CERTIFICATION

The financial information summarised above for the twelve months ended 31st December 2017 is drawn up from the audited accounts of the Bank, prepared according to the Sri Lanka Accounting Standards (SLFRS/LKAS).

To facilitate comparison, previous year's figures have been re-stated to conform to current classification and presentation. We, the undersigned, being the Chief Executive Officer and the Financial Controller of Standard Chartered Bank certify jointly that the above statements have been prepared in compliance with the format and definitions prescribed by the Central Bank of Sri Lanka. These accounts were audited by KPMG and in their report of 28th March 2018, they have expressed an unqualified opinion, subject to a note of emphasis referring to (a) a writ application filed by the Bank challenging the notice for under collection and remittance of Debit Tax sent by the Commissioner of Inland Revenue, and (b) the outcome of an acquisition by the State of a freehold property owned by the Bank.

Jim McCabe

(Sgd) Chief Executive Officer 28/03/2018

Nishani Ariyawansa (Sgd) Financial Controller

28/03/2018

Corporate Governance Statement

Standard Chartered is a leading international banking group with over 150 years of history in some of the world's most dynamic markets. Standard Chartered banks on people and companies driving investment, trade, and the creation of wealth across Asia, Africa and the Middle East. The Bank has dual primary listing on the London and Hong Kong Stock Exchanges, and ranks among the companies listed in the FTSE 100 by market capitalisation. Standard Chartered's roots in trade finance and commercial banking have been at the core of its success throughout its history. The Bank's brand promise, Here for good, is the cornerstone of the commitment to clients, shareholders and the countries in which it operates.

Our integrated approach to Corporate Governance

Standard Chartered Bank's culture of transparency and openness cascades down the Group structure, through both subsidiaries and branches, and maintains a consistent approach to overall governance. During the year, respective regional Chief Executive Officer offices managed governance across the Group's four geographic regions. In addition to clients, the Bank's stakeholders include governments, regulators, shareholders, employees, suppliers and the communities in which it operates.

The Bank believes that it is vital for companies to support effective corporate governance. Every employee is expected to be responsive and vigilant, and conform to the Group's brand promise, Here for good, becoming part of a culture that is open and challenging, and demonstrates the necessary skills, values and experience commensurate with responsibilities.

The Standard Chartered Group Board

The Board is collectively responsible for the long-term success of the Group and for ensuring leadership within a framework of effective controls. The Board sets the strategic direction of the Group, approves the strategy and takes the appropriate action to ensure that the Group is suitably resourced to achieve its strategic aspirations. The Board considers the impact of its decisions and its responsibilities to all of the Group's stakeholders, including the Group's employees, shareholders, regulators, clients, suppliers, the environment and the communities in which it operates.

The Board comprises of directors with a broad range of skills, experience, backgrounds and perspectives. Nine directors on the Board have lived and/or worked across our key markets of Asia, Africa or the Middle East and over half of the independent non-executive directors have a combination of banking, finance, risk and accounting experience.

Ngozi Okonjo-Iweala will function as an Independent Non-Executive Director, with effect from November 2017, providing the Chairman with additional support and capacity in representing the Group. The Bank remains mindful of the need to ensure that the tenure of our non-executive directors is well balanced.

Diversity and Inclusion

Standard Chartered has a distinctive footprint and a long history of diverse board membership. This mix of skills, knowledge, experience and cultural difference enriches the Board discussion and contributes towards a high performing and effective Board. Good progress continues to be made in the area of gender diversity, since the Bank set its ambition to increase the proportion of women to 25 per cent by 2017. Currently, 30 per cent of the Board comprises of women.

Focus on Strategic Issues

The Bank is realistic regarding the complexity of the challenges that lie ahead, for the Group and the global banking sector as a whole. Significant regulatory uncertainty will persist as policymakers grapple with the task of harmonising rules and enhancing the control environment while allowing banks to add value to the economies they serve and generate sustainable returns to shareholders. Meanwhile, economic conditions in the markets in which the Bank operates are expected to remain uncertain. The business plan set out in 2015 to execute the Bank's strategy remains sensible and appropriate for the prevailing conditions. Investing in technology as a catalyst for better client experiences and stronger controls is the right way forward.

The Standard Chartered Group now has a stronger capital base and is more resilient to headwinds. The Bank will remain focused on delivering the plan while being willing to adapt where necessary as conditions evolve. Having substantially strengthened foundations, the Bank recognises the importance of re-energising growth in income together with strong cost and risk management so that returns to shareholders can be restored to a more appropriate and sustainable level

The Bank has implemented significant improvements to its client coverage model in Corporate & Institutional Banking and is transforming its Retail Banking business to a more digital delivery model. The Bank has repositioned its Commercial Banking business for longer-term sustainable growth and better returns. The refreshed organisational structure of the Group is now firmly embedded, with local management now better able to influence the delivery of the Group's products and services while leveraging the Bank's strong central capabilities.

Financial Reportin

The primary role of the Committee in relation to financial reporting is to monitor the integrity of the Group's published financial statements and formal announcements relating to the Group's financial performance, reviewing significant financial reporting judgements and accounting issues contained in them.

The Group Finance team and country reporting teams perform analytical procedures, ensuring compliance with accounting standards, legal and regulatory matters in relation to financial reporting and interact on a regular basis to evaluate, manage and resolve relevant matters relating to financial reporting, including significant accounting policies and financial reporting judgements and changes in estimates. All financial information submitted by country reporting teams is certified by the in-country Financial Controller.

The Group Finance Team is responsible to ensure that the Group's accounting policies and practices are appropriate, review the clarity and completeness of the disclosures made within the published financial statements. The Team also overlooks any changes in disclosures arising from best practices in applying the UK Finance Code for Financial Reporting Disclosure, Financial Reporting Council (FRC) publications on aspects of UK reporting, and bilateral discussions between the PRA and UK Finance (formerly the British Bankers Association), while monitoring the integrity of the Group's published financial statements and formal announcements relating to the Group's financial performance, and reviewing the significant financial judgements and accounting issues.

Risk Management

Effective risk management is essential to consistent and sustainable performance for all of the Bank's stakeholders and is therefore a central part of the financial and operational management of the Group. The Group adds value to clients and therefore the communities in which they operate, generating returns for shareholders by taking and managing risk. Through Standard Chartered's Risk Management Framework the Bank manages enterprise-wide risks, with the objective of maximising risk-adjusted returns while remaining within our risk appetite.

It is imperative that risks are identified, measured and managed in a holistic manner and that the risk and compliance function supports and enables sustainable performance for the Group despite the uncertainties in the external environment. Processes are ongoing to identify, evaluate and manage the significant risks that are faced. The Board is satisfied that this process constitutes a robust assessment of all of the principal risks and uncertainties facing the Group, including those that would threaten its business model, future performance, solvency or liquidity. The Board Risk Committee, on behalf of the Board, has considered the adequacy of the risk management arrangements of the Group and has sought and received assurance that the risk management systems in place are satisfactory with regard to the Group's profile and strategy.

The Group's business plans to execute its strategy are fully aligned with its tightened risk appetite and both have appropriate Board level oversight. The Bank has a strong capital and liquidity position and a robust risk governance structure managed by an experienced senior team which enables the support of the Bank's clients.

Brand and Values

Standard Chartered remains passionate about advancing the Group's conduct agenda. The Bank has made a lot of progress in 2016 and invested heavily to build effective and sustainable systems and infrastructure to ensure it can play a leading role in discovering and disrupting financial crime. The Bank has created a new platform at sc. com/fightingfinancialcrime to demonstrate the contribution that Standard Chartered and others are making. The Bank has sharpened its focus on all aspects of conduct, not simply on combating financial crime, and has taken appropriate action where conduct has been found to be inconsistent with its standards. The Bank is focusing on the behaviours, values and principles that individuals follow to enable each employee to make the right decisions and exercise good judgement. The Bank does this because it is the right thing to do, and because it makes for a stronger and more sustainable entity, and reinforces stakeholder confidence.

Sustainability

The Bank collaborates with its clients and partners to promote social and economic development by financing key sectors of the economy that drive sustainable growth, minimising the impact of lending and operations on the environment and investing in communities. Under the Group's Sustainability agenda, a number of issues were reviewed including, the Group's approach to environmental and social risk management, which included the work underway to refresh the Group's Position Statements. The Committee welcomed the review being undertaken by management to ensure that the topics and sectors being covered by the Position Statements are aligned to the Group's business portfolio and are reflective of the Group's Risk Appetite.

Client Focus

Standard Chartered took a series of measures to put clients at the heart of the business and invested heavily in improving their experience in each of the four client segments. For example, in Corporate & Institutional Banking, the Bank prioritised banking the end-to-end supply chain of clients and improved digital operations; in Retail Banking, video banking was launched, including voice biometric technology, and offered clients innovative new payment options; in Commercial Banking, the Bank improved the client on-boarding process and turnaround time, and focused on banking clients' networks; and in Private Banking, the Wealth Management proposition was enhanced, and the account opening process simplified. Standard Chartered is investing to make the Bank a simpler, faster and better organisation, focusing on technology innovation, process streamlining and faster turnaround times.

Government and Regulatory Relationships

Standard Chartered is committed to complying with all legislation, rules and other regulatory requirements applicable to its businesses and operations in the jurisdictions within which the Bank operates. Compliance with legal and regulatory frameworks across the markets ensures that the Group meets its obligations. In turn, this supports the resilience and effective functioning of the Group, and the broader financial system and economy.

The Board, supported by the Brand, Values and Conduct Committee, is responsible for overseeing the Group's approach to its main government and regulatory relationships, focusing on the quality of these relationships and the engagement in place. On a day-to-day basis, the Compliance and Public Affairs functions are responsible for identifying changes in the legal and regulatory environment, ensuring that the Bank complies with all requirements, and help to manage relationships.

The Bank actively engages with governments, regulators and policymakers at a global, regional and national level to share insights and technical expertise on key policy issues. This engagement supports the development of best practice and the adoption of consistent approaches across markets. The Bank complies with all relevant transparency requirements and discloses information about its political activities.

Standard Chartered's engagement with governments and regulators is through ongoing dialogue, submission of responses to formal consultations, and by joining and participating in industry working groups.
