

Positive Living

“Countering stigma, discrimination and legal blockages is not a luxury. It is an absolutely essential element of the AIDS response.”

Peter Piot, Director, London School of Hygiene and Tropical Medicine

The numbers

37 million

people worldwide are living with HIV

19 million

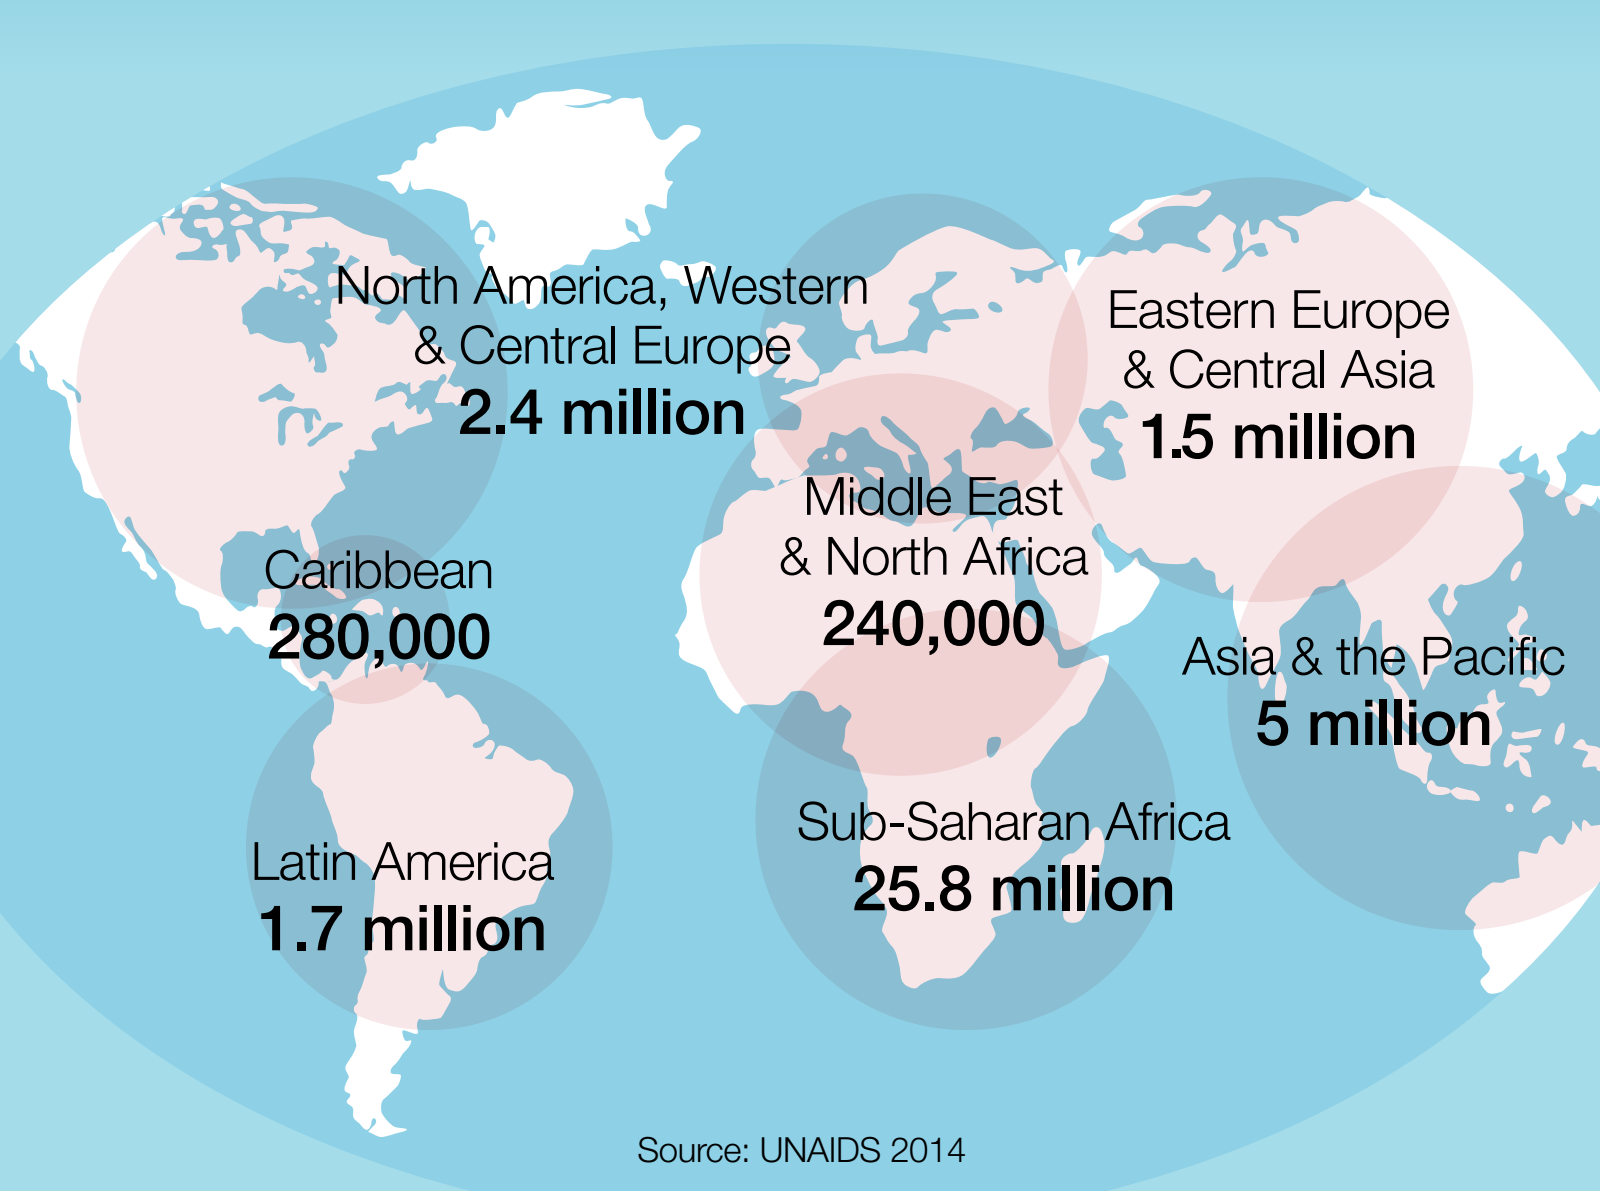

of the 37 million don't know their status

Only 32%

of children living with HIV are accessing antiretroviral treatment

HIV is still a major issue

Source: UNAIDS 2014

Know your facts

Are not the same thing

AIDS occurs when someone with HIV can no longer fight infection

Unprotected sex is the most common way to contract HIV

Protect yourself. Use a condom

You can't transmit HIV through touch

Or by shaking hands, working in the same office or sharing utensils

Take an HIV test

It's the only way to know your status

With treatment, people can live full, healthy lives

How we're helping staff

You can't get HIV from shaking hands

Education

A network of champions tackling stigma and discrimination

KNOW YOUR STATUS?

Prevention

Free HIV testing and condoms

Treatment

Counselling and antiretroviral therapy for staff and their families

Volunteering

5,000 days contributed to community initiatives
