Interest Payment

3. For Current and Savings account that pay interest biannually, the bank will pay interest 2 times per year on June and December in which the bank reserve right to choose the interest posting date. The interest will be calculated using the period from the last interest posting date to the day before the interest is posted.

4. For Savings account that pays interest at the end of every month, the bank will pay interest on the last working day of the month. The interest will be calculated using the period from the last interest posting date to the day before the interest is posted.

5. For Savings account that pays interest at the beginning of every month, the bank will pay interest on the first working day of the month. However, if the day after the first working day is holiday, the bank reserves rights to postpone the interest posting date to the next working day. The interest will be calculated using the period from the last interest posting date to the day before the interest is posted.

6. The formula used to calculate the interest are illustrated as followed

6.1 For Non leap year (365 days) $\text{Interest Earned} = \text{Principle} \times \text{Interest Rate (\%)} \times (\text{Period of deposit} / 365)$

6.2 For leap year (366 days) $\text{Interest Earned} = \text{Principle} \times \text{Interest Rate (\%)} \times (\text{Period of deposit} / 366)$

7. If the account is closed, the interest will be accumulated until the day before the closing date.

8. For individual customers, Time deposit means the amount for each deposit or the amount for each rollover. Except the individual customers as defined in 1.1, the bank will offer the interest rate based on the total deposit of that particular group of customers as deemed appropriate.

9. Time Deposits

9.1 For Time deposits tenor 14 days, 1 month, 2 months and 3 months which are uplifted before maturity, the bank will not pay any interest.

9.2 For Time deposits tenor 4 months, 5 months, 6 months, 7 months, 9 months, 12 months

For retail customers where the account has been deposited with less than 3 months and is uplifted before maturity, the bank will not pay interest. Where the account has been deposited with at least 3 months but is uplifted before maturity, the bank will pay interest with the Power Saver Savings (Normal Savings) minimum rate of each category of customer during the actual deposit period and also subject to withholding tax.

Standard Chartered Bank (Thai) Public Company Limited

Deposit Rates (Percentage per Annum)

Effective Date 18 March 2011

For SME: where the account has been deposited with less than 3 months and is uplifted before maturity, the bank will not pay interest. Where the account has been deposited with at least 3 months but is uplifted before maturity, the bank will pay interest with SME Plus Account Savings minimum rate of each category of customer at withdrawal date during the actual deposit period and also subject to withholding tax.
