

**Dear Valued Customer,**

In accordance with Bank Indonesia Circular No. 17/52/DKSP Regarding “Implementation of National Standard for Chip Technology and 6 digit Personal Identification Number for ATM Card and/or Debit Card issued in Indonesia”, herewith kindly be advised that currently ATM/Debit Cards issued by Standard Chartered Bank in Indonesia have already used Chip technology with 6-digit PIN.

For Customers who have not received Chip based and 6-digit PIN Debit Card can reach our Call Center at (021) 57 9999 88 for further information.

After 30 June 2017, all Magnetic Stripe based and 4-digit PIN Debit Cards will be deactivated by the Bank and will not be able to be used for any transaction activity. Therefore, for your convenience, kindly ensure that you obtain and activate your new debit card at the latest by 30 June 2017. The old Magnetic Stripe and 4-digit PIN Debit Card will be automatically deactivated once you activate your new Chip and 6-digit PIN Debit Card. Please destroy your deactivated debit card to prevent any unauthorized usage.

Should you have further inquiry, please contact our Call Center at (021) 57 9999 88 or 68000 from your mobile phone

Thank you for your kind attention.

Warmest Regards,

**Standard Chartered Bank Indonesia**
