

# Round-the-clock on-site cheque printing

## Fast and secure cheque disbursement through onsite cheque printing

### Solution overview

- **Control:** Centrally initiate cheque payments across multiple locations
- **Digitisation:** Transmit cheque data via secured connectivity
- **Visibility:** Maintain complete visibility through comprehensive reports over cheque initiation and disbursements

### Value to you

- 1** Initiate your cheques anytime around-the-clock
- 2** Print your cheques *anytime, anywhere* at your desired location/printer
- 3** Secure blank cheque storage as MICR\* line will only be printed together at actual cheque printing

## Straight2Bank

### Initiate

- 24/7 initiation and printing
- Integrated access via Straight2Bank.

### Process

- Secured cheque data transmission
- Consistent security levels for authorisation.

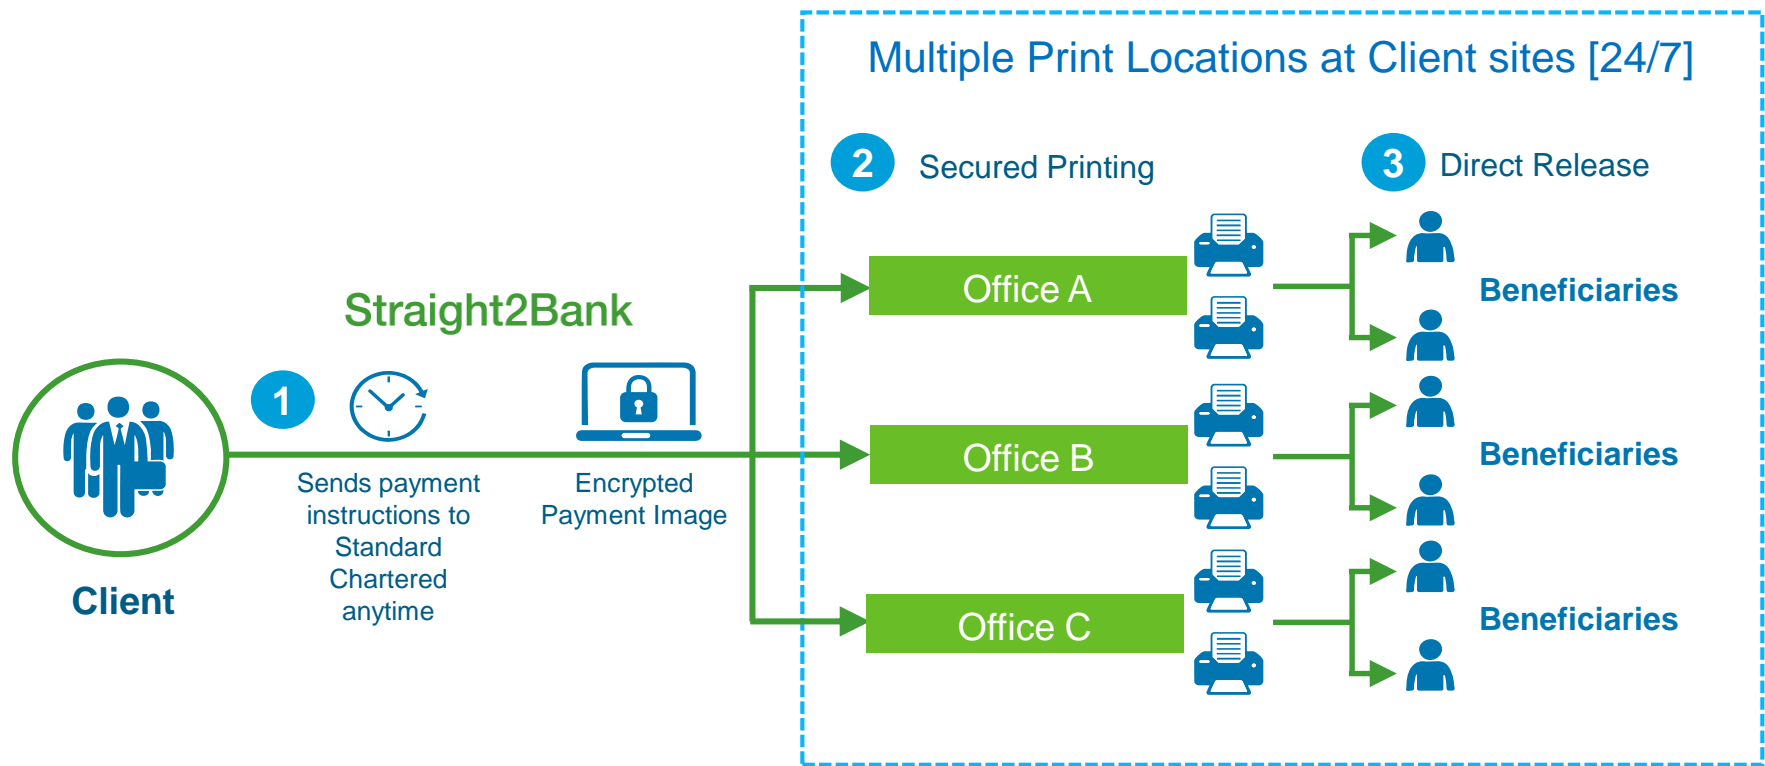

### Print

- 24/7 printing at your premises
- Centralised authorisation and remote printing.

# Onsite Cheque Printing (OCP)

## How does it Work?

Cheque instructions are sent to Straight2Bank, confirmed, recorded, and the cheque images are re-directed securely to a designated print site location(s) nominated by you.

# More Benefits for You

<b>Visibility and control</b>	Centralised cheque issuance allows you to maintain control and oversight of all your cheque activities
<b>Convenience and flexibility</b>	You can submit and direct cheque requests for printing at your various designated locations electronically via Straight2Bank and authorize issuances on your mobile device
<b>Time saving</b>	Cheques can be issued at your offices in remote locations, whenever you need them for immediate release to beneficiaries
<b>Security</b>	Signed cheque images are encrypted and securely delivered electronically for printing at your offices.
<b>Customised cheques</b>	Your logo and additional payment details (for example invoice details) can also be printed directly on cheque stationary for beneficiaries' convenience.
