## Our approach to sustainability and ESG reporting

Standard Chartered PLC (the Group) includes sustainability and Environmental, Social and Governance (ESG) information in its Annual Report, providing investors and stakeholders with an understanding of the implications of relevant sustainability-related risks and opportunities, and progress against our objectives.

The Group has made disclosures consistent with the Task Force on Climate-Related Financial Disclosures (TCFD) recommendations and recommended disclosures throughout its Annual Report. We also produce a standalone Modern Slavery Statement.

In preparing the Group's Annual Report we have given consideration to (but do not align in full with) the guidance provided by the International Sustainability Standards Board (ISSB) Standards finalised in 2023: IFRS S1 and IFRS S2, noting that IFRS S2, although largely based on TCFD, requires a more granular level of disclosure. IFRS S1 and S2 are voluntary standards and compliance is not yet required in the Group's listing locations.

This ESG Reporting Index sets out the Group's disclosures against selected indicators of Global Reporting Initiative (GRI) Universal Standards and select GRI Topic Standards, and the World Economic Forum (WEF) Stakeholder Capitalism Metrics framework. The information included in this ESG Reporting Index has been extracted from our 2023 Annual Report and other materials, as indicated in the 'Disclosure location' column of this reporting index. As such, further information can be found throughout our sustainability reporting suite and accessed via the links below.

203: Indirect Economic Impacts	Management approach	203	Through our Accelerating Zero stand, we are progressing on our net zero ambition while supporting a just transition – one where climate objectives are met without depriving emerging markets of their opportunity to grow and prosper – which will underpin future social and economic prosperity. Delivering a just transition brings significant opportunity for innovation and growth. To leverage this, we created a series of thematic innovation hubs in 2023, covering: Adaptation Finance, Blended Finance, Carbon Markets and Nature Positive Solutions.  Our 2050 net zero ambition is incorporated into our long term Sustainability Aspiration 2. We are working across our businesses and functions, and alongside our clients to deliver these targets.  From Oct 2022 to Sep 2023 we mobilized \$29,7 billion of sustainable finance, as we make progress towards our 2030 target of mobilising \$300 billion in sustainable finance.  Further information can be found in our 2023 Annual Report within pages; 7, 25, and 66-68.  We share further details regarding Our Approach to Sustainability at sc.com/sustainability.
	Infrastructure investments and services supported	203-1	Our Sustainable Finance Impact Report sets out further detail on our investment in healthcare and transport infrastructure, and its impact. See <a href="mailto:sc.com/SFImpactreport">sc.com/SFImpactreport</a> .
	Significant indirect economic impacts	203-2	Our footprint – with its access to capital markets and operations in regions most vulnerable to climate change – means that Standard Chartered sits at the intersection between capital providers and those who need it most. For many of our markets and clients, getting to net zero will be a long and complex task. Their transition must be on a just basis to address environmental challenges without sacrificing their economic growth and social development ambitions.
			As per Sustainability Aspiration 4 we seek to partner with our clients and communities to mobilise social capital and drive economic inclusion as well as entrepreneurship through our Futuremakers initiative. Further information can be found in our 2023 Annual Report within pages 67-68 and 75.
204: Procurement	Management approach	204	We engage diverse suppliers, both locally and globally, to provide efficient and sustainable goods and services for our business. The majority of our expenditure is on services and is managed through a third-party governance framework which ensures that we follow the highest standards in terms of sourcing, awarding and on-boarding suppliers.  See pages 58-59 of our 2023 Annual Report and sc.com/suppliercharter.
Practices	Proportion of spending on local suppliers	204-1	In 2023, \$4.4 billion was spent with 11,563 suppliers. Of this, 74 per cent of the total spend was spent in the Asia region, with 18 per cent in Europe and the Americas, and 8 per cent in Africa and the Middle East.
			Furthermore, 80 per cent of total spend in 2023 was with 474 suppliers. In addition, 80 per cent of carbon emissions were with 481 suppliers (excluding air travel suppliers).
			See pages 225 and 507 of our <b>2023 Annual Report</b> for more detail on our procurement spend for 2022.
205: Anti- corruption	Management approach	205	Our ambition is to tackle some of today's most damaging crimes by making the financial system a hostile environment for criminals and terrorists. Further information on our approach to fighting financial crime can be found on pages 131 - 132 of our 2023 Annual Report, and at sc.com/fightingfinancialcrime.
	Operations assessed for risks related to corruption	205-1	To mitigate the risk of financial crime, particularly laundering the proceeds of corruption, in the lead-up to, during and after major political elections in footprint markets, the Group conducts enhanced monitoring designed to identify and investigate transactions of potential concern. See pages 131-132 in our 2023 Annual Report for details.
	Communication and training about anti- corruption policies and procedures	205-2	We have invested significantly to ensure that our employees are properly equipped to combat financial crime. In 2023, 99.9 per cent of colleagues and governance body members completed financial crime mandatory e-learnings which cover topics such as ABC, AML including terrorist financing, sanctions, tax evasion and fraud topics.  For further details see pages 131 -132 of the 2023 Annual Report, which also sets out the completion rates of this training by region. We also shared our Supplier Charter, which sets out our expectations and minimum standards related to anti-bribery and corruption, with all of our 11,563 suppliers and third parties across 48 markets.
