Group Chairman

## Dear Shareholder,

Our AGM will be held on Wednesday 4 May 2022 at 11.00am UK time (6.00pm Hong Kong time) at etc.venues St Paul's, 200 Aldersgate, London EC1A 4HD.

For the first time since 2019, I am very pleased to announce that shareholders will be able to attend the AGM in person given the easing of restrictions on public gatherings. In addition, in light of the success of last year's digitally enabled meeting, we will also be offering shareholders the opportunity to participate electronically via a live web-portal hosted by Lumi. Within this portal, shareholders will be able to view a live video feed of the AGM, submit voting instructions and questions in writing or ask them through an audio line. Shareholders who attend the meeting in person will be able to submit voting instructions and ask questions directly. Questions can also be submitted in advance of the meeting by sending an email to [scplc.agm@sc.com](mailto:scplc.agm@sc.com). Further details of how to attend the meeting in person or via the web-portal can be found on pages 26 to 28 of this document.

Whilst there are not expected to be any government restrictions on public gatherings at the time of the AGM, shareholders who plan to attend the meeting in person (if prevailing regulations and guidance as at the date of the AGM so permit) are asked to exercise good judgement and not to attend the AGM if they have recently been tested positive Covid-19 or are displaying any symptoms of Covid-19, or have recently been in contact with anyone who has tested positive. In order to further reduce the risk of the spread of the virus, we are encouraging the use of face coverings.

Given the evolving nature of the situation, the format of the meeting may change following the publication of this Notice. We will update our shareholders as soon as reasonably possible

regarding any such change. Please monitor our website [sc.com/agm](https://www.sc.com/agm) and regulatory news services for any updates. You can also contact our registrar Computershare on +44 (0)370 702 0138.

The following pages contain the particulars of business to be considered at the meeting and details explaining how to vote. Explanatory notes on all business to be considered at this year's AGM can also be found on the following pages. As well as the standard items of business, I would like to draw particular attention to the following matters:

## Dividend

The Board is recommending for approval a final dividend of US\$0.09 per ordinary share for the year ended 31 December 2021.

For more details on the options available for receiving your cash dividend and the arrangements for calculating and paying the cash dividend please see page 22 of this document.

## Board changes

On 2 March 2022 we announced the appointments of Shirish Apte and Robin Lawther as independent non-executive directors of the Board with effect from 4 May 2022 and 1 July 2022 respectively. Both directors will be put forward for election by shareholders at this AGM. On appointment, Shirish will join the Audit and Board Risk Committees and Robin will join the Company's Remuneration and Board Risk Committees.

We also recently announced the retirement of Naguib Kheraj, Deputy Chairman and Chair of the Board Risk Committee, from the Board after serving for over eight years. He will step down from the Board on 30 April 2022 and therefore will not stand for re-election at the AGM. I would like to thank Naguib for his very considerable contributions to the Group and the Board, including as Deputy Chairman, and for chairing both the Audit and Board Risk Committees during his tenure. The Group has benefited enormously from Naguib's wealth of expertise over the last eight years and on behalf of the Board I wish him all the best for the future. Maria Ramos will succeed Naguib Kheraj as Chair of the Board Risk Committee, subject to regulatory approval. Maria's wealth of CEO, banking, commercial, financial, international and regulatory experience will ensure continued strong oversight of the Group's risk management. Additionally, Christine Hodgson, Senior Independent Director and Chair of the Remuneration Committee, will stand for re-election at the AGM with the intention that she steps down from the Board at the end of her nine-year tenure in September 2022. The Company will provide an update on the effective date of Christine's retirement from the Board once it has been finalised. This will therefore be Christine's last AGM.

## Board Financial Crime Risk Committee

Given the progress made on the Board Financial Crime Risk Committee's (BFCRC) purpose with respect to financial crime risk management, the 2020 Board effectiveness review highlighted the potential for the work of the BFCRC to be reallocated to a combination of the Board Risk Committee, the Audit Committee and the Board. Feedback from the 2021 Board effectiveness review indicated broad support for this process. In light of this, the Board has agreed to reallocate the work with effect from 1 April 2022. The reallocation of BFCRC oversight will enable a more holistic and efficient examination and discussion of risk as fraud, information and cyber security and financial crime are closely linked, as these areas are currently discussed in different meetings of the Board and its Committees. All BFCRC members will continue to perform their other Board and/or Board Committee roles and the two BFCRC external advisors have agreed to remain at the disposal of the Board Risk Committee and Audit Committee for a further year.

## Directors' remuneration policy

A new directors' remuneration policy is being proposed for approval at this year's AGM. The Remuneration Committee reviewed the existing policy, including consulting with our major shareholders, and believe it remains appropriate to support the delivery of the Group's purpose and strategy. Therefore, no significant change to the overall structure or quantum of the current executive directors' remuneration is being proposed in the new policy. If approved, this new policy will come into effect from the date of the AGM for a period of up to three years. Further information is available in the Directors' Remuneration Report, on pages 141 to 180 of the annual report and accounts.

## Net zero pathway

We want to minimise our impact on the environment and to play our part in supporting the global transition to a low carbon economy. We have previously set out our ambition to reduce our operational emissions to net zero by 2030. In October 2021, the Company's group (the Group) announced ambitious targets to reach net zero across our financial emissions by 2050. We are proposing this plan as a shareholder advisory vote at this year's AGM. Further information regarding the net zero pathway can be found in Appendix 1.

## Shareholder requisition resolution

Market Forces, Friends Provident Foundation and certain other members of the Company have submitted their own climate approach resolution, which can be found on page 19 along with their supporting statement in Appendix 2. Notwithstanding the fact that the Company and Market Forces are both highly committed to contributing to the transition to net zero, your directors consider that Resolution 32 is not in the best interests of the Company and its shareholders as a whole and unanimously recommend that you vote against Resolution 32 for the reasons set out in Appendix 3.

## Voting before the meeting

Your vote is important, and shareholders may vote in advance of the meeting. You can do this in one of two ways:

- Register your proxy vote at [www.investorcentre.co.uk/eproxy](http://www.investorcentre.co.uk/eproxy); or
- Complete the proxy form (or voting instruction form for ShareCare members) sent to you with this document and return it to our registrar.

All proxy forms, including voting instruction forms for ShareCare members, must be received by 11.00am UK time or 6.00pm Hong Kong time on 2 May 2022.

You are strongly encouraged to complete and submit a proxy form (or voting instruction form) appointing the Chair of the AGM as your proxy as this will ensure your votes are cast in accordance with your wishes. Appointing a proxy will not prevent you from attending the AGM in person or electronically and voting on the day.

Further instructions for voting in advance can be found on pages 23 and 24 of this document.

## Voting at the meeting

Voting at the AGM in person will be conducted by way of a poll. If you wish to vote remotely on the day of the AGM this is possible by voting on an electronic poll via the Lumi web-portal. Further instructions for voting on the day of the AGM can be found on pages 24 and 27 of this document.

## Recommendation

The Board considers all the resolutions within this document to be in the best interests of the Company and its shareholders, with the exception of resolution 32. The Board recommends that all shareholders vote in favour of resolutions 1 to 32, and vote against resolution 32, as the directors intend to do in respect of their own shares (with the exception of resolution 22, as in accordance with Rule 7.19A(1) of the Hong Kong Listing Rules, the directors (excluding independent non-executive directors) and their respective associates will abstain from voting on resolution 22 for the reasons set out on page 14 of this document). The Board unanimously recommends that all shareholders vote against resolution 32, as the directors intend to do so in respect of their own shares for the reasons set out on page 32.

In line with our sustainability agenda and commitments to reduce our impact on the environment we would encourage shareholders to request electronic communications and payment of dividends by registering at [www.investorcentre.co.uk](http://www.investorcentre.co.uk).

I look forward to seeing you in attendance at the AGM either in person or via the live web-portal.

Yours sincerely,

**Dr José Viñals,**  
Group Chairman

**1. To receive the Company's annual report and accounts for the financial year ended 31 December 2021 together with the reports of the directors and auditors.**

The directors are required under the Companies Act 2006 to present the reports of the directors and auditors of the Company, and the audited accounts of the Company for each financial year (in this case for the year ended 31 December 2021), to shareholders at a general meeting. A copy of the Company's 2021 annual report can be accessed on our website at sc.com/en/investors/financial-results.

**2. To declare a final dividend of US\$0.09 per ordinary share for the year ended 31 December 2021.**

Final dividends must be approved by shareholders but cannot be more than the amount recommended by the directors. If shareholders approve resolution 2, the final dividend of US\$0.09 per ordinary share will be paid in either sterling, Hong Kong dollars or US dollars on 12 May 2022 to shareholders on the UK register of members at 10.00pm UK time on 25 February 2022, and to shareholders on the Hong Kong branch register of members at the opening of business in Hong Kong (9.00am Hong Kong time) on 25 February 2022.

### 2021 final dividend options

Shareholders on the UK register and Hong Kong branch register will receive their 2021 final year dividend as cash only. The options available for receiving your cash dividend and the arrangements for calculating and paying the cash dividend are set out on page 22.

The cash dividend is quoted in US dollars and the amount that shareholders will receive in Hong Kong dollars is calculated by using the forward US dollar/Hong Kong dollar exchange rate

as displayed on the appropriate page of the Bloomberg screen or equivalent at or around 2.00pm (UK time) on 20 April 2022, which will be published on our website at [sc.com/shareholders](https://sc.com/shareholders).

Hong Kong Stock Exchange granted a waiver to the Company on 7 December 2011 from compliance with Rule 13.66(2) of the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange and Note 3 thereunder relating to record dates for the Company's final dividends.

**3. To approve the annual report on directors' remuneration contained in the Directors' Remuneration Report for the year ended 31 December 2021 (excluding the directors' remuneration policy set out on pages 161 to 166 of the 2021 annual report and accounts) as set out on pages 152 to 159 of the 2021 annual report and accounts.**

The Directors' Remuneration Report sets out the pay and benefits received by each of the directors for the year ended 31 December 2021. The Company is required to seek shareholders' approval in respect of the contents of this report on an annual basis. The vote on the annual report on directors' remuneration will be advisory.

**4. To approve the directors' remuneration policy contained in the Directors' Remuneration Report for the year ended 31 December 2021 as set out on pages 161 to 166 of the 2021 annual report and accounts.**

This year, the Company is required to ask shareholders to vote on a new directors' remuneration policy, as well as the annual advisory vote on the annual report on directors' remuneration (as set out in resolution 3). The vote on the directors' remuneration policy is binding in nature and, if approved, the new directors' remuneration policy will come into effect from the date of the AGM for a period of up to three years. In development of the new policy, the Remuneration Committee undertook an extensive review of the existing policy, including consulting with our major shareholders, and believe it remains appropriate to support the delivery of our strategy. Therefore, no significant change to the overall structure or quantum of the current executive directors' remuneration is being proposed in the new policy.

## Directors' election/re-election

**Resolutions 5-18 concern the election or re-election of the Company's directors. All directors, other than Naguib Kheraj who will retire from the Board before the AGM, are standing for election or re-election. (Ages of directors are at the date of AGM.)**

In accordance with the UK Corporate Governance Code 2018 all directors will stand for election or re-election at the AGM this year with the exception of Naguib Kheraj who will retire from the Board on 30 April 2022. The Board is satisfied that it continues to maintain an appropriate balance of skills, experience and knowledge and that all non-executive directors

are independent of the Company.

The Board has concluded that there are no circumstances likely to impair any individual non-executive director's judgement. This follows a process of formal evaluation which confirms that each director being proposed for election or re-election makes an effective and valuable contribution to the Board and demonstrates commitment to the role, and hence the Board is recommending each director's election or re-election.

Biographical details of our directors, which also indicate how each director contributes to the diversity of the Board, are set out on pages 6 to 12 of this document.

## Appointment of auditor/auditor fees

### Resolutions 19 and 20 propose the appointment of the Company's auditors and the determination of their fees.

#### 19. To re-appoint Ernst & Young LLP (EY) as auditor to the Company from the end of the AGM until the end of next year's AGM.

On the recommendation of the Audit Committee, the Board proposes that EY be re-appointed auditor to the Company to hold office from the end of this AGM until the end of next year's AGM.

#### 20. To authorise the Audit Committee, acting for and on behalf of the Board, to set the remuneration of the auditor.

The directors may set the remuneration of the auditor if authorised to do so by the shareholders. This resolution seeks authority for the Audit Committee to set auditor remuneration for 2022. Under the Competition and Markets Authority's Statutory Audit Services Order, the Audit Committee has specific responsibility for negotiating and agreeing the statutory audit fee for and on behalf of the Board. Details of the remuneration paid to the Company's external auditors for 2021 and details of how the effectiveness and independence of the external auditors is monitored and assessed can be found throughout the 2021 annual report.

## Political donations

Resolution 21 seeks authority to make political donations within limits on a precautionary basis only to avoid inadvertently breaching the legislation.

21. That in accordance with sections 366 and 367 of the Companies Act 2006, the Company and all companies that are its subsidiaries during the period for which this resolution has effect are authorised to:

- (A) make donations to political parties and/or independent election candidates not exceeding £100,000 in total;
- (B) make donations to political organisations other than political parties not exceeding £100,000 in total; and
- (C) incur political expenditure not exceeding £100,000 in total,

(as such terms are defined in sections 363 to 365 of the Companies Act 2006) provided that the aggregate amount of any such donations and expenditure shall not exceed £100,000 during the period beginning with the date of passing of this resolution and expiring at the end of next year's AGM, unless such authority has been previously renewed, revoked or varied by the Company in a general meeting and provided that the authorised sum referred to in paragraphs (A), (B) and (C) may be comprised of one or more amounts in different currencies which, for the purposes of calculating that authorised sum, shall be converted into pounds sterling at the rate of exchange published in the Financial Times on the day on which the relevant donation is made or the relevant expenditure is incurred or, if earlier, on the day on which the Company or its subsidiary enters into any contract or undertaking in relation to such donation or expenditure (or, if such day is not a business day, the first business day thereafter).

It is not the Group's policy to make political donations (**no political donations were made in the year ended 31 December 2021**). However, it is possible that certain routine activities undertaken by the Company and its subsidiaries might unintentionally fall within the broad scope of the provisions controlling political donations and expenditure. Any political donations or expenditure regulated by the Companies Act 2006 must be approved by shareholders at a general meeting and be disclosed in the next year's annual report. Accordingly, the directors seek shareholders' approval to renew the authority for political donations and expenditure to be made by the Company. As permitted under the Companies Act 2006, the resolution covers any political donations made or political expenditure incurred by the Company's subsidiaries. The three categories set out in the Companies Act 2006 are: political parties and independent election candidates; political organisations and political expenditure. The resolution proposes a cap of £100,000 per category subject to an aggregate cap for authorised political donations or expenditure of £100,000. The authority being sought will be effective from Wednesday 4 May 2022 until the end of next year's AGM unless previously renewed, revoked or varied by the Company in a general meeting. The Companies Act 2006 permits shareholders to grant authority for up to four years. However, the directors will seek to renew this authority at each AGM.

## Share allotment authorities

Resolutions 22-27 are regarding the allotment of the Company's securities. The authorities can be summarised as:

- resolution 22 authorises the Board to allot ordinary shares in various circumstances (scrip dividends, employee share schemes and corporate actions such as rights issues) subject to specified limits and conditions;
- resolution 23 authorises the Board to extend the authority from resolution 22 to include any ordinary shares repurchased by the Company under resolution 28;
- resolution 24 authorises the Board to allot shares in relation to ECAT1 Securities subject to a specified limit. ECAT1 Securities automatically convert into shares in prescribed circumstances; and
- resolutions 25, 26 and 27 are special resolutions and authorise the Board to disapply existing shareholder pre-emption rights in certain circumstances when allotting shares or ECAT1 Securities.

22. That the Board be authorised to allot shares in the Company and to grant rights to subscribe for or convert any security into shares in the Company:

- (A) up to a nominal amount of US\$302,578,862.50 (such amount to be restricted to the extent that any allotments or grants are made under paragraphs (B) or (C) so that in total no more than US\$504,298,104.00 can be allotted under paragraphs (A) and (B) and no more than US\$1,008,596,208.50 can be allotted under paragraphs (A), (B) and (C));
- (B) up to a nominal amount of US\$504,298,104.00 (such amount to be restricted to the extent that any allotments or grants are made under paragraphs (A) or (C) so that in total no more than US\$504,298,104.00 can be allotted under paragraphs (A) and (B) and no more than US\$1,008,596,208.50 can be allotted under paragraphs (A), (B) and (C)) in connection with a scrip dividend scheme or similar arrangement implemented in accordance with the Articles of Association of the Company;
- (C) comprising equity securities (as defined in section 560(1) of the Companies Act 2006) up to a nominal amount of US\$1,008,596,208.50 (such amount to be restricted to the extent that any allotments or grants are made under paragraphs (A) or (B) so that in total no more than US\$1,008,596,208.50 can be allotted under paragraphs (A), (B) and (C)) in connection with an offer by way of a rights issue:
  - (i) to ordinary shareholders in proportion (as nearly as may be practicable) to their existing holdings; and
  - (ii) to holders of other equity securities as required by the rights of those securities or as the Board otherwise considers necessary,

and so that the Board may impose any limits or restrictions and make any arrangements which it considers necessary or appropriate to deal with treasury shares, fractional entitlements, record dates, legal, regulatory or practical problems in, or under the laws of, any territory or any other matter; and

**(D) pursuant to the terms of any share scheme of the Company or any of its subsidiaries or subsidiary undertakings,**

**such authorities to apply until the end of next year's AGM (or, if earlier, until the close of business on 3 August 2023) but, in each such case, during this period the Company may make offers and enter into agreements which would, or might, require shares to be allotted or rights to subscribe for or convert securities into shares to be granted after the authority ends and the Board may allot shares or grant rights to subscribe for or convert securities into shares under any such offer or agreement as if the authority had not ended.**

Under section 551 of the Companies Act 2006, the directors may only allot shares, or grant rights to subscribe for or convert any security into shares, if shareholders in a general meeting have given them authority to do so. The authority given to the directors at last year's AGM to allot ordinary shares or grant rights to subscribe for or convert any security into such shares will expire at the end of this year's AGM. Accordingly, resolution 22 seeks shareholders' approval to renew this authority.

The directors intend to use the authorities sought under resolution 22 to allot ordinary shares following the exercise of options and awards under the Company's share schemes. Otherwise, the authorities will also give the directors flexibility to issue shares where they believe it is in the interests of shareholders to do so.

As at the date of this document, no shares are held by the Company in treasury.

Paragraph (A) of resolution 22 asks for a new authority to be given to allow the directors to allot shares or grant rights to subscribe for or convert any security into shares up to an aggregate nominal amount equal to US\$302,578,862.50 (representing 605,157,725 ordinary shares of US\$0.50 each), such amount to be reduced to take into account amounts allotted or granted under paragraphs (B) and (C) of resolution 22. This amount represents approximately 20 per cent of the issued ordinary share capital of US\$1,512,894,313.00 as at 21 March 2022, the latest practicable date prior to the publication of this document. The Hong Kong Listing Rules do not permit the directors to allot, on a non pre-emptive basis, shares or rights to shares that would represent more than 20 per cent of the issued ordinary share capital as at the date on which the resolution granting them a general authority to allot is passed. Accordingly, paragraph (A) of resolution 22 restricts the authority of the directors to the 20 per cent threshold.

Paragraph (B) of resolution 22 would give the directors the authority to make allotments which exceed the 20 per cent authority under paragraph (A) of resolution 22 by way of share dividend (scrip), up to an aggregate nominal amount (when combined with any allotments made under the authority in paragraph (A)) equal to US\$504,298,104.00 (representing 1,008,596,208 ordinary shares of US\$0.50 each), such amount to be reduced to take into account amounts allotted or granted under paragraphs (A) and (C) of resolution 22. This amount represents approximately one-third of the issued ordinary share capital of the Company as at 21 March 2022, the latest practicable date prior to the publication of this document.

In line with guidance issued by the Investment Association, paragraph (C) of resolution 22 would give the directors authority to allot shares or grant rights to subscribe for or convert any security into shares in connection with a rights issue in favour of ordinary shareholders up to an aggregate nominal amount equal to US\$1,008,596,208.50 (representing 2,017,192,417 ordinary shares of US\$0.50 each), as reduced by

the nominal amount of any shares issued under paragraphs (A) or (B) of resolution 22. This amount (before any reduction) represents approximately two-thirds of the issued ordinary share capital of the Company as at 21 March 2022, the latest practicable date prior to the publication of this document.

Under Rule 7.19A(1) of the Hong Kong Listing Rules, if a proposed rights issue would increase either the number of issued shares or the market capitalisation of the Company by more than 50 per cent (on its own or when aggregated with any other rights issues or open offers announced within the previous 12 months or prior to such 12 month period where dealing in respect of the shares issued pursuant thereto commenced within such 12 month period), then the issue must be made conditional on approval by minority shareholders in a general meeting by a resolution on which the directors (excluding independent non-executive directors) and their associates must abstain from voting. However, Hong Kong Stock Exchange has granted a waiver to the Company from strict compliance with the above requirements in order to place the Company on an equal footing with other UK listed companies. The waiver has been granted on the basis that:

- (A) the directors (excluding independent non-executive directors) and their associates would abstain from voting on the relevant resolution in their capacity as shareholders at the AGM; and
- (B) if the Company were to do a further rights issue, the Company would not need to obtain further minority shareholder approval under Rule 7.19A(1) of the Hong Kong Listing Rules provided that:
  - (i) the market capitalisation of the Company will not increase by more than 50 per cent as a result of the proposed rights issue; and
  - (ii) the votes of any new directors appointed to the Board since the AGM would not have made a difference to the outcome of the relevant resolution at the AGM if they had been shareholders at the time and they had in fact abstained from voting.

Under the Hong Kong Listing Rules the directors are required to seek authority from shareholders to allot shares and grant rights to subscribe for or convert any security into shares pursuant to any share scheme of the Company or any of its subsidiaries or subsidiary undertakings. Paragraph (D) of resolution 22 seeks such authority.

The authorities sought in paragraphs (A), (B), (C) and (D) of resolution 22 will expire at the end of next year's AGM (or, if earlier, at the close of business on 3 August 2023).

**23. That the authority granted to the Board to allot shares or grant rights to subscribe for or convert securities into shares up to a nominal amount of US\$302,578,862.50 pursuant to paragraph (A) of resolution 22 be extended by the addition of such number of ordinary shares of US\$0.50 each representing the nominal amount of the Company's share capital repurchased by the Company under the authority granted pursuant to resolution 28, to the extent that such extension would not result in the authority to allot shares or grant rights to subscribe for or convert securities into shares pursuant to resolution 22 exceeding US\$1,008,596,208.50.**

As permitted by the Hong Kong Listing Rules, resolution 23 seeks to extend the directors' authority to allot shares and grant rights to subscribe for or convert any security into shares pursuant to paragraph (A) of resolution 22 to include any shares repurchased by the Company under the authority sought by resolution 28.

**24. That, in addition to any authority granted pursuant to resolution 22 (if passed), the Board be authorised to allot shares in the Company and to grant rights to subscribe for or to convert any security into shares in the Company up to an aggregate nominal amount of US\$302,578,862.50 (or 605,157,725 shares), representing approximately 20 per cent of the Company's nominal issued ordinary share capital as at 21 March 2022, in relation to any issue by the Company or any subsidiary or subsidiary undertaking of the Company (together, the Group) of Equity Convertible Additional Tier 1 Securities (ECAT1 Securities) that automatically convert into or are exchanged for ordinary shares in the Company in prescribed circumstances where the Board considers that such an issuance of ECAT1 Securities would be desirable in connection with, or for the purposes of complying with or maintaining compliance with the regulatory capital requirements or targets applicable to the Group from time to time, such authority to expire at the end of next year's AGM (or, if earlier, at the close of business on 3 August 2023) but so that, in the period before the authority ends, the Company may make offers and enter into agreements which would, or might, require shares to be allotted or rights to subscribe for or to convert securities into shares to be granted after the authority ends and the Board may allot shares or grant rights to subscribe for or convert securities into shares under any such offer or agreement as if the authority had not ended.**

The effect of resolution 24 is to give the Board the authority to allot shares and grant rights to subscribe for or to convert any security into ordinary shares in the Company up to an aggregate nominal amount of US\$302,578,862.50 (or 605,157,725 shares), representing approximately 20 per cent of the Company's issued ordinary share capital as at 21 March 2022 (the latest practicable date prior to publication of this document), such authority to be exercised in connection with the issue of ECAT1 Securities. Please see Appendix 4 for more information on ECAT1 Securities.

This authority is in addition to the authority proposed under resolution 22.

The authority sought under resolution 24 is not contemplated by the guidance issued by the Investment Association. The Board may use the authority sought under resolution 24 as it considers desirable from time to time to comply with or maintain compliance with regulatory capital requirements or targets applicable to the Group.

The 20 per cent limit under the authority proposed in resolution 24 is independent of any use of the authorities granted at previous AGMs, which each expired (to the extent unused) at the end of the following year's AGM. The total amount of shares in the Company relating to outstanding ECAT1 Securities issued by the Company to date under the previous authorities represent around 31 per cent of the Company's nominal issued capital.

The authority sought under resolution 24 will expire at the end of next year's AGM (or, if earlier, at the close of business on 3 August 2023).

## Special Resolutions

**25. That if resolution 22 is passed, the Board be given power to allot equity securities (as defined in the Companies Act 2006) for cash under the authority given by that resolution and/or sell ordinary shares held by the Company as treasury shares for cash as if section 561 of the Companies Act 2006 did not apply to such allotment or sale, such power to be limited:**

- (A) to the allotment of equity securities and sale of treasury shares for cash in connection with a scrip dividend scheme or similar arrangement implemented in accordance with the Articles of Association of the Company;
- (B) to the allotment of equity securities and sale of treasury shares for cash in connection with an offer of, or invitation to apply for, equity securities under the authorities granted under paragraphs (A) and (C) of resolution 22 (but in the case of the authority granted under paragraph (C) of resolution 22, by way of a rights issue only):
  - (i) to ordinary shareholders in proportion (as nearly as may be practicable) to their existing holdings; and
  - (ii) to holders of other equity securities as required by the rights of those securities or as the Board otherwise considers necessary,

**and so that the Board may impose any limits or restrictions and make any arrangements which it considers necessary or appropriate to deal with treasury shares, fractional entitlements, record dates, legal, regulatory or practical problems in, or under the laws of, any territory or any other matter; and**

- (C) in the case of the authority granted under paragraph (A) of resolution 22 and/or in the case of any sale of treasury shares for cash, to the allotment (otherwise than under paragraphs (A) and (B)) of equity securities or sale of treasury shares up to a nominal amount of US\$75,644,715.50,

**such power to apply until the end of next year's AGM (or, if earlier, until the close of business on 3 August 2023) but, in each case, during this period the Company may make offers, and enter into agreements, which would, or might, require equity securities to be allotted (and treasury shares to be sold) after the power ends and the Board may allot equity securities (and sell treasury shares) under any such offer or agreement as if the power had not ended.**

This resolution would give the directors the authority to allot shares (or sell any shares which the Company elects to hold in treasury) for cash without first offering them to existing shareholders in proportion to their existing shareholdings. This authority would be limited to allotments or sales in connection with a scrip dividend scheme and in connection with pre-emptive offers and offers to holders of other equity securities if required by the rights of those securities or as the Board otherwise considers necessary (but in the case of the authority granted pursuant to paragraph (C) of resolution 22 by way of rights issue only), or otherwise up to an aggregate nominal amount of US\$75,644,715.50 (representing 151,289,431 ordinary shares of US\$0.50 each). This aggregate nominal amount represents approximately five per cent of the issued ordinary share capital of the Company as at 21 March 2022, the latest practicable date prior to the publication of this document. In respect of this aggregate nominal amount, the directors

confirm their intention to follow the provisions of the Pre-Emption Group's Statement of Principles (the Principles) regarding cumulative usage of authorities within a rolling three-year period where the Principles provide that usage in excess of 7.5 per cent of the issued ordinary share capital of the Company should not take place without prior consultation with shareholders. The authorities sought pursuant to resolution 25 will expire at the end of next year's AGM (or, if earlier, at the close of business on 3 August 2023).

**26. That if resolution 22 is passed, the Board be given power in addition to any power granted under resolution 25 to allot equity securities (as defined in the Companies Act 2006) for cash under the authority granted under paragraph (A) of resolution 22 and/or sell ordinary shares held by the Company as treasury shares for cash as if section 561 of the Companies Act 2006 did not apply to such allotment or sale, such power to be:**

- (A) limited to the allotment of equity securities or sale of treasury shares up to a nominal amount of US\$75,644,715.50; and**
- (B) used only for the purposes of financing (or refinancing, if the authority is to be used within six months after the original transaction) a transaction which the Board determines to be an acquisition or other capital investment of a kind contemplated by the Statement of Principles on Disapplying Pre-Emption Rights most recently published by the Pre-Emption Group prior to the date of this Notice,**

**such power to apply until the end of next year's AGM (or, if earlier, until the close of business on 3 August 2023) but, in each case, during this period the Company may make offers, and enter into agreements, which would, or might, require equity securities to be allotted (and treasury shares to be sold) after the power ends and the Board may allot equity securities (and sell treasury shares) under any such offer or agreement as if the power had not ended.**

This resolution is intended to give the Company flexibility to make non pre-emptive issues of ordinary shares in connection with acquisitions and other capital investments as contemplated by the Pre-Emption Group's Statement of Principles. The power under this resolution is in addition to that proposed by resolution 25 and would be limited to allotments or sales of up to an aggregate nominal amount of US\$75,644,715.50 (representing 151,289,431 ordinary shares of US\$0.50 each). This aggregate nominal amount represents an additional five per cent of the issued ordinary share capital of the Company as at 21 March 2022, the latest practicable date prior to publication of this Notice. In accordance with the Pre-Emption Group's Statement of Principles, the directors confirm that this authority will only be used in connection with an acquisition or specified capital investment that is announced contemporaneously with the issue, or that has taken place in the preceding six month period and is disclosed in the announcement of the issue.

The authority sought pursuant to resolution 26 will expire at the end of next year's AGM (or, if earlier, at the close of business on 3 August 2023).

**27. That, in addition to the powers granted pursuant to resolutions 25 and 26 (if passed), and if resolution 24 is passed, the Board be given the power to allot equity securities (as defined in the Companies Act 2006) for cash under the authority given by resolution 24 as if section 561 of the Companies Act 2006 did not apply, such authority to apply until the end of next year's AGM (or, if earlier, until the close of business on 3 August 2023) but, in each case, during this period the Company may make offers and enter into agreements which would, or might, require shares to be allotted or rights to subscribe for or to convert securities into shares to be granted after the authority ends and the Board may allot shares or grant rights to subscribe for or convert securities into shares under any such offer or agreement as if the authority had not ended.**

The effect of resolution 27 is to give the Board authority to allot ECAT1 Securities, or shares issued upon conversion or exchange of ECAT1 Securities, without first offering them to existing shareholders. This will allow the Company to manage its capital in the most efficient and economic way for the benefit of shareholders.

If passed, resolution 27 will authorise the Board to allot shares and grant rights to subscribe for or to convert any security into shares in the Company on a non pre-emptive basis up to an aggregate nominal amount of US\$302,578,862.50 (or 605,157,725 shares), representing approximately 20 per cent of the Company's issued ordinary share capital as at 21 March 2022 (the latest practicable date prior to publication of this document), such authority to be exercised in connection with the issue of ECAT1 Securities.

Should a Trigger Event occur (please see Appendix 4 for more information on ECAT1 Securities and their Trigger Events) the ECAT1 Securities will convert into or be exchanged for shares in the Company. The Board may or may not give shareholders the opportunity to purchase the ordinary shares created on conversion or exchange of any ECAT1 Securities on a pro rata basis, where practicable and subject to applicable laws and regulations, such decision to be made on a transaction by transaction basis.

The authority sought under resolution 27 will expire at the end of next year's AGM (or, if earlier, at the close of business on 3 August 2023).

## Purchase of own Ordinary Shares or Preference Shares

**Resolutions 28 and 29 seek authority for the Company to purchase its own ordinary shares or preference shares subject to specified limits and conditions.**

**28. That the Company be authorised for the purposes of section 701 of the Companies Act 2006 to make market purchases (as defined in the Companies Act 2006) of its ordinary shares of US\$0.50 each provided that:**

- (A) the Company does not purchase more than 302,578,862 shares under this authority;**
- (B) the Company does not pay less for each share (before expenses) than the nominal value of the share; and**
- (C) the Company does not pay more for each share (before expenses) than the higher of (i) five per cent**

**over the average of the middle market prices of the ordinary shares according to the Daily Official List of the London Stock Exchange for the five business days immediately before the date on which the Company agrees to buy the shares and (ii) the higher of the price of the last independent trade and the highest current independent purchase bid on the trading venue where the purchase is carried out (including when the shares are traded on different trading venues),**

**such authority to apply until the end of next year's AGM (or, if earlier, until the close of business on 3 August 2023) but during this period the Company may agree to purchase shares where the purchase may not be completed (fully or partly) until after the authority ends and the Company may make a purchase of ordinary shares in accordance with any such agreement as if the authority had not ended. For the purposes of determining compliance with the conditions in paragraphs (B) and (C), the nominal value of the share or the relevant price (respectively) shall, if necessary, be converted into the currency in which the purchase is to be made, calculated by reference to the spot rate of exchange between the currency of the nominal value or of the price (as applicable) and the currency in which the purchase is to be made, as displayed on the appropriate page of the Bloomberg screen (or on the appropriate page of such other information service which publishes that rate from time to time) at or around 11.00am UK time on the business day before the day the Company agrees to buy such share.**

The effect of this resolution is to renew the authority granted to the Company to purchase its own shares up to a maximum of 302,578,862 ordinary shares until next year's AGM (or, if earlier, until the close of business on 3 August 2023) at, or between, the minimum and maximum prices specified in this resolution. This is approximately 10 per cent of the Company's issued ordinary share capital as at 21 March 2022 (the latest practicable date prior to the publication of this document). No repurchases of shares will be conducted on The Hong Kong Stock Exchange.

The directors believe that it is in the best interests of the Company and all of its shareholders to have a general authority for the Company to buy back its ordinary shares in the market. The directors intend to keep under review the potential to purchase ordinary shares. Purchases will only be made if the directors consider that the purchase would be for the benefit of the Company and of its shareholders generally, taking into account relevant factors and circumstances at that time, for example the effect on earnings per share. The Companies Act 2006 permits the Company to hold any such bought back shares in treasury as an alternative to cancelling them immediately. If the Company purchases any of its ordinary shares and holds them in treasury, the Company may sell these shares (or any of them) for cash, transfer these shares (or any of them) for the purposes of or pursuant to an employee share scheme, cancel these shares (or any of them) or continue to hold them in treasury. Holding such shares in treasury gives the Company the ability to reissue them quickly and cost effectively and provides additional flexibility in the management of the Company's capital base. No dividends will be paid on, and no voting rights will be exercised in respect of, shares held in treasury. The directors intend to decide whether to cancel shares purchased pursuant to this authority or hold them in treasury based on the interests of the Company and shareholders as a whole at the relevant time.

The total number of options and/or conditional rights (whether discretionary or otherwise) to subscribe for ordinary shares outstanding at 21 March 2022, the latest practicable date prior to the publication of this document, was 77,160,849, which

represented 2.55 per cent of the issued ordinary share capital at that date. As at 21 March 2022, the latest practicable date prior to the publication of this document, there were no warrants over ordinary shares outstanding. If the Company were to purchase the maximum number of ordinary shares permitted under this resolution, the proportion of ordinary shares subject to outstanding options and/or conditional rights (whether discretionary or otherwise) would represent approximately 2.83 per cent of the issued ordinary share capital as at 21 March 2022.

**29. That the Company be authorised to make market purchases (as defined in the Companies Act 2006) of up to 15,000 preference shares of US\$5.00 each and up to 195,285,000 preference shares of £1.00 each provided that:**

- (A) the Company does not pay less for each share (before expenses) than the nominal value of the share; and**
- (B) the Company does not pay more for each share (before expenses) than 25 per cent above the following:**
  - (i) in respect of the US\$ preference shares, the Composite Bloomberg Bond Trader bid price shown on the relevant Bloomberg page ALLQ for the relevant preference share (or any replacement page which displays that price) at or around 11.00am UK time on the business day before the day on which the Company agrees or (if earlier) publicly announces an offer or invitation to buy such share;**
  - (ii) in respect of the GBP preference shares, the London Stock Exchange bid price shown on the relevant Bloomberg page ALLQ for the relevant preference share (or any replacement page which displays that price) at or around 11.00am UK time on the business day before the day on which the Company agrees or (if earlier) publicly announces an offer or invitation to buy such share;**
  - (iii) in respect of either US\$ or GBP preference shares, where the relevant bid price is not available under (i) or (ii), the highest independent bid price shown on the relevant Bloomberg page ALLQ for the relevant preference share (or any replacement page which displays that price) at or around 11.00am UK time on the business day before the day on which the Company agrees or (if earlier) publicly announces an offer or invitation to buy such share,**

**such authority to apply until the end of next year's AGM (or, if earlier, until the close of business on 3 August 2023) but during this period the Company may agree to purchase shares where the purchase may not be completed (fully or partly) until after the authority ends and the Company may make a purchase of shares in accordance with any such agreement as if the authority had not ended. For the purposes of determining compliance with the conditions in paragraphs (A) and (B), the nominal value of the share or the relevant price (respectively) shall, if necessary, be converted into the currency in which the purchase is to be made, calculated by reference to the spot rate of exchange between the currency of the nominal value or of the relevant price (as applicable) and the currency in which the purchase**

**is to be made, as displayed on the appropriate page of the Bloomberg screen (or on the appropriate page of such other information service which publishes that rate from time to time) at or around 11.00am UK time on the business day before the day the Company agrees or (if earlier) publicly announces an offer or invitation to buy such share.**

The effect of this resolution is to renew the authority granted to the Company to purchase up to 195,285,000 GBP preference shares and up to 15,000 US dollar preference shares. No preference shares have been repurchased since the last AGM as at 21 March 2022.

Whilst it is important to have a capital base which is adequate to allow the business to grow in all areas and which appears to offer an appropriate balance between risk and profitability, it is equally important that the Company does not carry excessive amounts of capital and that it uses the most appropriate mix of capital instruments on the balance sheet. Having the authority to buy back all the issued preference shares would provide the Company with further flexibility in managing the capital base. Accordingly, the directors believe that it is in the best interests of the Company and its shareholders as a whole to have the authority sought by this resolution.

The directors intend to keep under review the potential to buy back preference shares, taking into account other investment and funding opportunities.

The authority will be exercised only if the directors believe that to do so would be in the interests of shareholders generally. The directors are seeking this authority in respect of all the preference shares currently in issue to provide the Company with maximum flexibility in this regard. If the Company purchases any of its preference shares, those shares will be cancelled.

## Notice Period for general meetings

### **Resolution 30 preserves the Company's ability to call general meetings (other than an AGM) on 14 clear days' notice.**

**30. That a general meeting other than an annual general meeting may be called on not less than 14 clear days' notice.**

The notice period required for general meetings of the Company is 21 clear days unless shareholders approve a shorter notice period, which cannot however be less than 14 clear days (AGMs are still required to be held on at least 21 clear days' notice).

Resolution 30 seeks such approval. The approval will be effective until the Company's next AGM, when it is intended that a similar resolution will be proposed.

Note that, in order to be able to call a general meeting on less than 21 clear days' notice, the Company must make a means of electronic voting available to all shareholders for that meeting. The shorter notice period would not be used routinely for such meetings, but only where the flexibility is merited by the business of the meeting and is thought to be to the advantage of shareholders as a whole.

## Ordinary Resolution

### Net zero pathway

#### **Resolution 31 proposes the endorsement of the Company's pathway to net zero by 2050.**

**31. That the Company's net zero pathway, as first published on 28 October 2021, the main features of which are summarised in Appendix 1, be and is hereby endorsed, noting that it may be amended from time to time.**

Resolution 31 is an advisory vote seeking approval of the Company's net zero pathway. To achieve the Company's net zero objectives by 2050, the Board proposes that shareholders endorse its current net zero transition pathway (as first published on 28 October 2021), and summarised with updates in Appendix 1 (Summary of Main Features of Net Zero pathway)). The current net zero pathway is available at [sc.com/netzero](https://sc.com/netzero) and contains: a press release summarising our aims, proposed areas for future work, a whitepaper detailing our methodology and a Transition Finance Framework setting out how our transition finance will be governed by alignment to the International Energy Agency's Net Zero Emissions by 2050 scenario and other resources (NZE).

The Board notes that climate finance is a rapidly changing area, and as such, we are seeking to balance implementation of our existing plans with enhancements over time. These enhancements may result from new scientific data, ongoing stakeholder engagement or changes in applicable legislation.

The Board carefully scrutinised the pathway before its publication and fully supports the Group's ambition to minimise its impact on the environment and to play our part in supporting the global transition to a low carbon economy. The Group also engaged with a broad array of external stakeholders to help develop the pathway, which is a demonstration of its consistent steps towards meeting its goal to achieve net zero by 2050.

The Board recommends shareholders vote in favour of resolution 31. Voting in favour of this resolution shows support of both the Company and how it intends to progress its net zero climate approach.

**The Board considers that resolutions 1 to 31 in this Notice are in the best interests of the Company and shareholders as a whole and recommends all shareholders vote in favour of resolutions 1 to 31, as the directors intend to do in respect of their own shares, with the exception of resolution 22 (for the reasons set out on page 14).**

## Special Resolution

### Shareholder requisition resolution Not supported by your Board

32. Noting the company's stated support for the goal of achieving net-zero emissions globally by 2050,<sup>1</sup> along with the publication of the International Energy Agency's Net Zero by 2050 scenario,<sup>2</sup> to promote the long-term success of the company, given the risks and opportunities associated with climate change, the company and the directors be authorised and directed by the shareholders to:

1. Set, disclose and implement a strategy to manage its Fossil Fuel<sup>3</sup> exposure in accordance with a scenario in which global emissions reach net zero by 2050, including:
  - a. A commitment to no longer provide Financing<sup>4</sup> where proceeds would be used for new or expanded Fossil Fuel projects; and
  - b. Short-, medium-, and long-term targets to reduce fossil fuel exposure consistent with the goal of net zero by 2050, avoiding overreliance on negative emissions technologies.
2. Report annually on progress under that strategy, starting from 2022, including a summary of the framework, methodology, timescales and core assumptions used, omitting commercially confidential or competitively sensitive information, and at reasonable cost.

Footnotes:

- 1 Standard Chartered climate change policy statement: <https://www.sc.com/en/sustainability/position-statements/climate-change/>
- 2 Net Zero by 2050', International Energy Agency, May 2021
- 3 Upstream, midstream and downstream oil and gas; coal mining and transport (including haulage and ports); coal, oil and gas power generation
- 4 Including corporate lending, project finance, trade finance, bonds, IPOs and their distribution

Your directors consider that resolution 32 is not in the best interests of the Company and its shareholders as a whole and unanimously recommend that you vote against resolution 32 for the reasons set out in Appendix 3. Notwithstanding the fact that the Company and Market Forces are both highly committed to contributing to the transition to net zero, the Board considers that resolution 32 is not in the best interests of the Company and shareholders as a whole and recommends all shareholders vote against resolution 32, as the directors intend to do in respect of their own shares. A supporting statement by the members who requisition the resolution can be found in Appendix 2. The Board's response and reasons for recommending that shareholders vote against the resolution can be found in Appendix 3.

# General Information

## Options available for receiving cash dividend (including arrangements for calculating and paying the cash dividend)

### Option 1: Cash dividend paid in Hong Kong dollars

Hong Kong registered shareholders will automatically receive their cash dividend in Hong Kong dollars, unless they have a standing instruction in place to receive it in another currency. If shareholders currently receive their dividend in Hong Kong dollars and wish for this to continue, no further action is required.

If Hong Kong registered shareholders have a standing instruction in place to receive their dividend in another currency but wish to receive their cash dividend in Hong Kong dollars, they should refer to the below for instructions on how to amend their standing instruction.

In addition, Hong Kong registered shareholders are encouraged to have their cash dividend in Hong Kong dollars paid directly into a Hong Kong dollars bank account. We can arrange this for Hong Kong registered shareholders, provided their accounts are held with a bank in Hong Kong. This ensures shareholders receive their dividend promptly and securely. Please contact our branch registrar at 2862 8555 or access to [computershare.com/hk/contact](http://computershare.com/hk/contact) for a dividend instruction form (see contact details below).

The cash dividend is quoted in US dollars and the amount that shareholders will receive in Hong Kong dollars is calculated by using the forward US dollar/Hong Kong dollar exchange rate as displayed on the appropriate page of the Bloomberg screen or equivalent at or around 2.00pm (UK time) on Wednesday, 20 April 2022, which will be published on our website at [sc.com/shareholders](http://sc.com/shareholders).

### Option 2: Cash dividend paid in another currency (sterling or US\$)

Hong Kong registered shareholders may choose to receive their cash dividend in sterling or US dollars. If shareholders hold shares on the principal register in the UK, they will automatically receive their cash dividend in sterling, which is the default currency for shareholders on the principal register.

If shareholders have a standing instruction in place to receive their cash dividend in sterling or US dollars and want to continue receiving their dividends in the same way, no further action is required.

If shareholders want to receive this cash dividend and future dividends in sterling or US dollars, they can register, update and/or cancel their instructions electronically or complete an election form and send it to our branch registrar (see contact details), provided their instructions are received by our branch registrar by 4.30pm (Hong Kong time) on Tuesday, 12 April 2022.

The cash dividend is quoted in US dollars and the amount that shareholders will receive in sterling is calculated by using the forward US dollar/sterling exchange rate as displayed on the appropriate page of the Bloomberg screen or equivalent at or

around 2.00pm (UK time) on Wednesday, 20 April 2022, which will be published on our website at [sc.com/shareholders](http://sc.com/shareholders).

Hong Kong Stock Exchange granted a waiver to the Company on 7 December 2011 from compliance with Rule 13.66(2) of the Rules Governing the Listing of Securities on the Stock Exchange and Note 3 thereunder relating to record dates for the Company's final dividends.

## Right to attend the AGM

If you want to attend the AGM in person or electronically and vote, you must be on the Company's register of members in the UK at 10.00pm UK time on 2 May 2022 or on the Company's branch register of members in Hong Kong at 5.00am Hong Kong time 2 May 2022. This will enable us to determine how many votes you have on a poll. If the AGM is adjourned to a time after 10.00pm UK time on Wednesday, 4 May 2022, you must be on the appropriate register of members of the Company 48 hours before the time of the adjourned meeting. This will also allow us to confirm how many votes you will have on a poll at such a meeting. If we give you notice of an adjourned meeting we will tell you in the notice when you need to be on the register to be able to attend and vote.

Changes to the register of members after the relevant deadline will be disregarded in determining the rights of any person to attend and vote at the meeting.

## Right to ask questions at the AGM

Any member attending the meeting has the right to ask questions. Shareholders attending the meeting electronically may ask questions via the Lumi web-portal or using the telephone facility (for further details please see pages 26 and 27). In addition to asking questions at the AGM itself, you can also submit questions in advance of the meeting in writing (for further details please see page 26). Submitting a question in advance of the AGM does not affect your rights as a shareholder to attend the meeting and speak at the AGM. The Company must cause to be answered any such question relating to the business being dealt with at the meeting but no such answer need be given if (a) to do so would interfere unduly with the preparation for the AGM or involve the disclosure of confidential information, (b) the answer has already been given on a website in the form of an answer to a question, or (c) it is undesirable in the interests of the Company or the good order of the meeting that the question be answered.

## Proxy appointments

If you are an ordinary shareholder you may attend, speak and vote in person or electronically at the AGM or appoint one or more proxy(ies) to exercise all or any of your rights to attend and to speak and vote on your behalf at the Company's AGM. A shareholder may appoint more than one proxy in relation to the AGM provided that each proxy is appointed to exercise the rights attached to a different share or shares held by that shareholder. A proxy need not be a shareholder of the Company. A proxy may be appointed by any of the following methods:

- Electronic proxy – shareholders on the Hong Kong branch registers of members may appoint a proxy electronically, which is a quicker, simpler and more efficient method of appointment. You can submit your proxy form electronically. You can then appoint your proxy, on our branch registrar's website at [eproxyappointment.com/STDH](http://eproxyappointment.com/STDH). You will need the Control Number, your Shareholder Reference Number (SRN), and Personal Identification Number (PIN), which are stated on the accompanying proxy form or voting instruction form to access the service. Your PIN will expire at 11.00am UK time (6.00pm Hong Kong time) on 2 May 2022. Before you can appoint a proxy electronically, you will be asked to agree to the terms and conditions for electronic proxy appointment. It is important that you read these terms and conditions carefully as they will govern the electronic appointment of your proxy; or
- completing and returning the enclosed proxy form to our branch registrar Computershare Hong Kong Investor Services Limited, 17M Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong.

**IMPORTANT:** Whichever method you choose, any proxy form or other instrument appointing a proxy must be received by the Company's branch registrar no later than 6.00pm Hong Kong time on 2 May 2022 to be valid.

**The Board strongly encourages shareholders to vote on all resolutions by completing their proxy form (or voting instruction form) to appoint the Chair of the AGM to cast their votes as directed (even if you plan to attend the AGM). This is to ensure that your vote is counted if you are unable to attend in person or electronically and cast your vote on the day of the AGM.**

Appointing a proxy in any of the ways outlined above will not prevent shareholders attending and voting at the AGM in person or electronically should they wish to do so.

Shareholders (or their appointed proxy) who attend the AGM in person or electronically will be able to vote on all the resolutions put to the AGM. Instructions on how shareholders can exercise their votes whilst attending the AGM in person or electronically are set out on pages 26 to 28.

## Nominated persons

Any person to whom this document is sent who is a person nominated under section 146 of the Companies Act 2006 to enjoy information rights (a 'Nominated Person') may, under an agreement between him/her and the shareholder by whom s/he was nominated, have a right to be appointed (or to have someone else appointed) as a proxy for the AGM. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, s/he may, under any such agreement, have a right to give instructions to the shareholder as to the exercise of voting rights.

The statements under the paragraphs headed 'Proxy appointments' do not apply to Nominated Persons. The rights described in these paragraphs can only be exercised by ordinary shareholders (or by proxy(ies) appointed to act on their behalf) at a general meeting of the Company.

## Corporate representatives

Any corporation which is a member can appoint one or more corporate representatives who may exercise on its behalf all of its powers as a member provided that they do not do so in relation to the same shares.

If a corporation intends to appoint one or more corporate representatives please contact Computershare on either corporate-representatives@computershare.co.uk for UK corporations or sc.proxy@computershare.com.hk for Hong Kong corporations.

## Poll voting procedure

The Company will call a poll on all resolutions at the AGM. This allows the votes of both shareholders who have lodged proxies and shareholders who attend the meeting in person or electronically to be taken into account. Voting will take place via a personalised poll card, given on the date of the AGM to all those entitled to vote who attend the AGM in person, and the Lumi web-portal once the Chair of the AGM formally declares the poll open. Further information on the electronic voting process can be found on page 27. All the votes made in person and via the Lumi web-portal will be counted and added to those received by proxy. If you have already voted by proxy you will still be able to vote in person or by using the Lumi web-portal and your vote on the day will replace your proxy vote lodged previously.

On a poll, every ordinary shareholder present in person or by proxy has one vote for every US\$2.00 nominal value of ordinary shares held. The nominal value of each ordinary share being US\$0.50 means that a member needs to hold four ordinary shares to register one vote on a poll. As at 21 March 2022 (being the latest practicable date prior to the publication of this document), the Company had 3,025,788,626 ordinary shares of US\$0.50 each in issue, none of which were held in treasury. The ordinary shares carry in aggregate 756,447,156 voting rights on a poll.

The results of the poll will be announced to the London Stock Exchange, The Stock Exchange of Hong Kong Limited, and will appear during the afternoon on 4 May 2022 on our website at [sc.com/en/investors/stock-exchange-announcements](https://sc.com/en/investors/stock-exchange-announcements).

Following a poll vote, any shareholder who has voted on the poll is entitled under section 360BA of the Companies Act 2006 to request from the Company information which will allow them to determine whether their vote was validly recorded and counted.

## Audit statement

Under section 527 of the Companies Act 2006, members meeting the threshold requirements set out in that section have the right to require the Company to publish on a website a statement setting out any matter relating to: (i) the audit of the Company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the AGM; or (ii) any circumstance connected with an auditor of the Company ceasing to hold office since the previous meeting at which annual accounts and reports were laid in accordance with section 437 of the Companies Act 2006. The Company may not require the shareholders requesting any such website publication to pay its expenses in complying with sections 527 or 528 of the Companies Act 2006. Where the Company is required to place a statement on a website under section 527 of the Companies Act 2006, it must forward the statement to the Company's auditor not later than the time when it makes the statement available on the website. The business which may be dealt with at the AGM includes any statement that the Company has been required under section 527 of the Companies Act 2006 to publish on a website.

# Appendix 1: summary of the main features of the net zero pathway

On 28 October 2021, the Group published its pathway to net zero by 2050. The pathway was based on the best data available at the time of publication, 28 October 2021, and was carefully scrutinised by the Board. It was also informed by our ongoing engagement with government, regulators, investors, and civil society.

Our net zero approach has three aims:

## 1. Reduce the emissions associated with our financing activities to net zero by 2050, setting 2030 interim targets in our most carbon-intensive sectors

Our current estimate of in-scope baseline emissions from our corporate client base as at year-end 2020 is 45.2 million metric tonnes of carbon dioxide equivalents, associated with US\$74.8 billion of assets (or 77 per cent of our total drawn on-balance-sheet financing exposure of US\$97.3 billion to corporate clients). There is currently insufficient available data to accurately reflect the financed emissions of the remaining 23 per cent of our in-scope corporate lending assets.

We will stop financing, at an individual client entity level (e.g. subsidiaries), companies that are expanding in thermal coal. Ongoing provision of financial services to the client group will be subject to enhanced due diligence. We aim to reduce absolute financed thermal emissions by 85 per cent by 2030, in addition to the existing prohibition on financing new or expanding coal-fired power plants. By 2030 we will only provide financial services to clients who are less than 5 per cent dependent on revenue from thermal coal.

As we expand our green and transition finance, we are targeting 2030 reductions in revenue-based carbon-intensity (i.e. the quantity of greenhouse gas emitted by our clients per US\$ of their revenue) of:

- 63 per cent for power;
- 33 per cent respectively for steel and mining (excluding thermal coal mining); and
- 30 per cent for oil and gas

However, progress will not be linear and production of some fossil fuels may rise before it comes down in our markets, for example, gas, as it replaces more carbon-intensive alternatives such as coal in the transition phase. Over time, we intend to shift to absolute emissions reduction targets for the oil and gas sector.

By the end of 2022 we expect all clients in the power generation, mining and metals, and oil and gas sectors to have a strategy to transition their business in line with the goals of the Paris Agreement.

Having already covered nearly two-thirds of our in-scope financed emissions, targets for remaining carbon-intensive sectors will be announced in line with current guidelines from the Net Zero Banking Alliance, before the first quarter of 2024.

We anticipate developing targets for the aviation, shipping and road transport sectors during 2022, cement and aluminium sectors in 2023, and commercial real estate (CRE) and agriculture sectors in 2024. The sequencing of these sectors is based on both materiality of financed emissions, and our capacity to influence these through providing transition finance. We will adopt targets for facilitated emissions from debt capital markets activities when a standardised methodology is available, and by 2024 at the latest.

We are sharing our methodology transparently in a white paper (<https://av.sc.com/corp-en/content/docs/SC-net-zero-whitepaper.pdf>) to help collective learning and encourage discussion and debate. As standards and methodologies evolve, and data quality and availability improve, we will refine our emissions calculations further. To ensure transparency, we report yearly on progress, in detail, as part of the Task Force on Climate-Related Financial Disclosures process.

## 2. Catalyse finance and partnerships to scale impact, capital and climate solutions to where they are needed most, including a plan to mobilise USD300 billion in green and transition finance.

Our new Transition Finance Framework (<https://av.sc.com/corp-en/content/docs/Standard-Chartered-Bank-Transition-Finance-Framework.pdf>) sets out how our transition finance will be governed via a set of well-defined principles that help guide our clients on to a low carbon pathway. Utilising this Framework we have communication our intention to mobilise US\$300 billion toward green and transition finance between 2021 and 2030.

## 3. Accelerate new solutions to support a just transition in our markets, including a new dedicated Transition Acceleration Team to support clients in high-emitting sectors, and launch sustainable products.

The Transition Acceleration Team will provide our clients in carbon-intensive sectors with deep expertise on how to accelerate their low carbon transitions, and tools to measure their progress.

We will launch a sustainable retail products such as green mortgages in key markets. In wealth management, we aim to double sustainable investing assets under management by 2025 and integrate environmental, social and governance considerations into our advisory activities.

## Appendix 2: Market Forces, Friends Provident Foundation and other members supporting statement to resolution 32

### Supporting Statement:

Despite committing to the climate goals of the Paris Agreement and achieving net zero emissions by 2050, Standard Chartered is aligning its investment practices and policies with the failure of these goals, exposing itself and its shareholders to unnecessary and unacceptable financial, reputational, policy and legal risks.

In May 2021, the International Energy Agency (IEA) released its 'Net Zero by 2050' roadmap (NZE2050), providing a "comprehensive study of how to transition to a net zero energy system by 2050 while ensuring stable and affordable energy supplies, providing universal energy access, and enabling robust economic growth." The October 2021 IEA World Energy Outlook elaborates on the roadmap, providing sufficient detail to enable companies and investors to align their own strategies with this goal.

### Net-zero: implications for fossil fuel finance

NZE2050 provides clear "red lines" to clarify fossil fuel developments no longer permissible if we are to achieve the goal of net-zero emissions by 2050, along with trajectories for the reduction of fossil fuels over time. Financial institutions committed to the goal of net-zero emissions by 2050 should

therefore look towards NZE2050 as a key reference when developing their own strategies and targets. NZE2050 projects unabated coal demand falling by 98% by 2050, oil demand by 75% and gas demand by 55%, compared to 2020.<sup>1</sup> The IEA has confirmed having even a 50% chance of limiting global temperature rise to 1.5°C means no investment in new fossil fuel projects, beyond those already committed to as of 2021.<sup>2</sup>

In July 2021, 115 investors with US\$4.2 trillion in assets under management and/or stewardship wrote to 63 global banks, including Standard Chartered, calling on them to integrate NZE2050's findings into their climate strategies.<sup>3</sup> Standard Chartered's current policies and practices fall well short of this demand.

### The gap between Standard Chartered's actions and NZE2050

Standard Chartered continues to finance companies and projects that expand the scale of the fossil fuel industry, contrary to NZE2050.

Standard Chartered has financed US\$31.42 billion to fossil fuels since the Paris Agreement was signed. Its policies will allow it to continue to significantly fund the coal industry throughout the 2020s, with no final exit date for coal financing.

## Standard Chartered practice

<p>"No new final investment decisions should be taken for new unabated coal plants."</p>	<p>UK bank with the highest financing for new coal plant developers in Asia, including The Adani Group, Power Finance Corporation (India) and PLN (Indonesia), undermining Standard Chartered's own commitment to no longer finance new coal power plants.<sup>4</sup></p>
<p>"No new coal mines or mine extensions are required."</p>	<p>Financing coal companies undermining climate action such as India's Adani Group, which is constructing the controversial 60 mpta Carmichael mine in Australia.<sup>5</sup></p>

### Investor and regulatory expectations

To meet rapidly-evolving investor and regulatory expectations, and fully comply with the TCFD recommendations, Standard Chartered must disclose strategies and targets to manage fossil fuel exposure in line with its stated commitment to net zero emissions by 2050.

In July 2020, the Prudential Regulatory Authority wrote to CEOs of UK financial institutions, outlining their expectations that "firms should have fully embedded their approaches to managing climate-related financial risks by the end of 2021".

In December 2020, the Monetary Authority of Singapore set out environmental risk management guidelines for banks, recognising the importance of banks' resilience to and management of climate risks, seeking reporting by early 2022. Bank Negara Malaysia is producing reference guides on climate risk management and scenario analysis, and climate-

related disclosures, and intends to release plans at the end of the year on mandatory climate related financial disclosures at the end of this year. This is significant given our company's reliance on Asia as a key marketplace and a region where our social license to operate is critical.

### Investor support required

The IEA has provided an abundance of clarity regarding what net zero by 2050 means for the future of fossil fuels. It is appropriate that Standard Chartered bring its policies and practices into line with the net zero by 2050 goal it has committed to.

We urge shareholders to vote in favour of this resolution, and expect the many institutional investors already outspoken on this issue to offer their support.

## Appendix 3: Board's response to shareholder requisition resolution 32

Notwithstanding the fact that the Company and Market Forces are both highly committed to contributing to the transition to net zero, your directors consider that Resolution 32 is not in the best interests of the Company and its shareholders as a whole and unanimously recommend that you vote against Resolution 32, as the Board intend to do, for the reasons set out below:

### **Our approach is ambitious and adapted to our footprint markets.**

Our goal is to support a just transition, where climate objectives are met without depriving developing markets of their opportunity to grow and prosper. Our ability to do this is significant given the expertise we have in facilitating finance in our footprint markets across Asia, Africa and the Middle East. Many of these markets are the most vulnerable to, and the least prepared for, climate risk.

Following extensive consultations with internal and external stakeholders, we published our pathway to net zero on 28 October 2021, ahead of COP26. The Board carefully scrutinised the pathway before its publication and fully supports the Group's ambition and approach.

The Board notes that climate finance is a rapidly changing area, and as such, we are seeking to balance implementation of our existing plans with enhancements over time. While we remain in dialogue with the campaign groups to explore areas of common ground, we believe that the material amendments to the pathway as proposed by resolution 32 serve neither the interests of our clients nor shareholders.

### **Our pathway contains pragmatic targets to reduce our fossil fuel exposure.**

Resolution 32 proposes two key differences to our approach to fossil fuels. We ask that shareholders vote against these proposals for the following reasons.

First, the campaign groups propose an immediate end to financing for new or expanded fossil fuel projects, where our perspective is that these may form part of a credible transition plan where they displace higher carbon alternatives. We have applied absolute financed emissions targets to key activities in the coal value chain, recognising the need for a phase out of all thermal-coal-related activities and the growing availability of alternatives to coal, such as renewables.

Second, the campaign groups propose an immediate reduction in fossil fuel exposure where again we believe this constrains our ability to provide transition financing. Under the International Energy Agency's NZE 2050 scenario, gas plays a growing role in our markets as a transition fuel. We want to be able to support this, and to provide much needed capital to clients in high-emitting sectors to enable their transition to lower carbon business models. Setting absolute emissions targets for all oil and gas (O&G) activity at this point would limit our ability to provide such capital and to support clients. As communicated in our net zero white paper, we intend to shift to absolute emissions reduction targets for the O&G sector over time.

By the end of 2022 we expect all clients in the power generation, mining and metals, and O&G sectors to have a strategy to transition their business in line with the goals of the Paris Agreement. This will form a critical role in identifying clients needing the greatest support with transition finance, whilst allowing us to manage climate risks and support our due diligence. Through this work, we aim to support our clients in delivering a just transition.

We have applied absolute financed emissions targets to key activities in the coal value chain, recognising the need for a phase out of all thermal-coal-related activities and the growing availability of alternatives to coal, such as renewables.

It is not yet feasible to do so for a wider range of activities, such as O&G. Under the International Energy Agency's (IEA) NZE 2050 scenario, gas plays a growing role in our markets as a transition fuel. We want to be able to support this, and to provide much needed capital to clients in high-emitting sectors to enable their transition to lower -carbon business models. Setting absolute emissions targets at this point would limit our ability to provide that capital and to support clients. As set out in our net zero whitepaper, we intend to shift to absolute emissions reduction targets for the O&G sector over time.

### **Our reporting systems will hold us accountable to our targets**

Regarding the campaign groups' proposed reporting requirement, we will provide annual updates on our progress against this pathway in our annual reporting, specifically the Group Scorecard and Long-Term Incentive Plan. We also share detailed progress updates in our annual Taskforce on Climate-related Financial Disclosure (TCFD) report and in quarterly Interim Management Statements. This will provide an equivalent level of accountability as proposed in resolution 32.

We also play a leading role in driving industry dialogue and practice, such as participating in the Net Zero Banking Alliance and the Integrity Council for Voluntary Carbon Markets, together with professional and trade associations. We will use this experience to support our clients and the global transition to net zero.

# Appendix 4: ECAT1 Securities

## Equity Convertible Additional Tier 1 Securities

The Company must meet minimum regulatory capital requirements applicable to it in the jurisdictions in which it operates.

Under the UK Capital Requirements Regulation (CRR), the Company must hold a minimum amount of Tier 1 capital, calculated as a specified percentage of its Risk Weighted Assets on a consolidated basis. To maintain an efficient capital structure that protects the interests of ordinary shareholders under prudential regulatory requirements, the Company can choose to meet part of that minimum requirement by holding up to 2.1 per cent of its Risk Weighted Assets in the form of Additional Tier 1 instruments (AT1 Securities) instead of Common Equity Tier 1 capital (CET1).

In order for securities to qualify as Tier 1 capital, the terms and conditions of the AT1 Securities must contain a provision under which, on the occurrence of a Trigger Event, which is the breach of a pre-determined capital ratio specified in those terms and conditions, the principal amount of the AT1 Securities is either written down or converted into CET1, as also specified in those terms and conditions. Under the CRR, AT1 Securities must convert to equity or be written down when the issuer's CET1 ratio is below 5.125 per cent or a higher level as the issuer may determine. The Trigger Event ratio would be determined in conjunction with the Prudential Regulation Authority (PRA) of the UK before the issue of any AT1 Securities.

The Company will take into account various factors when deciding whether to issue AT1 Securities, including the capital position of the Company at the time, the applicable prevailing regulatory capital requirements and its view of the likely capital requirements in the longer term. The timing and terms of issuance of AT1 Securities will be determined by the company (in accordance with any applicable regulatory requirements) and, where appropriate, in consultation with the PRA.

The flexibility to issue AT1 Securities enables the Company to achieve diversification and efficiency in its capital base.

Shareholder approval is being sought in resolutions 24 and 27 to authorise the issue of AT1 Securities which convert into ordinary shares on the occurrence of a Trigger Event (Equity Convertible Additional Tier 1 Securities or ECAT1 Securities) and/or shares to be issued on conversion or exchange of those ECAT1 Securities.

## Why is the Company seeking a specific mandate to issue ECAT1 Securities?

The Company is seeking a specific mandate to enable it to issue ECAT1 Securities and the mandate would be used for that sole purpose (i.e. the Company could not use this specific mandate to issue new shares for any other purpose). The general mandate under resolution 22 may be used by the Company to issue new shares at any time on a non pre-emptive basis, subject to the limits under that resolution and restrictions under the UK and Hong Kong Listing Rules and Investment Association guidelines. The specific mandate for ECAT1 Securities will provide greater flexibility for the Company in allowing it to maintain a general mandate for other purposes (e.g. issuing consideration shares). By the same token, the general mandate under resolution 22 would not be used in connection with the issue of ECAT1 Securities.

The Company believes it would not be practical to obtain a specific mandate from shareholders to issue ECAT1 Securities only when the need arises, primarily due to the time it would take to prepare the relevant circular to shareholders, obtain pre-clearance for the circular from the authorities, and then print and despatch the relevant circular to shareholders convening the general meeting to seek shareholder approval. Having a pre-approved mandate will enable the Company to act on a timely basis to satisfy the capital requirements when market conditions are conducive to successfully launching the issue.

## What steps can the Company take before or on a Trigger Event?

In advance of and on a Trigger Event the Company's management can be expected to take certain actions:

- i) Recovery Planning – the Company is required by its regulators to develop and maintain a Recovery Plan to be implemented in the event of financial stress. Should the Company's capital ratios fall by levels specified in the Recovery Plan, the Company is likely to be required to implement those planned recovery actions to improve its capital position (e.g. by reducing Risk Weighted Assets and/or through a rights issue of ordinary shares) in advance of a Trigger Event. Were a rights issue to be launched, the Company's ordinary shareholders would be offered the opportunity to acquire new ordinary shares in proportion to their existing shareholding in the Company (subject to legal, regulatory or practical restrictions).
- ii) Shareholder Participation – should a Trigger Event occur (despite the recovery actions mentioned above having been taken), the Board may give shareholders the opportunity to purchase the ordinary shares issued on conversion or exchange of any ECAT1 Securities on a pro rata basis, where practicable and subject to applicable laws and regulations, at the same price as the holders of the ECAT1 Securities would otherwise have acquired those ordinary shares had they not acquired them by conversion (i.e. at the conversion price described below). This will be determined on a transaction-by-transaction basis and the mechanism for shareholder participation will be written into the terms and conditions of the ECAT1 Securities where applicable.

The circumstances in which a Trigger Event might be expected to occur are currently considered to be remote given the level of capital the Company currently holds in excess of the expected Trigger Event ratio and the recovery actions that it has available so it should such a situation seem likely to arise.

As at 31 December 2021, the Company had US\$38 billion of Common Equity Tier 1 Capital and a Common Equity Tier 1 ratio of 14.1 per cent. This level of capital is considerably in excess of the expected Trigger Event ratio.

## How do ECAT1 Securities provide a more efficient capital structure?

To the extent permitted, ECAT1 Securities are expected to be a cheaper form of eligible regulatory capital for meeting Tier 1 capital and leverage ratio requirements than CET1 capital and so would lower the Company's ongoing costs for the benefit of all shareholders.

Under the Company's accounting policies, it is expected that the ECAT1 Securities will be recorded as equity securities in the financial statements; however, this will be determined at the time of issuance.

### At what price will the ECAT1 Securities be issued?

The pricing mechanism for ECAT1 Securities is similar to other fixed income capital instruments that the Company would issue. The issue price of the ECAT1 Securities will be fixed immediately prior to issuance taking into account prevailing market convention.

### At what price will the ECAT1 Securities be converted into or exchanged for ordinary shares?

The terms and conditions of the ECAT1 Securities will specify a Conversion Price or a mechanism for setting a Conversion Price for the ECAT1 Securities. The Conversion Price is the rate at which the ECAT1 Securities will be exchanged for ordinary shares on the occurrence of a Trigger Event. This may be set at a discount to the price of the Company's ordinary shares immediately prior to issuance of the ECAT1 Securities. The extent of the discount will be determined taking into account prevailing market convention.

### Will the ECAT1 Securities be redeemable?

Yes. The CRR requires AT1 capital instruments to be perpetual with a minimum of five years before the first optional call date. The ECAT1 Securities will include redemption terms consistent with regulatory requirements and market practice. For example, the terms of the ECAT1 Securities will likely include provisions so that the Company may redeem the ECAT1 Securities (i) after a fixed period of time (minimum five years) upon an interest rate reset date; (ii) in the event of a change in the regulatory classification of the ECAT1 Securities such that they can no longer be included in the Company's Tier 1 capital; or as a result of a change in the tax treatment of the ECAT1 Securities. In each case, redemption can only take place with the prior consent of the PRA.

### How have you calculated the size of the authorities you are seeking?

The size of the authorities reflected in resolutions 24 and 27 has been calculated based on anticipated capital requirements to provide flexibility in capital management.

The resolutions give the Board authority to set the specific terms of the ECAT1 Securities, which may provide for write-down or conversion on the occurrence of a Trigger Event. The authorities sought are set at a level to provide full flexibility to the Company in managing its capital structure efficiently given the uncertainties that remain in both the precise regulatory requirements applicable and the market for this form of capital instrument. The specific mandate will give the Board authority to allot ordinary shares and grant rights to subscribe for or convert any security into ordinary shares in the Company representing up to 20 per cent of the Company's issued ordinary share capital as at 21 March 2022. This limit has been calculated based on internal modelling to provide sufficient flexibility to the Company, taking into account potential fluctuations in the Company's share price, the GBP/USD exchange rates and inflation in the Group's risk-weighted assets. The three issues of ECAT1 Securities of the Company made pursuant to the 2016 and 2019 Mandates were made at a conversion price discount factor of 10 per cent. The two issues of ECAT1 Securities of the Company made pursuant to the 2020 Mandate and one issue of ECAT1 Securities of the Company made pursuant to the 2021 Mandate were made at a conversion price equivalent to the then prevailing share price of the Company.

The same approach is currently expected to be followed for future issuances of ECAT 1 Securities under the 2022 Mandate, however, any price discount factor will ultimately depend on the prevailing market conditions at the time of issuance.

### Hong Kong Stock Exchange waiver

Under Rule 13.36(1) of the Hong Kong Listing Rules, the directors of a company must obtain the consent of shareholders in a general meeting prior to allotting or issuing shares or securities convertible into shares except as set out under Rule 13.36(2)(b). Rule 13.36(2)(b) of the Hong Kong Listing Rules allows the directors to seek a general mandate from shareholders to allot or issue shares on a non pre-emptive basis. As explained above, the Company is seeking this specific mandate from shareholders in addition to the general mandate under Rule 13.36(2)(b) of the Hong Kong Listing Rules for the sole purpose of issuing ECAT1 Securities. This specific mandate would require a dispensation from Rule 13.36(1) of the Hong Kong Listing Rules. The Company has therefore applied for, and the Hong Kong Stock Exchange has granted, a waiver from compliance with Rule 13.36(1) to allow the directors to seek the authority under resolution 23 and resolution 26 in relation to issuing ECAT1 Securities subject to the limits set out in that resolution.

On 1 March 2022 the Hong Kong Stock Exchange granted a waiver of Rule 13.36(1) to the Company to allow it to seek the specific mandate which, if approved by shareholders, would continue in force until:

- (i) the end of next year's AGM (or, if earlier, at the close of business on 3 August 2023) at which time it will lapse unless the specific mandate is renewed, either unconditionally or subject to conditions; or
- (ii) revoked or varied by ordinary resolution of the shareholders in a general meeting.
