Standard Chartered Bank's incentivizes PAN Card holders

In its continuous pursuit to provide additional benefit to its customers and also support the initiative taken up by the Nepal Government to encourage individuals for Permanent Account Number (PAN) registrations, Standard Chartered Bank Nepal Limited has come up with a unique offer for its Consumer Banking customers. This is a market- first initiative under which customers applying for a retail lending product (Auto, Home and Personal Loans) with the Bank can enjoy a discount of 0.25% p.a. on the published interest rates if they produce their PAN Cards.

This offer is open to all new customers of the Bank who have PAN registration and who want to avail of retail lending products like Auto, Home or Personal Loan.

Whilst this offer is aimed at providing greater benefit to the customers, the Bank also hopes that this initiative will help in supporting the government in its tax drive.
