Standard Chartered Convenes Industry Leaders at Treasury Leadership Forum Thailand 2026 to Chart the Next Frontier of Finance, AI, and Digital Assets

Standard Chartered Bank hosted the Treasury Leadership Forum Thailand 2026 in Bangkok, bringing together corporate CFOs, senior policymakers and financial innovators to explore how AI, tokenisation and digital assets are reshaping treasury, finance and investment. Discussions focused on practical strategies to strengthen liquidity management, risk mitigation and cash forecasting, while helping treasury teams become more agile, data-driven and resilient.

The forum also examined Thailand's evolving regulatory and financial landscape, including institutional digital finance, modernised frameworks and the future of treasury towards 2030. Part of Standard Chartered's global forum series, the event combined local market insights with the Bank's international cross-border expertise to help organisations build future-ready operating models and unlock sustainable growth.
