

See Through the Scam Checklist

Use this to protect yourself and those around you.

When something feels suspicious

Do not send money or share personal details

Report suspicious activity using official contact details

A quick "Verify" to stay protected

- V**  Validate the sender through an official or verified channel.
- E**  Examine requests for urgent payments or sensitive information and never share your passwords or OTPs with anyone.
- R**  Review links carefully and be cautious with unknown QR codes.
- I**  Identify pressure tactics that rush you to act quickly.
- F**  Fact-check claims that sound unusual, urgent, or too good to be true.
- Y**  Your instincts matter — if something feels off, pause before saying yes.

If you get scammed, get help quickly

- For Standard Chartered accounts, report it immediately via the official helpline on the [Cyber Security & Fraud Safety Hub](#)
- For other bank accounts, contact your bank through its official helpline
- Visit the [hub](#) for more guidance on staying informed and protected

Spot it. Solve it.
