3. Discretionary service: Signature Portfolios are discretionary investment management services made available by the Standard Chartered Bank Jersey Branch, Standard Chartered Bank (Singapore) Limited and Standard Chartered Bank (Hong Kong) Limited (each of them, respectively, the "investment manager"). For certain strategies, the investment manager function is delegated to selected Sub-advisors. Fees and charges apply.

4. General Disclaimer: Please refer to the Signature Portfolio Agreement for further terms and conditions and before proceeding. You should make your own legal and tax determination (including any applicable exchange control regulations) on investment products and should consider carefully whether the investment product(s) are suitable for you in light of your personal risk appetite, liquidity requirement and return objectives (including the legal and tax regimes in your countries of citizenship, residence and/or domicile). This document does not purport to show you a comprehensive list of risks of investing in the Signature Portfolios. The investment objectives detailed in this document may not be achieved. The value of investments, and the income from them, can go down as well as up, and you may not recover the amount of your original investment. You are not certain to make a profit and may lose money. Changes in rates, or where an investment involves exposure to a foreign currency, changes in rates of exchange may cause the value of the investment, and the income from it, to go up or down. Past performance should not be seen as an indication of future performance. The level, rates and bases of, and reliefs from, taxation are those currently available and may change in the future. Any research or analysis used to derive, or in relation to, the information in this document has been procured by Standard Chartered for its own use, and may have been acted on for Standard Chartered's own purposes.

6. Performance disclosure: Performance for the Signature Portfolios is shown on a composite return basis, expressed both as gross and net performance. Only the USD denominated accounts in each Signature Portfolio strategy are included unless otherwise stated. Results of the composite are shown compared to the benchmark of the relevant Signature Portfolio. The benchmark is used for comparative purposes only and generally reflects the risk or investment objective of the accounts in the composite. The benchmark is calculated on a total return basis with net dividends reinvested and is expressed in USD. Investments made by the Standard Chartered Group for the Signature Portfolios it manages according to respective strategies may differ significantly in terms of security holdings, industry weightings, and asset allocation from those of the benchmark. Net composite performance for each month is the weighted-average return of USD denominated accounts that have a continuous performance history for the month. That is, all accounts that have cash-flow activity during the month (in the form of inflow or outflow of cash) are stripped out from the composite return calculation shown in this document. To derive the composite return for a given period, the relevant historical monthly composite returns are chain-linked. Net composite performance is presented after the deduction of foreign withholding taxes. Dividends and interest / profit received may be subject to withholding tax imposed by the country of origin and such taxes may not be recoverable.

Performance figures may be subject to change due to payment of coupon, dividends and other income or disbursement that may impact the valuation as not included in the portfolio valuation as at the date of such calculation. The relevant currency of the Signature Portfolio is the currency used to express performance, unless portfolio currency is not specified in which case US Dollar will be used as default currency to express performance. Returns include the effect of foreign currency exchange rates. Returns are presented net of management fees and include the reinvestment of all income. For important information related to benchmarks, refer to <https://av.sc.com/corp-en/content/docs/DPM-Benchmark-.pdf>.

7. Conflicts of interest: An SC Group Entity may act as a distributor of the products invested in the Signature Portfolios. An SC Group Entity, and/or a connected company, may at any time, to the extent permitted by applicable law and/or regulation, be long or short any securities, currencies or financial instruments referred to on this document or have a material interest in any such securities or related investment, or may be the only market maker in relation to such investments, or provide, or have provided advice, investment banking or other services, to issuers of such investments. Further, the investment managers of the Signature Portfolios may take views that differ from Standard Chartered's global investment committee views. Accordingly, the Standard Chartered Group, its affiliates, branches and/or subsidiaries may have a conflict of interest that could affect the objectivity of this document and the Signature product.
