REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

To the Board of Directors of Standard Chartered Yatırım Bankası Türk A.Ş.

Introduction

We have reviewed the accompanying unconsolidated statements of financial position of Standard Chartered Yatırım Bankası Türk A.Ş (the "Bank") at 30 September 2021 and the unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the financial information for the nine-month period then ended. The Bank Management is responsible for the preparation and fair presentation of these interim financial information in accordance with the "Banking Regulation and Supervision Agency (BRSA) Accounting and Reporting Legislation" which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Board and Turkish Accounting Standard 34 "Interim Financial Reporting" principles for those matters not regulated by aforementioned legislations. Our responsibility is to express a conclusion on these interim unconsolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information do not present fairly in all material respects, the unconsolidated financial position of the Bank at 30 September 2021, and its unconsolidated financial performance and its unconsolidated cash flows for the nine-month period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Building a better
working world

Report on Other Legal and Regulatory Requirements

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the interim activity report included in section seven of the accompanying interim financial information is not consistent, in all material respects, with the reviewed interim financial information and explanatory notes.

Additional paragraph for convenience translation to English

As explained in detail in Note I.a of Section Three, accounting principles and standards set out by regulations in conformity with BRSA Accounting and Reporting Legislation, accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

STANDARD CHARTERED YATIRIM BANKASI TRK A..
NOTES TO THE FINANCIAL STATEMENTS AS OF 30 SEPTEMBER 2021

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

SECTION ONE

GENERAL INFORMATION ABOUT THE BANK

I. Bank’s foundation date, start-up status, history about the changes in this mentioned status:

Standard Chartered Yatırım Bankası Trk A.., (hereinafter referred to as “Standard Chartered Bank” or “the Bank”), was established in accordance with the Law on Encouragement of Foreign Capital (Law No: 6224) on 9 January 1990 upon statement number 7075 issued by the Undersecretariat of the State Planning Organization on 18 August 1989; statement number 57797 issued by the Ministry of State on August 18, 1989 and a statement number 14502 issued by the Cabinet of Ministers on 1 September 1989 in accordance with the articles numbered 4 and 8 of the Banking Law numbered 3182. The Bank acquired Credit Lyonnais İstanbul, Turkey, Central Branch (“Credit Lyonnais” or “Branch”) with all of its asset and liabilities (excluding deposits) on 18 March 2004.

On 28 December 2007, the title of the Bank “Calyon Bank Trk A..” was changed to “Calyon Yatırım Bankası Trk A..”.

After obtaining the approval of the Banking Regulation and Supervision Agency, dated 6 February 2010 for the amendment of articles of association, the title of the Bank has been changed to “Credit Agricole Yatırım Bankası Trk A..” in the Extraordinary General Meeting held on 26 February 2010, which was held as per the decision of the Board of Directors dated 9 December 2009. This change of title has been registered in the Trade Registry Gazette on 8 March 2010 numbered 7516.

In accordance with the Banking Law Article 18 and upon approval from the Banking Regulation and Supervision Agency through its letter dated 19 October 2012 with the number B.02.1.BDK.0.12.00.00.11.01-21 395, the shareholding structure of the Bank was acquired by Standard Chartered Bank and its affiliates on 4 November 2012.

As approved by the Banking Regulation and Supervision Agency statement dated 8 November 2012 B.02.1BDK.0.12.00.0011.1 – No. 22391 and the statement issued by Republic of Turkey Ministry of Customs and Commerce dated 20 November 2012 and numbered B.21.0.İTG.0.03.00.01/431.02-46310-1186464-87507274 and as approved and amended in the Articles of Association of the Bank, its trade name under Article 3 was amended from “Credit Agricole Yatırım Bankası Trk A..” to “Standard Chartered Yatırım Bankası Trk A..”. Such amendment was approved at the Extraordinary Shareholders General Meeting held on 22 November 2012 and was published on Turkish Trade Registry Gazette on 30 November 2012.

II. Explanation about the Bank’s capital structure, shareholders of the Bank who are in charge of the management and/or auditing of the Bank directly or indirectly, changes in these matters (if any) and the group the Bank belongs to:

The paid-in capital of the Bank is TL 40,126. This capital is divided into 40,126,000 registered shares with a nominal value of 1 full TL. The controlling shareholder of the Bank is Standard Chartered Bank Limited.

GENERAL INFORMATION ABOUT THE BANK (Continued)

III Explanation on the Board of Directors, members of the audit committee, president and executive vice presidents, if available, and the shares of the Bank they possess (if any):

<u>Title</u>	<u>Name</u>	<u>Responsibility</u>	<u>Education</u>
Chairperson of the Board of Directors:	Karin Flinspach	President	Graduate
Vice Chairperson:	Belma Özmen	Vice President and Board Member Responsible for Financial Reporting	Undergraduate
Members of Board:	Kaşif Atun	Member and General Manager	Graduate
	Belma Özmen	Member	Undergraduate
	Byung Sung Yoon	Member	Graduate
	Folkert Lodewijk Ramon Van Wickevoort Crommelin	Member	Undergraduate
Audit Committee:	Belma Özmen	President	Undergraduate
General Manager:	Kaşif Atun	General Manager	Graduate

The Bank's chairperson and members of the board of directors, the members of the audit committee and general manager do not hold any shareholding in the Bank.

IV. Information on shareholders having control shares:

<u>Name /Commercial title</u>	<u>Share amounts</u>	<u>Share percentage</u>	<u>Paid-in capital</u>	<u>Unpaid portion</u>
Standard Chartered Bank	Partial	99.99%	40,126	-
Standard Chartered Bank UK Holdings Limited	Partial	0.00%	0,00	-
SCMB Overseas Limited	Partial	0.00%	0,00	-
Standard Chartered Overseas Holdings Limited	Partial	0.00%	0,00	-
Standard Chartered Holdings (International) B.V.	Partial	0.00%	0,00	-
TOTAL	All	100.00%	40,126	-

V. Information on the Bank's service type and field of operation

The Bank does not accept client deposits based on its investment bank status. The Bank's core business activities are to provide Transaction Banking trade financing support and Origination and Client Coverage lending and Treasury services to its clients. As of 30 September 2021, the number of employees in the Bank is 32 (31 December 2020: 31).

VI. Explanations on institutions, which are not subject to the difference between Communique on preparation of Banks' Consolidated Financial Statements and consolidation operations based on TAS, and institutions which are subject to full consolidation or proportional consolidation, reduced from equity or not included in these three methods:

None.

VII. Current or potential, actual or legal obstacles before the immediate transfer of the equity of subsidiaries with the Bank or repayment of debts:

None.

SECTION THREE

ACCOUNTING POLICIES

I. Explanation on basis of presentation:

a. The preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Accounting Applications for Banks and Safeguarding of Documents:

The Bank prepares its financial statements in accordance with the BRSA Accounting and Reporting Regulation” which includes the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Financial Reporting Standards (“TFRS”) published by the Public Oversight Accounting and Auditing Standards Authority for the matters not regulated by the aforementioned legislations. The format and content of the accompanying unconsolidated financial statements and footnotes have been prepared in accordance with the “Communique on Publicly Announced Financial Statements Explanations and notes to the Financial Statements” and “Communique on Disclosures About Risk Management to be Announced to Public by Banks”.

The financial statements have been prepared with historical cost in Turkish Lira (“TL”) except for the financial assets which are carried at fair value. The accompanying unconsolidated financial statements and the explanatory footnotes, unless otherwise indicated, are prepared in thousands of TL.

The preparation of financial statements in conformity with BRSA Accounting and Financial Reporting Regulations requires the use of certain critical accounting estimates by the Bank management to exercise its judgment on the assets and liabilities of the balance sheet and contingent issues as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made, and the effects of these corrections are reflected to the income statement. It is not expected to have any significant impact on the Bank’s accounting policies, financial position and performance from the amendments of TAS and TFRS issued as of the date of the financial statements.

The accounting policies and valuation principles used in the 2021 period are presented in the accompanying notes and the accounting policies and valuation principles are explained in Notes II to XXIII below.

As explained in the decision of BRSA numbered 7650 dated December 21, 2017, in the scope of paragraph (6) of Article 9 of the ‘Regulation on Procedures and Principles for the Classification of Loans and the Provisions to be Forwarded’ which entered into force as of 1 January 2018, it is permitted for the Bank to provide provisions in accordance with Articles 10, 11, 13 and 15 of the Regulation instead of TFRS 9. On the other hand, if the transaction volume and diversity of the Bank increase in the following periods, provision should be provided in accordance with TFRS 9 to the loans. Aforementioned exception is only related with provisions.

Additional paragraph for convenience translation to English

The differences between accounting principles, as described in the preceding paragraphs, and the accounting principles generally accepted in countries, in which the accompanying financial statements are to be distributed, and International Financial Reporting Standards (“IFRS”), may have significant influence on the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position and results of operations in accordance with the accounting principles generally accepted in such countries and IFRS.

ACCOUNTING POLICIES (Continued)

- I. Explanation on basis of presentation (continued):**
- b. Explanation on accounting principles adopted in the preparation of the financial statements and valuation methods:**
- The accounting policies and valuation methods applied in the presentation of these financial statements are in accordance with the TFRS. These valuation methods are explained in Notes II to XXIII.
- c. Explanation on accounting principles adopted in the preparation of valuation methods:**
- The accounting policies applied in the presentation of these financial statements are in accordance with the TFRS. These accounting policies are explained in Notes II to XXIII.
- II. Explanations on strategy of using financial instruments and explanations on foreign currency transactions:**
- Services have been decreased and on and off-balance sheet exposures have been minimized since 2012. The Bank did not grant any new corporate banking loans in current period and prior period. As a result, the credit and liquidity risks are at minimum as at 30 September 2021. The Bank's main activity is intra-group advisory services. Bank gives advisory services to Standard Chartered local and foreign subsidiaries for loan granting to companies located in Turkey or their subsidiaries abroad.
- At 30 September 2021, all of the monetary assets and liabilities denominated in foreign currency were converted into Turkish Lira using the following foreign exchange rates: USD 8.8785 TL, EUR 10.2933 TL (31 December 2020: USD 7.4194 TL, EUR 9.1164 TL).
- III. Explanations on forward transactions, options and derivative instruments:**
- As of 30 September 2021, and 31 December 2020, the Bank does not have any derivative transactions that are recognized as at fair value through profit or loss.

ACCOUNTING POLICIES (Continued)**IV. Explanations on interest income and expense:**

Interest income is recorded according to the effective interest rate method (rate equal to net present value of future cash flows or financial assets and liabilities) defined in the TFRS 9 "Financial Instruments" standard by applying the effective interest rate to the gross carrying amount of a financial asset except for: purchased or originated credit-impaired financial assets or financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. If the financial asset is impaired and classified as a non-performing receivable, the Bank applies the effective interest rate on the amortized cost of the asset for subsequent reporting periods. Such interest income calculation is made on an individual contract basis for all financial assets subject to impairment calculation. It is used effective interest rate during calculation of loss given default rate in expected credit loss models and accordingly, the calculation of expected credit losses includes an interest amount. Therefore, a reclassification is made between the accounts of "Expected Credit Losses" and "Interest Income from Loans" for calculated amount. If the credit risk of the financial instrument improves to the extent that the financial asset is no longer considered as impaired and the improvement can be attributed to an incident that eventually takes place (such as an increase in the loan's credit rating), interest income at subsequent reporting periods are calculated by applying the effective interest rate to the gross amount. Interest income and expenses are recognized in the income statement for all interest-bearing instruments on an accrual basis using the effective interest method (the rate that equalizes the future cash flows of financial assets and liabilities to the current net book value).

V. Explanations on fee and commission income and expenses:

All fees and commissions income/expenses are recognized on an accrual basis, except from certain commission income and fees from various banking services which are recorded as income at the time of collection. Fees and commissions expenses paid to the other institutions are recognized as operational costs and recorded by using the effective interest method. Contract based fees or fees received in return for services such as the purchase and sale of assets on behalf of a third party or legal person are recognized as income at the time of collection. Commissions earned from loans where the Bank acts as an intermediary is recorded as income at the end of each month on an accrual basis.

The Bank measures and accounts commission income from its advisory services in accordance with TFRS 15 'Revenue' standard. The Bank takes into account the terms and conditions of the service agreement signed with the parent company in order to determine the transaction price. The amount of commission income to be collected by the Bank is calculated on the basis of TL cost and the portion exceeding the determined amount is considered as USD variable cost. While the Bank assesses whether it is probable that there will be no significant reversal in the amount of cumulative revenue recorded in the financial statements when the uncertainty regarding the cost disappears, the Bank considers both the probability and the magnitude of the revenue reversal. In addition, the collection amounts realized after the balance sheet date are considered as events requiring adjustment after balance sheet date and relevant corrections are made. At the end of each calculation period, the Bank updates the estimated transaction price (including updating its assessment of whether a variable price estimate is limited) to accurately reflect the current conditions at the end of the period and the changes in conditions throughout the period. Income accruals are recognized in "Other Assets" line in the statement of financial position, the income and expense amount arising from these receivables are recognized in "Other Operating Income" and "Other Operating Expenses" respectively.

VI. Explanations on financial assets:

The Bank categorizes its financial assets as fair value through profit/loss, fair value through other comprehensive income or measured at amortized cost. Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Issued for classification and measurement of the financial instruments published in the Official Gazette No. 29953 dated January 19, 2017 by the Public Oversight Accounting and Auditing Standards Authority. Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than "Financial Assets at Fair Value Through Profit or Loss", transaction costs are added to fair value or deducted from fair value.

As per TFRS 9, the Bank classifies a financial asset on the basis of its contractual cash flow characteristics if the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

ACCOUNTING POLICIES (Continued)

VI. Explanations on financial assets (continued):

In order to assess whether the element provides consideration for only the passage of time, an entity applies judgement and considers relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set. When the contractual conditions are exposed to the risks which are not consistent with the basic lending arrangement or variability of cash flows, the relevant financial asset is measured at fair value through profit or loss. The bank tests all financial assets within the scope of TFRS 9 "whether the contractual cash flows arise solely from interest and capitals" and assessed the asset classification within the business model.

Measurement categories of financial assets and liabilities

Financial assets are classified compliance with TFRS 9 in four main categories as listed below:

- Financial assets measured at fair value through profit/loss
- Financial assets measured at fair value through other comprehensive income and
- Loan
- Financial assets measured at amortized cost.

a) Financial assets at fair value through profit or loss:

Financial assets at fair value through profit or loss are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement.

Equity securities, which are classified as financial assets measured at fair value through profit or measured are carried at fair value.

As of 30 September 2021, and 31 December 2020, the Bank has no financial assets at fair value through profit or loss.

ACCOUNTING POLICIES (Continued)

VI. Explanations on financial assets (continued)

b) Financial assets at fair value through other comprehensive income:

Financial Assets Measured at Fair Value Through Other Comprehensive Income occur from assets other than “Loans”, “Financial Assets Measured at Amortized Cost” and financial assets that are not derivative financial instruments. Financial Assets Measured at Fair Value Through Other Comprehensive Income are recorded along with the transaction costs directly related to the acquisition costs are recorded along with values from transaction costs directly related to the acquisition costs.

Financial assets at fair value through other comprehensive income are remeasured at fair value after the recognition. Interest income calculated with effective interest rate method arising from debt securities at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. “Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity.

Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

As of 30 September 2021, the Bank has financial assets at fair value through other comprehensive income TL 160 (31 December 2020: TL 160).

c) Loans:

Loans are financial assets that are non-derivative financial instruments and cannot be identified, at fair value through profit / loss or at fair value through other comprehensive income, have fixed or determinable payments and are not quoted in an active market. Loans are recognized initially at fair value that reflects the transaction costs of the acquisition cost value and subsequently recognized by the addition of the “Effective interest rate (internal rate of return) method” are measured at amortized cost. Assets received as collateral and other similar expenses incurred for the transaction costs and expenses are not considered as part of the accounts.

TFRS 9 “Financial Instruments” Standard, issued by POA in January 2017, while changing amendments to the existing guidance in TAS 39 “Financial Instruments: Recognition and Measurement”, the accounting, classification, measurement and off-balance sheet applications of TAS 39 has been transferred to TFRS 9. The latest version of TFRS 9 includes guidance on the application of a new expected credit loss model for the calculation of impairment on financial assets, as well as guidance on previous release versions of TFRS 9, including updated practices on new general hedge accounting requirements. TFRS 9 entered into force on 1 January 2018. In this context, banks have been required to apply TFRS 9 as of 1 January 2018 with the “Regulation on Procedures and Principles for Classification of Loans and Provisions to be set Aside” published in the Official Gazette dated 22 June 2016 and numbered 29750.

ACCOUNTING POLICIES (Continued):

VI. Explanations on financial assets (continued):

c) Loans (Continued)

The Bank is allowed to allocate provisions in accordance with the 10th, 11th, 13th and 15th articles of the Regulation instead of TFRS 9 with the BRSA's decision No. 7650 dated 21 December 2017.

In accordance with the Bank's management's evaluations and estimates, if the possibility of collecting any loan becomes limited or suspicious, and / or for the non-performing loans, published in the Official Gazette dated 22 June 2016 and numbered 29750, the principles and procedures for the classification of loans and the provisions to be set aside by taking into account the Regulation, it sets a special and general provision. Reserves are deducted from the income of that year. Receivables for which provision is provided in the previous periods are deducted from the provisions account when they are collected and reflected in "Other Operating Income" account. In the same year, when receivables are allocated, provisions are deducted from Provision for Loans. Uncollectible receivables are derecognized from the records after all legal procedures are completed.

d) Financial assets measured at amortized cost:

Financial assets measured at amortized cost are assets that are not classified under "loans" with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity; initially recognized at transaction prices at acquisition and not defined as financial assets at fair value through other comprehensive income or derivative financial assets. Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using "effective interest rate" method. Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

There are no financial assets that were previously classified as financial assets measured at amortized cost but cannot be subject to this classification for two years due to the violation of classification principles.

As of 30 September 2021, and 31 December 2020, the Bank does not have any financial assets measured at amortized cost.

VII. Explanations on impairment on financial assets:

The impairment on financial assets are evaluated whose indicators are carried at fair value in every balance sheet period. If there is any assets which are not carried at fair value, its provisions should be made as explained below.

Where the estimated recoverable amount of the financial asset, being the present value of the expected future cash flows discounted based on the "effective interest method", or the fair value if one exists is lower than its carrying value, then it is concluded that the asset under consideration is impaired. A provision is made for the diminution in value of the impaired financial asset and is charged against the income for the year.

The principles regarding the accounting of provisions of loans and receivables are explained in detail in Note VI of Section Three.

The COVID-19 epidemic got spread to various countries around the world, causing potentially fatal respiratory infections, affects both regional and global economic conditions negatively, as well as causing malfunctions in operations, especially in countries exposed to the epidemic. As a result of the spread of COVID-19 around the world, various measures have been taken in our country as well as in the world in order to prevent the transmission of the virus and it is still being taken. In addition to these measures, economic measures are also taken to minimize the economic impact of the virus outbreak on individuals and businesses in our country and worldwide. Bank did not grant any corporate loan exposures in the current and the previous periods. Since the main activity of the Bank is intra-group advisory services, the commission income from these advisory services may be affected by economic conditions.

ACCOUNTING POLICIES (Continued):

VIII. Explanations on offsetting financial instruments:

Financial assets and liabilities are included in this balance sheet if the Bank has a legal right and sanction power for netting and has an intention to collect / pay the related financial asset and liability over their net amount or realizing and paying the related financial asset and debt simultaneously. shown over their net amount.

IX. Explanations on sales and repurchase agreements and securities lending transactions:

Securities subject to repurchase agreements ("Repo") are classified as "Fair value difference through profit or loss", "Financial Assets at Fair Value Through Other Comprehensive Income" and "Financial Assets Measured at *Amortized Cost*" according to the investment purposes of the Bank and measured according to the portfolio to which they belong. Funds obtained from repurchase agreements are accounted under "Funds Provided under Repurchase Agreements" in liabilities and the difference between the sale and repurchase price is accrued over the life of repurchase agreements using the "effective interest method".

Funds given against securities purchased under agreements ("Reverse Repo") to resell are accounted under "Receivables from Reverse Repurchase Agreements" on the balance sheet. The difference between the purchase and determined resell price is accrued over the life of repurchase agreements using the "effective interest method". The Bank has no securities lending transactions.

X. Explanation on assets held for resale, discontinued operations and liabilities related with these assets:

Property and equipment held-for-sale consist of tangible assets that were acquired due to non-performing loans and receivables and are accounted in the financial statements in accordance with the regulations of "Turkish Financial Reporting Standard for Assets Held for Sale and Discontinued Operations (TFRS 5)".

The assets that meet the criteria of being classified under assets held for sale are measured at the lower of their book values or fair value less costs to be incurred for sale, depreciation for these assets is ceased and these assets are presented separately in the balance sheet. In order for an asset to be classified as an asset held for sale, the related asset (or the asset group to be disposed) shall be ready to be sold immediately under usual conditions and should have a high possibility to be sold. To have a high possibility of sale, a plan should have been made for the sale of the asset (or the asset group to be disposed) and an active program should have been started by the management, aiming to complete the plan and determine the buyers.

The properties obtained from the Group's receivables are shown at the fixed assets held for sale line according to the execution of the forward sales agreement. A discontinued operation is a part of an entity which is classified as to be disposed or held for sale. The results related to discontinuing operations are presented separately in the income statement.

ACCOUNTING POLICIES (Continued):

XI. Explanations on goodwill and other intangible assets:

The intangible assets are classified by adding their direct cost and production costs. After recognizing their cost, intangible assets are recorded by the value which is calculated over the deducting accumulated depreciation and provision for value decrease.

Other intangible assets are amortized using the straight-line method over the approximate useful lives of the related assets. The useful life is five years for other intangible assets which are mainly software programs. The useful life of the asset is determined by assessing the expected useful time of the asset, technical, technological and other types of worn-out and all required maintenance expenses done to utilize the economic benefit from the asset.

The Bank does not have any goodwill as at 30 September 2021 and 31 December 2020.

XII. Explanations on property and equipment:

Property and equipment is measured at its cost when initially recognized and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. Subsequently, property and equipment is carried at cost less accumulated depreciation and provision for value decrease, if any.

Depreciation is calculated over of the cost of property and equipment using the straight-line method based on expected useful lives. The expected useful lives are stated below:

Buildings	50 years
Vehicles (Leasing Assets)	3 years
Other	3-15 years

The depreciation charge for items remaining in property and equipment for less than an accounting period at the balance sheet date is calculated in proportion to the period the item remained in property and equipment.

On the case of where cost of tangible assets is higher than “net realizable value”, value of the asset is reduced to “net realizable value” and impairment loss provision is associated with expense accounts.

Gains and losses on the disposal of tangible assets are determined by deducting the net book value of tangible assets from its sales revenue.

Expenditures for the repair and renewal of property and equipment are recognized as expense. The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalized on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset, the quality of the product or to decrease the costs.

There are no pledge, mortgage and other measures or commitments related to the purchase, or another issue that limits their usage rights on tangible assets.

ACCOUNTING POLICIES (Continued)

XII. Explanations on property and equipment:

The Bank does not expect any changes in accounting estimations, or changes in subsequent period, that have significant impact related to tangible assets.

Investment property is kind of property which is held by the Bank to earn rent. These are listed in the attached financial statements at acquisition costs less accumulated amortization and impairment provisions. Depreciation is calculated over of the cost of property and equipment using the straight-line method based on expected useful lives.

The cost of the right-of-use asset comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, and direct costs paid by lessee in the beginning.

After the commencement date, the Bank measures the right-of-use asset applying a cost model. To apply the cost model, the Bank measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses; and adjusted for any remeasurement of the lease liability.

While assets that are considered as right-of-use assets in tangible fixed assets are subject to depreciation, depreciation are applied within the scope of TAS 16 Tangible Assets standard.

As of 30 September 2021, and 31 December 2020, there is no investment property in the financial statements.

XIII. Explanations on leasing transactions:

In accordance with the "TFRS 16 Leases" Standard assets acquired under finance lease agreements are capitalized at the inception of the lease at the "lower of the fair value of the leased asset or the present value of the amount of cash consideration given for the leased asset". Leased assets are included in the property and equipment and depreciation is charged on a straight-line basis over the useful life of the asset. If there is any diminution in value of the leased asset, a "Provision for value decrease" has been recognized. Liabilities arising from the leasing transactions are included in "Financial lease payables" on the balance sheet. Interest and foreign exchange expenses regarding lease transactions are charged to the income statement. The Bank does not have any leasing transactions as lessor.

The amount of the lease to the financial statement, measurement and presentation of the leases is shown in the gross balance of the balance sheet as equal to the total of all cash payments under the contract and netted with the interest expense arising from the contract. The right of use arising from leasing transactions is capitalized on the date when the leasing is commenced by measuring the present value of the lease payments that have not been paid at that date. In this measurement, the alternative borrowing interest rate given by the Asset Liability Management Department is used if it can be easily determined. During the first application, the Bank has recorded a lease obligation as an operating lease. These liabilities are measured at the present value of the remaining lease payments discounted using the Bank's average borrowing rate.

"TFRS 16 Leases" Standard published by Public Oversight Accounting and Auditing Standards Authority ("POA") in the Official Gazette numbered 29826 dated 16 April 2018 starting from 1 January 2019. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. The purpose of the standard is to ensure that the lessees and lessors present these transactions in a truthful way and provide the information appropriate to the need. This information constitutes the basis for the evaluation of the effects of leases on the financial position, financial performance and cash flows of the financial statement users. With the "TFRS 16 Leases" Standard effective as of 1 January 2019, the difference between operating lease and financial leasing has disappeared, and leasing transactions are terminated by lessees as "Property and equipment" in assets (right-of-use assets) and Liabilities from the transactions has started to be shown under the item as "Lease Liabilities". The Bank started to apply the Standard as of 1 January 2019. The Bank applied TFRS 16 with a simplified approach and did not restate the previous year. The mentioned standard does not have any effect on the "tangible fixed assets" item and the "lease liability" as of 30 September 2021 in the financial statements of the Bank.

ACCOUNTING POLICIES (Continued)

XIII. Explanations on leasing transactions (continued):

The Bank has applied TFRS 16 with a simplified retrospective approach. The new accounting policies of the Bank regarding to application TFRS 16 are stated below:

Right-of-use assets

The Bank recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use assets includes:

- (a) the amount of lease liabilities recognized,
- (b) lease payments made at or before the commencement date less any lease incentives received and
- (c) initial direct costs incurred.

Unless the Bank is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease Liabilities

At the commencement date of the lease, the Bank recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include:

- a) fixed payments (including in-substance fixed payments) less any lease incentives receivable,
- b) variable lease payments that depend on an index or a rate,
- c) amounts expected to be paid under residual value guarantees.
- d) the exercise price of a purchase option reasonably certain to be exercised by the Company / the Group and payments of penalties for terminating a lease,
- e) if the lease term reflects the Company / the Group exercising the option to terminate.

The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Company / the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the effective date of the lease, the Bank measures the lease obligation as follows:

- a) The book value is increased to reflect the accretion of interest of lease liabilities,
- b) The book value is reduced to reflect the lease payments made.

In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Bank applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

ACCOUNTING POLICIES (Continued)

XIV. Explanations on provisions and contingent liabilities:

Provisions and contingent liabilities are accounted in accordance with “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (“TAS 37”).

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. The provision for contingent liabilities arising from past events should be recognized in the same period of occurrence in accordance with the matching principle. When the amount of the obligation cannot be estimated and there is no possibility of outflow of resources from the Bank, it is considered that a “Contingent” liability exists, and it is disclosed in the related notes to the financial statements.

XV. Explanations on contingent assets:

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

XVI. Explanations on obligations related to the employee rights:

a) Defined benefit plans:

Under the Turkish Labor Law, the Bank is required to pay a specific amount to the employees who have retired or whose employment is terminated due to reasons other than those specified in the Turkish Labor Law. The reserve for employment termination benefits represents the present value of the estimated total future probable obligation of the Bank arising from the retirement of all employees in accordance with the Turkish Labor Law, the termination of the employment without due cause who has completed at least one year of service, military service obligation and death. The reserve for employment termination benefit has been calculated and recognized in accordance with “Turkish Accounting Standard for Employee Rights” (“TAS 19”) in the financial statements. In accordance with the amendment in the TAS 19, effective from 1 January 2015, the actuarial gains/(losses) related to employee benefits are recognized under equity other profit reserves.

b) Defined contribution plans:

The Bank shall pay contributions to the Social Security Institution (Institution) on behalf of its employees at the amounts determined by the law. Other than the contributions being paid, the Bank is not liable to pay any amount to its employees or the Institution. These premiums are charged to personnel expenses in the period when they accrue.

c) Short term benefits for employees:

The liabilities arising from the vacation payments defined as “short-term benefits provided to employees” within the framework of TAS 19 shall be accrued in the period when they are granted, and they shall not be discounted. Within the scope of “TAS 19-Employee Benefits”, the Bank allocates to rights obligations for employee benefits.

ACCOUNTING POLICIES (Continued)

XVII. Explanations on taxation:

a) Current tax:

Many clauses of Corporate Tax Law No. 5520 which are valid starting from 1 January 2006, came into effect after being published in Official Gazette No. 26205, dated 21 September 2006. Accordingly, to the corporate tax rate in Turkey is 20%. The corporate tax rate is applied to tax base which is calculated by adding certain non-deductible expenses for tax purposes and deducting certain exemptions (like dividend income) and exclusion of deductions on accounting income. If there is no dividend distribution, no further tax charges are made. In accordance with the law on the method of collection of public receivables and amendments in some laws, published in the Official Gazette No. 31462 dated April 22, 2021, the corporate tax rate for the corporate earnings of the 2021 taxation period is 25%, It has been decided to apply the corporate tax rate on earnings as 23% for 2022. This article entered into force on the date of its publication, starting from the declarations that must be submitted as of July 1, 2021 and being valid for the corporate earnings for the taxation period starting from January 1, 2021.

Dividends paid to non-resident corporations, which have a place of business in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and thus does not incur withholding tax.

Advance tax is declared and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations which is for the current period is credited against the annual corporation tax calculated on their annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

According to 5.1.e. article of Corporation Tax Law which is important tax exemption that is applied by banks, corporations’ 50% of revenues that occur from selling of their real estates, are in assets, that belong to the corporations at least two years (730 days), 75% of revenues that occur from selling their founding bonds that belong to the corporations as long as time of participation stocks, redeemed shares and option to call are exempted from Corporation Tax. (It was changed with 89th article of code 7061 that entries into force in 5 December 2017. According to dated 23 December 2017 3rd article of Corporation Tax Code (CTC) 14 annunciation this exemption will apply as ratio of 75% for selling that made till the 5 December 2017, after this date it will apply as ratio of 50%).

This exemption applies to the period the sale is made and the part of return on sales that benefits from the exemption is held in a special fund in the liabilities account until the end of the fifth year started from the following year sale is made. However, the sales payment must be collected until the end of the second calendar year following the year in which the sale is made. Taxes which are not realized in time due to the exemption that hits uncollected sales payment are considered as tax loss.

Taxes which do not accrue on time because the applying exemption for the transfer of the exempted part of revenue to the other accounts with other ways out of capitalizing in five years or withdrawn from company or transferring from limited taxpayer corporations to the headquarters, are considered as tax loss. This is also be applicable in the condition of liquidation of business (except for the transfers and divisions that are made according to this Code).

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. However, losses cannot be off settled from retained earnings.

In Turkey, there is not a procedure for an agreement on taxes payable with the tax authorities. Tax returns are required to be filled and delivered to the related tax office until the last evening of the 25th of the fourth month following the balance sheet date. Tax returns are open for five years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Current tax related to items recognized directly in equity is also credited or charged directly to equity.

ACCOUNTING POLICIES (Continued)

XVII. Explanations on taxation (Continued):

b) Deferred tax:

The Bank calculates and accounts for deferred income taxes for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with “Turkish Accounting Standard for Income Taxes” (“TAS 12”). In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date.

Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilized. Deferred tax asset is not provided over provisions for possible risks and general loan loss provisions according to the circular of BRSA numbered BRSA.DZM.2/13/1-a-3 and dated 8 December 2004.

The calculated deferred tax asset and deferred tax liability are presented as net off in financial statements.

Deferred tax related to items recognized directly in equity is also credited or charged directly to equity.

Due to the completion of the temporary tax rate change at the rate of 22% with the "Law on the Amendment of Some Tax Laws and Some Other Laws" numbered 7061 as of 2020, 25% tax rate is used for temporary differences to be realized or closed by the end of 2021, 23% tax rate is used for temporary differences to be realized or closed by the end of 2022 and %20 tax rate is used for temporary differences to be realized or closed by the end of 2023 and on while preparing the financial statements as of 30 September 2021.

c) Transfer Pricing

The article no.13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “Disguised Profit Distribution by Way of Transfer Pricing”. “The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing” was published on 18 November 2007, explains the application related issues on this topic. According to this communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes. As stated in the “7.1 Annual Documentation” section of this communiqué, the taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

XVIII. Explanations on borrowings:

Trading and derivative financial liabilities are valued with their fair values and the other financial liabilities are carried at amortized cost using the effective interest method.

XIX. Explanations on issuance of share certificates:

Transaction costs regarding the issuance of share certificates are accounted under shareholders’ equity after eliminating the tax effects.

The Bank does not have any share certificates issued as at 30 September 2021 and 31 December 2020.

XX. Explanations on drafts and acceptances:

Analysed drafts and acceptances shown as liabilities against assets are included in the “off-balance sheet commitments”.

XXI. Explanations on government incentives:

As at 30 September 2021 and 31 December 2020, the Bank has no government incentives.

XXII. Explanations on segment reporting:

An operating segment is a component of an entity:

- a. that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity),
- b. whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and
- c. for which discrete financial information is available.

Information about operating segments is disclosed in Note VI of Section Four.

XXIII. Explanations on other matters:

The Bank transferred its 2020 profits to previous years' profits after allocating legal reserves.

Profit reserves and profit distribution:

Legal reserves consist of first and second reserves as prescribed in the Turkish Commercial Code ("TCC"). The Turkish Commercial Code stipulates that the first legal reserve should be divided by 5% from the profit up to 20% of the total paid capital. The second legal reserve is appropriated at the rate of 10% on all cash dividend distributions in excess of 5% of the paid-in capital. Holding companies are not subject to this practice. Under the provisions of the Turkish Commercial Code, the legal reserves can only be used to cover losses and are not available for profit distribution unless they exceed 50% of the paid-in capital.

Comparative information and classifications

Significant changes in accounting policies are applied retrospectively and previous period financial statements are rearranged. The unconsolidated financial statements of the Bank are prepared in comparison with the previous period in order to allow the determination of financial status and performance trends. Comparative information is rearranged when necessary in order to comply with the presentation of the current period unconsolidated financial statements.

SECTION FOUR

INFORMATION RELATED TO FINANCIAL POSITION OF THE BANK

I. Explanation on equity:

Total capital amount is calculated pursuant to "Regulation on Equity of Banks" and capital adequacy ratios are calculated pursuant to "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks". As of 30 September 2021, capital adequacy standard ratio calculated based on "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" is 94.24% and above the minimum rate specified in the relevant legislation (31 December 2020:105.51%).

Based on the announcement of BRSA as of 23 March 2020 banks are entitled to use the 2019 year-end exchange rates in calculating of the amount of subject to credit risk while calculation on amounts valued in accordance with TAS and the related specific provision except of monetary and non-monetary items in foreign currency measured in terms of the historical cost in accordance with Regulation on Measurement and Assessment of Capital Adequacy of calculation in accordance with the Regulation on Banks' Equity and used for capital adequacy ratio due to the fluctuations in the financial markets as a result of the COVID-19 epidemic. The Bank did not use this measure in its capital adequacy standard ratio calculation.

	Current Period 30 September 2021
COMMON EQUITY TIER 1 CAPITAL	
Paid-in capital following all debts in terms of claim in liquidation of the Bank	40,126
Share issue premiums	-
Reserves	51,718
Gains recognized in equity as per TAS	5,994
Profit	58,140

* Amounts to be considered within the scope of transitional provisions

** Consolidated financial transactions within the scope of the 4th paragraph of Article 4 of the Regulation on Systemically Important Banks only

It will be filled by systemically important banks that do not have the obligation to prepare tables and will be reported as zero by other banks.

Explanations on borrowing instruments to be included in equity calculation:

None.

Explanations on reconciliation of equity items and balance sheet amounts:

The principal difference between the equity amount in the statement of shareholders' equity and the shareholders' equity the unconsolidated balance sheet is related to the general provisions. The portion of general provisions up to 1.25% of the amount subject to credit risk is considered as Contribution Capital in the calculation of the Equity amount given in the statement of shareholders' equity. In the balance sheet, intangible assets and deferred tax liabilities are taken into consideration in the calculation of Equity as values to be deducted from capital.

Banking book interest rate risk arising from the nature of the deposits other than time deposits and loan repayments and significant assumptions, including those related to the movement of interest rate risk measurement frequency:

In Official Gazette No. 28756, dated 5 September 2013 “Regulation on Measurement Capital of Banks” monitored items are published, which are taken into account in the calculation of shareholders' equity in accordance with the items excluding subordinated liabilities, with the exception of all balance sheet and off-balance sheet items sensitive to interest arising from the interest rate risk calculation. Calculations are made early repayments of loans made any assumptions for demand and time deposits. Arising from the banking book; interest rate risk is calculated on a monthly basis and reported to the BRSA.

*Applied to a currency different intensity and direction are entered in separate lines for each shock.

IV EXPLANATIONS ON THE POSITION RISK OF SHARES

As of 30 September 2021, the Bank does not have the position risk of shares (31 December 2020: None). The Bank only has 15,971,094 shares with a nominal value of TL 160 which is transferred by Borsa İstanbul A.Ş. as free of charge in its financial assets at fair value through other comprehensive income portfolio.

V. EXPLANATIONS ON LIQUIDITY RISK AND LIQUIDITY COVERAGE RATIO

Liquidity risk is the risk where the Bank cannot meet its obligations on time or reaches financial resources with high cost due to the lack of sufficient financial resources. Liquidity risk of the Bank is monitored by the Finance Department within the liquidity limits determined by the BRSA. In the Asset Liability Committee, the liquidity position of the Bank is assessed on a monthly basis, and actions are taken when deemed necessary. The sensitive balance between interest rates and liquidity gap is closely monitored in order to prevent any liquidity risks. In order to pay the liabilities due on time, sufficient cash and cash equivalents are held. The impact of tenor mismatches on profitability is minimized through effective monitoring of liquidity risk. The Bank's short and long-term liquidity needs are in case of necessity provided by the shareholder, Standard Chartered Bank Limited, and other banks. Liquidity risk is minimized for long term loans matching the funds tenors.

INFORMATION RELATED TO FINANCIAL POSITION OF THE BANK (Continued):**V EXPLANATIONS ON LIQUIDITY RISK AND LIQUIDITY COVERAGE RATIO (Continued):**

The Bank relies on its existing liquid pool of capital and undistributed profits to meet its operational needs. The liquidity buffer of the Bank consists of the cash surplus available for allocation to the Central Bank of the Republic of Turkey ("TCMB"), the SCB or the local bank. As a result of financial uncertainty due to the coronavirus epidemic, liquidity management has become one of the priorities of the Bank. According to the regulation dated March 26, 2020 published by the BRSA, it was decided to exempt the Liquidity Coverage Ratio (LCR) to reduce the operational burden for investment banks, on the other hand, as of 01.01.2021, the aforementioned obligation has been implemented again.

The Bank's liquidity level is well above legal thresholds. According to the BRSA's "Regulations on the Banks' Liquidity Coverage Ratio Calculation" which was published in the Official Gazette numbered 28948 dated 21 March 2014, foreign currency and total liquidity ratios are calculated on a weekly basis in accordance with the minimum and maximum values and the corresponding week is as follows:

30 September 2021

	FC	FC+TL
Average (%)	-	20,600.57
Max (%)	-	41,718.98
Week		16 July 2021
Min (%)	-	11,392.34
Week		23 July 2021

Liquidity Coverage Ratio:

According to the "Regulation on the Banks' Liquidity Coverage Ratio Calculation" published by the BRSA, calculated foreign currency and total liquidity coverage ratio are monitored to ensure that banks keep high levels of liquid assets to cover net cash outflows.

Therefore, these ratios are affected by cash inflows and outflows occurred by level of liquid assets, which can be liquid at any moment and are not subject to any guarantee, assets, liabilities and off-balance sheet items.

VIII EXPLANATIONS ON RISK MANAGEMENT AND RISK WEIGHTED AMOUNTS (Continued)

b. Credit Risk Explanations (Continued)

Board of Directors determines the credit risk appetite and sets the credit limits to ensure that Bank’s exposure is aligned with its risk appetite. Credit limits are determined taking into consideration customers' financial strength, commercial capacities, credit needs, the Bank's lending credit policies and macro-economic conditions are carried out.

Credit limits approved by Board of Directors are made available to credit clients only upon completion of required credit documentation and satisfaction of conditions precedent. In addition, the unavoidable calculation conditions for the loans are audited from the place where it is predicted in the existing deposit and it updated in case of necessity.

Since the Bank is operating under investment banking license, it is not subject to Article 54 of the Banking Law about the regulatory lending limits. All credit limits are reviewed at least once a year. Credit clients belonging to the same risk group are analyzed and reviewed together taking into consideration total exposure and limits on the group.

All the on and off-balance sheet credit utilizations are controlled and monitored by the Risk management Unit in terms of concentration of the credit risk by country, sectors, company/group, maturity profile, collaterals and internal credit grades.

The credit default events, classification of the doubtful credits and related provision levels are determined by the Bank in line with BRSA regulation published No. 26333, dated 1 November 2006, “Procedures & Principles for Determination of Qualification of Loans and Other Receivables by Banks and Provisions to be Set Aside”. The Bank calculates and records general and specific provisions in accordance with the Provisions regulation under the value adjustments and provisions.

Risk classifications	Current period risk amount (*)	Current period average (**)

(iv) Information on non-performing loan receivables granted in foreign currency: None.

(v) Information on non-performing loans restructured or rescheduled and other receivables: None.

(vi) Explanations on the write-off policy:

After all kinds of legal procedures are exercised and if there is no probability of collecting the loan, those uncollectible loans are written-off from the Bank’s assets. The Bank has followed a policy of deletion from assets in 2020 in line with the decision of the board of directors, which has been followed in the non-performing loans account and allocated for all, amounting to TL 4,965.

(vii) The policy followed-up for the collection of uncollectible loans and other receivables:

The Bank is prudent with regards to lending and follow-up policies for doubtful loans. Early precautions have been taken for problematic transactions and the Bank attempts to solve customers’ problems via consultative or advisory approach. In cases where no solution can be found to the customer’s problem, the Bank tries to collect the receivable with cash-convertible guarantees for loans secured.

II. Disclosures and footnotes prepared by independent auditors

None.

SECTION SEVEN

INTERIM ACTIVITY REPORT

I. Interim activity report including Assessments of Chairman and General Manager about activities of the interim period.

a. Assessment of Chairman and General Manager

The global strategy of Standard Chartered Bank (“SCB”) is to focus on trading, investment and asset acquisition activities in Asia, Africa and the Middle East by creating a network that transcends borders. Turkey is located in a strategic position by meeting local and international operational requirements of customers.

Standard Chartered Yatırım Bankası Türk A.Ş.'s goal is to provide support and advisory services in the realms of transaction banking, corporate finance and financial markets to Turkey-based companies and their subsidiaries located in countries where SCB perform their activities, customers in countries which SCB selects as a target market (footprint) and customers out of these countries (network).

The Bank’s total assets amounted to TL 147,253 as of 30 September 2021. The most important account item in assets is the bank capital placed in domestic banks with a rate of 81%.

The Bank has shareholders equity amounted to TL 132,221.

As of 30 September 2021, the Bank’s profit after tax is TL 20,542.

As of 30 September 2021, The Bank’s capital adequacy ratio is 94.24% and this ratio is quite above the minimum threshold identified by the relevant regulations.

Best Regards

Karin FLINSPACH
Chairperson

Kaşif ATUN
General Manager
