale, exchange or unscheduled retirement of a Foreign Currency Contingent Note will be equal to the excess of the amount realised over the holder's tax basis, both expressed in foreign currency, and will be translated

into U.S. dollars using the spot rate on the payment date. Gain from the sale or retirement of a Foreign Currency Contingent Note will generally be treated as interest income taxable at ordinary income (rather than capital gains) rates. Any loss will be ordinary loss to the extent that the U.S. Holder's total OID inclusions to the date of sale or retirement exceed the total net negative adjustments that the U.S. Holder took into account as ordinary loss, and any further loss will be capital loss. Gain or loss realised by a U.S. Holder on the sale or retirement of a Foreign Currency Contingent Note issued by a Non-U.S. Branch will generally be foreign source. Gain or loss realised by a U.S. Holder on the sale or retirement of a Foreign Currency Contingent Note issued by the U.S. Branch will generally be U.S. source. Prospective purchasers should consult their tax advisers as to the foreign tax credit implications of the sale or retirement of Foreign Currency Contingent Notes.

A U.S. Holder will also recognise U.S. source exchange rate gain or loss (taxable as ordinary income or loss) on the receipt of foreign currency in respect of a Foreign Currency Contingent Note if the exchange rate in effect on the date the payment is received differs from the rate applicable to the principal or accrued OID to which such payment relates.

Disposition of Foreign Currency

Foreign currency received as interest on a Note or on the sale or retirement of a Note will have a tax basis equal to its U.S. dollar value at the time the foreign currency is received. Foreign currency that is purchased will generally have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss recognised on a sale or other disposition of a foreign currency (including its use to purchase Notes or upon exchange for U.S. dollars) will be U.S. source ordinary income or loss.

U.S. Federal Income Tax Treatment of Certain Notes Not Treated as Debt

The following summary may apply to certain Notes that are not treated as debt for U.S. federal income tax purposes. This summary does not discuss all types of Notes that may not be treated as debt for U.S. federal income tax purposes. The applicable Issue Terms will specify if the discussion below will apply to a particular Series or Tranche of Notes. The U.S. federal income tax consequences of owning Notes that are not treated as debt for U.S. federal income tax purposes and are not described below may be discussed, as appropriate, in a supplement to this Base Prospectus, any other relevant offering document or, in respect of Exempt Notes, the applicable Pricing Supplement.

Forward Notes

General

A Note that provides for a payment in redemption at maturity that is based on the value of one or more commodities, currencies, equity securities, funds, indices, formulae or other factors relating to assets or property (each a "**Reference Item**") (whether physically settled by delivery of those Reference Items or settled in cash) and does not provide for a current coupon, may be identified as a "**Forward Note**" by the relevant Issuer in the applicable Issue Terms. A U.S. Holder of a Forward Note would generally be subject to the U.S. federal income tax consequences discussed below.

In Notice 2008-2, the IRS and the U.S. Department of Treasury announced they were considering whether the holder of an instrument such as a Forward Note should be required to accrue ordinary income on a current basis, whether additional gain or loss from Forward Notes should be treated as ordinary or capital, whether non-U.S. holders of Forward Notes should be subject to withholding tax on any deemed income accruals, and whether the special "constructive ownership rules" of Section 1260 of the Code might be applied to Forward Notes. Legislation has also been proposed in Congress that would require the holders of certain prepaid forward contracts to accrue income during the term of the transaction. It is not possible to predict the final form of legislative or regulatory changes that might affect holders of instruments such as the Forward Notes, if any, but it is possible that any such changes could be applied retroactively. U.S. Holders are urged to consult their tax advisers concerning the significance, and the potential impact, of the above considerations. The Issuers intend to continue treating the Forward Notes for U.S. federal income tax purposes in accordance with the treatment

TAXATION OF SECURITIES

described below unless and until such time as Congress, the Treasury, and/or the IRS determine that some alternative treatment is more appropriate.

Characterisation

A Forward Note should constitute a prepaid forward contract for U.S. federal income tax purposes. Under current law, U.S. Holders should not be required to recognise income or loss upon the acquisition of a Note, and U.S. Holders should not be required to accrue income with respect to a Note over the life of the Note.

Purchase, Sale and Retirement

A U.S. Holder will recognise gain or loss on the sale or retirement for cash of a Forward Note equal to the difference between the amount of cash received upon sale or retirement and the U.S. Holder's tax basis in the Note. A U.S. Holder's tax basis in a Forward Note will generally be the Note's U.S. dollar cost. The U.S. dollar cost of a Forward Note purchased with a foreign currency will generally be the U.S. dollar value of the purchase price on the date of purchase increased by the nominal exercise price, if any, paid by the U.S. Holder. Except as provided under "*Constructive Ownership Transactions*" below, any gain or loss recognised on the sale or retirement of a Forward Note will be capital gain or loss and will be long-term capital gain or loss if the U.S. Holder's holding period in the Note exceeds one year.

Upon a retirement of a Forward Note by physical delivery of the Reference Items, a U.S. Holder will not be required to recognise gain or loss at that time. A U.S. Holder will have a basis in the Reference Items equal to the U.S. Holder's basis in the Forward Note. A U.S. Holder's holding period in the Reference Items will not include the U.S. Holder's holding period in the Forward Notes.

Constructive Ownership Transactions

To the extent that a Forward Note is treated as a "constructive ownership transaction", any gain on disposition may be treated as ordinary income and an interest charge may be imposed on a deemed underpayment of tax for each taxable year during which the Note was held. For purposes of determining the interest charge, gain treated as ordinary income is allocated to each such taxable year during which the Forward Note was held so that the amount of gain accrued from each year to the next increases at a constant rate equal to the "**applicable federal rate**" (a rate published monthly by the IRS based on prevailing Treasury yields) in effect at the time the Note is sold or redeemed.

A Note could be treated in whole or in part as a constructive ownership transaction if the issuer of a Reference Item and, if the Reference Item is an index, possibly the issuer of any security included in that index is treated for U.S. federal income tax purposes as, among others, a passive foreign investment company, a partnership, a trust or a common trust fund.

The Issuers do not intend to determine whether the issuers of any Reference Item in fact fall in any of these categories. Prospective purchasers should consult their tax advisers regarding the status of the Reference Items and the application of the constructive ownership transaction rules to ownership of the Note.

Option Notes

A Note that provides for a payment in redemption at maturity that may under certain circumstances be based on the value of one or more Reference Items (whether physically settled by delivery of those Reference Items or settled in cash) and also provides for a current coupon, may be identified as an "**Option Note**" by the Issuers. The discussion below describes the U.S. federal income tax consequences to a U.S. Holder of holding Option Notes.

The treatment of Option Notes for U.S. federal income tax purposes is highly uncertain. It would be reasonable to treat the purchase of an Option Note by a U.S. Holder as a grant by the U.S. Holder to the relevant Issuer of an option contract (the "**Put Option**"), pursuant to which the U.S. Holder may be required to purchase from the relevant Issuer one or more of the Reference Items (or an amount equal to the value of the Reference Items in the case of a cash-settled Option Note), and under which option

(a) at the time of the issuance of the Option Note the U.S. Holder deposits irrevocably with the relevant Issuer a fixed amount of cash to assure the fulfilment of the holder's purchase obligation described below (the "**Deposit**"), (b) until maturity the relevant Issuer will be obligated to pay interest to the U.S. Holder, as compensation for the use of the cash Deposit during the term of the Option Note, (c) the relevant Issuer will be obligated to pay an option premium to the holder in consideration for granting the option (the "**Put Premium**"), which premium will be payable as part of the coupon payments, (d) if pursuant to the terms of the Option Notes at maturity the holder is obligated to purchase the Reference Item(s), then the Deposit will be applied by the relevant Issuer in full satisfaction of the holder's purchase obligation under the Put Option, and the relevant Issuer will deliver to the holder the number of Reference Items that the holder is entitled to receive at that time pursuant to the terms of the Notes (or, if the Option Notes are cash settled, a cash amount equal to the value of the Reference Items), and (e) if pursuant to the terms of the Option Notes the holder is not obligated to purchase the Reference Items at maturity, the relevant Issuer will return the cash Deposit to the U.S. Holder at maturity. The discussion below assumes that an Option Note is so treated, except as explicitly provided.

Amounts paid to the relevant Issuer in respect of the original issue of the Option Notes will be treated as allocable in their entirety to the amount of the cash Deposit attributable to such Notes. A portion of the coupon on the Notes (which coupon may be denominated entirely as stated interest) will be characterised as interest payable on the amount of such Deposit, includible in the income of a U.S. Holder as interest in the manner described below. A portion of the coupon will be characterised as Put Premium, includible in the income of a U.S. Holder in the manner described below. There is no assurance that the IRS will agree with this treatment and alternative treatments of the Option Notes could result in less favourable U.S. federal income tax consequences to a holder, including a requirement to accrue income with respect to the Put Option on a current basis.

Interest Payments

Interest payments on the Deposit will generally be included in the income of a U.S. Holder as interest at the time that such interest is accrued or received in accordance with such U.S. Holder's method of accounting. If the Option Notes are issued at a discount or have a term of one year or less, U.S. Holders will be subject to the rules discussed above under "*U.S. Federal Income Tax Treatment of Notes Treated as Debt – Original Issue Discount*" with respect to interest or OID payable on the Deposit. Interest paid by the relevant Issuer and OID, if any, accrued with respect to Option Notes issued by a Non-U.S. Branch generally constitute income from sources outside the United States. Interest paid by SCB and OID, if any, accrued with respect to Option Notes issued by the U.S. Branch, generally constitute income from sources within the United States.

Payments of Put Premium

Payments of the Put Premium will not be included in the income of a U.S. Holder until sale or other taxable disposition of Option Notes or retirement of Option Notes for cash; if the Option Note is settled by delivery of Reference Items, the payments of Put Premium will instead be incorporated into the U.S. Holder's basis in such Reference Items. Upon the sale or other taxable disposition of Option Notes or at maturity, as the case may be, the Put Premium payment will be treated in the manner described below.

Retirement of an Option Note for Cash

If the Put Option is deemed not to have been exercised at maturity, the cash payment of the full principal amount of the Option Note at maturity would likely be treated as (i) payment in full of the principal amount of the Deposit (which would likely not result in the recognition of gain or loss to an initial purchaser) and (ii) the lapse of the Put Option, which would likely result in a U.S. Holder's recognition of short-term capital gain in an amount equal to the Put Premium paid to the holder.

If the Put Option is deemed to be exercised at maturity and is cash-settled, the payment at maturity would likely be treated as (i) payment in full of the principal amount of the Deposit (resulting in neither gain nor loss for an initial purchaser) and (ii) the exercise by the relevant Issuer of the Put Option. The exercise of the Put Option would result in short-term capital gain or loss to the U.S. Holder in an amount equal to the difference between (i) the sum of the cash received at maturity (other than amounts attributable to accrued but unpaid interest) and all previous payments of Put Premium and (ii) the

TAXATION OF SECURITIES

holder's adjusted basis in the Deposit, as determined under "*U.S. Federal Income Tax Treatment of Notes Treated as Debt – Purchase, Sale and Retirement of Notes*".

Other Retirement of an Option Note

Delivery at maturity of Reference Items would likely be treated as (i) payment in full of the Deposit (resulting in neither gain nor loss for an initial purchaser) and (ii) the exercise by the relevant Issuer of the Put Option and the U.S. Holder's purchase of the Reference Items for an amount equal to the principal amount of the Option Note. The U.S. Holder will have a tax basis in the Reference Items equal to the principal amount of the Option Notes less an amount equal to the aggregate amount of the Put Premium payments and less the portion of the tax basis of the Option Notes allocable to any fractional Reference Item, as described in the next sentence. A U.S. Holder will recognise gain or loss (which will be treated as short-term capital gain or loss) with respect to cash received in lieu of fractional Reference Items, in an amount equal to the difference between the cash received and the portion of the basis of the Option Notes allocable to fractional Reference Items (based on the relative value of fractional Reference Items and full Reference Items delivered to the U.S. Holder). A U.S. Holder's holding period in the Reference Items received will not include the U.S. Holder's holding period in the Option Notes.

Sale or Other Taxable Disposition of an Option Note Prior to Maturity

Upon the sale or other taxable disposition of an Option Note, a U.S. Holder should allocate the amount received between the Deposit and the Put Option on the basis of their respective values on the date of sale or other disposition. The U.S. Holder should generally recognise gain or loss with respect to the Deposit in an amount equal to the difference between the amount of the sales proceeds allocable to the Deposit and the U.S. Holder's adjusted tax basis in the Deposit (which will generally equal the issue price of the Option Note for an initial purchaser (as may be adjusted for any accrued OID on the Deposit)). Except to the extent attributable to accrued but unpaid interest, which will be taxed as such, this gain or loss will be long-term capital gain or loss if the U.S. Holder has held the Option Notes for more than one year. If the Put Option has a positive value on the date of a sale of the Option Note, the U.S. Holder should recognise short-term capital gain equal to the portion of the sale proceeds allocable to the Put Option plus any previously received Put Premium. If the put option has a negative value on the date of sale, the U.S. Holder should be treated as having paid the buyer an amount equal to the negative value in order to assume the U.S. Holder's rights and obligations under the Put Option. In such a case, the U.S. Holder should recognise short-term capital gain or loss in an amount equal to the difference between the total Put Premium previously received and the amount of the payment deemed made by the U.S. Holder with respect to the assumption of the Put Option.

Foreign Currency Option Notes

Option Notes denominated in, or determined by reference to, a foreign currency ("**Foreign Currency Option Notes**") will be subject to special rules. Interest and OID denominated in, or determined by reference to, a foreign currency will generally be subject to the rules described in "*U.S. Federal Income Tax Treatment of Notes Treated as Debt – Foreign Currency Option Notes*" above.

The treatment upon the sale, retirement or disposition of the Deposit, as described above, should also be governed by the rules described under "*U.S. Federal Income Tax Treatment of Notes Treated as Debt – Foreign Currency Option Notes*" above, regardless of whether the Option Note is cash settled. A U.S. Holder will have a tax basis in any Reference Items received in an amount equal to the excess of the purchase price of the Option Note, translated into U.S. dollars at the exchange rate in effect on the date of retirement, over the total premium payments received, with each premium likely translated into U.S. dollars at the exchange rate in effect on the date that it is received. U.S. Holders should consult their tax advisers about the proper method for translating foreign currency with respect to an Option Note into U.S. dollars.

Possible Alternative Characterisations

Due to the absence of authority as to the proper characterisation of the Option Notes, no assurance can be given that the IRS will accept, or that a court will uphold, the characterisation and tax treatment described above. It is possible, for example, that the IRS could maintain that amounts denominated as

Put Premium (i) should be includible in the U.S. Holder's income as interest in the manner described above regarding the interest payment, or (ii) should be included in a U.S. Holder's income even in a case where the Option Notes are retired for Reference Items. Such treatment might arise, for example, if the IRS were successfully to maintain that amounts denominated as Put Premium (i) should be characterised for federal income tax purposes as interest, or (ii) should be treated as a return on the U.S. Holder's investment in the Option Notes that constitutes income. Alternatively, the IRS could maintain that the Option Notes should be treated as contingent payment debt obligations, in which case the U.S. Holder would be treated as owning Contingent Notes (or Foreign Currency Contingent Notes), subject to the treatment discussed above under "*U.S. Federal Income Tax Treatment of Notes Treated as Debt*".

Backup Withholding and Information Reporting

In general, payments of interest and accruals of OID on, and the proceeds of a sale, redemption or other disposition of, the Notes payable to a U.S. Holder by a U.S. paying agent or other U.S. intermediary will be reported to the IRS and to the U.S. Holder as may be required under applicable regulations. Backup withholding will apply to these payments, including payments of OID, if the U.S. Holder fails to provide an accurate taxpayer identification number or certification of exempt status or fails to report all interest and dividends required to be shown on its U.S. federal income tax returns. Certain U.S. Holders are not subject to backup withholding. U.S. Holders should consult their tax advisers as to their qualification for exemption from backup withholding and the procedure for obtaining an exemption.

Reportable Transactions

A U.S. taxpayer that participates in a "reportable transaction" will be required to disclose its participation to the IRS. Under the relevant rules, if the Notes are denominated in a foreign currency, a U.S. Holder may be required to treat a foreign currency exchange loss from the Notes as a reportable transaction if this loss exceeds the relevant threshold in the regulations and to disclose its investment by filing Form 8886 with the IRS. Penalties may be imposed on any taxpayer that fails to timely file an information return with the IRS with respect to a transaction resulting in a loss that is treated as a reportable transaction. Prospective purchasers are urged to consult their tax advisers regarding the application of these rules.

Foreign Financial Asset Reporting

Certain U.S. Holders may be required to report to the IRS certain information with respect to their beneficial ownership of certain foreign financial assets, such as the Notes, if the aggregate value of such assets exceeds certain U.S. dollar value thresholds. U.S. Holders who fail to report required information could be subject to substantial penalties.

Part B – Non-U.S. Holders

For purposes of this discussion, a "**Non-U.S. Holder**" means a beneficial owner of the Notes that is not a U.S. Holder.

U.S. Federal Income Tax Treatment of Notes Treated as Debt

This section describes certain generally applicable U.S. federal income tax consequences to Non-U.S. Holders in respect of Notes that are treated as debt for U.S. federal income tax purposes. Certain exceptions to these general rules are discussed below under "*Hiring Incentives to Restore Employment Act*" and "*Foreign Account Tax Compliance Act*", and therefore this discussion is subject to, and should be read in conjunction with, the discussion contained in those sections.

Interest payments on a Note issued by the U.S. Branch should not be subject to U.S. federal withholding tax, provided that (1) the Non-U.S. Holder does not actually or constructively own 10 per cent. or more of the total combined voting power of all classes of stock of the Issuer entitled to vote, (2) the Non-U.S. Holder is not (i) a controlled foreign corporation for U.S. federal income tax purposes that is related to the Issuer through stock ownership or (ii) a bank extending credit pursuant to a loan agreement entered

TAXATION OF SECURITIES

into in the ordinary course of its trade or business, (3) such interest is not contingent on the Issuer's profits, revenues or changes in the value of its property and is not otherwise excluded from the definition of "portfolio interest" by Section 871(h)(4) of the Code, (4) the Non-U.S. Holder certifies that it is not a United States person on a properly completed IRS Form W-8BEN, W-8BEN-E or other such applicable form, and (5) the Non-U.S. Holder provides any required information with respect to its direct and indirect U.S. owners as required pursuant to Sections 1471 through 1474 of the Code ("**FATCA**") or, if the Notes are held through, or such holder is, a "foreign financial institution" (as defined under FATCA), such foreign financial institution complies with its obligations under FATCA (either pursuant to an agreement with the U.S. government or in accordance with local law) or is otherwise exempt from FATCA.

Interest payments on a Note issued by a Non-U.S. Branch generally will not be subject to U.S. federal withholding tax. Gain realised by a Non-U.S. Holder on the taxable disposition of a Note generally will not be subject to U.S. federal withholding or income tax, provided that: (i) that payment and/or gain is not effectively connected with the conduct by that Non-U.S. Holder of a trade or business in the U.S.; (ii) in the case of any gain realized on the sale or exchange of a Note by an individual Non-U.S. Holder, that holder is not present in the U.S. for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met; and (iii) the Non-U.S. Holder is not subject to tax pursuant to provisions of the Code applicable to certain expatriates.

U.S. Federal Income Tax Treatment of Certain Notes Not Treated as Debt

This section describes certain generally applicable U.S. federal income tax consequences to Non-U.S. Holders in respect of Notes treated as a financial instrument other than debt for U.S. federal income tax purposes. Certain exceptions to these general rules are discussed below under "*Hiring Incentives to Restore Employment Act*" and "*Foreign Account Tax Compliance Act*", and therefore this discussion is subject to, and should be read in conjunction with, the discussions contained in those sections. Prospective purchasers should note that the Issuer will not be required to pay any additional amounts with respect to U.S. federal income taxes, if any, withheld, whether by the Issuer or by another withholding agent, with respect to Notes not treated as debt for U.S. federal income tax purposes.

Notes Issued by a Non-U.S. Branch

A Non-U.S. Holder generally will not be subject to U.S. federal withholding or income tax in respect of payments on and gain from the taxable disposition of non-debt Notes issued by a Non-U.S. Branch, provided that: (i) that payment and/or gain is not effectively connected with the conduct by that Non-U.S. Holder of a trade or business in the U.S.; (ii) in the case of any gain realized on the sale or exchange of a Note by an individual Non-U.S. Holder, that holder is not present in the U.S. for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met; and (iii) the Non-U.S. Holder is not subject to tax pursuant to provisions of the Code applicable to certain expatriates.

Notes Issued by the U.S. Branch

Forward Notes

Generally, subject to the discussion in the next paragraph, a Non-U.S. Holder should not be subject to U.S. federal withholding or income tax in respect of the taxable disposition of a Forward Note, not providing for any payments prior to maturity or early redemption, that is treated for U.S. federal income tax purposes as a prepaid forward contract, provided that: (i) that payment and/or gain is not effectively connected with the conduct by that Non-U.S. Holder of a trade or business in the U.S.; (ii) in the case of any gain realized on the sale or exchange of a Note by an individual Non-U.S. Holder, that holder is not present in the U.S. for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met; and (iii) the Non-U.S. Holder is not subject to tax pursuant to provisions of the Code applicable to certain expatriates.

In some cases, a Forward Note issued by the U.S. Branch may provide for amounts that are fixed or accrue prior to maturity but are paid at maturity. In that event, such amounts paid to a Non-U.S. Holder might be subject to withholding tax at a rate of 30 per cent. (which may be reduced under an applicable

income tax treaty). Even if the Issuer or an applicable withholding agent generally treats such amounts as eligible for an exemption from withholding, in light of the uncertain treatment of such amounts the Issuer or an applicable withholding agent might require a Non-U.S. Holder to provide a statement signed under penalties of perjury that certifies that it is a non-United States person in compliance with applicable requirements (generally, an appropriate IRS Form W-8) or to satisfy certain documentary evidence requirements for establishing that it is a non-United States person. Further, amounts paid in respect of Forward Notes that are treated as a "dividend equivalent" payment under Section 871(m) of the Code (see "*Hiring Incentives to Restore Employment Act*" below) may be subject to withholding under FATCA if a Non-U.S. Holder fails to certify that it is eligible to receive payments free from FATCA withholding. Prospective purchasers should consult their tax advisers regarding the treatment of such payments.

Option Notes

A Non-U.S. Holder generally should not be subject to U.S. federal withholding or income tax in respect of amounts paid on an Option Note treated as a Put Option and Deposit issued by the U.S. Branch, provided that the requirements in the second paragraph under "*Taxation of Securities—United States Taxation—Taxation of Notes—Part B – Non-U.S. Holders—U.S. Federal Income Tax Treatment of Notes Treated as Debt*" are met. While the Issuer currently does not intend to withhold on payments to Non-U.S. Holders on Option Notes treated as Put Options and Deposits (assuming these requirements are met), in light of the uncertain treatment of the Notes, other persons having withholding responsibility in respect of the Notes may treat some or all of each periodic payment on a Note as subject to withholding tax at a rate of 30 per cent. (which may be reduced under an applicable income tax treaty). Moreover, it is possible that in the future the Issuer may determine that it should so withhold at a rate of 30 per cent., subject to reduction under an applicable income tax treaty, on periodic payments on the Notes. A Non-U.S. Holder generally should not be subject to U.S. federal withholding or income tax with respect to the taxable disposition of an Option Note treated as a Put Option and Deposit (other than with respect to amounts attributable to an accrued periodic payment, which are discussed above).

Hiring Incentives to Restore Employment Act

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the Code which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). The final U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the "**Section 871(m) Regulations**") require withholding on certain non-U.S. holders of the Notes with respect to amounts treated as attributable to dividends from certain U.S. securities. Under the Section 871(m) Regulations, only a Note that has an expected economic return sufficiently similar to that of the underlying U.S. security based on tests set forth in the Section 871(m) Regulations will be subject to the Section 871(m) withholding regime (making such Note a "**Specified Note**"). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Note or upon the date of maturity, lapse or other disposition by the non-U.S. holder of the Specified Note. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Note, withholding generally will still be required even if the Specified Note does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Notes in respect of any dividend equivalent arising with respect to such Notes regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A holder may be able to claim a refund of

TAXATION OF SECURITIES

any excess withholding provided the required information is timely furnished to the IRS. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If an Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Notes issued on or after 1 January, 2017. If the terms of a Note are subject to a "significant modification" (as defined for U.S. tax purposes), the Note generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Note is a Specified Note. Similarly, if additional Notes of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Notes out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Notes are Specified Notes as the date of such subsequent sale or issuance. Consequently, a previously out of scope Note might be treated as a Specified Note following such modification or further issuance.

In addition, with respect to Notes that provide for net dividend reinvestment in respect of either an underlying U.S. security or an index that includes U.S. securities, all payments on the Notes that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Issue Terms will indicate whether the Issuer has determined that Notes are Specified Notes and may specify contact details for obtaining additional information regarding the application of Section 871(m) to Notes. If Notes are Specified Notes, a non-U.S. holder of the Notes should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Notes. The Issuer's determination is binding on non-U.S. holders of the Notes, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Notes linked to U.S. securities and their application to a specific issue of Notes may be uncertain.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Notes.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code ("**FATCA**") impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or "**FFI**" (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the IRS to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Issuer (a "**Recalcitrant Holder**"). The Issuers (and any branches thereof located outside the United States) are classified as FFIs.

The new withholding regime is now in effect for payments from sources within the United States and will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than the date that is two years after the date on which final regulations defining foreign passthru payments are published in the Federal Register. This withholding would potentially apply to payments in respect of (i) any Notes issued by a Non-U.S. Branch ("**Non-U.S. Notes**") characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which (A) with respect to Non-U.S. Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register and (B) with respect to Non-U.S. Notes that give rise to a dividend equivalent pursuant to Section 871(m) of the Code, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents, or (in each case) which are materially modified after the grandfathering date and (ii) any Non-U.S. Notes

characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Non-U.S. Notes are issued on or before the grandfathering date, and additional Notes of the same series are issued on or after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an "IGA"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "Reporting FI" not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being "FATCA Withholding") from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States has entered into agreements with Singapore (the "US Singapore IGA") and the United Kingdom (the "US-UK IGA") based largely on the Model 1 IGA. The United States and Hong Kong have entered into an agreement (the "US-Hong Kong IGA") based largely on the Model 2 IGA.

If the Issuers are treated as Reporting FIs pursuant to the US-Singapore IGA, US-UK IGA and US-Hong Kong IGA, as applicable, they do not anticipate that they will be obliged to deduct any FATCA Withholding on payments they make on the Non-U.S. Notes. There can be no assurance, however, that the Issuers will be treated as Reporting FIs, or that they would in the future not be required to deduct FATCA Withholding from payments they make on the Non-U.S. Notes. Accordingly, the Issuers and financial institutions through which payments on the Non-U.S. Notes are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Non-U.S. Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

Whilst the Non-U.S. Notes are held within the ICSDs, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Non-U.S. Notes by the Issuers, any paying agent and the common depositary given that each of the entities in the payment chain between the Issuers and the participants in the ICSDs is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Non-U.S. Notes. The documentation expressly contemplates the possibility that the Non-U.S. Notes may go into definitive form and therefore that they may be taken out of the ICSDs. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive Non-U.S. Notes will only be printed in remote circumstances.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the relevant Issuer and to payments they may receive in connection with the Notes.

Taxation of Certificates

The following is a summary of certain material U.S. federal income tax consequences of the acquisition, ownership and disposition of Certificates by: in the case of Part A, a U.S. Holder (as defined below) and in the case of Part B, a Non-U.S. Holder (as defined below). This summary does not address the material U.S. federal income tax consequences of every type of Certificate which may be issued under the Programme, and, if not contained herein, additional or modified disclosure concerning the material U.S. federal income tax consequences relevant to such type of Certificate as appropriate may be set out in a supplement to this Base Prospectus, any other relevant offering document or the applicable Pricing Supplement. This summary deals only with purchasers of Certificates that will hold the Certificates as capital assets. The discussion does not cover all aspects of U.S. federal income taxation that may be relevant to, or the actual tax effect that any of the matters described herein will have on, the acquisition, ownership or disposition of Certificates by particular investors, and does not address state, local, foreign or other tax laws, Medicare contribution tax on net investment income considerations, special tax accounting rules that apply to accrual basis taxpayers under Section 451(b) of the Internal Revenue Code of 1986, as amended (the "Code") or alternative minimum tax

TAXATION OF SECURITIES

considerations. This summary also does not discuss all of the tax considerations that may be relevant to certain types of investors subject to special treatment under the U.S. federal income tax laws (such as financial institutions, insurance companies, individual retirement accounts and other tax deferred accounts, tax exempt organisations, dealers in securities or currencies, investors that will hold the Certificates as part of straddles, hedging transactions or conversion transactions for U.S. federal income tax purposes or U.S. Holders whose functional currency is not the U.S. dollar). Moreover, the summary deals only with Certificates with a term of 30 years or less. The U.S. federal income tax consequences of owning Certificates with a longer term may be discussed in a supplement to this Base Prospectus, any other relevant offering document or the applicable Pricing Supplement.

As used herein, the term "**U.S. Holder**" means a beneficial owner of Certificates that is, for U.S. federal income tax purposes, (i) an individual citizen or resident of the United States, (ii) a corporation created or organised under the laws of the United States or any State thereof, (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source or (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or the trust has elected to be treated as a domestic trust for U.S. federal income tax purposes.

The U.S. federal income tax treatment of a partner in a partnership that holds Certificates will depend on the status of the partner and the activities of the partnership. Prospective purchasers that are partnerships should consult their tax adviser concerning the U.S. federal income tax consequences to their partners of the acquisition, ownership and disposition of Certificates by the partnership.

The summary is based on the tax laws of the United States including the Code, its legislative history, existing and proposed regulations thereunder, published rulings and court decisions, all as of the date hereof and all subject to change at any time, possibly with retroactive effect.

THE SUMMARY OF U.S. FEDERAL INCOME TAX CONSEQUENCES SET OUT BELOW IS FOR GENERAL INFORMATION ONLY. PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR TAX ADVISERS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF OWNING THE CERTIFICATES, INCLUDING THE APPLICABILITY AND EFFECT OF STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND POSSIBLE CHANGES IN TAX LAW.

Part A – U.S. Holders

U.S. Federal Income Tax Characterisation of the Certificates

The characterisation of a Series or Tranche of Certificates may be uncertain and will depend on the terms of those Certificates. The determination of whether an obligation represents debt, equity, or some other instrument or interest is based on all the relevant facts and circumstances. There may be no statutory, judicial or administrative authority directly addressing the characterisation of some of the types of Certificates that are anticipated to be issued under the Programme or of instruments similar to such Certificates.

Depending on the terms of a particular Series or Tranche of Certificates, such Certificates may not be characterised as debt for U.S. federal income tax purposes despite the form of the Certificates as debt instruments. For example, Certificates of a Series or Tranche may be more properly characterised as collateralised put options, prepaid forward contracts or some other type of financial instrument. Additional alternative characterisations may also be possible. Further possible characterisations, if applicable, may be discussed in a supplement to this Base Prospectus, any other relevant offering document or the applicable Pricing Supplement.

No rulings will be sought from the United States Internal Revenue Service ("**IRS**") regarding the characterisation of any of the Certificates issued hereunder for U.S. federal income tax purposes. Each holder should consult its own tax adviser about the proper characterisation of the Certificates for U.S. federal income tax purposes and consequences to such holder of acquiring, owning or disposing of the Certificates.

U.S. Federal Income Tax Treatment of Certificates Treated as Debt

The following summary applies to Certificates that are properly treated as debt for U.S. federal income tax purposes.

Payments of Interest

General

Interest on a Certificate, whether payable in U.S. dollars or a currency, composite currency or basket of currencies other than U.S. dollars (a "**foreign currency**"), other than interest on a "Discount Certificate" that is not "qualified stated interest" (each as defined below under "*Original Issue Discount — General*"), will be taxable to a U.S. Holder as ordinary income at the time it is received or accrued, depending on the holder's method of accounting for tax purposes. Interest paid by the relevant Issuer on the Certificates and OID, if any, accrued with respect to the Certificates (as described below under "*Original Issue Discount*") generally will constitute income from sources outside the United States. Prospective purchasers should consult their tax advisers concerning the applicability of the foreign tax credit and source of income rules to income attributable to the Certificates.

Effect of United Kingdom and Singapore Withholding Taxes

As discussed in "*United Kingdom Taxation*" and "*Singapore Taxation*", under current law payments of interest in respect of the Certificates may be subject to U.K. or Singapore withholding taxes. For U.S. federal income tax purposes, U.S. Holders would be treated as having actually received the amount of U.K. or Singapore taxes withheld by the relevant Issuer with respect to a Certificate, and as then having actually paid over the withheld taxes to the U.K. or Singapore taxing authorities. As a result of this rule, the amount of interest income included in gross income for U.S. federal income tax purposes by a U.S. Holder with respect to a payment of interest may be greater than the amount of cash actually received (or receivable) by the U.S. Holder from the relevant Issuer with respect to the payment.

Subject to certain limitations, a U.S. Holder will generally be entitled to a credit against its U.S. federal income tax liability, or a deduction in computing its U.S. federal taxable income, for U.K. or Singapore taxes withheld by the relevant Issuer. For purposes of the foreign tax credit limitation, foreign source income is classified in one of two "baskets", and the credit for foreign taxes on income in any basket is limited to U.S. federal income tax allocable to that income. Interest and OID (defined below) generally will constitute foreign source income in the "passive income" basket. In certain circumstances a U.S. Holder may be unable to claim foreign tax credits (and may instead be allowed deductions) for U.K. or Singapore taxes imposed on a payment of interest if the U.S. Holder has not held the Certificates for at least 16 days during the 31-day period beginning on the date that is 15 days before the date on which the right to receive the payment arises. Since a U.S. Holder may be required to include OID on the Certificates in its gross income in advance of any withholding of U.K. taxes from payments attributable to the OID (which would generally occur when the Certificate is repaid or redeemed), a U.S. Holder may not be entitled to a credit or deduction for these U.K. taxes in the year the OID is included in the U.S. Holder's gross income, and may be limited in its ability to credit or deduct in full the U.K. or Singapore taxes in the year those taxes are actually withheld by the Issuer. Prospective purchasers should consult their tax advisers concerning the foreign tax credit implications of the payment of these U.K. or Singapore taxes.

Original Issue Discount

General

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Certificates issued with original issue discount ("**OID**").

A Certificate, other than a Certificate with a term of one year or less (a "**Short-Term Certificate**"), will be treated as issued with OID (a "**Discount Certificate**") if the excess of the Certificate's "stated redemption price at maturity" over its issue price is equal to or more than a de minimis amount (0.25 per cent. of the Certificate's stated redemption price at maturity multiplied by the number of complete

TAXATION OF SECURITIES

years to its maturity). An obligation that provides for the payment of amounts other than qualified stated interest before maturity (an "**instalment obligation**") will be treated as a Discount Certificate if the excess of the Certificate's stated redemption price at maturity over its issue price is equal to or greater than 0.25 per cent. of the Certificate's stated redemption price at maturity multiplied by the weighted average maturity of the Certificate. A Certificate's weighted average maturity is the sum of the following amounts determined for each payment on a Certificate (other than a payment of qualified stated interest): (i) the number of complete years from the issue date until the payment is made multiplied by (ii) a fraction, the numerator of which is the amount of the payment and the denominator of which is the Certificate's stated redemption price at maturity. Generally, the issue price of a Certificate will be the first price at which a substantial amount of Certificates included in the issue of which the Certificate is a part is sold to persons other than bond houses, brokers, or similar persons or organisations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a Certificate is the total of all payments provided by the Certificate that are not payments of "qualified stated interest". A qualified stated interest payment is generally any one of a series of stated interest payments on a Certificate that are unconditionally payable at least annually at a single fixed rate (with certain exceptions for lower rates paid during some periods), or a variable rate (in the circumstances described below under "Variable Interest Rate Certificates"), applied to the outstanding principal amount of the Certificate. Solely for the purposes of determining whether a Certificate has OID, the relevant Issuer will be deemed to exercise any call option that has the effect of decreasing the yield on the Certificate and the U.S. Holder will be deemed to exercise any "Variable Interest Rate Certificates" put option that has the effect of increasing the yield on the Certificate.

U.S. Holders of Discount Certificates must include OID in income calculated on a constant-yield method before the receipt of cash attributable to the income, and generally will have to include in income increasingly greater amounts of OID over the life of the Discount Certificates. The amount of OID includible in income by a U.S. Holder of a Discount Certificate is the sum of the daily portions of OID with respect to the Discount Certificate for each day during the taxable year or portion of the taxable year on which the U.S. Holder holds the Discount Certificate ("**accrued OID**"). The daily portion is determined by allocating to each day in any "accrual period" a pro rata portion of the OID allocable to that accrual period. Accrual periods with respect to a Certificate may be of any length selected by the U.S. Holder and may vary in length over the term of the Certificate as long as (i) no accrual period is longer than one year and (ii) each scheduled payment of interest or principal on the Certificate occurs on either the final or first day of an accrual period. The amount of OID allocable to an accrual period equals the excess of (a) the product of the Discount Certificate's adjusted issue price at the beginning of the accrual period and the Discount Certificate's yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the Certificate allocable to the accrual period. The "adjusted issue price" of a Discount Certificate at the beginning of any accrual period is the issue price of the Certificate increased by (x) the amount of accrued OID for each prior accrual period and decreased by (y) the amount of any payments previously made on the Certificate that were not qualified stated interest payments.

Acquisition Premium

A U.S. Holder that purchases a Discount Certificate for an amount less than or equal to the sum of all amounts payable on the Certificate after the purchase date, other than payments of qualified stated interest, but in excess of its adjusted issue price (any such excess being "**acquisition premium**") and that does not make the election described below under "*Election to Treat All Interest as Original Issue Discount*", is permitted to reduce the daily portions of OID by a fraction, the numerator of which is the excess of the U.S. Holder's adjusted basis in the Certificate immediately after its purchase over the Certificate's adjusted issue price and the denominator of which is the excess of the sum of all amounts payable on the Certificate after the purchase date, other than payments of qualified stated interest, over the Certificate's adjusted issue price.

Short-Term Certificates

In general, an individual or other cash basis U.S. Holder of a Short-Term Certificate is not required to accrue OID (as specially defined below for the purposes of this paragraph) for U.S. federal income tax purposes unless it elects to do so (but may be required to include any stated interest in income as the interest is received). Accrual basis U.S. Holders and certain other U.S. Holders are required to accrue

OID on Short-Term Certificates on a straight-line basis or, if the U.S. Holder so elects, under the constant-yield method (based on daily compounding). In the case of a U.S. Holder not required and not electing to include OID in income currently, any gain realised on the sale or retirement of the Short-Term Certificate will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant-yield method) through the date of sale or retirement. U.S. Holders who are not required and do not elect to accrue OID on Short-Term Certificates will be required to defer deductions for interest on borrowings allocable to Short-Term Certificates in an amount not exceeding the deferred income until the deferred income is realised.

For purposes of determining the amount of OID subject to these rules, all interest payments on a Short-Term Certificate are included in the Short-Term Certificate's stated redemption price at maturity. A U.S. Holder may elect to determine OID on a Short-Term Certificate as if the Short-Term Certificate had been originally issued to the U.S. Holder at the U.S. Holder's purchase price for the Short-Term Certificate. This election will apply to all obligations with a maturity of one year or less acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies and may not be revoked without the consent of the IRS.

Fungible Issue

The relevant Issuer may, without the consent of the holders of outstanding Certificates, issue additional Certificates with identical terms. These additional Certificates, even if they are treated for non-tax purposes as part of the same series as the original Certificates, in some cases may be treated as a separate series for U.S. federal income tax purposes. In such a case, the additional Certificates may be considered to have been issued with OID even if the original Certificates had no OID, or the additional Certificates may have a greater amount of OID than the original Certificates. These differences may affect the market value of the original Certificates if the additional Certificates are not otherwise distinguishable from the original Certificates.

Market Discount

A Certificate, other than a Short-Term Certificate, generally will be treated as purchased at a market discount (a "**Market Discount Certificate**") if the Certificate's stated redemption price at maturity or, in the case of a Discount Certificate, the Certificate's "adjusted issue price", exceeds the amount for which the U.S. Holder purchased the Certificate by at least 0.25 per cent. of the Certificate's stated redemption price at maturity or adjusted issue price, respectively, multiplied by the number of complete years to the Certificate's maturity (or, in the case of a Certificate that is an instalment obligation, the Certificate's weighted average maturity). If this excess is not sufficient to cause the Certificate to be a Market Discount Certificate, then the excess constitutes "de minimis market discount". For this purpose, the "adjusted issue price" of a Certificate generally equals its issue price, increased by the amount of any OID that has accrued on the Certificate and decreased by the amount of any payments previously made on the Certificate that were not qualified stated interest payments.

Under current law, any gain recognised on the maturity or disposition of a Market Discount Certificate (including any payment on a Certificate that is not qualified stated interest) will be treated as ordinary income to the extent that the gain does not exceed the accrued market discount on the Certificate. Alternatively, a U.S. Holder of a Market Discount Certificate may elect to include market discount in income currently over the life of the Certificate. This election will apply to all debt instruments with market discount acquired by the electing U.S. Holder on or after the first day of the first taxable year to which the election applies. This election may not be revoked without the consent of the IRS. A U.S. Holder of a Market Discount Certificate that does not elect to include market discount in income currently will generally be required to defer deductions for interest on borrowings incurred to purchase or carry a Market Discount Certificate that is in excess of the interest and OID on the Certificate includible in the U.S. Holder's income, to the extent that this excess interest expense does not exceed the portion of the market discount allocable to the days on which the Market Discount Certificate was held by the U.S. Holder.

Under current law, market discount will accrue on a straight-line basis unless the U.S. Holder elects to accrue the market discount on a constant-yield method. This election applies only to the Market Discount Certificate with respect to which it is made and is irrevocable.

Variable Interest Rate Certificates

Certificates that provide for interest at variable rates ("**Variable Interest Rate Certificates**") generally will bear interest at a "qualified floating rate" and thus will be treated as "variable rate debt instruments" under Treasury regulations governing accrual of OID. A Variable Interest Rate Certificate will qualify as a "variable rate debt instrument" if (a) its issue price does not exceed the total noncontingent principal payments due under the Variable Interest Rate Certificate by more than a specified de minimis amount, (b) it provides for stated interest, paid or compounded at least annually, at (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate and (c) it does not provide for any principal payments that are contingent (other than as described in (a) above).

A "**qualified floating rate**" is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Interest Rate Certificate is denominated. A fixed multiple of a qualified floating rate will constitute a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Variable Interest Rate Certificate (e.g., two or more qualified floating rates with values within 25 basis points of each other as determined on the Variable Interest Rate Certificate's issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate.

An "**objective rate**" is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). A rate will not qualify as an objective rate if it is based on information that is within the control of the relevant Issuer (or a related party) or that is unique to the circumstances of the relevant Issuer (or a related party), such as dividends, profits or the value of the relevant Issuer's stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the relevant Issuer). Other variable interest rates may be treated as objective rates if so designated by the IRS in the future. Despite the foregoing, a variable rate of interest on a Variable Interest Rate Certificate will not constitute an objective rate if it is reasonably expected that the average value of the rate during the first half of the Variable Interest Rate Certificate's term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Variable Interest Rate Certificate's term. A "**qualified inverse floating rate**" is any objective rate where the rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate. If a Variable Interest Rate Certificate provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period and if the variable rate on the Variable Interest Rate Certificate's issue date is intended to approximate the fixed rate (e.g., the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a "current value" of that rate. A "**current value**" of a rate is the value of the rate on any day that is no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day.

If a Variable Interest Rate Certificate that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof qualifies as a "variable rate debt instrument", then any stated interest on the Certificate which is unconditionally payable in cash or property (other than debt instruments of the relevant Issuer) at least annually will constitute qualified stated interest and will be taxed accordingly. Thus, a Variable Interest Rate Certificate that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that

qualifies as a "variable rate debt instrument" will generally not be treated as having been issued with OID unless the Variable Interest Rate Certificate is issued at a "true" discount (i.e., at a price below the Certificate's stated principal amount) in excess of a specified de minimis amount. OID on a Variable Interest Rate Certificate arising from "true" discount is allocated to an accrual period using the constant yield method described above by assuming that the variable rate is a fixed rate equal to (i) in the case of a qualified floating rate or qualified inverse floating rate, the value, as of the issue date, of the qualified floating rate or qualified inverse floating rate or (ii) in the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Certificate.

In general, any other Variable Interest Rate Certificate that qualifies as a "variable rate debt instrument" will be converted into an "equivalent" fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Certificate. Such a Variable Interest Rate Certificate must be converted into an "equivalent" fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Certificate with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Interest Rate Certificate's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Certificate is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Certificate. In the case of a Variable Interest Rate Certificate that qualifies as a "variable rate debt instrument" and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate Certificate provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Interest Rate Certificate as of the Variable Interest Rate Certificate's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Certificate is converted into an "equivalent" fixed rate debt instrument in the manner described above.

Once the Variable Interest Rate Certificate is converted into an "equivalent" fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined for the "equivalent" fixed rate debt instrument by applying the general OID rules to the "equivalent" fixed rate debt instrument and a U.S. Holder of the Variable Interest Rate Certificate will account for the OID and qualified stated interest as if the U.S. Holder held the "equivalent" fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the "equivalent" fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Certificate during the accrual period.

If a Variable Interest Rate Certificate, such as a Certificate the payments on which are determined by reference to an index, does not qualify as a "variable rate debt instrument", then the Variable Interest Rate Certificate will be treated as a contingent payment debt obligation. See "[Contingent Payment Debt Instruments](#)" below for a discussion of the U.S. federal income tax treatment of such Certificates.

Certificates Purchased at a Premium

A U.S. Holder that purchases a Certificate for an amount in excess of its principal amount, or for a Discount Certificate, its stated redemption price at maturity, may elect to treat the excess as "**amortisable bond premium**", in which case the amount required to be included in the U.S. Holder's income each year with respect to interest on the Certificate will be reduced by the amount of amortisable bond premium allocable (based on the Certificate's yield to maturity) to that year. Any election to amortise bond premium will apply to all bonds (other than bonds the interest on which is excludable from gross income for U.S. federal income tax purposes) held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and is

TAXATION OF SECURITIES

irrevocable without the consent of the IRS. See also "*Original Issue Discount — Election to Treat All Interest as Original Issue Discount*".

Election to Treat All Interest as Original Issue Discount

A U.S. Holder may elect to include in gross income all interest that accrues on a Certificate using the constant-yield method described above under "*Original Issue Discount — General*" with certain modifications. For purposes of this election, interest includes stated interest, OID, de minimis OID, market discount, de minimis market discount and unstated interest, as adjusted by any amortisable bond premium (described above under "*Certificates Purchased at a Premium*") or acquisition premium. This election will generally apply only to the Certificate with respect to which it is made and may not be revoked without the consent of the IRS. If the election to apply the constant-yield method to all interest on a Certificate is made with respect to a Market Discount Certificate, the electing U.S. Holder will be treated as having made the election discussed above under "*Market Discount*" to include market discount in income currently over the life of all debt instruments with market discount held or thereafter acquired by the U.S. Holder. U.S. Holders should consult their tax advisers concerning the propriety and consequences of this election.

Contingent Payment Debt Instruments

Certain Series or Tranches of Certificates may be treated as "contingent payment debt instruments" for U.S. federal income tax purposes ("**Contingent Certificates**"). Under applicable U.S. Treasury regulations, interest on Contingent Certificates will be treated as OID, and must be accrued on a constant-yield basis based on a yield to maturity that reflects the rate at which the relevant Issuer would issue a comparable fixed-rate non-exchangeable instrument (the "**comparable yield**"), in accordance with a projected payment schedule. This projected payment schedule must include each non-contingent payment on the Contingent Certificates and an estimated amount for each contingent payment, and must produce the comparable yield.

The relevant Issuer is required to provide to holders, solely for U.S. federal income tax purposes, a schedule of the projected amounts of payments on Contingent Certificates. This schedule must produce the comparable yield. The comparable yield and projected payment schedule will be available from the relevant Issuer by submitting a written request for such information to: Manager, Transaction Management Group, 7th Floor, Standard Chartered Bank Building, 4-4A Des Voeux Road Central, Hong Kong.

THE COMPARABLE YIELD AND PROJECTED PAYMENT SCHEDULE WILL NOT BE DETERMINED FOR ANY PURPOSE OTHER THAN FOR THE DETERMINATION OF INTEREST ACCRUALS AND ADJUSTMENTS THEREOF IN RESPECT OF CONTINGENT CERTIFICATES FOR UNITED STATES FEDERAL INCOME TAX PURPOSES AND WILL NOT CONSTITUTE A PROJECTION OR REPRESENTATION REGARDING THE ACTUAL AMOUNTS PAYABLE TO THE HOLDERS OF THE CERTIFICATES.

The use of the comparable yield and the calculation of the projected payment schedule will be based upon a number of assumptions and estimates and will not be a prediction, representation or guarantee of the actual amounts of interest that may be paid to a U.S. Holder or the actual yield of the Contingent Certificates. A U.S. Holder will generally be bound by the comparable yield and the projected payment schedule determined by the relevant Issuer, unless the U.S. Holder determines its own comparable yield and projected payment schedule and explicitly discloses such schedule to the IRS, and explains to the IRS the reason for preparing its own schedule. The relevant Issuer's determination, however, is not binding on the IRS and it is possible that the IRS could conclude that some other comparable yield or projected payment schedule should be used instead.

A U.S. Holder of a Contingent Certificate will generally be required to include OID in income pursuant to the rules discussed in the third paragraph under "*Original Issue Discount— General*", above, applied to the projected payment schedule. The "**adjusted issue price**" of a Contingent Certificate at the beginning of any accrual period is the issue price of the Certificate increased by the amount of accrued OID for each prior accrual period, and decreased by the projected amount of any payments on the Certificate. No additional income will be recognised upon the receipt of payments of stated interest in amounts equal to the annual payments included in the projected payment schedule described above.

Any differences between actual payments received by the U.S. Holder on the Certificates in a taxable year and the projected amount of those payments will be accounted for as additional interest (in the case of a positive adjustment) or as an offset to interest income in respect of the Certificate (in the case of a negative adjustment) for the taxable year in which the actual payment is made. If the negative adjustment for any taxable year exceeds the amount of OID on the Contingent Certificate for that year, the excess will be treated as an ordinary loss, but only to the extent the U.S. Holder's total OID inclusions on the Contingent Certificate exceed the total amount of any ordinary loss in respect of the Contingent Certificate claimed by the U.S. Holder under this rule in prior taxable years. Any negative adjustment that is not allowed as an ordinary loss for the taxable year is carried forward to the next taxable year and is taken into account in determining whether the U.S. Holder has a net positive or negative adjustment for that year. However, any negative adjustment that is carried forward to a taxable year in which the Contingent Certificate is sold, exchanged or retired, to the extent not applied to OID accrued for such year, reduces the U.S. Holder's amount realised on the sale, exchange or retirement.

Purchase, Sale and Retirement of Certificates

Certificates other than Contingent Certificates

A U.S. Holder's tax basis in a Certificate will generally be its cost, increased by the amount of any OID or market discount included in the U.S. Holder's income with respect to the Certificate and the amount, if any, of income attributable to de minimis OID and de minimis market discount included in the U.S. Holder's income with respect to the Certificate, and reduced by (i) the amount of any payments that are not qualified stated interest payments and (ii) the amount of any amortisable bond premium applied to reduce interest on the Certificate.

A U.S. Holder will generally recognise gain or loss on the sale or retirement of a Certificate equal to the difference between the amount realised on the sale or retirement and the tax basis of the Certificate. The amount realised does not include the amount attributable to accrued but unpaid interest, which will be taxable as interest income to the extent not previously included in income. Except to the extent described above under "*Original Issue Discount — Market Discount*" or "*Original Issue Discount — Short-Term Certificates*" or attributable to changes in exchange rates (as discussed below), gain or loss recognised on the sale or retirement of a Certificate will be capital gain or loss and will be long-term capital gain or loss if the U.S. Holder's holding period in the Certificates exceeds one year.

Gain or loss realised by a U.S. Holder on the sale or retirement of a Certificate generally will be U.S. source.

Contingent Certificates

Gain from the sale or retirement of a Contingent Certificate will be treated as interest income taxable at ordinary income (rather than capital gains) rates. Any loss will be ordinary loss to the extent that the U.S. Holder's total interest inclusions to the date of sale or retirement exceed the total net negative adjustments that the U.S. Holder took into account as ordinary loss, and any further loss will be capital loss. Gain or loss realised by a U.S. Holder on the sale or retirement of a Contingent Certificate will generally be foreign source.

A U.S. Holder's tax basis in a Contingent Certificate will generally be equal to its cost, increased by the amount of interest previously accrued with respect to the Certificate (determined without regard to any positive or negative adjustments reflecting the difference between actual payments and projected payments), increased or decreased by the amount of any positive or negative adjustment that the holder is required to make to account for the difference between the holder's purchase price for the Certificate and the adjusted issue price of the Certificate at the time of the purchase, and decreased by the amount of any projected payments scheduled to be made on the Certificate to the U.S. Holder through such date (without regard to the actual amount paid).

Foreign Currency Certificates

TAXATION OF SECURITIES

Interest

If an interest payment is denominated in, or determined by reference to, a foreign currency, the amount of income recognised by a cash basis U.S. Holder will be the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars.

An accrual basis U.S. Holder may determine the amount of income recognised with respect to an interest payment denominated in, or determined by reference to, a foreign currency in accordance with either of two methods. Under the first method, the amount of income accrued will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an accrual period that spans two taxable years of a U.S. Holder, the part of the period within the taxable year).

Under the second method, the U.S. Holder may elect to determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is actually received within five business days of the last day of the accrual period, an electing accrual basis U.S. Holder may instead translate the accrued interest into U.S. dollars at the exchange rate in effect on the day of actual receipt. Any such election will apply to all debt instruments held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and will be irrevocable without the consent of the IRS.

Upon receipt of an interest payment (including a payment attributable to accrued but unpaid interest upon the sale or retirement of a Certificate) denominated in, or determined by reference to, a foreign currency, the U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

OID

OID for each accrual period on a Discount Certificate that is denominated in, or determined by reference to, a foreign currency, will be determined in the foreign currency and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder, as described above. Upon receipt of an amount attributable to OID (whether in connection with a payment on the Certificate or a sale or disposition of the Certificate), a U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

Market Discount

Market discount on a Certificate that is denominated in, or determined by reference to, a foreign currency, will be accrued in the foreign currency. If the U.S. Holder elects to include market discount in income currently, the accrued market discount will be translated into U.S. dollars at the average exchange rate for the accrual period (or portion thereof within the U.S. Holder's taxable year). Upon the receipt of an amount attributable to accrued market discount, the U.S. Holder may recognise U.S. source exchange gain or loss (which will be taxable as ordinary income or loss) determined in the same manner as for accrued interest or OID. A U.S. Holder that does not elect to include market discount in income currently will recognise, upon the disposition or maturity of the Certificate, the U.S. dollar value of the amount accrued, calculated at the spot rate on that date, and no part of this accrued market discount will be treated as exchange gain or loss.

Bond Premium

Bond premium (including acquisition premium) on a Certificate that is denominated in, or determined by reference to, a foreign currency, will be computed in units of the foreign currency, and any such bond premium that is taken into account currently will reduce interest income in units of the foreign currency.

On the date bond premium offsets interest income, a U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the amount offset multiplied by the difference between the spot rate in effect on the date of the offset and the spot rate in effect on the date the Certificates were acquired by the U.S. Holder. A U.S. Holder that does not elect to take bond premium (other than acquisition premium) into account currently will recognise a market loss when the Certificate matures.

Foreign Currency Contingent Certificates

Special rules apply to determine the accrual of OID and the amount, timing, source and character of any gain or loss on a Contingent Certificate that is denominated in, or determined by reference to, a foreign currency (a "**Foreign Currency Contingent Certificate**"). The rules applicable to Foreign Currency Contingent Certificates are complex and U.S. Holders are urged to consult their tax advisers concerning the application of these rules.

Under these rules, a U.S. Holder of a Foreign Currency Contingent Certificate will generally be required to accrue OID in the foreign currency in which the Foreign Currency Contingent Certificate is denominated (i) at a yield at which the relevant Issuer would issue a fixed rate debt instrument denominated in the same foreign currency with terms and conditions similar to those of the Foreign Currency Contingent Certificate, and (ii) in accordance with a projected payment schedule determined by the relevant Issuer, under rules similar to those described above under "*Contingent Payment Debt Instruments*". The amount of OID on a Foreign Currency Contingent Certificate that accrues in any accrual period will be the product of the comparable yield of the Foreign Currency Contingent Certificate (adjusted to reflect the length of the accrual period) and the adjusted issue price of the Foreign Currency Contingent Certificate. The adjusted issue price of a Foreign Currency Contingent Certificate will generally be determined under the rules described above and will be denominated in the foreign currency of the Foreign Currency Contingent Certificate.

OID on a Foreign Currency Contingent Certificate will be translated into U.S. dollars under translation rules similar to those described above under "*Foreign Currency Certificates — Foreign Currency Option Certificates*". Any positive adjustment (i.e. the excess of actual payments over projected payments) in respect of a Foreign Currency Contingent Certificate for a taxable year will be translated into U.S. dollars at the spot rate on the last day of the taxable year in which the adjustment is taken into account, or if earlier, the date on which the Foreign Currency Contingent Certificate is disposed of. The amount of any negative adjustment on a Foreign Currency Contingent Certificate (i.e. the excess of projected payments over actual payments) that is offset against accrued but unpaid OID will be translated into U.S. dollars at the same rate at which the OID was accrued. To the extent a net negative adjustment exceeds the amount of accrued but unpaid OID, the negative adjustment will be treated as offsetting OID that has accrued and been paid on the Foreign Currency Contingent Certificate and will be translated into U.S. dollars at the spot rate on the date the Foreign Currency Contingent Certificate was issued. Any net negative adjustment carry forward will be carried forward in the relevant foreign currency.

Sale or Retirement

Certificates other than Foreign Currency Contingent Certificates.

As discussed above under "*Purchase, Sale and Retirement of Certificates*", a U.S. Holder will generally recognise gain or loss on the sale or retirement of a Certificate equal to the difference between the amount realised on the sale or retirement and its tax basis in the Certificate. A U.S. Holder's tax basis in a Certificate that is denominated in a foreign currency will be determined by reference to the U.S. dollar cost of the Certificate. The U.S. dollar cost of a Certificate purchased with foreign currency will generally be the U.S. dollar value of the purchase price on the date of purchase or the settlement date for the purchase, in the case of Certificates traded on an established securities market, as defined in the applicable Treasury Regulations, that are purchased by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects).

The amount realised on a sale or retirement for an amount in foreign currency will be the U.S. dollar value of this amount on the date of sale or retirement or the settlement date for the sale, in the case of Certificates traded on an established securities market, as defined in the applicable Treasury

TAXATION OF SECURITIES

Regulations, sold by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects). Such an election by an accrual basis U.S. Holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS.

A U.S. Holder will recognise U.S. source exchange rate gain or loss (taxable as ordinary income or loss) on the sale or retirement of a Certificate equal to the difference, if any, between the U.S. dollar values of the U.S. Holder's purchase price for the Certificate (or, if less, the principal amount of the Certificate) (i) on the date of sale or retirement and (ii) the date on which the U.S. Holder acquired the Certificate. Any such exchange rate gain or loss will be realised only to the extent of total gain or loss realised on the sale or retirement (including any exchange gain or loss with respect to the receipt of accrued but unpaid interest).

Foreign Currency Contingent Certificates.

Upon a sale, exchange or retirement of a Foreign Currency Contingent Certificate, a U.S. Holder will generally recognise taxable gain or loss equal to the difference between the amount realised on the sale, exchange or retirement and the U.S. Holder's tax basis in the Foreign Currency Contingent Certificate, both translated into U.S. dollars as described below. A U.S. Holder's tax basis in a Foreign Currency Contingent Certificate will equal (i) the cost thereof (translated into U.S. dollars at the spot rate on the issue date), (ii) increased by the amount of OID previously accrued on the Foreign Currency Contingent Certificate (disregarding any positive or negative adjustments and translated into U.S. dollars using the exchange rate applicable to such OID) and (iii) decreased by the projected amount of all prior payments in respect of the Foreign Currency Contingent Certificate. The U.S. dollar amount of the projected payments described in clause (iii) of the preceding sentence is determined by (i) first allocating the payments to the most recently accrued OID to which prior amounts have not already been allocated and translating those amounts into U.S. dollars at the rate at which the OID was accrued and (ii) then allocating any remaining amount to principal and translating such amount into U.S. dollars at the spot rate on the date the Foreign Currency Contingent Certificate was acquired by the U.S. Holder. For this purpose, any accrued OID reduced by a negative adjustment carry forward will be treated as principal.

The amount realised by a U.S. Holder upon the sale, exchange or retirement of a Foreign Currency Contingent Certificate will equal the amount of cash and the fair market value (determined in foreign currency) of any property received. If a U.S. Holder holds a Foreign Currency Contingent Certificate until its scheduled maturity, the U.S. dollar equivalent of the amount realised will be determined by separating such amount realised into principal and one or more OID components, based on the principal and OID comprising the U.S. Holder's basis, with the amount realised allocated first to OID (and allocated to the most recently accrued amounts first) and any remaining amounts allocated to principal. The U.S. dollar equivalent of the amount realised upon a sale, exchange or unscheduled retirement of a Foreign Currency Contingent Certificate will be determined in a similar manner, but will first be allocated to principal and then any accrued OID (and will be allocated to the earliest accrued amounts first). Each component of the amount realised will be translated into U.S. dollars using the exchange rate used with respect to the corresponding principal or accrued OID. The amount of any gain realised upon a sale, exchange or unscheduled retirement of a Foreign Currency Contingent Certificate will be equal to the excess of the amount realised over the holder's tax basis, both expressed in foreign currency, and will be translated into U.S. dollars using the spot rate on the payment date. Gain from the sale or retirement of a Foreign Currency Contingent Certificate will generally be treated as interest income taxable at ordinary income (rather than capital gains) rates. Any loss will be ordinary loss to the extent that the U.S. Holder's total OID inclusions to the date of sale or retirement exceed the total net negative adjustments that the U.S. Holder took into account as ordinary loss, and any further loss will be capital loss. Gain or loss realised by a U.S. Holder on the sale or retirement of a Foreign Currency Contingent Certificate will generally be foreign source. Prospective purchasers should consult their tax advisers as to the foreign tax credit implications of the sale or retirement of Foreign Currency Contingent Certificates.

A U.S. Holder will also recognise U.S. source exchange rate gain or loss (taxable as ordinary income or loss) on the receipt of foreign currency in respect of a Foreign Currency Contingent Certificate if the exchange rate in effect on the date the payment is received differs from the rate applicable to the principal or accrued OID to which such payment relates.

Disposition of Foreign Currency

Foreign currency received as interest on a Certificate or on the sale or retirement of a Certificate will have a tax basis equal to its U.S. dollar value at the time the foreign currency is received. Foreign currency that is purchased will generally have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss recognised on a sale or other disposition of a foreign currency (including its use to purchase Certificates or upon exchange for U.S. dollars) will be U.S. source ordinary income or loss.

U.S. Federal Income Tax Treatment of Certain Certificates Not Treated as Debt

The following summary may apply to certain Certificates that are not treated as debt for U.S. federal income tax purposes. This summary does not discuss all types of Certificates that may not be treated as debt for U.S. federal income tax purposes. The applicable Pricing Supplement will specify if the discussion below will apply to a particular Series or Tranche of Certificates. The U.S. federal income tax consequences of owning Certificates that are not treated as debt for U.S. federal income tax purposes and are not described below will be discussed, as appropriate, in a supplement to this Base Prospectus, any other relevant offering document or the applicable Pricing Supplement.

Forward Certificates*General*

A Certificate that provides for a payment in redemption at maturity that is based on the value of one or more commodities, currencies, equity securities, funds, indices, determining factor or other basis of reference (each a "**Reference Item**") (whether physically settled by delivery of those Reference Items or settled in cash) and does not provide for a current coupon, may be identified as a "**Forward Certificate**" by the relevant Issuer in the applicable Pricing Supplement. A U.S. Holder of a Forward Certificate would generally be subject to the U.S. federal income tax consequences discussed below.

In Notice 2008-2, the IRS and the U.S. Department of Treasury announced they were considering whether the holder of an instrument such as a Forward Certificate should be required to accrue ordinary income on a current basis, whether additional gain or loss from Forward Certificates should be treated as ordinary or capital, whether non-U.S. holders of Forward Certificates should be subject to withholding tax on any deemed income accruals, and whether the special "constructive ownership rules" of Section 1260 of the Code might be applied to Forward Certificates. Legislation has also been proposed in Congress that would require the holders of certain prepaid forward contracts to accrue income during the term of the transaction. It is not possible to predict the final form of legislative or regulatory changes that might affect holders of instruments such as the Forward Certificates, if any, but it is possible that any such changes could be applied retroactively. U.S. Holders are urged to consult their tax advisers concerning the significance, and the potential impact, of the above considerations. The relevant Issuers intend to continue treating the Forward Certificates for U.S. federal income tax purposes in accordance with the treatment described below unless and until such time as Congress, the Treasury, and/or the IRS determine that some alternative treatment is more appropriate.

Characterisation

A Forward Certificate should constitute a prepaid forward contract for U.S. federal income tax purposes. Under current law, U.S. Holders should not be required to recognise income or loss upon the acquisition of a Certificate, and U.S. Holders should not be required to accrue income with respect to a Certificate over the life of the Certificate.

Purchase, Sale and Retirement

A U.S. Holder will recognise gain or loss on the sale or retirement for cash of a Forward Certificate equal to the difference between the amount of cash received upon sale or retirement and the U.S. Holder's tax basis in the Certificate. A U.S. Holder's tax basis in a Forward Certificate will generally be the Certificate's U.S. dollar cost. The U.S. dollar cost of a Forward Certificate purchased with a foreign currency will generally be the U.S. dollar value of the purchase price on the date of purchase increased

TAXATION OF SECURITIES

by the nominal exercise price, if any, paid by the U.S. Holder. Except as provided under "*Constructive Ownership Transactions*" below, any gain or loss recognised on the sale or retirement of a Forward Certificate will be capital gain or loss and will be long-term capital gain or loss if the U.S. Holder's holding period in the Certificate exceeds one year.

Upon a retirement of a Forward Certificate by physical delivery of the Reference Items, a U.S. Holder will not be required to recognise gain or loss at that time. A U.S. Holder will have a basis in the Reference Items equal to the U.S. Holder's basis in the Forward Certificate. A U.S. Holder's holding period in the Reference Items will not include the U.S. Holder's holding period in the Forward Certificates.

Constructive Ownership Transactions

To the extent that a Forward Certificate is treated as a "**constructive ownership transaction**", any gain on disposition may be treated as ordinary income and an interest charge may be imposed on a deemed underpayment of tax for each taxable year during which the Certificate was held. For purposes of determining the interest charge, gain treated as ordinary income is allocated to each such taxable year during which the Forward Certificate was held so that the amount of gain accrued from each year to the next increases at a constant rate equal to the "**applicable federal rate**" (a rate published monthly by the IRS based on prevailing Treasury yields) in effect at the time the Certificate is sold or redeemed.

A Certificate could be treated in whole or in part as a constructive ownership transaction if the issuer of a Reference Item and, if the Reference Item is an index, possibly the issuer of any security included in that index is treated for U.S. federal income tax purposes as, among others, a passive foreign investment company, a partnership, a trust or a common trust fund.

The Issuers do not intend to determine whether the issuers of any Reference Item in fact fall in any of these categories. Prospective purchasers should consult their tax advisers regarding the status of the Reference Items and the application of the constructive ownership transaction rules to ownership of the Certificate.

Option Certificates

A Certificate that provides for a payment in redemption at maturity that may under certain circumstances be based on the value of one or more Reference Items (whether physically settled by delivery of those Reference Items or settled in cash) and also provides for a current coupon, may be identified as an "**Option Certificate**" by the Issuers. The discussion below describes the U.S. federal income tax consequences to a U.S. Holder of holding Option Certificates.

The treatment of Option Certificates for U.S. federal income tax purposes is highly uncertain. It would be reasonable to treat the purchase of an Option Certificate by a U.S. Holder as a grant by the U.S. Holder to the relevant Issuer of an option contract (the "**Put Option**"), pursuant to which the U.S. Holder may be required to purchase from the relevant Issuer one or more of the Reference Items (or an amount equal to the value of the Reference Items in the case of a cash settled Option Certificate), and under which option (a) at the time of the issuance of the Option Certificate the U.S. Holder deposits irrevocably with the relevant Issuer a fixed amount of cash to assure the fulfilment of the holder's purchase obligation described below (the "**Deposit**"), (b) until maturity the relevant Issuer will be obligated to pay interest to the U.S. Holder, as compensation for the use of the cash Deposit during the term of the Option Certificate, (c) the relevant Issuer will be obligated to pay an option premium to the holder in consideration for granting the option (the "**Put Premium**"), which premium will be payable as part of the coupon payments, (d) if pursuant to the terms of the Option Certificates at maturity the holder is obligated to purchase the Reference Item(s), then the Deposit will be applied by the relevant Issuer in full satisfaction of the holder's purchase obligation under the Put Option, and the relevant Issuer will deliver to the holder the number of Reference Items that the holder is entitled to receive at that time pursuant to the terms of the Certificates (or, if the Option Certificates are cash settled, a cash amount equal to the value of the Reference items), and (e) if pursuant to the terms of the Option Certificates the holder is not obligated to purchase the Reference Items at maturity, the relevant Issuer will return the cash Deposit to the U.S. Holder at maturity. The discussion below assumes that an Option Certificate is so treated, except as explicitly provided.

Amounts paid to the relevant Issuer in respect of the original issue of the Option Certificates will be treated as allocable in their entirety to the amount of the cash Deposit attributable to such Certificates. A portion of the coupon on the Certificates will be characterised as interest payable on the amount of such Deposit, includible in the income of a U.S. Holder as interest in the manner described below. A portion of the coupon will be characterised as Put Premium, includible in the income of a U.S. Holder in the manner described below. There is no assurance that the IRS will agree with this treatment and alternative treatments of the Option Certificates could result in less favourable U.S. federal income tax consequences to a holder, including a requirement to accrue income with respect to the Put Option on a current basis.

Interest Payments

Interest payments on the Deposit will generally be included in the income of a U.S. Holder as interest at the time that such interest is accrued or received in accordance with such U.S. Holder's method of accounting. If the Option Certificates are issued at a discount or have a term of one year or less, U.S. Holders will be subject to the rules discussed above under "*U.S. Federal Income Tax Treatment of Certificates Treated as Debt – Original Issue Discount*" with respect to interest or OID payable on the Deposit. Interest paid by the relevant Issuer and OID, if any, accrued with respect to the Option Certificates, generally constitute income from sources outside the United States.

Payments of Put Premium

Payments of the Put Premium will not be included in the income of a U.S. Holder until sale or other taxable disposition of Option Certificates or retirement of Option Certificates for cash; if the Option Certificate is settled by delivery of Reference Items, the payments of Put Premium will instead be incorporated into the U.S. Holder's basis in such Reference Items. Upon the sale or other taxable disposition of Option Certificates or at maturity, as the case may be, the Put Premium payment will be treated in the manner described below.

Retirement of an Option Certificate for Cash

If the Put Option is deemed not to have been exercised at maturity, the cash payment of the full principal amount of the Option Certificate at maturity would likely be treated as (i) payment in full of the principal amount of the Deposit (which would likely not result in the recognition of gain or loss to an initial purchaser) and (ii) the lapse of the Put Option, which would likely result in a U.S. Holder's recognition of short-term capital gain in an amount equal to the Put Premium paid to the holder.

If the Put Option is deemed to be exercised at maturity and is cash-settled, the payment at maturity would likely be treated as (i) payment in full of the principal amount of the Deposit (resulting in neither gain nor loss for an initial purchaser) and (ii) the exercise by the relevant Issuer of the Put Option. The exercise of the Put Option would result in short-term capital gain or loss to the U.S. Holder in an amount equal to the difference between (i) the sum of the cash received at maturity (other than amounts attributable to accrued but unpaid interest) and all previous payments of Put Premium and (ii) the holder's adjusted basis in the Deposit, as determined under "*U.S. Federal Income Tax Treatment of Certificates Treated as Debt – Purchase, Sale and Retirement of Certificates*".

Other Retirement of an Option Certificate

Delivery at maturity of Reference Items would likely be treated as (i) payment in full of the Deposit (resulting in neither gain nor loss for an initial purchaser) and (ii) the exercise by the relevant Issuer of the Put Option and the U.S. Holder's purchase of the Reference Items for an amount equal to the principal amount of the Option Certificate. The U.S. Holder will have a tax basis in the Reference Items equal to the principal amount of the Option Certificates less an amount equal to the aggregate amount of the Put Premium payments and less the portion of the tax basis of the Option Certificates allocable to any fractional Reference Item, as described in the next sentence. A U.S. Holder will recognise gain or loss (which will be treated as short-term capital gain or loss) with respect to cash received in lieu of fractional Reference Items, in an amount equal to the difference between the cash received and the portion of the basis of the Option Certificates allocable to fractional Reference Items (based on the relative value of fractional Reference Items and full Reference Items delivered to the U.S. Holder). A

TAXATION OF SECURITIES

U.S. Holder's holding period in the Reference Items received will not include the U.S. Holder's holding period in the Option Certificates.

Sale or Other Taxable Disposition of an Option Certificate Prior to Maturity

Upon the sale or other taxable disposition of an Option Certificate, a U.S. Holder should allocate the amount received between the Deposit and the Put Option on the basis of their respective values on the date of sale or other disposition. The U.S. Holder should generally recognise gain or loss with respect to the Deposit in an amount equal to the difference between the amount of the sales proceeds allocable to the Deposit and the U.S. Holder's adjusted tax basis in the Deposit (which will generally equal the issue price of the Option Certificate for an initial purchaser (as may be adjusted for any accrued OID on the Deposit)). Except to the extent attributable to accrued but unpaid interest, which will be taxed as such, this gain or loss will be long-term capital gain or loss if the U.S. Holder has held the Option Certificates for more than one year. If the Put Option has a positive value on the date of a sale of the Option Certificate, the U.S. Holder should recognise short-term capital gain equal to the portion of the sale proceeds allocable to the Put Option plus any previously received Put Premium. If the put option has a negative value on the date of sale, the U.S. Holder should be treated as having paid the buyer an amount equal to the negative value in order to assume the U.S. Holder's rights and obligations under the Put Option. In such a case, the U.S. Holder should recognise short-term capital gain or loss in an amount equal to the difference between the total Put Premium previously received and the amount of the payment deemed made by the U.S. Holder with respect to the assumption of the Put Option.

Foreign Currency Option Certificates

Option Certificates denominated in, or determined by reference to, a foreign currency ("**Foreign Currency Option Certificates**") will be subject to special rules. Interest and OID denominated in, or determined by reference to, a foreign currency will generally be subject to the rules described in "*U.S. Federal Income Tax Treatment of Certificates Treated as Debt – Foreign Currency Option Certificates*" above.

The treatment upon the sale, retirement or disposition of the Deposit, as described above, should also be governed by the rules described under "*U.S. Federal Income Tax Treatment of Certificates Treated as Debt – Foreign Currency Option Certificates*" above, regardless of whether the Option Certificate is cash settled. A U.S. Holder will have a tax basis in any Reference Items received in an amount equal to the excess of the purchase price of the Option Certificate, translated into U.S. dollars at the exchange rate in effect on the date of retirement, over the total premium payments received, with each premium likely translated into U.S. dollars at the exchange rate in effect on the date that it is received. U.S. Holders should consult their tax advisers about the proper method for translating foreign currency with respect to an Option Certificate into U.S. dollars.

Possible Alternative Characterisations

Due to the absence of authority as to the proper characterisation of the Option Certificates, no assurance can be given that the IRS will accept, or that a court will uphold, the characterisation and tax treatment described above. It is possible, for example, that the IRS could maintain that amounts denominated as Put Premium (i) should be includible in the U.S. Holder's income as interest in the manner described above regarding the interest payment, or (ii) should be included in a U.S. Holder's income even in a case where the Option Certificates is retired for Reference Items. Such treatment might arise, for example, if the IRS were successfully to maintain that amounts denominated as Put Premium (i) should be characterised for federal income tax purposes as interest, or (ii) should be treated as a return on the U.S. Holder's investment in the Option Certificates that constitutes income. Alternatively, the IRS could maintain that the Option Certificates should be treated as contingent payment debt obligations, in which case the U.S. Holder would be treated as owning Contingent Certificates (or Foreign Currency Contingent Certificates), subject to the treatment discussed above under "*U.S. Federal Income Tax Treatment of Certificates Treated as Debt*".

Backup Withholding and Information Reporting

In general, payments of interest and accruals of OID on, and the proceeds of a sale, redemption or other disposition of, the Certificates payable to a U.S. Holder by a U.S. paying agent or other U.S. intermediary will be reported to the IRS and to the U.S. Holder as may be required under applicable regulations. Backup withholding will apply to these payments, including payments of OID, if the U.S. Holder fails to provide an accurate taxpayer identification number or certification of exempt status or fails to report all interest and dividends required to be shown on its U.S. federal income tax returns. Certain U.S. Holders are not subject to backup withholding. U.S. Holders should consult their tax advisers as to their qualification for exemption from backup withholding and the procedure for obtaining an exemption.

Reportable Transactions

A U.S. taxpayer that participates in a "reportable transaction" will be required to disclose its participation to the IRS. Under the relevant rules, if the Certificates are denominated in a foreign currency, a U.S. Holder may be required to treat a foreign currency exchange loss from the Certificates as a reportable transaction if this loss exceeds the relevant threshold in the regulations and to disclose its investment by filing Form 8886 with the IRS. Penalties may be imposed on any taxpayer that fails to timely file an information return with the IRS with respect to a transaction resulting in a loss that is treated as a reportable transaction. Prospective purchasers are urged to consult their tax advisers regarding the application of these rules.

Foreign Financial Asset Reporting

Certain U.S. Holders may be required to report to the IRS certain information with respect to their beneficial ownership of certain foreign financial assets, such as the Certificates, if the aggregate value of such assets exceeds certain U.S. dollar value thresholds. U.S. Holders who fail to report required information could be subject to substantial penalties.

Part B – Non-U.S. Holders

For purposes of this discussion, a "**Non-U.S. Holder**" means a beneficial owner of the Certificates that is not a U.S. Holder.

Generally

Subject to the discussion below under "Hiring Incentives to Restore Employment Act" and "*Foreign Account Tax Compliance Act*", Non-U.S. Holders generally should not be subject to U.S. federal income or withholding tax on any payments on the Certificates and gain from the sale, redemption or other disposition of the Certificates unless: (i) that payment and/or gain is effectively connected with the conduct by that Non-U.S. Holder of a trade or business in the U.S.; (ii) in the case of any gain realized on the sale or exchange of a Certificate by an individual Non-U.S. Holder, that holder is present in the U.S. for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met; or (iii) the Non-U.S. Holder is subject to tax pursuant to provisions of the Code applicable to certain expatriates.

Non-U.S. holders should consult their own tax advisers regarding the U.S. federal income and other tax consequences of owning Certificates.

Hiring Incentives to Restore Employment Act

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the Code which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference

TAXATION OF SECURITIES

to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). The final U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the "**Section 871(m) Regulations**") require withholding on certain non-U.S. holders of the Certificates with respect to amounts treated as attributable to dividends from certain U.S. securities. Under the Section 871(m) Regulations, only a Certificate that has an expected economic return sufficiently similar to that of the underlying U.S. security based on tests set forth in the Section 871(m) Regulations will be subject to the Section 871(m) withholding regime (making such Certificate a "**Specified Certificate**"). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Certificate or upon the date of maturity, lapse or other disposition by the non-U.S. holder of the Specified Certificate. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Certificate, withholding generally will still be required even if the Specified Certificate does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Certificates in respect of any dividend equivalent arising with respect to such Certificates regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the IRS. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If an Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Certificates issued on or after 1 January, 2017. If the terms of a Certificate are subject to a "significant modification" (as defined for U.S. tax purposes), the Certificate generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Certificate is a Specified Certificate. Similarly, if additional Certificates of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Certificates out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Certificates are Specified Certificates as the date of such subsequent sale or issuance. Consequently, a previously out of scope Certificate might be treated as a Specified Certificate following such modification or further issuance.

In addition, with respect to Certificates that provide for net dividend reinvestment in respect of either an underlying U.S. security or an index that includes U.S. securities, all payments on the Certificates that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent.. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Issue Terms will indicate whether the Issuer has determined that Certificates are Specified Certificates and may specify contact details for obtaining additional information regarding the application of Section 871(m) to Certificates. If Certificates are Specified Certificates, a non-U.S. holder of the Certificates should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Certificates. The Issuer's determination is binding on non-U.S. holders of the Certificates, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Certificates linked to U.S. securities and their application to a specific issue of Certificates may be uncertain.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Certificates.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code ("**FATCA**") impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or "**FFI**" (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the IRS to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Issuer (a "**Recalcitrant Holder**"). The Issuers are classified as FFIs.

The new withholding regime is now in effect for payments from sources within the United States and will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than the date that is two years after the date on which final regulations defining foreign passthru payments are published in the Federal Register. This withholding would potentially apply to payments in respect of (i) any Certificates characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which (A) with respect to Certificates that give rise to foreign pass thru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register and (B) with respect to Certificates that give rise to a dividend equivalent pursuant to Section 871(m) of the Code, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents, or (in each case) which are materially modified after the grandfathering date and (ii) any Certificates characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Certificates are issued on or before the grandfathering date, and additional Certificates of the same series are issued on or after that date, the additional Certificates may not be treated as grandfathered, which may have negative consequences for the existing Certificates, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "**Reporting FI**" not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being "**FATCA Withholding**") from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States has entered into agreements with Singapore (the "**US-Singapore IGA**") and the United Kingdom (the "**US-UK IGA**") based largely on the Model 1 IGA. The United States and Hong Kong have entered into an agreement (the "**US-Hong Kong IGA**") based largely on the Model 2 IGA.

If the Issuers are treated as Reporting FIs pursuant to the US-Singapore IGA, US-UK IGA and US-Hong Kong IGA, as applicable, they do not anticipate that they will be obliged to deduct any FATCA Withholding on payments they make. There can be no assurance, however, that the Issuers will be treated as Reporting FIs, or that they would in the future not be required to deduct FATCA Withholding from payments they make. Accordingly, the Issuers and financial institutions through which payments on the Certificates are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Certificates is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

As the Certificates are held within the ICSDs, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Certificates by the Issuers or any certificate agent, as the case may be, given that each of the entities in the payment chain between the Issuers and the participants in the ICSDs is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Certificates.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Certificates.

2. United Kingdom Taxation

The following is a summary of the Issuers' understanding of current United Kingdom tax law and published HM Revenue and Customs' practice relating only to the United Kingdom withholding tax treatment of payments in respect of Securities and to whether the issue, transfer, redemption, exercise or settlement of a Security could be subject to United Kingdom stamp duty or stamp duty reserve tax. It does not deal with any other United Kingdom taxation implications of acquiring, holding, exercising, disposing or the settlement or redemption of Securities. The United Kingdom tax treatment of prospective Securityholders depends on their individual circumstances and may be subject to change in the future. Prospective Securityholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

In the following paragraphs references to "Notes" include both Notes and Certificates.

Withholding taxes

United Kingdom withholding taxes can apply to a number of different types of payments. Those which could be relevant to the Securities include: interest, annual payments and manufactured payments.

Payments of interest

Whether or not payments or any part of any payment on a Security will constitute "interest" will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which amounts payable on the Securities are calculated.

Payments of interest on the Securities that does not have a United Kingdom source may be made without deduction or withholding on account of United Kingdom income tax. If interest paid on the Securities does have a United Kingdom source, then payments may be made without deduction or withholding on account of United Kingdom income tax in either of the following circumstances.

SCB will be entitled to make payments of interest on the Securities without deduction of or withholding on account of United Kingdom income tax provided that:

- (a) it continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 (**ITA 2007**); and
- (b) the interest on the Securities is paid in the ordinary course of SCB's business within the meaning of section 878 ITA 2007.

On the basis that neither SCBHK nor SCBSL are "banks" for these purposes, they would not be able to rely on this exemption.

Payments of interest on the Notes by any of the Issuers may also be made without deduction of or withholding on account of United Kingdom income tax provided that the Notes are and continue to be listed on a "recognised stock exchange" within the meaning of section 1005 ITA 2007. EuroNext Dublin is a recognised stock exchange. The Notes will satisfy this requirement if they are officially listed in Ireland in accordance with provisions corresponding to those generally applicable in EEA states and are admitted to trading on EuroNext Dublin. Provided, therefore, that the Notes are and remain so listed on a "recognised stock exchange", interest on the Notes will be payable without deduction of or withholding on account of United Kingdom tax (in the case of SCB, whether or not SCB is a bank and whether or not the interest is paid in the ordinary course of its business).

In other cases, an amount must generally be withheld from payments of interest on the Securities that has a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20%), subject to any other available exemptions and reliefs.

Annual Payments

If a periodic payment on a Security were not "interest", and not repayment of principal, then such payment could constitute an "annual payment". Whether or not any periodic payment were to constitute an "annual payment" for these purposes will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which it is calculated. However, if in relation to a Security the Issuer is only required to make a single payment to its holders following redemption or exercise, and there are no amounts due by way of interest, Interim Payment or other periodic payment on that Security, payments should not generally constitute "annual payments".

Payments on a Security which constitute "annual payments" that do not have a United Kingdom source may be made without deduction or withholding on account of United Kingdom income tax.

An amount must generally be withheld from "annual payments" on Securities that have a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20%), subject to any other available exemptions and reliefs.

Manufactured Payments

Payments on the Securities should not constitute "manufactured payments" subject to any deduction of or withholding on account of United Kingdom income tax unless:

- (i) the Securities will or may settle by way of physical delivery;
- (ii) the assets which will or may be delivered are shares issued by a "company UK REIT" or the "principal company" of a "group UK REIT" (all bearing the same meaning as in section 918 ITA 2007) or securities (other than shares) issued by the United Kingdom government, a local or other public authority in the United Kingdom or any other United Kingdom resident body; and
- (iii) the payments are representative of dividends on those shares, or interest paid on those securities (as the case may be).

Payments satisfying conditions (i) to (iii) above that are paid by SCB, or that are paid by SCBHK or SCBSL in the course of a trade carried on in the United Kingdom through a branch or agency, must generally be made subject to deduction of or withholding on account of United Kingdom income tax at the basic rate (subject to reliefs and exemptions).

Stamp duty and stamp duty reserve tax

A charge to stamp duty or stamp duty reserve tax may, in certain circumstances, arise on the issue, transfer, exercise, settlement and/or redemption of Securities and stamp duty reserve tax may also be payable in relation to any agreement to transfer Securities. This will depend upon the terms and conditions of the relevant Securities. Securityholders should take their own advice from an appropriately qualified professional advisor in this regard.

3. 'HONG KONG TAXATION

The following provides certain limited information in relation to the anticipated Hong Kong tax treatment in relation to payments on the Warrants, Notes or Certificates (the "**Securities**"), is based on the taxation law and practice in force at the date of this Base Prospectus and does not constitute legal or tax advice, and prospective investors should be aware that the relevant fiscal rules and practice and their interpretation may change. Prospective investors should consult their own professional advisers on the implications of subscribing for, buying, holding, selling, exercising, redeeming or disposing of Securities and the receipt of any payments with respect to such Securities under the laws of the jurisdictions in which they may be liable to taxation.

TAXATION OF SECURITIES

With respect to the Notes,

- (a) sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal or redemption of the Notes will be subject to Hong Kong profits tax;
- (b) sums derived from the sale, disposal or redemption of the Notes will be subject to Hong Kong profits tax where received by or accrued to a person, other than a corporation, who carries on a trade, profession or business in Hong Kong and the sum has a Hong Kong source; and
- (c) sums received by or accrued to a corporation (other than a financial institution) by way of gains or profits arising through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (as defined in section 16(3) of the IRO) from the sale, disposal or redemption of the Notes will be subject to Hong Kong profits tax.

With respect to the Certificates, Hong Kong profits tax may be charged on profits arising from the sale, disposal or redemption of Certificates where the sale, disposal or redemption is or forms part of a trade, profession or business carried on in Hong Kong.

Stamp Duty

Warrants and Certificates

No stamp duty is payable on issue of the Warrants or the Certificates. Stamp duty may be payable on any transfer of the Warrants or Certificates if the relevant transfer is required to be registered in Hong Kong (i.e. meets the definition of "Hong Kong stock" as defined in the Stamp Duty Ordinance (Cap. 117 of the Laws of Hong Kong) (the "**SDO**")). Any stamp duty payable in the issuance of a series of Certificates will be specified in the applicable Pricing Supplement.

Unless exempted or provided otherwise by the SDO, if Hong Kong stock is transferred and delivered to the holder of the Warrants or the Certificates under the terms and conditions of the Warrants or Certificates, there will be stamp duty payable on such transfer and delivery of Hong Kong stock at the rate of 0.2 per cent. of the amount, being the consideration for such transfer or the market value of such Hong Kong stock, whichever is higher. Such stamp duty will generally be payable equally by the transferor and the transferee (i.e. 0.1 per cent. each).

Under the terms and conditions of the Warrants or Certificates, the holders of the Warrants or the Certificates are required to pay all Delivery Expenses which include both transferor's and transferee's stamp duty in respect of delivery of any assets (which are dutiable instrument pursuant to the SDP with respect to the Certificates) due on physical settlement of the Warrants or the Certificates.)]

Bearer Notes

Stamp duty will not be payable on the issue of Bearer Notes provided either:

- (a) such Bearer Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (b) such Bearer Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117 of the Laws of Hong Kong) (the "**SDO**")).

If issuance stamp duty is payable, it is payable by the relevant Issuer on issue of Bearer Notes at a rate of three per cent. of the market value of the Bearer Notes at the time of issue.

No transfer stamp duty will be payable on any subsequent transfer of Bearer Notes.

TAXATION OF SECURITIES

Registered Notes

No issuance stamp duty is payable on the issue of Registered Notes.

Transfer stamp duty may be payable on any transfer of Registered Notes if the relevant transfer is required to be registered in Hong Kong (i.e. meets the definition of "Hong Kong stock" as defined in the SDO). Stamp duty will, however, not be payable on any transfers of Registered Notes provided that either:

- (i) the Registered Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) the Registered Notes constitute loan capital (as defined in the SDO).

If stamp duty is payable in respect of the transfer of Registered Notes, it will be payable at the rate of 0.2 per cent. (of which 0.1 per cent. is payable by the seller and 0.1 per cent. is payable by the purchaser) normally by reference to the consideration or its market value, whichever is higher. If, in the case of either the sale or purchase of such Registered Notes, stamp duty is not paid, both the seller and the purchaser may be liable jointly and severally to pay any unpaid stamp duty and also any penalties for late payment. If the Registered Notes are not stamped on or before the due date (within two days after the sale or purchase if effected in Hong Kong, or within thirty days after the sale or purchase if effected elsewhere) a penalty of up to ten times the stamp duty payable may be imposed. In addition, stamp duty is payable at the fixed rate of HK\$5 on each instrument of transfer executed in relation to any transfer of the Registered Notes if the relevant transfer is required to be registered in Hong Kong.

Unless exempted or provided otherwise by the SDO, if Hong Kong stock is transferred and delivered to the holder of the Notes under the terms and conditions of the Notes, there will be stamp duty payable on such transfer and delivery of Hong Kong stock at the rate of 0.2 per cent. of the amount, being the consideration for such transfer or the market value of such Hong Kong stock, whichever is higher. Such stamp duty will generally be payable equally by the transferor and the transferee (i.e. 0.1 per cent. each).

Under the terms and conditions of the Notes, Noteholders are required to pay all Delivery Expenses which include both transferor's and transferee's stamp duty in respect of delivery of any assets (which are dutiable instruments pursuant to the SDO) due on physical settlement of the Notes.

4. Irish Taxation

The following is a summary based on the laws and practices currently in force in Ireland of the Irish withholding tax position of investors who are the absolute beneficial owners of their Securities. Particular rules not discussed below may apply to certain classes of taxpayers holding Securities including dealers in securities and trusts. The summary does not constitute tax or legal advice and the comments below are of a general nature only and should be treated with appropriate caution. It does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Securities. Prospective investors in the Securities should consult their professional advisers on the tax implications of the purchase, holding, exercise, redemption or sale of the Securities and the receipt of any payments of interim amounts with respect to such Securities under the laws of their country of residence, citizenship or domicile.

Withholding Tax

Tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source interest. The Issuers will not be obliged to withhold Irish income tax from payments of interest on the Securities so long as such payments do not constitute Irish source income. Interest and premium paid on the Securities may be treated as having an Irish source if:

- (a) the Issuers are resident in Ireland for tax purposes; or

- (b) the Issuers have a branch or permanent establishment in Ireland, the assets or income of which is used to fund the payments on the Securities; or
- (c) the Issuers are not resident in Ireland for tax purposes but the register for the Securities is maintained in Ireland or, if the Securities are in bearer form, the Securities are physically held in Ireland.

It is anticipated that (i) the Issuers are not and will not be resident in Ireland for tax purposes; (ii) the Issuers do not have and will not have a branch or permanent establishment in Ireland; (iii) bearer Securities will not be physically located in Ireland; and (iv) the Issuers will not maintain a register of any registered Securities in Ireland.

Encashment Tax

Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) on any interest, dividends or annual payments payable out of or in respect of the stocks, funds, shares or securities of a company not resident in Ireland, where such interest, dividends or annual payments are collected or realised by a bank or encashment agent in Ireland.

Encashment tax will not apply where the Securityholder is not resident in Ireland and has made a declaration in the prescribed form to the encashment agent or bank.

5. Singapore Taxation

The statements made below are of a general nature and are based on certain aspects of current tax laws in Singapore and administrative guidelines and circulars issued by Inland Revenue Authority of Singapore ("**IRAS**") and the Monetary Authority of Singapore ("**MAS**") in force as of the date of this Base Prospectus and are subject to any changes in such laws, administrative guidelines or circulars, or the interpretation of those laws, guidelines or circulars, occurring after such date, which changes could be made on a retrospective basis.

These laws, guidelines and circulars are also subject to various interpretations and no assurance can be given that the relevant tax authorities or the courts will agree with the explanations or conclusions set out below. Neither these statements nor any other statements in this Base Prospectus are intended or are to be regarded as advice on the Singapore tax position of any holder of Notes or Certificates (each, a "**Securityholder**") or of any person acquiring, selling or otherwise dealing in the Notes or the Certificates (the "**Securities**") or on any tax implications arising from the acquisition, sale or other dealings in respect of the Securities. **The statements do not purport to be a comprehensive or exhaustive description of all the Singapore tax considerations that may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and there may be additional taxation issues arising from particular types of Securities which have not been addressed in the statements. In addition, neither the statements made below nor any other statements in this Base Prospectus address the Singapore tax position of any holder of Warrants or of any person acquiring, selling or otherwise dealing in the Warrants, or on any tax considerations or implications that may be relevant to a decision to subscribe for, purchase, own or dispose of the Warrants arising from the acquisition, sale or other dealings in respect of the Warrants.** The statements also do not purport to deal with the Singapore tax consequences applicable to all categories of investors, some of which (such as dealers in securities or financial institutions in Singapore which have been granted the relevant Financial Sector Incentive tax incentive(s)) may be subject to special rules or tax rates. The statements also do not consider any specific facts or circumstances that may apply to any particular purchaser. Prospective purchasers of Securities should consult their own professional advisers regarding their respective tax positions or any tax implications of the purchase, ownership, transfer or disposal of Securities, including, in particular, the effect of any foreign, state or local tax laws to which they are subject. It is emphasised that none of the Issuers, the Managers and any other persons involved in the issue of the Securities accepts responsibility for any tax effects or liabilities resulting from the subscription for, purchase, holding or disposal of the Securities.

Interest and Other Payments on the Securities

TAXATION OF SECURITIES

Subject to the following paragraphs, under section 12(6) of the Income Tax Act, Chapter 134 of Singapore (the "ITA"), the following payments are deemed to be derived from Singapore:

- (a) any interest, commissions, fees or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or
- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15 per cent. final withholding tax described below) to non-resident persons (other than non-resident individuals) is currently 17 per cent.. The applicable rate for non-resident individuals is currently 22 per cent.. However, if the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15 per cent.. The rate of 15 per cent. may be reduced by applicable tax treaties.

However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including:

- (i) interest from debt securities;
- (ii) discount income (not including discount income arising from secondary trading) from debt securities; and
- (iii) prepayment fee, redemption premium and break cost from debt securities,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

Exemption from Withholding Tax for payments made by Licensed Banks etc.

Payments falling within Section 12(6) of the ITA and made by (amongst certain other persons) licensed banks in Singapore to persons who are non-Singapore tax-residents (other than permanent establishments in Singapore):

- (a) between 1 April, 2011 and 31 March, 2021; or
- (b) on a contract which takes effect between 1 April, 2011 and 31 March, 2021,

will be exempt from tax, provided the payments are made for the purposes of the licensed bank's business in Singapore and the payments do not arise from a transaction to which the general anti-avoidance provisions in Section 33 of the ITA applies.

With effect from 17 February, 2012, (amongst certain other persons) licensed banks are no longer required to withhold tax on payments falling within Section 12(6) of the ITA which they are liable to make to permanent establishments in Singapore of a non-resident person:

- (a) between 17 February, 2012 and 31 March, 2021 on contracts that take effect before 17 February, 2012; and

- (b) on or after 17 February, 2012 on contracts that take effect between 17 February, 2012 to 31 March, 2021.

With effect from 21 February, 2014, the expiry date of 31 March, 2021 referred to in the immediately preceding paragraph does not apply to payments to Singapore branches of non-resident persons as the requirement to withhold tax from payments to Singapore branches has been lifted.

Notwithstanding the preceding paragraph, permanent establishments in Singapore of a non-resident person are required to declare such payments in their annual income tax returns and will be assessed to tax on such payments (unless specifically exempt from tax).

Qualifying Debt Securities Scheme

The following section applies to the extent that the Securities constitute "debt securities".

In addition, if more than half of the nominal amount of a tranche of Securities issued as debt securities under the Programme during the period from the date of this Base Prospectus to 31 December, 2023 are distributed by financial institutions who have been awarded "Financial Sector Incentive (Bond Market) Company", "Financial Sector Incentive (Standard Tier) Company" or "Financial Sector Incentive (Capital Market) Company" status by the Minister for Finance of Singapore or such person as he may appoint and such tranche of Securities are debt securities during the period from the date of this Base Prospectus to on or before 31 December, 2023 (hereinafter called "**Relevant Securities**"), such Relevant Securities would be "qualifying debt securities" for the purposes of the ITA, to which the following treatments shall apply:

- (i) (in the case where payments on the Relevant Securities falls within Section 12(6) of the ITA) subject to certain conditions having been fulfilled (including the furnishing of a return on debt securities to the MAS for the Relevant Securities within such period as may be specified and the inclusion by the relevant Issuer in all offering documents relating to the Relevant Securities of a statement to the effect that where interest, discount income, prepayment fee, redemption premium or break cost is derived by a person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption shall not apply if the non-resident person acquires the Relevant Securities using funds from that person's operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), prepayment fee, redemption premium and break cost (collectively, the "**Qualifying Income**") from the Relevant Securities, derived by a Noteholder who is not resident in Singapore and (A) who does not have any permanent establishment in Singapore, or (B) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Securities are not obtained from the operation of the Singapore permanent establishment, are exempt from Singapore tax;
- (ii) subject to certain conditions having been fulfilled (including the furnishing of a return on debt securities to the MAS for the Relevant Securities within such period as may be specified), Qualifying Income from the Relevant Securities derived by any company in Singapore or body of persons (as defined in the ITA) (other than a person which holds the relevant Financial Sector Incentive award(s) and which is subject to different tax rates) in Singapore is subject to income tax at a concessionary rate of 10 per cent.; and
- (iii) (in the case where payments on the Relevant Securities falls within Section 12(6) of the ITA) subject to:
 - I. the relevant Issuer including in all offering documents relating to the Relevant Securities a statement to the effect that any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Relevant Securities is not exempt from tax shall declare and include such income in a return of income made under the ITA; and

TAXATION OF SECURITIES

- II. the furnishing to the MAS of a return on debt securities for the Relevant Securities within such period as may be specified.

Qualifying Income derived from the Relevant Securities is not subject to withholding of tax by the relevant Issuer.

However, notwithstanding the foregoing:

- (A) if during the primary launch of any tranche of Relevant Securities, such Relevant Securities are issued to fewer than four persons and 50 per cent. or more of the issue of such Relevant Securities is beneficially held or funded, directly or indirectly, by related parties of the relevant Issuer, such Relevant Securities would not qualify as "qualifying debt securities"; and
- (B) even though a particular tranche of Relevant Securities may qualify as "qualifying debt securities", if, at any time during the tenure of such tranche of Relevant Securities, 50 per cent. or more of the issue of such Relevant Securities is held beneficially or funded, directly or indirectly, by any related party(ies) of the relevant Issuer, Qualifying Income derived by:
- (i) any related party of the relevant Issuer; or
 - (ii) any other person where the funds used by such person to acquire such Relevant Securities are obtained, directly or indirectly, from any related party of the relevant Issuer,

shall not be eligible for the tax exemption or the concessionary rate of tax described above.

- (C) Where the issuer of the Relevant Securities is SCBSL and such Relevant Securities are issued to any person who is not a resident of Singapore in connection with or for the purpose of enabling that non-resident person to issue securities (referred to in this sub-paragraph as the Subsequent Issuance), directly or indirectly, to investors, the exemption from tax shall apply only if —
- (i) the Subsequent Issuance is a qualifying debt security;
 - (ii) the Subsequent Issuance contain restrictions against the acquisition of such relevant securities comprised in the Subsequent Issuance by any investor who is a resident of or a permanent establishment in Singapore; and
 - (iii) the Subsequent Issuance is not acquired by any investor using funds from its Singapore operations.

The term "**related party**", in relation to a person, means any other person who, directly or indirectly, controls that person, or is controlled, directly or indirectly, by that person, or where he and that other person, directly or indirectly, are under the control of a common person.

The terms "break cost", "prepayment fee" and "redemption premium" are defined in the ITA as follows:

"**break cost**", in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by any loss or liability incurred by the holder of the securities in connection with such redemption;

"**prepayment fee**", in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by the terms of the issuance of the securities; and

"**redemption premium**", in relation to debt securities and qualifying debt securities, means any premium payable by the issuer of the securities on the redemption of the securities upon their maturity.

References to "break cost", "prepayment fee" and "redemption premium" in this Singapore tax disclosure have their same meaning as in the ITA.

Notwithstanding that the relevant Issuer is permitted to make payments of interest, discount income, prepayment fee, redemption premium and break cost in respect of the Relevant Securities without deduction or withholding of tax under Sections 45 and 45A of the ITA, any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Relevant Securities is not exempt from tax is required to declare and include such income in a return of income made under the ITA.

6. Dubai International Financial Centre

The following provides certain limited information in relation to the anticipated DIFC tax treatment in relation to payments on the Warrants, the Notes and the Certificates, is based on the taxation law and practice in force at the date of this Base Prospectus and does not constitute legal or tax advice, and prospective investors should be aware that the relevant fiscal rules and practice and their interpretation may change.

Pursuant to Article 14 of Law No. (9) of 2004 in respect of the Dubai International Financial Centre (the "**DIFC Law**"), entities licensed, registered or otherwise authorised to carry on financial services in the DIFC and their employees shall be subject to a zero rate of tax for a period of 50 years from 13 September, 2004. This zero rate of tax applies to income, corporation and capital gains tax. In addition, this zero rate of tax will also extend to repatriation of capital and to transfers of assets or profits or salaries to any party outside the DIFC. Article 14 of the DIFC Law also provides that it is possible to renew the 50-year period to a similar period upon issuance of a resolution by the Ruler of the Emirate of Dubai. As a result no payments by the Issuer under the Warrants, the Notes and the Certificates are subject to any DIFC tax, whether by withholding or otherwise.

7. FINANCIAL TRANSACTION TAX ("FTT")

On 14 February, 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of Securities are advised to seek their own professional advice in relation to the FTT.

PURCHASERS AND SELLERS OF SECURITIES MAY BE REQUIRED TO PAY STAMP DUTIES, TAXES AND/OR OTHER CHARGES IN ACCORDANCE WITH THE LAWS AND PRACTICE OF THE COUNTRY OF PURCHASE OR SALE IN ADDITION TO THE ISSUE PRICE OF EACH SECURITY. POTENTIAL PURCHASERS OF SECURITIES ARE ADVISED TO CONSULT THEIR OWN TAX

BOOK-ENTRY CLEARANCE SYSTEMS

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the "Clearing Systems") currently in effect. The information in this section concerning the Clearing Systems has been obtained from sources that the Issuers believe to be reliable, but none of the Issuers nor any Manager takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuers nor any other party to the Notes Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Book-entry Systems

DTC

DTC has advised each Issuer that it is a limited purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a member of the Federal Reserve system, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Exchange Act. DTC holds securities that its participants ("**Direct Participants**") deposit with DTC. DTC also facilitates the settlement among Direct Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerised book-entry changes in Direct Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulation subsidiaries. Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("**Indirect Participants**"). The DTC rules applicable to its participants are on file with the Securities and Exchange Commission. More information about DTCC can be found at www.dtcc.com and www.dtc.org.

Under the rules, regulations and procedures creating and affecting DTC and its operations (the "**Rules**"), DTC makes book-entry transfers of Registered Notes among Direct Participants on whose behalf it acts with respect to Notes accepted into DTC's book-entry settlement system ("**DTC Notes**") as described below, and receives and transmits distributions of principal and interest on DTC Notes. The Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Notes ("**Owners**") have accounts with respect to the DTC Notes are similarly required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Notes through Direct Participants or Indirect Participants will not possess Registered Notes, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of DTC Notes.

Purchases of DTC Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Notes on DTC's records. The ownership interest of each actual purchaser of each DTC Note (a "**Beneficial Owner**") is in turn to be recorded on the Direct Participant or Indirect Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct Participant or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in DTC Notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Notes, except in the event that use of the book-entry system for the DTC Notes is discontinued.

BOOK ENTRY CLEARANCE SYSTEMS

To facilitate subsequent transfers, all DTC Notes deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of DTC Notes with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the DTC Notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to DTC Notes. Under its usual procedures, DTC mails an Omnibus Proxy to the relevant Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts DTC Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the DTC Notes will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the due date for payment in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the relevant Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the relevant Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to Beneficial Owners is the responsibility of Direct Participants and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the Notes, DTC will exchange the DTC Notes for definitive Registered Notes, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Note, will be legended as set forth under "*Subscription and Sale and Transfer and Selling Restrictions*".

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Notes to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Notes, will be required to withdraw its Registered Notes from DTC as described below.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for its customers and facilitates the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are worldwide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect

access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

Book-entry Ownership of and Payments in respect of DTC Notes

The relevant Issuer may apply to DTC in order to have any Tranche of Notes represented by a Registered Global Note accepted in its book-entry settlement system. Upon the issue of any such Registered Global Note, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts of the individual beneficial interests represented by such Registered Global Note to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Manager. Ownership of beneficial interests in such a Registered Global Note will be limited to Direct Participants or Indirect Participants, including, in the case of any Regulation S Global Note, the respective depositaries of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Registered Global Note accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Registered Global Note accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Note. In the case of any payment in a currency other than U.S. dollars, payment will be made to the FXAgent on behalf of DTC or its nominee and the FXAgent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Note in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participant's account.

Each Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. Each Issuer also expects that payments by Participants to beneficial owners of Notes will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Principal Paying Agent, the Registrar or the relevant Issuer. Payment of principal, premium, if any, and interest, if any, on Notes to DTC is the responsibility of the relevant Issuer.

Transfers of Notes Represented by Registered Global Notes

Transfers of any interests in Notes represented by a Registered Global Note within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Notes represented by a Registered Global Note to such persons may depend upon the ability to exchange such Notes for Notes in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Notes represented by a Registered Global Note accepted by DTC to pledge such Notes to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Notes may depend upon the ability to exchange such Notes for Notes in definitive form. The ability of any holder of Notes represented by a Registered Global Note accepted by DTC to resell, pledge or otherwise transfer such Notes may be impaired if the proposed transferee of such Notes is not eligible to hold such Notes through a Direct Participant or Indirect Participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described under "*Subscription and Sale and Transfer and Selling Restrictions*", cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Registrar, the Agent and any custodian ("**Custodian**") with whom the relevant Registered Global Notes have been deposited.

BOOK ENTRY CLEARANCE SYSTEMS

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Clearstream, Luxembourg and Euroclear and transfers of Notes of such Series between participants in DTC will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear, on the other, transfers of interests in the relevant Registered Global Notes will be effected through the Registrar, the Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among participants and accountholders of DTC, Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued or changed at any time. None of the relevant Issuer, the Agents or any Manager will be responsible for any performance by DTC, Clearstream, Luxembourg or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations, and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

ERISA MATTERS

A fiduciary of a pension, profit-sharing or other employee benefit plan governed by the Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), should consider the fiduciary standards of ERISA in the context of the ERISA plan's particular circumstances before authorizing an investment in the offered Securities of an Issuer. Among other factors, the fiduciary should consider whether such an investment is in accordance with the documents governing the ERISA plan and whether the investment is appropriate for the ERISA plan in view of its overall investment policy and diversification of its portfolio.

Certain provisions of ERISA and the Internal Revenue Code of 1986, as amended (the "**Code**"), prohibit employee benefit plans (as defined in Section 3(3) of ERISA) that are subject to Title I of ERISA, plans described in and subject to Section 4975 of the Code (including, without limitation, retirement accounts and Keogh plans), and entities whose underlying assets include "plan assets" by reason of an employee benefit plan's or a plan's investment in such entities (including, without limitation, as applicable, insurance company general accounts) (collectively, "**plans**"), from engaging in certain transactions involving "plan assets" with parties that are "parties in interest" under ERISA or "disqualified persons" under the Code with respect to the employee benefit plan, plan or entity. Governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA), non-U.S. plans (as described in Section 4(b)(4) of ERISA) and other plans that are not subject to ERISA or to Section 4975 of the Code may be subject to federal, state, local or non-U.S. law or regulation that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code ("**Similar Law**"). Any employee benefit plan, plan or entity, to which such provisions of ERISA, the Code or Similar Law apply, proposing to acquire the offered Securities (or any interest therein) should consult with its legal counsel.

The Issuers have affiliates, including insurance company affiliates and broker-dealer affiliates, that provide services to many plans. The Issuers and any of their such affiliates may each be considered a "party in interest" and a "disqualified person" to a large number of plans. A purchase of the offered Securities of an Issuer by any such plan would be likely to result in a prohibited transaction between the plan and the relevant Issuer.

Accordingly, unless otherwise provided in connection with a particular offering of Securities, offered Securities (and interests therein) may not be purchased, held or disposed of by, or on behalf of, any plan or any governmental, church, non-U.S. or other plan that is subject to any Similar Law.

The U.S. Department of Labor has promulgated a regulation, 29 C.F.R. Section 2510.3-101, as modified by Section 3(42) of ERISA (the "**Plan Asset Regulation**") describing what constitutes the "plan assets" of a plan with respect to the plan's investment in an entity. Under the Plan Asset Regulation, if a plan invests in an equity interest of an entity that is neither a publicly-offered security nor a security issued by an investment company registered under the Investment Company Act, the plan's assets include both the equity interest and an undivided interest in each of the entity's underlying assets, unless one of the exceptions to such treatment described in the Plan Asset Regulation applies. Under the Plan Asset Regulation, a security which is in debt form may be considered an equity interest if it has substantial equity features. If the relevant Issuer were deemed under the Plan Asset Regulation to hold "plan assets" by reason of a plan's investment in any of the Securities, such "plan assets" would include an undivided interest in the assets held by the relevant Issuer and transactions by the relevant Issuer would result in, among other things, (i) the application of the prudence and other fiduciary responsibility standards of ERISA to investments made by the relevant Issuer, and (ii) the possibility that certain transactions that the relevant Issuer might enter into, or may have entered into, in the ordinary course of business might constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code.

Unless otherwise provided in connection with a particular offering of Securities, any purchaser or transferee of the offered Securities (or any interest therein) will be deemed to have represented and warranted to the relevant Issuer on each day from the date of its acquisition of the offered Securities (or any interest therein) through and including the date of disposition of such offered Securities (or any interest therein) that:

ERISA MATTERS

- (a) it is not, and is not acting on behalf of, an employee benefit plan (as defined in Section 3(3) of ERISA) that is subject to the provisions of Title I of ERISA, a plan described in Section 4975(e)(1) of the Code to which Section 4975 of the Code applies, or an entity whose underlying assets include "plan assets" by reason of an employee benefit plan's or a plan's investment in the entity, and
- (b) it is not, and is not acting on behalf of, a governmental, church, non-U.S. or other plan that is subject to any federal, state, local or non-U.S. law or regulation that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code, and
- (c) it will not sell or otherwise transfer any such Securities (or any interest therein) to any person without first obtaining the same foregoing representations and warranties from that person.

If specified in the applicable Issue Terms, in connection with a particular offering of Notes, that such offered Notes (and interests therein) may be purchased, held or disposed of by, or on behalf of, a plan or a governmental, church, non-U.S. or other plan that is subject to any Similar Law, then any purchaser or transferee of such offered Notes (or any interest therein) will be deemed to have represented and warranted to the relevant Issuer on each day from the date of its acquisition of such offered Notes (or any interest therein) through and including the date of disposition of such offered Notes (or any interest therein) that:

- (a) either (i) it is not, and is not acting on behalf of, an employee benefit plan (as defined in Section 3(3) of ERISA) that is subject to the provisions of Title I of ERISA, a plan described in Section 4975(e)(1) of the Code to which Section 4975 of the Code applies, an entity whose underlying assets include "plan assets" by reason of an employee benefit plan's or a plan's investment in the entity, or a governmental, church, non-U.S. or other plan that is subject to any federal, state, local or non-U.S. law or regulation that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code, or (ii) its acquisition, holding and disposition of the offered Notes (or any interest therein) will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of such a governmental, church, non-U.S. or other plan, a violation of any such substantially similar law or regulation), and
- (b) it will not sell or otherwise transfer any such Notes (or any interest therein) to any person without first obtaining the same foregoing representations and warranties from that person.

Due to the complexity of these rules and the penalties imposed upon persons involved in prohibited transactions, it is important that any person considering the purchase of the offered Securities (or any interest therein) with "plan assets" consult with its counsel regarding the consequences under ERISA and the Code, or Similar Law, of the acquisition and ownership of offered Securities (or any interest therein).

United States

Warrants

The Warrants and, in the case of Warrants to be settled by physical delivery of securities, any such securities, have not been and will not be registered under the Securities Act or any state securities law and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act. The Warrants do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the Commodity

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

Exchange Act and trading in the Warrants has not been approved by the CFTC under the Commodity Exchange Act.

Each Manager will be required to agree, except as permitted by applicable law, not to offer, sell or deliver the Warrants (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the Issue Date within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each other Manager to which it sells Warrants (other than a sale pursuant to Rule 144A or another exemption from the registration requirements of the Securities Act) during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Warrants within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Warrants are being offered and sold outside of the United States to persons who are not U.S. persons in reliance on Regulation S and the Manager may directly or through its U.S. broker-dealer affiliate arrange for the offer and resale of Warrants within the United States only to qualified institutional buyers in private transactions exempt from the registration requirements of the Securities Act.

Moreover, upon the exercise of Warrants, each holder will be deemed to represent that either (a) the Warrants are not being exercised by or on behalf of a U.S. person or a person within the United States or (b) in certain circumstances, that the Warrants are being exercised by a QIB, as determined by the Issuer.

In addition, until 40 days after the commencement of the offering, an offer or sale of Warrants within the United States by the Manager that is not participating in the offering may violate the registration requirements of the Securities Act.

Warrants shall be subject to the selling restrictions set out in this section and also to such additional U.S. selling restrictions as the relevant Issuer or, as the case may be, each Manager may agree as a term of the issuance and purchase of such Warrants, which additional selling restrictions shall be set out in a supplement to this Base Prospectus, any other relevant offering document or, in respect of Exempt Warrants, the applicable Pricing Supplement. Each Manager of an issue of such Warrants will be required to agree that it will offer, sell or deliver such Warrants only in compliance with such additional U.S. selling restrictions.

Notes

The Notes and, in the case of Notes to be redeemed by physical delivery of securities, any such securities have not been and will not be registered under the Securities Act or any state securities law and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act. The Notes do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the Commodity Exchange Act and trading in the Notes has not been approved by the CFTC under the Commodity Exchange Act.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder. The applicable Issue Terms will identify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

In connection with any Notes which are offered or sold outside the United States to persons who are not U.S. persons in reliance on the registration safe harbour provided by Regulation S ("**Regulation S Notes**"), each Manager will be required to represent and agree, that it will not offer, sell or deliver such Regulation S Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the

completion of the distribution, of all Notes of the Tranche of which such Regulation S Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Accordingly, neither the Manager, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to the Notes, and it and they have complied and will comply with the offering restrictions requirement of Regulation S. Each Manager appointed under the Programme will be required to agree that, at or prior to confirmation of sale of the Notes, it will send to each dealer to which it sells any Regulation S Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Regulation S Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any Manager that is not participating in the offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

This Base Prospectus has been prepared by the relevant Issuer for use in connection with the offer and sale of the Notes outside the United States and for the resale of the Notes in the United States. The relevant Issuer and the Managers reserve the right to reject any offer to purchase the Notes, in whole or in part, for any reason. This Base Prospectus does not constitute an offer to any person in the United States or to any U.S. person, other than any QIB within the meaning of Rule 144A to whom an offer has been made directly by one of the Managers or its U.S. broker-dealer affiliate. Distribution of this Base Prospectus by any person who is not a U.S. person outside the United States or by any QIB in the United States to any U.S. person or to any other person within the United States, other than any QIB and those persons, if any, retained to advise such person or QIB with respect thereto, is unauthorised and any disclosure without the prior written consent of the relevant Issuer of any of its contents to any such U.S. person or other person within the United States, other than any QIB and those persons, if any, retained to advise such person or QIB, is prohibited.

Managers may arrange for the resale of Notes to QIBs pursuant to Rule 144A and each such purchaser of Notes is hereby notified that the Managers may be relying on the exemption from the registration requirements of the Securities Act provided by Rule 144A or another exemption from the registration requirements of the Securities Act, and one or more exemptions and/or exclusions from regulation under the Commodity Exchange Act. To the extent that the relevant Issuer is not subject to or does not comply with the reporting requirements of Section 13 or 15(d) of the Exchange Act or the information furnishing requirements of Rule 12g3-2(b) thereunder, the relevant Issuer has agreed to furnish to holders of Notes and to prospective purchasers designated by such holders, upon request, such information as may be required by Rule 144A(d)(4).

Certificates

The Certificates and, in the case of Certificates to be redeemed by physical delivery of securities, any such securities have not been and will not be registered under the Securities Act or any state securities law and may not be offered, sold, or delivered within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act. Trading in the Certificates has not been approved by the CFTC under the United States Commodity Exchange Act, as amended.

Each Manager will be required to agree, except as permitted by applicable law, not to offer, sell or deliver the Certificates (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the Issue Date within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each other Manager to which it sells Certificates (other than a sale pursuant to Rule 144A or another exemption from the registration requirements of the Securities Act) during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Certificates within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Certificates are being offered and sold outside of the United States to persons who are not U.S. persons in reliance on Regulation S and the Manager may directly or through its U.S. broker-dealer affiliate arrange for the offer and resale of Certificates within the United States only to qualified institutional buyers in private transactions exempt from the registration requirements of the Securities Act.

In addition, until 40 days after the commencement of the offering, an offer or sale of Certificates within the United States by the Manager that is not participating in the offering may violate the registration requirements of the Securities Act.

Description of Ratings

"A" by Moody's Singapore or Moody's Hong Kong: Obligations rated "A" are judged to be upper-medium grade and are subject to low credit risk. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category.

"A" by S&P or S&P Singapore: An obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitments on the obligation is still

strong. Ratings may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.

"A" by Fitch or Fitch Singapore: 'A' ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories.

To the extent that there is any inconsistency between (a) any statement in this Base Prospectus Supplement or any statement incorporated by reference in the Base Prospectus by this Base Prospectus Supplement and (b) any other statement in or incorporated by reference in the Base Prospectus, the statements in (a) above will prevail.

Copies of this Base Prospectus Supplement and the Base Prospectus will be available on the website of Euronext Dublin at www.ise.ie for a period of 12 months from the date of the Base Prospectus.

Save as disclosed in this Base Prospectus Supplement (including any documents incorporated by reference therein), no other significant new factor, material mistake or material inaccuracy relating to information included in the Base Prospectus has arisen or been noted, as the case may be, since the publication of Base Prospectus Supplement No.1 which is capable of affecting the assessment of any Securities.

SCHEDULE 1

AMENDMENTS TO THE RISK FACTORS

The Risk Factors are amended by the insertion of the following paragraphs at the end of Risk Factor 10.4 on page 85 of the Base Prospectus:

"Future discontinuance of an –IBOR may adversely affect the value of Securities which reference such benchmark

Investors should be aware that, if an -IBOR were discontinued or otherwise unavailable, amounts payable on the Securities which reference such -IBOR will be determined for the relevant period by the fall-back provisions applicable to such Securities which may (depending on market circumstances at the relevant time) not operate as intended. Depending on the manner in which the relevant -IBOR rate is to be determined under the Conditions, this may in certain circumstances (i) be reliant upon the provision by reference banks of offered quotations for the -IBOR rate which, depending on market circumstances, may not be available at the relevant time or (ii) be determined by the Calculation Agent having regard to comparable rates, any adjustments made to related hedging arrangements, relevant information, industry developments and market approaches. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any of the Securities.

In addition to the above, if specified as applicable in the applicable Issue Terms in respect of Notes which reference USD LIBOR and for which Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the General Terms and Conditions of the Notes provide for certain fallback arrangements where a relevant Benchmark Transition Event and its related Benchmark Replacement Date have occurred (which includes (i) the permanent discontinuation of the relevant benchmark, or (ii) the relevant benchmark being deemed no longer representative of its underlying market). These fallback arrangements may require or result in adjustments to the interest calculation provisions of the Notes. Even prior to the implementation of any changes to any benchmark, or to the interest calculation provisions based on such benchmark, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect the operation of such benchmark during the term of the relevant Notes, as well as potentially adversely affecting both the return on any Notes which are linked to or which reference such benchmark and the trading market for such Notes. The fallback arrangements referenced above will include the possibility that the relevant rate of interest (or, as applicable, component thereof) could be set or, as the case may be, determined by reference to a replacement rate determined by the Calculation Agent.

In certain circumstances, the ultimate fallback for a particular Interest Period, where no replacement rate is determined, may be the Rate of Interest determined as specified in the first paragraph in this section. Due to the uncertainty concerning the availability of successor rates and alternative rates, the relevant fallback provisions may not operate as intended at the relevant time.

Any such consequences could have a material adverse effect on the value of and return on any such Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant rate could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate Notes. Investors should consider all of these matters when making their investment decision with respect to the relevant Securities."

SCHEDULE 3

AMENDMENTS TO THE GENERAL TERMS AND CONDITIONS OF THE NOTES

The General Terms and Conditions of the Notes are amended as follows:

- (i) Condition 4(b)(i)(II)(2) is amended by the deletion of the second paragraph (beginning "If (i) the Relevant Screen Page is not available ...") of that Condition on page 314 of the Base Prospectus and the substitution of the following therefor:

"If (i) the Relevant Screen Page is not available or (ii) in the case of (A) above, no such offered quotation appears or (iii) in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph, or (iv) the Rate of Interest, including in the case of any Relevant Benchmark, is unavailable or cannot be determined pursuant to this Condition 4(b) the Calculation Agent may determine the relevant Rate of Interest having regard to comparable benchmarks then available, the adjustments made in relation to any hedging arrangements in respect of the Notes, relevant information (as described in Condition 12 (*Determinations and Calculations*) below), industry developments and market approaches, including if applicable any appropriate industry-accepted successor rate (which may include a rate selected or recommended by a relevant trade association, working group or committee) or a rate that has been selected or recommended by the central bank for the currency of the Reference Rate, where applicable for the corresponding tenor to the Reference Rate, and may make such adjustments, if any, to the Conditions as it determines appropriate to reflect the determination of the Rate of Interest by reference to such comparable rate. Such adjustments may include adjusting any replacement rate by an adjustment spread which may be positive or negative."

- (ii) The following is inserted as a new Condition 4(e) on page 324 of the Base Prospectus:

"(e) Benchmark Discontinuation

- (A) Notwithstanding any other provisions to the contrary in the Conditions but without prejudice to Condition 22 (*Redemption or Adjustment for an Administrator/Benchmark Event*), if Benchmark Discontinuation is specified as applicable in the applicable Issue Terms and the Calculation Agent determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any determination of the Relevant Benchmark on any date, the Benchmark Replacement will replace the then-current Relevant Benchmark for all purposes relating to the Notes in respect of such determination on such date and all determinations on all subsequent dates (including, without limitation, for the purposes of any Rate of Interest determined by reference to the then-current Relevant Benchmark).
- (B) In connection with the implementation of a Benchmark Replacement, the Calculation Agent will have the right to make Benchmark Replacement Conforming Changes from time to time without the consent of the Noteholders, Receiptholders or Couponholders.
- (C) Any determination, decision or election that may be made by the Calculation Agent pursuant to this Condition 4(e), including, without limitation, any determination with respect to tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error, will be made in Calculation Agent's sole and absolute discretion, and, notwithstanding anything to the contrary in the Conditions,

shall become effective without the consent from the Noteholders or any other party.

- (D) Notwithstanding any other provision of this Condition 4(e), if, in the determination of the Calculation Agent, it is not commercially reasonable for the Calculation Agent to determine the Benchmark Replacement, including being unable or unwilling to make such determination under limb e.i. of the definition of "Benchmark Replacement", the relevant Rate of Interest Rate shall be determined as set out in Condition 4(b).

This paragraph (D) shall apply to the relevant Interest Period only. Any subsequent Interest Period(s) shall be subject to the subsequent operation of, and adjustment as provided in, this Condition 4(e).

- (E) As used in this Condition 4(e):

"Benchmark Replacement" means the Interpolated Benchmark, provided that if the Calculation Agent cannot determine the Interpolated Benchmark as of the Benchmark Replacement Date, then "Benchmark Replacement" means the first alternative set forth in the order below that can be determined by the Calculation Agent as of the Benchmark Replacement Date:

- a. the sum of:
 - i. Term SOFR; and
 - ii. the Benchmark Replacement Adjustment;
- b. the sum of:
 - i. Compounded SOFR; and
 - ii. the Benchmark Replacement Adjustment;
- c. the sum of:
 - i. the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Relevant Benchmark (where applicable) for the applicable Corresponding Tenor; and
 - ii. (where applicable) the Benchmark Replacement Adjustment (if any);
- d. the sum of:
 - i. the ISDA Fallback Rate; and
 - ii. the Benchmark Replacement Adjustment (if any),

unless the Calculation Agent determines in its sole discretion that the ISDA Fallback Rate is not an industry-accepted rate of interest as a replacement for the then-current Relevant Benchmark for U.S. dollar denominated floating rate notes at such time; or

- e. the sum of:
 - i. the alternate rate of interest that has been selected by the Calculation Agent as the replacement for the then-current Relevant Benchmark (where applicable) for the applicable Corresponding Tenor giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Relevant Benchmark for U.S. dollar denominated floating rate notes at such time; and
 - ii. the Benchmark Replacement Adjustment (if any);

"Benchmark Replacement Adjustment" means the first alternative set forth in the order below that can be determined by the Calculation Agent as of the Benchmark Replacement Date:

- a. the spread adjustment, or method for calculating or determining such spread adjustment (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- b. if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, then the ISDA Fallback Adjustment;
- c. the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Calculation Agent giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Relevant Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time;

"Benchmark Replacement Conforming Changes" means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including, without limitation, changes to the definition of "Interest Period", timing and frequency of determining rates and making payments of interest, tenors and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Calculation Agent determines is reasonably necessary);

"Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current Relevant Benchmark:

- a. in the case of sub-clauses a. or b. of the definition of "Benchmark Transition Event", the later of:
 - i. the date of the public statement or publication of information referenced therein; and

- ii. the date on which the administrator of the Relevant Benchmark permanently or indefinitely ceases to provide the Relevant Benchmark; or
- b. in the case of sub-clause c. of the definition of "Benchmark Transition Event", the effective date as of which the Relevant Benchmark will no longer be representative, which may be the date of the public statement or publication of information referenced in the definition of "Benchmark Transition Event" or another date.

For the avoidance of doubt, if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination.

For the purposes of the above, references to "Relevant Benchmark" shall include any daily published component used in the calculation of the then-current Relevant Benchmark;

"Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current Relevant Benchmark:

- a. a public statement or publication of information by or on behalf of the administrator of the Relevant Benchmark announcing that such administrator has ceased or will cease to provide the Relevant Benchmark, permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Relevant Benchmark;
- b. a public statement or publication of information by the regulatory supervisor for the administrator of the Relevant Benchmark, the central bank for the currency of the Relevant Benchmark, an insolvency official with jurisdiction over the administrator for the Relevant Benchmark, a resolution authority with jurisdiction over the administrator for the Relevant Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Relevant Benchmark, which states that the administrator of the Relevant Benchmark has ceased or will cease to provide the Relevant Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Relevant Benchmark; or
- c. a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer, or as of a specified future date will no longer be, representative.

For the purposes of the above, references to "Relevant Benchmark" shall include any daily published component used in the calculation of the then-current Relevant Benchmark;

"Compounded SOFR" means the compounded average of SOFRs for the applicable Corresponding Tenor, with the rate, or methodology for this rate,

and conventions for this rate (which, for example, may be compounded in arrears with a lookback and/or suspension period and/or backward shifted observation period as a mechanism to determine the interest amount payable prior to the end of each Interest Period) being established by the Calculation Agent in accordance with:

- a. the rate, or methodology for this rate, and conventions for this rate selected or recommended by the Relevant Governmental Body for determining compounded SOFR; provided that:
- b. if, and to the extent that, the Calculation Agent determines that Compounded SOFR cannot be determined in accordance with subclause a. of this definition of "Compounded SOFR", then the rate, or methodology for this rate, and conventions for this rate that have been selected by the Calculation Agent giving due consideration to any industry accepted market practice for U.S. dollar denominated floating rate notes at such time.

"Corresponding Tenor", with respect to a Benchmark Replacement, means a tenor (including overnight) having approximately the same length (disregarding business day adjustment) as the applicable tenor for the then-current Relevant Benchmark;

"Federal Reserve Bank of New York's Website" means the website of the Federal Reserve Bank of New York at <http://www.newyorkfed.org> or any successor source;

"Interpolated Benchmark", with respect to the Relevant Benchmark, means the rate determined for the Corresponding Tenor by interpolating on a linear basis between:

- a. the Relevant Benchmark for the longest period (for which the Relevant Benchmark is available) that is shorter than the Corresponding Tenor; and
- b. the Relevant Benchmark for the shortest period (for which the Relevant Benchmark is available) that is longer than the Corresponding Tenor;

"ISDA Fallback Adjustment" means the spread adjustment, (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the Relevant ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Relevant Benchmark (where applicable) for the applicable tenor;

"ISDA Fallback Rate" means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Relevant Benchmark (where applicable) for the applicable tenor excluding the applicable ISDA Fallback Adjustment;

"LIBOR" means the London Interbank Offered Rate;

"Reference Time", with respect to any determination of the Relevant Benchmark, means:

- a. if the Relevant Benchmark is USD LIBOR, 11:00 a.m. (London time) on the day that is two London Business Days preceding the date of such determination; and
- b. if the Relevant Benchmark is not USD LIBOR, the time determined by the Calculation Agent in accordance with the Benchmark Replacement Conforming Changes;

"Relevant Benchmark" means, initially, USD LIBOR of the appropriate tenor; provided that if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to USD LIBOR or the then-current Relevant Benchmark, then "Relevant Benchmark" means the applicable Benchmark Replacement;

"Relevant Governmental Body" means the Federal Reserve Board and/or the Federal Reserve Bank of New York (or any board thereof), or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto;

"Relevant ISDA Definitions" means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association Inc. or any successor thereto, as amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time.

"SOFR", with respect to any day, means the secured overnight financing rate published for such day by or on behalf of the Federal Reserve Bank of New York, as the administrator of such rate, (or any successor administrator) on the Federal Reserve Bank of New York's Website;

"Term SOFR" means the forward-looking term rate for the applicable Corresponding Tenor based on SOFR that has been selected or recommended by the Relevant Governmental Body; and

"Unadjusted Benchmark Replacement" means the Benchmark Replacement excluding the Benchmark Replacement Adjustment."

SCHEDULE 1

AMENDMENTS TO THE COVER PAGES AND OVERVIEW OF THE PROGRAMME

The cover pages set out on pages 1 to 12 of the Base Prospectus are amended as follows:

- (a) The last paragraph of the sub-section entitled "*Terms and Conditions*" on page 3 of the Base Prospectus is deleted and replaced by the following:

"In relation to each issue of Securities, the "**Conditions**" of such Securities are the above Terms and Conditions as completed by the relevant Issue Terms, to which may be attached (in relation to Warrants only) a summary of the Conditions. As the minimum denomination of a Note and the minimum issue price of a Certificate, which in either case, is admitted to trading on an European Economic Area ("**EEA**") exchange or offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation, is €100,000, a summary is only required in relation to Warrants which are admitted to trading on an EEA exchange or offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation, and not to Notes or Certificates (see also "*Denominations*" on page 5 below)."

- (b) The first paragraph of the sub-section entitled "*Listing*" on page 4 of the Base Prospectus is deleted and replaced by the following:

"This Base Prospectus has been approved as a base prospectus by the Central Bank of Ireland (the "**Central Bank**"), as competent authority under the Prospectus Regulation. The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuers or of the quality of the Notes. Investors should make their own assessment as to the suitability of investing in the Notes. Such approval relates only to the Securities which are to be admitted to trading on a regulated market in the EEA for the purposes of Directive 2014/65/EU (the "**Markets in Financial Instruments Directive**") and/or which are to be offered to the public in any Member State of the EEA in circumstances which require the publication of a prospectus."

- (c) The fourth paragraph of the sub-section entitled "*Listing*" on page 4 of the Base Prospectus is deleted and replaced by the following:

"This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Notes which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid."

- (d) The paragraph of the sub-section entitled "*Requirement to publish a prospectus*" on page 5 of the Base Prospectus is deleted and replaced by the following:

"The requirement to publish a prospectus under the Prospectus Regulation only applies to Securities which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. References in this Base Prospectus to "**Exempt Securities**" are to Securities for which no prospectus is required to be published under the Prospectus Regulation (including, for the avoidance of doubt, Certificates). The Central Bank has

neither approved nor reviewed information contained in this Base Prospectus in connection with Exempt Securities."

- (e) The paragraph of the sub-section entitled "*Denominations*" on page 5 of the Base Prospectus is deleted and replaced by the following:

"Warrants have no individual denomination and may be acquired for an issue price of less than €100,000 per Warrant. Notes will be issued in such denominations as may be specified by the relevant Issuer save that the minimum denomination of each Note admitted to trading on a regulated market in the EEA will be €100,000 (or if the Notes are denominated in a currency other than euro, the equivalent amount in such currency) or such higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to any relevant currency specified in the Issue Terms. In the event that any Certificates are admitted to trading on a regulated market in the EEA, such Certificates will have a minimum issue price per Certificate of €100,000 (or the equivalent in any other currency). No Securities issued pursuant to this Base Prospectus will be offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation."

- (f) The first paragraph of the sub-section entitled "*Terms of issuances*" on page 5 of the Base Prospectus is deleted and replaced by the following:

"Each issue of Securities will be issued on the terms set out in this Base Prospectus and/or any documents incorporated by reference herein and in the relevant Issue Terms which (with respect to Securities to be listed on the Official List) will be filed with Euronext Dublin on or before the date of issue of the Securities of the relevant Tranche (as defined herein). The Issuers may issue Securities under the Programme which are intended to be listed on the Official List and which are in a form not contemplated herein and/or may issue Securities which are to be offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation, in which event, a "unitary" or "series" prospectus or a supplement to this Base Prospectus will be made available which will set out the relevant terms applicable to such Securities and/or such offer."

- (g) The paragraph of the sub-section entitled "*The offering and sale of securities and the distribution of documents relating thereto is restricted*" on page 6 of the Base Prospectus is deleted and replaced by the following:

"Restrictions have been imposed on offers and sales of the Securities and on the distribution of documents relating thereto in the United States of America, the United Kingdom and the EEA. The distribution of this document and offers and sales of the Securities in certain other jurisdictions may also be restricted by law. Persons into whose possession this document comes are required by the relevant Issuer to inform themselves about, and to observe, any such restrictions. See "*Subscription and Sale and Transfer and Selling Restrictions*" below."

- (h) The paragraph of the sub-section entitled "*Offers to be made pursuant to an exemption under the Prospectus Regulation*" on page 7 of the Base Prospectus is deleted and replaced by the following:

"This Base Prospectus has been prepared on the basis that any offer of Securities in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of Securities. Accordingly any person making or intending to make an offer in that Member State of Securities which are the subject of an offering contemplated in this Base Prospectus as completed by Issue Terms in relation to the offer of those Securities may only do so in circumstances in which no obligation arises for the relevant Issuer or any Manager to publish a prospectus pursuant to Article 3 of the Prospectus

Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. None of the Issuers and any Manager has authorised, nor do any of them authorise, the making of any offer of Securities in circumstances in which an obligation arises for the Issuers or any Manager to publish or supplement a prospectus for such offer."

- (i) The paragraph of the sub-section entitled "*IMPORTANT – EEA AND UK Retail Investors*" of the cover page (as set out on page 9 of the Base Prospectus) is deleted and replaced by the following:

"IMPORTANT – EEA Retail Investors

If the Issue Terms in respect of any Securities includes a legend entitled "*Prohibition of Sales to EEA Retail Investors*", from the Issue Date (or from such later date as is specified in the applicable Issue Terms) such Securities are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation."

- (j) The following is inserted as a new sub-section on page 9 of the Base Prospectus, immediately above the sub-section entitled "*Benchmarks*":

"IMPORTANT – UK RETAIL INVESTORS – If the Issue Terms in respect of any Securities includes a legend entitled "*Prohibition of Sales to UK Retail Investors*", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 ("**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA ("**UK MiFIR**"); or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (the "**UK Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation."

- (k) The paragraph under the heading "*Listing and Admission to Trading*" of the sub-section entitled "*General*" in the Overview of the Programme section of the Base Prospectus (as set out on page 20 of the Base Prospectus) is deleted and replaced by the following:

**"Listing and Admission
to Trading:**

Securities issued under the Programme may be admitted to the Official List of Euronext Dublin and to trading on its regulated market or its Global Exchange Market. The Securities may also be unlisted, or listed on such other or further stock exchange(s) as may be specified by the relevant Issuer in relation to each Series.

The minimum denomination of each Note admitted to trading on a regulated market in the EEA will be €100,000 (or equivalent) or such higher amount as may be allowed or required from time to time. In the event that any Certificates are admitted to trading on a regulated market in the EEA, such Certificates will have a minimum issue price per Certificate of €100,000 (or the equivalent in any other currency)."

SCHEDULE 2

AMENDMENTS TO THE RISK FACTORS

The Risk Factors set out on pages 24 to 86 of the Base Prospectus are amended as follows:

- (a) The second paragraph of Risk Factor 1.1 of the section entitled "*Risks Relating to the Group and its Business Operations*" set out on page 25 of the Base Prospectus is deleted and replaced by the following:

"Asia, led by the People's Republic of China ("**China**"), remains the main driver of global economic activity levels. In particular, Greater China, North Asia and South East Asian economies remain key strategic regions for the Group. The emergence of the novel strain of the coronavirus identified in China in late 2019 ("**COVID-19**") has impacted the Group's overall macroeconomic and operating environment; see the risk factor titled "*The novel coronavirus outbreak, and the emergence of new diseases, could materially and adversely affect the business, results of operations and financial condition of the Issuers and of the Group*" for further disclosure on the impact of the COVID-19 pandemic on the Group. While China is currently on target to be the first large market to rebound from the COVID-19 slowdown and is currently on track for recovery, the timing and level of any recovery remains subject to significant uncertainty."

- (b) Risk Factor 1.2 of the section entitled "*Risks Relating to the Group and its Business Operations*" set out on pages 25 and 26 of the Base Prospectus is deleted and replaced by the following:

"The novel coronavirus outbreak, and the emergence of new diseases, could continue to materially and adversely affect the business, results of operations and financial condition of the Issuers and of the Group

The COVID-19 pandemic has resulted in authorities implementing numerous measures to try to contain the virus, such as travel bans and restrictions, curfews, quarantines and shut downs, and has led to increased volatility and declines in financial markets and severe economic downturn in many countries.

The COVID-19 pandemic, its economic fallout and increased cyber threats have impacted companies globally, resulting in significant pressure on the financial health and security of suppliers, vendors and other third parties that the Group relies upon.

The spread of COVID-19 has led the Group to modify its business practices, including the imposition of restrictions on employee travel, changes to working locations and the cancellation of physical participation in meetings. The Group may take further actions required by authorities or that it determines are in the best interests of its employees, customers, partners or suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the COVID-19 pandemic, and the implementation of such measures (or their insufficiency) could harm the Group's ability to perform critical functions. The unavailability of staff could adversely impact the quality and continuity of service to customers and the reputation of the Group.

The further economic impact of the COVID-19 pandemic will depend on the continuing development of the virus, the responses of the authorities and the global community and the efficacy with which vaccines are developed, approved, produced, distributed and administered, and the extent to which administered vaccines are able to reduce the spread and impact of the virus. Although recently announced vaccine developments offer the possibility of reducing the duration and easing the scale and healthcare impact of the COVID-19 pandemic, the degree to which the COVID-19 pandemic continues to impact the Group's results will depend on future developments, which, as at the date of this Base Prospectus, remain highly uncertain and cannot be predicted. These developments may include, but are not limited to, the duration and spread of the outbreak, its severity, actions taken to contain the virus or treat its impact, the extent and effectiveness of immunisation efforts, the extent and effectiveness of economic stimulus packages and how quickly and to what extent normal economic and operating conditions can resume. In the medium- to long-term, if the spread of COVID-19 is prolonged further, or further

diseases emerge that give rise to similar macroeconomic effects, macroeconomic conditions will continue to be adversely affected and could lead to further economic downturn in countries where the Group operates and the global economy more broadly (which could be widespread, severe and long lasting). The ability of the Group's customers to comply with their contractual obligations, including to the Group, may also be materially adversely affected. The factors described above could, together or individually, have a material adverse impact on the business, results of operations and financial condition of the Issuers and of the Group."

(c) The bullet point paragraphs of Risk Factor 1.3 of the section entitled "*Risks Relating to the Group and its Business Operations*" set out on pages 26 to 27 of the Base Prospectus are deleted and replaced by the following:

- "The Group derives significant revenues from supporting cross-border trade and material offshore support operations. The adoption of additional protectionist policies driven by nationalist agendas could disrupt established supply chains and invoke retaliatory actions. Countries may introduce or increase tariffs on goods and services from other jurisdictions. In addition, authorities in several jurisdictions in the Group's footprint continue to adopt stringent standards on outsourcing or offshoring activities and there is an increased focus on priority sector lending requirements. The adoption of any such policies and standards could have a material adverse impact on the Group's revenues from affected operations.
- Tensions between the U.S. and China, driven by trade imbalance and geopolitical tensions, continue to rise. The situation is rapidly changing and remains fragile, particularly given the backdrop of actions taken by the U.S. and China in relation to trade tariffs imposed on respective imports since 2018, the politics evolving around the COVID-19 pandemic, and China's protest over the U.S. Senate's passing of the Hong Kong Human Rights and Democracy Act. In addition, on 14 July, 2020 the U.S. President signed into law the Hong Kong Autonomy Act ("**HKAA**") and issued an Executive Order, providing authority to impose primary sanctions against non-U.S. entities and individuals determined to have undermined Hong Kong's autonomy. The HKAA also provides authority to impose secondary sanctions against non-U.S. financial institutions determined to have knowingly conducted a significant transaction for any individual or entity subject to primary sanctions under the HKAA. On 12 November, 2020, President Trump issued an executive order prohibiting U.S. persons from "transacting" in publicly traded securities of "Communist Chinese military companies" ("**CCMCs**"). The new restrictions initially targeted 31 companies that had been identified by the U.S. Department of Defense as CCMCs. On 3 December, 2020, the U.S. Department of Defense released the names of four further companies identified by it as CCMCs. Extended U.S.-China tensions could destabilise the world economy. There have been isolated cases where the Group's management team decided to terminate sensitive client relationships, but such circumstances remain rare.
- Hong Kong remains the largest profit contributor to the Group. The combined effect of various factors, including uncertainty over U.S.-China relations and the COVID-19 pandemic, has led to a notable slowdown in Hong Kong's economy, which shrank by 9.1 per cent., 9.0 per cent. and 3.5 per cent. in Q1, Q2 and Q3 2020 year-on-year respectively. In addition, China's move to impose national security laws in Hong Kong resulted in the U.S. announcing its withdrawal of privileges granted to Hong Kong under the U.S.-Hong Kong Policy Act of 1992.
- Hong Kong's standing as an international financial centre could be at risk if there is a resulting loss in confidence in the convertibility of HK dollars and the freedom of capital movement. U.S. tariffs on China and restrictions on technology transfer and investment could also become applicable to Hong Kong. Until the full impact of the actions already taken and any further actions taken by the U.S. becomes clear, it will not be possible to assess their impact on the Group, which impact could be significant.
- The Group has a material presence across the Middle East. In 2020, there was continued political and military volatility across the Middle East with Iran, Saudi Arabia, the UAE and the U.S. as the key actors. Continued or worsening volatility could destabilise the region's economy or disrupt the Group's operations in the Middle East.

- In relation to the UK's exit from the EU on 31 January, 2020 ("**Brexit**"), the UK and the EU Commission announced on 24 December, 2020 that they had reached agreement on a draft EU-UK Trade and Cooperation Agreement ("**TCA**"). The TCA covers a number of topics, including trade in goods and in services, digital trade, intellectual property, public procurement, aviation and road transport, energy, fisheries, social security coordination, law enforcement and judicial cooperation in criminal matters, thematic cooperation and participation in EU programmes. However, the TCA does not cover financial services (other than through a general undertaking to ensure the implementation and application of internationally agreed standards in the financial services sector for regulation and supervision), leaving decisions of "equivalence" and "adequacy" to be determined by each side unilaterally in due course. The UK Parliament ratified the UK's entry into, and implementation of, the TCA on 30 December, 2020 pursuant to the EU (Future Relationship) Act 2020. Although the text of the TCA has been agreed by the European Commission, it remains subject to final approvals from the Council of Europe and the European Parliament. To provide time for these approvals to be obtained, the TCA will apply on a provisional basis until 28 February, 2021. Uncertainty regarding the final terms and permanent application of the TCA will remain until it has been ratified in the EU. More broadly, the impact of Brexit on the economic outlook of the Eurozone and the UK, and associated global implications, remain uncertain notwithstanding agreement of the TCA. This is particularly the case in relation to the financial services sector, where the extent of EU market access granted to UK financial services companies remains subject to further discussion and will rely heavily on EU determinations of equivalence in relation to the UK's regulatory regime (which cannot be assured, particularly where UK regulatory standards diverge from those of the EU).
- 2019 and 2020 saw a surge in protests globally. These protests may increase in frequency and magnitude as economic growth proves challenging, whilst health systems and food shortages are becoming more significant factors in driving social unrest. Energy, food transportation and nature all depend on clean, flowing water, the availability of which is limited and becoming an increasing concern.
- There are increasing concerns regarding the global geopolitical implications of the rise of populism and nationalism. Policies such as income redistribution, public spending increases, a rise in trade barriers and tariffs, tax cuts, restrictions on immigration and pro-nationalist or anti-globalism rhetoric pose a risk to long-term economic progress."

- (d) The fourth and fifth paragraphs of Risk Factor 1.4 of the section entitled "*Risks Relating to the Group and its Business Operations*" set out on pages 27 to 28 of the Base Prospectus are deleted and replaced by the following:

"The Group has an existing commitment to measure, monitor and ultimately reduce the emissions associated with the financing of its clients, and to align lending portfolios to the Paris Agreement. In December 2019, the BoE published a Discussion Paper setting out its proposal for the 2021 Biennial Exploratory Scenario ("**BES**") on Climate Risks. The objective is to test the resilience of the largest banks' and insurers' exposure to Climate Risks, as well as that of the financial system more generally. In response to feedback on the Discussion Paper, the BoE published its decision to restart the BES on 13 November, 2020. The BoE expects to publish its final BES in the first half of 2021, and the results in 2022. The Group also anticipates regulatory guidance and expectation in respect of Climate Risks in many of the Group's other markets to increase. Compliance with climate-related policies and guidelines is expected to result in incremental costs, particularly where there is fragmentation in policies and guidelines among different regulators focused on local requirements, as well as an increased risk of penalties or sanctions for non-compliance with such policies and guidelines.

Such regulatory developments, together with existing guidance and expectations, may have significant impacts, for example, on energy infrastructure developed in the Group's markets, and thus present 'transition' risks for the Group's clients, and may affect demand for financial products and services. Conversely, if governments fail to enact policies which limit global warming, many of the Group's markets and operations will be particularly susceptible to the 'physical' risks of climate change such as droughts, floods, sea level change and average temperature change."

- (e) Risk Factor 1.5 of the section entitled "*Risks Relating to the Group and its Business Operations*" set out on pages 28 to 29 of the Base Prospectus is deleted and replaced by the following:

"The Group is exposed to risks relating to the integrity and continued existence of reference rates

In July 2017, the CEO of the UK Financial Conduct Authority ("**FCA**") announced that beyond 2021 the FCA would no longer seek to compel panel banks to submit quotes to the London Interbank Offered Rate ("**LIBOR**"). The BoE and FCA Working Group on Sterling Risk-Free Rates (the "**RFRWG**") have been mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("**SONIA**") across sterling bond, loan and derivative markets so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021. Whilst SCB does not submit to LIBOR, LIBOR is heavily relied upon by the Group as a reference rate.

In a public letter dated 16 January, 2020, in which the Prudential Regulation Authority ("**PRA**") and the FCA set out their initial expectations for transition from GBP LIBOR to SONIA during 2020, the PRA and the FCA referred to a series of targets set for 2020 by the RFRWG. Those targets include, for instance, that firms should cease issuance of GBP LIBOR-based cash products maturing beyond 2021 by the end of Q1 2021. Accordingly, the continuation of LIBOR in its current form will not be guaranteed after 2021, and it is likely that several panel banks will cease contributing to LIBOR from 2022, leading to LIBOR's cessation. Given this, the FCA called for the industry to start preparing for LIBOR cessation by transitioning from Interbank Offered Rates ("**IBORs**") to risk-free rates ("**RFRs**"), such as SONIA.

On 7 May, 2020, the BoE published a market notice (the "**Market Notice**") relating to: (i) haircut add-ons that will be applied to LIBOR linked collateral; and (ii) the eligibility of LIBOR linked collateral for the purposes of the Sterling Monetary Framework ("**SMF**"). For these purposes, the phrase 'LIBOR linked collateral' means: (a) LIBOR linked loan portfolios, (b) collateral securities where the coupon pays a rate of interest calculated by reference to LIBOR; (c) collateral securities where embedded swap payments are calculated by reference to LIBOR; and (d) collateral securities backed by loans where one or more loans in the portfolio is a LIBOR linked loan. Under the terms of the Market Notice, the haircut add-on to LIBOR linked collateral will be 10 percentage points from 1 April, 2021, 40 percentage points from 1 September, 2021 and 100 percentage points from 31 December, 2021. The Market Notice also provides that: (x) from 1 April, 2021, all LIBOR linked collateral securities issued on or after that date and maturing after 31 December, 2021, where LIBOR is the applicable reference rate, will be ineligible for use in the SMF; and (y) from 31 December, 2021, all LIBOR linked collateral, regardless of the issuance or origination date, will be ineligible for use in the SMF. Throughout the Market Notice LIBOR refers to GBP LIBOR, USD LIBOR, EUR LIBOR, JPY LIBOR and CHF LIBOR. The measures proposed by the BoE in relation to LIBOR linked collateral may have an adverse financial impact on the Group to the extent that any member of the Group has an exposure to, or has posted, such collateral.

On 30 November, 2020, the Intercontinental Exchange Benchmark Administration ("**IBA**"), as LIBOR's administrator, announced that it will consult the market on its intention to cease publication of:

- one week and two month USD LIBOR at the end of 2021; and
- the overnight and one month, three month, six month, and 12 month USD LIBOR at the end of June 2023.

Previously, on 18 November, 2020, the IBA had announced that it would consult the market on its intention to cease publication of all tenors of the GBP LIBOR, EUR LIBOR, CHF LIBOR and JPY LIBOR.

A single consultation with respect to all of these LIBOR settings was launched on 4 December, 2020, with a closing date set for 25 January, 2021.

Accompanying the statement from the IBA, the FCA and certain US agencies (including the Federal Reserve) clarified that, should the USD LIBOR continue to be published after 2021, it should be limited for use in legacy contracts and that firms should stop entering into new USD LIBOR contracts as soon as practicable and, in any event, by 31 December, 2021.

While the IBA, UK, and US authorities noted that the announced consultation should not be taken as confirmation that the USD LIBOR will continue or cease after 31 December, 2021, a June 2023 cessation date would reduce the scope of affected legacy contracts and would provide the industry with more time to remediate USD legacy LIBOR contracts and would help in protecting both consumers and market integrity.

The Group is maintaining its commitment in meeting the interim product cessation targets published by the UK and US working groups.

Transition from LIBOR to RFRs presents several risks: (i) there are fundamental differences between LIBOR and RFRs and value transfer may arise in transitioning contracts from one to the other; (ii) the market may transition at different paces in different regions and across different products, presenting various sources of basis risk and posing major challenges on hedging strategies; (iii) clients may allege that they have not been treated fairly throughout the transition or may not be aware of the options available to them and the implications of decisions taken, leading them to claim unfair financial detriment; (iv) changes in processes, systems and vendor arrangements associated with the transition may not be within appropriate tolerance levels; (v) legal risk in relation to the fall-back risks associated with the transition; (vi) regulatory actions adverse to the Group may result if regulatory requirements and/or expectations are not met; and (vii) accounting and financial reporting risk in that the changes in underlying rates, and their impact on matters such as cashflows and valuations, may not be incorporated correctly.

The occurrence or continuance of any of the above risks could have a material adverse effect on the Group's financial condition, results of operations and, its prospects."

- (f) Risk Factor 1.6 of the section entitled "*Risks Relating to the Group and its Business Operations*" set out on pages 29 to 30 of the Base Prospectus is amended by:

- i. the deletion of the fourth paragraph thereof and its replacement by the following:

"There is an increasing usage of partnerships and alliances by banks to respond to a rapidly changing banking landscape and disruption from existing players and new entrants. This is making partnerships and alliances an integral part of banks' emerging business models and value propositions to clients, including those models used within the Group."; and

- ii. the deletion of the sixth paragraph thereof and its replacement by the following:

"Regulators are also increasingly emphasising the importance of resilient technology infrastructure in terms of eliminating cyber risk and improving reliability. The challenge is in both renewing, and increasing investment into, the Group's technology estate to reduce the risks presented by obsolescence and to meet the demand for its required performance levels, which continue to rise significantly. There is no guarantee that the Group will be successful in renewing and/or maintaining its technology infrastructure and monitoring risks associated with technology infrastructure on an ongoing basis, and the Group is exposed to the risk of failures in its technology infrastructure (including related risk monitoring and governance processes) and/or regulatory actions in relation to the adequacy of its technology infrastructure, as well as costs associated with renewing and maintaining its technology infrastructure."

- (g) Risk Factor 1.8 of the section entitled "*Risks Relating to the Group and its Business Operations*" set out on pages 30 to 31 of the Base Prospectus is deleted and replaced by the following:

"Regulatory and enforcement reviews, investigations and legal proceedings

Regulatory and enforcement reviews and investigations and internal practice and process reviews may result in adverse consequences for the Group and the Group has been and is subject to a number of proceedings with various authorities and other parties. In recent years,

the resolution of certain of these matters has resulted in substantial monetary penalties, additional compliance and remediation requirements and additional business restrictions for the Group, including monetary penalties paid in April 2019 in connection with resolution of investigations by various U.S. authorities and the FCA of U.S.\$947 million and £102 million, respectively. Ongoing legal proceedings include:

- In January 2020, a shareholder derivative complaint was filed by the City of Philadelphia in the New York State Court against 45 current and former directors and senior officers of the Group. It is alleged that the individuals breached their duties to the Group and caused a waste of corporate assets by permitting the conduct that gave rise to the costs and losses to the Group related to legacy conduct and control issues. Each of the Issuers and Standard Chartered Holdings Limited are named as "nominal defendants" in the complaint. The case is at an early procedural stage. Standard Chartered Bank filed a motion to dismiss the complaint on 23 December, 2020.
- In October 2020, a claim was filed in the English High Court by 249 shareholders against the Issuer in relation to alleged untrue and/or misleading statements and/or omissions in information published by the Issuer in its rights issue prospectuses of 2008, 2010 and 2015 and/or public statements regarding the Group's historic sanctions, money laundering and financial crime compliance issues. The claim is brought under sections 90 and 90A of the Financial Services and Markets Act 2000. Section 90 permits shareholders to pursue a claim if they acquire shares, and suffer loss, as a result of misleading statements in, or omissions of material information from, a prospectus or listing particulars. Section 90A permits shareholders to pursue a claim if they acquire, hold or dispose of shares in reliance upon an untrue or misleading statement in, or dishonest omission of required information from published information, or if there has been a dishonest delay in publishing relevant information. The case is at an early procedural stage and, although the claim form has been filed, it has not been served yet.
- Since 2014, the Group has been named as a defendant in a series of lawsuits that have been filed in the United States District Courts for the Southern and Eastern Districts of New York against a number of banks (including SCB) on behalf of plaintiffs who are, or are relatives of, victims of various terrorist attacks in Iraq. The plaintiffs in each of these lawsuits have alleged that the defendant banks aided and abetted the unlawful conduct of U.S. sanctioned parties in breach of the U.S. Anti-Terrorism Act. One lawsuit was withdrawn by the relevant plaintiffs in October 2017. The courts have also ruled in favour of the banks' motions to dismiss in five of the other lawsuits. The plaintiffs have subsequently filed an appeal against the dismissal in one such case, which is due to be heard in February 2021 with a ruling expected later in 2021. Appeals are also expected by the plaintiffs in three of the other dismissed lawsuits. The remaining four lawsuits are still at an early procedural stage, and have been stayed pending the outcomes of the appeals in the dismissed cases. It is not currently possible for the Group to predict the outcome of these lawsuits.

The Group's compliance with historical, current and future sanctions, as well as financial crime control, anti-money laundering and the U.S. Bank Secrecy Act 1970 (the "**Bank Secrecy Act**") requirements and customer due diligence practices are, and will remain, a focus of relevant authorities.

Any breach of law, regulation, settlement agreement (including deferred prosecution agreements) or order, or non-compliance with or weakness in, the Group's policies, standards, systems, controls and assurance for its anti-money laundering, Bank Secrecy Act, sanctions, compliance, corruption and tax crime prevention efforts may give rise to the adverse consequences described above, any of which could have a material adverse impact on the Group, including its reputation, business, results of operations, financial condition and prospects."

- (h) The second paragraph of Risk Factor 1.9 of the section entitled "*Risks Relating to the Group and its Business Operations*" set out on pages 31 to 32 of the Base Prospectus is deleted and replaced by the following:

"In addition, these risks represent an emerging and topical theme both from a regulatory and compliance perspective. Both (i) Regulation (EU) 2016/679 (the EU General Data Protection Regulation) as amended on or prior to 31 December, 2020 and (ii) Regulation EU (2016/679)

and any regulatory or implementing technical standards and other delegated or implementing acts adopted under that Regulation, in each case to the extent that they form part of the domestic law of the UK by virtue of the European Union (Withdrawal) Act 2018 as may be amended from time to time including, without limitation, by the European Union (Withdrawal Agreement) Act 2020) ("**EUWA**") or otherwise, and as they may be amended or replaced by the laws of England and Wales from time to time, raise the profile of data protection compliance. Similarly, increasing the use of AI and ML technology within the Group requires additional data protection considerations and assumptions, including in respect of the algorithms used in the underlying analysis as well as the resulting data produced. Regulatory controls on the resulting data produced from such tools also need to be considered."

- (i) Risk Factor 2.1 of the section entitled "*Credit and Traded Risk*" set out on page 32 of the Base Prospectus is deleted and replaced by the following:

"The Group is exposed to risks associated with changes in the credit quality and the recoverability of loans and amounts due from counterparties

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Group's businesses.

Although the Group believes that its continued focus on high-quality origination within a more granular risk appetite has enabled sustained improvements in the credit quality of its corporate portfolios, the Group remains alert to broader uncertainties.

Principal uncertainties include the continuing COVID-19 pandemic and its impact on the Group's operating environment and the overall macroeconomic outlook. See the risk factor titled "*The novel coronavirus outbreak, and the emergence of new diseases, could materially and adversely affect the business, results of operations and financial condition of the Issuers and of the Group*". Uncertainties also include macroeconomic conditions, in particular, the global economic slowdown and emerging market risks. COVID-19 has exacerbated already deteriorating market conditions causing liquidity and potentially solvency issues for a number of the world's poorest countries. The combination of economic downturns, increased unemployment, capital flight, commodity price collapses, political instability resulting from the social consequences of COVID-19, and increased debt obligations for extending financial support may make it difficult for some countries to refinance their debts. The G20 Debt Service Suspension Initiative (the "**DSSI**") for the world's poorest nations could impact market access and medium-term lending to some sovereigns. The recent Common Framework for Debt Treatments beyond the DSSI reiterated the need for private sector creditors to participate.

Long term low or negative interest rates, in addition to the response to the economic impact as a result of COVID-19, means that developed market central banks have seen record balance sheet expansion. There is a risk this may result in asset bubbles and/or inflation in the longer term. Refinance risk may also become an increasing concern.

Any change in global or country-specific economic conditions or asset values, adverse changes in the credit quality of the Group's borrowers and counterparties, and adverse changes arising from a deterioration in economic conditions or asset values (including a prolonged or severe deterioration) could reduce the recoverability and value of the Group's assets and require an increase in the Group level provisions for bad and doubtful debts or write-downs experienced by the Group as was the case in 2020, as some of the underlying risk would manifest upon the removal of support measures. The Group may also experience these effects if a systemic failure in one or more financial systems were to occur (see the risk factor titled "*The Group is exposed to systemic risk resulting from failures by banks, other financial institutions and corporates*").

Direct or indirect regulatory interventions may also adversely impact the operating environment. These interventions could be based on fundamental policies such as house-hold debt levels, money supply control etc. but could also at times be influenced by populist measures. Industry wide forbearances, capping of debts to overleveraged customers, capping unsecured debt limits and controlling property prices are some examples of measures that can impact a customer's

ability and intention to serve debt obligations. Further information on COVID-19 relief measures can be found on page 65 of the SCPLC 2020 Interim Financial Statements.

Credit impairment rose significantly in 2020 compared to 2019, primarily due to the deterioration in macroeconomic forecasts reflecting the impact of COVID-19 and three separate Corporate & Institutional Banking client exposures that were highlighted in Q1 2020. Although credit impairment costs are currently expected to be lower in the second half of 2020 than in the first half, such impairment costs are still expected to be significant in the second half of 2020, and future developments in the abovementioned macroeconomic conditions, including developments relating to the COVID-19 pandemic, may adversely affect the Group's credit impairment costs in the second half of 2020 or in future periods. The occurrence of any of the above, or a failure by the Group to manage these risks effectively, could have a material adverse effect on the Group's financial condition, results of operations and, if severe or prolonged, its prospects."

- (j) Risk Factor 2.4 of the section entitled "*Credit and Traded Risk*" set out on page 33 of the Base Prospectus is deleted and replaced by the following:

"The Group is exposed to the risks associated with volatility and dislocation affecting financial markets and asset classes

Volatility and dislocation affecting certain financial markets and asset classes, whether unexpected, prolonged or elevated, are factors that have had and may continue to have a material adverse effect on the Group's assets, financial condition and results of operations. In particular, these factors have had, and may continue to have, a negative impact on the mark-to-market valuations of assets in the Group's Fair Value through Other Comprehensive Income ("**FVOCI**") and trading portfolios. As at the close of business on 6 December, 2020, Treasury Markets held approximately U.S.\$129 billion of mostly High Quality Liquid Assets for regulatory purposes under EU IFRS 9/FVOCI accounting rules. Under Regulation (EU) 575/2013, as amended on or prior to 31 December, 2020 (including, without limitation, by Regulation (EU) 2019/876 (the "**CRR II**"), and any regulatory or implementing technical standards and other delegated or implementing acts adopted under the relevant Regulation, in each case to the extent that they form part of the domestic law of the UK by virtue of the EUWA or otherwise, and as they may be amended or replaced by the laws of England and Wales from time to time (the "**CRR**"), any profit or loss under FVOCI impacts the Group's Common Equity Tier 1 Capital ("**CET1 Capital**" or "**CET1**") position directly. In addition, if such volatility or dislocation were to be severe or prolonged, this may also adversely affect the Group's prospects.

Market volatility may also negatively impact certain customers exposed to derivative contracts. While the Group seeks to manage customer exposure and risk, the potential losses incurred by certain customers as a result of derivative contracts could lead to an increase in customer disputes and corporate defaults and result in further write-downs or impairments. Failure to manage such risks therefore would have a material adverse effect on the Group's financial condition, results of operations and, if such failure is significant or prolonged, its prospects."

- (k) Risk Factor 3.2 of the section entitled "*Capital and Liquidity Risk*" set out on pages 35 to 36 of the Base Prospectus is amended by:

- i. the deletion of the second paragraph thereof and its replacement by the following:

"There is no guarantee that the Group will not be subject to downgrades to its credit ratings and/or negative changes in the outlook on such ratings. Factors leading to any such downgrade or change in outlook may not be within the control of the Group (for example, the deterioration of macroeconomic assessments, including as a result of the COVID-19 pandemic, the exercise of subjective judgement by the rating agencies, a change in the methodology or a change in approach used by the rating agencies to rate the Group or its securities)."; and

- ii. the deletion of the fifth paragraph thereof and its replacement by the following:

"Although the Group currently has a liquid and well-funded balance sheet, any negative change in the Group's credit ratings in the future could impact the volume, price and source of its funding, or adversely impact the Group's competitive position, all of which could have a material adverse effect on the Group's financial condition, results of its operations and/or prospects."

- (l) Risk Factor 3.4 of the section entitled "Capital and Liquidity Risk" set out on pages 37 to 38 of the Base Prospectus is amended by:

- i. the deletion of the first paragraph thereof and its replacement by the following:

"Currently, the Group meets the minimum regulatory capital standards under Directive 2013/36/EU, as amended on or prior to 31 December, 2020 (including, without limitation, by Directive (EU) 2019/873), and any regulatory or implementing technical standards and other delegated or implementing acts adopted under the relevant Directive, in each case to the extent that they form part of the domestic law of the UK by virtue of the EUWA or otherwise, and as they may be amended or replaced by the laws of England and Wales from time to time (the "**CRD IV Directive**"), the CRR and associated implementing measures (together "**CRD IV**"). However, the Group is exposed to the risk that the PRA or BoE could:

- increase the minimum regulatory requirements or additional capital, liquidity or leverage buffers set for the Group or any of its UK regulated firms;
- introduce changes to the basis on which capital, liquidity, leverage and RWA are computed; and/or

change the manner in which it applies existing requirements to or impose new regulatory requirements on the Group or any of its UK regulated firms.";

- ii. the deletion of the fourth paragraph thereof and its replacement by the following:

"The Group remains a Global Systemically Important Bank ("**G-SIB**") with a 1.0 per cent. G-SIB CET1 Capital buffer which was fully implemented on 1 January 2019. If the Group were categorised as a G-SIB with a greater than 1 per cent. requirement, the Group's minimum CET1 Capital requirement would increase. Certain of the Group's non-UK entities have been, and others may be, designated domestic systemically-important banks (referred to in the EU and in the UK as other systemically-important institutions, or "**O-SIIs**") in the markets in which they operate in accordance with the approach developed by the Basel Committee on Banking Supervision ("**BCBS**") and the Financial Stability Board (the "**FSB**"), which may in the future result in higher capital requirements for them."; and

- iii. the deletion of the last paragraph thereof and its replacement by the following:

"The Group may also be impacted by the implementation of further regulations which are currently under consultation or yet to be finalised or transposed (where applicable) into domestic law. Such changes in regulation, if implemented and/or when finalised may, directly or indirectly, give rise to increased regulatory capital, leverage, loss-absorbing capacity and liquidity requirements for the Group and could materially adversely affect the Group's business, financial condition, results of operations and prospects."

- (m) Risk Factor 4.1 of the section entitled "*Risks Associated with Regulatory Requirements and Resolution Measures*" set out on pages 38 to 39 of the Base Prospectus is deleted and replaced by the following:

*"The business and operations of the Group may be affected by resolution measures developed by its regulators, including those introduced in accordance with the Directive (EU) 2014/59, as may be amended on or prior to 31 December, 2020 (including, without limitation, by Directive 2019/879), and any regulatory or implementing technical standards and other delegated or implementing acts adopted under the relevant Directive, in each case to the extent that they form part of the domestic law of the UK by virtue of the EUWA or otherwise, and as they may be amended or replaced by the laws of England and Wales from time to time ("**BRRD**") and the Banking Act 2009*

The wide-ranging powers introduced and to be introduced by the Group's regulators to enable them to intervene and alter the business and operations as well as the capital and debt structure of an unsound or failing bank could have significant consequences for the Group's profitability, its financing costs and the implementation of its global strategy. The exercise or prospective exercise of resolution powers may have a material adverse effect on the Group's financial condition, results of operations and prospects.

Moreover, in order to prepare for the possibility of a bank entering financial difficulty, recovery and resolution planning regimes provide the Group's regulators with powers to require the Group to make changes to its legal, capital or operational structures, alter or cease to carry on certain specified activities, or satisfy MREL requirements. If the Group's regulators ultimately decide that any such changes are necessary or desirable to increase the resolvability and recoverability of the Group, the impact of any changes required may have a material effect on capital, liquidity and leverage ratios or on the overall profitability of the Group.

(A) Regulatory Capital Write-Down, Bail-in and other Resolution Powers

The Banking Act 2009 provides a framework for bodies responsible for resolution activities ("**Resolution Authorities**") to recapitalise institutions and/or their UK parent holding companies if those entities, or the groups of which they form part, are in severe financial difficulty or at the point of non-viability by permanently writing-down certain capital instruments (such as the Securities) issued by such institutions and/or their UK parent holding companies (or converting capital instruments into shares) ("**Regulatory Capital Write-Down Powers**").

The BoE, HM Treasury, the PRA and the FCA have additional powers under the Banking Act 2009 (as amended) to deal with, among others, banks and other deposit-taking institutions which are failing or likely to fail to satisfy certain threshold conditions (the Special Resolution Regime, or "**SRR**"). The SRR is comprised of, amongst others, a bank insolvency procedure, a bank administration procedure, and five stabilisation options, including transfer of the business and the power to 'bail-in' certain unsecured liabilities (such as the Securities) of an institution and/or certain of its parent holding companies (among others) in a resolution scenario ("**Bail-in Powers**"). Other powers provided by the Banking Act 2009 include powers to amend or alter the maturity of debt instruments issued by an institution or amend the amount of interest payable or the date on which interest becomes payable under such instruments, to delist shares, to relist any debt instruments which have been written down and to transfer assets, rights and liabilities of an institution, among others.

(B) Early intervention powers and powers to remove barriers to resolvability

The BRRD also requires regulators to be empowered to intervene at an appropriately early stage to facilitate the recovery of viable institutions, including powers to direct an institution to remove identified impediments to resolvability, remove and replace board members, implement measures identified in the institution's recovery plan or require changes to the legal or operational structure of the institution.

(C) Contractual recognition of Bail-in

The PRA requires UK banks (such as SCB) to ensure that contracts which are governed by the law of a territory or country other than the UK contain a term whereby the creditor or party to the agreement creating the liability recognises that the liability may be subject to the write-down and conversion powers, and agrees to be bound by any reduction of the principal or outstanding amount due, conversion or cancellation

that is effected by the exercise of those powers (the “**Contractual Recognition of Bail-in Requirement**”). Failure to include such a contractual term shall not prevent the Resolution Authority from exercising its Regulatory Capital Write-Down Powers in respect of the relevant liability. Whilst the PRA have not historically challenged SCB's compliance with the Contractual Recognition of Bail-in Requirement, it remains open to the PRA to comment on this, which could require SCB to renegotiate relevant contracts in the future, incurring additional costs to the Group in doing so.

There is a risk that the Contractual Recognition of Bail-in Requirement could affect the ability of the Group's non-UK branches to raise and maintain funding and deposits in their local markets, increase the cost of such funding, give rise to a competitive disadvantage for the Group relative to its non-UK competitors, impact funding in periods of stress and give rise to additional operational requirements.

(D) Ongoing requirements

The Group is required to produce and keep up-to-date recovery plans to withstand a significant deterioration in its financial position, and to provide detailed information about its businesses and entities. The preparation and maintenance of recovery plans and resolution plan-related information, and the need to undertake work to improve the resolvability of the Group, represents a significant operational burden for the Group.

(E) Resolution funds

UK banks (such as SCB) are required to make ex ante contributions (the “**UK bank levy**”) to a resolution fund designed to ensure the effective application of resolution powers by the BoE. The cost of the UK bank levy could represent a material cost to SCB or the Group. Institutions, including the Group, may also be required to make an extraordinary ex-post contribution if the amounts raised by the ex-ante contributions are insufficient to cover the losses, costs or other expenses involved in the resolution of an institution or institutions.

- (n) Risk Factor 5.1 of the section entitled “*Operational, Reputational, Compliance (including Legal) and Conduct Risks*” set out on pages 43 to 44 of the Base Prospectus is deleted and replaced by the following:

“The Group is exposed to operational and technology risks

Operational risk is the potential for loss resulting from inadequate or failed internal processes, technology events, human error, or from the impact of external events (including legal risks). Operational and technology losses may result from:

- deficient execution capability (the failure to execute client facing transactions appropriately, and failure to design and/or meet product management standards and product-related regulatory requirements);
- challenges in the Group's operational resilience (failure to maintain and test business continuity plans, failure to maintain systems, failure to meet appropriate data standards, failure to appropriately manage vendor services, failure to meet related regulatory requirements;
- non-compliance with laws and regulations on corporate governance and exchange listing rules;
- inadequate maintenance of financial books and records, financial reporting, or failure to comply with tax laws and regulations;
- failure to create a safe, secure, and healthy environment for staff and clients; and/or
- inability to enforce the Group's contractual risks.

In the majority of cases, the Group adopts straight through processing to deliver internal or external client requests. In certain situations, processes are dependent on manual interventions (for example, when a bespoke transaction is supported) which expose the Group to execution

related risks. The Group continues to invest in and prioritise process and system enhancements to curtail and limit these risks. The BoE, PRA and FCA jointly released a discussion paper on an approach to improve the operational resilience of firms and financial markets infrastructures (“**FMIs**”) in July 2018. In December 2019 the BoE, PRA and FCA published consultation papers in line with the concepts introduced in the July 2018 discussion paper. The latest proposals expect firms and FMIs to identify important business services that, if disrupted, could cause harm to consumers or market integrity, threaten the viability of firms or cause instability in the financial system. Firms and FMIs will also be expected to identify and document the people, processes, technology, facilities and information that support their important business services. The proposed policies will comprise new rules (for the FCA and PRA), principles and guidance, and will be implemented through the authorities’ respective supervisory areas. The consultations closed on 1 October, 2020, and it is planned that firms and FMIs will not need to meet requirements resulting from these consultations before the end of 2021.

These reforms have highlighted the importance of maintaining client services on an end to end basis and proposed the adoption of thresholds to inform resilience. Resilience risks are heightened for the Group in the following areas:

- The Group continues to enhance its product (hardware and software) lifecycle, however the Group may be exposed to obsolescence risk if product refreshes are not carried out in a timely manner before vendor end of support dates. The Group continues to run targeted programs to review its product support and to inform on investment requirements to maintain products.
- The appropriate management, maintenance and use of data supports many of the Group’s decisions and interactions with clients and regulators. Inaccurate or erroneous use of data may lead to financial, regulatory, or reputational impact. The Group has adopted a number of key processes and standards to apply and oversee adherence to the BCBS principles for effective risk data aggregation and risk reporting (BCBS239).
- "The Group selectively engages third party vendors to support its business strategy and operating model. These vendors may expose the Group to further operational challenges ranging from non-delivery of services to reputational or regulatory impact. The Group manages vendor service risk under the Third Party Risk Management Process supported by the Group’s risk and control self-assessment standards.
- In support of its strategy, the Group continues to invest in its people, processes, and infrastructure through material change programmes which expose the Group to delivery risk.

Although the Group seeks to manage operational risks in a timely and effective manner through a framework of policies and standards, the occurrence or continuation of one or more of the foregoing risks which are inherent in banking activities, or any failure to manage one or more of such risks effectively, may have a material adverse effect on the Group’s financial condition, results of operations and prospects."

- (o) Risk Factor 5.2 of the section entitled "*Operational, Reputational, Compliance (including Legal) and Conduct Risks*" set out on page 44 of the Base Prospectus are deleted and replaced by the following:

"The Group’s business is subject to reputational and sustainability risk

Reputational and sustainability risk is the potential for damage to the franchise (such as loss of trust, earnings or market capitalisation), because of stakeholders taking a negative view of the Group through actual or perceived actions or inactions, including a failure to uphold responsible business conduct for lapses in the Group’s commitment to do no significant environmental and social harm through the Group’s client, third-party relationships, or the Group’s own operations.

Risk drivers with negative impact on the Group are frequently linked with Environmental, Social, and Governance (“**ESG**”) risks including, increasing regulatory and Non-Governmental Organisation focus on climate risk and decisions taken around thresholds for financing sectors which contribute to climate change (e.g. coal, oil and gas, and plastics), the social impact of the businesses the Group finances in alignment with responsible corporate lending, and ongoing

regulatory investigations related to financial crime management, trading activities and other governance related risks.

Additionally, a potential failure in the Group's other principal risks may also result in negative shifts in perceptions of the Group held by shareholders, other stakeholders of the Group or other third parties if not managed effectively (i.e. secondary reputational risk).

Material damage to the Group's reputation could have a material impact on the future earning capacity of the Group through the loss of current and prospective customers, or through damage to key governmental or regulatory relationships. As such, a failure to manage reputational and sustainability risk effectively could materially affect the Group's business, results of operations and prospects."

- (p) The penultimate paragraph of Risk Factor 5.5 of the section entitled "*Operational, Reputational, Compliance (including Legal) and Conduct Risks*" set out on pages 46 to 47 of the Base Prospectus is deleted and replaced by the following:

"Brexit has led and could continue to lead to significant changes to the UK's legislative and regulatory framework. It is also expected that additional regulatory amendments designed to ensure banks can continue to support the economy through the COVID-19 pandemic may be introduced in the jurisdictions in which the Group operates."

- (q) The third and fourth paragraphs of Risk Factor 5.6 of the section entitled "*Operational, Reputational, Compliance (including Legal) and Conduct Risks*" set out on page 47 of the Base Prospectus are deleted and replaced by the following:

"Both (i) the European Market Infrastructure Regulation, formally known as Regulation (EU) No 648/2012 of the European Parliament and the Council on Over-The-Counter Derivatives, Central Counterparties and Trade Repositories, as amended on or prior to 31 December, 2020 ("**EMIR**") and (ii) the European Market Infrastructure Regulation and any regulatory or implementing technical standards and other delegated or implementing acts adopted under that Regulation, in each case to the extent that they form part of the domestic law of the UK by virtue of the EUWA or otherwise, and as they may be amended or replaced by the laws of England and Wales from time to time ("**UKMIR**"), impose requirements to report all derivative transactions to authorised or recognised trade repositories and the obligation to clear on authorised or recognised central clearing counterparties certain OTC derivative transactions ("**Transactions**") executed with financial counterparties and non-financial counterparties who exceed certain clearing thresholds. EMIR and UKMIR also introduce a stringent risk mitigation regime for all uncleared Transactions including a requirement to exchange collateral or margin.

The regulatory changes and resulting requirements of the Dodd-Frank Act, EMIR, UKMIR and similar international reform efforts may continue to increase the costs of, and/or reduce the revenue from, engaging in Transactions and related activities for the Group. Provisions of the Dodd-Frank Act have also caused or required certain market participants (including SCB) to transfer some of their derivatives activities to separate entities. For example, in the CFTC swap dealer space, SCB currently prohibits any subsidiary from transacting in-scope derivatives with U.S. persons (specifically to prevent any subsidiary from having to register as a swap dealer). In cases where these counterparties are not able (or unwilling) to face SCB, this activity and associated client revenue may be lost at a Group level. Accordingly, the ability to enter into and perform transactions or engage in future transactions may be affected in both predictable and unpredictable ways, including increasing the costs of or reducing the incentives for engaging in such activities. New regulations may also put restraints on the way the Group can conduct its business with regard to derivatives, if those derivatives are not cleared through a central clearing house (or otherwise give rise to new compliance requirements depending on the type of regulation)."

- (r) Risk Factor 5.7 of the section entitled "*Operational, Reputational, Compliance (including Legal) and Conduct Risks*" set out on page 48 of the Base Prospectus is deleted and replaced by the following:

"Changes in the Group's accounting policies or in accounting standards could affect its capital ratios and how it reports its financial condition and results of operations"

The Group's financial statements for the year ended 31 December, 2020 will be prepared in accordance with EU IFRS. The Group's financial statements for the year ending 31 December, 2021 will be prepared in accordance with applicable law and UK IFRS. From time to time, the International Accounting Standards Board and/or the UK may change UK IFRS, which could affect the Group's capital ratios or how it reports its financial position and performance. In some cases, the Issuer could be required to apply a new or revised standard retroactively, or voluntarily elect to change its accounting policies, resulting in restating prior period financial statements.

Further information on the Group's accounting policies and accounting standards in issue but not yet effective may be found on pages 262 to 264 of the Annual Report 2019 and on pages 112 to 113 of the SCPLC 2020 Interim Financial Statements. However, any other changes to UK IFRS, to the extent applicable, that may be proposed in the future, could materially adversely affect the Group's reported results of operations and financial position. The "Phase 2" amendments to UK IFRS in respect of IBOR transitions are not expected to have material effects on the Group's reported results in the current or future financial periods."

- (s) Risk Factor 5.8 of the section entitled *"Operational, Reputational, Compliance (including Legal) and Conduct Risks"* set out on page 48 of the Base Prospectus is deleted and replaced by the following:

"The Group is exposed to conduct risk"

"Conduct Risk" is defined as the "risk of detriment to the Group's clients, investors, shareholders, counterparties, employees, market integrity and competition arising from (a) business activities performed by the Group, or (b) individual behaviour and actions including instances of wilful or negligent misconduct". Failure to deliver fair outcomes and to protect the integrity of the markets may lead to regulatory sanctions, financial loss and reputational damage. The effective management of Conduct Risk takes into consideration the Group's culture, its strategy, business model, and the implementation of the three lines of defence model across the Group.

It is also critical to manage Conduct Risk in order to provide employees a fair and safe working environment that is free from discrimination, exploitation, bullying, harassment or inappropriate language.

Although the Group seeks to manage Conduct Risk in a timely and effective manner, the occurrence or continuation of one or more of the abovementioned risks, or any failure to manage one or more of such risks effectively, may have a material adverse effect on clients and the Group's financial position and operations."

- (t) Risk Factor 6.1 of the section entitled *"Information and Cyber Security Risk, Financial Crime Risk and Model Risk"* set out on pages 48 to 49 of the Base Prospectus is deleted and replaced by the following:

*"The Group is exposed to information and cyber security ("**ICS**") risk"*

Cybercrime is rising and becoming more globally coordinated. The Group's business depends on its ability to protect client data and process large volumes of transactions efficiently and with integrity. The Group is increasingly reliant on ICS to be effectively managed for digital technologies, technology infrastructure, systems, communication services and networks. The dependency on secure processing, storage and transmission of sensitive information in its systems and networks increases the Group's risk to cybercrime including risks related to fraud, vandalism and damage to critical infrastructure.

During the ongoing COVID-19 pandemic, many governments in countries where the Group operates have imposed a full or partial lockdown, meaning that a large percentage of employees are required to work remotely for prolonged periods. This remote working arrangement provides new challenges in the management of ICS risk as the Group has moved to large-scale adoption

of technology to enable work from home arrangements whilst malicious actors are maturing their capability by adapting to varying trends and new technologies to personalise attacks on organisations, for example, through ransomware. Greater difficulty associated with monitoring staff working remotely potentially exacerbates this risk.

The Group has consolidated its ICS efforts to seek to identify and withstand cyber threats, eliminate duplication and improve clarity of roles. However, if the Group fails to effectively manage its ICS risks, the impact could be significant and may result in reputational damage, leading to potential pay-outs of customer compensation, regulatory penalties and fines. Factors such as failing to apply critical security patches from its technology providers, to manage obsolete technology or to update the Group's processes in response to new threats could give rise to these consequences, which, if they occur, could have a material adverse effect on the Group's operations, financial condition and prospects."

- (u) Risk Factor 6.2 of the section entitled "*Information and Cyber Security Risk, Financial Crime Risk and Model Risk*" set out on page 49 of the Base Prospectus is deleted and replaced by the following:

"The Group is exposed to financial crime risk

The Group, through its size and strategic intent, continues to be exposed to money laundering, fraud and sanctions risks. These risks are inherent in the Group's operations and may arise from, among other things, the Group offering different banking products via multiple channels across regions to diverse customer types; the Group's defences being overcome by criminals; and/or regulators assessing deficiencies in the Group's design and/or governance over controls operating across the Group's client or counterparty due diligence and surveillance. The Group seeks continuously to enhance its approach in preventing money laundering, combating terrorist financing, complying with sanctions and mitigating internal and external fraud risk through its internal controls. The Group continues to monitor new and emerging financial crime risks and has established a working group to specifically focus on the impact of COVID-19. The working group focuses on recognising new trends with regards to risk indicators and sharing insights with clients and peer institutions. These risk indicators could be specific such as keywords in payment details and account activity consistent with COVID-19 frauds and scams, or generic indicators of unusual account activity not linked with COVID-19. While the Group and its financial crime compliance controls continue to adapt to incorporate new risk indicators, there is no guarantee that such adaptations will be effective in addressing all financial crime risks (including those related to COVID-19).

The occurrence or continuation of one or more of the abovementioned risks, or any failure to manage one or more of such risks effectively, may have a material adverse effect on the Group's financial condition, results of operations and prospects."

- (v) Risk Factor 6.3 of the section entitled "*Information and Cyber Security Risk, Financial Crime Risk and Model Risk*" set out on pages 49 to 50 of the Base Prospectus is amended by:

- i. the deletion of the first paragraph thereof and its replacement by the following:

"Model risk is defined as potential loss that may occur as a consequence of either a decision, or mis-estimation, based on the output of models due to errors in the development, implementation or use of such models."; and

- ii. the insertion of the following immediately above the last paragraph thereof:

"The onset of COVID-19 has resulted in extreme movements in macro-economic variables which are inputs of IFRS9 models, some of which are outside of the boundary conditions of expected model performance. As a result, a number of models have required the application of post model adjustments. Further information on post model adjustments for IFRS9 models can be found on page 80 of the SCPLC 2020 Interim Financial Statements.

COVID-19 has also given rise to several government support programmes which were not factored into existing models, for example the Singapore government's conditional guarantee to support the financing requirements of local enterprises and the Indian government's relief programmes for mortgages. As a result, several modifications to the input data of Singapore Wholesale Credit Internal Ratings Based ("IRB") and India Retail Credit Mortgage IRB models have also been made with the aim of appropriately reflecting these developments."

(w) Risk Factor 7.4 of the section entitled "*Risks relating to the purchase, holding and trading of securities*" set out on page 51 of the Base Prospectus is amended by:

i. the deletion of the second paragraph thereof and its replacement by the following:

"In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances. Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings will be disclosed in the relevant offering document."; and

ii. the insertion of the following paragraphs at the end thereof:

"Investors regulated in the UK are subject to similar restrictions under Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the EUWA (the "**UK CRA Regulation**"). As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency rating the Securities changes for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Securities may have a different regulatory treatment, which may impact the value of the Securities and their liquidity in the secondary market. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus and in "*General Information*".

- (x) The third paragraph of Risk Factor 10.3 of the section "*Legal and regulatory risks*" set out on pages 83 to 85 of the Base Prospectus is deleted and replaced by the following:

"Regulation (EU) 2016/1011 (the "**Benchmarks Regulation**") applies, subject for some benchmarks to certain transitional provisions until the end of 2021. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the European Union. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as SCB) of "benchmarks" provided by administrators that are not authorised or registered (or, if non-EU based, deemed equivalent or recognised or endorsed)."

AMENDMENTS TO THE FORM OF PRICING SUPPLEMENT OF THE NOTES
